a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
f Choose from GEOG:3400, GEOG:3780, HIST:3230, POLI:1400, or POLI:3111
g Choose from CNW:2740, JMC:1800, RHET:3560, or RHET:3700.
h Choose from ENVS:3010 or GEOG:3992. Honors students choose from ANTH: 4995, GEOG:4995, POLI:4601, or both HIST: 3995 and HIST: 3996.
i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Environmental Policy and Planning, Minor

## Requirements

The undergraduate minor in environmental policy and planning requires a minimum of 18 s.h., including 12 s.h. in University of Iowa courses numbered 3000 or above. Students must maintain a gradepoint average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

For help in selecting courses, students should contact the department secretary to request an advisor for the minor. Students may apply a maximum of 6 s.h. toward both the minor in environmental policy and planning and any major or minor in the departments of Anthropology, Geographical and Sustainability Sciences, or Political Science.
The minor in environmental policy and planning requires three core courses plus three courses from the student's choice of track: the planning track or the policy track. Students may not use a course to satisfy more than one requirement of the minor.

## Core Courses

All students complete three core courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  |  |
| GEOG:1070 | Contemporary Environmental <br> Issues | 3 |
| One of these: | Human Impacts on the | 3 |
| ANTH:2261 | Environment |  |
| ANTH:3103 | Environment and Culture | 3 |
| GEOG:3300/ | Envisioning Future Worlds: <br> GHS:3300 | Sustainable Development and <br> Its Alternatives |
| NAIS:1290/ Native American Foods and | 3 |  |
| AMST:1290/ | Foodways |  |
| GHS:1290/HIST:1290 |  | 3 |
| One of these: | Introduction to Comparative |  |
| POLI:1400 | Politics | 3 |
| POLI:3111 | American Public Policy |  |

Students also complete coursework in a single track, choosing three courses from either the planning track list or the policy track list below.

## Planning Track

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| GEOG:2410 | Environment and Development | 3 |
| GEOG:2930 | Water Resources | 3 |

| POLI:3204/SOC:3525 | Public Opinion | 3 |
| POLI:3408 | Chinese Politics and Society | 3 |
| POLI:3424 | Global Development | 3 |

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Environmental Policy and Planning, Minor

Course Title Hours

Academic Career

## Any Semester

Students pursuing the Environmental Policy and Planning minor must complete three core courses plus three courses from their choice of track.
12 semester hours of advanced courses for the
Environmental Policy and Planning minor must be taken at the University of Iowa.
6 semester hours of coursework can double-count between the Environmental Policy and Planning minor and the Anthropology, Geography, and/or Political Science majors and minors.

First Year
Spring

| GEOG:1070 | Contemporary Environmental Issues | 3 |
| :--- | :--- | :--- |
|  | Hours | $\mathbf{3}$ |

Second Year
Fall

| Minor: core course ${ }^{\text {a }}$ | Hours | 3 |
| :--- | :--- | :--- |
| Spring | American Public Policy |  |
| POLI:3111 <br> or POLI:1400 <br> or Introduction to Comparative <br> Politics | $\mathbf{3}$ |  |
|  | Hours | 3 |

Third Year
Fall

| Minor: policy or planning track elective course ${ }^{\text {b }}$ | 3 |
| :---: | :---: |
| Hours | $\mathbf{3}$ |

## Spring

| Minor: policy or planning track elective course ${ }^{\mathrm{b}}$ | 3 |
| :---: | :---: |
| Hours | $\mathbf{3}$ |

Fourth Year
Fall

| Minor: policy or planning track elective course ${ }^{\text {b }}$ | $\mathbf{3}$ |
| :---: | ---: |
| Hours | $\mathbf{3}$ |
| Total Hours | $\mathbf{1 8}$ |

a Choose one course from ANTH:2261, ANTH:3103, GEOG:3300, NAIS:1290.
b Students must complete three courses from either the policy track or the planning track; see the General Catalog for list of approved courses.

# Environmental Sciences 

Chair, Department of Earth and Environmental Sciences

- David W. Peate

## Academic Coordinator

- Emily Finzel

Program Coordinator

- Andrew A. Forbes

Undergraduate major: environmental sciences (BA, BS)
Undergraduate minor: environmental sciences
Faculty: https://environmentalsciences.uiowa.edu/people
Website: https://environmentalsciences.uiowa.edu/
The Environmental Sciences Program provides rigorous interdisciplinary training in the scientific study of the environment. It promotes an understanding of the earth as a complex network of interacting organic and inorganic systems. The program's undergraduate curricula reflect the diversity in the broad field of environmental sciences and draw upon the College of Liberal Arts and Sciences' disciplinary strengths, giving students the opportunity to develop particular areas of expertise.

Hands-on field experience is a crucial component of the program. Students are strongly encouraged to engage in research and study abroad.

The Department of Earth and Environmental Sciences [p. 369] is the administrative home for the Environmental Sciences Program.

## Programs

## Undergraduate Programs of Study

 Majors- Major in Environmental Sciences (Bachelor of Arts) [p. 449]
- Major in Environmental Sciences (Bachelor of Science) [p. 453]

## Minor

- Minor in Environmental Sciences [p. 462]

## Facilities

Depending on their choice of track and/or course selection, students majoring in environmental sciences may have the opportunity to take courses at Iowa Lakeside Laboratory, a field station located on West Lake Okoboji, in northwestern Iowa. Run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa, the laboratory offers courses at the undergraduate and graduate levels and provides excellent conditions for summer study in several disciplines. See Iowa Lakeside Laboratory [p. 2063] (University College) in the catalog or visit the Lakeside Laboratory website.

Courses

## Environmental Sciences Courses

ENVS:1080 Introduction to Environmental Science 3-4 s.h.
Biological and physical character of the Earth; interaction of humans with the environment, including impacts on ecosystems, climate, natural processes, resources; alternative options, including sustainability, waste management, energy, land reform. GE: Sustainability. GE: Natural Sciences with Lab; Natural Sciences without Lab. Same as EES:1080.

## ENVS:1081 Introduction to Environmental Sciences

## Laboratory

1 s.h.
Laboratory component of EES:1080. Requirements: completion of 3 s.h. in EES:1080 or ENVS:1080; or 3 s.h. of transfer equivalent. GE: Natural Sciences Lab only. Same as EES:1081.

## ENVS: 1085 Fundamentals of Environmental Science

4 s.h.
Interdisciplinary study of how Earth's natural systems interact, how these systems affect society, and how they respond to human activity; how environmental problems can be solved and avoided by drawing upon knowledge in disciplines as diverse as ecology, anthropology, economics, chemistry, and political science; blended instructional environment, including traditional lectures, discussions in TILE classrooms, laboratory, online learning, peer-reviewed writing exercises, and service learning. Offered fall semesters. GE: Sustainability. GE: Natural Sciences with Lab. Same as EES:1085.

## ENVS:1115 The History of Oil

3 s.h.
Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Sustainability. GE: Historical Perspectives. Same as EES:1115, GEOG:1115, HIST:1115.

## ENVS:2001 Second-Year Field Trip for Earth and Environmental Sciences <br> 1 s.h.

Opportunity for students to begin developing an appreciation of earth system and earth history scales; application of classroom learning to field-based inquiry; real-world examples of introductory course material in an outdoor classroom setting. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080. Requirements: geoscience or environmental sciences major. Same as EES:2001.
ENVS:2010 Interdisciplinary Environmental Seminar
Discover research, explore careers, and build connections.
Requirements: first- or second-year standing. Same as EES:2010, GEOG:2010.
ENVS:2020 Earth's Climate System
3 s.h.
Overview of climate science and how we understand Earth's climate system through interconnected relationships between oceans, atmosphere, biosphere, and geosphere; introduction to climate archives, systems science, climate modeling, and mechanisms responsible for ancient and modern climate change. Recommendations: EES:1030, EES:1050, EES:1080, EES:1085, or GEOG:1020. Same as EES:2020.
ENVS:2200 Historical Geology
4 s.h.
Framework of earth history that is essential to understand how the earth system works; investigation of physical, biological, atmospheric, oceanographic, and chemical history of the earth to prepare for further earth and environmental science courses. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080 or EES:1085 or ENVS:1085. Same as EES:2200.

## ENVS:2673 Ecology

Adaptations of organisms to their physical and biological environments; organism-environment interactions; population biology; interactions between species; ecology of communities, ecosystems; human impact on ecosystems. Recommendations: a basic statistics or calculus course. Same as BIOL:2673.

## ENVS:3001 Third-Year Field Trip for Earth and Environmental Sciences 1 s.h.

 Opportunity for students to apply their major coursework to real-world problems; field trip to visit parks, mines, and/or quarries in Missouri and Arkansas that illustrate many of the lessons learned in EES:2410 and EES:3500. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080 or EES:2410. Requirements: geoscience or environmental sciences major, and junior standing. Same as EES:3001.ENVS:3010 Interdisciplinary Environmental Seminar 1 s.h. Role of sciences in environmental issues and problems; progression from observation to evaluation to design of better questions and experiments. Requirements: third- or fourth-year standing. Same as EES:3010, GEOG:3003.

## ENVS:3020 Earth Surface Processes

Basic geomorphic and environmental processes that shape the earth's surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Recommendations: EES:1050 or EES:1080 or ENVS:1080 or GEOG:1020 or EES:1085 or ENVS:1085. Same as EES:3020, GEOG:3020.

## ENVS:3050 Geology of Iowa

2 s.h.
Exploration of geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; background of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms, utilizing natural landscapes in Iowa. Same as EES:3050.

## ENVS:3051 Geology of Iowa Field Trip

1 s.h.
Exploration of the geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; fieldbased examples of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms utilizing the natural landscapes in Iowa. Recommendations: EES:3050. Same as EES:3051.

## ENVS:3095 Field Ecology

4 s.h.
Analysis and interpretation of patterns and underlying physical and biotic basis for regional and local distributions of plants and animals of eastern Iowa; field observation, sampling, and laboratory analysis; conduction of several field research projects requiring collection, statistical analysis, and interpretation of data in short reports; fieldoriented course. Prerequisites: BIOL:2673. Recommendations: advanced undergraduate standing or graduate standing in ecology, environmental sciences, or geoscience.

ENVS:3096 Winter Ecology $\quad 2$ s.h.
How seasons occur, thermoregulation, microhabitats, what animals are active, and winter plant identification; local area fieldwork.
ENVS:3097 Introduction to Bird Study 2 s.h.
Basic identification skills, bird banding, and bird ecology; Hageboeck Hall of Birds at the UI Museum of Natural History; local field study.

## ENVS:3100 Earth and Planetary Remote Sensing

 4 s.h.Remote sensing of the earth's surface from aircraft, satellites; aerial photograph interpretation; remote sensing systems, methods, data analysis using electromagnetic spectrum and digital processing techniques, including visible, infrared, microwave radiation; remote sensing applied to geologic and environmental problems. Prerequisites: EES:1030 or EES:1050 or EES:1080 or EES:1085. Same as EES:3100.

3 s.h.
3 s.h. ENVS:3110 Chemical Evolution of the Oceans
Investigation of various physicochemical states oceans have assumed over the past 4 billion years of Earth history; use of isotope geochemistry as a proxy for ancient ocean conditions; focus on integrated Earth system science, paleoceanographic and paleoclimate modeling, role of chemical stratigraphy in deciphering past climate states of ocean-atmosphere system; relationship between chemical changes in ocean/atmosphere and biological systems of the Earth. Same as EES:3110.

## ENVS:3230 Special Topics

0-4 s.h.
Contemporary issues in environmental science.

## ENVS:4001 Fourth-Year Field Trip for Earth and Environmental Sciences 2 s.h.

Application of core course learning to real-world examples; students develop a broader understanding of interrelated aspects of earth and environmental sciences as truly integrated scientific endeavors; field trip to Big Bend National Park to highlight a wide range of geoscience and environmental science studies and provide students an opportunity to apply all aspects of their training to the amazing geologic landscape of southwest Texas; capstone field experience for students heading into their senior year. Prerequisites: EES:2831. Requirements: geoscience or environmental sciences major, and senior standing. Same as EES:4001.

## Environmental Sciences, BA

## Learning Outcomes

Environmental Sciences Program students will:

- synthesize scientific knowledge and methods across disciplines,
- comprehend and evaluate primary findings in published scientific articles,
- gain experience conducting independent research and/or reviewing scientific areas of interest, and
- effectively communicate scientific findings in written and/or oral form.

## Requirements

The Bachelor of Arts with a major in environmental sciences requires a minimum of 120 s.h., including a minimum of $63 \mathrm{~s} . \mathrm{h}$. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19]; some courses required for the major in environmental sciences may be used to satisfy GE CLAS Core requirements.

Students complete requirements in five areas: science and mathematics foundation; environmental sciences foundation; environmental sciences field study; environmental sciences policy courses; and environmental sciences track courses.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on the geomorphic and environmental processes that shape the earth's surface, the ecological factors that influence the distribution and abundance of organisms, and a choice of one course that deals with remote sensing techniques or with the use of geographic information technologies. The environmental sciences field study gives students hands-on experience with methods of analysis and interpretation of natural systems/organisms.
Each of the program's four tracks focuses on areas of specialization within environmental sciences:

- biosciences (green) track—biological systems and ecological approaches;
- chemical sciences (yellow) track-environmental systems and chemistry;
- geosciences (brown) track—earth materials and surficial geologic processes; and
- hydrosciences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

Students select one course from each of the four tracks in order to develop breadth of understanding and skill in these areas.

The BA in environmental sciences requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Science and Mathematics Foundation Course | 27 |
| Environmental Sciences Foundation Courses | $15-16$ |
| Environmental Sciences Field Study Course | $3-4$ |
| Environmental Sciences Policy Courses | 6 |
| Environmental Sciences Track Courses | $12-15$ |

## Science and Mathematics Foundation

Students must complete at least 27 s.h. of coursework, as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| BIOL:1411 | Foundations of Biology | 4 |
| BIOL:1412 | Diversity of Form and Function | 4 |
| CHEM:1110 | Principles of Chemistry I | 4 |
| CHEM:1120 | Principles of Chemistry II | 4 |
| EES:1050 | Introduction to Geology | 4 |
| One of these: | Calculus for the Biological <br> MATH:1460 | Sciences |
| MATH:1850 | Calculus I | 4 |
| One of these: | Fundamentals of Chemical |  |
| CHEM:2021 | Measurements | 4 |
| STAT:3510/ | Biostatistics | 3 |
| IGPI:3510 | Statistical Methods and | 3 |
| STAT:4200/ | Computing |  |
| IGPI:4200 |  |  |

## Environmental Sciences Foundation

Students must complete at least 15 s.h. of coursework, as follows.

| Course \# | Title | Hours |
| :--- | :--- | :---: |
| All of these: |  |  |
| ENVS:1085/ | Fundamentals of Environmental | 4 |
| EES:1085 | Science |  |
| ENVS:2010/ | Interdisciplinary Environmental | 1 |
| EES:2010/ | Seminar |  |
| GEOG:2010 |  |  |
| ENVS:2673/ | Ecology | 3 |
| BIOL:2673 |  |  |
| ENVS:3010/ | Interdisciplinary Environmental | 1 |
| EES:3010/ | Seminar |  |
| GEOG:3003 |  |  |
| ENVS:3020/ | Earth Surface Processes |  |
| EES:3020/ |  | 4 |
| GEOG:3020 |  | 3 |
| One of these: | Foundations of GIS |  |
| GEOG:2050 | Introduction to Environmental |  |
| GEOG:3500/ | Remote Sensing |  |
| IGPI:3500 |  |  |

## Environmental Sciences Field Study

Students must complete at least 3 s.h. from the following.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| ENVS:3095 | Field Ecology | 4 |
| ENVS:3096 | Winter Ecology | 2 |
| ENVS:3097 | Introduction to Bird Study | 2 |
| ENVS:3230 | Special Topics (must include <br> field component) | $1-4$ |
| EES:2831 | Geologic Field Methods | 3 |
| EES:4680 | Field Methods in Hydrologic <br> Science | 3 |
| GEOG:4010 | Field Methods in Physical <br> Geography | 3 |
| IALL:3103 | Aquatic Ecology | 4 |

| IALL:3117 | Ecology and Systematics of <br> Diatoms | 2,4 |
| :--- | :--- | ---: |
| IALL:3126 | Ornithology | 4 |
| Other Lakeside Laboratory courses (prefix IALL) may |  |  |
| be approved in consultation with an environmental |  |  |
| sciences advisor |  |  |

## Environmental Sciences Policy

Students must complete at least 6 s.h. from the following list.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| ENVS:1115/ | The History of Oil | 3 |
| EES:1115/ |  |  |
| GEOG:1115/ |  | 3 |
| HIST:1115 |  | 3 |
| BIOL:1260 | Plants and Human Affairs |  |
| ECON:3625/ | Environmental and Natural | 3 |
| URP:3135 | Resource Economics |  |
| GEOG:1070 | Contemporary Environmental | 3 |
|  | Issues | 3 |
| GEOG:2910 | The Global Economy | 3 |
| GEOG:2930 | Water Resources |  |
| GEOG:3760/ | Hazards and Society | 3 |
| GHS:3760 |  |  |
| GEOG:3780/ | U.S. Energy Policy in Global | 3 |
| GHS:3780/HIST:3240 | Context |  |
| GEOG:4770/ | Environmental Justice | 3 |
| AFAM:4770/ |  |  |
| GHS:4770 |  |  |
| PBAF:2020/ | Environment and Society: |  |
| URP:2020 | Sustainability, Policy, and |  |

## Environmental Sciences Track Courses

Students must complete one course from each of the following four lists (at least 12 s.h.). They may not use any course to satisfy more than one requirement.

## Biosciences (Green) Track

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  | 4 |
| BIOL:1261 | Introduction to Botany | 4 |
| BIOL:2246 | Entomology Lab | 3 |
| EES:3070 | Marine Ecosystems and |  |
|  | Conservation | 4 |
| EES:3220 | Evolution of the Vertebrates | 3 |
| GEOG:2374/ | Biogeography |  |
| BIOL:2374 | Environmental Conservation | 4 |
| GEOG:2950 | Ecosystem Ecology | 3 |
| GEOG:3315 | Urban Ecology | 3 |
| GEOG:3350 | Ecology and Systematics of | 4 |
| IALL:3117 | Diatoms |  |

Other Lakeside Laboratory courses (prefix IALL) may
be approved in consultation with an environmental sciences advisor
Chemical Sciences (Yellow) Track

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| BMB:3110 | Biochemistry | 3 |

| CEE:4150/CBE:4420 | Environmental Chemistry | 3 |
| :--- | :--- | :--- |
| CEE:5440 | Foundations of Environmental | 3 |
| CHEM:2210 | Chemistry and Microbiology |  |
| CHEM:3120 | Organic Chemistry I | 3 |
| CHEM:3250 | Spectroscopy and Separations | 3 |
| CHEM:4431 | Inorganic Chemistry | 3 |
| CHEM:4873 | Chemical Thermodynamics | 3 |
|  | Atmospheric and Environmental | 3 |
|  | Chemistry |  |

## Geosciences (Brown) Track

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.
To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education
website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

## BA/MAT (Science Education Subprogram)

BA students who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the combined program enables students to earn a BA and MAT in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 19 s.h. of qualifying credit toward both degrees. For more information, see "BA/MAT" under Science Education [p. 1418] in the Master of Arts in Teaching (College of Education) section of the catalog. Interested students should consult an advisor.

## BA/MS in Urban and Regional Planning

The combined BA in environmental policy and planning/MS in urban and regional planning enables undergraduate students majoring in environmental policy and planning to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may count 18 s.h. of credit toward both the BA and MS degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see the MS in urban and regional planning in the catalog.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors study provides students with opportunities to engage in independent research under the guidance of a faculty sponsor chosen from affiliated faculty of the Environmental Sciences Program. The program draws faculty members from the departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences. Honors students learn how to write the results of their research in the format of a scientific paper, and they have the experience of formally presenting their research as either a short seminar or a poster.

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative grade-point average (GPA) of 3.33. Additional GPA standards and requirements are set by each department or program.

Students must fulfill the following requirements:

- complete a BA with a major in environmental sciences with a GPA of at least 3.33 in all work for the major;
- submit a research proposal to the honors director within two months of the beginning of the semester in which the research is initiated;
- complete a minimum of 6 s.h. of honors research taken over two semesters in BIOL:4999 Honors Research in Biology, CHEM:3994 Undergraduate Research, EES:3190 Directed Study, or GEOG:3992 Undergraduate Research, depending on the departmental affiliation of the faculty sponsor;
- prepare a thesis presenting the research in the format of a scientific paper with abstract, introduction, methods, results, discussion, and conclusions; the thesis must include a title page and an abstract formatted according to the specifications of the honors research advisor and must be submitted to the honors coordinator; and
- present either a short seminar or a poster about the research at a professional meeting and/or at the University of Iowa.
Beginning in their sophomore or junior year, students should identify potential faculty sponsors by conducting a web-based survey of the research interests of the program's affiliated faculty. The student should contact potential sponsors to determine who would be willing to sponsor an honors student and what research projects the student might undertake. Students who choose a sponsor whose faculty appointment is not in the College of Liberal Arts and Sciences (CLAS) must choose a cosponsor who has a faculty appointment in CLAS.

After the student has identified a sponsor and they have agreed on a project, the sponsor guides the student in the preparation of a research proposal that identifies the background, goals, methods, and significance of the research project. The proposal serves as the foundation of the honors thesis, which the student prepares under the sponsor's supervision upon completion of the research. Once the thesis is nearing completion or is completed, the student presents a short seminar or a poster detailing the purpose of the research.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental sciences major.

## Career Advancement

Graduates are prepared for careers in conservation, environmental assessment, hazardous waste management, park inspection and compliance, or pollution control and monitoring.

The undergraduate degree program also prepares students for graduate study in disciplines such as biology, chemistry, ecosystem sciences, environmental engineering, environmental law, environmental science, environmental sustainability, geoscience, hydrologic sciences, natural resource management, remote sensing and landscape modeling, renewable energy, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the environmental sciences major. Students work with their advisors on individual graduation plans.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c Enrollment in chemistry courses requires completion of a placement exam.
d Enrollment in math courses requires completion of a placement exam.
e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Environmental Sciences, BS

## Learning Outcomes

Environmental Sciences Program students will:

- synthesize scientific knowledge and methods across disciplines,
- comprehend and evaluate primary findings in published scientific articles,
- gain experience conducting independent research and/or reviewing scientific areas of interest, and
- effectively communicate scientific findings in written and/or oral form.

## Requirements

The Bachelor of Science with a major in environmental sciences requires a minimum of 120 s.h., including 76-81 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19]; some courses required for the major in environmental sciences may be used to satisfy GE CLAS Core requirements.

Bachelor of Science students majoring in environmental sciences must complete requirements in three areas: science and mathematics foundation; environmental sciences foundation; and one of four environmental sciences tracks.

During their third year of study, students are assigned a faculty advisor who specializes in their track.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on remote sensing techniques, design and use of geographic information technologies, the geomorphic and environmental processes that shape the earth's surface, and ecological factors that influence the distribution and abundance of organisms.

Each of the program's four tracks focuses on areas of specialization within environmental sciences:

- biosciences (green) track-biological systems and ecological approaches;
- chemical sciences (yellow) track-environmental systems and chemistry;
- geosciences (brown) track-earth materials and surficial geologic processes; and
- hydrosciences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

The tracks aim to prepare scientists who can tackle problems that require particular areas of expertise, and to help students develop the skills needed for future employment or graduate study.

The BS with a major in environmental sciences requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Science and Mathematics Foundation Courses | 27 |
| Environmental Sciences Foundation Courses | 16 |
| Environmental Sciences Track Courses | $33-38$ |

## Science and Mathematics Foundation

Students must complete at least 27 s.h. of coursework, as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| BIOL:1411 | Foundations of Biology | 4 |
| BIOL:1412 | Diversity of Form and Function | 4 |
| CHEM:1110 | Principles of Chemistry I | 4 |
| CHEM:1120 | Principles of Chemistry II | 4 |
| EES:1050 | Introduction to Geology | 4 |
| MATH:1850 | Calculus I | 4 |
| One of these: | Fundamentals of Chemical <br> CHEM:2021 | Measurements (must be taken <br> by chemical sciences track <br> students) |
| STAT:3510/ Biostatistics 3 <br> IGPI:3510 Statistical Methods and <br> STAT:4200/  <br> IGPI:4200 Computing  |  |  |

## Environmental Sciences Foundation

Students must complete 16 s.h. of coursework, as follows.

| Course \# | Title | Hours |
| :--- | :--- | :---: |
| All of these: |  |  |
| ENVS:1085/ | Fundamentals of Environmental | 4 |
| EES:1085 | Science |  |
| ENVS:2010/ | Interdisciplinary Environmental | 1 |
| EES:2010/ | Seminar |  |
| GEOG:2010 |  | 3 |
| ENVS:2673/ | Ecology |  |
| BIOL:2673 |  | 1 |
| ENVS:3010/ | Interdisciplinary Environmental |  |
| EES:3010/ | Seminar | 3 |
| GEOG:3003 |  |  |
| ENVS:3020/ | Earth Surface Processes |  |
| EES:3020/ |  | 4 |
| GEOG:3020 |  |  |
| GEOG:2050 | Foundations of GIS |  |

## Environmental Sciences Track Courses

Students majoring in environmental sciences must choose one of the following four tracks. Each track includes required general sciences courses, track foundation courses, field study courses, and elective courses.

## Biosciences (Green) Track

The biosciences track provides the essential skills for entry-level positions that require a good knowledge of biotic systems and the ability to inventory biologic resources. The track's aim is to produce scientists who are capable of tackling environmental problems in which links and interactions with life sciences are crucial and in which a substantial knowledge of biological/ecological sciences is required. The track also provides a strong foundation for graduate or professional training in disciplines such as ecology, wildlife management, and natural resource management.

Students must complete at least 33 s.h., including one field study course, as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Foundation |  |  |
| These three courses: |  | 4 |
| BIOL:2512 | Fundamental Genetics | 4 |

| $\begin{aligned} & \text { GEOG:2374/ } \\ & \text { BIOL:2374 } \end{aligned}$ | Biogeography | 3 |
| :---: | :---: | :---: |
| At least 9 s.h. from these: |  |  |
| BIOL:2246 | Entomology Lab | 4 |
| EES:3070 | Marine Ecosystems and Conservation | 3 |
| EES:3220 | Evolution of the Vertebrates | 4 |
| GEOG:2950 | Environmental Conservation | 4 |
| GEOG:3315 | Ecosystem Ecology | 3 |
| GEOG:3350 | Urban Ecology | 3 |
| GEOG:4470 | Ecological Climatology | 3 |
| Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor |  |  |
| Field Study |  |  |
| At least 3-4 s.h. from these: |  |  |
| ENVS:3095 | Field Ecology | 4 |
| ENVS:3096 | Winter Ecology | 2 |
| ENVS:3097 | Introduction to Bird Study | 2 |
| ENVS:3230 | Special Topics | 0-4 |
| IALL:3034 | Topics in Ecology and Sustainability | 1-4 |
| IALL:3103 | Aquatic Ecology | 2,4 |
| IALL:3109 | Ecology and Systematics of Algae | 2,4 |
| IALL:3117 | Ecology and Systematics of Diatoms | 2,4 |
| IALL:3123 | Prairie Ecology I | 2 |
| IALL:3125 | Prairie Ecology II | 2 |
| IALL:3126 | Ornithology | 2-4 |
| Other Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor |  |  |
| Policy |  |  |
| One of these: |  |  |
| BIOL:1260 | Plants and Human Affairs | 2-3 |
| ECON:3625/ <br> URP:3135 | Environmental and Natural Resource Economics | 3 |
| EES:1115/ <br> ENVS:1115/ <br> GEOG:1115/ <br> HIST:1115 | The History of Oil | 3 |
| GEOG:1070 | Contemporary Environmental Issues | 3 |
| GEOG:3340 | Ecosystem Services | 3 |
| $\begin{aligned} & \text { GEOG:3780/ } \\ & \text { GHS:3780/HI } \end{aligned}$ | U.S. Energy Policy in Global Context | 3 |
| $\begin{aligned} & \text { GEOG:4770/ } \\ & \text { AFAM:4770/ } \\ & \text { GHS: } 4770 \end{aligned}$ | Environmental Justice | 3 |
| PBAF:2020/ <br> URP:2020 | Environment and Society: Sustainability, Policy, and Politics | 3 |

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| BIOL:1261 | Introduction to Botany | 4 |
| BIOL:2663 | Plant Response to the Environment | 3 |
| BIOL:3244 | Animal Behavior | 3 |
| BIOL:3676 | Evolution Lab | 4 |
| BIOL:3994 | Introduction to Research (no more than 6 s.h. of research credit may count toward the major) | 2-3 |
| BIOL:4999 | Honors Research in Biology (no more than 6 s.h. of research credit may count toward the major) | arr. |
| CEE:5440 | Foundations of Environmental Chemistry and Microbiology | 3 |
| CHEM:2210 | Organic Chemistry I | 3 |
| CHEM:3110 | Equilibria and Electrochemistry | 3 |
| CHEM:3120 | Spectroscopy and Separations | 3 |
| EES:2020/ | Earth's Climate System | 3 |
| $\begin{aligned} & \text { EES:2200/ } \\ & \text { ENVS:2200 } \end{aligned}$ | Historical Geology | 4 |
| EES:3080 | Introduction to Oceanography | 2 |
| EES:3110/ <br> ENVS:3110 | Chemical Evolution of the Oceans | 3 |
| EES:3210 | Principles of Paleontology | 3 |
| EES:4630 | Hydrogeology | 4 |
| EES:4790 | Applied Environmental Geology | 3 |
| ENVS:3230 | Special Topics | 1-4 |
| $\begin{aligned} & \text { GEOG:2310/ } \\ & \text { EES:2310 } \end{aligned}$ | Introduction to Climatology | 3 |
| GEOG:3570 | Light Detection and Ranging (LiDAR): Principles and Applications | 3 |
| GEOG:3992 | Undergraduate Research (no more than 6 s.h. of research credit may count toward the major) | arr. |
| GEOG:4310 | Climate Change | 3 |

## Chemical Sciences (Yellow) Track

The chemical sciences track provides the essential skills for entrylevel positions that require a basic understanding of chemical principles and a working knowledge of basic chemical concepts as applied in the environment. The track's aim is to produce scientists who are capable of tackling environmental problems in which chemical and molecular processes play an important role. The track also provides a strong foundation for graduate or professional training in environmental chemistry.

Students must complete at least 33 s.h. of coursework, as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Foundation |  |  |
| These three courses: |  | 3 |
| CHEM:2210 | Organic Chemistry I | 3 |
| CHEM:3120 | Spectroscopy and Separations | 3 |
| CHEM:3250 | Inorganic Chemistry |  |

And 9 s.h. from this list (at least 3 s.h. must be lab
hours):
CEE:4150/CBE:4420 Environmental Chemistry

| CHEM:2220 | Organic Chemistry II | 3 |
| :---: | :---: | :---: |
| CHEM:2410 | Organic Chemistry Laboratory | 3 |
| CHEM:3110 | Equilibria and Electrochemistry | 3 |
| CHEM:3440 | Physical Measurements | 3 |
| CHEM:3530 | Inorganic Chemistry Laboratory | 3 |
| CHEM:4430 | Principles of Physical Chemistry | 3 |
| CHEM:4431 | Chemical Thermodynamics | 3 |
| CHEM:4432 | Quantum Mechanics and Chemical Kinetics | 3 |
| CHEM:4450 | Synthesis and Measurement | 3 |
| Lab and Field Study |  |  |
| This course: |  |  |
| CHEM:3430 | Analytical Measurements | 3 |
| Policy |  |  |
| At least one of these: |  |  |
| BIOL:1260 | Plants and Human Affairs | 2-3 |
| ECON:3625/ <br> URP:3135 | Environmental and Natural Resource Economics | 3 |
| EES:1115/ <br> ENVS:1115/ <br> GEOG:1115/ <br> HIST:1115 | The History of Oil | 3 |
| GEOG:1070 | Contemporary Environmental Issues | 3 |
| GEOG:2930 | Water Resources | 3 |
| GEOG:3340 | Ecosystem Services | 3 |
| $\begin{aligned} & \text { GEOG:3780/ } \\ & \text { GHS:3780/HIST:3240 } \end{aligned}$ | U.S. Energy Policy in Global Context | 3 |
| GEOG:4770/ <br> AFAM:4770/ <br> GHS:4770 | Environmental Justice | 3 |
| PBAF:2020/ <br> URP:2020 | Environment and Society: Sustainability, Policy, and Politics | 3 |

## Chemical Sciences Track: Electives

Chemical sciences track students must complete at least 9 s.h. of elective coursework chosen from the following list. Students may petition the chemistry department's environmental sciences advisor to use appropriate Department of Chemistry courses numbered 3000 and above as electives; additional foundation courses may be approved for elective credit.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| BMB:3110 | Biochemistry | 3 |
| CEE:4158/OEH:4920 | Solid and Hazardous Wastes <br> CHEM:3994 | Undergraduate Research (no <br> more than 6 s.h. of research <br> credit may count toward the <br> major) |
|  | Radiochemistry: Energy, <br> Medicine, and the Environment | $1-4$ |
| CHEM:4760 | Atmospheric and Environmental <br> Chemistry | 3 |
| CHEM:4873 | Earth's Climate System | 3 |
| EES:2020/ | Historical Geology | 3 |
| ENVS:2020 | Elements of Geochemistry | 4 |
| EES:2200/ | Isotope Geochemistry | 3 |
| ENVS:2200 | Hydrogeology | 3 |
| EES:4490 |  | 4 |

| EES:4640 | Contaminant Hydrogeology | 3 |
| :--- | :--- | ---: |
| EES:4790 | Applied Environmental <br> Geology | 3 |
| ENVS:3110/ | Chemical Evolution of the <br> Oceans | 3 |
| EES:3110 | Special Topics (no more than <br> 6 s.h. may count toward the <br> major) | $1-4$ |
| GEOG:2310/ | Introduction to Climatology | 3 |
| EES:2310 | Environmental Conservation | 4 |
| GEOG:2950 Introduction to Environmental | 3 |  |
| IGPI:3500 | Remote Sensing |  |
| GEOG:4310 | Climate Change | 3 |

## Geosciences (Brown) Track

The geosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic principles and a working knowledge of basic geologic concepts applied in the environmental industry. The track's aim is to produce scientists who are capable of tackling environmental problems in which earth materials and surficial geologic processes are of primary importance. The track also lays a strong foundation for graduate study in environmental geology, engineering geology, and natural hazards assessment.

Students must complete at least 38 s.h. of coursework, as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| General Sciences |  |  |
| These two courses: |  | 4 |
| MATH:1860 | Calculus II | 4 |

Students are strongly encouraged to take additional
coursework in physics

## Foundation

These three courses:

| EES:2410 | Mineralogy | 4 |
| :---: | :---: | :---: |
| EES:3300 | Sedimentary Geology | 4 |
| EES:4630 | Hydrogeology | 4 |
| At least 6 s.h. from these: |  |  |
| EES:2200/ <br> ENVS:2200 | Historical Geology | 4 |
| $\begin{aligned} & \text { EES:3360/ } \\ & \text { GEOG:3360 } \end{aligned}$ | Soil Genesis and Geomorphology | 3 |
| EES:3500 | Igneous and Metamorphic Petrology | 4 |
| EES:3840 | Structural Geology | 4 |
| EES:4790 | Applied Environmental Geology | 3 |
| Field Study |  |  |
| One of these: |  |  |
| EES:2831 | Geologic Field Methods | 3 |
| EES:4680 | Field Methods in Hydrologic Science | 3 |
| GEOG:4010 | Field Methods in Physical Geography | 3 |

Iowa Lakeside Laboratory courses (prefix IALL)
may be approved in consultation with environmental sciences advisor

## Policy

At least one of these:

| BIOL:1260 | Plants and Human Affairs | 2-3 |
| :---: | :---: | :---: |
| ECON:3625/ <br> URP:3135 | Environmental and Natural Resource Economics | 3 |
| ENVS:1115/ <br> EES:1115/ <br> GEOG:1115/ <br> HIST:1115 | The History of Oil | 3 |
| GEOG:1070 | Contemporary Environmental Issues | 3 |
| GEOG:3340 | Ecosystem Services | 3 |
| $\begin{aligned} & \text { GEOG:3760/ } \\ & \text { GHS:3760 } \end{aligned}$ | Hazards and Society | 3 |
| GEOG:3780/ | U.S. Energy Policy in Global Context | 3 |
| GEOG:4770/ <br> AFAM:4770/ <br> GHS:4770 | Environmental Justice | 3 |

## Geosciences Track: Electives

Geosciences track students must complete at least 6 s.h. of elective coursework chosen from the following list; additional field study or foundation courses may be approved for elective credit.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| CEE:4158/OEH:4920 | Solid and Hazardous Wastes | 3 |
| EES:1290 | Energy and the Environment | 3 |
| EES:2020/ | Earth's Climate System | 3 |
| ENVS:2020 | Marine Ecosystems and |  |
| EES:3070 | Conservation | 3 |
| EES:3080 | Introduction to Oceanography | 2 |
| EES:3190 | Directed Study (no more than | arr. |
|  | 6 s.h. may count toward the |  |
| EES:3380/CEE:3328 | Fluvial Geomorphology | 3 |
| EES:3390 | Integrated Watershed Analysis | 3 |
| EES:3770 | Global Stratigraphy | 3 |
| EES:4490 | Elements of Geochemistry | 3 |
| EES:4520 | Isotope Geochemistry | 3 |
| EES:4640 | Contaminant Hydrogeology | 3 |
| EES:4720 | Paleoclimatology | 3 |
| EES:4820 | Tectonics and Basin Analysis | 3 |
| ENVS:3110/ | Chemical Evolution of the | 3 |
| EES:3110 | Oceans | 3 |
| ENVS:3230 | Special Topics | 3 |
| GEOG:2310/ | Introduction to Climatology | 3 |
| EES:2310 | Environmental Conservation | 3 |
| GEOG:2950 | Introduction to Environmental | 3 |

| GEOG:4310 | Climate Change | 3 |
|  |  | 3 |

## Hydrosciences (Blue) Track

The hydrosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic principles and a working knowledge of hydrogeology and hydrogeochemistry.

The track's aim is to produce scientists who are capable of tackling environmental problems that emphasize hydrogeologic systems and for which substantial knowledge of hydrogeology and water chemistry are essential. The track also lays a strong foundation for graduate education in hydrogeology, hydrology, geochemistry, and aqueous chemistry.

Students must complete at least 37 s.h. of coursework, as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| General Sciences |  |  |
| These three courses: |  | 4 |
| MATH:1860 | Calculus II | 4 |
| PHYS:1511 | College Physics I | 4 |
| PHYS:1512 | College Physics II |  |

## Foundation

| These two courses: |  | 4 |
| :--- | :--- | :--- |
| EES:4630 | Hydrogeology | 3 |
| EES:4790 | Applied Environmental |  |

And 6 s.h. from these:

| EES:3380/CEE:3328 | Fluvial Geomorphology | 3 |
| :--- | :--- | :--- |
| EES:3390 | Integrated Watershed Analysis | 3 |
| EES:4490 | Elements of Geochemistry | 3 |
| EES:4640 | Contaminant Hydrogeology | 3 |
| ENVS:3110/ | Chemical Evolution of the | 3 |
| EES:3110 | Oceans |  |

Field Study

| One of these: | Field Methods in Hydrologic |  |
| :--- | :--- | :--- |
| EES:4680 | Science | 3 |
| GEOG:4010 | Field Methods in Physical <br> Geography | 3 |

## Policy

At least one of these:

| BIOL:1260 | Plants and Human Affairs | $2-3$ |
| :--- | :--- | ---: |
| ECON:3625/ | Environmental and Natural | 3 |
| URP:3135 | Resource Economics |  |
| ENVS:1115/ | The History of Oil | 3 |

EES:1115/
GEOG:1115/
HIST:1115

| GEOG:1070 | Contemporary Environmental <br> Issues | 3 |
| :--- | :--- | :--- |
| GEOG:2930 | Water Resources | 3 |
| GEOG:3340 | Ecosystem Services | 3 |
| GEOG:3780/ | U.S. Energy Policy in Global | 3 |

GHS:3780/HIST:3240 Context

| GEOG:4770/ | Environmental Justice | 3 |
| :--- | :--- | :---: |
| AFAM:4770/ |  |  |
| GHS:4770 | Environment and Society: | 3 |
| PBAF:2020/ | Sustainability, Policy, and <br> URP:2020 |  |

## Hydrosciences Track: Electives

Hydrosciences track students must complete at least 6 s.h. of elective coursework chosen from the following list; additional field study and foundation courses may be approved for elective credit.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| CEE:3371 | Principles of Hydraulics and | 3 |
|  | Hydrology |  |

| CEE:4150/CBE:4420 | Environmental Chemistry | 3 |
| :---: | :---: | :---: |
| CEE:5440 | Foundations of Environmental Chemistry and Microbiology | 3 |
| EES:2020/ ENVS:2020 | Earth's Climate System | 3 |
| $\begin{aligned} & \text { EES:2200/ } \\ & \text { ENVS:2200 } \end{aligned}$ | Historical Geology | 4 |
| EES:3070 | Marine Ecosystems and Conservation | 3 |
| EES:3080 | Introduction to Oceanography | 2 |
| EES:3190 | Directed Study (no more than 6 s.h. may count toward the major) | arr. |
| EES:3300 | Sedimentary Geology | 4 |
| $\begin{aligned} & \text { EES:3360/ } \\ & \text { GEOG:3360 } \end{aligned}$ | Soil Genesis and Geomorphology | 3 |
| ENVS:3230 | Special Topics | 1-4 |
| $\begin{aligned} & \text { GEOG:2310/ } \\ & \text { EES:2310 } \end{aligned}$ | Introduction to Climatology | 3 |
| GEOG:2950 | Environmental Conservation | 4 |
| GEOG:3570 | Light Detection and Ranging (LiDAR): Principles and Applications | 3 |
| GEOG:4310 | Climate Change | 3 |
| GEOG:4470 | Ecological Climatology | 3 |

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

## BS/MS in Urban and Regional Planning

The combined BS in environmental policy and planning/MS in urban and regional planning enables undergraduate students majoring in environmental policy and planning to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may count 18 s.h. of credit toward both the BS and MS degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see the MS in urban and regional planning in the catalog.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors study provides students with opportunities to engage in independent research under the guidance of a faculty sponsor chosen from affiliated faculty of the Environmental Sciences Program. The program draws faculty members from the departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences. Honors students learn how to write the results of their research in the format of a scientific paper, and they
have the experience of formally presenting their research as either a short seminar or a poster.

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative grade-point average (GPA) of 3.33. Additional GPA standards and requirements are set by each department or program.

Students must fulfill the following requirements:

- complete a BS with a major in environmental sciences with a GPA of at least 3.33 in all work for the major;
- submit a research proposal to the honors director within two months of the beginning of the semester in which the research is initiated;
- complete a minimum of 6 s.h. of honors research taken over two semesters in BIOL:4999 Honors Research in Biology, CHEM:3994 Undergraduate Research, EES:3190 Directed Study, or GEOG:3992 Undergraduate Research, depending on the departmental affiliation of the faculty sponsor;
- prepare a thesis presenting the research in the format of a scientific paper with abstract, introduction, methods, results, discussion, and conclusions; the thesis must include a title page and an abstract formatted according to the specifications of the honors research advisor and must be submitted to the honors coordinator; and
- present either a short seminar or a poster about the research at a professional meeting and/or at the University of Iowa.

Beginning in their sophomore or junior year, students should identify potential faculty sponsors by conducting a web-based survey of the research interests of the program's affiliated faculty. The student should contact potential sponsors to determine who would be willing to sponsor an honors student and what research projects the student might undertake. Students who choose a sponsor whose faculty appointment is not in the College of Liberal Arts and Sciences (CLAS) must choose a cosponsor who has a faculty appointment in CLAS.

After the student has identified a sponsor and they have agreed on a project, the sponsor guides the student in the preparation of a research proposal that identifies the background, goals, methods, and significance of the research project. The proposal serves as the foundation of the honors thesis, which the student prepares under the sponsor's supervision upon completion of the research. Once the thesis is nearing completion or is completed, the student presents a short seminar or a poster detailing the purpose of the research.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the environmental sciences major.

## Career Advancement

Graduates are prepared for careers in conservation, environmental assessment, hazardous waste management, park inspection and compliance, or pollution control and monitoring.

The undergraduate degree program also prepares students for graduate study in disciplines such as biology, chemistry, ecosystem sciences, environmental engineering, environmental law, environmental science, environmental sustainability, geoscience, hydrologic sciences, natural resource management, remote sensing and landscape modeling, renewable energy, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans <br> Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the environmental sciences major. Students work with their advisors on individual graduation plans.

## Sample Plans of Study

Sample plans represent one way to complete a program of study Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Environmental Sciences, Minor

## Requirements

The undergraduate minor in environmental sciences requires a minimum of 15 s.h. in University of Iowa environmental sciences coursework. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor in environmental sciences requires the following coursework.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| One of these: |  |  |
| ENVS:1080/ <br> EES:1080 | Introduction to Environmental Science | 4 |
| ENVS:1085/ | Fundamentals of Environmental Science | 4 |
| One environmental sciences foundation course, chosen from these: |  |  |
| ENVS:2673/ <br> BIOL:2673 | Ecology | 3 |
| ENVS:3020/ <br> EES:3020/ <br> GEOG:3020 | Earth Surface Processes | 3 |
| GEOG:2050 | Foundations of GIS | 4 |
| GEOG:3500/ <br> IGPI:3500 | Introduction to Environmental Remote Sensing | 3 |
| And: |  |  |
| Courses in on tracks below | four environmental sciences | 7-8 |

## Tracks

Track courses must include one 3-4 s.h. track foundation course and 3-4 s.h. in track field study coursework. The tracks are biosciences, chemical sciences, geosciences, and hydrosciences.

## Biosciences Track

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Foundation Courses |  |  |
| One of these: |  |  |
| BIOL:2246 | Entomology Lab | 4 |
| BIOL:3172 | Evolution | 4 |
| EES:3070 | Marine Ecosystems and Conservation | 3 |
| EES:3220 | Evolution of the Vertebrates | 4 |
| $\begin{aligned} & \text { GEOG:2374 } \\ & \text { BIOL:2374 } \end{aligned}$ | Biogeography | 3 |
| GEOG:2950 | Environmental Conservation | 4 |
| GEOG:3350 | Urban Ecology | 3 |
| GEOG:4470 | Ecological Climatology | 3 |
| Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor |  |  |
| Field Study Courses |  |  |
| 3-4 s.h. from these: |  |  |
| ENVS:3095 | Field Ecology | 4 |
| ENVS:3096 | Winter Ecology | 2 |

| ENVS:3097 | Introduction to Bird Study | 2 |
| :--- | :--- | ---: |
| ENVS:3230 | Special Topics | $0-4$ |
| IALL:3103 | Aquatic Ecology | 2,4 |
| IALL:3109 | Ecology and Systematics of | 2,4 |
|  | Algae |  |
| IALL:3117 | Ecology and Systematics of | 2,4 |
|  | Diatoms | 2 |
| IALL:3123 | Prairie Ecology I | 2 |
| IALL:3125 | Prairie Ecology II | 2 |
| IALL:3126 | Ornithology | $2-4$ |

Other Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor

## Chemical Sciences Track

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Foundation Courses |  |  |
| One of these: |  | 3 |
| CEE:4150/CBE:4420 | Environmental Chemistry | 3 |

## Ethics and Public Policy

Chair, Department of Philosophy

- Gregory Landini

## Codirectors, Ethics and Public Policy

- Richard Fumerton (Philosophy), Diane Jeske (Philosophy)

Undergraduate major: ethics and public policy (BA)
Faculty: https://ethicspublicpolicy.uiowa.edu/people
Website: https://ethicspublicpolicy.uiowa.edu/
Ethics and public policy is an interdisciplinary major that presents perspectives on intersecting issues that connect the study of philosophy, economics, law, political science, and sociology. All of these disciplines involve a focus on practical questions concerning how individuals ought to behave and how they ought to regulate the behavior of others.

For example, law exists in order to regulate human behavior, enforce human ideals, and resolve human conflict. And, most people agree that what society should do depends in part on the actual or potential consequences of its actions, and some of the most important consequences of actions and policies are economic. So it is folly to try to reason clearly about how to rectify injustice without thinking long and hard about the economic impact of one's plans. But law and social policy affect more than economics; they have a role in constructing the very fabric of society and the nature of the political state in which we want to live.

Students choose one field of specialization for the major and may find it easy to pursue a second major in another of the major's specialization fields, thus broadening their prospects for choosing graduate schools or beginning professional careers.

The departments of Philosophy, Political Science, and Sociology and Criminology (College of Liberal Arts and Sciences), and the Department of Economics (Tippie College of Business), collaborate to present the major in ethics and public policy; the major is administered by the Department of Philosophy [p. 855].

## Programs

Undergraduate Program of Study

## Major

- Major in Ethics and Public Policy (Bachelor of Arts) [p. 465]

## Ethics and Public Policy, BA

## Learning Outcomes

The general goals of the major in ethics and public policy are to:

- give students familiarity with the subject matter and methods of four closely related, but distinct disciplines-philosophy, economics, sociology, and political science-acquaintance with which is particularly important for those entering law, government and public service, and related fields;
- teach students to think critically, understand important distinctions, and present and defend positions;
- allow students to see the connections between problems that arise in the four fields that make up the cross-disciplinary major;
- encourage students to solve problems by drawing insights from different fields; and
- prepare students for postgraduate work in one or more of the fields, law school, or any of the indefinitely many careers where the skills fostered in the major will be invaluable.

## Ethics and Public Policy Initiatives

- Increase interactions among majors through events such as clubs and movie nights cosponsored by the Department of Philosophy and the ethics and public policy major.
- Encourage promising students to work individually with faculty on honors projects.
- Continue to improve advising.
- Continue to offer a 1 s.h. course that gives credit to students for participation in some of the programmed lectures, clubs, film screenings, among others.
- Advertise and encourage students to enroll in a 2-3 s.h. course that involves relevant internships.
- Review the department's current survey that can provide more useful and fine-grained advice to improve the ethics and public policy major.

## Requirements

The Bachelor of Arts with a major in ethics and public policy requires a minimum of $120 \mathrm{~s} . \mathrm{h}$., including at least $37 \mathrm{~s} . \mathrm{h}$. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

The curriculum includes foundation courses and the work for one field of specialization.

The BA with a major in ethics and public policy requires the following coursework

| Requirements | Hours |
| :--- | :--- |
| Philosophy Foundation Courses | 6 |
| Economics Foundation Courses | $7-8$ |
| Political Science Foundation Courses | 6 |
| Fields of Specialization Courses | 12 |

## Foundation Courses

Foundation courses introduce students to each of the disciplines that participate in the major: philosophy, economics, political science, and sociology. These courses provide students with the basic reasoning skills they will need for advanced study. The foundation courses also help students make an informed selection of their specialization field.

All students are required to take PHIL:1636 Principles of Reasoning: Argument and Debate or PHIL:2603 Introduction to Symbolic Logic in order to gain facility with abstract, formal reasoning.

Some courses may be listed in both a foundation area and a specialization field; students may use a course to fulfill only one requirement for the major.

## Philosophy Foundation

## Reasoning

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: | Principles of Reasoning: | 3 |
| PHIL:1636 | Argument and Debate |  |
| PHIL:2603 | Introduction to Symbolic Logic | 3 |

## Value Theory

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| PHIL:1034 | Liberty and the Pursuit of | 3 |
| PHIL:1401 | Mappiness | 3 |
| PHIL:2402 | Introduction to Ethics | 3 |
| PHIL:2422 | Feminist Ethics | 3 |
| PHIL:2432 | Introduction to Political | 3 |
|  | Philosophy | 3 |
| PHIL:2435 | Philosophy of Law | 3 |
|  | The Nature of Evil | 3 |

## Economics Foundation

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| This course: |  |  |
| ECON:1100 | Principles of Microeconomics | 4 |
| One of these: |  | 4 |
| ECON:1200 | Principles of Macroeconomics | 3 |
| ECON:3380 | Business and Government | 3 |

## Student-Designed Field

In rare circumstances, a student may be given permission to design a specialization field. The student specifies four courses (12 s.h.) numbered 3000 or above, or as considered advanced by the department offering the course. Courses should be interconnected and must suggest a coherent interest. The student-designed field may not duplicate any of the established specialization fields for the major. It also may not include a course that satisfies another requirement for the major.
Students interested in designing their own specialization field should speak with an advisor as early as possible. They must obtain approval from their advisor and from the steering committee of the major in ethics and public policy as soon as possible after they declare the major and before they complete the designated coursework.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a grade-point average (GPA) of at least 3.50 in work for the major and a cumulative University of Iowa GPA of at least 3.33; the UI cumulative GPA is set by the College of Liberal Arts and Sciences. In order to graduate with honors in the major, they must complete all work for the major and write an acceptable honors thesis on a significant topic related to the major. Students who write their honors thesis in philosophy should consider preparing for the thesis by taking PHIL:3950 Readings in Philosophy; students who write in economics should consult the coordinator of the Ethics and Public Policy program for an appropriate course; students who write in political science should take POLI:4000 Honors Seminar on the Study of Politics; and students who write in sociology and criminology should consider taking SOC:4997 Honors Seminar. Contact the coordinator of the Ethics and Public Policy program for more information.

## University of Iowa Honors Program

In addition to honors in the major, students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the ethics and public policy major.

## Career Advancement

The ethics and public policy major provides an ideal background for law school. It brings an important background to legal studies in fields that both explicitly and implicitly arise in the context of pursuing a JD degree. The study of reasoning, an important component of the major, is useful in preparing for the Law School Admission Test (LSAT), the Graduate Management Admission Test (GMAT), and the Medical College Admission Test (MCAT). The major also prepares students to bring a sophisticated, cross-disciplinary perspective to diverse fields such as government, urban and regional planning, social work, and business.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major.

Before the third semester begins: at least one course in the major.
Before the fifth semester begins: at least three courses in the major.
Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least nine courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Event Management

Interim Director, School of Journalism and Mass Communication

- Melissa Tully

## Coordinator, Event Management

- Heather J. Spangler (Journalism and Mass Communication)

## Undergraduate certificate: event management

Website: https://journalism.uiowa.edu/undergraduate/certificate-event-management

Nearly every kind of organization has a need to create and manage events, from corporations to recreational centers, from hotels to sports teams. The Certificate in Event Management is designed to serve the career goals of a growing number of students who want to learn about the profession and wish to enter the field. It combines experiential learning with academic coursework, preparing students with the practical and intellectual skills necessary to succeed in the industry. The certificate is both interdisciplinary and intercollegiate.
Students who earn the Certificate in Event Management will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry.
In addition to these core competencies, students gain proficiency in:

- strategic and professional communication (oral, written, visual/ design, interpersonal, group, professional, social media, and marketing);
- project management (goal setting, time management, financial, risk management, site and staff management, event design, and technology); and
- cultural and social awareness (religious, cultural, physical, and social nuances that impact event management choices; best practices for safe, inclusive events; and legal and ethical issues).

The School of Journalism and Mass Communication
[p. 708] and the departments of Communication Studies
[p. 277], Health and Human Physiology [p. 581] (College of Liberal Arts and Sciences), and Marketing [p. 1208] (Tippie College of Business) collaborate to offer the certificate. The Certificate in Event Management is administered by the School of Journalism and Mass Communication.

## Event Management Courses

## EVNT:1000 First-Year Seminar

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Requirements: first- or second-semester standing.

EVNT: 2110 Internship in Event Management
3 s.h.
Internship for event management certificate. Prerequisites:
(EVNT:3154 or SRM:3154) and (EVNT:3260 or SRM:3147).
EVNT:3154 Foundations of Event Management 3 s.h.
Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures.

EVNT:3160 Crisis Management 3 s.h.
Exploration of crisis management through research, speakers, and hands-on experience.
EVNT:3170 Venue Management
3 s.h.
Exploration of venue management field through speakers, research, and hands-on experiences.

EVNT:3180 Sustainable Events
3 s.h.
Events can have a substantial impact on our natural environment, and choices event managers make are critical in minimizing an event's carbon footprint; students explore sources of event waste, zero-waste event planning, careers in sustainable events, and more.
EVNT: 3185 Topics in Event Management 3 s.h.
Focus on particular area, issue, approach, or body of knowledge in the world of event planning; topics may include political campaign events, social media events, diversity issues, and risk management.

## EVNT:3260 Event Management Workshop

3 s.h.
Hands-on experience in event planning; working with clients, conceptualizing events, lining up small and large details, promoting events via social media and other means, carrying out events, and reflecting on outcomes; meet with event planning professionals; complete individual and group projects. Prerequisites: EVNT:3154 or SRM:3154.
EVNT:3280 Digital Event Management Workshop 3 s.h.
Hands-on experience in event planning in a digital environment; working with clients, conceptualizing events, lining up small and large details, promoting events via social media and other means, carrying out events, and reflecting on outcomes; individual and group projects.

## Event Management, <br> Certificate

## Requirements

The undergraduate Certificate in Event Management requires a minimum of 21 s.h. of credit, including at least 6 s.h. in event management coursework (prefix EVNT). A maximum of 9 s.h. of approved transfer work may be applied to the Focused Elective requirements of the certificate. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.
Students take EVNT:3154 Foundations of Event Management or SRM:3154 Foundations of Event Management prior to registering for EVNT:3260 Event Management Workshop or SRM:3147 Sport Event Management. Both core courses must be completed before students register for their internship in one of these: EVNT:2110 or SRM:4196 or SRM:4197 or SRM:4199.

Some of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

The Certificate in Event Management requires the following coursework.

## Core Courses

| Course \# <br> One of these: | Title | Hours |
| :--- | :--- | ---: |
| EVNT:3154 | Foundations of Event <br> Management | 3 |
| SRM:3154 | Foundations of Event <br> Management | 3 |
| And one of these: | Event Management Workshop | 3 |
| EVNT:3260 | Sport Event Management | 3 |

## Internship

The core courses must be completed prior to enrollment in the internship.

| Course \# <br> One of these: | Title | Hours |
| :--- | :--- | ---: |
| EVNT:2110 | Internship in Event <br> Management | 3 |
| SRM:4196 | Interscholastic Athletic <br> Administration Field <br> Experience (must enroll in at <br> least 3 s.h.) | arr. |
| SRM:4197 | Sport and Recreation Field <br> Experience | 3 |
| SRM:4199 | Independent Sport and <br> Recreation Field Experience <br> (must enroll in at least 3 s.h.) | arr. |

## Focused Electives

| Course \# | Title | Hours |
| :---: | :---: | :---: |

## French and Italian

## Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman (Linguistics)

Chair, Department of French and Italian

- Roxanna N. Curto

## General Education Language Coordinators

- Emilie Destruel (French), Irene Lottini (Italian), Susana J. Nkurlu (Swahili), Yasmine A. Ramadan (Arabic)

Undergraduate majors: French (BA); Italian (BA)
Undergraduate minors: Arabic studies; French; Italian
Graduate degrees: MA in French and Francophone world studies; PhD in French and Francophone world studies

Faculty: https://french-italian.uiowa.edu/people
Website: https://french-italian.uiowa.edu/
The Department of French and Italian introduces students to the cultures of France, the Francophone world, Italy, and parts of the Middle East and Africa, providing an understanding of those countries' historical and contemporary importance. It also facilitates development of proficiency in the French, Italian, Arabic, and Swahili languages and fosters critical appreciation of French, Francophone, Italian, and Arabic literatures and cultures.

Faculty expertise enables the department to offer courses in the traditionally recognized historical periods of French literature, various literary genres, and critical theories as well as the Francophone literatures of Canada, North and Sub-Saharan Africa, the Caribbean, and the Indian Ocean. The department has particular strengths in interdisciplinary studies, notably in the areas of comparative arts, film studies, history, and second language acquisition.

Undergraduate students in all majors may satisfy the World Languages requirement of the GE CLAS Core with courses in Arabic, French, Italian, or Swahili; see "Language for GE CLAS Core" below. The department offers other GE CLAS Core courses, and entering students may take the department's First-Year Seminars.

The Department of French and Italian is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 365].

## Language for GE CLAS Core

The Department of French and Italian provides course sequences in four languages-Arabic [p. 472], French [p. 472], Italian [p. 472], and Swahili [p. 473]-that students in all majors may use to fulfill the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 19]. It also offers a variety of language courses that nonmajors may take to satisfy their own educational goals and interests.

## Arabic

The department is the administrative home for Arabic language and culture courses. It offers elementary, intermediate, and advanced Arabic as well as conversational Arabic, for which ARAB:1002 Elementary Modern Standard Arabic II is prerequisite. Students without background in Arabic should begin with ARAB:1001 Elementary Modern Standard Arabic I. Students who have a background in Arabic should contact the general education coordinator to determine the level at which they should begin Arabic language study at the University of Iowa. See Courses [p. 473] in this section of the catalog for a list of departmental courses.

Students who wish to fulfill the GE CLAS Core World Languages requirement with Arabic should complete the following course sequence.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| ARAB:1001 | Elementary Modern Standard | 5 |
| ARAB:1002 | Arabic I | 5 |
| ARAB:2001 | Elementary Modern Standard | 5 |
|  | Arabic II | 5 |
| ARAB:2002 | Intermediate Modern Standard | 5 |
|  | Arabic I | 5 |
|  | Intermediate Modern Standard | 5 |

## French

Students who have a background in French should take the online placement test, which helps determine the level at which a student could begin French language study at the University of Iowa. Students without background in French should begin with FREN:1001 Elementary French I.
Students who wish to fulfill the GE CLAS Core World Languages requirement with French should complete the following sequence.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| FREN:1001 | Elementary French I | 5 |
| FREN:1002 | Elementary French II | 5 |
| FREN:2001 | Intermediate French I | 5 |
| FREN:2002 | Intermediate French II | 5 |

Those with previous knowledge of French may be able to fulfill the World Languages requirement with this sequence.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| FREN:1010 | First-Year French Review | 5 |
| FREN:2001 | Intermediate French I | 5 |
| FREN:2002 | Intermediate French II | 5 |

## Italian

Students who have a background in Italian should take the online placement test. Placement cutoff scores are advisory. Students should also consult with the general education coordinator to determine the level at which they should begin Italian language study at the University of Iowa. Students without background in Italian should begin with ITAL:1101 Elementary Italian I.

Students who wish to fulfill the GE CLAS Core World Languages requirement with Italian should complete the following course sequence.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| ITAL:1101 | Elementary Italian I | 5 |
| ITAL:1102 | Elementary Italian II | 5 |
| ITAL:2203 | Intermediate Italian I | 4 |
| ITAL:2204 | Intermediate Italian II | 4 |

Those with strong language-learning abilities or background in another Romance language may be able to substitute ITAL:1103 Intensive Elementary Italian for ITAL:1101 Elementary Italian I and ITAL:1102 Elementary Italian II and fulfill the World Languages requirement with this sequence.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| ITAL:1103 | Intensive Elementary Italian | 4,6 |
| ITAL:2203 | Intermediate Italian I | 4 |
| ITAL:2204 | Intermediate Italian II | 4 |

## Swahili

The department is the administrative home for Swahili courses. Students may fulfill the GE CLAS Core World Languages requirement by taking the following four-semester sequence. Students who have a background in Swahili should contact the general education coordinator to determine the level at which they should begin Swahili language study at the University of Iowa.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| SWAH:1001 | Elementary Swahili I | 4 |
| SWAH:1002 | Elementary Swahili II | 4 |
| SWAH:2001 | Intermediate Swahili I | 4 |
| SWAH:2002 | Intermediate Swahili II | 4 |

## Study Abroad

The department participates in several study abroad programs. Some of them are the University Study Abroad Consortium (USAC) French Studies in Pau and Lyon; University of Minnesota/Paul Valery University Study Abroad in Montpellier; and the Committee on Institutional Cooperation (CIC) Summer French Program in Quebec at the Université Laval. For information about these and other programs abroad, contact International Programs Study Abroad and use its programs search; or see Study Abroad [p. 2083] (University College) in the catalog.

## Programs

## Undergraduate Programs of Study

## Majors

- Major in French (Bachelor of Arts) [p. 479]
- Major in Italian (Bachelor of Arts) [p. 483]

## Minors

- Minor in Arabic Studies [p. 486]
- Minor in French [p. 487]
- Minor in Italian [p. 488]

## Graduate Programs of Study

- Master of Arts in French and Francophone World Studies [p. 489]
- Doctor of Philosophy in French and Francophone World Studies [p. 491]

## Facilities

The Center for Language and Culture Learning provides a wide variety of facilities and services to the Division of World Languages, Literatures and Cultures (DWLLC), including a 24-computer Instructional Technology Center (ITC) and five All-In-One Studios/ small group study rooms equipped with video production and editing software, a Computer Assisted Language Learning Lab with 25 computers integrated with Sanako software for language practice, and virtual reality hardware and development space.

The center provides spaces for quiet study as well as for group meetings. Departments, programs, and student organizations are welcome to host conversation hours, film nights, study groups, workshops, and more. Peer education services include peer tutoring programs in many of the languages taught in DWLLC, with both inperson and online availability, as well as the Directed Independent Language Study, through which faculty, staff, or students can be paired with a tutor to learn a language not taught in the DWLLC. Tutors are trained to use the Three Ms for Effective Learning, which
include developing a growth mindset, using memory strategies to retain knowledge, and reflecting on learning gains.

## Courses

- French Courses [p. 473]
- Italian Courses [p. 476]
- Arabic Courses [p. 477]
- Swahili Courses [p. 477]

The department offers courses in French, Italian, Arabic, and Swahili. For a detailed description of courses offered each semester, contact the Department of French and Italian. French courses are conducted in French, and Italian courses are conducted in Italian, unless otherwise indicated. Students may not receive credit for a course that is prerequisite to, or whose equivalent is prerequisite to, a higher-level course they have already completed.

Students who have had significant experience with a language through living or studying abroad should consult with the department before enrolling in any course in that language.

## French Courses

French courses numbered 4000-4999 are intended primarily for advanced undergraduates; graduate students should consult with their advisors before registering for these courses.

## FREN:1000 First-Year Seminar

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

## FREN: 1001 Elementary French I <br> 5 s.h.

Introduction to reading, writing, listening, and speaking; for students who have no knowledge of French. GE: World Languages First Level Proficiency.

FREN: 1002 Elementary French II
5 s.h.
Continuation of FREN:1001; introduction to reading, writing, listening, and speaking. Prerequisites: FREN:1001 or French
Placement score of 176 or higher. GE: World Languages Second Level Proficiency.

FREN: 1005 Texts and Contexts: French-Speaking World 3 s.h. Development of skills in reading, understanding, and critically engaging with literary texts, and of research skills for informed inquiry; sense of oneself as a situated reader; range of texts reflecting diversity of French and Francophone writers. Taught in English. GE: Interpretation of Literature.
FREN: 1006 Global Sports and National Cultures 3 s.h.
Overview of the relationship between sports and national cultures in countries around the world; focus on how athletic competitions play a role in the formation of collective identities; includes the Olympic Games in ancient Greece, hockey in Canada, cycling in France, traditional wrestling in Senegal, cricket in England and India, and soccer in Europe, Africa, and Latin America. GE: International and Global Issues.
FREN: 1007 Nature/Ecology French Philosophy and Fiction 3 s.h. Representations of the natural world in literary works from 16th to 20th centuries and in film; readings in English translation. Taught in English. GE: Interpretation of Literature.

FREN: 1009 Introduction to Language Learning
1 s.h.
Preparation for world language study at college level, including study and review strategies. Taught in English.

FREN:1010 First-Year French Review
5 s.h.
FREN:1001 and FREN:1002 combined in one intensive course. GE: World Languages Second Level Proficiency.

## FREN: 1040 French for Travelers

2 s.h.
Basic language skills for tourists wanting to increase their French language skills.

## FREN: 1510 Cultural Misunderstandings: France and U.S.A. 3 s.h.

Key moments in the history of relations between the United States and France, from similarities underlying democratic principles to recent divergent worldviews. Taught in English. GE: International and Global Issues.
FREN:1600 French and Francophone Cultural Activities 1 s.h. Credit for attendance and participation at French and Francophone cultural events, including scholarly talks, film screenings, art exhibits, literary readings, conversation hours, French Culture Club meetings, and volunteering as a translator for a medical clinic.

## FREN:2001 Intermediate French I

5 s.h.
Prerequisites: FREN:1010 or FREN:1002 or French Placement score of 176 or higher. Requirements: completion of prerequisites or two years of high school French. GE: World Languages Third Level Proficiency.
FREN:2002 Intermediate French II 5 s.h.
Continuation of FREN:2001. Prerequisites: FREN:2001 or French Placement score of 231 or higher. Requirements: completion of prerequisites or three years of high school French. GE: World Languages Fourth Level Proficiency.

## FREN:2010 Global Science Fiction

3 s.h.
Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. GE: Diversity and Inclusion. Same as ASIA:2001, RUSS:2001, TRNS:2001, WLLC:2001.

FREN:2473 Cinderella
3 s.h.
Comparative analysis of Cinderella stories from around the world including Asia, Europe, Africa, South America; readings, discussion, workshops, and writing; consideration of visual and material presentation of Cinderella stories in physical books. Taught in English. Same as TRNS:2473, WLLC:2473.

## FREN:3000 Third-Year French 3 s.h.

Development of reading skills in French; composition and review of basic grammar structures. Prerequisites: FREN:2002 or French Placement score of 311 or higher.

## FREN: 3007 French Phonetics 3 s.h.

Introduction to French phonetics; sounds of French in isolation and in context to improve pronunciation; audio exercises that emphasize sounds (nasal vowels, $[\mathrm{u}]-[\mathrm{y}]$ contrast) and prosodic features (intonation, syllabification, liaison). Requirements: FREN:2002 or French Placement score higher than 311.
FREN:3020 Oral Expression in French I
3 s.h.
First in a two-course sequence. Prerequisites: FREN:2002 or French Placement score of 311 or higher.

## FREN:3060 Introduction to Reading and Writing in

 LiteratureDevelopment of analytical, organizational skills for interpretation of literature; readings in prose, poetry, drama, criticism; emphasis on reading and essay writing. Prerequisites: FREN:2002 or French Placement score of 311 or higher.

## FREN: 3120 French Civilization

from pre Rof prion from pre-Roman period to later 20th-century. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060. GE: Historical Perspectives.

FREN:3130 Francophone Cultures
3 s.h.
Study of cultures of the Caribbean, the Indian Ocean, the Maghreb, Sub-Saharan Africa, South Est Asia, Quebec, and Louisiana; approaches include literature, cinema, music, the arts, and media; introduction to field of Francophone studies and promotion of linguistic and cultural diversity. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060.

## FREN:3160 Study Abroad: Culture <br> 3 s.h.

Geography, history, architecture, painting, music of France; readings, slides, video and audio cassettes, visits to sites of cultural significance. Prerequisites: FREN:2002.

## FREN:3210 Comparative Arts

 3 s.h.Cultural and aesthetic issues arising from side-by-side investigation of several art forms, including literature, cinema, painting, music, opera, architecture; periods, schools, styles, and their theories. Taught in English. Same as ASIA:3210, IWP:3210, WLLC:3210.
FREN:3232 French Literary Translation Workshop 3 s.h.
Workshop in literary translation from French to English; practical, ethical, and theoretical questions about translation; focus on specific complication of French-English language pair; mapping style, genre, and literary influences of French authors for purpose of translation. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060. Same as TRNS:3232.
FREN: 3240 Media French 3 s.h.
Introduction to French press and media; students acquire knowledge related to media (e.g., newspapers, magazines, television, radio, social media); introduction to French national newspapers and television stations and their political and cultural orientations; students study articles obtained from different media to develop vocabulary and oral and written comprehension skills; study and discussion of current events in sports, politics, culture, society, and other fields. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060.
FREN:3250 Topics in French Studies I
3 s.h.
Requirements: prior or concurrent enrollment in FREN:3060.
FREN:3300 French Grammar 3 s.h.
Study of word forms, sentence patterns for more accurate use of French. Prerequisites: FREN:2002 or French Placement score of 311 or higher. Requirements: completion of prerequisites or four years of high school French.
FREN: 3360 Study Abroad: Language 3 s.h.
Written and spoken French; listening, speaking, reading, writing in cultural contexts. Prerequisites: FREN:2002.

FREN:3410 Business French
3 s.h.
Language of economics and business; practice in business correspondence and communication, active use of business vocabulary. Offered fall semesters. Requirements: prior or concurrent enrollment in FREN:3060.
FREN:4007 Topics in French Linguistics 3 s.h.
Concepts to aid in understanding how the French language works; major areas of linguistics-pronunciation (phonetics and phonology), the structure of words (morphology), the structure of sentences (syntax) and meaning (semantics). Prerequisites: FREN:3300 and FREN:3060.

## FREN:4015 Francophone Cinema

 3-4 s.h.Study of pioneering and contemporary Francophone fictional and documentary films from the Caribbean, the Indian Ocean, the Maghreb and Sub-Saharan Africa; cinematic vocabulary and critical concepts related to Francophone intellectual history to closely examine emergence and vibrancy of Francophone cinema, colonial, and postcolonial elements that characterize it, and ideological engagement of filmmakers; exploration of challenges and groundbreaking dynamics of distribution, funding, spectatorship, and free training in filmmaking in Dakar. Taught in English. Requirements: for 4 s.h. option-prior enrollment in FREN:3060 and FREN:3300.

## FREN:4017 Global Comics <br> 3-4 s.h.

Study of comics and graphic novels from all over the world; focus on gender, sexuality, race, language, migration, and culture; sustained reflection on questions of translation and the global circulation of the medium. Taught in English. Requirements: for 4 s.h. option-prior enrollment in FREN:3060 and FREN:3300.

FREN:4020 Oral Expression in French II 3 s.h.
Last in a two-course sequence. Prerequisites: FREN:3020 or FREN:3300 or FREN:3007.

FREN:4026 French Women Writers 3-4 s.h.
Survey of 20th- and 21st-century French women's literature; introduction to French feminist thought; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. optionFREN:3060 and FREN:3300. Same as GWSS:4026.

FREN:4070 Introduction to the Study of Meaning 3 s.h. Introduction to the study of meanings and language use in context; meaning outside the literal semantic interpretation of words used including presuppositions and goals of speaker, expectation of listener, speech acts, conversational implicatures, deixis, discourse functions, and other relevant topics. Taught in English. Prerequisites: LING:3001. Same as LING:4070.

FREN:4080 Post-Colonial Literature in France 3 s.h.
Literatures and cultures of Arabo-French (Beur) and Afro-French immigrations. Taught in French. Prerequisites: FREN:3300 and FREN:3060.

## FREN:4090 Quebec Literature

Study of Quebec literature and culture, First Nations' literature and écriture migrante; films and mixed media art enhance analysis of texts, historical and political contexts, and critical understanding of national and linguistic identity and relation between Quebec society, First Nations, immigration, and diversity. Taught in French. Prerequisites: FREN:3300 and FREN:3060

## FREN:4100 French Cinema

3-4 s.h.
Introduction to history of French Cinema. Taught in English.
Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. GE: Literary, Visual, and Performing Arts.

FREN:4110 Francophone Studies: Literature and the Arts 3 s.h. Study of literature, cultures, and visual arts of the Caribbean, the Indian Ocean, Sub-Saharan Africa, and the South Pacific; major theoretical paradigms in Francophone studies; variety of topics and interdisciplinary approaches. Taught in French. Prerequisites: FREN:3060 and FREN:3300.

FREN:4210 Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South 3-4 s.h Comparative study of museums, memorials, statues, performances, and artistic works that encapsulate the entangled history and memory of transoceanic slave trades and slavery in the United States, the Caribbean, the Indian Ocean, Sub-Saharan Africa, and Europe (France and the United Kingdom); critical tools to analyze public debates over politically charged monuments; exploration of transnational and political predicaments of the contemporary world; approaches include trauma theories, memory studies, history, postcolonial ecocriticism, cultural anthropology, heritage studies and museology, and Francophone cultural critique. Taught in English. Requirements: for 4 s.h. option-prior enrollment in FREN:3060 and FREN:3300. Same as MUSM:4310, WLLC:4210.

FREN:4433 France Under Nazi Occupation, 1940-1944 3-4 s.h.
Political, economic, social, and cultural conditions that prevailed following the Nazi conquest of France in 1940; examination of this period of upheaval through work of prominent historians of France; representations of occupied France in literary works, documentary, and fictional films produced during the war and in the politically fraught culture of collective memorialization that formed in aftermath of this national trauma. Taught in English. Requirements: for 4 s.h. option-prior enrollment in FREN:3060 and FREN:3300. Same as HIST:4433.

FREN:4520 Versailles Under the Sun King 3-4 s.h.
Survey of culture and literature related to the court of King Louis XIV at Versailles, France. Taught in English. Requirements: for 4 s.h. option-prior enrollment in FREN:3060 and FREN:3300.
FREN:4540 Gender and Sexuality in French Cinema 3-4 s.h. Cultural, historical, and semiotic approach to studying constructions of gender identity and discourses on sexuality in French cinema from 1920s to present; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option-prior enrollment in FREN:3060 and FREN:3300. Same as GWSS:4540.
FREN:4750 Topics in French Studies II 3 s.h.
French and/or Francophone literature or culture. Taught in French. Prerequisites: FREN:3060 and FREN:3300.

FREN:4911 French for Reading/Research 2 s.h.
FREN: 4912 French for Reading/Research 2 s.h.
FREN:4990 Independent Study arr.
Prerequisites: FREN:3300 and FREN:3060.
FREN:4995 Honors Research and Thesis
3 s.h.
Prerequisites: FREN:3300 and FREN:3060.
FREN:5000 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as GRMN:5001, SLA:5000, SPAN:5000, WLLC:5000.

FREN:5001 Introduction to Graduate Study 2 s.h.
Expectations, resources, and opportunities of graduate study; introduction to coursework, development of preprofessional competencies. Taught in English.

FREN:5020 Comparative Stylistics 3 s.h.
Translation from English to French, and French to English, including literary texts. Taught in English.
FREN:6001 Reimagining Humanities Scholarship 0-1 s.h.
Students focus on rethinking humanities research by questioning traditional scholarly periodizations, developing an awareness of how scholarship can incorporate questions of diversity and inclusion, and exploring alternate career pathways; cross-disciplinary workshop.

## FREN:6005 Colloquium: Teaching French

3 s.h.
Professional training to teach in elementary and intermediate French program; individualized mentoring and pedagogical guidance; for graduate student teaching assistants. Taught in English.
FREN:6015 The Renaissance in France 3 s.h.
Survey of literature from the French Renaissance. Taught in French.
FREN:6020 Studies in the Seventeenth Century
3 s.h.
FREN:6025 Studies in the Eighteenth Century 3 s.h.
Studies of French and/or Francophone literature and culture of the 18th century. Taught in French.

FREN:6080 Modern French Novel
3 s.h.

## FREN:6130 Francophone Thought

Comparative study of intellectual, literary, cultural, social, and historical developments in the Caribbean, the Indian Ocean, the Maghreb, and Sub-Saharan Africa; approaches include cultural theory, literary criticism, cinema, visual arts, women's studies, memory and trauma studies, postcolonial ecologies, and cultural anthropology; examination of key conceptual paradigms and cultivation of skills in critical thinking methodologies; students acquire theoretical tools to explore an interdisciplinary scholarly field and learn to establish connections between the main components of the course and their own research interests. Taught in French. Same as GWSS:6130.
FREN:6142 Crossing Borders Seminar 2-3 s.h. Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, GEOG:6635, GRMN:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.

## FREN:6750 Topics in French Studies

3 s.h.
FREN: 6755 French Literature of the 20th/21st Centuries 3 s.h. Advanced survey of French Literature 1900-present in areas of novel, theater, poetry, and essay. Taught in French.

## FREN:7000 Thesis

arr.
FREN:7990 Independent Study

## Italian Courses

ITAL:1000 First-Year Seminar
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

ITAL:1030 Italian for Travelers 2 s.h. Basic language skills for tourists; for students with no previous Italian.

## ITAL: 1050 Italy Live

3 s.h.
Introduction to Italian language and culture designed for students whose first contact with the language is in Italy; offered through Consortium of Universities for International Studies study abroad program (CUIS/CIMBA) in Paderno del Grappa, Italy.
ITAL: 1101 Elementary Italian I
5 s.h.
Beginning instruction in Italian for students with no prior experience in speaking, reading, or understanding Italian. GE: World Languages First Level Proficiency.

## ITAL: 1102 Elementary Italian II

5 s.h.
Continuation of ITAL:1101; beginning instruction in speaking, reading, and understanding Italian. Prerequisites: ITAL:1101. GE: World Languages Second Level Proficiency.

## ITAL:1103 Intensive Elementary Italian

4,6 s.h.
ITAL:1101 and ITAL:1102 combined in one semester; fundamentals of Italian language and culture including reading, writing, comprehension, and speaking skills. Requirements: two years of another foreign language. GE: World Languages Second Level Proficiency.
ITAL:2203 Intermediate Italian I 4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of elementary Italian. Prerequisites: ITAL:1102. GE: World Languages Third Level Proficiency.
ITAL:2204 Intermediate Italian II 4 s.h.
Improvement of skills in writing, speaking, and comprehension
beyond the level of elementary Italian. Prerequisites: ITAL:2203. GE: World Languages Fourth Level Proficiency.

ITAL:2205 Exploring Italy: Culture, Society, and Communication

3 s.h.
Introduction to diverse aspects of Italian culture and society; examines Italy's position in the global context. Taught in English.

3 s.h. ITAL:2440 Italian Arts for International Success 3 s.h
Exploration of Italy's centuries-old artistic tradition; students become familiar with some of the most important manifestations of Italian culture and reflect on how the arts have been informing business initiatives. Taught in English. GE: Literary, Visual, and Performing Arts.

ITAL:2550 Images of Modern Italy
3-4 s.h.
Survey of Italy's history since Unification; diverse aspects of modern Italian culture and society through visual and textural materials; optional discussion sections taught in Italian. Taught in English. Requirements: for students earning 4 s.h.-ITAL:2204. GE: Historical Perspectives; Values and Culture.
ITAL:2660 The Italian American Experience 3 s.h.
Exploration of Italian American presence in the U.S. by investigating historical background, multifaceted reality, heritage, and contribution to national culture; examination of Italian American ethnicity as portrayed in American literature, film, and television through an interdisciplinary approach; analysis of how Italian American writers and filmmakers have represented their community and contributed to shape their own cultural identity. Taught in English. GE: Diversity and Inclusion.

ITAL:2770 The Mafia and the Movies 3 s.h.
Exploration of the myth of the Mafia and mobsters and examination of its function through a selection of Italian films; students investigate the multifaceted nature of Italian organized crime, and consider its historical, geographical, social, and economical dimensions. Taught in English. GE: International and Global Issues.
ITAL:2880 Italian Food Culture
Introduction to Italian food culture; students explore how Italian culinary tradition was born and evolved over time, often reflecting historical and economic developments in the country; the different geographical regions of Italy and how each region established its own food culture, while at the same time being part of a national food culture; how Italian food has become a defining element of Italianness in the world, with focus on the birth of Italian-American foodways. Taught in English. GE: Values and Culture.
ITAL:2990 Independent Study
arr.
ITAL:3305 Advanced Italian 3-4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of intermediate Italian; activities include class discussions, oral presentations, compositions, readings of modern texts, review and expansion of grammar. Prerequisites: ITAL:2204.
ITAL:3306 Advanced Italian II
Improvement of skills in writing, speaking, and comprehension beyond the level of intermediate Italian; activities include class discussions, oral presentations, compositions, readings of modern texts, review and expansion of grammar. Prerequisites: ITAL:2204.

## ITAL:4550 Topics in Italian Studies

3 s.h.
Varied topics. Requirements: ITAL:2204.
ITAL:4633 Dante's Inferno
3-4 s.h.
A virtual poetic journey through Hell; critical reading of Dante's Inferno, the first volume of The Divine Comedy, and the many ways this text has been interpreted and reinterpreted; while primary focus is on Dante's work, other texts and media are introduced to enhance the reading. Taught in English; discussion sessions in Italian. Requirements: for Italian majors taking 4 s.h. option-ITAL:2204.

## ITAL:4634 The Italian Renaissance

Introduction to literature and culture of the Italian Renaissance; readings address various aspects of late medieval and renaissance culture including mysticism, humanism, women's position vis-à-vis literary tradition, and the relationship between literature and the arts. Taught in Italian. Requirements: ITAL:2204.

ITAL:4660 Transcultural Texts and Translations
Exploration of transcultural texts and films that have contributed to reshape the Italian cultural landscape; analysis and discussion of topics including migration and diaspora, belonging and exclusion, memory and nostalgia, prejudices and other obstacles to integration, use of language as a means of rejection and connection, struggles of new generations, hybrid identities, and imagined transformations that foster constructive interactions between cultures, histories, and languages; reflection and engagement in the practice of translation as a way of honing linguistic and cultural competency. Taught in Italian. Recommendations: at least one course taught in Italian at the 2000 level or above. Same as TRNS:4660.
ITAL:4667 Modern Italian Fiction 3 s.h.
Survey of major developments in Italian fiction, from birth of the modern novel in the 19th century to present-day transcultural narratives. Taught in Italian. Requirements: ITAL:2204.
ITAL:4668 Modern Italian Poetry and Theater 3 s.h.
Survey of major developments in modern Italian poetry and theater in relation to historical and cultural context. Taught in Italian. Requirements: ITAL:2204.
ITAL:4990 Independent Study
arr.
ITAL:4998 Honors Research and Thesis
3 s.h.

## Arabic Courses

ARAB:1000 First-Year Seminar
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

ARAB:1001 Elementary Modern Standard Arabic I 5 s.h. Speaking, listening, reading, and writing skills. GE: World Languages First Level Proficiency.
ARAB:1002 Elementary Modern Standard Arabic II 5 s.h. Continuation of ARAB:1001. Requirements: ARAB:1001. GE: World Languages Second Level Proficiency.

ARAB:2001 Intermediate Modern Standard Arabic I 5 s.h. Communication in speaking and writing; cultural topics. Requirements: ARAB:1002. GE: World Languages Third Level Proficiency.
ARAB:2002 Intermediate Modern Standard Arabic II 5 s.h. Continuation of ARAB:2001. Requirements: ARAB:2001. GE: World Languages Fourth Level Proficiency.
ARAB:2006 Transnational Solidarities 3-4 s.h.
Examination of connections forged by intellectuals, activists, and political thinkers in struggles against systems of colonialism, imperialism, capitalism, and state violence throughout the 20th century; opportunities to make connection with other struggles against racism, supremacy, patriarchy, and domination; optional discussion section taught in Arabic. Taught in English. Requirements: for 4 s.h. option-ARAB:1002. Same as WLLC:2006.

## ARAB:2030 Formal Spoken Arabic

2-3 s.h.
Conversational practice with a native speaker; for students who have completed fourth-semester Arabic. Requirements: ARAB:1002 or ARAB:2002; non-native or non-heritage speaker of Arabic.
ARAB:2050 Topics in Middle East/Muslim World Studies 3 s.h. Contemporary cultural questions and debates in the Muslim and Arabic-speaking world. Taught in English.

## ARAB:2060 Arab-American Immigration: Society, Identity, and

 Culture3 s.h.
Overview of the Arab-American immigration experience since the early 20th century.

3 s.h. ARAB:3005 Culture and Resistance: The Modern Middle East

3-4 s.h.
Introduction to literature, cinema, and music of the Modern Middle East; how artists from Arab world, Turkey, and Iran explore their political terrain; how they depict issues of gender and sexuality; impact of the Arab Spring; exploration of art as expression and resistance; intersection between cultural and political; short stories, graphic novels, film, music, and visual arts. Taught in English.
ARAB:3011 Advanced Modern Standard Arabic I 3 s.h.
Advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Requirements: ARAB:2002.
ARAB:3012 Advanced Modern Standard Arabic II 3 s.h. Continuation of ARAB:3011; advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Requirements: ARAB:3011.
ARAB:3030 Media Arabic
3 s.h.
Introduction to vocabulary, expressions, and terminology used in Arab print and broadcast media; supplements study in modern standard Arabic. Taught in Arabic. Requirements: ARAB:1002.

ARAB:3050 Arab Culture Through Dialects 3 s.h.
Communication in dialectal Arabic, Arabic dialectology, cultural topics, music and film in dialectal Arabic. Requirements: ARAB:1001; non-native or non-heritage speaker of Arabic.

ARAB:3060 Introduction to Arabic-English Translation 3 s.h. Thorough introduction to translation (including theory) with particular emphasis on development of Arabic-to-English translation techniques and acquisition of related knowledge above and beyond language skills; basic problems commonly encountered during translation; development and application of an appropriate strategy for future translations. Prerequisites: ARAB:2001 with a minimum grade of C.
ARAB:3498 Internship/Community Engagement
Internship with the Translate Iowa Project. Taught in English.
Requirements: TRNS:2000 or TRNS:3179 or TRNS:3202 or
ENGL:3724 or JPNS:3201 or SPAN:3030 or SPAN:3050 or
SPAN:4980. Same as TRNS:3498.
ARAB:4990 Independent Study arr.
Material not covered in regularly offered courses; independent study guided by an instructor.

## Swahili Courses

## SWAH:1000 First-Year Seminar

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.
SWAH:1001 Elementary Swahili I 4 s.h.
Development of basic Swahili conversations; introduction to Kiswahili culture, grammar, and vocabulary necessary for communication; asking and responding to simple and short questions. GE: World Languages First Level Proficiency.
SWAH:1002 Elementary Swahili II 4 s.h.
Builds on fundamentals of Kiswahili learned in SWAH:1002; students increase their proficiency in the language; introduction to Swahili language and culture through reading and listening to Swahili authentic materials. Requirements: SWAH:1001. GE: World Languages Second Level Proficiency.

SWAH:1010 Introduction to Swahili Language and Culture 2 s.h. Introduction to Swahili language, history, and culture for anyone who would like to learn more about East Africa, Swahili language, and culture; multidisciplinary sources include texts, newspapers, booklets, films, music videos, pictures, handouts, websites, and a taste of Swahili cuisine; provides a bird's eye view of East African culture; previous knowledge of Swahili not required.
SWAH:2001 Intermediate Swahili I 4 s.h.
Development of language skills and intercultural understanding; use simple conversation for everyday life topics, language use for daily basis needs using familiar topics, maintain conversation on simple and relevant topics, and exchange information about subjects of interest; students compare discussions and conversations to their own experiences, read literary texts and biographies, and watch video clips, movies, and documentaries to compare and relate the culture to their own backgrounds. Requirements: SWAH:1002. GE: World Languages Third Level Proficiency.

## SWAH:2002 Intermediate Swahili II

4 s.h.
Continuation of SWAH:2001; students increase competence in speaking the language and cultural understanding; general Swahili grammar and cultural studies; using the language to talk about job careers, lifestyles, basic rules/policies, complicated situations, purchasing and negotiating prices; development of communicative skills and intercultural understanding by reading a wide variety of texts and types. Requirements: SWAH:2001. GE: World Languages Fourth Level Proficiency.
SWAH:3006 Conversational Swahili 3 s.h.
Extensive practice in production and comprehension of spoken Swahili; students read and interpret simple texts, and write sentences and/or paragraphs about various topics; use of online resources to develop topics of discussion; students improve their Swahili grammar and vocabulary skills through conversations and discussions. Requirements: SWAH:1001 or prior background with Swahili.
SWAH:3007 Advanced Swahili
3 s.h.
Advanced speaking, listening, reading, and writing skills.
Requirements: grade of D+ or higher in SWAH:2002.
SWAH:3090 Topics in Swahili 3 s.h.
Varied topics in Swahili studies. Taught in Swahili. Prerequisites: SWAH:2002.

SWAH:4090 Swahili Independent Study 1-3 s.h.
Material not covered in regularly offered courses; independent study guided by an instructor.

## French, BA

## Learning Outcomes

At time of graduation, majors will have reached the equivalent of the intermediate high/advanced low level on the American Council on the Teaching of Foreign Languages (ACTFL) scale in the four areas of speaking, listening, reading, and writing with a special emphasis on literature and culture, language, or French and Arabic, depending on their track.

French majors will be able to:

- interact orally and in writing at a level sufficient for effective communication on a wide range of topics with French-speaking interlocutors from the Francophone world and across cultures;
- analyze, synthesize, engage critically, and effectively present written information and argumentation on what is heard, read, or viewed on the literatures and cultures of the Francophone world -France, North- and sub-Saharan Africa, the Indian Ocean, the Caribbean, and the French-speaking communities of North America; and
- gain knowledge on the various Francophone cultures of the world, and reflect upon and deal appropriately with their linguistic, cultural, and artistic history and diversity.

## Requirements

The Bachelor of Arts with a major in French requires a minimum of 120 s.h., including 33-37 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19]. Furthering Language Incentive Program (FLIP) credit may not be counted toward the major.

The French Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be the equivalent to FREN:3000 Third-Year French.

Students majoring in French complete a set of four foundation courses plus the requirements for one of four tracks: French and Arabic, language, literature and culture, or teaching.
The BA with a major in French requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | 12 |
| Track Courses | $21-25$ |

## Foundation Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| FREN:3060 | Introduction to Reading and | 3 |
|  | Writing in Literature | 3 |
| FREN:3300 | French Grammar | 3 |
| FREN:4020 | Oral Expression in French II |  |
| One of these: |  | 3 |
| FREN:3007 | French Phonetics | 3 |

Students must maintain portfolios documenting their progress toward attaining the objectives of the French major.

A maximum of one course taught in English may be counted toward the major, except with the French and Arabic track; courses taught in English with an additional semester hour in French are exempt
from this rule. Students should consult with their advisors before registering.

Transfer credit may be accepted, and students are encouraged to participate in study abroad, but the last two courses in the major ordinarily must be completed at the University of Iowa. Transfer credit is evaluated on an individual basis by the faculty in charge of study abroad.

Students choose an emphasis in one of the following four tracks when they declare the major (or later, but before their fourth year).

## Tracks

## French and Arabic Track

The French and Arabic track is designed for students interested in combining study of the French and Arabic languages with history, politics, and religions of Middle Eastern cultures and with a major in another area, such as political science, geography, or history.

Requirements for the French and Arabic track include seven or eight courses ( 25 s.h.) in addition to the foundation coursework in French. Refer to "Language Courses" and "Literature and Culture Courses" below for French courses that will satisfy that requirement.
Course \# Title Hours

Three courses in French language, or literature and
9
culture, taught in French, with at least one numbered above 4000
Two or three courses in Arabic language beyond first
year
Two courses on Middle Eastern cultures (prefix FREN
or ARAB), taught in French, Arabic, or English, or approved courses from other departments

## Language Track

The language track is designed for students with an interest in language and translation, as well as French and Francophone literature and culture. Students work in specific areas such as international business, comparative stylistics, and translation.

Requirements for the language track include seven courses ( 21 s.h.) in addition to the foundation coursework in French. Refer to "Language Courses" and "Literature and Culture Courses" below for French courses that will satisfy that requirement.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| FREN:3410 | Business French | 3 |
| FREN:4007 | Topics in French Linguistics | 3 |
| Five courses in French language, or literature and <br> culture | 15 |  |

All language track students take FREN:3410 Business French and FREN:4007 Topics in French Linguistics. Of the remaining five courses, only one may be taught in English under the French department (prefix FREN). This restriction does not apply to courses taught in English with an additional semester hour in French. Students must complete at least one course numbered above 4000 in addition to the required course FREN:4007.
Courses in French stylistics and textual analysis, another language, economics, political science, and/or business are recommended as adjunct electives.

## Literature and Culture Track

The literature and culture track is designed for students who are interested in combining study of French and Francophone literatures and cultures with a major in another area, such as cinema,
communication studies, history, international studies, political science, or journalism.

Requirements for the literature and culture track include seven courses (21 s.h.) in addition to the foundation coursework in French. Refer to "Language Courses" and "Literature and Culture Courses" below for French courses that will satisfy that requirement.

| Course \# Title | Hours |
| :--- | ---: |
| Five courses in literature and culture | 15 |
| Two courses in French language, or literature and | 6 |
| culture |  |
| Only one of these courses may be taught in English under the French |  |
| department (prefix FREN). This restriction does not apply to courses |  |
| taught in English with an additional semester hour in French. At least |  |
| two courses must be numbered above 4000. |  |

## Teaching Track

The teaching track is designed for students who intend to earn licensure to teach in elementary and/or secondary schools. Students must successfully complete the requirements for the major in French with the teaching track and must complete the College of Education's Teacher Education Program (TEP), which requires education courses and student teaching (see "Teacher Licensure" below).
Requirements for the French major's teaching track include seven courses ( 21 s.h.) in addition to the foundation coursework in French. Refer to "Language Courses" and "Literature and Culture Courses" below for French courses that will satisfy that requirement.
Course \# Title Hours
Four courses in literature and culture 12
Three courses from these areas: French language, or literature and culture
Only one of these courses may be taught in English under the French department (prefix FREN). This restriction does not apply to courses taught in English with an additional semester hour in French. At least two courses must be numbered above 4000 .

## Language Courses

Students can select courses from the following to satisfy track requirements for language. All courses are taught in French unless otherwise indicated.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| FREN:3000 | Third-Year French | 3 |
| FREN:3007 | French Phonetics | 3 |
| FREN:3240 | Media French | 3 |
| FREN:3360 | Study Abroad: Language | 3 |
| FREN:3410 | Business French | 3 |
| FREN:4007 | Topics in French Linguistics | 3 |
| FREN:4070 | Introduction to the Study of | 3 |

## Literature and Culture Courses

Students can select courses from the following to satisfy track requirements for literature and culture. All courses are taught in French unless otherwise indicated.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| FREN:3000 | Third-Year French | 3 |
| FREN:3120 | French Civilization | 3 |
| FREN:3130 | Francophone Cultures | 3 |
| FREN:3160 | Study Abroad: Culture | 3 |

| FREN:3232 | French Literary Translation Workshop | 3 |
| :---: | :---: | :---: |
| FREN:3240 | Media French | 3 |
| FREN:3250 | Topics in French Studies I | 3 |
| FREN:4015 | Francophone Cinema (taught in English) | 3-4 |
| FREN:4017 | Global Comics (taught in English) | 3-4 |
| FREN:4026 | French Women Writers (taught in English) | 3-4 |
| FREN:4080 | Post-Colonial Literature in France | 3 |
| FREN:4090 | Quebec Literature | 3 |
| FREN:4100 | French Cinema (taught in English) | 3-4 |
| FREN:4110 | Francophone Studies: Literature and the Arts | 3 |
| FREN:4210 | Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South (taught in English) | 3-4 |
| FREN:4433 | France Under Nazi Occupation, 1940-1944 (taught in English) | 3-4 |
| FREN:4520 | Versailles Under the Sun King (taught in English) | 3-4 |
| FREN:4540 | Gender and Sexuality in French Cinema (taught in English) | 3-4 |
| FREN:4750 | Topics in French Studies II | 3 |

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Majors who want to earn teacher licensure should choose the French teaching track. See "Teaching Track" above.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must have a grade-point average (GPA) of at least 3.50 for work undertaken in the department and a cumulative University of Iowa GPA of at least 3.33.

To graduate with honors in the major, departmental honors students must register for FREN:4995 Honors Research and Thesis or one honors-designated course numbered above 4000 . They must complete an honors thesis or the equivalent (e.g., translation, comparative stylistics, cultural studies, or research) in French and must present their work to a faculty committee.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the French major.

## Career Advancement

Students majoring in French may combine their studies with courses in education to prepare for jobs in high school teaching. They may go on to graduate study in areas such as French, comparative literature, and other interdisciplinary areas as preparation for college-level teaching. They also may combine other skills and studies with their major in French to prepare for challenging career opportunities in international government, business, finance, travel, communications, and other fields where the knowledge of more than one language is essential.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: competence in first-year French.
Before the fifth semester begins: second-year French (FREN:2002 Intermediate French II).

Before the seventh semester begins: three of the four requirements for the major, FREN:3007 French Phonetics or FREN:3020 Oral Expression in French I, FREN:3060 Introduction to Reading and Writing in Literature, FREN:3300 French Grammar, one or two other courses in the major, and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: FREN:4020 Oral Expression in French II and three more courses in the major; for the French language track, FREN:3410 Business French and FREN:4007 Topics in French Linguistics.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline
(typically in February for spring, September for fall) ${ }^{h}$

| Hours | $\mathbf{1 5 - 1 8}$ |
| :--- | :--- | ---: |
| Total Hours | $\mathbf{1 2 1 - 1 3 1}$ |

a Courses taught in English with an additional semester hour in French are exempt from this rule. Students should consult with their advisors before registering.
b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
c FREN:1001, FREN:1002, FREN:2001, and FREN:2002 do not count for credit toward the major. Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5 th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language.
d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
g Students complete 21-25 s.h. in track courses. Required coursework varies by track.
h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Italian, BA

Italian is the gateway to one of the world's richest cultures. Italy has the most United Nations Educational, Scientific and Cultural Organization (UNESCO) world heritage sites-artistic treasures considered to be of universal value-of any country in the world, due to its history as the birthplace of the Roman Empire and the Renaissance. In addition to an internationally recognized cultural patrimony, the country also has one of the world's largest economies. Italy is a world leader in design, fashion, art restoration, the culinary arts, robotics, shipbuilding, electromechanical machinery, machine tool manufacturing, construction machinery, space engineering, pharmaceuticals, and genetic mapping. Music, cinema, and sports also speak Italian. The video, Italy the Extraordinary Commonplace, highlights Italy's important contributions.

Students pursue Italian studies for cultural reasons, for travel and study plans in Italy, and because it enhances their competitiveness in today's marketplace. Since an estimated 950 Italian companies have offices in the U.S., and the U.S. is the third-ranked country of destinations for Italian export, many employers are seeking people who speak both Italian and English. A major in Italian opens doors to careers in a variety of fields; see Career Advancement [p. 483] in this section of the catalog.

## Languages, Culture, and Creativity

The major in Italian provides many opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and extracurricular activities such as the Italian Table (weekly conversation hours) and the film series, Italian Movie Nights.

## Learning Outcomes

Students who graduate with a major in Italian will be able to:

- understand Italian spoken language even when delivered at fast native speed;
- communicate effectively in both oral and written discourse, considering varying registers and cultural contexts;
- read with ease all forms of the Italian written language, including complex texts such as specialized articles and literary works;
- reflect with critical insight on a range of topics in Italian literature, history, and contemporary culture;
- explain the significance of a representative selection of figures, texts, and tendencies in the literature and other forms of cultural production from the target language-speaking world;
- recognize and reflect in an informed way on cultural differences as well as shared values between Italian culture and their native cultures; and
- develop an intellectual engagement and reflective sensibility that will contribute to their lifelong learning.

## Requirements

The Bachelor of Arts with a major in Italian requires a minimum of 120 s.h., including 32-33 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

Students may count a maximum of 9 s.h. (three courses) of approved upper-level transfer or study abroad credit toward the major in Italian, but they must take either ITAL:3305 Advanced Italian or ITAL:3306 Advanced Italian II at the University of Iowa. The Italian Language and Culture Advanced Placement (AP) exam with a score of 4 or higher may be used to complete the General Education (GE) World

Languages requirement and applied to requirements for the Italian major or minor, or used as elective hours.
The BA with a major in Italian requires the following coursework.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  | 4 |
| ITAL:2203 | Intermediate Italian I | 4 |
| ITAL:2204 | Intermediate Italian II | 4 |
| ITAL:3305 | Advanced Italian | 4 |
| ITAL:3306 | Advanced Italian II | 3 |
| ITAL:4550 | Topics in Italian Studies | 4 |
| ITAL:4633 | Dante's Inferno | 3 |
| ITAL:4660 | Transcultural Texts and | 3 |
| ITAL:4667 | Translations |  |
| One of these: | Modern Italian Fiction | 4 |
| ITAL:2550 | Images of Modern Italy | 3 |
| A course taught in Italian numbered above 3000 |  |  |

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Majors who want to earn teacher licensure should include an additional 2 s.h. in their work for the major. They should consult the director of undergraduate studies.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must have a grade-point average (GPA) of at least 3.50 for work undertaken in the department and a cumulative University of Iowa GPA of at least 3.33.

To graduate with honors in the major, students must register for ITAL:4998 Honors Research and Thesis and one honors-designated course numbered 3000 or above. They must complete an honors thesis or the equivalent (e.g., translation, comparative stylistics, cultural studies, or research) in Italian and must present their work to a faculty committee.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the Italian major.

## Career Advancement

A background in Italian is helpful for students planning careers in international business, tourism, and teaching, as well as for opera singers, musicians, art and art history majors, and for those who study architecture, fashion, and design. With more than a thousand Italian
companies doing business in the United States, the major in Italian combines well with career options in a wide variety of fields.
Students majoring in Italian may combine their studies with courses in education to prepare for jobs in high school teaching. They may go on to graduate study in areas such as Italian, comparative literature, and other interdisciplinary areas as preparation for college-level teaching. Some Italian majors go on to law school. Students also may combine other skills and studies with their major in Italian to prepare for challenging career opportunities in international government, business, finance, public relations, journalism, education, archaeology, arts administration, nongovernmental organizations, publishing, library science, politics, travel and tourism, hospitality management, communications, the culinary arts, and in other fields where the knowledge of more than one language is essential.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters to stay on the university's FourYear Graduation Plan.

Before the third semester begins: competence in first-year Italian.
Before the fifth semester begins: competence in second-year Italian (ITAL:2204 Intermediate Italian II).

Before the seventh semester begins: four courses in the major numbered above 3000 and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: a total of at least five courses in the major numbered above 3000 .

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and enough semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course choice and sequence will vary and should be discussed with an academic advisor. For more sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social

Sciences; Historical Perspectives; International and Global Issues;
Literary, Visual, and Performing Arts; or Values and Culture.
b ITAL:1101 and ITAL:1102 do not count for credit toward the major. Language level placement will be determined by the online placement test score and consultation with the Director of Italian Studies. Students who place into the 5th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language
c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in Italian courses requires an online placement exam and consultation with the Director of Italian Studies, unless enrolling in a first-semester-level course.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f Students pursuing the Italian major must take this course for 4 s.h.
g Fulfills a major requirement and may fulfill a GE requirement.
h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Arabic Studies, Minor

## Requirements

The undergraduate minor in Arabic studies requires a minimum of 16 s.h. earned in Arabic courses (prefix ARAB) considered intermediate ( 2000 level) or advanced ( 3000 level). A maximum of 3 s.h. may be taken in approved coursework taught in English. At least 12 s.h. must be taken at the University of Iowa. Students must maintain a gradepoint average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

## Required Coursework

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Intermediate Modern Standard | 5 |
| ARAB:2001 | Arabic I |  |
| ARAB:2002 | Intermediate Modern Standard <br> Arabic II | 5 |
| At least one Arabic course (ARAB) numbered 2000 or <br> above taught in Arabic | 3 |  |

## Courses Taught in English

Students may apply $3 \mathrm{~s} . \mathrm{h}$. of the following approved coursework taught in English toward the minor.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| ARAB:2006 | Transnational Solidarities | 3 |
| ARAB:2050 | Topics in Middle East/Muslim | 3 |

c Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.
d Work with academic advisor to select appropriate course.

## French, Minor

## Requirements

The undergraduate minor in French requires a minimum of 15 s.h. earned in advanced French courses (prefix FREN) numbered 3000 or above, including at least 9 s.h. taken at the University of Iowa. All courses for the minor must be taught in French. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.
The French Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be the equivalent to FREN:3000 Third-Year French. Furthering Language Incentive Program (FLIP) credit may not be counted toward the minor.

Credit from the University Studies Abroad Consortium (USAC) programs in Pau and Lyon, France, and the Study in Montpellier program in France counts as University of Iowa credit for the minor; 6 s.h. earned in other study abroad programs may be counted toward the minor.

Those who plan to use their work toward a minor in French as academic background for earning teacher licensure should contact the Office of Student Services in the College of Education about requirements.

## French and Francophone World Studies, MA

The Master of Arts in French and Francophone world studies is offered with an optional French education emphasis.

For more detailed information on graduate degrees in French and Francophone world studies, contact the Department of French and Italian.

## Learning Outcomes

- Mastery level of competence and proficiency in spoken and written French. Ability to change between languages and registers with ease as well as express sophisticated ideas in both English and French.
- Ability to perform a formal analysis of literary texts from a variety of genres, including narrative, poetry, theater, and those situated at the limits between traditional notions of genre as well as the visual arts.
- Knowledge of the various periods and subfields of French and Francophone literature from the Renaissance to the present, including major literary, cultural, and historical movements, and the relationship between France and its former colonies.
- Understanding of critical theory and its potential use for analyzing objects of study from a variety of media.
- Ability to think critically and make sustained and convincing arguments in relation to scholarship in the field, as well as express original opinions and thinking, as evidenced in a body of scholarship such as final papers.

## Requirements

The Master of Arts program in French and Francophone world studies requires a minimum of $30 \mathrm{~s} . \mathrm{h}$. of graduate credit and is offered with or without thesis.
Thesis students may apply up to 6 s.h. of thesis credit toward the 30 s.h. required for the degree. They must take a written and oral examination on their areas of study and must defend their thesis at the time of the comprehensive examination. The thesis prospectus must be accepted one year before a student defends the thesis.
Nonthesis students must pass a written and oral examination. With permission of the director of graduate studies and the department chair, nonthesis students may earn up to 6 s.h. of the required 30 s.h. outside the department or transfer up to 6 s.h. of coursework completed at another institution.
All MA students must complete the following coursework.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| FREN:5001 | Introduction to Graduate Study | 2 |
| FREN:5020 | Comparative Stylistics | 3 |

At least four graduate-level literature or culture courses numbered 5000 or above

## French Education Emphasis

The Master of Arts program with French education emphasis requires a minimum of $38 \mathrm{~s} . \mathrm{h}$. of graduate credit in French. The program is intended primarily for prospective secondary school and community college teachers. Candidates must pass a final written and oral examination.
All French education emphasis students must complete the following coursework.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| FREN:5001 | Introduction to Graduate Study | 2 |
| FREN:5020 | Comparative Stylistics | 3 |
| Courses in F (minimum r | ature numbered 5000 or above t) | 9 |

## Combined Programs

## French and Francophone World Studies, MA/Literary Translation MFA

The Department of French and Italian and the Literary Translation Program collaborate to offer a combined Master of Arts in French and Francophone World Studies and Master of Fine Arts in Literary Translation. Students interested in writing in its different formscreative, academic, and translation-will find the University of Iowa to be the ideal place to develop their talents and an attractive option for more diversified career preparation.
A separate application and admission to each degree program is required. For more information, review the admissions requirements for French and Francophone World Studies and Literary Translation.

Students in the combined program earn both degrees by completing a minimum of $60 \mathrm{~s} . \mathrm{h}$. of coursework, fewer semester hours than if each degree was completed separately. Qualified students may be eligible for up to three years of full funding for a teaching assistant (TA) position.

## Total Hours

31
Students additionally complete a thesis for the Literary Translation, MFA.

## Admission

Applicants must have completed the equivalent of the University of Iowa undergraduate major in French. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants for fall semester whose application materials are received in the department by Jan. 15 have the best chance to be admitted and receive financial aid. They must submit academic transcripts, letters of recommendation from three persons familiar with their past academic work, a statement of purpose in taking graduate work, and one or more samples of original writing, one of which should be in French, that show their ability to pursue graduate work in French (an honors thesis, term paper, seminar paper, or other course papers).

## Financial Support

Teaching assistantships are offered through the department, and university fellowships and scholarships are available through the Graduate College. Contact the Department of French and Italian for details.

Exchange assistantship agreements with the University of Pau and the University of Poitiers provide one year of residence at these universities in France for graduate students.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## French and Francophone World Studies, MA

Spring

| Literature or culture course ${ }^{\mathrm{c}}$ | 3 |
| :--- | ---: |
| Elective course $^{\mathrm{d}}$ | 2 |
| Final Exam $^{\mathrm{e}}$ |  |
| Hours | $\mathbf{5}$ |
| Total Hours | $\mathbf{3 0}$ |

a Students may complete 38 s.h. of graduate level coursework for the French education emphasis. In addition to fulfilling the requirements for the MA non-thesis, an additional 9 s.h. of coursework in French literature numbered 5000 or above is required. Graduate elective coursework may be reduced by 1 s.h. if students choose to complete the French education emphasis.
b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
c Complete at least four graduate-level literature or culture courses numbered 5000 or above.
d May apply 6 s.h. towards the degree from coursework outside the department, including graduate transfer coursework.
e Written and oral exam on areas of study.

## French and Francophone World Studies, PhD

For more detailed information on graduate degrees in French and Francophone world studies, contact the Department of French and Italian.

## Learning Outcomes

- Mastery level of competence and proficiency in spoken and written French. Ability to change between languages and registers with ease as well as express sophisticated ideas in both English and French.
- Ability to perform a formal analysis of literary texts from a variety of genres, including narrative, poetry, theater, and those situated at the limits between traditional notions of genre as well as the visual arts.
- Knowledge of the various periods and subfields of French and Francophone literature from the Renaissance to the present, including major literary, cultural, and historical movements, and the relationship between France and its former colonies.
- Understanding of critical theory and its potential use for analyzing objects of study from a variety of media.
- Ability to think critically and make sustained and convincing arguments in relation to scholarship in the field, as well as express original opinions and thinking, as evidenced in a body of scholarship such as final papers or a dissertation.

## Requirements

The Doctor of Philosophy program in French and Francophone world studies requires a minimum of 72 s.h. of graduate credit, including credit earned for the MA degree.
The PhD takes at least three years of graduate study, including at least one year spent in residence at the University of Iowa. Students must pass a comprehensive examination and make a successful oral defense of their dissertation.

Requirements for the PhD with a major in French and Francophone world studies include the following.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| FREN:5001 | Introduction to Graduate Study | 2 |
| FREN:7000 | Thesis (6 s.h. minimum) | 6 |
| A 5000-level course or one above that in critical theory | 3 |  |
| approved by the director of graduate studies |  |  |

Students must possess fifth-semester or equivalent proficiency in an additional language other than French. They are required to spend at least one year teaching as graduate assistants in the department.

## Admission

An MA in French is prerequisite to admission to the PhD program in French and Francophone world studies. However, successful completion of an MA in French does not necessarily qualify a student for doctoral study.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.
Applicants for fall semester whose application materials are received in the department by Jan. 15 have the best chance to be admitted and receive financial aid. They must submit academic transcripts, letters of recommendation from three persons familiar with their past academic
work, a statement of purpose in taking graduate work, and one or more samples of original writing, one of which should be in French, that show their ability to pursue graduate work in French (a term paper, seminar paper, or other course papers).

## Financial Support

Teaching assistantships are offered through the department, and university fellowships and scholarships are available through the Graduate College. Contact the Department of French and Italian for details.

Exchange assistantship agreements with the University of Pau and the University of Poitiers provide one year of residence at these universities in France for graduate students.

## Career Advancement

The PhD program is designed to prepare students for research, teaching, and professional service normally required of college and university faculty members.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Undergraduate majors: gender, women's, and sexuality studies (BA); social justice (BA)

Undergraduate minors: gender, health, and healthcare equity; gender, women's, and sexuality studies; social justice

Graduate certificate: gender, women's, and sexuality studies
Faculty: https://clas.uiowa.edu/gwss/people
Website: https://clas.uiowa.edu/gwss/
The future before us requires a deep understanding of local, national, and global challenges; the full array of diverse voices and views that shape communities; and the capacity to couple research with a rich imagination. The Department of Gender, Women's, and Sexuality studies (GWSS) partners with University of Iowa students to meet these challenges.

GWSS courses investigate a host of thorny social challenges and inspiring solutions to such problems, with a focus on gender and sexuality in their intersection with race and ethnicity, citizenship and borders, ability and disability, religion and spirituality, and more.

GWSS faculty research and teach on gender and social justice through intersectional, interdisciplinary, and transnational frameworks, engaging such areas as the environment, culture and the arts, education, health and medicine, violence and conflict, im/migration, and the economy.

Students in GWSS programs hone critical and creative thinking skills and develop the ability to analyze social problems across an array of contexts with nuance, insight, and care. In addition to learning writing, research, and presentation skills, students also have the opportunity to pursue creative and engaged projects, working across media and/or with local communities.

GWSS graduates go on to pursue careers or advanced study in a wide array of fields, including the health professions, the law, education, the arts, activism, and nonprofit work, business, and social work. They also learn firsthand the power of interdisciplinary problem-solving, thinking outside the box, and building just communities.

## Programs

Undergraduate Programs of Study

## Majors

- Major in Gender, Women's, and Sexuality Studies (Bachelor of Arts) [p. 502]
- Major in Social Justice (Bachelor of Arts) [p. 506]

## Minors

- Minor in Gender, Health, and Healthcare Equity [p. 512]
- Minor in Gender, Women's, and Sexuality Studies [p. 513]
- Minor in Social Justice [p. 514]

## Graduate Program of Study

## Certificate

- Certificate in Gender, Women's, and Sexuality Studies [p. 517]

## Courses <br> - Gender, Women's, and Sexuality Studies Courses [p. 493] <br> - Social Justice Courses [p. 499] <br> Gender, Women's, and Sexuality Studies Courses

GWSS:1000 First-Year Seminar
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.
GWSS: 1001 Introduction to Gender, Women's, and Sexuality Studies Introduction to feminist interdisciplinary study of women's lives, with emphasis on race, class, sexual orientation; work, family, culture, political and social change. GE: Diversity and Inclusion.
GWSS: 1002 Diversity and Power in the U.S. 3 s.h. How the intersection of gender, race, class affects individual experience, national ideology, social institutions; interdisciplinary perspective. GE: Diversity and Inclusion.

GWSS:1003 Introduction to Social Justice 3 s.h.
Introduction to principles and theories of social justice; students examine the history of influential social movements in the United States and the world in the last century; how intersectionality can create tensions between and among members of social movements; how race, class, gender, age, geography, and our bodies play a role in the application of theories of social justice. GE: Diversity and Inclusion. Same as SJUS:1001.
GWSS:1046 Environmental Politics in India
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GEOG:1046, SJUS:1046.
GWSS:1060 Sex and Popular Culture in America 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Culture. Same as AMST:1060, ENGL:1410.
GWSS:1074 Inequality in American Sport
Cultural meanings of sport in contemporary U.S. culture; sport experiences, inclusion, and exclusion as affected by social class, gender and sexuality, age and ability, race and ethnicity, and religion. GE: Diversity and Inclusion. Same as AMST:1074, SPST:1074.
GWSS:1310 Gender and Society
Role and status of women in society; sex differences, sex role socialization, theories about origin and maintenance of sexual inequalities, changes in social life cycle of women, implications for social institutions and processes; focus on contemporary United States. GE: Values and Culture. Same as SOC:1310.

## GWSS:1600 Wonder Woman Unleashed: A Hero for Our

 TimesDevelopment of the woman warrior archetype in mythology (Athenal Minerva and Artemis/Diana), literature (Camilla from The Aeneid by Virgil), and history (Artemisia and Joan of Arc); focus on the development of Amazon narratives in Metamorphoses by Ovid, The Book of the City of Ladies by Christine de Pizzan, and On Famous Women by Boccaccio; students read Wonder Woman Chronicles and one or two critical studies on the subject, which may include The Secret History of Wonder Woman by Jill Lepore. Same as WLLC:1600.

GWSS:2041 Gender, Communication, and Culture 3 s.h. Social construction of gender and gendered identities across a range of communicative settings in contemporary U.S. society, including relationships, schools, organizations, media, and social movements; how communication creates, reproduces, sustains, and sometimes challenges and changes the meaning of gender and, with that, cultural structures and practices. Same as COMM:2041.
GWSS:2046 Gender, Sexuality, and Space
3 s.h.
Introduction to feminist and queer theories of social space; material and symbolic construction of gender and sexuality; communicating gender and sexuality in different social spaces and scales in historical and contemporary contexts. Same as COMM:2045.
GWSS:2050 Jews, Judaism, and Social Justice 3 s.h. Jewish frameworks for grappling with justice and ethics from ancient world to present day; emphasis on internal diversity of Jewish experience as well as interactions with dominant and other minority cultures. Same as HIST:2150, RELS:2250, SJUS:2050.

## GWSS:2052 Women in Islam and the Middle East <br> 3 s.h.

Women in the Islamic community and in non-Muslim Middle Eastern cultures; early rise of Islam to modern times; references to women in the Qur'an and Sunnah, stories from Islamic history; women and gender issues. GE: International and Global Issues; Values and Culture. Same as RELS:2852.

## GWSS:2075 Gender, Sexuality, and Media <br> 3 s.h.

Mediated representations of gender and sexuality (television, film, and internet) to understand how these complex and complicated codes influence meaning of sex, sexuality, and gender; contemporary and historical examples used to engage texts that illuminate cultural conceptions of femininity, masculinity, heterosexuality, and homosexuality; cases that confuse and trouble the stability of these categories. Same as COMM:2075.

## GWSS:2078 Women, Sport, and Culture

3 s.h.
Feminist analysis of girls' and women's sports experiences, including reproduction of gender through sport, recent changes in women's intercollegiate athletics, media representations of women's sport, feminist critiques, alternatives to sport. Same as SPST:2078.
GWSS:2080 The Cultural Politics of HIV-AIDS 3 s.h.
Complex historical shifts in cultural perceptions about HIV-AIDS in the U.S. and transnationally; controversies around HIV-AIDS and their links with questions of gender and sexuality; how HIV-AIDS subsequently became the basis of a transnational industry comprising nongovernmental organizations, donors, and activists across the global north and south, starting from 1980s in the U.S. when HIV-AIDS first emerged into public sphere as a gay disease; link between HIVAIDS and ideologies of development or progress, neocolonialism, and emergence of lesbian, gay, bisexual, transgender, intersex, and questioning (LGBTIQ) movements in many parts of world. Recommendations: background in gender studies, and completion of rhetoric or at least one social sciences course. Same as GHS:2080.

GWSS:2100 Foundations of Health Humanities
3 s.h.
Examination of health, disease, care, and healing through humanities perspective; exploration of humanistic elements of medical care to better understand multiple meanings and impacts of disease, medical research and treatment, and health beliefs and practices in different communities; interdisciplinary inquiry through close reading, interpretation of visual images, and reflective and analytic writing to encourage adaptability and foster appreciation of non-technoscientific factors in personal and professional health care decision-making. Same as GHS:2100.
GWSS:2102 Anthropology of Marriage and Family 3 s.h.
Classic anthropological theories of kinship and marriage, including topics such as cousin marriage and incest; recent work on new reproductive technologies and transnational marriage. Same as ANTH:2102.

GWSS:2108 Gendering India
3 s.h.
Aspects of Indian culture, including nation, family, sexuality, work, and religion, through the lens of gender; Hindu India, differences in region, caste, and class. Same as ANTH:2108.

GWSS:2151 Global Migration in the Contemporary World $\mathbf{3}$ s.h. Examination of social, economic, and cultural dimensions of global migration in the contemporary world from a transnational and anthropological perspective; primary focus is on Asian migration to the United States, but in comparison to other migration trajectories. Recommendations: an introductory course in cultural anthropology is useful, but not required. GE: Diversity and Inclusion. Same as ANTH:2151, IS:2151.
GWSS:2160 Love and Romance in America
Exploration of the role of love and romance in the American experience; analysis of love and romance in their association with American ideals-pursuit of happiness, upward mobility, and liberation of self, nation, and world; history of romance as a genre; contemplation of picket fences, free love, bromance, valentines, green cards, desperate housewives, break-ups, hook-ups, and (un)happily ever after. Same as AMST:2160.

## GWSS:2190 Love Rules: Law and the Family Across

 Cultures3 s.h.
Recent debates over legalizing gay marriage remind us that the law is not an abstract concept, it is a social creation that emphasizes certain cultural norms over others, both powerful and changeable; family law outlines what one cultural vision of relationships-those between lovers, parent and child, and between kin-supposedly should look like in a given society, a vision always marked by gendered, racial, and sexual divisions of power; students consider what happens when legal norms intersect with diverse ways that people make families through topics including marriage, divorce, custody, and surrogacy across the world. Same as ANTH:2190, IS:2190.
GWSS:2193 Literature, Culture, and Women 3 s.h. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as ENGL:2193.
GWSS:2222 Women in Premodern East Asian Literature 3 s.h. Reading of East Asian literature portraying women from the first millennium B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. GE: Diversity and Inclusion. Same as ASIA:2222, WLLC:2222.

## GWSS:2250 The History of Social Justice Movements <br> 3 s.h.

History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as HIST:2250, SJUS:2250.

## GWSS:2300 Race, Class, Gender, and Labor: Worker Struggles for Legal Rights in the United States

Students familiar with the gig economy and the "Fight for $\$ 15$ "
examine historical tensions between working class, middle class, poor, and the $1 \%$-at the intersections of race and gender-and how these diverse groups wielded their influence on the legal system in order to gain power; students examine how workers in the United States joined together, put their bodies on the line for social justice, and created radical, legal change. Same as SJUS:2300.

GWSS:2400 Health, Intersectionality, and Diversity 3 s.h.
Exploration of intersectionality related to gender and health
disparities, particularly as they impact diverse populations in the United States. Same as CPH:2240, LATS:2400.

GWSS:2422 Feminist Ethics 3 s.h.
Philosophical evaluation of gender as a pervasive and persistent structuring principle for social inequality. Same as PHIL:2422.
GWSS:2500 Love, War, Activism: Stories About Women from Across the World

3 s.h.
Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2570, SJUS:2500.
GWSS:2571 Visualizing Human Rights
3 s.h.
Cinematic representations of human rights issues in films by directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of race relations in colonial and postcolonial societies; public health issues, specifically women's and children's rights in context of the HIV/AIDS pandemic. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2571, SJUS:2571.
GWSS:2650 Global Reproduction
3 s.h.
History of birth control and work of activists and organizations that emerged to promote it; troubling connections that spawned between reproductive rights and population control movements. Same as GHS:2650.

GWSS:2651 Gender and Sexuality in the Ancient World 3 s.h. Survey of gender and sexuality issues in the social, political, and religious life of ancient Greece and Rome; evidence from literature, the visual arts, archaeology. Requirements: completion of GE CLAS Core Rhetoric and sophomore standing. GE: Values and Culture. Same as CLSA:2651.
GWSS:2674 Food, Body, and Belief: A Global Perspective 3 s.h. Exploration of local, national, and global forces that shape food consumption, body image, and spiritual practices. Taught in English. Same as GHS:2674, RELS:2674.

GWSS:2700 Transgender People, Politics, and Cultures 3 s.h. How people live across and beyond social differentiation of sex and gender; how practices of identity building and political resistance transform or negotiate with social structures of gender, race, and class; burgeoning field of transgender studies which pushes to interrogate some fundamental aspects of human societies and question how supposedly "natural" categories of sex and gender are constructed and transformed; exploration of lives, politics, and subcultures of people who differ from gender norms in the United States and across the world; how transgender cultures and politics negotiate with structures of race and class. Recommendations: background in gender studies or social sciences.
GWSS:2800 African American Women, Health, Hair, and Sexuality

3 s.h.
From the exotic to the erotic, African American women's bodies have been constructed to fulfill a variety of personal and cultural fantasies as well as social functions that are "killing us softly"; how cultural icons and myths of Black women-Jezebel, Mammy, Tragic Mulatto, Aunt Jemima, Sapphire, Matriarch, Welfare Queen, and more recently, the overachieving Black woman-shape and create restrictions and visions of the self that contribute to health disparities; engaging Black feminist/womanist theory to explore how larger images influence everyday acts of self-care and pleasure, such as hair and sexuality, on the health of African American women. Same as AFAM:2800.
GWSS:2900 Love, Sex, and Money: Sexuality and Exchange Across Cultures
Everything from pop songs to advertisements warn us of the evils of gold diggers, "blingsexuals," or "buyfriends"; in America, money is seen to corrupt the purity and authenticity of love and desire, but money also is an inevitable part of sex, love, and intimacy; crosscultural examination of how relationships between love, money, and sexuality are organized in different places; different ways people form relationships with lovers, spouses, and persons who enable childbearing; rethinking gender roles, work, value, and power. Same as ANTH:2191.

GWSS:3005 Practicum 3-4 s.h.
Experience in volunteer work for organizations that provide services for women. Prerequisites: GWSS:1001. Same as SJUS:3005.
GWSS:3010 Transnational Sexualities 3 s.h.
How ideas about normative and nonnormative sexuality, gender/ sexual identities, and related social movements travel across geographical, political, and cultural boundaries; potentials and limits of using conceptual frameworks (i.e., sexuality, gender, LGBT, queer) across the west and global south; how sexuality always intersects with race, class, nationhood, and transnational systems of power; power structures that shape gender/sexuality through a transnational approach; connection of inequalities within the United States with those across the world. Same as GHS:3015.

GWSS:3050 Topics in Gender, Women's, and Sexuality Studies

1,3 s.h.
Representative topics: American Indian/First Nations Women;
population and the environment; feminism and the family; women, health, and healing; women of color.

GWSS:3078 Archiving Women's History 3 s.h.
Exploration of girls' and women's history in Iowa through collections at the Iowa Women's Archives; introduction to archival research, digital humanities, and Omeka (a digital collection and exhibit platform) with focus on sport-related collections; guided individualized research and exhibit development. Same as AMST:3078, SPST:3078.

GWSS:3100 LGBTQ/Queer Studies
3 s.h.
Overview of queer theory and queer studies; development of critical thinking skills in relation to cultural constructions of gender, sexuality, race, and other identity categories.

## GWSS:3101 Anthropology of Sexuality

Practice, definition, and regulation of sex in different cultures and times; use of anthropological tools, including cross-cultural comparison and social constructionist analysis; how social and historical forces shape sex; how a range of topics relate to sexuality, including science, love, work, globalization, ethnicity, health, aging, pornography, and deviance; focus on ways that dynamics (i.e., class, race, gender norms) shape people's culturally and historically specific ways of having and thinking about sex. Same as ANTH:3101.
GWSS:3105 Contraception Across Time and Cultures 3 s.h. Methods and history of contraception; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as CLSA:3105, GHS:3105, WLLC:3105.

## GWSS:3118 Politics of Reproduction

3 s.h.
Examination of reproductive politics from historical, sociological, anthropological, and communicative perspectives; reproductive justice and bodily autonomy as key sites of feminist struggle in the United States and in global contexts; topical issues include abortion and birth control, assisted reproductive technologies, commercial surrogacy industries, LGBTQ family formation, and systems of reproductive violence. Same as ANTH:3118, COMM:3118.

GWSS:3121 Love, Marriage, and Family in India 3 s.h. Anthropological understandings of love in India and the region of South Asia more broadly; emphasis on contemporary society; filial and motherly love, arranged marriage and romantic love, devotional and artistic expressions, love between siblings. Same as ANTH:3121.

GWSS:3131 Gender and Sexuality in East Asia
Examination of historical construction of gender and sexuality in East Asia from mid-19th century to present. Same as ASIA:3431, RELS:3431.

## GWSS:3133 Anthropology of Race

3 s.h.
Anthropological perspectives on race: history of race in anthropology; social, cultural, and political dimensions of race; intersections with gender; biology of human diversity. Recommendations: introductory course in social sciences. Same as ANTH:3133, SJUS:3133.
GWSS:3138 Writing to Change the World 3 s.h.
Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as SJUS:3138.

GWSS:3150 Feminist Readings of History 3 s.h.
Feminist analysis has revolutionized the writing of history-not only on gender and sexuality, but also on topics as diverse as politics, economics, international relations, and social hierarchies (e.g., race, class, ability, religion); students examine feminist transformations of history with specific topics chosen by instructor. Same as HIST:3150.
GWSS:3154 Sexuality in the United States 3 s.h.
GWSS:3157 Gender, Sexuality, and Human Rights 3 s.h.
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as HIST:3157.

3 s.h. GWSS:3171 Higher Education and Social Justice 3 s.h.
Reflection of students' place within educational systems; development of rhetorical tools for successful advocacy; advocation through writing for change within higher education and the UI; student loans, racial segregation, social and economic immobility, free speech, data insecurity, sexual assault. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3171, SJUS:3171.

GWSS:3173 Gender, Sexuality, and Literature 3 s.h.
Representations of gender, class, and sexuality in British, American, or postcolonial literature. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3173.
GWSS:3177 Women and Their Bodies in Health and Illness $\mathbf{3}$ s.h. Basic facts about structure and functioning of female body; particular attention to adjustments the body makes during normal physiological events (menstruation, sexuality, reproduction, menopause) and during illness processes; women's mental and physical health issues in relation to women's lives and roles in society; relationship of women as consumers, practitioners, and activists to health system; achievements and limitations of women's health movements; antioppression, intersectionalities, and cross-cultural perspectives. Same as NURS:3739.

## GWSS:3185 Global Women's Cinema

3 s.h.
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as WLLC:3185.

## GWSS:3200 Theories for Gender, Women's, and Sexuality

 Studies3 s.h. Historical and contemporary theoretical approaches to the study of gender and sexuality; emphasis on interdisciplinary methods of analysis and interpretation.

## GWSS:3257 Civil Rights and Racial Justice: A Tour Through the South <br> 1-3 s.h.

Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or AFAM:2268 or HIST:2268 or AFAM:3053 or AMST:3053 or HIST:3253 or HIST:3232 or HIST:4260 or AFAM:3100 or HIST:3160 or HIST:3260 or AFAM:3260 or HIST:3282 or GWSS:3282 or HIST:4130 or HIST:4260. Same as AFAM:3257, HIST:3257, SJUS:3257.

GWSS:3282 Women and Power in U.S. History Since the Civil War 3 s.h. Major events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct but interconnected histories of different groups of women; changing ideals of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as HIST:3282.

GWSS:3300 Mothers and Motherhood
Treatment of motherhood; role of motherhood and devaluation of social status. Same as ANTH:3300.

## GWSS:3326 The Politics of Progress: NGOs, Development, and Sexuality

How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions' arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GHS:3327.

GWSS:3350 Transnational Feminism
Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as ANTH:3125, IS:3350.
GWSS:3400 Advocacy and Engagement Colloquium 1-3 s.h.
How to capitalize on volunteer experience; how experience can lead to careers in health care, law, advocacy, social work, social justice, education; issues related to domestic violence, community education, sexual assault; health care for women, youth, and LGBTQ populations; health care inequities, social justice; field journal. Recommendations: active volunteer work at feminist-centered organizations in Iowa, completion of 40-hour training, plan to serve organization for up to ten or more hours each month, and attendance at regularly scheduled volunteer meetings. Same as SJUS:3400.

## GWSS:3421 Performing Autobiography <br> 3 s.h.

Advanced seminar and workshop; immersive readings in genre of contemporary autobiographical work, scholarship and criticism, and performance texts and videos as established artists have developed them; students write and perform their own original pieces stemming from personal experiences and interests. Recommendations:
RHET:1030. Same as THTR:3421.
GWSS:3425 Women, Crime, and Justice 3 s.h.
Overview of women's experiences with crime and criminal justice system, with reference to experiences of men for purposes of comparison; role of race, ethnicity, and poverty in women's experiences; causes of crime, inequalities in police-citizen interactions, imprisonment, and other aspects of criminal justice system experience. Same as CRIM:3425.

## GWSS:3427 Family, Gender, and Society in Early Modern Europe

3 s.h.
Social and gender ideologies as inscribed in patterns of authority (household, church, state); ranges of human endeavor (intellectual, psychological, biological); community organization (social, economic, legal, sexual); their influence on concept of community. Same as HIST:3427.
GWSS:3430 Women on Stage 3 s.h.
Examination of how and why women in the United States have expressed themselves through theatre and performance from 1776 to present; students study plays as performed events in specific times and places for specific audiences through works by African American, Asian American, European American, Latina, Native American, and lesbian/queer writers; what the theater-as a public, embodied art form-offers female writers; how stakes differ for women of diverse backgrounds in using this often suspect and uniquely powerful medium in particular historical moments; how changing definitions of gender and sexuality come into play; prior background in theater not required. Same as AMST:3430, THTR:3430.

GWSS:3459 Making Change, Making History: Iowa's Black Activists and Digital History 3 s.h.
From the 1830s through the end of the 19th century, African Americans formed local, state, and national meetings called "Colored Conventions," where they strategized about how to achieve social justice; students explore Iowa's connections to this history of political activism. Same as HIST:3259, SJUS:3459.
GWSS:3475 Working for Social Justice 3 s.h.
Identification and pursuit of careers in a wide range of fields where people advocate for and engage issues of social justice; writing self-assessments, résumés, sample employment application letters, statements of purpose; development of e-portfolios that highlight areas of student research and expertise; mock interview practice; Pomerantz Career Center resources; interviewing professionals in careers focused on social justice and feminist issues; local internship and volunteer possibilities; national and international educational and career opportunities for making a difference in the world. Same as SJUS:3475.

## GWSS:3550 Social Justice, Religion, and Spirituality: Faith and Belief Ignited

Examination of some distinctively American traditions of religion, spirituality, and social justice, including women and men who have channeled their religio-spiritual beliefs into social justice in their communities; historical and anthropological focus; examination of U.S. movements (e.g., the Catholic Worker movement, the United Farm Workers movement, the civil rights movement, iterations of the feminist movement); direct involvement with the communities. Same as RELS:3550, SJUS:3550.
GWSS:3570 Transnational and Postcolonial Writing by Women 3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3570.
GWSS:3600 Art, Feminist Practice, and Social Justice 3 s.h.
Issues related specifically to gender, women's, and sexuality studies through the arts; themes include broad social issues such as violence, sexual assault, incarceration, reproduction, immigration, and labor; students explore a theme and work with community partners to address the theme through social practice in the arts. Recommendations: prior courses in gender, women's, and sexuality studies, or courses in social work, art education, or studio arts.

GWSS:3620 Narrative Medicine, Social Justice, and the End of Life
Role of narrative in health care practice, decisions, and ethics; narrative production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Prerequisites: RHET:1030. Same as SJUS:3620.

GWSS:3750 Born in the USA: Fertility and Reproduction 3 s.h. Exploration of when, why, how, and with whom Americans bear children; comparison to other developed and developing countries in the world; infertility and its treatments; ethics of surrogacy; voluntary childlessness; rapid rise of nonmarital childbearing in the U.S. and other countries; politics of childbirth; declining populations; rapid aging of rich where women have basically stopped having children. Same as SOC:3750.

GWSS:3900 Research for Public Engagement
3 s.h.
Emphasis on interdisciplinary reading, writing, research, and oral presentation skills necessary for pursuing socially engaged scholarship at a high level; students practice how to read for an argument, summarize and evaluate the ideas of others, and formulate their own positions within critical controversies.

## GWSS:3950 Academic Internship

1-3 s.h.
Work under supervision of a faculty member on a scholarly or creative project related to the department or campus, or work with the director of undergraduate studies as a media, digital publishing, or teaching intern; students receive credit for the internship depending on the number of hours they work, learning objectives they develop, and meetings, written reports, and other research-related or self-evaluative writing they contract to do with the supervising faculty member. Prerequisites: GWSS:1001 or SJUS:1001. Requirements: gender, women's, and sexuality studies or social justice major or minor. Same as SJUS:3950.

## GWSS:3990 Independent Readings and Research in Gender,

 Women's, and Sexuality StudiesTopics not covered in regular curriculum.
GWSS:4026 French Women Writers 3-4 s.h.
Survey of 20th- and 21st-century French women's literature; introduction to French feminist thought; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. optionFREN:3060 and FREN:3300. Same as FREN:4026.

## GWSS:4090 Senior Research Seminar <br> Design and development of individual creative or scholarly projects

 in the field of gender, women's and sexuality studies; emphasis on strengthening students' research and writing skills; synthesizing, extending, and applying work already completed in the major. Prerequisites: GWSS:1001 or GWSS:1002 and GWSS:3900. Requirements: two women's studies courses numbered above GWSS:1001.
## GWSS:4095 Honors Senior Thesis

Supervised research, writing.
GWSS:4140 Feminist Activism and Global Health
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101 or GWSS:1001 or CPH:1400 or GHS:2000. Same as ANTH:4140, CBH:4140, GHS:4140.

## GWSS:4169 Feminist Rhetorics

3 s.h.
Exploration of multiple, varied, and complex histories of U.S. feminisms from rhetorical perspectives; focus on primary documents, the letters, speeches, essays, and manifesto/as that shaped women's movements and inspire social change from late 18th century to present; social, political, and personal issues that feminists sought to address and transform, communicative and rhetorical methods utilized, and implications of these efforts for women's lives and broader U.S. American culture. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, COMM:2069, COMM:2070, COMM:2072, COMM:2075, COMM:2076, COMM:2077, COMM:2078, COMM:2079, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, COMM:2248). Same as COMM:4169.
GWSS:4180 Gender and Sexuality in Comics 3 s.h.
Critical and historical examination of representations of gender and sexual identities in comics and graphic novels, including nonfiction and popular genres.

3 s.h.

GWSS:4540 Gender and Sexuality in French Cinema 3-4 s.h. Cultural, historical, and semiotic approach to studying constructions of gender identity and discourses on sexuality in French cinema from 1920s to present; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option-prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4540.

GWSS:4800 Seminar in Comparative Literature 3 s.h. Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as CL:4800, GRMN:4800, TRNS:4800, WLLC:4801.

GWSS:4820 Sociology of Sexuality 3 s.h.
Sociological perspectives on sexuality, including theoretical and conceptual developments, empirical regularities, and social implications; sexual expression in the United States. Prerequisites: SOC:1010 or SOC:1030. Same as SOC:4820.
GWSS:5000 Foundations for Gender, Women's, and Sexuality Studies

3 s.h.
Theory, methodology, practice, archive, and robust stakes of the interdisciplinary field of gender, women's, and sexuality studies (GWSS); analysis and discussion of the history and possible futures of the field, as well as the relationship of GWSS to student's developing interests and areas of study.
GWSS:5120 Reading Transnational Feminist Theory 3 s.h.
Issues in transnational feminist scholarship, including coloniality and globalization as related to domains of gendered work, cultural traditions, and development; interdisciplinary readings-including from qualitative social science-consider connections across the arr. Global North and South. Same as ANTH:5120.

GWSS:5500 Tell Magazine Writing and Publishing
Workshop
3 s.h.
Students serve as editorial, writing, and production staff for Tell, the Department of Gender, Women's, and Sexuality Studies' digital magazine; Tell explores issues of race, class, gender, sexuality, ability, national identity, and other differences of power and privilege often absent in mainstream publications; students learn technical aspects of digital publication management, write their own stories and columns for the magazine and its ongoing blog, create digital and graphic materials, organize outreach events and manage social media outlets for the magazine, and work as editors and collaborative partners with one another and with writers and artists who submit work for publication. Prerequisites: GWSS:5000.
GWSS:6050 Seminar: Gender, Women's, and Sexuality Studies

3 s.h.
Special topics in gender, women's, and sexuality studies.
GWSS:6130 Francophone Thought
Comparative study of intellectual, literary, cultural, social, and historical developments in the Caribbean, the Indian Ocean, the Maghreb, and Sub-Saharan Africa; approaches include cultural theory, literary criticism, cinema, visual arts, women's studies, memory and trauma studies, postcolonial ecologies, and cultural anthropology; examination of key conceptual paradigms and cultivation of skills in critical thinking methodologies; students acquire theoretical tools to explore an interdisciplinary scholarly field and learn to establish connections between the main components of the course and their own research interests. Taught in French. Same as FREN:6130.
GWSS:6238 Gender and Education in Historical Perspective 3 s.h. Gender in context of history of education in the United States; coeducation in common schools, academies, and high schools; women's arrival and experiences as college students; masculinity in higher education; single-sex versus coeducation; emphasis on conflicting historical interpretations. Same as EPLS:6238.

## GWSS:6239 LGBTQ History in Education

Lesbian gay bisexual transgender and questioning (LGBTQ) in context of history of education in United States; LGBTQ teachers, students, and studies in K-12 and higher education; emphasis on differences in historical interpretations. Same as EPLS:6239.
GWSS:6275 Diversity and Equity in Higher Education
3 s.h.
Impact of culture, race, ethnicity, and intersections of social and cultural identity within context of educational settings including higher education/student affairs, K-12, and as it relates to government and community agency settings; implications of cultural context on practices in research, educational settings, and society. Requirements: PhD, EdD, or advanced-level MA standing. Recommendations: introductory course on issues of race, culture, gender, sociopolitical issues, or structural oppression strongly recommended. Same as EPLS:6275.

GWSS:6300 Writing for Learned Journals 1-4 s.h.
Seminar that supports graduate students in bringing written work to publishable form; analysis of target journals' audiences, interests, and citation politics; submission and the publication process; response to reader reports and criticism; best writing and research practices; discussion of knowledge cultures and discourses in disciplines and the contemporary academy. Same as AMST:6300, GRAD:6300, RHET:6330.

GWSS:6345 New Materialisms
3 s.h.
Exploration of new strategies for rupturing persistent dichotomies of subject/object, representation/real, culture/nature, and active humans/ passive things offered by theories of the vitality and agency of matter; introduction to origins of and developments in new materialisms; oriented to interdisciplinary inquiry and application to research in the humanities, broadly conceived; particular attention to actor-network theory, feminism, queer theory, infrastructuralism, and materialist theories of media. Same as COMM:6345, RELS:6345.

## GWSS:6350 Gender and Religion

3 s.h.
What contemporary religious and spiritual groups and their members believe about sex, sexuality, and gender; how they define and redefine what it means to be a "man" and a "woman"; exploration of contemporary "conservative" and "progressive" cosmologies and theologies; underlying beliefs that construct these perspectives and the impact on individual and group practices; broader implications of individual and group beliefs and practices on national and global policies. Same as RELS:6350.
GWSS:6415 Seminar: Language, Gender, and Sexuality 3 s.h. Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as ANTH:6415, LING:6415.

## GWSS:6990 Independent Study

arr.
GWSS:7000 Gender, Women's, and Sexuality Studies Graduate Practicum
Volunteer work experience, or conceptualization and execution of research projects. Prerequisites: GWSS:5000.

GWSS:7122 Readings: History of Gender and Sexuality
arr.
Topics in international and transnational history of gender and sexuality. Same as HIST:7122.

## GWSS:7205 New Histories: U.S. Slavery

Our approach to study of slavery and discipline of history have been upended by recent works by and about women; exploration of that scholarship and consideration of where it takes us in grappling with systems and subjectivity of slavery. Same as AFAM:7205, HIST:7205.

GWSS:7214 Readings: African American Women's History
arr.

## GWSS:7220 Readings: History of Sexuality in the United

 States arr.History of sexuality within the family, its move into the marketplace; social customs and taboos, methods of birth control and abortion, religion, medical and psychological writings, state policies. Same as HIST:7220.

GWSS:7275 Readings in the History of Women and Gender in the U.S.A.
arr.
Same as HIST:7275.
GWSS:7400 Graduate Research Conference Presentation 1 s.h. Crafting a presentation for the annual James F. Jakobsen Graduate Conference each spring; students work with an existing creative and/ or scholarly project from another class or context; discussion of an array of presentation practices in gender, women's, and sexuality studies including interactivity, accessibility, audience engagement, workshopping, recursive revision, institutional justice, and various experiments with form, genre, discipline, body, and language; for students pursuing the Certificate in Gender, Women's, and Sexuality Studies. Prerequisites: GWSS:5000. Requirements: gender, women's, and sexuality studies graduate certificate standing.

## GWSS:7435 Readings: Women, Men, and Gender in Modern Europe <br> Same as HIST:7435.

GWSS:7805 Readings in Middle East History arr.
Global perspective on major topics in modern history of the Middle East and North Africa including gender, sexuality, race, and empire. Same as HIST:7805.

## Social Justice Courses

SJUS:1001 Introduction to Social Justice 3 s.h. Introduction to principles and theories of social justice; students examine the history of influential social movements in the United States and the world in the last century; how intersectionality can create tensions between and among members of social movements; how race, class, gender, age, geography, and our bodies play a role in the application of theories of social justice. GE: Diversity and Inclusion. Same as GWSS:1003.

SJUS:1046 Environmental Politics in India 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GEOG:1046, GWSS:1046.

## SJUS:1600 War Stories

3 s.h.
Exploration of the history of U.S. conflicts from Vietnam to the War on Terror through novels, film, and other cultural forms; specific focus on how U.S. social structures influence experiences of war. Same as AMST:1600, LATS:1600.

## SJUS:2000 Theories of Social Justice

Introduction to important theories of intersectional feminist social justice. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Recommendations: prior or concurrent enrollment in SJUS:1001 strongly recommended for social justice majors or minors.
SJUS:2006 Transnational Solidarities 3-4 s.h.
Examination of connections forged by intellectuals, activists, arr. and political thinkers in struggles against systems of colonialism, imperialism, capitalism, and state violence throughout the 20th century; opportunities to make connection with other struggles against racism, supremacy, patriarchy, and domination; optional discussion section taught in Arabic. Taught in English. Requirements: for 4 s.h. option—ARAB:1002. Same as ARAB:2006, WLLC:2006.

SJUS:2050 Jews, Judaism, and Social Justice
3 s.h.
Jewish frameworks for grappling with justice and ethics from ancient world to present day; emphasis on internal diversity of Jewish experience as well as interactions with dominant and other minority cultures. Same as GWSS:2050, HIST:2150, RELS:2250.
SJUS:2135 Rhetorics of Diversity and Inclusion 3 s.h.
How language is at the root of oppression while also being a powerful tool to enact social justice; students explore the roles of rhetoric in constructing diversity and examine how different bodies and minds are ascribed value based on their alignment with cultural attitudes toward normalcy, ability, race, gender, sexuality, and more; students use written, spoken, and/or signed language and digital forms of expression to create a more inclusive environment in and beyond the classroom. GE: Diversity and Inclusion. Same as RHET:2135.
SJUS:2250 The History of Social Justice Movements $\mathbf{3}$ s.h. History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as GWSS:2250, HIST:2250.
SJUS:2294 Indigenous Art Activism and Social Justice $\mathbf{3}$ s.h. Examination of the Native and political aspects of Native arts in the 19th and 20th centuries, from drawings and material culture produced for tourists and collectors to works that explicitly address Native oppression through federal policies, popular cultural appropriations, and colonial representations of Indigenous peoples; emphasis on Indigenous interpretations of colonial and settler history and culture through various media and representations of Indigenous identity and politics. Same as HIST:2294, NAIS:2294.

## SJUS:2300 Race, Class, Gender, and Labor: Worker Struggles for Legal Rights in the United States <br> 3 s.h.

Students familiar with the gig economy and the "Fight for \$15" examine historical tensions between working class, middle class, poor, and the $1 \%$-at the intersections of race and gender-and how these diverse groups wielded their influence on the legal system in order to gain power; students examine how workers in the United States joined together, put their bodies on the line for social justice, and created radical, legal change. Same as GWSS:2300.

## SJUS:2500 Love, War, Activism: Stories About Women from

 Across the World 3 s.h.Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2570, GWSS:2500.

## SJUS:2571 Visualizing Human Rights

3 s.h.
Cinematic representations of human rights issues in films by directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of race relations in colonial and postcolonial societies; public health issues, specifically women's and children's rights in context of the HIV/AIDS pandemic. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2571, GWSS:2571.

SJUS:3005 Practicum
3-4 s.h.
Experience in volunteer work for organizations that provide services for women. Prerequisites: GWSS:1001. Same as GWSS:3005.

SJUS:3133 Anthropology of Race 3 s.h. Anthropological perspectives on race: history of race in anthropology; social, cultural, and political dimensions of race; intersections with gender; biology of human diversity. Recommendations: introductory course in social sciences. Same as ANTH:3133, GWSS:3133.

## SJUS:3138 Writing to Change the World

3 s.h.
Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as GWSS:3138.
SJUS:3171 Higher Education and Social Justice 3 s.h. Reflection of students' place within educational systems; development of rhetorical tools for successful advocacy; advocation through writing for change within higher education and the UI; student loans, racial segregation, social and economic immobility, free speech, data insecurity, sexual assault. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3171, GWSS:3171.
SJUS:3190 Global Debt
3 s.h.
Economies as cultural systems that emphasize the role of worldviews and "meaning-making" in organizing economies; debt as a key mechanism in creation and maintenance of relationships; focus on how exchange, distribution, and obligation serve to shore up or sever various social institutions and links between debt, inequality, and power; debt in various forms, from a round of drinks to student loans, and from the U.S. mortgage crisis to development aid; diverse array of economies-from gift exchange to ceremonial destruction of wealth, and from Melanesia to Wall Street-to evaluate assumptions that undergird different systems of debt and credit. Requirements: introductory course in anthropology or international studies or gender, women's, and sexuality studies. Same as ANTH:3190, IS:3190.
SJUS:3250 Literature and Social Justice
3 s.h.
How literature from various time periods-American and globalhas enacted, represented, depicted, or encouraged forms and acts of social justice; students study various genres (e.g., essay, poem, autobiography, short story, fiction) and learn how literature has been used to conceptualize social justice, address national and global inequities, and take up complex and intersecting issues of power and privilege. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as ENGL:3170.

## SJUS:3257 Civil Rights and Racial Justice: A Tour Through the South <br> 1-3 s.h.

Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or AFAM:2268 or HIST:2268 or AFAM:3053 or AMST:3053 or HIST:3253 or HIST:3232 or HIST:4260 or AFAM:3100 or HIST:3160 or HIST:3260 or AFAM:3260 or HIST:3282 or GWSS:3282 or HIST:4130 or HIST:4260. Same as AFAM:3257, GWSS:3257, HIST:3257.

SJUS:3400 Advocacy and Engagement Colloquium 1-3 s.h.
How to capitalize on volunteer experience; how experience can lead to careers in health care, law, advocacy, social work, social justice, education; issues related to domestic violence, community education, sexual assault; health care for women, youth, and LGBTQ populations; health care inequities, social justice; field journal. Recommendations: active volunteer work at feminist-centered organizations in Iowa, completion of 40 -hour training, plan to serve organization for up to ten or more hours each month, and attendance at regularly scheduled volunteer meetings. Same as GWSS:3400.
SJUS:3415 Latina/o/x Protest, Movement, Resistance 3 s.h.
Examination of history, form, and function of protest, social movement, and resistance by Latina/o/x peoples in the United States. Same as AMST:3415, LATS:3415.
SJUS:3420 Latinas/os/x and the Law
3 s.h.
Introduction and survey of Latina/o/x legal history; topics include segregation, educational rights, immigration, voting rights, citizenship, and the criminal justice system. Same as AMST:3420, LATS:3420, POLI:3427.

## SJUS:3430 Queer Latina/o/x Studies

3 s.h.
Relationship of Latina/o/x culture with gender, sexuality, and queerness. Same as AMST:3450, LATS:3430.

## SJUS:3459 Making Change, Making History: Iowa's Black Activists and Digital History

From the 1830s through the end of the 19th century, African
Americans formed local, state, and national meetings called "Colored Conventions," where they strategized about how to achieve social justice; students explore Iowa's connections to this history of political activism. Same as GWSS:3459, HIST:3259.

## SJUS:3475 Working for Social Justice <br> 3 s.h.

Identification and pursuit of careers in a wide range of fields where people advocate for and engage issues of social justice; writing self-assessments, résumés, sample employment application letters, statements of purpose; development of e-portfolios that highlight areas of student research and expertise; mock interview practice; Pomerantz Career Center resources; interviewing professionals in careers focused on social justice and feminist issues; local internship and volunteer possibilities; national and international educational and career opportunities for making a difference in the world. Same as GWSS:3475.

## SJUS:3510 Topics in Social Justice

Students deep dive into a specific topic that invites research and debate about the ways cultures understand social justice-human rights in relation to gender and sexuality, race and ethnicity, generations, class religion, species, and environment.

## SJUS:3550 Social Justice, Religion, and Spirituality: Faith and <br> \section*{Belief Ignited}

3 s.h.
Examination of some distinctively American traditions of religion, spirituality, and social justice, including women and men who have channeled their religio-spiritual beliefs into social justice in their communities; historical and anthropological focus; examination of U.S. movements (e.g., the Catholic Worker movement, the United Farm Workers movement, the civil rights movement, iterations of the feminist movement); direct involvement with the communities. Same as GWSS:3550, RELS:3550.

SJUS:3560 Public Policy and Persuasion
3 s.h.
Students build their skill set in policy analysis, formation, and communication through a social justice lens; engagement in service learning projects in one Iowa community, where work done directly impacts that community's ability to make changes; development of effective writing and oral presentation styles that can be adapted to different audiences; focus on homelessness policy using social policy and social justice concepts to explore work of policy makers who have "right-sized" existing systems to serve communities in crisis and propose solutions to systemic problems that disadvantage marginalized populations. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as PBAF:3560, POLI:3560, RHET:3560.

## SJUS:3620 Narrative Medicine, Social Justice, and the End of Life

Role of narrative in health care practice, decisions, and ethics; narrative production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Prerequisites: RHET:1030. Same as GWSS:3620.
SJUS:3950 Academic Internship 1-3 s.h. Work under supervision of a faculty member on a scholarly or creative project related to the department or campus, or work with the director of undergraduate studies as a media, digital publishing, or teaching intern; students receive credit for the internship depending on the number of hours they work, learning objectives they develop, and meetings, written reports, and other research-related or self-evaluative writing they contract to do with the supervising faculty member. Prerequisites: GWSS:1001 or SJUS:1001. Requirements: gender, women's, and sexuality studies or social justice major or minor. Same as GWSS:3950.
SJUS:3990 Independent Study in Social Justice
arr.
Topics not covered in regular social justice curriculum.
SJUS:4080 Advocacy and Engagement Capstone 3 s.h. Design and development of individual creative or scholarly projects in the field of social justice; emphasis on strengthening student's research and writing skills; synthesizing and extending work already completed in the social justice major. Prerequisites: SJUS:1001 and SJUS:2250 and GWSS:3138.

## SJUS:4085 Social Justice Bachelor of Arts Honors Senior

 Thesis3 s.h.
Work on honors thesis in social justice. Requirements: honors standing, and completion (or in progress) of coursework for BA in social justice.

## Gender, Women's, and Sexuality Studies, BA

Students who major in gender, women's, and sexuality studies (GWSS) explore the ways that gender and sexuality intersect with class, race, ethnicity, nationality, and transnational processes. Students develop interdisciplinary research and writing skills, the ability to address structural inequalities from the local to the global level, and the critical tools necessary to work toward social transformation and social justice. GWSS majors participate in two high-impact experiences that prepare them for careers in a wide range of fields. They participate in a practicum at a community-based site where they learn to integrate feminist theory and practice; then, during their senior year, they do rigorous, original research for critical or creative projects on topics of their own choosing.

## Learning Outcomes

Students graduating with a major in gender, women's, and sexuality studies will demonstrate how to:

- apply feminist intersectional theory in scholarly and creative practice;
- evaluate issues, research problems, and construct arguments using GWSS tools and concepts;
- communicate effectively with diverse audiences through speech, writing, and other forms of creative and scholarly expression; and
- work collaboratively with others in diverse communities using core GWSS strengths and skills.

## Requirements

The Bachelor of Arts with a major in gender, women's, and sexuality studies (GWSS) requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
Students may declare the major at any time. They are advised by the Academic Advising Center until they have earned 30 s.h. of credit. Transfer credit is evaluated case by case; a maximum of $12 \mathrm{~s} . \mathrm{h}$. of transfer credit may be counted toward the degree. Students may count a maximum of 9 s.h. completed for another major, minor, or certificate toward the gender, women's, and sexuality studies major.

Work for the major consists of the undergraduate core, distribution requirements, and electives. The undergraduate core includes a practicum and culminates in a research seminar.
The BA with a major in gender, women's, and sexuality studies requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Undergraduate Core | $9-10$ |
| Distribution Requirements | $12-14$ |
| Electives | 12 |
| Capstone Courses | 6 |

## Undergraduate Core

The undergraduate core consists of three courses. GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies examines cultural and social beliefs about sex, gender, race, class, and sexuality; GWSS:1002 Diversity and Power in the U.S. explores the intersections of race, class, and gender in the United States. GWSS:3005/SJUS:3005 Practicum teaches students how to apply
feminist intersectional concepts in a practicum experience organized in collaboration with community partners.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| GWSS:1001 | Introduction to Gender, | 3 |
| Gomen's, and Sexuality Studies |  |  |
| GWSS:1002 Wiversity and Power in the U.S. | 3 |  |
| SJUS:3005 | Practicum | $3-4$ |

## Distribution Requirements

The distribution requirements (total of at least 12 s.h.) are chosen from the following lists. They include one GWSS theory course, one transnational theory course, one GWSS course with a global/ comparative focus, and one GWSS or other course with a race/ ethnicity focus. Students may request permission from the director of undergraduate studies to use courses not on these lists; ideally, these courses should be offered by the Department of Gender, Women's, and Sexuality Studies (prefix GWSS). At least half of the material in global/comparative topics courses must have a non-U.S. context.

## Theory

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| GWSS:3100 | LGBTQ/Queer Studies | 3 |
| GWSS:3200 | Theories for Gender, Women's, <br> and Sexuality Studies | 3 |

## Transnational Theory

| Course \# | Title | Hours |
| :--- | :--- | :---: |

| HIST:3275/ History of Slavery in the U.S.A. | $3-4$ |  |
| AFAM:3275 | Discrimination, Oppression, and <br> Diversity | 3 |

A Native American and Indigenous studies course (prefix NAIS) numbered 2000 or above that does not fulfill a GE CLAS Core requirement
A Latina/o/x studies course (prefix LATS) numbered 2000 or above that does not fulfill a GE CLAS Core requirement

## Electives

Students must complete 12 s.h. of GWSS/SJUS courses numbered 1000-4999; at least 6 s.h. of the 12 s.h. must be completed from the upper-level GWSS/SJUS courses numbered 3000-4999. Students can count GWSS distribution area requirement courses as electives if they were not used to fulfill their area requirements. With the instructor's permission, honors students may count a graduate-level course numbered 5000 or above toward the electives requirement.

In choosing electives, students are encouraged to pursue a course of study that emphasizes breadth and depth in a specific discipline (anthropology, English, and history, among others) or a focus area (art, writing, literature, sexuality, media, global and transnational studies, race and ethnicity, health, and so on).

## Capstone Courses

These courses help students develop and create their capstone projects.
Students first take GWSS:3900 Research for Public Engagement in the fall semester of their final year, which focuses on developing advanced research, reading, and writing skills and choosing capstone topics. In the spring of their senior year, students take GWSS:4090 Senior Research Seminar, a research and writing workshop in which students work collaboratively with their classmates to complete their creative or scholarship capstone work, including creating a poster for the end of the semester Senior Research Poster Show.
Students who write an honors thesis enroll in GWSS:4095 Honors Senior Thesis in the spring semester of their senior year.

| Course \# <br> This course: | Title | Hours |
| :--- | :--- | ---: |
| GWSS:3900 | Research for Public <br> Engagement | 3 |
| One of these: | Senior Research Seminar | 3 |
| GWSS:4090 | Honors Senior Thesis | 3 |
| GWSS:4095 |  |  |

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in the major. Students must write an honors thesis that requires two semesters of work during the senior year: fall (thesis research by
enrolling in GWSS:3900 Research for Public Engagement) and spring (thesis writing by enrolling in GWSS:4095 Honors Senior Thesis).
Students who intend to graduate with honors in the major should meet with the gender, women's, and sexuality studies (GWSS) director of undergraduate study before the end of their junior year. They also must select a faculty member to serve as their honors thesis mentor before they begin their thesis work. They should meet with their mentor at least twice in the fall semester of their senior year to discuss their project. The department recommends that students consider faculty members from whom they have taken GWSS courses.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the gender, women's, and sexuality studies major.

## Career Advancement

Gender, women's, and sexuality studies (GWSS) majors develop the critical skills and problem-solving abilities needed for engaging the challenges of contemporary life. Graduates work in diverse settings, such as government and nonprofit agencies, newspaper offices, human resource departments, museums, theaters, international human rights organizations, schools, and hospitals. They do fund raising, political organizing, teaching, writing, research, advocacy work, counseling, diversity training, and marketing. They become social workers, nurses, midwives, doctors, editors, librarians, business managers, grant writers, campaign directors, educational administrators, program coordinators, lawyers, and professors.
A GWSS undergraduate education provides a solid foundation for pursuing graduate degrees from schools of social work, public health, law, education, international relations, public affairs and public policy, and medicine. The major also prepares students for a wide range of graduate programs, including gender and women's studies, history, anthropology, urban education, creative writing, political science, human rights, human sexuality, and counseling.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: GWSS: 1001 Introduction to Gender, Women's, and Sexuality Studies.
Before the fifth semester begins: GWSS:1002 Diversity and Power in the U.S. and two GWSS electives.

Before the seventh semester begins: one GWSS distribution course (theory or comparative/non-U.S. focus) and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: GWSS:3005
Practicum, GWSS:3900 Research for Public Engagement, one more GWSS distribution course (theory or comparative/non-U.S. focus), and at least one more GWSS elective.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
d Students select at least 12 s.h. in major electives with a minimum of 6 s.h. numbered 3000 or above.
e See the General Catalog for list of approved courses.
f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
g Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Social Justice, BA

Students who major in social justice expand their knowledge by integrating theory and engagement with real world field experiences. They approach social justice through the arts, history, literature, comparative religious studies, political science, philosophy, health education, and gender, women's, and sexuality studies.

Social justice students:

- explore how the intersections of geography, race, class, gender, sexuality, health, economics, and history create networks of privilege and oppression across the globe through coursework and reflect on situations they encounter in the field;
- read, write, listen, and act through coursework and fieldwork in order to understand how conditions are created for change on the local, regional, and national level historically, ethically, politically, and personally;
- learn about selected history of social movements, how those movements emerged, and the impacts those movements had on policy, populations, the environment, and culture through engagement in a core course;
- develop a deeper understanding of issues, practice, research, and theory related to social justice in one or more areas of study within the traditional disciplines of the liberal arts through 9 s.h. of coursework in an area of specialization; and
- prepare for employment and/or for graduate study in various fields through high quality internships and educational experiences, including anthropology, political science, law, criminology, health, the cultural sector, social services, business, nonprofit management, or public history projects.

## Learning Outcomes

Students graduating with a degree in social justice will:

- explore how an intersectional lens can magnify the tensions within constructed identities based on race, ethnicity, gender and gender expression, geography, language, citizenship, sexuality, class, age, ability, and religion to practices of oppression and discrimination;
- learn about historical moments when oppression and discrimination have influenced policy, culture, law, and corporeal practices and find recurring patterns in current events, culture, and policy; and
- express ways their personal experiences and scholarly ideas connect to larger political, environmental, social, and geographical contexts, issues, and problems.

## Requirements

The Bachelor of Arts with a major in social justice requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
Students may declare the major at any time. They are advised by the Academic Advising Center until they have earned 30 s.h. of credit.
Transfer credit is evaluated case by case; a maximum of 6 s.h. of transfer credit may be counted toward the degree. Foundation courses must be completed at the University of Iowa. Students may count a maximum of 9 s.h. completed for another major, minor, or certificate toward the social justice major.
Work for the major consists of foundation coursework, core courses, an emphasis area, and a capstone experience. A course may only be applied to one area for credit.

The BA with a major in social justice requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | 12 |
| Core Courses | 12 |
| Social Justice Emphasis Area | 9 |
| Capstone | 6 |

## Foundation Courses

The foundation consists of four courses (minimum of 12 s.h.). Two introductory courses, SJUS:1001 Introduction to Social Justice and SJUS:2000 Theories of Social Justice, orient students to the major conceptual areas that constitute social justice as an interdisciplinary field; SJUS:2250 The History of Social Justice Movements explores past and present social justice movements in the U.S. and their impact on policy and culture; and GWSS:3138 Writing to Change the World provides students with opportunities to enhance their writing skills to effect change.

| A Native American and Indigenous studies course (prefix NAIS) numbered 2000 or above that does not fulfill a GE CLAS Core requirement |  |  |

## Capstone

Students complete a senior project and the following two courses.
In the fall semester of their final year, students complete SJUS:3400 Advocacy and Engagement Colloquium which meets with GWSS:3900 Research for Public Engagement. In the spring, students complete SJUS:4080 Advocacy and Engagement Capstone (which meets with GWSS:4090 Senior Research Seminar) in which they develop an individual creative or scholarly project that pulls together their lived and community experiences, their academic learning, and significant research. The project culminates with a poster shown at the Senior Research Poster Show.

| SJUS:4080 | Advocacy and Engagement <br> Capstone | 3 |
|  | Sape | 3 |

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all work for the major. Honors students must write an honors thesis that requires two semesters of work during the senior year: fall (thesis research by enrolling in GWSS:3900 Research for Public Engagement) and spring (thesis writing by enrolling in SJUS:4085 Social Justice Bachelor of Arts Honors Senior Thesis).
Students who intend to graduate with honors in the major should meet with the social justice advisor before the end of their junior year. They also must select a faculty member to serve as their honors thesis mentor before they begin their thesis work. They should meet with
their mentor at least twice in the fall semester of their senior year to discuss their project. The department recommends that students consider faculty members from whom they have taken SJUS/GWSS courses.

The social justice major prepares students for careers in diverse fields. Graduates may work in nonprofit and governmental agencies, international organizations, think tanks, research and policy institutes, foundations, religious and cultural institutions, schools, universities, businesses, and health care settings. Their positions may relate to the emphasis areas they developed in the major, addressing issues such as human rights, the environment and ecological justice, racial and ethnic diversity, poverty, improving the lives of women and girls, sustainability, education, public health, and the arts and social change.

Students also are well prepared to continue their studies in a wide range of graduate programs and professional schools.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: SJUS:1001 Introduction to Social Justice, SJUS:2000 Theories of Social Justice, SJUS:2250 The History of Social Justice Movements, and GWSS:3138 Writing to Change the World.

Before the seventh semester begins: two social justice movement courses; two courses in human rights, diversity, activism; and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: 9 s.h. in the emphasis area and plan a capstone option with advisor.
During the eighth semester: capstone requirement, all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
f A course used to satisfy the core requirement cannot be taken to satisfy an emphasis area requirement.
g Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Gender, Health, and

 Healthcare Equity, MinorHealth care evolves continually, and capable professionals will be in high demand. In order to meet the national and international challenges posed by a rapidly changing field, people must be knowledgeable, able to innovate, and willing to learn. Upon completion of the minor in gender, health, and healthcare equity, students will possess the knowledge and skills necessary to think critically about the complex intersections of gender, race, sexuality, and class in relation to health, illness, and health care.

## Requirements

The undergraduate minor in gender, health, and healthcare equity requires a minimum of $15 \mathrm{~s} . \mathrm{h}$. of coursework, including at least 12 s.h. completed at the University of Iowa. Students must maintain a gradepoint average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework for the minor may not be taken pass/nonpass.
Students may count a maximum of 3 s.h. from another University of Iowa major, minor, or certificate toward the GHHE minor.
The minor in gender, health, and healthcare equity requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Core Courses | 6 |
| Health Equity Courses | $9-10$ |

## Gender, Women's, and Sexuality Studies, Minor

## Requirements

The undergraduate minor in gender, women's, and sexuality studies (GWSS) requires a minimum of 15 s.h. of coursework, including at least 12 s.h. completed at the University of Iowa. Students must take GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies and 12 s.h. in courses numbered 2000 or above. They may count GWSS: 1002 Diversity and Power in the U.S. toward the 12 s.h. requirement. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework for the minor may not be taken pass/nonpass.

Students may count a maximum of 3 s.h. from another University of Iowa major, minor, or certificate toward the GWSS minor.

## Social Justice, Minor

## Requirements

The undergraduate minor in social justice requires a minimum of 15 s.h. of coursework, including at least 12 s.h. completed at the University of Iowa. Students must take SJUS:1001/GWSS:1003 Introduction to Social Justice and 12 s.h. in courses numbered 2000 or above. They may count GWSS: 1002 Diversity and Power in the U.S. toward the 12 s.h. requirement. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count a maximum of 3 s.h. from another University of Iowa major, minor, or certificate toward the social justice minor.

The minor in social justice requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | 6 |
| Human Rights, Diversity, Activism Course | 3 |
| Social Justice Movements: Politics, History, Culture, Art 3 <br> Course  <br> Elective 3 ll |  |

## Gender, Women's, and Sexuality Studies, Graduate Certificate

The future before us requires a deep understanding of local, national, and global challenges; the full array of diverse voices and views that shape communities; and the capacity to couple research with a rich imagination. In the graduate certificate program in gender, women's, and sexuality studies (GWSS), students learn to meet these challenges.
In GWSS graduate coursework, students investigate a host of these thorny challenges as well as inspiring solutions to them-with a focus on gender and sexuality in their intersections with race and ethnicity, citizenship and borders, ability and disability, religion and spirituality, and more.
GWSS faculty research and teach on gender and social justice through intersectional, interdisciplinary, and transnational frameworks, engaging such areas as the environment, culture and the arts, education, health and medicine, violence and conflict, im/migration, and the economy. With attention to individuals and social groups historically excluded from flourishing, graduates of the certificate program work toward justice, vitality, and the public good in concert with ongoing work in their home programs and departments. Many continue this work after graduation as part of the professoriate and/or in jobs directly engaging advocacy and social justice.

## Requirements

The graduate Certificate in Gender, Women's, and Sexuality Studies (GWSS) requires 16 s.h. of coursework. All students must maintain a grade-point average of at least 3.00 in work for the certificate.
Certificate requirements include a 3 s.h. foundations course GWSS:5000 Foundations for Gender, Women's, and Sexuality Studies and a 1 s.h. capstone course GWSS:7400 Graduate Research Conference Presentation. In the capstone course, students revise an existing research-based project into a dynamic GWSS presentation, which they present at the annual Jakobsen Conference or, in some semesters, at a department-sponsored research celebration event.
Certificate students receive advising and research mentorship from the director of graduate studies, and also peer review as part of the scheduled capstone workshops.

The certificate program is open to University of Iowa graduate students working toward a degree; interested students should meet with the director of graduate studies (DGS) to discuss the program's parameters and how the certificate might best support and enhance their course of study.

Students may not use the same course to satisfy more than one certificate requirement.
The Certificate in Gender, Women's, and Sexuality Studies requires the following coursework.
$\left.\begin{array}{llr}\text { Course \# } & \text { Title } & \text { Hours } \\ \text { GWSS:5000 } & \text { Foundations for Gender, } \\ \text { Women's, and Sexuality Studies }\end{array}\right)$

## Electives

Certificate students complete four elective courses (12 s.h.). Students are strongly encouraged to include at least one course with a transnational focus; one course with a focus on U.S. diversity; and one interdisciplinary course on theories of gender, women, feminism, and/or sexuality (or a course squarely outside of their area of specialization). Where appropriate, up to two GWSS courses offered in a student's home department may count toward the certificate as elective coursework; however, students are encouraged to take at least one GWSS course outside their home department for the purpose of interdisciplinary breadth. The director of graduate studies can advise and discuss coursework options and parameters with students.

# Geographical and Sustainability Sciences 

## Chair

- David A. Bennett

## Director, Undergraduate Studies

- Silvia Secchi

## Director, Graduate Studies

- Heather A. Sander

Undergraduate majors: geography (BA, BS); sustainability science (BS)

Undergraduate minors: geographic information science; geography
Undergraduate certificate: geographic information science
Graduate degrees: MA in geography; PhD in geography
Faculty: https://clas.uiowa.edu/geography/people/faculty
Website: https://clas.uiowa.edu/geography/
The importance of geographical and sustainability sciences is rooted in the complexity of social and environmental problems. We live on a dynamic planet, one that is constantly changing in response to human and natural processes that are highly interconnected. Geographers study the interactions between people and their environment to better understand these intricately related processes. At the University of Iowa, the department teaches and conducts research on human and natural systems and how interactions between these systems shape the world we live in. Cutting-edge technologies, such as geographic information systems (GIS), satellite imagery, and Global Positioning System (GPS), are used to help inform decision making at geographic scales and to analyze and visualize geographic processes.

The Department of Geographical and Sustainability Sciences offers undergraduate programs leading to a Bachelor of Arts or Bachelor of Science degree. Undergraduate students with a major in geography select from three tracks: environmental studies, geographic information science (GISci), and health and society. Each track requires introductory and upper-level geography and sustainability courses, as well as coursework from other departments. The department also offers the BS with a major in sustainability science. In addition, the department offers a minor in geography and a minor and certificate in geographic information science. It administers the interdisciplinary environmental policy and planning major and collaborates with other departments to offer the undergraduate Certificates in Social Science Analytics and Sustainability (see below). The department also participates in the university's internship program for students; see Career Center Programs [p. 2053] (University College) in the catalog.

Geography and sustainability courses provide a background for many related professions including law, health care, planning (urban, regional, environmental, or transportation), conservation, sustainability, environmental or transportation engineering, and international business, and are commonly required for students preparing to teach at elementary and secondary levels.

Geographical and sustainability science students acquire valuable skills in computer-based geographic information systems (GIS) software used to investigate and solve many environmental and social problems. Opportunities for graduates with GIS training are growing rapidly in both private and governmental organizations. To gain related knowledge, get hands-on experience, and conduct independent research, students have access to the department's state-of-the-art Geographical Information Systems Instructional Lab (GISIL). For
more information, see Facilities [p. 519] in this section of the catalog.
The Department of Geographical and Sustainability Sciences offers Master of Arts and Doctor of Philosophy degrees. Graduate programs focus on studies that extend understanding of the environmental consequences of human decisions at local, regional, and global scales; processes that lead to geographic patterns in health and disease; technologies that help capture, represent, visualize, and analyze geographic patterns and processes; and processes that produce ecosystem services and sustainable futures. Within this broad domain, the department has strengths in environmental justice, environmental modeling, urban ecology, GIScience and GIS, land use/land cover change, and health geography. The mission of the graduate program is to empower graduates with the ability to conduct significant research. In addition to offering graduate degree programs, the department administers the geoinformatics subprogram of the graduate informatics certificate; see the Certificate in Informatics [p. 1660] (Graduate College) in the catalog.

## GE CLAS Core Courses

The Department of Geographical and Sustainability Sciences offers a number of courses that students in other majors may use to satisfy the requirements of the College of Liberal Arts and Sciences GE CLAS Core. Look for courses with the prefix GEOG under "Natural Sciences," "Social Sciences," and "International and Global Issues" in the GE CLAS Core [p. 19] section of the catalog. Nonmajors also may choose geographical and sustainability sciences courses as electives.

## Related Certificates

## Social Science Analytics

The Department of Geographical and Sustainability Sciences collaborates with the departments of Political Science, Sociology and Criminology, and Statistics and Actuarial Science to offer the undergraduate program in social science analytics. The Department of Political Science administers the certificate; see the Certificate in Social Science Analytics [p. 972] in the catalog.

## Sustainability

The Department of Geographical and Sustainability Sciences collaborates with the departments of Biology, Earth and Environmental Science (College of Liberal Arts and Sciences), and Civil and Environmental Engineering (College of Engineering), as well as the School of Planning and Public Affairs (Graduate College) and the Tippie College of Business to offer the undergraduate program in sustainability. The certificate is administered by University College; see the Certificate in Sustainability [p. 2102] in the catalog.

## Programs

## Undergraduate Programs of Study

## Majors

- Major in Geography (Bachelor of Arts) [p. 524]
- Major in Geography (Bachelor of Science) [p. 531]
- Major in Sustainability Science (Bachelor of Science) [p. 539]

## Minors

- Minor in Geographic Information Science [p. 543]
- Minor in Geography [p. 544]

## Certificate

- Certificate in Geographic Information Science [p. 545]

## Graduate Programs of Study

## Majors

- Master of Arts in Geography [p. 547]
- Doctor of Philosophy in Geography [p. 549]

## Facilities

The department houses three geographic information computational laboratories. They support a variety of geographic information system (GIS) software packages, including the latest software from Esri (ArcGIS) and Erdas (Imagine) as well as a suite of other commercial and open-source software. All lab computers are regularly updated to ensure that they are capable of running the latest software at peak performance.
The Geographical Information Systems Instructional Lab (GISIL) is the department's center for GIS teaching as well as a place where students conduct geographic and GIS-related projects. It is equipped with 27 networked student workstations, instructional support technology (e.g., CRT projection), and a suite of peripherals, including a LiDAR 3D scanner, high-end global positioning system (GPS) units, and a large-format printer.
The environmental modeling and GIS research laboratories contain state-of-the-art machines (Windows and Linux platforms), geoprocessing and statistical software, and an array of software development tools. Projects requiring massive storage or high performance computing have access to additional resources managed by the university's Information Technology Services research support group. The University of Iowa is a charter member of Internet2, with a high performance network link to the Department of Geographical and Sustainability Sciences. The university also is a member of the University Consortium on Geographic Information Science.

To aid studies of water resources and physical geography, the department has a laboratory for the analysis of vegetation, soil, and water quality. The laboratory has a variety of field equipment, including soil probes, portable meteorological stations, GPS, groundbased 3D LiDAR, anemometers, spectrometers, light sensors, and data loggers.
Faculty and graduate students participate in multidisciplinary working groups through the university's Program in Applied Mathematical and Computational Sciences [p. 1600], the Center for Global and Regional Environmental Research, the Center for Health Effects of Environmental Contamination, International Programs, the Institute for Rural and Environmental Health, the Iowa Quaternary Studies Group, and the Public Policy Center. Participation in multidisciplinary working groups also is available through interdisciplinary research grants with investigators from other University of Iowa academic units, for example, the College of Engineering, the Carver College of Medicine, and the College of Public Health.

Geographic researchers also have access to other University of Iowa resources, such as the university's Main Library, whose collections include more than 115,500 maps; 3,600 atlases and reference works; and around 100,000 aerial photographs, primarily of Iowa.

## Geography Courses

GEOG:1000 First-Year Seminar
1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
GEOG:1020 The Global Environment
3 s.h.
Underlying processes driving human/environment interaction, including climate change, deforestation, and natural disasters; environmental challenges, including declining biological diversity; human response to more frequent severe climate events; production of a more sustainable future. GE: Sustainability. GE: Natural Sciences without Lab.
GEOG:1021 The Global Environment Lab
1 s.h.
Laboratory application of concepts discussed in GEOG:1020; computer-based and traditional approaches to the investigation of earth's processes, including earthquakes, water and energy balances, climate and weather, and soil development. Corequisites: GEOG:1020, if not taken as a prerequisite. GE: Natural Sciences Lab only.
GEOG:1030 Our Digital Earth
3 s.h.
Gain experience working with geospatial technology, such as geographic information systems (GIS) and remote sensing, using geospatial data and analysis to illuminate and improve sustainability issues that face current and future generations. GE: Sustainability. GE: Quantitative or Formal Reasoning.
GEOG:1046 Environmental Politics in India
3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GWSS:1046, SJUS:1046.
GEOG:1060 Geography of Asia: From Japan to Pakistan 3 s.h. Varied cultures and environments of Asia; different geographic regions and processes in Asian development. GE: International and Global Issues.
GEOG:1070 Contemporary Environmental Issues 3 s.h.
Global environmental challenges; ecological, economical, cultural, and geographical causes and effects; underlying science and potential solutions to global issues of sustainability. GE: Sustainability. GE: International and Global Issues.
GEOG:1090 Globalization and Geographic Diversity
3 s.h. World regions including their physical environment, culture, economy, politics, and relationships with other regions; students learn about conflicts within and between regions. GE: International and Global Issues; Social Sciences.

GEOG:1095 The Quest for Location: Historical Developments in Cartographic Science and Technology 3 s.h.
Development of the science and technology of cartography as embedded in particular places and contexts; topics include determination of latitude and longitude, map projections, navigation, military mapping, surveying and taxation, printing technologies, remote sensing, and global positioning.

## GEOG: 1115 The History of Oil

3 s.h.
Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Sustainability. GE: Historical Perspectives. Same as EES:1115, ENVS:1115, HIST:1115.

GEOG:2010 Interdisciplinary Environmental Seminar
Discover research, explore careers, and build connections.
Requirements: first- or second-year standing. Same as EES:2010, ENVS:2010.
GEOG:2013 Introduction to Sustainability
3 s.h.
Introduction to sustainability knowledge, skills, and habits as a means to shape one's vision of a sustainable citizen; emphasis on basic skills of literacy, applied math, and finding information; traditional sustainability knowledge areas related to society, economy, and environment; intersecting themes (e.g., informed consumerism, ecoeconomics, and livable environments). GE: Sustainability. GE: Social Sciences. Same as BUS:2013, SUST:2013, URP:2013.

## GEOG:2050 Foundations of GIS 4 s.h.

Introduction to concepts and methods of geographical information systems (GIS) technology through hands-on lab activities and projects; introduction to map design and spatial analysis.
GEOG:2110 Eight Billion and Counting: Introduction to Population Dynamics
How dramatic changes to the size of population has changed fundamental characteristics of populations and processes, such as food and water scarcity, climate change and biodiversity, rise of megacities, health and disease, migration, social networks, economics, environment, and household structure. GE: Social Sciences. Same as GHS:2110.

## GEOG:2310 Introduction to Climatology

Introduction to atmospheric processes that determine weather and climate; flow of energy through the atmosphere, distribution and movement of moisture and air, and atmospheric disturbances such as cyclones, hurricanes and tornadoes, and climate change. Recommendations: GEOG:1020 or similar earth systems science course. Same as EES:2310.
GEOG:2374 Biogeography 3 s.h.
Introduction to processes that lead to the patterns of plant and animal distributions we see across the globe; processes of focus include plate tectonics, climate, and human-ecological interactions; species management and conservation in relationship to climate and change in human patterns of environment. Prerequisites: BIOL:1141 or BIOL:1370 or BIOL:1261 or GEOG:1020 or BIOL:1412. Same as BIOL:2374.

## GEOG:2410 Environment and Development

Investigation of questions that surround human-environment interactions; case studies highlight approaches (e.g., political economy, gender, sustainability) to addressing and understanding human relationship to environmental change.

## GEOG:2910 The Global Economy

 3 s.h.Examination of contemporary economic geography; types of national economies, uneven development, role of government in shaping economy, multinational corporations; foundation for understanding national economies and economic statistics; contemporary issues including economic globalization, commodification of nature, deindustrialization. GE: International and Global Issues; Social Sciences.

## GEOG:2930 Water Resources 3 s.h.

Introduction to science and policy issues affecting water resources management in the U.S.; how the intersection of people, climate, technology, and geography affects the quality, availability, and demand for freshwater resources.

## GEOG:2950 Environmental Conservation <br> 4 s.h.

Scientific foundations of biological conservation; strategies used to better connect conservation practice with needs of a growing human population. Prerequisites: EES:1080 or GEOG:1020 or GEOG:1070.

GEOG:3001 Special Topics arr.
Contemporary fields of inquiry, such as biophysical systems, GIS, locational analysis, water resources, economic geography, demographic analysis, environment, urbanization, transportation, and regional development.
GEOG:3003 Interdisciplinary Environmental Seminar 1 s.h.
Role of sciences in environmental issues and problems; progression from observation to evaluation to design of better questions and experiments. Requirements: third- or fourth-year standing. Same as EES:3010, ENVS:3010.

GEOG:3020 Earth Surface Processes
Basic geomorphic and environmental processes that shape the earth's surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Recommendations: EES:1050 or EES:1080 or ENVS:1080 or GEOG:1020 or EES:1085 or ENVS:1085. Same as EES:3020, ENVS:3020.
3 s.h. GEOG:3050 Geospatial Programming 3 s.h.
Introduction to geospatial programming with Python; programming basics, data structures, and algorithms; spatial data models and structures; vector-based and raster-based geoprocessing; automating GIS tasks and models; spatial libraries (e.g., ArcPy, GeoPandas, GDAL, PySAL). Prerequisites: GEOG:2050. Same as IGPI:3050.

GEOG:3070 Hungry Planet: Global Geographies of Food 3 s.h.
Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as GHS:3070.

GEOG:3110 Geography of Health 3 s.h.
Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as GHS:3111.
GEOG:3131 Unnatural Disasters: A Global History 3 s.h.
What is a natural disaster? How do we assess "naturalness" of these events within political, social, and historical contexts in which they occur? Are disasters specific moments of crisis, or rather, are they slow-unraveling across time and space years before and after the moment their pain is most acutely felt? Examination of these questions at a global scale. Same as HIST:3131.
GEOG:3210 Health, Work, and the Environment 3 s.h. Survey of environmental and occupational health hazards and the associated health risks of exposure; how public health protects society from these hazards; how public health policy can be influenced by science. Same as CPH:3400.
GEOG:3300 Envisioning Future Worlds: Sustainable Development and Its Alternatives
Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as GHS:3300.

## GEOG:3315 Ecosystem Ecology

Terrestrial ecosystems as integrators of biological, physical, and ecological processes; flows of energy, carbon, water, and nutrients within ecosystems; spatial and temporal patterns and processes of Earth's ecosystems; sustaining ecosystems in the face of global change. Prerequisites: GEOG:2374 or BIOL:2374 or BIOL:2673 or GEOG: 1020 or EES:1080.

GEOG:3331 Human Dimensions of Climate
How climate shapes human societies; focus on how climate and climate variability affects food production, water use, energy use, and human disease systems (e.g., influenza, malaria, air pollution, diarrheal disease); climate change impacts (e.g., sea level rise, droughts, wildfires, famine); societal impact, adaptation and vulnerability, mitigation strategies; policy.

## GEOG:3340 Ecosystem Services

3 s.h.
Ecosystem services-valuable goods and services produced by ecosystems (e.g., flood control, food production, water purification) -from an interdisciplinary perspective centering on geographic techniques used to measure, map, and model ecosystem services; methods used to incorporate ecosystem services into decision and policy making; how human activities alter these services. Prerequisites: GEOG:2050 and (GEOG:2374 or EES:1080 or BIOL:2673 or BIOL:1370 or GEOG:1070 or GEOG:1020).

## GEOG:3350 Urban Ecology

Urban ecology as an interdisciplinary field that investigates relationships between natural and the systems in urban environments; students explore urban ecosystems through lecture, discussion of current research, and field-based research projects; and identify how cities can become more sustainable systems. Prerequisites: BIOL:2673 or GEOG:2374. Requirements: GEOG:2374 or ENVS:2673 or introductory course in ecology, and junior standing.

GEOG:3360 Soil Genesis and Geomorphology 3 s.h. Introduction to soil genesis, soil geomorphology, and classification including the basics of soil profile description and soil-landscape, soil-vegetation, and soil-climate relationships; emphasis on study of soils as the interface between living and non-living Earth systems and the role of soils in sustaining ecosystems and human societies; short field excursions and a weekend field trip. Requirements: college earth science and chemistry. Same as EES:3360.
GEOG:3400 Iowa Environmental Policy in Practice 3 s.h.
How Iowa government addresses environmental policy development and implementation; policy process and current environmental issues; students attend meetings with Iowa State legislators and relevant agency personnel in Des Moines, Iowa, to observe how policies move into practice in agency offices. Prerequisites: GEOG:1070 or POLI:3111 or GEOG:3780. Requirements: junior or higher standing.

GEOG:3420 Sustainable and Green Building Concepts 3 s.h. Green building and sustainable development trends and theories: water policy, ecosystem services, climate change, and public health; LEED certified building process and each of the associated credit categories (i.e., sustainable sites, energy and atmosphere, water efficiency); how knowledge of green building and sustainable development can help lessen the environmental impact of built environments, improve the bottom line, and better plan for great communities.

GEOG:3500 Introduction to Environmental Remote Sensing 3 s.h. Basic concepts and principles of remote sensing; sources of data; georegistration; digital processing and classification of remotely sensed images for extraction of environmental information; linkage of remote sensing techniques with GIS analysis. Same as IGPI:3500.

3 s.h. GEOG:3520 GIS for Environmental Studies 3 s.h.
Students learn new, more advanced techniques for the representation and study of human and natural systems using geographic information systems (GIS); application of this new knowledge to environmental management and problem solving. Prerequisites: GEOG:2050. Same as IGPI:3520.

## GEOG:3539 History of Environmental (In)Justice in Latin

America
Introduction to history of environmental change in Latin America; examination of pre-Hispanic cultures and spaces; reshaping of landscapes due to colonialism; commodification of nature in early republics; consolidation of 19th-century agro-economies; land-tenure changes and integration of regional markets due to neoliberalism in 20th century; relationship between environmental problems (e.g., biotic invasions, soil exhaustion, biodiversity loss, pesticide contamination) and imperial domination; scientific racism, state formation, and income inequality. Same as HIST:3539.

## GEOG:3540 Geographic Visualization 3 s.h

Concepts and techniques that underlie cartographic representation, interaction, and geovisualization; map symbolization and visual variables; spatiotemporal visualization, multivariate mapping, interactive cartography, animation, geovisual analytics, 3D visualization, virtual and augmented reality. Prerequisites: GEOG:1050. Same as IGPI:3540.

GEOG:3570 Light Detection and Ranging (LiDAR): Principles and Applications
Basic principles and applications of Light Detection and Ranging (LiDAR); LiDAR as an essential technology for mapping and analyzing a vast range of topics, including hydrology flooding, transportation planning, and 3D modeling. Recommendations: GEOG:3500 or EES:3100.

## GEOG:3610 Ethical Collection and Use of Geospatial Information

Ethical issues that arise during the collection and use of digital geospatial information; particular emphasis on privacy as well as willful and unintentional introduction of different types of errors of omission (e.g., sampling related errors) and commission (e.g., inappropriate map projections); readings provide theoretical background and illustrative practical examples.
GEOG:3760 Hazards and Society 3 s.h.
Examination of the impact and societal responses to natural and technological hazards; using case studies from around the world, students explore relationships between extreme events, human behavior, disaster management, public policy, and technology to understand what makes people and places vulnerable to hazards. Same as GHS:3760.

GEOG:3780 U.S. Energy Policy in Global Context 3 s.h. Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GHS:3780, HIST:3240, POLI:3431.

GEOG:3800 Environmental Economics and Policy 3 s.h. Reasons why markets fail in environmental realm (e.g., externalities, common pool resources, club goods, public goods); ecosystem services and techniques used for their valuation; revealed and stated preferences; cost-benefit analysis and role in policy-making process; tools to address environmental market failures, particularly command and control, taxes and subsidies, and mitigation markets; focus on air pollution, climate change, and water-related policies.

## GEOG:3920 Planning Livable Cities

3 s.h.
Development of livable cities in the United States; economic, physical, environmental, and political forces that shape their growth; impact of planning, how it shapes the future of cities. Same as URP:3001.

GEOG:3940 Transportation Economics
Overview of transportation markets-intercity, rural, urban; transportation modes-rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: ECON: 1100 and ECON:1200. Same as ECON:3750, URP:3350.

## GEOG:3992 Undergraduate Research

arr.
Opportunity for undergraduate students to participate in faculty-led research projects.

GEOG:4000 The United Nations Sustainable Development Goals: A Blueprint for a Sustainable Future
Establishment of baseline competencies among students from diverse backgrounds; introduction to the United Nations sustainable development goals framework; foundational concepts for sustainable development (e.g., life-cycle analysis, systems thinking, data processing, visualization). Same as SDG:4000.
GEOG:4010 Field Methods in Physical Geography 3 s.h. Introduction to basic approaches to research design and of sampling environmental variables commonly used in environmental sciences; basic methods of sampling and lab analyses of vegetation, land cover, soils, and more.

## GEOG:4030 Senior Project Seminar

3 s.h.
Development of an independent research project, preparation of a research report, and presentation of the associated outcomes. Offered spring semesters.
GEOG:4150 Health and Environment: GIS Applications 3 s.h. Introduction to how geographic information systems (GIS) and spatial statistics are used in the study of patterns of health and disease in space and time. Same as GHS:4150, IGPI:4150.
GEOG:4200 Sustainability as a System Science 3 s.h.
Investigation of social, environmental, and economic sustainability in systems across the planet with a focus on food, energy, and water nexus; geographical and temporal trade-offs, unintended consequences, impacts quantification, role of public and private sectors, conceptual modeling of key system drivers and their interactions, nested systems, and system relations. Same as SUST:4200.

GEOG:4310 Climate Change 3 s.h.
Physical science of climate change; impacts on human and natural systems; mitigation of and adaptation to climate change. Prerequisites: GEOG:1020 or GEOG:2013 or EES:1080.

GEOG:4470 Ecological Climatology 3 s.h.
Introduction to global energy, water, and carbon cycles; biosphereatmosphere interactions across scales ranging from leaf to globe. Prerequisites: GEOG:2310 or GEOG:2374.

## GEOG:4500 Advanced Remote Sensing

Theory and practice of remote sensing and digital image processing; practical applications to human-environment interactions.
Requirements: GEOG:3500 or EES:3100 or CEE:3783. Same as IGPI:4500.
GEOG:4520 GIS for Environmental Studies: Applications 3 s.h. Project-driven course to advance student knowledge of geographic information systems (GIS); application of GIS to environmental change analysis, environmental assessment, hazard/risk analysis, and environmental decision-making. Prerequisites: GEOG:3520. Same as IGPI:4520.

3 s.h. GEOG:4580 Introduction to Geographic Databases
3 s.h.
Introduction to basic building blocks of spatial database design, spatial data models, structures, relationships, queries (SQL), indexing, and geoprocessing; design and construction of various types of spatial databases, including relational and big data approaches such as ArcGIS geodatabase, PostGIS/PostgreSQL, and MongoDB. Prerequisites: GEOG:2050. Same as IGPI:4581.
GEOG:4600 Biogeography, Ecology, and Conservation of Mammals

4 s.h.
An overview of the class Mammalia. Topics include the evolution, diversity, functional morphology, behavior, ecology, biogeography, and conservation of mammals. Course follows a lecture/lab format and includes both field and classroom labs. Prerequisites: BIOL:1412 or GEOG:2374 or BIOL:2374.
GEOG:4750 Environmental Impact Analysis
3 s.h.
In-depth exposure to the history and evolution of the U.S. Environmental Impact Assessment (EIA) process; discussion of major court cases; ecological, economic, and political aspects of current environmental controversies; exposure to real-world scenarios that are crucial to understanding the EIA process in action; field trips to six or seven environmental control facilities in Iowa City and neighboring areas. Prerequisites: GEOG:1070. Same as URP:4750.
GEOG:4770 Environmental Justice
3 s.h.
Introduction to the field of environmental justice; understanding and addressing the processes that lead poor and marginalized communities to face a disproportionate degree of environmental risks and hazards. Same as AFAM:4770, GHS:4770.
GEOG:4990 Senior Thesis 3 s.h.
Original research. Requirements: senior standing.
GEOG:4995 Honors Thesis
arr.
Original research. Requirements: honors standing.
GEOG:5001 Readings
arr.
Supervised readings by graduate students in topics of their choice.
GEOG:5010 Fundamentals of Geography
3 s.h.
Geography as an academic discipline; history, advances,
epistemology, common themes.
GEOG:5050 Research and Writing in Geography 3 s.h.
Identification of research areas; research questions and hypotheses; responsible conduct of research; methodological decisions; research proposal and paper writing.
GEOG:5055 Geospatial Programming 3 s.h.
Introduction to geospatial programming with Python; programming basics, data structures, and algorithms; spatial data models and structures; vector- and raster-based geoprocessing; automating GIS tasks and models; spatial libraries (e.g., ArcPy, GeoPandas, GDAL, PySAL). Same as IGPI:5055.
GEOG:5070 Special Topics
arr.
Contemporary fields of inquiry, such as biophysical systems, GIS, locational analysis, water resources, economic geography, demographic analysis, environment, urbanization, transportation, and regional development.
GEOG:5300 Envisioning Future Worlds: Sustainable Development and Its Alternatives
Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as GHS:5300.

## GEOG:5315 Ecosystem Ecology

Terrestrial ecosystems as integrators of biological, physical, and ecological processes; flows of energy, carbon, water, and nutrients within ecosystems; spatial and temporal patterns and processes of Earth's ecosystems; sustaining ecosystems in the face of global change.

## GEOG:5540 Geographic Visualization

3 s.h.
Concepts and techniques that underlie cartographic representation, interaction, and geovisualization; map symbolization and visual variables; user-centered design, map use and usability engineering; web mapping, spatiotemporal visualization, multivariate mapping, interactive cartography, animation, geovisual analytics, 3D visualization, virtual and augmented reality. Same as IGPI:5540.

## GEOG:5800 Environmental Economics and Policy

3 s.h.
Reasons why markets fail in environmental realm (e.g., externalities, common pool resources, club goods, public goods); ecosystem services and techniques used for their valuation; revealed and stated preferences; cost-benefit analysis and role in policy-making process; tools to address environmental market failures, particularly command and control, taxes and subsidies, and mitigation markets; focus on air pollution, climate change, and water-related policies. Same as PBAF:5800, URP:5800.

GEOG:6100 Seminar in Health and Environment 3 s.h. Research on health and environment.
GEOG:6264 Planning Sustainable Transportation 3 s.h.
Theories and methods of exerting public control over passenger and freight transportation; social and environmental regulation; effects of changing finance, regulation, and pricing policies, including privatization, tolls, impact fees. Same as PBAF:6265, URP:6265.
GEOG:6300 Seminar in Environment, Conservation, and Land Use 1-3 s.h.
Research on land use, water resources, conservation.
GEOG:6500 Seminar in Spatial Analysis and Modeling 1-3 s.h. Research themes in spatial analysis, GIScience, simulation, remote sensing. Same as IGPI:6501.
GEOG:6635 Crossing Borders Seminar 2-3 s.h. Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, FREN:6142, GRMN:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.
GEOG:7000 Geography Colloquium 1 s.h.
GEOG:7150 Research in Health and Environment 1-3 s.h. Directed research in health and environment.
GEOG:7350 Research in Environment, Conservation, and Land Use

1-3 s.h.
Directed research in land use, water resources, conservation.
GEOG:7550 Research in Spatial Analysis and Modeling 1-3 s.h.
Directed research in spatial analysis, GIScience, simulation.
GEOG:7559 Race, Science, and Nature in Latin America arr.
Analysis of the history of United States and Latin America relations in the 20th century through the lens of scientific and agricultural change; how plant breeding, agrochemicals, heavy machinery, and irrigation systems set in motion trends that made the 20th century exceptional; possibility of feeding an unprecedented growing global population and transition of human species from being primarily rural to primarily urban in less than a hundred years; analysis of how a network of scientists, businesses, and governments made proliferation of agribusinesses possible to emphasize Indigenous and Mestizo peasants' role in that process. Same as AMST:7559, HIST:7559.
GEOG:7750 Research in Environmental Policy
1-3 s.h. Directed research in environmental justice and policy.
GEOG:7999 Thesis
arr.

## Sustainability Science Courses

SUST:2013 Introduction to Sustainability 3 s.h.
Introduction to sustainability knowledge, skills, and habits as a means to shape one's vision of a sustainable citizen; emphasis on basic skills of literacy, applied math, and finding information; traditional sustainability knowledge areas related to society, economy, and environment; intersecting themes (e.g., informed consumerism, ecoeconomics, and livable environments). GE: Sustainability. GE: Social Sciences. Same as BUS:2013, GEOG:2013, URP:2013.
SUST:4200 Sustainability as a System Science 3 s.h.
Investigation of social, environmental, and economic sustainability in systems across the planet with a focus on food, energy, and water nexus; geographical and temporal trade-offs, unintended consequences, impacts quantification, role of public and private sectors, conceptual modeling of key system drivers and their interactions, nested systems, and system relations. Same as GEOG:4200.

## Geography, BA

## Learning Outcomes

The goal is for geography graduates to demonstrate spatial literacy, systems thinking, critical thinking, research proficiency, and communications skills.

## Spatial Literacy

Students will understand the role of spatial information and data in addressing social and environmental questions. They will be aware of the role of geography as a linchpin discipline that bridges social and biophysical sciences.

## Systems Thinking

Students will acquire an understanding of the connections and relationships between human and environmental activities and outcomes across space and time, be able to apply spatial analytical techniques to investigate human/environment interaction, and identify the ethical implications associated with outcomes produced by such analyses. This understanding and ability will provide students with the necessary tools to assess the sustainability of current and proposed solutions in a variety of settings across a broad spectrum of social and environmental issues.

## Critical Thinking

Students will have the capability to assess various points of view and perspectives while assessing complex social and environmental problems, to evaluate the factual basis of assertions, and to understand trade-offs.

## Research Proficiency

Students will be able to formulate testable hypotheses, apply quantitative or qualitative approaches and methodological tools to pertinent questions, and acquire secondary data or construct primary data sets when applicable.

## Communication Skills

Students will be able to communicate complex geographical and technical concepts using an appropriate vocabulary to a broad spectrum of audiences. Communication skills include verbal, written, graphic, and cartographic forms of communication.

## Requirements

The Bachelor of Arts with a major in geography requires a minimum of 120 s.h., including at least $39-43$ s.h. of work for the major. Credit required for the major depends on a student's choice of track. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19]. Transfer students must earn a minimum of $15 \mathrm{~s} . \mathrm{h}$. for the major in residence at the University of Iowa.
Geography majors may not earn the minor in geographic information science.

The major in geography is appropriate preparation for advanced training or careers in geographical and sustainability sciences.

Students choose one of three tracks in the major: environmental studies, geographic information science (GISci), or health and society. All students majoring in geography complete a common set of foundation courses in addition to the requirements for their choice of track.

Consistent with the College of Liberal Arts and Sciences maximum semester hours rule, students may count a maximum of 56 s.h. earned in their major department toward graduation.

The BA with a major in geography requires the following work.

| Requirements | Hours |
| :--- | :--- |
| Common Requirements | $18-24$ |
| Statistics Courses | $3-4$ |
| Track Courses | $15-19$ |

## Common Requirements

Students may not use a course to fulfill more than one major requirement.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| All of these: |  |  |
| GEOG:1020 | The Global Environment | 3 |
| GEOG:1021 | The Global Environment Lab | 1 |
| GEOG:1090 | Globalization and Geographic Diversity | 3 |
| GEOG:2050 | Foundations of GIS | 4 |
| One of these: |  |  |
| GEOG:1060 | Geography of Asia: From Japan to Pakistan | 3 |
| GEOG:1070 | Contemporary Environmental Issues | 3 |
| $\begin{aligned} & \text { GEOG:2110/ } \\ & \text { GHS:2110 } \end{aligned}$ | Eight Billion and Counting: Introduction to Population Dynamics | 3 |
| GEOG:2910 | The Global Economy | 3 |
| GEOG:2950 | Environmental Conservation | 4 |
| One of these (not required for GISci track students): |  |  |
| GEOG:3340 | Ecosystem Services | 3 |
| GEOG:3500/ <br> IGPI:3500 | Introduction to Environmental Remote Sensing | 3 |
| GEOG:3520/ <br> IGPI:3520 | GIS for Environmental Studies | 3 |
| $\begin{aligned} & \text { GEOG:3540/ } \\ & \text { IGPI:3540 } \end{aligned}$ | Geographic Visualization | 3 |
| GEOG:3570 | Light Detection and Ranging (LiDAR): Principles and Applications | 3 |
| GEOG:4010 | Field Methods in Physical Geography | 3 |
| $\begin{aligned} & \text { GEOG:4150/ } \\ & \text { GHS:4150/IGPI:4150 } \end{aligned}$ | Health and Environment: GIS Applications | 3 |
| One of these: |  |  |
| GEOG:4030 | Senior Project Seminar | 3 |
| GEOG:4995 | Honors Thesis (must enroll for 3 s.h.) | 3 |
| One of these (at least 1 s.h. required): |  |  |
| GEOG:3400 | Iowa Environmental Policy in Practice | 3 |
| GEOG:3992 | Undergraduate Research (including ICIGO or independent research) | arr. |
| CCP:1201 | Academic Internship | 1-3 |

Senior Project Seminar (GEOG:4030) is offered only in spring semesters. Students who choose GEOG:4995 Honors Thesis must make arrangements with a faculty advisor.

The Department of Geographical and Sustainability Sciences is a participant in the university's internship program, which provides opportunities for students to participate in paid and unpaid activities related to their academic programs. The Pomerantz Career Center works with students to develop appropriate internships.

## Statistics Courses

Students must earn a minimum of 3 s.h. in statistics by completing one of the following courses or a statistics course equivalent to or numbered above one of these.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| PSQF:4143/ | Introduction to Statistical | 3 |
| STAT:4143 | Methods |  |
| STAT:1020/ | Elementary Statistics and | 3 |
| PSQF:1020 | Inference | 4 |
| STAT:1030 | Statistics for Business | 3 |
| STAT:2010 | Statistical Methods and <br> Computing | 3 |
| STAT:2020 | Probability and Statistics for <br> the Engineering and Physical <br> Sciences |  |
|  | Biostatistics | 3 |
| STAT:3510/ |  |  |

## Tracks

All geography majors must complete one of the three tracks described below: environmental studies, geographic information science (GISci), or health and society. Students should pay close attention to prerequisites for the upper-level courses in each track in order to develop a study plan that allows them to complete their major in a timely way.
Students in the environmental studies or health and society track who wish to gain additional experience in theory and application of geographic information systems (GIS) should take GIS-based courses offered by the Department of Geographical and Sustainability Sciences, as described for each track below.
Students may use GEOG:3001 Special Topics to fulfill a track requirement if the course content is applicable.

## Environmental Studies Track

The environmental studies track requires a minimum of 15 s .h. It is designed for students interested in the interrelationships among social and natural processes that affect the environment. The track prepares students for careers or pursuit of personal interests in resource management, landscape ecology, water resources, environmental policy or law, global environmental change, sustainable development, or other complex environmental issues. Graduates may find employment in an environmental profession such as conservation, environmental planning and regulation; or environmental law, policy, and politics.

The environmental studies track offers training in field observation, remote sensing, geographical information systems, quantitative analysis/computing, and cartographic representation. It also provides a sound foundation for graduate or professional-level studies in the natural or social aspects of the environment.

In addition to the common requirements, students in the environmental studies track complete a common track course ( 3 s.h.) and at least 12 s.h. of upper-level geographical and sustainability sciences courses.

| Course \# Title | Hours |
| :--- | :--- |
| Common course-all environmental studies track |  |
| students take this: |  |

GEOG:1070
Contemporary Environmental Issues

Students choose a total of four upper-level courses (at least 12 s.h.) from the following, in consultation with their advisor. Those who wish to gain additional experience in theory and application of GIS systems should take GEOG:3520 GIS for Environmental Studies and GEOG:4520 GIS for Environmental Studies: Applications, or they should earn 6 s.h. in other GIS-based geographical and sustainability sciences courses.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| At least one of these: |  |  |
| $\begin{aligned} & \text { GEOG:2310/ } \\ & \text { EES:2310 } \end{aligned}$ | Introduction to Climatology | 3 |
| $\begin{aligned} & \text { GEOG:2374/ } \\ & \text { BIOL:2374 } \end{aligned}$ | Biogeography | 3 |
| GEOG:2410 | Environment and Development | 3 |
| GEOG:2930 | Water Resources | 3 |
| GEOG:3500/ <br> IGPI:3500 | Introduction to Environmental Remote Sensing | 3 |
| GEOG:3520/ <br> IGPI:3520 | GIS for Environmental Studies | 3 |
| At least one of these: |  |  |
| GEOG:3315 | Ecosystem Ecology | 3 |
| GEOG:3340 | Ecosystem Services | 3 |
| GEOG:3350 | Urban Ecology | 3 |
| GEOG:3400 | Iowa Environmental Policy in Practice | 3 |
| $\begin{aligned} & \text { GEOG:3760/ } \\ & \text { GHS:3760 } \end{aligned}$ | Hazards and Society | 3 |
| $\begin{aligned} & \text { GEOG:3920/ } \\ & \text { URP:3001 } \end{aligned}$ | Planning Livable Cities | 3 |
| GEOG:4010 | Field Methods in Physical Geography | 3 |
| $\begin{aligned} & \text { GEOG:4200/ } \\ & \text { SUST:4200 } \end{aligned}$ | Sustainability as a System Science | 3 |
| GEOG:4470 | Ecological Climatology | 3 |
| $\begin{aligned} & \text { GEOG:4500/ } \\ & \text { IGPI:4500 } \end{aligned}$ | Advanced Remote Sensing | 4 |
| $\begin{aligned} & \text { GEOG:4520/ } \\ & \text { IGPI:4520 } \end{aligned}$ | GIS for Environmental Studies: Applications | 3 |

| GEOG:4770/ <br> AFAM:4770/ <br> GHS:4770 | Environmental Justice | 3 |

## Geographic Information Science Track

The geographic information science track (GISci) requires a minimum of $18-19$ s.h. It is designed for students preparing for positions in government agencies, nongovernment organizations, international development agencies, and business. It also provides preparation for graduate study in geography, planning, and other disciplines. The track focuses on the design, implementation, and use of geographic information systems. Courses address how geographic data are acquired, stored, accessed, displayed, managed, and analyzed.
Students in the geographic information science track learn to address problems involved in modeling environmental systems, identifying the best locations for service facilities, assessing environmental impacts, and forecasting the populations of small areas. They use the department's Geographical Information Systems Instructional Lab (GISIL) extensively to develop expertise in using GIS software.

Coursework in the track covers methods of spatial analysis and geographical modeling and involves database management and computer programming.
In addition to the common requirements, students in the geographic information science track complete a common track course (3-4 s.h.) and at least 15 s.h. of upper-level geographical and sustainability sciences courses.

| Course \# <br> Common course-all GISci track students take one of <br> these: | Title | Hours |
| :--- | :--- | :---: |
| $\mathrm{CS}: 1110$ | Introduction to Computer |  |
| $\mathrm{CS}: 1210$ | Science | 3 |
| $\mathrm{CS}: 2110$ | Computer Science I: <br> Fundamentals | 4 |
|  | Programming for Informatics | 4 |

Students choose a total of five upper-level courses (at least 15 s.h.) from the following, in consultation with their advisor. GISci track students are encouraged to add breadth to their degree by taking additional upper-level courses in the department. Students interested in the application of GIS to environmental issues should select additional courses from the department's environmental studies area; those interested in health or other socioeconomic issues should select additional courses from the department's health and society area.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| At least one of these: |  |  |
| GEOG:3050/ <br> IGPI:3050 | Geospatial Programming | 3 |

| $\begin{aligned} & \text { GEOG:4580/ } \\ & \text { IGPI:4581 } \end{aligned}$ | Introduction to Geographic Databases | 3 |

## Health and Society Track

The health and society track requires a minimum of 15 s.h. It is designed for students interested in understanding the causes and consequences of social inequalities, the long-term effects that changing human/environmental interactions have on human health, and emerging transnational challenges to the sustainability of livelihoods. The track provides students with foundational knowledge and skills to support postgraduate employment in governmental or nongovernmental positions, graduate study in public health or in
health-related fields, and service experiences such as the Peace Corps and AmeriCorps.
Students gain an understanding of the factors and processes that determine geographic patterns of health. They explore the effects of the social, built, and natural environments on the physical, social, and mental health of populations. Coursework in the track examines patterns and causes of infectious and chronic diseases; hazards, vulnerability, and environmental justice; and the spatial methods used to understand such issues.

Thematic content from courses is complemented by quantitative, spatial, and statistical analysis coursework, enabling students to analyze and understand geographic patterns of health. Students have opportunities to work on applied problems, such as assessing patterns of disease, identifying the underlying population and environmental drivers of good or poor health, and evaluating the social dimensions of environmental impacts.
In addition to the common requirements, students in the health and society track complete three common track courses ( 9 s.h.) and at least two upper-level geographical and sustainability sciences courses (6 s.h.).

| Course \# | Title | Hours |
| :---: | :---: | :---: |

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.
To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the

College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

## BA (Geographic Information Science Track)/MS in Informatics (Geoinformatics Subprogram)

Students majoring in geography with a geographic information science track who are interested in earning a master's degree in informatics with a geoinformatics subprogram may apply to the combined BA/MS program offered by the College of Liberal Arts and Sciences and the Graduate College. The program enables students to begin the study of informatics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the informatics program, see the MS in informatics [p. 1653] (Graduate College) in the catalog.

## Honors

Graduating with departmental honors and graduating with university honors are two opportunities available to high-achieving undergraduate students, each with specific and distinct requirements. Some students pursue both options while others pursue one or the other. Membership in the University of Iowa Honors Program is encouraged, though not required, to earn honors in the major.

## Honors in the Major

Within the College of Liberal Arts and Sciences, each major develops its own requirements to achieve honors in the major. To graduate with honors, departmental honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all work for the major. They must be admitted to the department's honors program by the first semester of their senior year or earlier.
Honors students in geography pursue study beyond the typical undergraduate level. In order to graduate with honors in the major, they work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Departmental honors students earn credit for their thesis by registering for GEOG:4995 Honors Thesis. They may substitute GEOG:4030 Senior Project Seminar for GEOG:4995, as long as they continue to work on the thesis under the direction of a faculty member.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the geography major.

## Career Advancement

Courses in geography are commonly required of students preparing to teach at the elementary and secondary school levels or to work in planning and public affairs. The degree also provides a solid
background for many related professions, including law, health care, environmental engineering, and business.
The application of geographic information systems (GIS) to social, economic, and environmental problems has increased considerably during the past decade. This trend is likely to continue into the future; in fact, the U.S. Department of Labor has identified the area as one of its 14 high-growth industries. GIS presents an abundance of career opportunities for geography graduates in local, state, and federal government agencies, as well as in the private sector.
Geography majors also are encouraged to participate in an internship. The department maintains close ties with the Iowa Department of Natural Resources and other local agencies that offer internships.

The department's faculty members help students apply for postgraduate programs and contact potential employers.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.
Before the third semester begins: one introductory course in the major.
Before the fifth semester begins: five courses in the major.
Before the seventh semester begins: 11 courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: 14 courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

e Students cannot choose a course that they have already used elsewhere in the major.
f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
g Choose from: PSQF:4143, STAT:1020, STAT:1030, STAT:2010, STAT:2020, STAT:3510. Consider choosing a course that also fulfills the GE CLAS Core Quantitative or Formal Reasoning requirement.
h Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
i Cannot double-count a class for this requirement and another requirement in the major.
j Choose from the following: GEOG:3070, GEOG:3210, GEOG:3300, GEOG:3760, GEOG:3920, GEOG:4770.
k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Geography, BS

## Learning Outcomes

The goal is for geography graduates to demonstrate spatial literacy, systems thinking, critical thinking, research proficiency, and communications skills.

## Spatial Literacy

Students will understand the role of spatial information and data in addressing social and environmental questions. They will be aware of the role of geography as a linchpin discipline that bridges social and biophysical sciences.

## Systems Thinking

Students will acquire an understanding of the connections and relationships between human and environmental activities and outcomes across space and time, be able to apply spatial analytical techniques to investigate human/environment interaction, and identify the ethical implications associated with outcomes produced by such analyses. This understanding and ability will provide students with the necessary tools to assess the sustainability of current and proposed solutions in a variety of settings across a broad spectrum of social and environmental issues.

## Critical Thinking

Students will have the capability to assess various points of view and perspectives while assessing complex social and environmental problems, to evaluate the factual basis of assertions, and to understand trade-offs.

## Research Proficiency

Students will be able to formulate testable hypotheses, apply quantitative or qualitative approaches and methodological tools to pertinent questions, and acquire secondary data or construct primary data sets when applicable.

## Communication Skills

Students will be able to communicate complex geographical and technical concepts using an appropriate vocabulary to a broad spectrum of audiences. Communication skills include verbal, written, graphic, and cartographic forms of communication.

## Requirements

The Bachelor of Science with a major in geography requires a minimum of 120 s.h., including at least 46-49 s.h. of work for the major. The credit required for the major depends on a student's choice of track. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19]. Transfer students must earn a minimum of 15 s.h. for the major in residence at the University of Iowa.
Geography majors may not earn the minor in geographic information science.

The major in geography is appropriate preparation for advanced training or careers in geographical and sustainability sciences. Students with strong interest in quantitative analysis and model building should pursue the Bachelor of Science and are encouraged to master an appropriate computer programming language.

Students choose one of three tracks in the major: environmental studies, geographic information science (GISci), or health and society. All students majoring in geography complete a common set of
foundation courses in addition to the requirements for their choice of track. Bachelor of Science students take additional mathematics coursework.

Consistent with the College of Liberal Arts and Sciences maximum semester hours rule, students may count a maximum of 56 s.h. earned in their major department toward graduation.
The BS with a major in geography requires the following work.

| Requirements | Hours |
| :--- | :--- |
| Common Requirements | $18-23$ |
| Statistics, Mathematics, or Computer Science Courses | 10 |
| Track Courses | $15-19$ |

## Common Requirements

Students may not use a course to fulfill more than one major requirement.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| All of these: |  |  |
| GEOG:1020 | The Global Environment | 3 |
| GEOG:1021 | The Global Environment Lab | 1 |
| GEOG:1090 | Globalization and Geographic Diversity | 3 |
| GEOG:2050 | Foundations of GIS | 4 |
| One of these: |  |  |
| GEOG:1060 | Geography of Asia: From Japan to Pakistan | 3 |
| GEOG:1070 | Contemporary Environmental Issues | 3 |
| $\begin{aligned} & \text { GEOG:2110/ } \\ & \text { GHS:2110 } \end{aligned}$ | Eight Billion and Counting: Introduction to Population Dynamics | 3 |
| GEOG:2910 | The Global Economy | 3 |
| GEOG:2950 | Environmental Conservation | 4 |
| One of these (not required for GISci track students): |  |  |
| GEOG:3340 | Ecosystem Services | 3 |
| $\begin{aligned} & \text { GEOG:3500/ } \\ & \text { IGPI:3500 } \end{aligned}$ | Introduction to Environmental Remote Sensing | 3 |
| $\begin{aligned} & \text { GEOG:3520/ } \\ & \text { IGPI:3520 } \end{aligned}$ | GIS for Environmental Studies | 3 |
| $\begin{aligned} & \text { GEOG:3540/ } \\ & \text { IGPI:3540 } \end{aligned}$ | Geographic Visualization | 3 |
| GEOG:3570 | Light Detection and Ranging (LiDAR): Principles and Applications | 3 |
| GEOG:4010 | Field Methods in Physical Geography | 3 |
| $\begin{aligned} & \text { GEOG:4150/ } \\ & \text { GHS:4150/IGPI:4150 } \end{aligned}$ | Health and Environment: GIS Applications | 3 |
| One of these: |  |  |
| GEOG:4030 | Senior Project Seminar (offered only in spring semesters) | 3 |
| GEOG:4995 | Honors Thesis (must enroll for 3 s.h. and make arrangements with a faculty advisor) | 3 |
| One of these (at least 1 s.h. required): |  |  |
| GEOG:3400 | Iowa Environmental Policy in Practice | 3 |

| GEOG:3992 | Undergraduate Research <br> (including ICIGO or <br> independent research) | arr. |
| :--- | :--- | :---: |
| CCP:1201 | Academic Internship | $1-3$ |

Senior Project Seminar (GEOG:4030) is offered only in spring semesters. Students who choose GEOG:4995 Honors Thesis must make arrangements with a faculty advisor.

The Department of Geographical and Sustainability Sciences is a participant in the university's internship program, which provides opportunities for students to participate in paid and unpaid activities related to their academic programs. The Pomerantz Career Center works with students to develop appropriate internships.

## Statistics, Mathematics, or Computer Science Courses

Students must earn a minimum of 10 s.h. in statistics, mathematics, or computer science coursework by completing the following. Equivalent courses and courses with a higher course number also may be selected in consultation with, and approval by, an advisor.
Students who complete the GIS track may not double count their required computer science courses for the statistics, mathematics, or computer science courses requirement.
\(\left.$$

## Tracks

All geography majors must complete one of the three tracks described below: environmental studies, geographic information science (GISci), or health and society. Students should pay close attention to prerequisites for the upper-level courses in each track in order to develop a study plan that allows them to complete their major in a timely way.
Students in the environmental studies or health and society track who wish to gain additional experience in the theory and application of geographic information systems (GIS) should take GIS-based courses offered by the Department of Geographical and Sustainability Sciences, as described for each track below.

Students may use GEOG:3001 Special Topics to fulfill a track requirement if the course content is applicable.

## Environmental Studies Track

The environmental studies track requires a minimum of 15 s.h. It is designed for students interested in the interrelationships among social and natural processes that affect the environment. The track prepares students for careers or pursuit of personal interests in resource management, landscape ecology, water resources,
environmental policy or law, global environmental change, sustainable development, or other complex environmental issues. Graduates may find employment in an environmental profession such as conservation, environmental planning and regulation, or environmental law, policy, and politics.
The environmental studies track offers training in field observation, remote sensing, geographical information systems, quantitative analysis/computing, and cartographic representation. It also provides a sound foundation for graduate or professional-level studies in the natural or social aspects of the environment.

In addition to the common requirements, students in the environmental studies track complete a common track course ( 3 s.h.) and at least 12 s.h. of upper-level geographical and sustainability sciences courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Common course—all <br> students take this: |  |  |
| GEOG: 1070 | Contemporary Environmental | Issues |

Students choose a total of four upper-level courses (at least 12 s.h.) from the following, in consultation with their advisor. Those who wish to gain additional experience in theory and application of GIS systems should take GEOG:3520 GIS for Environmental Studies and GEOG:4520 GIS for Environmental Studies: Applications, or they should earn 6 s.h. in other GIS-based geographical and sustainability sciences courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| At least one of these: |  |  |
| GEOG:2310/ | Introduction to Climatology | 3 |
| EES:2310 |  | 3 |
| GEOG:2374/ | Biogeography |  |
| BIOL:2374 | Environment and Development | 3 |
| GEOG:2410 | Water Resources | 3 |
| GEOG:2930 | Introduction to Environmental | 3 |
| GEOG:3500/ | Remote Sensing |  |
| IGPI:3500 | GIS for Environmental Studies | 3 |
| GEOG:3520/ | Ecosystem Ecology |  |
| IGPI:3520 | Ecosystem Services | 3 |
| At least one of these: | 3 |  |
| GEOG:3315 | Urban Ecology | 3 |
| GEOG:3340 | Iowa Environmental Policy in | 3 |
| GEOG:3350 | Practice | 3 |
| GEOG:3400 | Hazards and Society | 3 |
| GEOG:3760/ | Planning Livable Cities | 3 |
| GHS:3760 | Field Methods in Physical | 3 |
| GEOG:3920/ | Geography | 3 |
| URP:3001 | Sustainability as a System | 3 |
| GEOG:4010 | Science | 3 |
| GEOG:4200/ | Ecological Climatology | 3 |
| SUST:4200 | Advanced Remote Sensing | 3 |
| GEOG:4470 | Applications | 3 |
| GEOG:4500/ | IGPI:4500 | GEOG:4520/ |

GEOG:4770/ Environmental Justice
AFAM:4770/

GHS:4770

## Geographic Information Science Track

The geographic information science track (GISci) requires a minimum of $18-19 \mathrm{~s} . \mathrm{h}$. It is designed for students preparing for positions in government agencies, nongovernment organizations, international development agencies, and business. It also provides preparation for graduate study in geography, planning, and other disciplines. The track focuses on the design, implementation, and use of geographic information systems. Courses address how geographic data are acquired, stored, accessed, displayed, managed, and analyzed.

Students in the geographic information science track learn to address problems involved in modeling environmental systems, identifying the best locations for service facilities, assessing environmental impacts, and forecasting the populations of small areas. They use the department's Geographical Information Systems Instructional Lab (GISIL) extensively to develop expertise in using GIS software.
Coursework in the track covers methods of spatial analysis and geographical modeling and involves database management and computer programming.

In addition to the common requirements, students in the geographic information science track complete a common track course (3-4 s.h.) and at least $15 \mathrm{~s} . \mathrm{h}$. of upper-level geographical and sustainability sciences courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Common course—all GISci track students take one of <br> these: | Introduction to Computer <br> Science | 3 |
| CS:1110 $: 1210$ | Computer Science I: <br> Fundamentals | 4 |
| CS:2110 | Programming for Informatics | 4 |

Students choose a total of five upper-level courses (at least 15 s.h.) from the following, in consultation with their advisor. GISci track students are encouraged to add breadth to their degree by taking additional upper-level courses in the department. Students interested in the application of GIS to environmental issues should select additional courses from the department's environmental studies area; those interested in health or other socioeconomic issues should select additional courses from the department's health and society area.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| At least one of these: |  |  |
| GEOG:3050/ <br> IGPI:3050 | Geospatial Programming | 3 |
| GEOG:3500/ <br> IGPI:3500 | Introduction to Environmental Remote Sensing | 3 |
| $\begin{aligned} & \text { GEOG:3520/ } \\ & \text { IGPI:3520 } \end{aligned}$ | GIS for Environmental Studies | 3 |
| GEOG:3540/ <br> IGPI:3540 | Geographic Visualization | 3 |
| At least one of these: |  |  |
| GEOG:3340 | Ecosystem Services | 3 |
| $\begin{aligned} & \text { GEOG:3760/ } \\ & \text { GHS:3760 } \end{aligned}$ | Hazards and Society | 3 |
| GEOG:4010 | Field Methods in Physical Geography | 3 |
| $\begin{aligned} & \text { GEOG:4150/ } \\ & \text { GHS:4150/IGPI:4150 } \end{aligned}$ | Health and Environment: GIS Applications | 3 |

At least one of these:

| GEOG:3570 | Light Detection and Ranging <br> (LiDAR): Principles and <br> Applications | 3 |
| :--- | :--- | :---: |
| GEOG:4500/ | Advanced Remote Sensing | 4 |
| IGPI:4500 | GIS for Environmental Studies: | 3 |
| GEOG:4520/ | Applications |  |
| IGPI:4520 | Introduction to Geographic |  |
| GEOG:4580/ <br> IGPI:4581 | Databases | 3 |

## Health and Society Track

The health and society track requires a minimum of 15 s.h. It is designed for students interested in understanding the causes and consequences of social inequalities, the long-term effects that changing human/environmental interactions have on human health, and emerging transnational challenges to the sustainability of livelihoods. The track provides students with foundational knowledge and skills to support postgraduate employment in governmental or nongovernmental positions, graduate study in public health or in health-related fields, and service experiences such as the Peace Corps and AmeriCorps.
Students gain an understanding of the factors and processes that determine geographic patterns of health. They explore the effects of the social, built, and natural environments on the physical, social, and mental health of populations. Coursework in the track examines patterns and causes of infectious and chronic diseases; hazards, vulnerability, and environmental justice; and the spatial methods used to understand such issues.
Thematic content from courses is complemented by quantitative, spatial, and statistical analysis coursework, enabling students to analyze and understand geographic patterns of health. Students have opportunities to work on applied problems, such as assessing patterns of disease, identifying the underlying population and environmental drivers of good or poor health, and evaluating the social dimensions of environmental impacts.
In addition to satisfying the common requirements, students in the health and society track complete three common track courses ( 9 s.h.) and at least two upper-level geographical and sustainability sciences courses ( 6 s.h.).

$\left.\begin{array}{l|l|l}\text { GEOG:3300/ } & \begin{array}{l}\text { Envisioning Future Worlds: } \\ \text { GHS: }\end{array} & 3 \\ \text { Sustainable Development and }\end{array}\right)$

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.
To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

## BS/MS in Informatics (Geoinformatics Subprogram)

Students majoring in geography who are interested in earning a master's degree in informatics with a geoinformatics subprogram may apply to the combined BS/MS program offered by the College of Liberal Arts and Sciences and the Graduate College. The program enables students to begin the study of informatics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.
Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the informatics program, see the MS in informatics [p. 1653] (Graduate College) in the catalog.

## Honors

Graduating with departmental honors and graduating with university honors are two opportunities available to high-achieving undergraduate students, each with specific and distinct requirements. Some students pursue both options while others pursue one or the other. Membership in the University of Iowa Honors Program is encouraged, though not required, to earn honors in the major.

## Honors in the Major

Within the College of Liberal Arts and Sciences, each major develops its own requirements to achieve honors in the major. To graduate with honors, departmental honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all work for the major. They must be admitted to the department's honors program by the first semester of their senior year or earlier.

Honors students in geography pursue study beyond the typical undergraduate level. In order to graduate with honors in the major, they work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Departmental honors students earn credit for their thesis by registering for GEOG:4995 Honors Thesis. They may
substitute GEOG:4030 Senior Project Seminar for GEOG:4995, as long as they continue to work on the thesis under the direction of a faculty member.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the geography major.

## Career Advancement

Courses in geography are commonly required of students preparing to teach at the elementary and secondary school levels or to work in planning and public affairs. The degree also provides a solid background for many related professions, including law, health care, environmental engineering, and business.
The application of geographic information systems (GIS) to social, economic, and environmental problems has increased considerably during the past decade. This trend is likely to continue into the future; in fact, the U.S. Department of Labor has identified the area as one of its 14 high-growth industries. GIS presents an abundance of career opportunities for geography graduates in local, state, and federal government agencies, as well as in the private sector.

Geography majors are encouraged to participate in an internship. The department maintains close ties with the Iowa Department of Natural Resources and other local agencies that offer internships.
The department's faculty members help students apply for postgraduate programs and contact potential employers.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.
Before the third semester begins: two introductory courses in the major.
Before the fifth semester begins: six courses in the major.
Before the seventh semester begins: 12 courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: 15 courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d Choose from the following options: GEOG:1060, GEOG:1070, GEOG:2110, GEOG:2910, GEOG:2950.
e Students cannot choose a course that they have already used elsewhere in the major.
f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
h Students cannot double-count the same course for this requirement and a requirement in the track.
i Choose from the following options: CS:1210, CS:2110, CS:2230, MATH:1380, MATH:1460. This course should be chosen based on math placement exam and/or prior coursework, and cannot count for more than one major requirement.
j Enrollment in math courses requires completion of a placement exam.
k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any
questions on appropriate timing, contact your academic advisor or Graduation Services.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d Choose from the following options: GEOG:1060, GEOG:1070, GEOG:2110, GEOG:2910, GEOG:2950.
e Students cannot choose a course that they have already used elsewhere in the major.
f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
h Choose from the following options: CS:1210, CS:2110, CS:2230, MATH:1380, MATH:1460. This course should be chosen based on math placement exam and/or prior coursework, and cannot count for more than one major requirement.
i Enrollment in math courses requires completion of a placement exam.
j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any
questions on appropriate timing, contact your academic advisor or Graduation Services.

## Sustainability Science, BS

The National Academy of Science defines sustainability sciences as "an emerging field...dealing with the interactions between natural and social systems, and with how those interactions affect the challenge of sustainability: meeting the needs of present and future generations while substantially reducing poverty and conserving the planet's life support systems." The sustainability science major at the University of Iowa is built on an integrative curriculum, with coursework in the social, natural, and analytical disciplines, thereby providing students with the knowledge and skills needed to help build a more sustainable future in Iowa, the United States, and around the world. The program offers students relevant real-world experiences such as study abroad and community outreach, as well as an academically rigorous curriculum.

## Learning Outcomes

Sustainability science graduates will be able to:

- understand the complex processes that connect humans to natural systems;
- analyze the potential impact of decisions given competing information, perceptions, and goals; and
- communicate the importance of sustainability science and management to leaders and the public.

## Requirements

The Bachelor of Science with a major in sustainability science requires a minimum of 120 s.h., including at least $68-71 \mathrm{~s} . \mathrm{h}$. of work for the major. Students must maintain a grade-point average of at least 2.00 for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19]. Transfer students must earn a minimum of 40 s.h. for the major in residence at the University of Iowa.

Sustainability science majors may earn a second major or minor in geography, environmental policy and planning, and environmental sciences, as well as other majors, minors, or certificates at the University of Iowa (except for the Certificate in Sustainability). Students may count a maximum of 6 s.h. completed for another major toward the sustainability science major, and may count a maximum of 3 s.h. toward a minor.

The BS with a major in sustainability science requires the following work.

| Requirements | Hours |
| :--- | :--- |
| Core Courses | $28-30$ |
| Analytical Tools Courses | 14 |
| Communication Course | $2-3$ |
| Equity/Ethics/Equality Course | 3 |
| Electives | 18 |
| Research/Internship Experience | 3 |

## Core Courses

Core courses introduce students to key elements of sustainability science.

Sustainability Science

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Both of these: |  |  |
| GEOG:2013/ | Introduction to Sustainability | 3 |
| BUS:2013/ |  |  |
| SUST:2013/ |  |  |
| URP:2013 | Ecosystem Services | 3 |
| GEOG:3340 | Sustainability as a System <br> One of these: | Science |
| GEOG:4200/ | Sustainable Systems | 3 |
| SUST:4200 |  | 3 |

## Natural Systems

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| CHEM:1070 | General Chemistry I | 3 |
| CHEM:1110 | Principles of Chemistry I | 4 |
| One of these: |  | 4 |
| EES:1085/ | Fundamentals of Environmental |  |
| ENVS:1085 | Science | 3 |
| GEOG:1020 | The Global Environment |  |
| One of these: |  | 3 |
| GEOG:4470 | Ecological Climatology | 3 |
| BIOL:2673/ | Ecology |  |
| ENVS:2673 |  |  |

## Human Systems

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Both of these: | Eight Billion and Counting: <br> GEOG:2110/ <br> GHS:2110 | Introduction to Population <br> Dynamics |
| GEOG:3800 | Environmental Economics and <br> Policy | 3 |
| One of these: | Environmental Justice | 3 |
| GEOG:4770/ <br> AFAM:4770/ <br> GHS:4770 | Comparative Environmental <br> POLI:2417 | 3 |

## Sustainability Sciences Seminar

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  | 1 |
| A sustainability science seminar course (consult |  |  |
| advisor) |  |  |

## Analytical Tools Courses

These courses address the solid analytical skills needed to address sustainability problems.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Foundations of GIS | 4 |
| GEOG:2050 | Statistical Methods and <br> Computing | 3 |
| STAT:2010 | Applied Linear Regression | 3 |
| STAT:3200/ |  |  |
| DATA:3200/ |  |  |

| One of these: |  | 4 |
| :--- | :--- | :--- |
| CS:1210 | Computer Science I: |  |
| CS:2110 | Fundamentals | Programming for Informatics |

## Communication Course

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| At least one of these: | The Art and Craft of Science | 3 |
| CNW:2730 | Writing | 3 |
| CNW:2740 | The Art and Craft of Writing <br> about the Environment | 3 |
| CNW:3664 | Writing About Science | 3 |
| JMC:1800 | Twenty-first-Century Science: <br> Environmental Communication <br> in the Digital Age |  |
| JMC:3185 | Topics in Understanding Media | 3 |
| POLI:3107 | Writing in Political Science: <br> Writing for "Science" and for | 3 |
|  | "Politics" |  |

## Equity/Ethics/Equality Course

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| At least one of these: |  |  |
| GEOG:4770/ | Environmental Justice |  |
| AFAM:4770/ |  | 3 |
| GHS:4770 | Introduction to Ethics | 3 |
| PHIL:2402 | Social Justice and Social |  |
| SOC:1022/SSW:1022 | Welfare in the United States |  |

## Electives

Elective coursework provides flexibility so that students can gain depth in an area of interest or continue to build a broad platform on which to build subsequent academic or professional careers.

Students cannot use an elective course to satisfy more than one requirement.

Students must select a minimum of 18 s.h. from the following, with at least 9 s.h. numbered above 3000. Students who seek to develop depth in an area may take up to 12 s.h. in a single focal area.

## Natural Systems

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| GEOG:2374/ | Biogeography | 3 |
| BIOL:2374 |  |  |
| GEOG:3315 | Ecosystem Ecology | 3 |
| GEOG:3350 | Urban Ecology | 3 |
| GEOG:4010 | Field Methods in Physical <br> Geography | 3 |
| BIOL:2673/ | Ecology | 4 |
| ENVS:2673 | Field Ecology | 4 |
| ENVS:3095 |  |  |
| Iowa Lakeside Lab courses (prefix IALL); approved by <br> advisor |  |  |

Human Systems
$\left.\begin{array}{llr}\text { Course \# } & \text { Title } & \text { Hours } \\ \text { GEOG:3300/ } & \begin{array}{l}\text { Envisioning Future Worlds: } \\ \text { GHS:3300 }\end{array} & \begin{array}{l}\text { Sustainable Development and } \\ \text { Its Alternatives }\end{array} \\ \begin{array}{l}\text { GEOG:3780/ } \\ \text { GHS:3780/ }\end{array} & \begin{array}{l}\text { U.S. Energy Policy in Global } \\ \text { Context }\end{array} & 3 \\ \begin{array}{l}\text { HIST:3240/ }\end{array} & & \\ \begin{array}{l}\text { GEOG:4751 }\end{array} & \text { Environmental Impact Analysis }\end{array}\right]$

## Integrated Natural and Human Systems

| Course \# | Title | Hours |
| :--- | :--- | ---: |

|  | Programming for Informatics | Computer Science II: Data |

CS:3210
Programming Languages and Tools

CS:4720/MATH:4820 Optimization Techniques

## Research/Internship Experience

Students must complete a minimum of 3 s.h. for the research/ internship experience requirement. They can fulfill this requirement through active participation in research with faculty, an internship at a public or private agency, or an honors thesis. Students can apply an additional 3 s.h. of research experience to their electives requirement.

## Honors

Graduating with departmental honors and graduating with university honors are two opportunities available to high-achieving undergraduate students, each with specific and distinct requirements. Some students pursue both options while others pursue one or the other. Membership in the University of Iowa Honors Program is encouraged, though not required, to earn honors in the major.

## Honors in the Major

Within the College of Liberal Arts and Sciences, each major develops its own requirements to achieve honors in the major. To graduate with honors, departmental honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all work for the major. They must be admitted to the department's honors program by the first semester of their senior year or earlier. Students also must complete 6 s.h. of research/ internship credit, and successfully complete an honors thesis and presentation.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the sustainability science major.

## Career Advancement

In Iowa, challenges associated with water quality, habitat diversity, air quality, a changing climate, and struggling rural communities have been recognized for many years. At the same time, there are significant opportunities to have a positive impact on social, economic, and environmental goals through renewable energy, reconnection of the farm with the community, and the development of more sustainable urban infrastructure, among other ways. A knowledgeable workforce is needed to address such challenges as well as to capitalize on these related opportunities.
Sustainability science provides a solid foundation for careers in fields related to sustainability while giving students the needed preparation to continue their studies in professional or graduate programs. According to the Bureau of Labor Statistics, employment opportunities for individuals with training in the environmental area are projected to grow by $11 \%$ between the years 2014 and 2024, faster than the national average. Sustainability science provides entry into these and related careers, such as planning and public affairs (projected growth of $6 \%$, as fast as average); conservation (projected growth of $7 \%$, as fast as average); and geospatial technologies (projected growth of $29 \%$, much faster than the national average).

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: two core courses in the major.
Before the fifth semester begins: six courses in the major.
Before the seventh semester begins: 12 courses in the major and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: 15 courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c Enrollment in chemistry courses requires completion of a placement exam.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
g Choose from: CNW:2730, CNW:2740, CNW:3664, JMC:1800, JMC:3185, POLI:3107.
h Elective coursework provides the flexibility so that students can gain depth in an area of interest or continue to build a broad platform on which to build subsequent academic or professional careers. Students cannot use an elective course to satisfy more than one requirement. Students must select a minimum of 18 s.h. from the list found in the catalog, with at least 9 s.h. numbered above 3000. Students who seek to develop depth in an area may take up to 12 s.h. in a single focal area.
i Choose from: GEOG:4770, PHIL:2402, SOC:1022.
j Choose from: CS:1210, CS:2110, MATH:1380, MATH: 1460
k Enrollment in math courses requires completion of a placement exam.
1 Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Geographic Information Science, Minor

Geographic information systems (GIS), and the tools and digital spatial data that they contain, help inform major decisions on how natural resources are managed, how smart cities are built, how communities respond to natural disasters, and how the spread of disease is detected. The minor is designed to provide the knowledge and skills needed to work with geographic information and prepare individuals to work in this growing profession. Geography majors are not eligible for the geographic information science major.

## Requirements

The undergraduate minor in geographic information science requires a minimum of $16 \mathrm{~s} . \mathrm{h}$. in geographical and sustainability sciences courses, including $12 \mathrm{~s} . \mathrm{h}$. in University of Iowa courses numbered 3000 or above. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Geography majors may not earn the minor in geographic information science.

The minor requires one core course, three mid-level specialization courses, and an advanced course that builds on one of the three midlevel courses. Students may consult with the department's academic advisor for help in selecting the advanced course.

The minor in geographic information science requires the following coursework.

## Core Course

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  |  |
| GEOG:2050 | Foundations of GIS | 4 |

Mid-Level Specialization Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| GEOG:3500/ | Introduction to Environmental | 3 |
| IGPI:3500 | Remote Sensing |  |
| GEOG:3520/ | GIS for Environmental Studies | 3 |
| IGPI:3520 |  | 3 |
| GEOG:3540/ | Geographic Visualization |  |
| IGPI:3540 |  |  |

## Advanced Course

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: | Light Detection and Ranging <br> (LiDAR): Principles and <br> Applications | 3 |
| GEOG:3570 | Health and Environment: GIS <br> GEOG:4150/ <br> GHS:4150/IGPI:4150 | Applications <br> GEOG:4500/ |
| Advanced Remote Sensing 3 <br> IGPI:4500 GIS for Environmental Studies: | 4 |  |
| GEOG:4520/ | Applications |  |
| IGPI:4520 Introduction to Geographic | 3 |  |
| IGPI:4581 | Databases | 3 |

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Geographic Information Science, Minor

Course Title Hours

## Academic Career

## Any Semester

Students pursuing the Geography major cannot also pursue the Geographic Information Science (GIS) minor.
12 semester hours of the Geographic Information Science minor must be 3000 -level or above and taken at the University of Iowa.

|  | Hours | $\mathbf{0}$ |
| :--- | :--- | :--- |

a Refer to the General Catalog for a list of recommended courses.

## Geography, Minor

## Requirements

The undergraduate minor in geography requires a minimum of 15 s.h. in geographical and sustainability sciences courses (prefix GEOG), including 12 s.h. in University of Iowa courses numbered 3000 or above. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students are encouraged to concentrate their coursework in tracks -environmental studies, geographic information science, or health and society (see the BA in geography [p. 524] or the BS in geography [p. 531]). For assistance in selecting courses, students may consult with the department's academic advisor.

## Geographic Information Science, Certificate

Geographic information systems (GIS) and the digital spatial data that they contain inform major decisions on how natural resources are managed, how smart cities are built, how communities respond to natural disasters, and how the spread of disease is detected. These same systems and data guide such everyday tasks as deciding one's driving route, finding family and friends using a phone, or figuring out when the bus arrives. Geographic information science (GIScience) has emerged as a field of study focused on fundamental questions about how to acquire, store, manage, analyze, and visualize geographic information using computers.

The Certificate in Geographic Information Science is designed to provide the knowledge and skills needed to work with geographic information and prepare individuals to work in this growing profession. The certificate coursework helps build a knowledgeable geospatial workforce that understands how to use GIScience properly and applies this understanding to improve transportation systems, improve water quality, or make companies more productive.

## Requirements

The undergraduate Certificate in Geographic Information Science requires a minimum of $19 \mathrm{~s} . \mathrm{h}$. of credit, including at least 12 s.h. earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in work for the certificate. Courses taken pass/ nonpass do not count toward the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Students who major in geography (geographic information science track) or who earn a minor in geographic information science may not earn the Certificate in Geographic Information Science.

Students who are interested in a specialization in geographic information systems, in remote sensing, or those who seek a more general background may want to select certain options when they plan their certificate coursework. For more information, contact the Department of Geographical and Sustainability Sciences

Students must complete all of a course's prerequisites before they register for the course.

The Certificate in Geographic Information Science requires the following coursework.

## Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| GEOG:2050 | Foundations of GIS | 4 |
| GEOG:3500/ | Introduction to Environmental | 3 |
| IGPI:3500 | Remote Sensing |  |
| GEOG:3540/ | Geographic Visualization | 3 |

## Geography, MA

The Master of Arts program in geography focuses on investigating the environmental consequences of human decisions, the social implications of environmental change, and the geographic information science that enables these studies. Central to the department's studies are the theories, methods, and models of environmental, social, and geographic information science. Within this broad domain, the department has strengths in environmental justice, environmental modeling, remote sensing and GIS, land use and its environmental consequences, sustainability, urban ecology, climatology, environmental hazards, development, political ecology, and health geography.
Master of Arts students are typically admitted only to the thesis track. The thesis track includes an independent research project and prepares students to enter a PhD program or for a career in consulting or government. The professional track is designed as a terminal nonthesis degree. Students interested in this track should seek approval from the department's director of graduate studies before applying.

The department provides opportunities for graduate students to gain practical experience through service as departmental teaching or research assistants. In addition, graduate students often compete successfully for intramural and extramural funding for graduate education.

Graduate students often present their research at professional conferences and publish their work in academic journals. These presentations and papers can be the product of independent research or research projects led by a faculty member.

## Learning Outcomes

## Nonthesis (Professional) Program

Students who successfully complete the professional MA (nonthesis) program in the Department of Geographical and Sustainability Sciences will demonstrate:

- broad knowledge of the basic concepts, tools, and areas of study in the field of geography; and
- a basic understanding of and ability to apply tools and techniques in a particular area of geography.

## Thesis Program

Students who successfully complete the MA (thesis) program in the Department of Geographical and Sustainability Sciences will demonstrate:

- both broad knowledge of the field of geography and deep knowledge in their area of research concentration;
- an ability to communicate their research concisely and effectively to both general and specialist audiences in written and verbal formats;
- an ability to formulate research questions; select, design, and apply appropriate research methods (e.g., testable hypotheses, data collection, management, analytical techniques); and utilize critical thinking skills to build knowledge, theory, and/or practice in their area of research concentration;
- competence in teaching geography, environmental, or sustainability related courses; and
- understanding of and an ability to operate under professional standards of ethical conduct.

## Requirements

The Master of Arts with a major in geography requires a minimum of 30 s.h. of graduate credit with thesis and 32 s.h. of graduate
credit without thesis. Students must maintain a program grade-point average of at least 2.75. The MA is designed to be completed in four semesters.

Thesis students must earn 15 s.h. of credit in Department of Geographical and Sustainability Sciences courses numbered 5000 or above; they may count 6 s.h. of thesis credit and 2 s.h. earned in GEOG:7000 Geography Colloquium toward the degree. Students who earn more than 30 s.h. may use the additional work to increase their breadth of knowledge in geography and to tailor their study programs to their individual interests.

Nonthesis students build skills across a range of topics in geographical and sustainability sciences during their first year and develop skills in particular application areas during their second year. They must earn 15 s.h. of credit in Department of Geographical and Sustainability Sciences courses numbered 5000 or above.

Students demonstrate competence by completing appropriate coursework; completing and defending an MA thesis (for thesis students) or completing a portfolio of finished work and having it reviewed (nonthesis students).
More detailed information about MA requirements is provided in the department's Manual for Graduate Degree Requirements; contact the Department of Geographical and Sustainability Sciences.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.
A bachelor's degree with a major in geography is not required, but applicants must have an undergraduate background relevant to the field. Strength in social science, environmental science, or geographic information science and interest in exploring the spatial perspectives that characterize modern geography are important in admission decisions. Depending on their prior training, graduate students may be required to take courses that are prerequisites for coursework in their chosen area of graduate study; credit earned in prerequisites does not count toward the graduate degree.

Application materials should include transcripts with a grade-point average listed, three letters of recommendation, and an essay in which applicants state their reasons for wanting to study geography at the University of Iowa.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET).

New graduate students whose first language is not English are required to take a speaking proficiency test when they arrive at the university; eventually they take the English Language Performance Test (ELPT). Students must be fully certified by the ELPT before they begin their fourth semester in order to be considered for funding in succeeding semesters. Students who do not pass the tests are required to take Teaching Assistant Preparation in English (TAPE) courses until they have achieved proficiency in spoken English.

## Financial Support

A number of graduate teaching and research assistantships are available. In addition, outstanding applicants are eligible for several fellowships. Underrepresented minorities are encouraged to apply. In giving awards, the department pays particular attention to performance in past undergraduate and graduate studies, letters of recommendation, and the fit of a student's objectives with department specializations.

Applications for graduate appointments and fellowships must be received by Jan. 15 .

## Career Advancement

Graduates hold positions in college and university faculties, private research organizations, and business and government.

Courses in geography are commonly required of students preparing to teach at the elementary and secondary school levels or to work in planning and public affairs. The degree also provides a solid background for many related professions, including law, health care, environmental engineering, and business.
The Master of Arts program provides students with the opportunity to build skills in an area of expertise. These skills include the use of GIS, computer programming, field techniques, statistical analysis, and quantitative methods. Acquiring these skills will make students more competitive in an abundance of career opportunities for geography graduates in local, state, and federal government agencies, as well as in the private sector.
The department's faculty members are committed to helping students apply to doctoral programs and future employment.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Geography, PhD

The Doctor of Philosophy program in geography focuses on investigating the environmental consequences of human decisions, the social implications of environmental change, and the geographic information science that enables these studies. Central to the department's studies are the theories, methods, and models of environmental, social, and geographic information science. Within this broad domain, the department has strengths in environmental justice, environmental modeling, geographic information science, remote sensing, land use and its environmental consequences, urban ecology, sustainability, climatology, environmental hazards, development, political ecology, and health geography.
The department provides opportunities for graduate students to gain practical experience through service as departmental teaching or research assistants. Graduate students present their research at professional conferences and publish their work in academic journals. These presentations and papers are the product of independent research or research projects led by a faculty member.

## Learning Outcomes

Students who successfully complete the doctoral program in the Department of Geographical and Sustainability Sciences will demonstrate:

- both broad knowledge of the field of geography and deep knowledge in their area of research concentration;
- an ability to communicate their research concisely and effectively to both general and specialist audiences in written and verbal formats;
- an ability to formulate research questions; select, design, and apply appropriate research methods (e.g., testable hypotheses, data collection, management, analytical techniques); and utilize critical thinking skills to build knowledge, theory, and/or practice in their area of research concentration;
- competence in teaching geography, environmental, or sustainability related courses; and
- understanding of and an ability to operate under professional standards of ethical conduct.

## Requirements

The Doctor of Philosophy with a major in geography requires 72 s.h. of graduate credit and is designed to be completed in four or five years. Students must maintain a program grade-point average of at least 3.00.

The degree prepares students for advanced research and college and university teaching. It provides study programs that lead to broad knowledge of a field of geography and its literature and to special expertise in a subfield.
Students may enter the PhD program upon completing an undergraduate degree or with advanced standing corresponding to previous graduate education.
All PhD students take the following courses. They take GEOG:7000 Geography Colloquium (1 s.h.) each semester they are in residence.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| GEOG:5010 | Fundamentals of Geography | 3 |
| GEOG:5050 | Research and Writing in <br> Geography | 3 |
| GEOG:7000 | Geography Colloquium (taken <br> each semester) | 1 |

Two research seminars chosen from GEOG:6500 6 through GEOG:6900; each course for 3 s.h.

Students complete a set of research milestones, including a research paper, an area of concentration bibliography, and a written qualifying examination in the discipline. With the approval of the dissertation advisor, each student submits a dissertation proposal to the dissertation committee for critical comments, oral questioning, and approval. Once the dissertation is completed, an oral defense of the dissertation is held.

More detailed information about PhD requirements is provided in the department's Manual for Graduate Degree Requirements; contact the Department of Geographical and Sustainability Sciences.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.
A bachelor's degree with a major in geography is not required, but applicants must have an undergraduate background relevant to the field. Strength in social science, environmental science, geographic information science, or another relevant field and interest in exploring the spatial perspectives that characterize modern geography are important in admission decisions. Depending on their prior training, graduate students may be required to take courses that are prerequisites for coursework in their chosen area of graduate study; credit earned in prerequisites does not count toward the graduate degree.
Application materials should include undergraduate and graduate transcripts with a grade-point average listed, three letters of recommendation, and an essay in which applicants state their reasons for wanting to study geography at the University of Iowa.
Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET).
New graduate students whose first language is not English are required to take a speaking proficiency test when they arrive at the university; eventually they take the English Language Performance Test (ELPT). Students must be fully certified by the ELPT before they begin their fourth semester in order to be considered for funding in succeeding semesters. Students who do not pass the tests are required to take Teaching Assistant Preparation in English (TAPE) courses until they have achieved proficiency in spoken English.

## Financial Support

A number of graduate teaching and research assistantships are available. In addition, outstanding applicants are eligible for several fellowships. Underrepresented minorities are encouraged to apply. In giving awards, the department pays particular attention to performance in past undergraduate and graduate studies, letters of recommendation, and the fit of a student's objectives with department specializations.
Applications for graduate appointments and fellowships must be received by Jan. 15.

## Career Advancement

The Doctor of Philosophy program prepares students to carry on creative and productive research in selected areas of geography. University of Iowa graduates hold positions in college and
university faculties, private research organizations, and business and government.

The department's faculty members help students navigate the academic and non-academic job market. The department offers numerous opportunities for mentoring and professional development annually to prepare students to locate, apply for, and obtain employment following graduation.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Undergraduate major: German (BA)
Undergraduate minor: German
Graduate degree: MA in German
Faculty: https://german.uiowa.edu/people
Website: https://german.uiowa.edu/
The Department of German offers a comprehensive undergraduate program of study in German-in German language and in the culture and literature of German-speaking Europe. Students learn to use German with intercultural competency in fields as diverse as international business, teaching, engineering, medicine, music, museum studies, and linguistics or literature. Courses focus on the cultures of Germany, Austria, and German-speaking Switzerland, including migration to and from those areas, to provide an understanding of the historical and contemporary importance of these countries in a globalized world.

The Department of German supports outreach, extracurricular activities, and contributions to the visibility of German-related issues in the state of Iowa. The department fosters an environment of diversity, equity, and inclusion.

Undergraduate students in all majors may satisfy the World Languages requirement of the GE CLAS Core with courses in German; see "Language for GE CLAS Core" below. They may satisfy other GE CLAS Core requirements with courses on German literature and culture that are taught in English; look for courses with the prefix GRMN in the area lists under "Culture, Society, and the Arts" in the GE CLAS Core [p. 19] section of the catalog. GE CLAS Core courses on German literature and culture also are listed with departmental courses taught in English under Courses [p. 552] in this section of the catalog.

The Department of German is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 365].

## Language for GE CLAS Core

The department offers several sequences of German language courses that students in all majors may use to satisfy the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core. Students who have had experience with German should take the online placement test, which helps determine the level at which a student should begin German language study at the University of Iowa. Students with no background in German should begin their study with GRMN: 1001 Elementary German I.

The following sequences satisfy the World Languages requirement of the GE CLAS Core. Students using German to satisfy the World Languages requirement should speak with departmental advisors to determine which sequence is best for them.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| GRMN:1001 | Elementary German I | 4 |
| GRMN:1002 | Elementary German II | 4 |
| GRMN:2001 | Intermediate German I | 4 |

## Facilities

The Center for Language and Culture Learning provides a wide variety of facilities and services to the Division of World Languages, Literatures and Cultures (DWLLC), including a 24-computer Instructional Technology Center (ITC), five All-In-One Studios/ small group study rooms equipped with video production and editing software, a Computer Assisted Language Learning Lab with 25 computers integrated with Sanako software for language practice, and virtual reality hardware and development space.

The center provides spaces for quiet study as well as for group meetings. Departments, programs, and student organizations are welcome to host conversation hours, film nights, study groups, workshops, and more. Peer education services include peer tutoring programs in many of the languages taught in DWLLC, with both inperson and online availability, as well as the Directed Independent Language Study, through which faculty, staff, or students can be paired with a tutor to learn a language not taught in the DWLLC. Tutors are trained to use the Three Ms for Effective Learning, which include developing a growth mindset, using memory strategies to retain knowledge, and reflecting on learning gains.

An extensive collection of works and periodicals at the University of Iowa Libraries facilitates research in all major areas of German literature and Germanic linguistics and at all levels of study.

## Courses

Graduate students not pursuing a degree in German may take GRMN:2020 Intensive Intermediate German. That course does not count for graduate credit.

## German Courses

## GRMN:1000 First-Year Seminar

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first or second semester standing.

## GRMN: 1001 Elementary German I

4 s.h.
Understanding and speaking "everyday German"; reading and writing skills; acquaintance with the German-speaking world through discussion, readings, videos. GE: World Languages First Level Proficiency.
GRMN: 1002 Elementary German II 4 s.h.
Continuation of GRMN:1001. Prerequisites: GRMN:1001. GE: World Languages Second Level Proficiency.

## GRMN: 1010 First-Year German Review

5 s.h.
Accelerated review in preparation for third-semester German. Requirements: previous study of German, typically one to two years of high-school German. GE: World Languages Second Level Proficiency.

## GRMN: 1040 German for Travelers

Basic German skills for tourists; for students with no previous knowledge of German.
GRMN: 1200 Disabilities and Inclusion in Writing and Film Around the World
Exploration of human experiences of dis/ability and exclusion/ inclusion. Taught in English. GE: Diversity and Inclusion. Same as DST:1200, GHS:1200, WLLC:1200.
GRMN: 1500 German Cultural Activities 1 s.h.
Attendance and participation at events related to culture and history of German-speaking countries; reflection papers in English; includes scholarly talks, film screenings, art exhibits, literary readings, and music or theater performances; most events in English.
GRMN: 2001 Intermediate German I
4 s.h.
Proficiency in spoken and written German, German-speaking cultures of Europe; emphasis on speaking and reading skills. Taught in German. Prerequisites: GRMN: 1002 or GRMN:1010. GE: World Languages Third Level Proficiency.
GRMN:2002 Intermediate German II 4 s.h.
Continuation of GRMN:2001; proficiency in spoken and written German; German-speaking cultures of Europe; emphasis on speaking and reading skills. Taught in German. Prerequisites: GRMN:2001. GE: World Languages Fourth Level Proficiency.
GRMN:2020 Intensive Intermediate German 4-6 s.h. Intermediate German I and II combined in one intensive course. Prerequisites: GRMN: 1002 or GRMN:1010. GE: World Languages Fourth Level Proficiency.

GRMN:2248 The Invention of Writing: From Cuneiform to Computers
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

GRMN:2275 Scandinavian Crime Fiction 3 s.h.
Contemporary Scandinavian crime novel in its literary, historical, geographic, cultural, and social context. Taught in English. GE: Literary, Visual, and Performing Arts.
GRMN:2550 Mardi Gras and More: Cultures of Carnival 3-4 s.h. Literature and customs associated with carnival from the Renaissance through present day; readings on theories of carnivalesque; survey of various carnival cultures ranging from Nuremberg carnival plays around 1450 to current traditions in Rio de Janeiro, Trinidad, New Orleans, and elsewhere. Taught in English. GE: Values and Culture. Same as WLLC:2550.

## GRMN: 2600 Witch Hunts in Fact and Fiction: A Global History of Exclusion 3-4 s.h.

Survey of the phenomenon of witchcraft and its persecution past and present; students read a historical study that sheds new light on the history of European witch hunts while demonstrating that witch hunts are not simply part of European past; how belief that certain people are able to cause harm by supernatural powers endures throughout the world today; discussion and analysis of exemplary works of fiction about witchcraft persecutions, mostly from German background. Taught in English. GE: Diversity and Inclusion.

## GRMN:2618 Film and Literature of the Holocaust 3-4 s.h.

European and American films (e.g., documentaries, feature films); literature of the Holocaust in English translation (e.g., survivor memoirs, testimony, poetry, philosophical essays, graphic novels). Taught in English. GE: Values and Culture. Same as WLLC:2618.
GRMN:2620 Anne Frank and Her Story 3-4 s.h.
Analysis of the Diary of Anne Frank, its media adaptations, and related materials (e.g., fictionalizations, additional first-hand accounts); examination of Holocaust in the Netherlands, Belgium, and other countries outside Germany; anti-Semitism, discrimination, tolerance, resistance, identity formation, human aspiration and belief. Taught in English. GE: Diversity and Inclusion. Same as WLLC:2620.
GRMN:2630 German Cinema: Greatest Hits
3-4 s.h.
Overview of German cinema; expressionist film of the Weimar
Republic; Nazi cinema; post-war cinema; East German film; New German Cinema; post-unification and contemporary cinema. Taught in English. GE: Literary, Visual, and Performing Arts.
GRMN:2666 Pact with the Devil 3-4 s.h.
Pact with the devil has served as a metaphor for humankind's desire to surpass the limits of knowledge and power and engage with the forbidden; students explore a variety of works-mostly from German literature and culture-from early modern time to present, and critique different twists that fascination with the forbidden takes with regard to women. Taught in English. GE: Literary, Visual, and Performing Arts. Same as WLLC:2666.

## GRMN:2675 The Politics of Memory: Holocaust, Genocide, and

 9/113-4 s.h.
How contested legacies of genocide, global violent conflict, and 9/11 continue to pose an urgent and generationally mediated challenge for critical politics of memory; various approaches to effective or failed coming-to-terms with injurious and difficult past (e.g., Holocaust, Armenian genocide); analysis of museums, sites of memory, and artwork. Taught in English. GE: Diversity and Inclusion.

## GRMN:2720 Germany in the World

3-4 s.h.
The Federal Republic of Germany's increasing prominence in postCold War international affairs against backdrop of 20th-century history; Germany's role in the European Union and the changing relationship between Europe and the United States. Taught in English. GE: International and Global Issues. Same as HIST:2420.

GRMN:2750 The Work of Franz Kafka: Adventures in Language and Imagination

3-4 s.h.
Introduction to the literary works of Franz Kafka; readings in English, with constant attention to German originals and translation difficulties. Taught in English.
GRMN:2785 Cyborgs, Monsters, and the Uncanny 3-4 s.h. Literature, film, and theory of the monstrous and uncanny from short stories (e.g., Kafka) to science fiction (e.g., A Cyborg Manifesto) and horror films (e.g., Dracula). Taught in English. GE: Literary, Visual, and Performing Arts.
GRMN:2949 Accountability, War Crimes, and Justice 3-4 s.h. Introduction to current juridical and nonjuridical approaches to hold perpetrators (e.g., states, state actors, individuals) of war crimes accountable in international criminal and humanitarian law; students examine concepts such as universal jurisdiction, which has been successfully deployed in German courts, and corporate accountability through recent case studies. Taught in English. Same as WLLC:2949.
GRMN:3010 Stories in German
Stories and other relatively short prose by representative authors; discussion and response; varied topics. Taught in German.
Requirements: GRMN:2002 or GRMN:2020.
GRMN: 3103 Composition and Conversation I $\mathbf{3}$ s.h.
Improvement of overall language ability with particular emphasis in areas of speaking and writing; may include vocabulary-building activities and review of selected grammar topics. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
GRMN: 3104 Composition and Conversation II $\mathbf{3}$ s.h.
Improvement of general language abilities with emphasis in areas of speaking, writing, and vocabulary; content drawn from newspapers, magazines, internet, television, recent films, and social media; students also have the opportunity to explore individual interests. Taught in German. Requirements: GRMN:2002 or GRMN:2020.

## GRMN:3195 German Linguistics Lab I

3 s.h.
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.
GRMN:3200 Literary Translation from German 3 s.h.
Workshop and seminar on translating from German to English; emphasis on literary translations and studying existing translations; special issues of German as a source language for translation into English. Taught in English and German. Requirements: prior completion of two German courses at the 3000 level or above. Same as TRNS:3200.

## GRMN:3214 Business German

World of German business, role of German-speaking countries in world trade; emphasis on professional communication and workplace culture. Taught in German. Requirements: GRMN:2002 or GRMN:2020.

GRMN: 3236 German Film
3 s.h.
Overview 1925-1987; examples of avant-garde films of the Weimar Republic, propagandist filmmaking from the Third Reich, filmmaking traditions of the German Democratic Republic (GDR) and the Federal Republic of Germany (FRG). Requirements: GRMN:2002 or GRMN:2020.

GRMN:3405 German Cultural History 3 s.h.
Major historical persons, events, and places; art and architecture, music, and intellectual life; Middle Ages to 19th century; emphasis on mythical historical persons and places. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
GRMN: 3501 German Writers Engaged 3 s.h.
Literary works from various genres. Taught in German. Requirements: GRMN:2002 or GRMN:2020.

GRMN:3845 The Structure of German 3 s.h.
Structure analysis of German words and sentences; emphasis on vocabulary expansion and writing with increased grammatical accuracy and complexity. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
GRMN:3850 Twentieth- and Twenty-first-Century German Children's Literature
Exploration of the concept of childhood within broader contexts of history and culture unique to Germany-what lessons are inherent in German children's literature and how has childhood developed accordingly, and what does it mean for a child to be a "reader;" evolution of child-rearing and gender roles over the decades; how Germany holds a solid corner of classic children's literature; examination of canonical texts and more recent child-centered contributions to Germany's literary scene; students connect with local elementary, middle, and/or high schools on a German project. Taught in German. Prerequisites: GRMN:3103 or GRMN:3104.
GRMN:3855 The Sounds of German 3 s.h.
Analysis of sounds and sound system of German; practice in listening and speaking. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
GRMN:3860 German Language and Society
Introduction to sociolinguistics in context of German-speaking countries; major topics include German dialects, regional and social variation in contemporary German, minority and immigrant languages in German-speaking countries, language and national identity, multilingualism, educational policies related to language teaching and learning, linguistic purism, language use in digital contexts, and language change. Taught in German. Requirements: GRMN:2002, GRMN:2020, or a higher-level course in German. Same as LING:3860.
GRMN:4195 German Linguistics Lab II
3 s.h.
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.
GRMN: 4315 German Society Today
3 s.h.
Government and political structure, economy, mass media, education, social and cultural life of Germany, Austria, and Switzerland from the end of World War II to present. Taught in German. Prerequisites: GRMN:3501 or GRMN:3103 or GRMN:3104.

## GRMN:4540 Literature in Film

Representative texts of German literature with film adaptations as specific readings. Taught in German. Requirements: GRMN:3501 or one upper-level literature/culture course taught in German.
GRMN:4730 Beautiful Souls and Scandalous Writing 3 s.h. Varied works of and about the 18th century; fairy tales, plays, short novels, poems, and other texts by authors such as Lichtenberg, Goethe, Naubert, Schiller, Schlegel, and Sueskind; gender roles ascribed to women and men. Taught in German. Requirements: GRMN:2002 or GRMN:2020.

## GRMN:4800 Seminar in Comparative Literature

3 s.h.
Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as CL:4800, GWSS:4800, TRNS:4800, WLLC:4801
GRMN:4850 Senior Seminar
arr.
Capstone course for majors in their last year; online graduation portfolio. Prerequisites: GRMN:3103 and GRMN:3104.
Requirements: German major and undergraduate standing.

## GRMN:4900 Independent Study

arr
Independent work completed under the supervision of Department of German faculty members. Requirements: German major or minor.

GRMN:4910 Peer Tutoring in German arr.
Opportunities to participate in classroom and tutoring activities and engage with students in language learning; for advanced students.
GRMN:4920 Research in German Studies arr.
Supplemental research and writing for introductory German studies courses taught in English (GRMN:2500 through GRMN:2999).

## GRMN:4990 Honors Research

3 s.h.
Students work with a Department of German faculty member to identify a topic for an honors thesis; research and preliminary writing. Requirements: three years of college-level German and GPA of at least 3.50 in German.

## GRMN:4991 Honors Thesis

3 s.h.
Completion of honors thesis in consultation with a faculty mentor. Requirements: honors standing and GRMN:4990.

GRMN:5000 German Reading for Graduate Students 3 s.h.
Grammar review, vocabulary building, extensive reading of sophisticated texts. Offered spring semesters. Prerequisites: GRMN: 1002 or GRMN:1010. Requirements: non-German graduate standing.

## GRMN:5001 Teaching and Learning Languages <br> 3 s.h.

Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as FREN:5000, SLA:5000, SPAN:5000, WLLC:5000.

GRMN:6635 Crossing Borders Seminar
2-3 s.h.
Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, FREN:6142, GEOG:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.
GRMN:7000 Advanced Studies
Independent work completed under the supervision of Department of German faculty members. Requirements: German graduate standing.

## German, BA

## Learning Outcomes

The BA in German is directed toward graduates' ability to converse effectively in German; write coherent short texts; interpret literary, cultural, and linguistic phenomena; and exhibit an understanding of alternative cultural perspectives.

- Interpersonal speaking: the capacity to engage effectively in conversations in German on a range of topics, recount events and personal experiences, and produce explanations and descriptions; correlates with "intermediate high" on the American Council on the Teaching of Foreign Languages (ACTFL) scale.
- Writing: the capacity to produce a cohesive piece of writing in German, such as an essay, a paper, or a narrative.
- Interpretation and analysis: the capacity to critically interpret and analyze literary texts and other cultural artifacts written in German using appropriate sources to support their arguments.
- Cultural understanding: the capacity to demonstrate understanding of alternative cultural perspectives acquired through coursework, study abroad, and other cross-cultural experiences.

## Requirements

The Bachelor of Arts with a major in German requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19]. Students who plan to earn licensure to teach in elementary and/or secondary schools should see "Teacher Licensure" below.

The German Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be the equivalent to one of the 3000-level electives.

A maximum of $15 \mathrm{~s} . \mathrm{h}$. of approved transfer credit may be counted toward the major, including study abroad coursework. Students may count up to 21 s.h. earned from the Academic Year in Freiburg program toward the major in German.

Students who begin a German major with no previous German language experience must complete the following courses or their equivalents. The course GRMN:2002 Intermediate German II (or the equivalent) is a prerequisite for all 3000- and 4000-level courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| GRMN:1001 | Elementary German I | 4 |
| GRMN:1002 | Elementary German II | 4 |
| GRMN:2001 | Intermediate German I | 4 |
| GRMN:2002 | Intermediate German II | 4 |

This requirement also may be satisfied by various combinations of GRMN:1010 First-Year German Review and GRMN:2020 Intensive Intermediate German.

The 30 s.h. required for the major must include at least five German courses numbered 3000 or above taken at the University of Iowa. Students should note that GRMN:3501 German Writers Engaged (or the equivalent) is a prerequisite for some other German literature courses.

The BA with a major in German requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Core Courses | 9 |
| Linguistics Course | 3 |
| Literature/Film Courses | 6 |

Culture Course 3
Electives 9

## Core Courses

Courses GRMN:3103 and GRMN:3104 may be taken in any order.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Three of these: |  |  |
| GRMN:3103 | Composition and Conversation I | 3 |
| GRMN:3104 | Composition and Conversation | 3 |
|  | II |  |
| GRMN:3214 | Business German | 3 |
| GRMN:3845 | The Structure of German | 3 |

## Linguistics Course

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  | 3 |
| GRMN:3855 | The Sounds of German | 3 |

## Literature/Film Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  |  |
| GRMN:3501 | German Writers Engaged | 3 |
| One of these: |  | 3 |
| GRMN:3010 | Stories in German | 3 |
| GRMN:3236 | German Film | 3 |
| GRMN:3850 | Twentieth- and Twenty-first- |  |
|  | Century German Children's | 3 |
| GRMN:4540 | Literature | 3 |
| GRMN:4730 | Literature in Film |  |

## Culture Course

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| GRMN:3405 | German Cultural History | 3 |
| GRMN:4315 | German Society Today | 3 |

## Electives

Course \# Title Hours
Three electives (prefix GRMN; with language of
instruction in German) numbered 3000-4999
Independent Study (GRMN:4900) may be applied toward the major
when taken for 3 s.h. Only one independent study course may be
applied toward the major.
Students may count a maximum of two Department of German
courses taught in English numbered $2500-2999$ toward the major by
registering for 4 s.h. of credit for each course instead of 3 s.h.; the
additional 1 s.h. of credit reflects an added research component. See
"Four Semester Hour Courses Taught in English" below.
Courses taught in English that are taken for 3 s.h. do not count toward
the major in German. In addition, courses numbered at the 1000 level
do not count toward the major.

## Four Semester Hour Courses Taught in English

A maximum of two courses (4 s.h. each) may count toward the major.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Students may use two of the following courses toward the major (some may apply toward GE CLAS Core requirements): |  |  |
| GRMN:2550 | Mardi Gras and More: Cultures of Carnival | 4 |
| GRMN:2600 | Witch Hunts in Fact and Fiction: A Global History of Exclusion | 4 |
| GRMN:2618 | Film and Literature of the Holocaust | 4 |
| GRMN:2620 | Anne Frank and Her Story | 4 |
| GRMN:2630 | German Cinema: Greatest Hits | 4 |
| GRMN:2666 | Pact with the Devil | 4 |
| GRMN:2675 | The Politics of Memory: Holocaust, Genocide, and 9/11 | 4 |
| GRMN:2720 | Germany in the World | 4 |
| GRMN:2750 | The Work of Franz Kafka: Adventures in Language and Imagination | 4 |
| GRMN:2785 | Cyborgs, Monsters, and the Uncanny | 4 |
| GRMN:2949 | Accountability, War Crimes, and Justice | 4 |

## Three Semester Hour Courses Taught in English

These courses do not count toward the major.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| GRMN:1200 | Disabilities and Inclusion in <br> Writing and Film Around the <br> World | 3 |
| GRMN:2248 | The Invention of Writing: From <br> Cuneiform to Computers | 3 |
| GRMN:2275 | Scandinavian Crime Fiction | 3 |
| GRMN:4800 | Seminar in Comparative <br> Literature | 3 |

German majors are urged to supplement their degree programs with relevant courses in areas such as German history, philosophy, and business.

## Study Abroad

The University of Iowa offers a number of opportunities for study in Germany, Switzerland, and Austria. Students frequently choose to participate in the summer USAC Lüneburg program, the Dortmund University Exchange, or the Academic Year in Freiburg program at the Albert Ludwig University of Freiburg. Students should consult Study Abroad and the German undergraduate advisor to select a program that fits their interests.
For German majors, the year-long Freiburg program provides the most comprehensive linguistic and professional preparation for a future career involving German. The Academic Year in Freiburg program is offered by a consortium made up of the University of Iowa, Michigan State University, the University of Michigan, and the University of Wisconsin-Madison.

Students arrive during the first week of September and participate in a four-week intensive language program. Then they take a
blend of special program classes and regular German university courses. Organized field trips are designed to give students a broader perspective on German culture. Vacation periods permit extensive travel throughout Europe, and students are encouraged to use weekends for shorter trips in the region.
To apply, students must have reached at least sophomore standing by the beginning of the program, have completed at least the first four semesters of college German or the equivalent with a GPA of at least 3.00 in German, and be in good academic standing at a U.S. college or university.

Students earn resident credit in all courses successfully completed in the program. They may count up to 21 s.h. earned at Freiburg toward the major.

For more information about study abroad opportunities, contact the Department of German or International Programs Study Abroad.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

## BA/MA in German

The combined BA/MA program in German enables undergraduate students majoring in German to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of credit toward both the BA and MA degree requirements. They also have the opportunity for early entrance into advanced courses in German.

## Honors

## Honors in the Major

Students majoring in German have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in German must satisfy these requirements:

- maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in all coursework for the major;
- complete GRMN:4990 Honors Research or the equivalent, such as one course for the major ( 3 s.h.) as an honors contract course; for equivalent courses taken abroad, students should consult with the honors advisor or director of undergraduate studies in German;
- complete GRMN:4991 Honors Thesis; and
- submit an acceptable honors thesis, and present and discuss their research findings in a defense meeting with their faculty mentor and two additional UI faculty members.

The courses, GRMN:4990 and GRMN:4991, will count toward the 30 s.h. for the major. Students are encouraged to participate in the Office of Undergraduate Research (OUR) and apply for research scholarships.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the German major.

## Career Advancement

Students majoring in German may combine their studies with courses in education to prepare for positions in high school teaching and administration. Many combine other skills and studies with their major in German to prepare for careers in business, travel, communications, foreign service, and other fields where the knowledge of languages is essential.

German graduates go on to earn graduate and professional degrees in German, English as a second language, history, library science, medicine, law, and sustainable agriculture. They find work in industries with strong connections to German-speaking countries and organizations such as the Goethe Institutes in the United States.

Completion of a German major ensures that students enter their professional lives as informed global citizens with a strong skill set in cross-cultural literacy. German is spoken by an estimated 126 million people, with the largest number of native speakers in the European Union. Germany has the third largest economy across the globe and was until recently the largest export nation in the world.

Coursework builds strong reading, communication, and teamwork skills which are sought by many employers.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: language competency equal to first-year German.

Before the fifth semester begins: language competency equal to second-year German.

Before the seventh semester begins: four courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester: two or three additional courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b GRMN:1001, GRMN:1002, GRMN:2001, and GRMN:2002 do not count for credit toward the major. Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5 th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language.
c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f Students must complete three courses from the following: GRMN:3103, GRMN:3104, GRMN:3214, GRMN:3845.
GRMN:3103 and GRMN:3104 can be taken in any order.
g Students must complete at least 9 s.h. total from courses taught in German (prefix GRMN) numbered 3000-4999; this may include GRMN:4900 when taken for 3 s.h. Students may count toward the major a maximum of two Department of German courses taught in English numbered 2500-2999 by registering for the 4 s.h. option; the additional $1 \mathrm{~s} . \mathrm{h}$. of credit reflects an added research component. GRMN courses taught in English that are taken for 3 s.h. do not count toward the major in German. Electives may include approved honors coursework, including GRMN:4990 and GRMN:4991.
h See General Catalog or consult advisor for approved courses.
i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## German, Minor

## Requirements

The undergraduate minor in German requires a minimum of 15 s.h. in college-level German courses, including at least 12 s.h. in courses taken at the University of Iowa. All Department of German courses (prefix GRMN) numbered 3000 or above with the language of instruction in German count toward the minor. At least 9 s.h. of coursework towards the minor must consist of German courses numbered 3000-4999. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor may include a maximum of 6 s.h. in Department of German courses numbered 2001-2020 (e.g., GRMN:2001 Intermediate German I). Credit for the German Language and Culture Advanced Placement (AP) exam with a score of 4 or higher may be counted as a 3 s.h. equivalent of GRMN:2002 Intermediate German II. When AP exam credit is applied for 3 s.h. towards the minor, students must complete all remaining 12 s.h. of coursework toward the minor with German courses numbered 2500 or above.

Students may count one Department of German course taught in English numbered 2500-2999 toward the minor by registering for 4 s.h. of credit for the course instead of 3 s.h.; the additional 1 s.h. of credit reflects an added research component. Courses taught in English taken for 3 s.h. do not count toward the minor.

With the approval of the director of undergraduate studies, students may count up to 6 s.h. earned in study abroad toward the minor. Students also may apply one course from the University of Iowa Honors Program to the requirements for the minor when that course concerns German culture or language; consult the director of undergraduate studies for approval.

## Study Abroad

The University of Iowa offers a number of opportunities for study in Germany, Switzerland, and Austria. Students frequently choose to participate in the summer USAC Lüneburg program, the Dortmund University Exchange, or the Academic Year in Freiburg program at the Albert Ludwig University of Freiburg. Students should consult Study Abroad and the German undergraduate advisor to select a program that fits their interests.

Students pursuing a minor in German often enroll in one of the summer sessions offered by the USAC Lüneburg program, but minors are eligible for all study abroad programs offered by the University.
Up to 6 s.h. of study abroad credit can be applied to the requirements for the minor.

For more information about study abroad opportunities, contact the Department of German or International Programs Study Abroad.

## Teacher Licensure

Students who plan to use their work toward a minor in German as academic background for earning teacher licensure should contact the Office of Student Services in the College of Education about requirements.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be
discussed with an academic advisor. For additional sample plans, see MyUI.

GRMN course taught in English numbered 2500-2999 toward the minor by registering for 4 s.h. of credit instead of 3 s.h.; the additional $1 \mathrm{~s} . \mathrm{h}$. of credit reflects an added research component. Courses taught in English taken for 3 s.h. do not count toward the minor.
b Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.
c The minor may include a maximum of $6 \mathrm{~s} . \mathrm{h}$. in Department of German courses numbered 2001-2020 (e.g., GRMN:2001 Intermediate German I). Credit for the German Language and Culture Advanced Placement (AP) exam with a score of 4 or higher may be counted as a 3 s.h. equivalent of GRMN:2002 Intermediate German II. When AP exam credit is applied for 3 s.h. towards the minor, students must complete all remaining $12 \mathrm{~s} . \mathrm{h}$. of coursework toward the minor with German courses numbered 2500 or above.

## German, MA

## Requirements

The Master of Arts program in German is in the process of closing and is no longer accepting new majors. The closure of the program is pending approval by the Board of Regents, State of Iowa.

The Master of Arts program in German requires a minimum of 33 s.h. of graduate credit. It is offered with or without thesis. Students must maintain a cumulative grade-point average (GPA) of at least 3.00.

MA students choose one of two concentrations: German literature or Germanic linguistics. The German literature concentration requires seven literature courses (21 s.h.) and four linguistics courses (12 s.h.). The Germanic linguistics concentration requires seven linguistics courses (21 s.h.) and four literature courses (12 s.h.).

MA students are expected to complete at least 24 s.h. in the Department of German. All MA coursework taken outside the department requires the graduate advisor's approval.

Before taking the MA exam, students must demonstrate reading knowledge of an additional language other than German, at a level equivalent to two years of college study or four years of high school study. Students may demonstrate competence by submitting proof that they have taken the required coursework with a GPA of at least 3.00 or by passing an exam at the fourth-semester college level, as determined by the appropriate language department.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Teaching assistantships, research assistantships, and partial tuition scholarships are available for qualified graduate students. The department awards the Wilson and the Funke prizes to students of distinction.

## Career Advancement

Graduates in this area of study frequently enter the teaching profession. They also find positions in government, foreign service, and commercial enterprises.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Global Health Studies 

Director, Division of Interdisciplinary Programs

- Cornelia C. Lang (Physics and Astronomy)

Director, Global Health Studies

- Kristine L. Munoz

Undergraduate major: global health studies (BA, BS)
Undergraduate minor: global health studies
Graduate certificate: global health studies
Faculty: https://globalhealthstudies.uiowa.edu/people
Website: https://globalhealthstudies.uiowa.edu/
The Global Health Studies Program (GHS) offers an interdisciplinary approach to the study of the complex factors influencing health and disease locally and around the world.

The academic curriculum builds upon the humanities, social sciences, and health sciences to help students understand underlying forcessuch as history, culture, gender and sexuality, economics, politics, race and ethnicity, the environment, law, and technology-which lead to health disparities worldwide. The Global Health Studies Program offers a BA and BS degree, an undergraduate minor, and a graduate certificate.

The Global Health Studies Program recognizes the importance of opportunities for students to be involved in ethical activities outside of the classroom to reinforce and apply knowledge and skills obtained within the classroom. These experiences help students define and achieve their post-graduation goals. The faculty and staff help connect students to local, regional, and international academic and cocurricular opportunities.

The Global Health Studies Program is one of the academic units in the Division of Interdisciplinary Programs [p. 364]. The College of Liberal Arts and Sciences awards the undergraduate degrees and the minor; the Graduate College confers the graduate certificate.

## Local Health is Global Health

There are many ways for GHS students to support local and global organizations that are working for health equity. GHS students intern and volunteer with organizations, such as Proteus, Grow: Johnson County, the UI Mobile Clinic, the UI Student Wellness, Center for Worker Justice of Eastern Iowa, IC Compassion, and Johnson County Public Health. Additionally, as part of the GHS capstone and certificate curricula, students have collaborated with community organizations such as Haiti Community Health Initiative, the World Food Prize Foundation, and the Special Olympics.

## Global Health Studies Summer Internship

The Global Health Studies Program collaborates with the University of Iowa South Asian Studies Program to provide preparation and financial support for students completing virtual and on-site internships with the renowned international nongovernmental organization (NGO), the Swami Vivekananda Youth Movement (SVYM) in Mysuru, India. Students work on a variety of health equity projects and develop global perspectives crucial for life and careers in the 21st century.

## Faculty Research and Outreach

GHS-affiliated faculty members conduct research at a variety of sites worldwide, including India, Haiti, the Caribbean, Germany, Colombia,

Tanzania, rural Iowa, and Southeast Asia. Interested students work with faculty and staff to integrate international study and research opportunities into their graduation plans. As experts in their field, GHS faculty are often asked to be part of public programming activities. Recent examples include an International Programs webinar on "Pandemic, State, and Society" in Asia, an Iowa City Foreign Relations Council presentation on refugees, immigrants, and higher education in Iowa, and a campus collaboration on a speaker series addressing environmental justice at the University of Iowa.

Health, Work, and the
GEOG:3210
CPH:4200 Environment
Agriculture, Food Systems, and Sustainability

## Global Health Studies Courses

## GHS: 1029 First-Year Seminar

Introduction to intellectual life of the university; opportunity to work closely with a faculty member or senior administrator; active participation to ease transition to college-level learning.

## GHS:1181 Ancient Medicine <br> 3 s.h.

Thematic examination of theories and practices of Greco-Roman physicians, which in turn became the medical tradition of medieval Islamic world and European medicine until mid-19th century; historical medical terms, theories, and practices. GE: Historical Perspectives. Same as CLSA:1181.

GHS: 1200 Disabilities and Inclusion in Writing and Film Around the World
Exploration of human experiences of dis/ability and exclusion/ inclusion. Taught in English. GE: Diversity and Inclusion. Same as DST:1200, GRMN:1200, WLLC:1200.
GHS:1290 Native American Foods and Foodways 3 s.h.
Native Americans as original farmers of $46 \%$ of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Diversity and Inclusion. Same as AMST:1290, HIST:1290, NAIS:1290.
GHS:2000 Introduction to Global Health Studies 3 s.h.
Global health as a study of the dynamic relationship between human health and social, biological, and environmental factors that drive the spread of disease; core areas of global health research that may include health inequalities, maternal and child health, infectious diseases, nutrition, environmental health, and health interventions. GE: International and Global Issues. Same as ANTH:2103.

GHS:2080 The Cultural Politics of HIV-AIDS 3 s.h.
Complex historical shifts in cultural perceptions about HIV-AIDS in the U.S. and transnationally; controversies around HIV-AIDS and their links with questions of gender and sexuality; how HIV-AIDS subsequently became the basis of a transnational industry comprising nongovernmental organizations, donors, and activists across the global north and south, starting from 1980s in the U.S. when HIV-AIDS first emerged into public sphere as a gay disease; link between HIVAIDS and ideologies of development or progress, neocolonialism, and emergence of lesbian, gay, bisexual, transgender, intersex, and questioning (LGBTIQ) movements in many parts of world. Recommendations: background in gender studies, and completion of rhetoric or at least one social sciences course. Same as GWSS:2080.
GHS:2090 Medical Spanish in Contemporary Society 4 s.h. Vocabulary related to medicine; grammatical concepts; healthrelated cultural competence; discussion of health issues concerning Hispanic communities in the U.S. and abroad. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2090.

1 s.h.
Examination of health, disease, care, and healing through humanities perspective; exploration of humanistic elements of medical care to better understand multiple meanings and impacts of disease, medical research and treatment, and health beliefs and practices in different communities; interdisciplinary inquiry through close reading, interpretation of visual images, and reflective and analytic writing to encourage adaptability and foster appreciation of non-technoscientific factors in personal and professional health care decision-making. Same as GWSS:2100.
GHS:2110 Eight Billion and Counting: Introduction to Population Dynamics 3 s.h.
How dramatic changes to the size of population has changed fundamental characteristics of populations and processes, such as food and water scarcity, climate change and biodiversity, rise of megacities, health and disease, migration, social networks, economics, environment, and household structure. GE: Social Sciences. Same as GEOG:2110.
GHS:2160 Culture, Health, and Wellness: Southeast Asia in
Focus
$\mathbf{3}$ s.h.

Exploration of complex cross-cultural interactions between health, wellness, and culture; insights drawn from the culturally diverse region of Southeast Asia including Indonesia, Vietnam, Singapore, Malaysia, Thailand, Cambodia, Burma, and Philippines, among others. Same as ANTH:2160.
GHS:2164 Culture and Healing: An Introduction to Medical Anthropology 3 s
Health professions are increasingly focused on how to best provide health care to culturally diverse populations; introduction to key cultural and social influences on sickness and healing; worldwide examples. Same as ANTH:2164.
GHS:2181 The Anthropology of Aging
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ANTH:2181, ASP:2181.
GHS:2182 Africa: Health and Society 3 s.h.
Cultural, political, and economic diversity of African societies from precolonial period to present day; relationship between lived experiences of African people and understanding of their societies from afar; why Africa, more than any other region, is associated with warfare, hunger, and disease; idea of "Africa" in the world today; shared misunderstanding of life on continent contrasted with everyday lives of people who are not so different from ourselves. Same as ANTH:2182.
GHS:2260 Hard Cases in Healthcare at the Beginning of Life 3 s.h. Exploration of ethical impact that advances in biotechnologyincluding genetic, reproductive, and neonatal technology-are having in the medical arena and on humanity; consideration of the powerful influence that religion and spirituality have on most people's thinking about life and death. Same as RELS:2260.
GHS:2265 Hard Cases in Healthcare at the End of Life 3 s.h. Preparation for future healthcare providers to make difficult ethical decisions regarding the end of life; interactive course. Same as ASP:2265, RELS:2265.

GHS:2320 Origins of Human Infectious Disease 3 s.h.
Origin and evolution of important infectious diseases in human history; biological evolution of infectious agents and biocultural responses to emerging infectious diseases; primary focus on viruses and bacteria; selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. Same as ANTH:2320.

## GHS:2415 Bioethics

3 s.h.
Recent developments in biotechnology and medicine; designer babies and cloning, genetic screening for disease, distributive justice in health care, animal experimentation, physician-assisted suicide, and euthanasia. Same as PHIL:2415.
GHS:2650 Global Reproduction 3 s.h.
History of birth control and work of activists and organizations that emerged to promote it; troubling connections that spawned between reproductive rights and population control movements. Same as GWSS:2650.

GHS:2674 Food, Body, and Belief: A Global Perspective 3 s.h. Exploration of local, national, and global forces that shape food consumption, body image, and spiritual practices. Taught in English. Same as GWSS:2674, RELS:2674.

## GHS:2770 Black and White Community Politics 3 s.h.

Students study the movement for environmental justice within the broader context of U.S. land use and development to understand environmental racism's prevalence and how it can be addressed; topics include pollution, health, food access, transportation and agricultural practice to land loss, public space, and infrastructure; exploration of perspectives on the environment and environmentalism. Same as AFAM:2770, SOC:2770.
GHS:3010 Identifying and Developing a Global Health Project

3 s.h.
Review of major components of global health related research process; preparation for a local or international project which addresses a global health issue in a systematic way. Same as IGPI:3011.

## GHS:3011 Global Research: Strategies and Skills

1 s.h.
Skill development in international research; academic projects; work with research librarian; activity-based introduction to article, statistical, and governmental databases; research and popular materials; information discovery process (tools and search strategies); enhancement of critical thinking skills. Same as IS:3011, ULIB:3011.

GHS:3012 Community-Based Global Health Research 3 s.h. Introduction to community-based participatory research methods; ethical engagement with a local/global organization addressing the social determinants of health.

GHS:3015 Transnational Sexualities 3 s.h.
How ideas about normative and nonnormative sexuality, gender/ sexual identities, and related social movements travel across geographical, political, and cultural boundaries; potentials and limits of using conceptual frameworks (i.e., sexuality, gender, LGBT, queer) across the west and global south; how sexuality always intersects with race, class, nationhood, and transnational systems of power; power structures that shape gender/sexuality through a transnational approach; connection of inequalities within the United States with those across the world. Same as GWSS:3010.
GHS:3021 Mental Health in the Ancient World 3 s.h.
Exploration of approaches to mental health in ancient Mediterranean world including Mesopotamia, the Levant, Greece, and Rome; examination of nosology, etiology, therapy, and ethics of mental health from ancient medical, philosophical, religious, and literary perspectives; mental health in cultural contexts. Same as CLSA:3020.

GHS:3030 Global Health Today 1 s.h.
Attendance at diverse on-campus, local, and regional global health events. Same as CPH:3240.

GHS:3034 Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities 1 s.h.
Exploration of complex ethical issues involved in engaging in experiential learning (e.g., study abroad, volunteering, internships, research) in global communities; topics may include patient rights versus the promise of "hands-on" experience for untrained undergraduates; pitfalls of voluntourism and substituting "free" foreign labor for paid local employees; commercial aspects of study abroad-incentives and recruiting on campus by external contractors; how to select a reputable internship provider; online resources which help students become global ambassadors for patient safety; basic tools for thinking critically about outcomes.
GHS:3035 Engaging in Global Health 1 s.h.
How to become a participant in promoting health throughout the world; student peers and global health professionals share their experiences in global health; how professionals and volunteers work in a broad variety of settings; working with governmentbased programs, international organizations (e.g., UNICEF, World Vision), health care agencies, faith-based organizations, industry, and academic institutions; various ways to become engaged and be involved in global health.
GHS:3036 Ethics, Politics, and Global Health 3 s.h.
Ethics of health care policies, delivery systems, and interventions examined globally and locally.

GHS:3037 Technology to Improve Global Health 3 s.h. Examination of existing, new, and future technologies used to revolutionize global health promotion through a variety of unique and often low-cost tools (e.g., mobile phones, drones, artificial intelligence).
GHS:3045 Spanish Health Narratives 3 s.h.
Narratives are the central communicative act through which humans make sense of wellness and illness, life and death, always within contexts of language and culture; students focus on reading and analyzing narratives about health and health care, and opportunities to create their own narratives; particular emphasis on health care disparities and issues they present for Spanish-language communities in the United States and abroad as context for individual narratives. Taught in Spanish. Requirements: one course numbered SPAN:2000 or above. Same as SPAN:3045.

## GHS:3050 Global Aging

3 s.h.
Demographic factors that contribute to the worldwide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as ASP:3135, SSW:3135.

## GHS:3060 Studies in Complementary and Alternative Medicine

Rotating topics related to complementary and alternative medicine.
GHS:3070 Hungry Planet: Global Geographies of Food 3 s.h.
Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as GEOG:3070.
GHS:3105 Contraception Across Time and Cultures 3 s.h.
Methods and history of contraception; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as CLSA:3105, GWSS:3105, WLLC:3105.

GHS:3110 Colonialism and Indigenous Health Equity 3 s.h. Health problems and services for Indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101 or ANTH:2165 or GHS:2000 or HIST:1049. Same as ANTH:3110, NAIS:3110.
GHS:3111 Geography of Health 3 s.h.
Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as GEOG:3110.

## GHS:3113 Religion and Healing

3 s.h.
Historical evidence of religious healing in Christian, Hindu, Buddhist, Native American, and Shaman traditions. Same as ANTH:3113, ASIA:3561, RELS:3580.
GHS:3120 Global Maternal and Child Health 3 s.h.
Interdisciplinary approach to health of women and children locally and around the world.
GHS:3150 Media and Health
3 s.h.
Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as CBH:3150, JMC:3150.
GHS:3151 The Anthropology of the Beginnings and Ends of Life
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life's margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3151, ASP:3151.

GHS:3152 Anthropology of Caregiving and Health 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ANTH:3152, ASP:3152.
GHS:3162 History of Global Health 3 s.h.
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as HIST:3162.
GHS:3199 Anthropology and Global Health Policy 3 s.h.
Global health has grown as an area of practice and study, with wellbeing and livelihoods of increasing numbers of people now deeply influenced by these ideas, practices, and policies; students engage with ways that global health programs have influenced experiences of health and illness by those who participate in these programs, critically analyzing how global health interacts with local dynamics of inequality, race, gender, and power. Same as ANTH:3199, IS:3198.
GHS:3230 Health Experience of Immigrants, Migrants, and Refugees
Interdisciplinary exploration of the unique health concerns, challenges, and health care experiences of the diverse populations on the move around the world and new to this country; issues to be explored include four overlapping sections-broad overview (definitions, populations, and significant health challenges); health risks and needs of specific sub-populations; patterns of public and private resources and responses; and the local picture (Iowa and Midwest), programs, cases, and concerns.

## GHS:3300 Envisioning Future Worlds: Sustainable Development and Its Alternatives 3 s.h.

Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as GEOG:3300.
GHS:3325 Global Epidemics
3 s.h.
Case studies of several prominent global epidemic episodes; examination of the biology of the disease, how such epidemics came into being, how they were combated, and the relationship between the science, sociocultural, and political consequences of the disease.
GHS:3327 The Politics of Progress: NGOs, Development, and Sexuality

3 s.h.
How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions' arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GWSS:3326.
GHS:3420 Health and Healing in Early Modern Europe 3 s.h. Health, healing, and medicine (1200-1700); transmission of medical knowledge from medieval Islam and ancient Greece; healers including physicians, midwives, surgeons, apothecaries, and ordinary people; epidemic disease; diet and the body; sex and reproduction; health in the colonial Atlantic world; healing and religion including prayer, magic, and witchcraft. Same as HIST:3420.

## GHS:3500 Global Public Health

3 s.h.
Exploration of historical, current, and forecasted trends in global public health, the factors influencing health demographics in human populations, sources of health inequalities, and appropriate policy and intervention approaches for addressing global public health challenges. Same as CPH:3500.
GHS:3508 Disease and Health in Latin American History 3 s.h.
Survey of major topics in Latin American history in relation to development of medicine and public health. Same as HIST:3508, LAS:3508.
GHS:3520 Latinx Oral Histories of Health Care
Oral histories capture individual lived experiences in relation to structures of law, language, society, and culture; students learn oral history methods and connect with Latinx members in the local community to conduct interviews that record their lived experiences of access to health care; these interviews may be archived in Special Collections and Archives at the University Libraries.
Recommendations: some knowledge of Spanish is useful but not required. Same as LATS:3520.
GHS:3555 Understanding Health and Disease in Africa 3 s.h. Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as HIST:3755, IS:3555.
GHS:3560 Global Garbage and Global Health
3 s.h.
Exploration of the fate of waste products as they are burnt, decomposed, landfilled, treated, recycled, reused, dumped on minority communities, or shipped abroad; definition of social and cultural aspects of garbage; students develop an understanding of the link between garbage, human health, and environmental health.

## GHS:3570 Poverty Policy

3 s.h.
How poverty is regulated and addressed in the United States, and by federal, state, and local governments; particular focus on programs including Temporary Assistance for Needy Families (TANF), Section 8 housing, Medicaid, and Medicare; how these systems have changed over time; current models and innovations that have emerged in practice. Same as PBAF:3570, POLI:3570.
GHS:3600 Development in a Global Context I: Preparing for an Internship in Health, Gender, and Environment 2 s.h. Students work with a UI faculty mentor to articulate an international development project and apply to an international development organization for an internship; students are matched to an organization/project and begin preparation for their internship by communicating with onsite mentor/supervisor.
GHS:3700 Development in a Global Context II: Reflections on Real World Interventions
Students produce a research paper analyzing their personal internship in an international development program.
GHS:3720 Contemporary Issues in Global Health 3 s.h.
Local and global dimensions of health and disease.
GHS:3732 Global Health Nursing 3 s.h.
Complexity of health and nursing in a global context; overview of biological, social, epigenetic, and environmental contributors to health and diseases in populations around the world and nursing's role in improving health; includes case studies of various global organizational and educational structures and systems relative to population health, selected infectious diseases, nutritional deficiencies, and health effects of environmental change. Same as NURS:3732.

## GHS:3760 Hazards and Society

3 s.h.
Examination of the impact and societal responses to natural and technological hazards; using case studies from around the world, students explore relationships between extreme events, human behavior, disaster management, public policy, and technology to understand what makes people and places vulnerable to hazards. Same as GEOG:3760.
GHS:3780 U.S. Energy Policy in Global Context 3 s.h.
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GEOG:3780, HIST:3240, POLI:3431.
GHS:3850 Promoting Health Globally
3 s.h.
Major global health threats in the United States and abroad; impact of culture, history, economics on health disparities; approaches, programs, policies to remedy them. Same as HHP:3850.
GHS:4000 Global Health Studies Service Learning: Local Health is Global Health 4 s.h.
Service-learning projects with local community organizations; domestic opportunities which offer global health insights.
GHS:4001 Social Entrepreneurship and Global Health 3 s.h. Fundamentals of social enterprise and innovative approaches to improving lives and communities combined with a Global Health Studies focus on social determinants of health; student teams apply their knowledge and skills to projects which support the global health mission of a community partner. Recommendations: one approved global health studies course.
GHS:4002 Working in Global Health 3 s.h.
Development of skills needed for careers in global health.
Recommendations: junior or higher standing.
GHS:4003 Case Studies in Global Health Inequities 3 s.h. Series of multidisciplinary case studies focusing on health issues and solutions locally and globally.
GHS:4100 Topics in Global Health
1-3 s.h.

GHS:4140 Feminist Activism and Global Health 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101 or GWSS:1001 or CPH:1400 or GHS:2000. Same as ANTH:4140, CBH:4140, GWSS:4140.

GHS:4150 Health and Environment: GIS Applications 3 s.h. Introduction to how geographic information systems (GIS) and spatial statistics are used in the study of patterns of health and disease in space and time. Same as GEOG:4150, IGPI:4150.

GHS:4205 Culture, Language, and Health
Exploration of health, wellness, and illness from a perspective of language and culture; languages we use to describe our mental and physical health that are situated within culture-specific ideas of human bodies, minds, disease, and wellness; understanding where beliefs about health and wellness come from and exploring other systems of belief on their own terms prepares students to be better informed health care practitioners, more aware patients within health care systems, and more sensitive caregivers in health related settings; emphasis on observation, asking questions, and analyzing health care worlds. Taught in Spanish. Requirements: two courses in Spanish numbered 3000 or above. Same as SPAN: 4205.

## GHS:4260 Global Water and Health

3 s.h.
Overview of global water and health; microbial and toxicant identification, water-related adverse health effects, risk assessment, approaches to reduce water-related disease, distal water-related influences (e.g., global warming), and historic cases. Same as OEH:4260.

GHS:4530 Global Road Safety

## 3 s.h.

Road safety problem, data sources, research methods used in field, and how intervention and prevention programs are developed and evaluated; lecture, hands-on approaches. Same as CPH:4220, OEH:4530.
GHS:4770 Environmental Justice
3 s.h.
Introduction to the field of environmental justice; understanding and addressing the processes that lead poor and marginalized communities to face a disproportionate degree of environmental risks and hazards. Same as AFAM:4770, GEOG:4770.
GHS:4990 Independent Project in Global Health arr
Independent work completed under the supervision of global health studies faculty.
GHS:4991 Honors Thesis in Global Health Studies 3 s.h.
Completion of honors thesis in consultation with a faculty mentor. Prerequisites: GHS:3010.
GHS:4992 Global Health Studies Honors Cohort 0 s.h.
Students complete all requirements for honors in the global health studies major; supervision by global health studies honors advisor. Corequisites: GHS:4991.
GHS:5000 Graduate Seminar in Global Health 2 s.h.
In-depth discussion and analysis of rotating topics pertinent to global health studies.
GHS:5300 Envisioning Future Worlds: Sustainable Development and Its Alternatives

3 s.h.
Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as GEOG:5300.

Special topics related to global health studies.

GHS:5455 Health Insurance and Managed Care 3 s.h.
History and theory of insurance, comparative health systems, health systems and networks, HMOs, public health insurance, care for uninsured; emphasis on public policy. Prerequisites: HMP:5005. Corequisites: PHAR:6330 or HMP:5410. Same as HMP:5450.
GHS:6550 Epidemiology of Infectious Diseases 3 s.h.
Underlying epidemiological concepts of infection disease, including causation and surveillance; prevention and control; case studies. Offered fall semesters. Prerequisites: EPID:4400. Same as EPID:6550.
GHS:7160 Global History of Race, Science, and Medicine 3 s.h. Examination of the history of social construction of race in scientific and medical thought; use of science and medicine to conceptualize race, as well as how race was used by scientists and physicians in their practice; primary focus is on the Atlantic World-Europe, Africa, and the Americas-and touches briefly on the construction of race in other parts of the world. Same as HIST:7160.

## Global Health Studies, BA

The Bachelor of Arts in global health studies prepares students for careers in local and international global health organizations, and for graduate and professional work in fields such as public health, law, planning and public affairs, social work, international development, sustainable agriculture, public policy, and more.

## Learning Outcomes

The Global Health Studies Program equips its students to:

- apply interdisciplinary perspectives drawn from the social sciences and humanities to local and global health issues;
- understand core areas of global health such as the historical evolution of the field, global actors and activities, environmental health, disability studies, and health disparities;
- analyze health and disease from biomedical, sociocultural, and environmental perspectives
- understand how health issues affect domestic and international communities;
- recognize the ethical and practical challenges involved in interventions designed to improve health and health equity across cultural and geographical boundaries.

## Requirements

The Bachelor of Arts with a major in global health studies requires a minimum of 120 s.h., including at least $37 \mathrm{~s} . \mathrm{h}$. of coursework for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. A minimum of $18 \mathrm{~s} . \mathrm{h}$. of major coursework must be earned at the University of Iowa. A maximum of 6 s.h. in GHS:4990 Independent Project in Global Health may be used toward the major. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19] requirements.
A total of three courses may be counted from other majors, minors, or certificates toward the global health studies major, excluding courses taken to satisfy GE CLAS Core requirements.

Students who earn the major in global health studies may not earn the certificate or the minor in global health studies.

Students who earn the major in global health studies may earn the major in interdepartmental studies as long as they select an emphasis other than the global health emphasis in the health science track.

The BA with a major in global health studies requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | 10 |
| Global Health Perspectives and Practices Courses | 18 |
| World Language and Culture Requirement | 6 |
| Capstone Experience | 3 |

## Foundation Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Introduction to Global Health <br> Studies | 3 |
| GHS:2000 | Contemporary Issues in Global <br> Health | 3 |
| GHS:4003 | Case Studies in Global Health <br> Inequities | 3 |
| And one of these: |  |  |

Doing Harm by Doing Good:
The Ethics of Studying,
Volunteering, and Working in Global Communities
Engaging in Global Health

## Global Health Perspectives and

 Practices CoursesTo provide an appreciation of the interdisciplinary nature of global health studies, students choose from a wide range of courses on topics that reflect the breadth of the field. Students must take a minimum of $18 \mathrm{~s} . \mathrm{h}$. of courses from the lists below to fulfill the global health perspectives and practices requirement, with at least 12 s.h. from courses numbered 3000 or above.

Courses taken to complete another area of the major cannot be used toward the global health perspectives and practices requirement.

## Core Electives

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| A minimum of 6 s.h. from these: |  |  |
| GHS: 1200 | Disabilities and Inclusion in Writing and Film Around the World | 3 |
| GHS:2100 | Foundations of Health Humanities | 3 |
| GHS:3015 | Transnational Sexualities | 3 |
| GHS:3036 | Ethics, Politics, and Global Health | 3 |
| GHS:3045 | Spanish Health Narratives | 3 |
| GHS:3070 | Hungry Planet: Global Geographies of Food | 3 |
| GHS:3105 | Contraception Across Time and Cultures | 3 |
| GHS:3120 | Global Maternal and Child Health | 3 |
| GHS:3300 | Envisioning Future Worlds: Sustainable Development and Its Alternatives | 3 |
| GHS:3230 | Health Experience of Immigrants, Migrants, and Refugees | 3 |
| GHS:3325 | Global Epidemics | 3 |
| GHS:3520 | Latinx Oral Histories of Health Care | 3 |
| GHS:3560 | Global Garbage and Global Health | 3 |
| GHS:4205 | Culture, Language, and Health | 3 |

## Additional Electives

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| A minimum of 12 s.h. from these: |  |  |
| GHS:1029 | First-Year Seminar | 1 |
| GHS:1181 | Ancient Medicine | 3 |
| GHS:1290 | Native American Foods and | 3 |
| GHS:2080 | Foodways | 3 |
| GHS:2090 | The Cultural Politics of HIV- |  |
|  | AIDS | 4 |

| GHS:2110 | Eight Billion and Counting: Introduction to Population | 3 | GHS:3327 | The Politics of Progress: NGOs, Development, and Sexuality | 3 |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Dynamics |  | GHS:3420 | Health and Healing in Early | 3 |
| GHS:2160 | Culture, Health, and Wellness: | 3 |  | Modern Europe |  |
|  | Southeast Asia in Focus |  | GHS:3500 | Global Public Health | 3 |
| GHS:2164 | Culture and Healing: An Introduction to Medical | 3 | GHS:3508 | Disease and Health in Latin American History | 3 |
|  | Anthropology |  | GHS:3555 | Understanding Health and | 3 |
| GHS:2181 | The Anthropology of Aging | 3 |  | Disease in Africa |  |
| GHS:2182 | Africa: Health and Society | 3 | GHS:3570 | Poverty Policy | 3 |
| GHS:2260 | Hard Cases in Healthcare at the Beginning of Life | 3 | GHS:3600 | Development in a Global Context I: Preparing for an | 2 |
| GHS:2265 | Hard Cases in Healthcare at the End of Life | 3 |  | Internship in Health, Gender, and Environment |  |
| GHS:2320 | Origins of Human Infectious Disease | 3 | GHS:3700 | Development in a Global Context II: Reflections on Real | 1 |
| GHS:2415 | Bioethics | 3 |  | World Interventions |  |
| GHS:2650 | Global Reproduction | 3 | GHS:3720 | Contemporary Issues in Global | 3 |
| GHS:2674 | Food, Body, and Belief: A Global Perspective | 3 |  | Health (topic must be different than the Foundation Course topic) |  |
| GHS:2770 | Black and White Community Politics | 3 | GHS:3732 | Global Health Nursing | 3 |
| GHS:3010 | Identifying and Developing a | 3 | GHS:3760 | Hazards and Society | 3 |
|  | Global Health Project (if not taken to satisfy the Capstone |  | GHS:3780 | U.S. Energy Policy in Global Context | 3 |
|  | Experience requirement) |  | GHS:3850 | Promoting Health Globally | 3 |
| GHS:3011 | Global Research: Strategies and Skills | 1 | GHS:4000 | Global Health Studies Service <br> Learning: Local Health is | 4 |
| GHS:3012 | Community-Based Global Health Research (if not taken to satisfy the Capstone Experience | 3 |  | Global Health (if not taken to satisfy the Capstone Experience requirement) |  |
|  | requirement) |  | GHS:4001 | Social Entrepreneurship and | 3 |

| NURS:3655 | The History That Made Our <br> World (when topic is related to <br> global health; consult advisor) | 3 |
| OEH:4240 | Community and Public Health <br> Nursing Practicum (B.S.N. <br> students only) | 2 |
| Global Environmental Health |  |  |

## World Language and Culture Requirement

Students must choose option A or B below. The semester hours necessary to complete this requirement will vary.

## Option A

Students may complete a minimum of two world language courses beyond that required by the GE CLAS Core [p. 19]. This additional language requirement may be met either by completing at least two courses of fifth-semester-level study or higher in the same language used to fulfill the GE CLAS Core World Languages requirement or by completing two courses, or the equivalent, of a second world language at any level.

## Option B

Students may complete 6 s.h. related to one of the following area studies: African studies; Caribbean studies; East Asian studies; Islamic and Middle Eastern studies; Latin American studies; Russian, East European, and Eurasian studies; or South Asian studies. See the International Studies Course Database website for approved courses each semester.

## Capstone Experience

The capstone experience requirement provides an opportunity for students to apply the knowledge and skills they learned in the classroom.

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| A minimum of 3 s.h. from these: | 3 |  |
| GHS:3010 | Identifying and Developing <br> a Global Health Project (if <br> not taken to satisfy the Global <br> Health Perspectives and <br> Practices Courses requirement) |  |
| GHS:3012 | Community-Based Global <br> Health Research (if not taken <br> to satisfy the Global Health <br> Perspectives and Practices <br> Courses requirement) | 3 |
| GHS:4000 | Global Health Studies Service <br> Learning: Local Health is <br> Global Health | 4 |

| GHS:4001 | Social Entrepreneurship and <br> Global Health | 3 |
| :--- | :--- | :--- |
| GHS:4002 | Working in Global Health | 3 |

## Honors

## Honors in the Major

Students majoring in global health studies have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in the major must satisfy these requirements:

- maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all work for the major;
- complete GHS:3010 Identifying and Developing a Global Health Project followed by GHS:4991 Honors Thesis in Global Health Studies as their capstone experience;
- enroll in GHS:4992 Global Health Studies Honors Cohort with the global health studies honors advisor during the semester in which GHS:4991 will be completed; and
- submit an acceptable honors thesis.

Students are also encouraged, but not required, to give an oral or poster presentation of research findings, participate in the Office of Undergraduate Research (OUR), and/or apply for research scholarships.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the global health studies major.

## Career Advancement

The Global Health Studies Program engages students and faculty in real-world health problems and challenges students to embark on global health careers which place a priority on improving health and achieving equity in health for people worldwide.

Graduates find opportunities in a range of global health job sectors such as:

- in-country field consulting;
- disaster relief organizations;
- immigrant/refugee health organizations;
- research and academic institutions;
- international agencies;
- other nongovernmental agencies (NGOs);
- lending agencies that do work in developing countries;
- multilateral agencies (such as the World Health Organization); and
- governmental agencies (United States Agency for International Development, Center for Disease Control, in-country ministries of health, etc.).
Global health studies graduates also have pursued graduate and professional degrees in medicine, dentistry, pharmacy, nursing, public health, law, nonprofit management, urban and regional planning, sustainable agriculture, international development, and public administration.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least six courses in the major.
Before the seventh semester begins: at least 12 courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two additional courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a The Global Health Studies Program connects students to experiential learning opportunities such as study abroad, internships,
research, service learning, and capstone courses through which students develop real world skills related to major global health issues. Students meet regularly with their academic advisor for help in identifying ethical activities which can be integrated into their individualized graduation plan.
b Global Health Studies students are encouraged to enroll in this course to explore how professionals and volunteers work in a broad variety of global health settings. This course counts toward Global Health Perspectives and Practices.
c Students completing Honors in the Global Health Studies major work with a faculty mentor to produce an honors thesis, and then present their research at a venue approved by the Global Health Studies Program.
d Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Global Health Studies, BS

The Bachelor of Science in global health studies is designed for students who desire to enter professional programs in the health sciences.

## Learning Outcomes

The Global Health Studies Program equips its students to:

- apply interdisciplinary perspectives drawn from the social sciences and humanities to local and global health issues;
- understand core areas of global health such as the historical evolution of the field, global actors and activities, environmental health, disability studies, and health disparities;
- analyze health and disease from biomedical, sociocultural, and environmental perspectives;
- understand how health issues affect domestic and international communities;
- recognize the ethical and practical challenges involved in interventions designed to improve health and health equity across cultural and geographical boundaries.

## Requirements

The Bachelor of Science with a major in global health studies requires a minimum of 120 s.h., including at least 47 s.h. of coursework for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. A minimum of 18 s.h. of major coursework must be earned at the University of Iowa. A maximum of 6 s.h. in GHS:4990 Independent Project in Global Health may be used toward the major. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19] requirements.
A total of three courses may be counted from other majors, minors, or certificates toward the global health studies major, excluding courses taken to satisfy GE CLAS Core requirements.

Students who earn the major in global health studies may not earn the certificate or the minor in global health studies.

Students who earn the major in global health studies may earn the major in interdepartmental studies as long as they select an emphasis other than the global health emphasis in the health science track.
The BS with a major in global health studies requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | 10 |
| Global Health Perspectives and Practices Courses | 18 |
| World Language and Culture Requirement | 6 |
| Capstone Experience | 3 |
| Natural Sciences Courses | $7-8$ |
| Mathematics and Statistics Course | $3-4$ |

## Foundation Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Introduction to Global Health | 3 |
| GHS:2000 | Studies |  |
| GHS:3720 | Contemporary Issues in Global <br> Health | 3 |
| GHS:4003 | Case Studies in Global Health <br> Inequities | 3 |

And one of these:

| GHS:3034 | Doing Harm by Doing Good: <br> The Ethics of Studying, <br> Volunteering, and Working in <br> Global Communities | 1 |
| :--- | :--- | :--- |
| GHS:3035 | Engaging in Global Health | 1 |

## Global Health Perspectives and Practices Courses

To provide an appreciation of the interdisciplinary nature of global health studies, students choose from a wide range of courses on topics that reflect the breadth of the field. Students must take a minimum of 18 s.h. of courses from the lists below to fulfill the global health perspectives and practices requirement, with at least 12 s.h. from courses numbered 3000 or above.

Courses taken to complete another area of the major cannot be used toward the global health perspectives and practices requirement.

## Core Electives

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| A minimum of 6 s.h. from these: |  |  |
| GHS:2164 | Culture and Healing: An <br> Introduction to Medical <br> Anthropology | 3 |
| GHS:2320 | Origins of Human Infectious <br> Disease | 3 |
| GHS:2415 | Bioethics <br> Technology to Improve Global | 3 |
| GHS:3037 | Health | 3 |
| GHS:3325 | Studies in Complementary and <br> GHS:3520 | Alternative Medicine <br> Global Epidemics |
| GHS:4150 | Latinx Oral Histories of Health <br> Care | 3 |
| GHS:4260 | Health and Environment: GIS <br> Applications | 3 |

## Additional Electives

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| A minimum of 12 s.h. from these: |  |  |
| GHS:1029 | First-Year Seminar |  |
| GHS:1181 | Ancient Medicine | 1 |
| GHS:1200 | Disabilities and Inclusion in <br> Writing and Film Around the <br> World | 3 |
| GHS:1290 | Native American Foods and <br> Foodways | 3 |
| GHS:2080 | The Cultural Politics of HIV- <br> AIDS <br> GHS:2090 | Medical Spanish in <br> Contemporary Society |
| GHS:2100 | Foundations of Health <br> Humanities | 3 |
| GHS:2110 | Eight Billion and Counting: <br> Introduction to Population <br> Dynamics | 4 |
| GHS:2160 | Culture, Health, and Wellness: <br> Southeast Asia in Focus | 3 |
| GHS:2181 | The Anthropology of Aging | 3 |

| GHS:2182 | Africa: Health and Society | 3 |
| :---: | :---: | :---: |
| GHS:2260 | Hard Cases in Healthcare at the Beginning of Life | 3 |
| GHS:2265 | Hard Cases in Healthcare at the End of Life | 3 |
| GHS:2650 | Global Reproduction | 3 |
| GHS:2674 | Food, Body, and Belief: A Global Perspective | 3 |
| GHS:2770 | Black and White Community Politics | 3 |
| GHS:3010 | Identifying and Developing a Global Health Project | 3 |
| GHS:3011 | Global Research: Strategies and Skills | 1 |
| GHS:3012 | Community-Based Global Health Research | 3 |
| GHS:3015 | Transnational Sexualities | 3 |
| GHS:3021 | Mental Health in the Ancient World | 3 |
| GHS:3034 | Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities | 1 |
| GHS:3035 | Engaging in Global Health | 1 |
| GHS:3036 | Ethics, Politics, and Global Health | 3 |
| GHS:3045 | Spanish Health Narratives | 3 |
| GHS:3050 | Global Aging | 3 |
| GHS:3070 | Hungry Planet: Global Geographies of Food | 3 |
| GHS:3105 | Contraception Across Time and Cultures | 3 |
| GHS:3110 | Colonialism and Indigenous Health Equity | 3 |
| GHS:3111 | Geography of Health | 3 |
| GHS:3113 | Religion and Healing | 3 |
| GHS:3120 | Global Maternal and Child Health | 3 |
| GHS:3150 | Media and Health | 3 |
| GHS:3151 | The Anthropology of the Beginnings and Ends of Life | 3 |
| GHS:3152 | Anthropology of Caregiving and Health | 3 |
| GHS:3162 | History of Global Health | 3 |
| GHS:3199 | Anthropology and Global Health Policy | 3 |
| GHS:3230 | Health Experience of Immigrants, Migrants, and Refugees | 3 |
| GHS:3300 | Envisioning Future Worlds: Sustainable Development and Its Alternatives | 3 |
| GHS:3327 | The Politics of Progress: NGOs, Development, and Sexuality | 3 |
| GHS:3420 | Health and Healing in Early Modern Europe | 3 |
| GHS:3500 | Global Public Health | 3 |
| GHS:3508 | Disease and Health in Latin American History | 3 |
| GHS:3555 | Understanding Health and Disease in Africa | 3 |

| GHS:3560 | Global Garbage and Global Health | 3 |
| :---: | :---: | :---: |
| GHS:3570 | Poverty Policy | 3 |
| GHS:3600 | Development in a Global Context I: Preparing for an Internship in Health, Gender, and Environment | 2 |
| GHS:3700 | Development in a Global Context II: Reflections on Real World Interventions | 1 |
| GHS:3720 | Contemporary Issues in Global Health ((topic must be different than the foundation course topic)) | 3 |
| GHS:3732 | Global Health Nursing | 3 |
| GHS:3760 | Hazards and Society | 3 |
| GHS:3780 | U.S. Energy Policy in Global Context | 3 |
| GHS:3850 | Promoting Health Globally | 3 |
| GHS:4000 | Global Health Studies Service Learning: Local Health is Global Health | 4 |
| GHS:4001 | Social Entrepreneurship and Global Health | 3 |
| GHS:4002 | Working in Global Health | 3 |
| GHS:4100 | Topics in Global Health | 1-3 |
| GHS:4140 | Feminist Activism and Global Health | 3 |
| GHS:4205 | Culture, Language, and Health | 3 |
| GHS:4530 | Global Road Safety | 3 |
| GHS:4770 | Environmental Justice | 3 |
| GHS:4990 | Independent Project in Global Health | r. |
| GHS:5000 | Graduate Seminar in Global Health | 2 |
| GHS:5455 | Health Insurance and Managed Care | 3 |
| GHS:6550 | Epidemiology of Infectious Diseases | 3 |
| ASP:1800/CSD:1800/ NURS:1800/ SSW:1800/TR:1800 | Aging Matters: Introduction to Gerontology | 3 |
| CPH:2200 | Climageddon: Understanding Climate Change and Associated Impacts on Health | 3 |
| CPH:2230 | Finding Patient Zero: The Exploration of Infectious Disease Transmission and Pandemic Threats | 3 |
| CPH:3400/ <br> GEOG:3210 | Health, Work, and the Environment | 3 |
| CPH:4200 | Agriculture, Food Systems, and Sustainability | 3 |
| ENGL:2560 | Topics in Culture and Identity ((when topic is stories about HIV/AIDS)) | 3 |
| HIST:1016 | The History That Made Our World ((when topic is related to global health; consult advisor)) | 3 |

OEH:4240
Community and Public Health Nursing Practicum ((B.S.N students only))
Global Environmental Health

## World Language and Culture Requirement

Students must choose option A or B below. The semester hours necessary to complete this requirement will vary.

## Option A

Students may complete a minimum of two world language courses beyond that required by the GE CLAS Core [p. 19]. This additional language requirement may be met either by completing at least two courses of fifth-semester-level study or higher in the same language used to fulfill the GE CLAS Core World Languages requirement or by completing two courses, or the equivalent, of a second world language at any level.

## Option B

Students may complete 6 s.h. related to one of the following area studies: African studies; Caribbean studies; East Asian studies; Islamic and Middle Eastern studies; Latin American studies; Russian, East European, and Eurasian studies; or South Asian studies. See the International Studies Course Database website for approved courses each semester.

## Capstone Experience

The capstone experience requirement provides an opportunity for students to apply the knowledge and skills they learned in the classroom.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: | Identifying and Developing a <br> Global Health Project | 3 |
| GHS:3010 | Community-Based Global <br> Health Research | 3 |

## Natural Sciences Courses

The natural sciences course requirement can be used to fulfill the GE CLAS Core [p. 19] requirement. Students should consult with their advisor concerning specific courses that satisfy these requirements.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| A minimum of one of the sequences, with at least one lab, from these: |  |  |
| Chemistry |  |  |
| CHEM:1110 \& CHEM:1120 | Principles of Chemistry I-II | 8 |
| Chemistry and Biology |  |  |
| CHEM:1070 \& BIOL:1141 | General Chemistry I - Human Biology: Health Professions | 7 |
| CHEM:1110 \& BIOL:1141 | Principles of Chemistry I - Human Biology: Health Professions | 8 |
| CHEM:1110 \& BIOL:1411 | Principles of Chemistry I Foundations of Biology | 8 |
| CHEM:1110 \& BIOL:1412 | Principles of Chemistry I Diversity of Form and Function | 8 |
| Chemistry and Physics |  |  |
| CHEM:1070 \& PHYS:1400 | General Chemistry I - Basic Physics | 7 |

2 CHEM:1110 \& Principles of Chemistry I - 8
PHYS:1511 College Physics I
Physics
PHYS:1511- College Physics I-II
8

## PHYS:1512

## Mathematics and Statistics Course

Students must complete at least one calculus or statistics course. In some cases, students also may need to complete a precalculus or statistics course, depending on their math placement.
The mathematics and statistics course requirement can be used to fulfill the GE CLAS Core [p. 19] requirement. Students should consult with their advisor concerning specific courses that satisfy these requirements.

| Course \# | Title | Hours |
| :--- | :--- | :---: |
| One of these: | Calculus and Matrix Algebra for |  |
| MATH:1380 | Business <br> Mathematics for the Biological <br> Sciences | 4 |
| MATH:1440 | Calculus for the Biological <br> Sciences | 4 |
| MATH:1460 | Engineering Mathematics I: <br> MATH:1550 | 4 |
| MATH:1850 | Calculus I |  |
| STAT:1020/ Elementary Statistics and <br> PSQF:1020 Inference | 4 |  |
| Any higher-level statistics course (consult advisor) | 4 |  |

## Honors

## Honors in the Major

Students majoring in global health studies have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in the major must satisfy these requirements:

- maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all work for the major;
- complete GHS:3010 Identifying and Developing a Global Health Project followed by GHS:4991 Honors Thesis in Global Health Studies as their capstone experience;
- enroll in GHS:4992 Global Health Studies Honors Cohort with the global health studies honors advisor during the semester in which GHS:4991 will be completed; and
- submit an acceptable honors thesis.

Students are also encouraged, but not required, to give an oral or poster presentation of research findings, participate in the Office of Undergraduate Research (OUR), and/or apply for research scholarships.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the global health studies major.

## Career Advancement

The Global Health Studies Program engages students and faculty in real-world health problems and challenges students to embark on global health careers which place a priority on improving health and achieving equity in health for people worldwide.

Graduates find opportunities in a range of global health job sectors such as:

- in-country field consulting;
- disaster relief organizations;
- immigrant/refugee health organizations;
- research and academic institutions;
- international agencies;
- other nongovernmental agencies (NGOs);
- lending agencies that do work in developing countries;
- multilateral agencies (such as the World Health Organization); and
- governmental agencies (United States Agency for International Development, Center for Disease Control, in-country ministries of health, etc.).

Global health studies graduates also have pursued graduate and professional programs in medicine, dentistry, pharmacy, nursing, public health, law, nonprofit management, urban and regional planning, sustainable agriculture, international development, and public administration.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least six courses in the major.
Before the seventh semester begins: at least 12 courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two additional courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Global Health Studies, Minor

## Learning Outcomes

The minor in global health studies equips students to:

- apply interdisciplinary perspectives drawn from the social sciences and humanities to local and global health issues;
- analyze health and disease from biomedical, sociocultural, and environmental perspectives
- understand how health issues affect domestic and international communities;
- recognize the ethical challenges involved in interventions designed to improve health and health equity across cultural and geographical boundaries.

## Requirements

The undergraduate minor in global health studies requires a minimum of 15 s.h., including $12 \mathrm{~s} . \mathrm{h}$. in courses completed at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor is interdisciplinary and designed for students who wish to study the complex factors influencing health and disease locally and around the world.

A maximum of 6 s.h. of coursework used to satisfy requirements for another major, minor, or certificate may be applied toward the minor. This includes second areas, concentrations, and cognates, with the exception of the BA in journalism and mass communication, for which no overlap is assessed. Students may earn either the minor or the certificate in global health studies, but not both. Undergraduates who earn the minor in global health studies may not earn the major in global health studies.
The minor in global health studies requires the following coursework.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| One of these: |  |  |
| GHS:2000 | Introduction to Global Health Studies | 3 |
| GHS:3850 | Promoting Health Globally | 3 |

| One of these: <br> Global Health Perspectives and Practices course(s) <br> if not taken as a requirement above; see BA or BS in <br> global health studies for approved list | 3 |  |
| Approved global health-themed study abroad <br> coursework (consult GHS advisor) | 3 |  |

# Global Health Studies, Graduate Certificate 

## Requirements

The graduate Certificate in Global Health Studies requires 18 s.h. of study. Students must earn at least 12 s.h. of credit for the certificate in courses numbered 3000 or above taken at the University of Iowa. Students must maintain a minimum grade-point average of 2.50 or higher in the 18 s.h. coursework required for the certificate.

The certificate is open to University of Iowa graduate and professional students, except for those in the College of Pharmacy who have earned the PharmD degree; they are awarded the undergraduate certificate. Other students are awarded the graduate certificate by the Graduate College. Students who wish to declare the global health studies certificate must contact the global health studies academic advisor. Global health studies staff will see to it that the certificate is added to a student's program of study.

Work for the certificate includes required courses, electives, a global health project that culminates in a public presentation and written report, and the study of a world language. A maximum of 4 s.h. in GHS:4990 Independent Project in Global Health may be used toward the certificate. Students may choose courses offered by the Global Health Studies Program (prefix GHS) or associated courses offered by other departments and programs (see "Associated Courses" under Courses [p. 562] in this section of the catalog).

Graduate and professional students who would like to count credit from a degree program toward the global health studies certificate should consult their graduate/professional academic programs.

The certificate program is interdisciplinary, and requires students to complete a global health project (either in an international setting or in a domestic setting that focuses on global connections) during which they address an important global health issue in a systematic way.
Students then present their results and report on the completed project. The program helps prepare students for careers in global health.
The Certificate in Global Health Studies requires the following work.

GHS:3034

GHS:3035

## Electives

Students complete 4 s.h. of approved electives chosen from the course lists under Courses [p. 562] in the Global Health Studies section of the catalog. They may petition to use other courses as electives if they can demonstrate that the courses include substantial material related to global health. Contact the Global Health Studies Program for details.

## Global Health Project

Students must complete a global health project during which they systematically address an important global health issue. The project can be completed either in an international setting or in a domestic setting that focuses on global connections. Eight weeks is considered the optimal amount of time to meet this requirement. The project may be completed as part of a study abroad program, a service learning course, an internship, a volunteer experience, or an independent research project.

Projects require approval by the Global Health Studies Program faculty director and must be supervised by an approved UI faculty mentor. Students may apply for a Stanley Award; other financial support may be available for some projects. Visit Global Health Project on the program's website for more information.

## Language Study

Students must either complete the GE CLAS Core [p. 19] World Languages requirement or demonstrate fourth-semester-level language proficiency.
The Global Health Studies Program steering committee may advise students to take additional language study in preparation for a research or internship program. Students interested in learning an infrequently taught language to facilitate their participation in a global health project can contact the Center for Language and Culture Learning in the Division of World Languages, Literatures and Cultures.

## Public Presentation and Report

Certificate requirements culminate in a public presentation and report. Students present the results of their global health project in GHS:3010 Identifying and Developing a Global Health Project or in an equivalent public forum. Students also must submit a 10-12 page report that summarizes their global health project. Students enroll in GHS:4990 Independent Project in Global Health for 1 s.h. during the semester in which they are completing their report and presentation.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Health and Human Physiology

## Chair

- Gary L. Pierce

Undergraduate majors: health studies (BA); exercise science (BS); health promotion (BS); human physiology (BS); sport and recreation management (BS); therapeutic recreation (BS)

Undergraduate minors: human physiology; inclusive recreation; lifestyle medicine; sport and recreation management

Undergraduate certificate: interscholastic athletic/activities administration

Graduate degrees: MA in sport and recreation management; MS in health and human physiology; PhD in health and human physiology

Faculty: https://clas.uiowa.edu/hhp/people/faculty
Website: https://clas.uiowa.edu/hhp/
The Department of Health and Human Physiology offers undergraduate majors, minors, a certificate, and graduate degree programs in health and human physiology and in sport and recreation management. The department administers the Certificate in Disability Studies and collaborates with other departments to offer the Certificate in Event Management, as well as offering coaching authorization courses. In addition, the department is home to the Health and Physical Activity Skills Program (HPAS), which offers courses that provide instruction and practice in lifetime sports, fitness training, and wellness activities aimed at enhancing physical health and well-being.

Undergraduates in all majors may use several health and human physiology courses to fulfill requirements of the College of Liberal Arts and Sciences GE CLAS Core [p. 19]. The department's FirstYear Seminar is designed for entering undergraduate students.

## Certificates

## Disability Studies

The Department of Health and Human Physiology administers the undergraduate certificate program in disability studies. Disability studies examines disability as a social, cultural, historical, and political phenomenon rather than focusing on its clinical, medical, or therapeutic aspects. It is an interdisciplinary field that draws on scholarship from diverse disciplines. The certificate program helps students expand their knowledge and awareness of disability issues and prepare for careers in public life. See the Certificate in Disability Studies [p. 362] in the catalog.

## Event Management

The departments of Health and Human Physiology and Communication Studies, the School of Journalism and Mass Communication (College of Liberal Arts and Sciences), and the Department of Marketing (Tippie College of Business), collaborate to offer the undergraduate Certificate in Event Management. Students who earn the certificate will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry. For information, see the Certificate in Event Management [p. 470] in the catalog.

## Programs

## Undergraduate Programs of Study Majors

- Major in Health Studies (Bachelor of Arts) [p. 593]
- Major in Exercise Science (Bachelor of Science) [p. 596]
- Major in Health Promotion (Bachelor of Science) [p. 599]
- Major in Human Physiology (Bachelor of Science) [p. 602]
- Major in Sport and Recreation Management (Bachelor of Science) [p. 606]
- Major in Therapeutic Recreation (Bachelor of Science) [p. 613]

## Minors

- Minor in Human Physiology [p. 618]
- Minor in Inclusive Recreation [p. 619]
- Minor in Lifestyle Medicine [p. 620]
- Minor in Sport and Recreation Management [p. 621]

## Certificate

- Certificate in Interscholastic Athletic/Activities Administration [p. 622]

## Graduate Programs of Study

## Majors

- Master of Arts in Sport and Recreation Management [p. 624]
- Master of Science in Health and Human Physiology [p. 626]
- Doctor of Philosophy in Health and Human Physiology [p. 631]

## Facilities

Classroom and research laboratories are located in the Field House and in other buildings on campus. They provide excellent facilities for instruction and research at both the undergraduate and graduate levels.

Cooperative efforts with other units facilitate specialization by allowing Department of Health and Human Physiology students to use additional special facilities and research equipment in other departments on campus (e.g., biology, biochemistry and molecular biology, molecular physiology and biophysics, orthopedic surgery, internal medicine, pharmacology, and the College of Engineering).

## Courses

- Health and Human Physiology Courses [p. 581]
- Sport and Recreation Management Courses [p. 586]
- Therapeutic Recreation Courses [p. 589]
- Health and Physical Activity Skills Courses [p. 590]

## Health and Human Physiology Courses

HHP:1000 First-Year Seminar
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

## HHP:1045 Diversity and Inclusion in Healthy Living

Personal health strategies; information and empowerment; application-based work, including creating a family health pedigree or individual health portfolio; discussion of current health ethics topics; subjects may include nutrition, sleep, stress, physical fitness, relationships, injury prevention, prenatal health, vaccination, cancer, infectious diseases, global health, and more. GE: Diversity and Inclusion.

## HHP:1050 Exploring Health and Human Physiology

1 s.h.
Introduction to different ways of thinking within the fields of physiology, health, exercise, and medicine; exploration of quantitative reasoning, evidence-based reasoning, the scientific method, analytical reasoning and data literacy, ethical reasoning, importance of diversity and inclusion, and creative applications.
HHP:1100 Human Anatomy 3 s.h.
General human anatomy covering most systems of the body. GE: Natural Sciences without Lab.

HHP:1110 Human Anatomy Laboratory
1 s.h.
All major systems of the human body, understood through computergenerated images, models, histological slides, anatomical specimens. Corequisites: HHP: 1100 or HHP:3105 or HHP:1400, if not taken as a prerequisite. GE: Natural Sciences Lab only.
HHP:1200 First Aid/CPR Athletic Training
2 s.h.
First Aid and CPR with automated external defibrillator (AED); opportunity for certification in basic life support through the American Heart Association; satisfies the first aid and CPR requirement for the athletic training program application; for declared athletic training interest majors. Requirements: completion of or current enrollment in AT:1010.

## HHP:1300 Fundamentals of Human Physiology <br> 3 s.h.

Introduction to function and regulation of the human body.
Recommendations: high school chemistry and basic biology. GE: Natural Sciences without Lab.

HHP:1310 Human Physiology Laboratory 1 s.h.
Laboratory course illustrating principles of physiological principles through experimental measurements, practical assessments, and computer-based illustrations of human function. Recommendations: one semester of biology.

## HHP:1400 Human Anatomy and Physiology

3 s.h.
General human anatomy and physiology covering most systems of the body. GE: Natural Sciences without Lab.
HHP:2020 Developing Your Professional Brand 2 s.h.
Development and preparation for professional growth; focus on image as a brand; how to manage brand on social media, LinkedIn, and professional documentation; expansion of brand; preparation for experiential learning and job searching. Corequisites: HHP:2200.

## HHP:2130 Human Development Through the Life Span

Overview of human developmental theories across the lifespan; aspects of cognitive, physical, and personality development from birth to death; the role of culture, environment, health, and economic factors over the developmental process and life continuum.

## HHP:2148 Personal Training <br> 3 s.h.

Essential aspects of personal training including theory and applied practice of screening, assessment, exercise prescription, and technique for development of safe and effective training programs for clients. Prerequisites: HHP:1300 and HHP:2200.
HHP:2200 Physical Activity and Health 3 s.h.
Physical activity determinants in society; school, workplace, community-based health promotion interventions to improve activity levels. GE: Values and Culture.

3 s.h. HHP:2280 Cultural Competency and Health 3 s.h.
Examination of the importance of ethnic and cultural factors for community health practice; essential theories, models, and practices for working with race, ethnicity, gender, and social issues; topics may include demographics, disparities, complementary and alternative medicine, spiritually grounded approaches, multicultural populations, communication, workforce, aging, sexual orientation, and future challenges. GE: Diversity and Inclusion.

HHP:2310 Nutrition and Health
Physiology, biochemistry of human nutrition; appropriate food sources; qualitative and quantitative evaluation of diets using standard references. GE: Natural Sciences without Lab.

HHP:2350 Biomechanics of Sport and Physical Activity 3 s.h.
Principles of biomechanics, kinesiology, and anatomy; quantitative aspects of sport and physical activity; emphasis on developing a qualitative grasp on mechanical principles of human movement within sports and physical activity; how to apply these principles in a sport/ exercise environment. Prerequisites: HHP:1100.
HHP:3030 Lifestyle Medicine
3 s.h.
Overview of influences of lifestyle medicine on chronic disease treatment and prevention; understanding evidence-based lifestyle medicine factors on holistic well-being; development of communication skills to support behavioral and lifestyle medicine changes for treatment and prevention of chronic conditions. Prerequisites: HHP:2200 and HHP:2310.
HHP:3045 Physical Activity Psychology 3 s.h.
People's thoughts, feelings, and behaviors in physical activity contexts; psychological theory and research related to benefits and determinants of physical activity, models for involvement in physical activity, and theories of change; focus on cognitive and social psychological perspectives. Prerequisites: HHP:2200.
HHP:3050 Obesity 3 s.h.
In-depth overview of biological, behavioral, and societal causes and consequences of obesity epidemic; potential solutions from primary and secondary prevention standpoints; causes of obesity, available treatments, and global impact that obesity epidemic presents to society. Prerequisites: HHP:2200 and HHP:2310.

## HHP:3105 Anatomy for Human Physiology

3 s.h.
All major systems of the body are covered with focus on the normal structure of the human body; appropriate for preprofessional students planning on careers in the various health professions.

## HHP:3110 Advanced Anatomy Laboratory 2 s.h.

 Detailed gross anatomy of all major systems of the body; structure of the human body at organ, tissue, and cellular levels; examination of various human and other mammalian specimens.
## HHP:3115 Anatomy for Human Physiology with Lab <br> 5 s.h.

Covers all major systems of the body in a combined lecture and laboratory anatomy course; focus on normal structure of the human body; laboratory includes gross anatomy of some human structures and dissection of other mammalian specimen; appropriate for preprofessional students planning on careers in various health professions. Prerequisites: BIOL:1411.
HHP:3150 Program Design in Strength and Conditioning 3 s.h. Examination of elements of program design for developing muscular fitness and skill related to fitness; applies to programming for individuals with whom a major goal of their physical activity program is to maximize human performance potential; these goals can either be for personal fitness, success in specific sports, or for applications in occupational athletes.
HHP:3200 Health Behavior and Health Promotion 3 s.h.
Principles of epidemiology and health behavior theories applied to multilevel frameworks for health promotion. Prerequisites: HHP:2200 and HHP:2310.

HHP:3230 Psychopharmacology
3 s.h.
How drugs act to influence behavior; general principles of drug action on the nervous system; licit and illicit drugs, use/abuse, historical perspective on drug use. Prerequisites: PSY:2811 with a minimum grade of C- or (HHP: 1300 with a minimum grade of C- or HHP:1350 with a minimum grade of C- or HHP: 3500 with a minimum grade of C- or HHP:3550 with a minimum grade of C-). Same as PSY:3230.
HHP:3300 Human Growth and Motor Development
Human growth and biological maturation; focus on motor development from birth through puberty. Recommendations: prior course in anatomy, human physiology, or biology.
HHP:3400 Applied Exercise Physiology 3 s.h.
Effects of acute exercise and chronic exercise training on different physiological systems (energy, neuromuscular, circulatory, respiratory, endocrine); overview of physiological principles necessary for more advanced study of fitness evaluation and exercise prescription; preparation for ACSM certification. Prerequisites: HHP:1300 or HHP:3500.
HHP:3420 Practicum in Health Education and Outreach 3 s.h. Coursework and experiential learning with the Office of Student Wellness; practical experience in planning, implementing, and evaluating health programs; students spend at least 20 hours assisting with health outreach events, programs, and opportunities which may include staffing a table, assisting with group fitness assessments, or participating in health promotion-related opportunities; students also work on a team health project and plan their own health event; reflection on how health issues apply to students personally and to their communities; foundation of theories/models that guide health behavior change in college setting; papers, projects, outreach events, presentations. Prerequisites: HHP:2310 and HHP:2200.
HHP:3430 Health Management and Administration 3 s.h. Introduction to management, administration, and leadership principles as they relate to health promotion programs. Prerequisites: HHP:2200 and HHP:2310 and HHP:1100 and HHP:1300.

## HHP:3450 Immunology in Health and Disease

Overview of immunology, beginning at the molecular level and ending with the role of the immune system in disease; fundamental concepts of the immune system; innate and adaptive immunity, focusing on cell-mediated and humoral immune responses, in addition to effector mechanisms in both of these responses; concepts of immunologic tolerance; autoimmune disease; immunodeficiency syndromes; the inflammatory process in disease. Prerequisites: HHP:3500 or HHP:3550.

## HHP:3500 Human Physiology

3 s.h.
Organ system approach to physiology in order to understand normal function of the human body from the submolecular and cellular levels to the whole organism; emphasis on the development of a mechanistic understanding of organ system function and integrated physiological function across systems to promote homeostatic regulation in the human body. Prerequisites: (HHP:1300 or BIOL:1141 or BIOL:1140 or BIOL:1411) and (CHEM:1070 or CHEM:1110).

## HHP:3550 Human Physiology with Laboratory

Mechanistic approach to understand organ system function and integrated function across systems as the basis for homeostatic regulation within the human body; experiential laboratory activities that incorporate fundamental measurements of human function and analysis, interpretation, and presentation of experimental findings. Prerequisites: (HHP:1300 or BIOL:1141 or BIOL:1140 or BIOL:1411) and (CHEM:1070 or CHEM:1110). Recommendations: HHP:1050, one semester of human anatomy, and one semester of statistics or biostatistics.

HHP:3555 Lab for Human Physiology
Experiential laboratory activities that incorporate fundamental measurements of human function and analysis, interpretation, and presentation of experimental findings. Prerequisites: HHP:3500. Recommendations: one semester of statistics or biostatistics.

## HHP:3700 Health Care Communications 1 s.h.

Health care provider communication with patients and other health care workers; students communicate with digital patient(s) within a software platform to establish a patient history and relevant documentation.

## HHP:3820 Community Wellness Guided Practicum

 arr. Application of theory into practice to support skill development; students work with local worksites to deliver a wellness program, conduct a well-being assessment, develop and implement a behavior change intervention, deliver education, and evaluate outcomes in a professional context; utilization of skills in marketing, design, presentation, and cultivating connections. Prerequisites: HHP:2200 and HHP:2310 and HHP:1100 and HHP:1300.HHP:3850 Promoting Health Globally 3 s.h.
Major global health threats in the United States and abroad; impact of culture, history, economics on health disparities; approaches, programs, policies to remedy them. Same as GHS:3850.
HHP:3900 Writing for Health and Human Physiology
3 s.h.
Effective written communication specific to health sciences; planning, drafting, revising, and peer-editing materials (e.g., personal statements, professional communications, general articles of interest, scientific papers); practicum experience.

HHP:3930 Practicum in Health and Human Physiology 1-3 s.h. Practicum experience that consists of shadowing and practicing field specific skills under close supervision of a professional at the organization, subject matter expert, or faculty member in the areas of research, fitness, strength and conditioning, nutrition, clinical rehabilitation, health promotion, health education, community outreach, medical training, or other health-related area; students receive regular feedback, overall performance evaluations, and meet learning objectives for practicum experience that align with professional competencies and/or academic preparation.
HHP:3994 Undergraduate Research 1-3 s.h. Independent laboratory research in health, human physiology, or related science fields.

## HHP:4010 Behavioral and Clinical Health Assessment

 Laboratory4 s.h.
Expected assessment skill set for health promotion professionals, including ability to assess and interpret blood pressure, lung function, blood lipids, and heart rate; health behavior measurement issues including how to use objective monitors, self report, interview, and web-based trackers to assess diet, physical activity, and sleep; general measurement and research concepts will be introduced and students will have laboratory practice in sphygmomanometry, spirometry, anthropometry, accelerometry, sleep tracking, computerized dietary assessments, and graded exercise testing. Prerequisites: HHP:2200 and 5 s.h. HHP:2310 and HHP:1100 and HHP:1300.

HHP:4020 Health Coaching 3 s.h.
Health coaches use coaching skills to help patients better manage a variety of chronic medical conditions (e.g., metabolic syndrome, diabetes, chronic pain); exploration of the science of health coaching, including evidence-based strategies and approaches to facilitate behavior change; students explore multiple modalities of coaching and build skills in motivational interviewing, goal setting, and active listening; knowledge and skills needed to perform tasks required of a competent coach. Prerequisites: HHP:2200 and HHP:2310.

## HHP:4030 Social Determinants of Health

How health is determined by access to social and economic opportunities (e.g., quality of our schools, safety of neighborhoods, and quality of our social interactions); policy, environmental, and social factors that influence health; how collaboration among federal, state, and local-level partners can improve health; goals and objectives of Healthy People 2020 (U.S. Federal Health Promotion Planning Guide) will be used to frame course material. Prerequisites: HHP:2200 and HHP:2310.

## HHP:4040 Health Services

3 s.h.
Barriers to quality health care access (e.g., lack of availability, high costs, lack of insurance coverage, health disparities); consequences of such barriers (e.g., unmet health needs, delays in care, lack of preventive services, preventable hospitalization); innovative solutions for improving access and quality of care (e.g., technologies and innovations, improving access to preventive health services, reducing costs); novel ways to improve access and quality of today's health care system. Prerequisites: HHP:2200 and HHP:2310.

## HHP:4110 Advanced Human Anatomy Laboratory 4 s.h.

Regional dissection of the human body. Prerequisites: HHP:3110 or HHP:3115.

## HHP:4130 Skeletal Muscle Physiology

Skeletal muscle structure, contractile mechanisms, production of movement, biomechanical properties; adaptation to increased use, disuse, injury. Prerequisites: HHP:3500 or HHP:3550.

## HHP:4150 Clinical Exercise Physiology 3 s.h.

Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3500 or HHP:3550 or HHP:3400. Recommendations: HHP:4460.
HHP:4190 Scientific Basis of Training for Elite Performance $\mathbf{3}$ s.h. Application of scientific principles to goal of improving strength, speed, endurance, and overall human function; general overview of structure and function of muscular, nervous, cardiovascular, and respiratory systems; bioenergetics of exercise; endocrine response to exercise; biomechanics of resistance exercise; adaptations to anaerobic and aerobic training programs; age and sex related considerations on training; nutrition and ergogenic aids. Prerequisites: HHP:3500 or HHP:1300.
HHP:4200 Metabolic Exercise Testing and Prescription Basic techniques in physical fitness assessment, prescription of exercise for healthy and unhealthy adults, promotion of physical activity within communities; provides knowledge and skill competencies required for certification as American College of Sports Medicine health fitness instructor. Prerequisites: HHP:2200 and (HHP:3400 or HHP:3500 or HHP:3550). Requirements: health promotion, exercise science, or human physiology major.

## HHP:4210 Musculoskeletal Exercise Testing and

 Prescription4 s.h.
Educational and practical experience for designing resistance training and flexibility programs; competencies for certification with National Strength and Conditioning Association. Prerequisites: HHP:2200 and (HHP:3400 or HHP:3500 or HHP:3550). Requirements: health promotion, exercise science, or human physiology major.

3 s.h. HHP:4220 Biomechanics of Human Motion 3 s.h.
Application of the principles of mechanics to investigation of human motion in two dimensions; system modeling, force system and equilibrium analysis, particle and rigid body kinematics, Newton's and Euler's equations of motion, work-energy and impulse-momentum integral principles. Prerequisites: (HHP:1100 or HHP:3105 or HHP:3115) and (PHYS:1400 or PHYS:1511 or PHYS:1611 or HHP:2350).

HHP:4230 Motor Learning: Theory and Application 3 s.h. How skilled motor behavior is acquired; behavioral changes that occur during skill acquisition; structural and physiological changes that occur in central nervous system; principles of training and practice that yield efficient and effective motor learning; how this information is helpful to health professionals involved in motor rehabilitation, physical educators and coaches, music instructors and musicians, strength and conditioning professionals, fitness professionals, and athletes, among others. Prerequisites: HHP:1300. Recommendations: familiarity with basic neuroscience (neurons, synaptic transmission, basic anatomical organization of sensory and motor systems).
HHP:4250 Human Pathophysiology
3 s.h.
In-depth study of human pathological processes and their effects on homeostasis; etiology, symptoms, and risk factors of various diseases; emphasis on major diseases impacting worldwide disability and death; how pathological processes are manifested and progress in the body. Prerequisites: HHP:3500 or HHP:3550 or HHP:1300.
HHP:4260 Respiratory Pathophysiology
3 s.h.
Structure and function of human respiratory system; focus on didactic and case study-based learning; control of breathing, gas exchange, lung mechanics, regulation of pulmonary blood flow, respiratory responses to stress; application of these physiological concepts to case studies of human disease. Prerequisites: HHP:1300 or HHP:3500 or HHP:3550. Recommendations: PHYS:1511, and MATH:1460 or MATH:1850.

## HHP:4300 Sensorimotor Neurophysiology

3 s.h.
Neuroanatomical and neurophysiological bases of human motor control; role of sensory and motor structures in control of posture, locomotion, and upper limb movements. Prerequisites: HHP:3500 or HHP:3550. Requirements: anatomy or human physiology course.

## HHP:4310 Sport and Exercise Nutrition

3 s.h.
Relationship between nutrition, fitness and sport performance; basic nutrition, physiology, chemistry, psychology, food preparation. Prerequisites: HHP:2200 and HHP:2310.

## HHP:4320 Nutrition Interventions

3 s.h.
Strategies that assist in assessment and evaluation of nutrition behaviors of individuals and groups; interventions to meet nutritional needs of individuals and groups with a variety of health issues. Prerequisites: HHP:2200 and HHP:2310.
HHP:4330 Physical Activity and Dietary Behavior Change 1,3 s.h. Major determinants (barriers and facilitators) of physical activity and dietary behaviors; evidence-based behavior change techniques; application of behavior change techniques to improve physical activity and dietary behaviors at individual and organizational levels. Prerequisites: HHP:3050.
HHP:4350 Health and Human Physiology Practicum 1-3 s.h. Experience in planning and implementing programs in the areas of fitness, strength and conditioning, nutrition, clinical rehabilitation, or health promotion. Prerequisites: HHP:1100 and HHP:2200 and HHP:2310 and (HHP:1300 or HHP:3500).

## HHP:4365 Internship in Health Coaching

Opportunity to develop and practice health coaching skills with community outreach programs, may include community health collaborative clinical health coaching, community behavioral health programs, and research studies engaging health coaches in intervention; students complete up to 45 hours of coaching in addition to project management, training, and internship development requiring a high level of professionalism. Prerequisites: HHP:4020.

## HHP:4390 Understanding Human Disease 3 s.h.

Introduction to process of human disease at cell, organ, and whole body level throughout the lifespan; pathophysiological changes occurring with disease, including risk factors, disease development, and overall effects of disease on the body; cancer, diabetes, obesity, cardiovascular, neurodegenerative diseases, and aging. Prerequisites: HHP:1300 or HHP:1400. Recommendations: junior or senior standing.
HHP:4400 Health Promotion Clinical Practicum 1 s.h.
Experience in planning and implementing clinical health promotion programs focusing on nutrition, physical fitness, cardiac rehabilitation, and respiratory rehabilitation. Prerequisites: HHP:3200 and (HHP:4200 or HHP:4010).

## HHP:4405 Health Promotion Community and Worksite

 Practicum1 s.h.
Planning and implementing community and worksite health promotion programs. Prerequisites: HHP:3200 and (HHP:4200 or HHP:4010).

## HHP:4410 Integrative Physiology of Exercise

Evaluation of mechanisms underlying organ system responses and adaptations elicited by acute and chronic exercise, highlighting integrative nature of human physiological function, research methods, and classic and contemporary research findings in physiology of exercise. Prerequisites: HHP:3400 or HHP:3500 or HHP:3550.
HHP:4420 Planning and Evaluating Health Interventions 3 s.h. Assessment, planning, implementation, and evaluation of health promotion programs. Prerequisites: HHP:3200.

## HHP:4440 Physiology of Nutrition

Metabolic and biological aspects of human energy production, relationship to energy consumption; systems or integrative approach. Prerequisites: HHP:1300 or HHP:3500 or HHP:3550.

HHP:4450 Human Genetics and Disease 3-4 s.h.
Fundamental concepts of human genetics including genome
organization, expression of genes, and pedigree analysis; emphasis on role of genetics in human health and disease. Prerequisites: HHP:3500 or HHP:3550 or HHP: 1300 .

## HHP:4460 Cardiovascular Physiology

3 s.h.
Structure and function of cardiovascular system; heart, microcirculation, hemodynamics, regional circulation, reflex integration, regulation during physical stress. Prerequisites: HHP:3500 or HHP:3550. Recommendations: calculus and physics.

## HHP:4465 Environmental Exercise Physiology 3 s.h.

Study of physiological responses of the human organism to various forms of environmental stress at rest and during exercise; how physical performance is affected by environmental stressors such as heat, cold, altitude, microgravity, and hyperbaria. Prerequisites: HHP:3400 or HHP:3500 or HHP:3550.
HHP:4470 Physiology of Aging 3 s.h.
Aging's effects on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age\#related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:3500 or HHP:3550. Same as ASP:4470.
HHP:4490 International Medicine: Experiential Learning 3 s.h. Experiential learning in select health care settings outside of the United States; for pre-health professional students.

Library or laboratory research related to a specific topic in human physiology, normally culminating with a written manuscript; work directed by a faculty member.

## HHP:4510 Energetics in Health and Disease

 3 s.h.Comprehensive and molecular driven approach to: impairments in energy metabolism leading to obesity; type 2 diabetes and associated chronic diseases (e.g., cardiovascular diseases, cancer); and mechanisms by which exercise and calorie restriction regimens may prevent and/or reverse those impairments in skeletal muscle, adipose tissue, liver, and heart. Prerequisites: HHP:3500 or HHP:3550. Recommendations: HHP:4410 and BIOL:2723.

HHP:4700 Health and Human Physiology Teaching Internship

2-3 s.h.
Opportunity to serve as an undergraduate learning assistant in selected health and human physiology courses; learning assistants are generally expected to attend class or lab sessions for a specific course, engage with students in an intentional manner that supports their learning, and serve as a positive role model for their undergraduate peers; learning assistants receive training for development of interpersonal skills and facilitating collaborative learning environments, along with contentspecific mentoring provided by course supervisor.

## HHP:4800 Research Methods and Ethics

3 s.h.
Introduction to concepts, principles, and methods of research; topics include research design, data collection, data analysis, and reporting research; students identify and formulate research questions, design appropriate research, collect data using different methods, conduct data analysis, present research findings, and critically critique research literature; main ethical issues and professional conduct in scientific research. Requirements: honors standing.

## HHP:4900 Honors Research <br> 3 s.h.

Completion of honors research begun in HHP:4800; analysis of data, writing and oral presentation of honors thesis, work with an active research tenure-track faculty member in a laboratory; second of a twosemester sequence. Prerequisites: HHP:4800 with a minimum grade of B. Requirements: honors standing.

HHP:4930 Health and Human Physiology Internship
arr.
Experience in planning and implementing programs in areas of research, fitness, strength and conditioning, nutrition, clinical rehabilitation, health promotion, health education, community outreach, or medical training; students explore, experience, prepare, network, and build skills for academic or professional development.

## HHP:5200 Physical Activity Epidemiology

Overview of epidemiological evidence on how physical activity, sedentary behavior, and sleep affect health outcomes including cardiovascular disease, diabetes, cancer, and obesity; emphasis on research design, interpretation of studies, selection of appropriate measurement tools, and translating scientific findings to recommendations/policies for health promotion and disease prevention.
HHP:5300 Advanced Human Physiology 3 s.h.
Provides an advanced study of human physiology for students entering health related fields; mechanisms of body function will be presented at various levels ranging from cellular and molecular, to tissue and organ system levels, with emphasis on integration of the various systems. Offered spring semesters. Prerequisites: HHP:1100 and HHP:3500.
HHP:5935 Clinical Exercise Physiology Internship
1-6 s.h.
Directed practical field experience; program planning, implementation, evaluation, and administrative procedures.
HHP:6000 Research
arr.
HHP:6010 Nonthesis Seminar 2 s.h.
For candidates for the MS without thesis. Offered spring semesters.

## HHP:6020 Advanced Research Methods and Ethics 1-3 s.h

Introduction to concepts, principles, and methods of research; topics include research design, data collection, data analysis, and reporting research; students identify and formulate research questions, design appropriate research, collect data using different methods, conduct data analysis, present research findings, and critically critique research literature; main ethical issues and professional conduct in scientific research. Recommendations: concurrent enrollment in BIOS:5120 or STAT:6513.
HHP:6030 Physical Activity and Dietary Behavior Change 3 s.h. Major determinants (barriers and facilitators) of physical activity and dietary behaviors; evidence-based behavior change techniques; application of behavior change techniques to improve physical activity and dietary behaviors at the individual and organizational levels.
HHP:6100 Health and Human Physiology Seminar 0 s.h. Biweekly forum for research presentations by health and human physiology faculty and graduate students, and by invited guest speakers; attended by health and human physiology faculty and students, and by faculty and guests from other departments and programs on campus.
HHP:6130 Advanced Skeletal Muscle Physiology 1,3 s.h.
Skeletal muscle structure, contractile mechanisms, production of movement, biomechanical properties; adaptation to increased use, disuse, injury. Prerequisites: HHP:3500.
HHP:6150 Advanced Clinical Exercise Physiology 1,3 s.h.
Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3500. Recommendations: HHP:4460.

## HHP:6200 Advanced Metabolic Exercise Testing and

 PrescriptionBasic techniques in physical fitness assessment; prescription of exercise for healthy and unhealthy adults; promotion of physical activity within communities; knowledge and skill competencies required for certification as American College of Sports Medicine health fitness instructor. Prerequisites: HHP:2200 and (HHP:1300 or HHP:3500).

HHP:6260 Advanced Respiratory Pathophysiology 1,3 s.h.
Complements HHP:4260; structure and function of human respiratory system; focus on didactic and case study based learning; control of breathing, gas exchange, lung mechanics, regulation of pulmonary blood flow, and respiratory responses to stress; application of these physiological concepts to case studies of human disease. Prerequisites: HHP:3500. Corequisites: HHP:4260.

## HHP:6300 Motor Control Seminar <br> 1 s.h.

Current topics in neural control of movement, biomechanics, and rehabilitation sciences.
HHP:6310 Advanced Sport and Exercise Nutrition 3 s.h. Relationship between nutrition and dietetics and sport and exercise performance; application of nutrition, dietetics, physiology, chemistry, psychology, and food preparation to sport and exercise training and performance. Requirements: MCN graduate standing.
HHP:6400 Integrative Physiology Seminar 1 s.h.
Current topics in cardiovascular physiology, vascular biology, free radical biology.
HHP:6410 Advanced Integrative Physiology of Exercise 1,3 s.h.
Evaluation of mechanisms underlying organ system responses and adaptations elicited by acute and chronic exercise; integrative nature of human physiological function, research methods, and classic and contemporary research findings in physiology of exercise.

HHP:6460 Advanced Cardiovascular Physiology
1,3 s.h.
Structure and function of cardiovascular system; heart, microcirculation, hemodynamics, regional circulation, reflex integration, and regulation during physical stress. Prerequisites: HHP:3500. Recommendations: calculus and physics.
HHP:6470 Advanced Physiology of Aging 1,3 s.h.
Effects of aging on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age\#related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:1100 and HHP:3500.
HHP:6480 Advanced Human Pharmacology 1,3 s.h.
General pharmacology (administration, distribution, elimination of drugs, dose response curves, adverse effects, placebos, homeopathy); pharmacotherapy of selected human diseases, pathophysiologic aspects of disease, how different classes of drugs modify pathophysiologic effects to restore health or reduce impact of disease; focus on mechanisms of drug actions in humans; adverse effects, pharmacokinetic considerations, drug interactions; how to write prescriptions. Prerequisites: HHP:3500.
HHP:6500 Seminar in Health Promotion 1 s.h.
Peer and faculty response to graduate student work addressing health promotion, physical activity and health outcomes, clinical exercise physiology; review and critique current literature; presentation of published work or in-process projects; critical thinking, scientific writing, and oral communication skill development pertaining to health promotion.
HHP:6510 Advanced Energetics in Health and Disease 1,3 s.h.
Discussions of recent published, and/or seminal, state-of-the-art papers on energy metabolism related to exercise and diet interventions in context of obesity, diabetes, cardiovascular diseases, and cancer. Prerequisites: HHP:3500. Recommendations: HHP:4410 and BIOL:2723.

## HHP:7000 Practicum in College Teaching

arr.
HHP:7300 Advanced Sensorimotor Neurophysiology 1,3 s.h. Neuroanatomical and neurophysiological bases of human motor control; mechanisms for locomotion and posture, control of arm and hand movements, role of sensory information. Prerequisites: HHP:3500 or HHP:3550. Requirements: anatomy or human physiology course.
HHP:7500 Thesis: MS
0-4 s.h.
HHP:7900 Thesis: PhD
arr.

## Sport and Recreation Management Courses

SRM:1000 First-Year Seminar
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).

## SRM: 1046 Health for Happiness

3 s.h.
Recent research has discovered fundamental elements and mechanisms of human happiness and well-being; students review these discoveries in the fields of positive psychology, positive neurobiology, system theory, economics of happiness, and history; practical learning experiences that apply these findings to everyday student life; hands-on ways to improve both subjective well-being and individual character strengths and virtues.

## SRM:1060 Contemporary Issues in Sports

Learn fundamental concepts and definitions to provide a base understanding of the business and socio-economic models that determine behavior in sport and recreation management practice. Examples will vary from spectator-driven sport at its most commercial to participant-driven activities with varying levels of formal organization. Evaluation is based on two exams, a group and an individual presentation in a smaller group, three writing exercises, and multiple quizzes.

## SRM:1070 Recreation and Parks in the United States:

 Foundations and Impact3 s.h.
United States parks have been referred to as "America's Best Idea" and represent ideals of exploration and challenge; park and recreational offerings have become a valued staple of American life, focused on opportunity for diverse communities with economic, social, and quality of life implications; introduction to cultural differences in values and expectations related to recreation and park experiences in the U.S.; students scrutinize the roots and contexts of their own recreation choices and attitudes, and gain insight into the power of these preferences on individual development and shaping of perspectives. GE: Values and Culture.

## SRM:1072 Leisure and the Liberal Arts <br> 3 s.h.

Integration of the ideal of a liberal education with worthy, meaningful use of free time in contemporary society; classic writings in the humanities. GE: Values and Culture.

## SRM:1085 Introduction to Travel and Tourism <br> 3 s.h.

Nature, scope, and significance of fields of travel and tourism: their histories, theories and philosophies, current trends, issues and challenges; critical analysis of current travel and tourism practices; green alternatives that are more sustainable and in keeping with values the field of leisure studies has long placed on active participation and local, community development.

## SRM:2065 The Experience Economy

3 s.h.
Introduction to emerging experience economy; just as manufacturing sector of economy supersedes agriculture and service economy supersedes manufacturing, how experience economy is now gaining ascendancy as the last, best hope for future economic growth; critical analysis of experience economy with discussion of ways in which experience economy may offer green, moral, and humane alternatives to previous stages of economic development; new opportunities for travel and tourism, sports settings, recreation and wellness services, possible applications in education and helping professions.

## SRM:3020 Nutrition in Health and Performance

Effects of exercise and nutrition on health- and sports-related fitness; for professionals in health and physical education. Same as INTD:3027.

## SRM:3144 Programming for Recreational Services $\mathbf{3}$ s.h

Development of professional skills in design, implementation, and evaluation of recreational experiences in a variety of settings for diverse groups; programming concepts for delivering recreation and leisure activities through application-based projects; careers within recreational sports, fitness, and leisure industry that focus on enhancing lives through fun and personal development.

## SRM:3145 Leadership and Group Dynamics in Recreation and Sport

Exploration of leadership at many levels within an organization; students gain insights into fundamental principles of leadership and group dynamics and their incorporation into fostering staff development and facilitating group initiatives; active engagement in practical application of course concepts through designing and leading initiatives including productive meetings and seminars, team building, other outcomes-based training sessions, and group activities for all ages.

3 s.h. SRM:3146 Sports Officiating: Rules, Theories, and Issues 3 s.h. Fundamental principles of officiating sports at all levels; supervision and management of officials for sport and recreation administrators; rules and mechanics of sports officiating, general qualifications to be a sports official, philosophy of officiating, teaching and evaluation methods for officials, and application of principles through officiating intramural sports.
SRM:3147 Sport Event Management
3 s.h.
Current status, challenges, and opportunities in sporting event industry; sporting event planning, budgeting, marketing, sponsorship, and evaluation; development of event timelines and event management skills; introduction to networking and interaction with sporting events. Recommendations: SRM:3154.

## SRM:3148 Interscholastic Activities and Athletics

Administration
3 s.h.
Survey of activities administration foundations including philosophy, leadership, professional programs and activities administration principles, strategies and methods; understanding of the techniques and theory of coaching concepts and strategies for interscholastic budget and concepts and strategies for interscholastic fundraising; basics of assessment and evaluation of interscholastic athletic programs and personnel, dealing with challenging personalities, and administration of professional growth programs for interscholastic personnel.

## SRM:3149 Coaching Theory, Body Structure, and Human

 DevelopmentComprehensive introduction to the coaching profession and obtaining a coaching license in the state of Iowa; ethics, licensing, and body development.
SRM:3150 Recreation Administration
3 s.h.
Personnel, finance, budgets, liability, marketing.
SRM:3151 Liability in Sport and Recreation
3 s.h.
The legal system shapes the way sport and recreation professionals at every level perform their jobs, and a basic understanding of the law and its impact on sport and recreation industry can help practitioners operate in a legally compliant manner, seek appropriate legal counsel when necessary, and reduce potential organizational and individual liability; exploration of tort law, constitutional law, statutory law, and contract law as applied to sport and recreation industry, and risk management process; students develop the ability to identify and analyze legal issues and how the law affects the sport and recreation industry. Requirements: 30 s.h. completed.

## SRM:3152 Design and Management of Sport and Recreation

 FacilitiesFacilities management, personnel assignment and evaluation, fee structures, maintenance, programming, compliance with regulations and standards. Requirements: must have 30 s.h. completed.
SRM:3153 Sport Business Practices
3 s.h.
Business of professional and intercollegiate athletics including league, team, and player-level issues; revenue generation and distribution; competitive balance issues; sport league structure strategies; business behind intercollegiate athletics and challenges facing NCAA structure; negotiation. Requirements: must have 30 s.h. completed.

## SRM:3154 Foundations of Event Management

3 s.h.
Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures.

## SRM:3155 Prevention and Care of Athletic Injuries for Coaches

Comprehensive introduction to the sports world in relation to obtaining a coaching license in the state of Iowa in regards to first aid, injury prevention, and care.
SRM:3157 Managerial Operations in Sport and Recreation 3 s.h. Introduction to the operation of a private or nonprofit sport-related business.

## SRM:3158 Sport and Recreation Promotion

3 s.h.
Foundations and principles of recreation sport promotion and sales operation; application of foundations and principles to sport and recreation industries; historical aspects; current and future trends of sport and recreation management as it relates to sales and promotions; sales management, marketing, financial/economic, legal, and ethical principles related to sport management. Requirements: must have 30 s.h. completed.

SRM:3172 Finance in Sport and Recreation 3 s.h.
Capital funding and revenue acquisition for funding public and private sport and leisure service organizations; contemporary sport and leisure service; financial and economic issues. Requirements: 30 s.h. completed.

## SRM:3175 Sales in Sport

3 s.h.
Fundamentals of business development and sales management; incentivizing sports consumers, direct and indirect sales strategies, brand communications, atmospherics, technology in sports sales, ticket sales, licensing products, negotiating sports sponsorships, and brand building. Recommendations: health and human physiology major.

## SRM:3176 Sports Analytics for Coaches, Managers, and Other

 Decision MakersData management, analytic models, and information systems; how sports analytics are used to make decisions for structuring athletic departments, develop in-game competitive strategies, and improve player performance; analytic examples applied to professional sports, college sports, high school sports, and fantasy sports; experience with statistics or computer science not required.

SRM:3178 Communications and Public Relations in Sports 3 s.h. How public relations is used to promote service products, demonstrate social responsibility, and communicate with consumers and investors; campaigns, customer service, legal and ethical considerations in promoting service products, media events, information services, public relations in strategic management, atmospherics, critical service moment, social media. Recommendations: health and human physiology major.

## SRM:3179 Podcasting for Sport and Recreation

Professionals
The rise of podcasting has democratized radio, offering anyone with recording equipment and something to say the ability to reach potential listeners, but with the number of active podcasts in the millions, developing a quality show that finds an audience is not so simple; introduction to all facets of podcast production from recording, editing, and publishing to marketing and monetizing; students conceive and create their own podcast pilots; consideration given to evolving landscape of podcasting and examination of how industry players are utilizing the rapidly expanding medium to grow their brands.
SRM:3200 Topics in Sport and Recreation Management 3 s.h.

SRM:3210 Event Bidding: Processes and Strategies 3 s.h.
3 s.h. Event rights holders-such as the International Olympic Committee (IOC) and the National Collegiate Athletic Association (NCAA) -use a competitive bid process to select a location, venue, and host committee to plan and execute their sport events; non-sport organizations also use the bidding process to select hosts for exhibitions, conferences, and workshops; students learn the processes and strategies used by event rights holders and event hosts in event bidding process.
SRM:3300 Writing for Sport and Recreation Managers 3 s.h. Students discover their unique writing style and routine; areas of weakness in writing process; necessary tools to become more efficient, clear, and effective writers; discussion, practice, and review of important writing skills; writing skills of diverse professional situations; proper mechanics of persuasive, informative, and factual writing; styles applied to document formats (e.g., press releases, résumés, cover letters, emails, memos, marketing messages, interviews, crisis management); guest speakers provide unique expertise and insight; student-centered, workshop format.

## SRM:3700 Ethics in Sport

3 s.h.
Ethical development and decision-making processes in the sport and recreation industry including personal development, educational focused programming, and other types of ethics-based program development.

SRM:3800 Sport Law for Interscholastic Athletic Directors $\mathbf{3}$ s.h.
Part of the Interscholastic Athletic Director certificate; content includes sport unintentional torts, intentional torts, constitution, legislation, and risk management.

## SRM:4195 Honors Problems

SRM:4196 Interscholastic Athletic Administration Field Experience
Students complete a minimum of 45 on-site hours with an interscholastic athletic/activities administrator or other approved interscholastic organization (i.e., conference or state office). Prerequisites: SRM:3148.

## SRM:4197 Sport and Recreation Field Experience 3 s.h.

Educational opportunities involving a small group of students in a unique sport business experience; students serve as consultants for a sport or recreation organization; in-class preparation complements off-campus work with designated industry partner; sport or recreation enterprise vary according to faculty expertise and industry partner availability.
SRM:4198 NCAA Rules Compliance and Enforcement 3 s.h. Rules that govern NCAA athletics, rules compliance function on campuses of member institutions, and enforcement of rules by
3 s.h. NCAA; essential legislation in NCAA Manual, including bylaws covering recruiting, eligibility, and amateurism; history of NCAA as related to organization's current structure and activities; summer session capstone experience includes attendance at NCAA Regional Rules Seminar in Indiana and participation in educational sessions conducted by NCAA staff.

## SRM:4199 Independent Sport and Recreation Field

 ExperienceParticipation in approved practical learning experience with private or nonprofit recreation or sport-related enterprise; on-site supervision by industry partner; minimum of 45 on-site hours.

Exploration of various issues shaping the future of sport and recreation industries; in-depth focus on a specific topic within sport or recreation utilizing the expertise of the instructor.

## SRM:5065 The Economy of Experience

In-depth analysis of emerging experience economy; just as manufacturing sector of economy supersedes agriculture and service economy supersedes manufacturing, how experience economy is gaining ascendancy as the last, best hope for future economic growth; exploration of current research in positive psychology and sociologist findings on evolution of post-materialist values as related to experience economy; evaluation of current trends; critical analysis and theory development; case studies; original research and investigation of novel marketing possibilities and experience design.

## SRM:6251 Risk Management

Legal knowledge necessary for effective management of sport, recreation, and physical activity programs, avoidance of legal problems; strategies for addressing issues such as right to participate, liability for injuries, risk management; legal statutes that govern sport, health, recreation organizations.
SRM:6252 Economics and Financing
3 s.h.
Economic issues for sport/leisure services in nonprofit, private/ commercial, and public sectors; strategic financial analysis for the nonfinancial manager; principles, issues in financing sport/leisure organizations.
SRM:6253 Sport Administration 3 s.h. Overview of various segments that constitutes the role and function of a sport administrator (i.e., planning, organizing, leading, controlling); focus on ways in which sport administrators and their subsequent organizations influence and are influenced by the link between sport and globalization; sport administration encompassing services provided within an organizational context; administration viewed as the coordination of production and distribution of those services.

## SRM:6254 Marketing and Sport Promotion

3 s.h.
Overview of varied segments that constitutes sports business practice, including marketing, data-based marketing, sales, promotion, sponsorship; varied segments that make up the sport industry, including the mass media, infrastructure, stadium building, consumer behavior; readings and discussions consider the development and structure of each segment, interactions between segments, planning, policy implications; focus on the United States, professional team sports, comparisons to other sports.

## SRM:6255 Capstone Project

3 s.h.
Development of a project applying expertise acquired through required coursework to an area of interest fitting student's career ambitions; includes final presentation to a faculty committee and written paper to support the presentation. Prerequisites: SRM:5065 and SRM:6251 and SRM:6252 and SRM:6253 and SRM:6254.

## Therapeutic Recreation Courses

TR:1000 First-Year Seminar
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).
TR:1070 Perspectives on Leisure and Play
Relationships between leisure and economics, sociology, other social sciences; effect of leisure on individual and group behavior; antecedents, motives, consequences of leisure behavior. GE: Social Sciences.

3 s.h. TR: 1800 Aging Matters: Introduction to Gerontology 3 s.h.
Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as ASP:1800, CSD:1800, NURS:1800, SSW:1800.
TR:2061 Recreation Leadership and Programming
3 s.h.
Leadership principles, techniques; programming techniques.

## TR:2077 Introduction to Child Life <br> 3 s.h.

Orientation to the field of child life services including services for hospitalized children and their families.

## TR:2160 Introduction to Therapeutic Recreation 3 s.h.

Lifestyles and barriers faced by persons with disabilities; basic aspects of the therapeutic recreation profession; skills used to establish therapeutic relationship; techniques used with patients; theoretical and conceptual bases for practice.

## TR:3161 Assessment and Evaluation in Therapeutic

 Recreation3 s.h.
Basic assessment psychometrics (e.g., reliability), standardized instrumentation and data collection (e.g., observation, self-report), construction of instruments, data reduction. Prerequisites: TR:2160.

## TR:3162 Therapeutic Recreation: Clientele

3 s.h.
Developmental patterns of special populations; examination of specific interventions and research applied to specific cognitive, emotional, and physical impairments.
TR:3163 Concepts and Issues in Therapeutic Recreation: Advancement of the Profession

3 s.h.
Ethical, professional, and theoretical issues in delivery of therapeutic recreation services; impact of legislation, standards of practice, health care reform; application of research to practice and marketing services. Prerequisites: TR:2160.

## TR:3164 Therapeutic Recreation: Rehabilitation 3 s.h.

In-depth review of therapeutic recreation techniques used in clinical and community rehabilitation; opportunities to use techniques with patients. Prerequisites: TR:2160.
TR:3171 Child Life Practical Application
3 s.h.
Overview of medical conditions and treatments commonly encountered by children and adolescents in health care settings; common pediatric sedation medications; sequence of medical procedures to understand how to provide procedural preparation and support; facilitate medical play with pediatric population.
1 s.h. TR:3174 Cultural Perspectives in Health Care $\mathbf{3}$ s.h.
Health care beliefs related to various cultures and religions; focus on illness, hospitalization, treatment, death.

TR:3261 Inclusive Recreation
3 s.h.
3 s.h. Laws pertaining to access to recreation and leisure opportunities for disabled persons in a community; evaluation of physical access to built environment; how social construction of disability can be a barrier to integrated leisure involvement; practical aspects of how to include disabled persons in community recreation and sport activities.

TR:3262 Therapeutic Recreation Administration 3 s.h.
Examination of the organization and administration of therapeutic recreation services; focus on planning, organizing, and managing therapeutic recreation services; comprehensive and strategic planning, funding, marketing, legal and legislative issues, personnel management, and professional practice of therapeutic recreation. Prerequisites: TR:2160.

## TR:3281 Special Projects in Child Life Practice <br> 2 s.h.

Student directed and student led hospital camping experience for patients at the University of Iowa Children's Hospital; planning and preparing for a large function, planning and leading therapeutic activities, working directly with patients and their families, processing and discussion of experiences and concerns; practical and clinicalbased experiences for students interested in working with pediatric population in health care setting. Requirements: hospital orientation, patient confidentiality (HIPAA) training, and health screening.

## TR:4169 Child Life Experience

1 s.h.
Practical experience with ill children, including a trip to the Give Kids the World village in Florida; documentation and engagement of course materials, experience working with ill children; students are assigned a specific diagnosis and present the diagnosis (appropriate statistics, effects of hospitalization, treatment, etc.) on child and family; coping strategies, appropriate methods of talking to and interacting with children and families, overview of child life in hospitals.

TR:4190 Preinternship Seminar 1 s.h.
Interviewing skills, résumés and cover letters, selection of internship site(s), application procedures for internship positions, and responsibilities of interns to the agency. Requirements: admission to NCTRC certification track.

## TR:4191 Therapeutic Recreation Internship

arr.
Practical field experience; direct leadership, program planning, administrative procedures. Prerequisites: TR:4190. Requirements: overall GPA of 2.00 and major GPA of 2.00 .

## TR:4193 Independent Study

Problem in a specific area.

## TR:4194 Honors Readings

Independent reading or research project under faculty supervision usually leading to an honors paper. Requirements: admission to honors program.

## TR:4195 Honors Problems

arr.
Completion of a project over and above normal independent study as an honors project; major research effort involving close work with an advisor.

TR:4197 Practicum in Therapeutic Recreation 1-3 s.h.
Educational opportunity in inclusive and therapeutic recreation professional settings; development of skills, techniques, and proficiencies under guidance of experienced professionals and academic supervisors; students gain experience with various populations and differing abilities; academic research, in-class preparation, and off-campus work with designated agency. Same as DST:4198.

## TR:5165 Child Life: Child Development and Healthcare

## Interventions

Application of typical growth and development content, including theoretical content for children and adolescents (birth to 18 years old); theories of cognitive development, psycho-social development, and attachment applied to essential healthcare interventions unique to child life practice; history of child life profession and scope of practice; application of developmental perspectives to intervention (e.g., education, healthcare play, support and coping interventions, pain management, bereavement).

TR:5166 Child Life: Seminar
3 s.h.
Students utilize official documents of the Association of Child Life Professionals (ACLP) and evidenced-based practice to understand current issues and research in child life as well as the expanding scope of service; cultural issues and impact of care for children and families; need for understanding of cultural diversity in a variety of settings; meets the six requirements of a child life course taught by a Certified Child Life Specialist (CCLS) for the ACLP including professional scope of practice in child life, impact of illness and hospitalizations of children and families, patient and family-centered care, therapeutic play, and preparation.

TR:5167 Child Life Practicum 1-3 s.h. Observational experience with children and families in hospitals and other community settings to understand the scope of practice for child life; development of basic clinical skills in child life; opportunities to observe the integration of theories with practice and understand the impact of illness, injury, and health care on patients and families; integration of therapeutic play and preparation for children; academic requirements in addition to clinical observation hours under supervision of a Certified Child Life Specialist in hospital, outpatient, rehabilitation, camp, or bereavement setting.
TR:5205 Research Methods and Play Behavior
3 s.h.
The scientific process: research designs for experiments and surveys, questionnaire construction, sampling theory, basic data analysis.

TR:5211 Professional Ethics and Practice in Pediatrics 3 s.h. Examination of core issues in clinical pediatrics; beginning life critical care, end-of-life care, role of medical technology, public health research pertinent to children, and maintaining professional boundaries. Prerequisites: TR:1077.
TR:5260 Play and Childhood arr. Multiple levels of theories and current research on importance of play in child development; advocacy for importance and necessity of play in childhood that leads to well-being and healthy lifestyles; practical and theoretically based experiences; for students interested in working with children in health care, clinical, school, community, and family life settings.
TR:5261 Family Systems
3 s.h.
Examination of dynamics of family life as a social system from a historical, sociocultural, and theoretical perspective; approaches to working with diverse children and families facing life stresses; interactive format, incorporates experiential learning, classroom lecture, and discussion.
TR:5270 Child Life Internship
4-5,9,12 s.h.
Child life student interns complete a minimum 15 -week, 600 -hour field experience under supervision of a Certified Child Life Specialist to meet certification requirements of the Association of Child Life Professionals; students are required to complete academic coursework in addition to clinical requirements. Prerequisites: TR:5165 and TR:5166 and TR:5167 and TR:5205 and TR:5211 and TR:5260 and TR:5261.

TR:6200 Child Life Graduate Forum 0 s.h.
Informational sessions, networking, review of research scholarship, resources, and joint collaboration for first- and second-year child life graduate students. Requirements: enrollment in Department of Health and Human Physiology MS child life track.

## Health and Physical Activity Skills Courses

HPAS:1001 Alcohol and Your College Experience 1 s.h.
Patterns of alcohol, drug use focused on college years; strategies for monitoring use, behavioral change plans for implementing lower-risk drinking practices; for drinkers and non-drinkers.

## HPAS: 1002 Vaping, Tobacco Use, and Your College

## Experience

 Current behavior change theories related to tobacco use and cessation; vaping, nicotine replacement therapies (NRT), and non-NRT methods; triggers, relapse prevention, cognitive behavioral skills, and support systems; for smokers and nonsmokers.HPAS:1003 Resiliency and Your College Experience 2 s.h. Resiliency and psychological hardiness theories relevant to college life; resiliency and ability to cope with challenges; components of psychological fitness; skills for personal growth and emotional wellbeing.

## HPAS: 1004 Food and Your College Experience <br> 2 s.h.

Sociocultural perspective on the forces that facilitate low-quality diets, particularly during young adulthood; basic components of nutrition; opportunity to develop and personalize healthy eating skills.

## HPAS: 1005 Indoor Group Cycling

1 s.h.
Introduction to group cycling; bike setup, safety, proper technique, injury prevention, and utilization of interval training.

## HPAS:1006 Intuitive Eating

1 s.h.
How to create and sustain a healthy relationship with mind, body, food, and exercise using an evidence-based approach; introduction to 10 basic principles of intuitive eating, taking a critical look at dieting and a healthful approach to satisfying eating balanced with exercise.

## HPAS: 1007 Basic CPR

1 s.h.
Basic, beginner-level information on CPR procedures; passing the course leads to certification in CPR; more advanced certifications may be sought for medical professionals.

## HPAS: 1008 Basic First Aid and CPR

1 s.h.
Basic, beginner-level information on automated external defibrillator (AED), CPR, and first aid procedures; in-class certification testing leads to certification in CPR and first aid; more advanced certifications may be needed for medical professionals.
HPAS:1009 Personal Fitness: Theory and Practice
2 s.h.
Introduction to dimensions of wellness with focus on health-related components of physical fitness; varied health and wellness topics; emphasis on engaging in physical activity to create a sustainable lifelong habit; theory, practice, physical activity; application of materials and exercise; prior physical activity or exercise experience not required.
HPAS:1010 Introduction to Workout Design
1 s.h.
Introduction to personal workout programming and design; includes sections on cardiovascular fitness, muscular strength and endurance, and flexibility.

## HPAS: 1020 Core Strengthening <br> 1 s.h.

Introduction to developing strength, flexibility, and endurance through the core; students will learn what the core is, how to best develop the muscles of the core, and why core training is important.

## HPAS: 1030 Cardio Training 1 s.h.

Beginner's guide to cardio fitness to develop and maintain levels of cardiovascular health and fitness.

## HPAS: 1040 Pilates I

1 s.h.
Introduction to the study and practice of Pilates for beginners; topics include proper breathing techniques, flexibility, balance, relaxation, and Pilates exercises.

## HPAS: 1045 Pilates II: Intermediate Pilates

1 s.h.
Study and practice of Pilates; intermediate and advanced Pilates moves; modifications and use of props based on current ability level; musculoskeletal anatomy and biomechanics as related to Pilates. Prerequisites: HPAS:1040.

HPAS: 1060 High Intensity Interval Training
1 s.h.
Increased fitness levels through principles of resistance training using a high-intensity interval training (HIIT) method; various types of resistance (free weights, rubber bands, partner resistance, and body weight resistance); topics include muscular anatomy, principles of resistance training, various resistance training exercises, safety, motivation and goal setting, and personal program design.
HPAS:1070 Introduction to Weight Training 1 s.h.
Introduction to basic principles of weight training using barbells and dumbbells as resistance; muscular anatomy, principles of weight training, muscular strength, muscular endurance, weight room safety, motivation and goal setting, personal program development; no prior weight training experience required.

## HPAS:1080 Olympic Weightlifting

1 s.h.
Beginning-level introduction to classical Olympic weightlifting movements leading up to the snatch, clean and jerk, power snatch, and power clean. Recommendations: HPAS:1070 and/or an understanding of weight training fundamentals and basics.
HPAS:1090 Sports Skills and Drills 1 s.h.
Develop and practice basic skills and game strategy for an array of team sports; participate in a variety of educational and competitive physical activities that may include flag football, soccer, basketball, tennis, pickleball, and racquetball.

HPAS:1100 Kettlebell Training 1 s.h.
Introduction to basic principles and benefits of using kettlebells for strength, power, mobility, weight loss, and more; topics include history, mobility drills, foundational movements (e.g., deadlift, swing, clean, press, Turkish Get Up, high pull, snatch), safety, goal-setting, and personal program development.

## HPAS:1110 Fitness Walking

1 s.h.
Walking as a means to improve cardiovascular health and fitness; utilizes outdoor walking, weather permitting, or the indoor track.

| HPAS:1130 5K Training | 1 s.h. |
| :--- | :--- |
| HPAS:1140 PE Games | 1 s.h. |

Participation in and design of physical activity games and skills; students improve physical health through cardio endurance and resistance training during game play; games and variations of games may consist of basketball, dodgeball, tag, volleyball, and other physical activities; how to be physically active and healthy while having fun; physiological responses to physical activity.

HPAS: 1150 Introduction to Health and Wellness
Optimal physical health and wellness in the college years; focus on behavioral change and goal setting, five components of fitness, dimensions of wellness, and stress management.

HPAS:1210 Stress Management
1 s.h.
How to define the sources of underlying stress, learn to cope with everyday stressors, and become more proactive through life skill management.
HPAS:1220 Flexibility 1 s.h
Help students move through full range of motion, work to correct imbalances, and ultimately move better through activities of daily living.

## HPAS: 1230 Hatha Yoga

1 s.h.
Introduction to the study and practice of yoga; geared towards beginners.
HPAS: 1235 Hatha Yoga II: Intermediate Hatha Yoga
Study and practice of Hatha Yoga; topics may include history and philosophy of Hatha Yoga, props and modifications, and biomechanics and anatomy as it relates to yoga. Prerequisites: HPAS:1230.

## HPAS:1240 Power Yoga

 1 s.h.Build strength, flexibility, and balance while maintaining traditional yoga emphasis of breath and intention; breath and movement are linked as you flow in and out of a combination of vinyasas (yoga sequences) and balancing poses; topics include proper breathing techniques, sun salutations, arm balances, backbends, and inversions. Requirements: basic understanding and background in yoga; a 6-week yoga practice is recommended.

## HPAS:1260 Movement and Mobility

 1 s.h.Introduction to basic self-care and movement recommendations for injury prevention, efficient movement, and health; topics include posture and movement correction and form, optimization of daily movement patterns, and self-care principles; prior exercise experience not required.
HPAS:1320 Lap Swimming I
1 s.h.
Introduction to swim stroke development utilizing swimming as a form of exercise; this is not a learn-to-swim class and a basic prerequisite swimming test will be performed prior to instruction.

## HPAS: 1400 Pickleball

1 s.h.
Introduction to the game of pickleball; rules of the game, terminology, key offensive and defensive strategies, and drills to help improve performance; class time involves instruction, practice, and playing time; no prior pickleball experience required.
HPAS:1410 Badminton 1 s.h.
Introduction to the game, rules, and skills involved in badminton.
HPAS:1440 Table Tennis
1 s.h.
Introduction to the game, rules, and skills involved in table tennis.
HPAS:1460 Basketball I
1 s.h.
Introduction to the game of basketball at the beginning level, assumes little or no prior basketball experience; students learn rules of the game, basketball terminology, key offensive and defensive strategies, fundamental skills (e.g., dribbling, passing, catching, shooting, rebounding, defending), and drills to help improve performance; course format consists of instruction, practice, and playing time.
HPAS: 1530 Volleyball I
1 s.h.
Introduction to the game, rules, and skills involved in volleyball.

## HPAS: 1535 Volleyball II

1 s.h.
Advanced skill refinement course geared towards students who have passed HPAS:1530 or are able to show mastery of the basic techniques. Prerequisites: HPAS:1530.
HPAS:1540 Soccer I
1 s.h.
Beginner-level introduction to the game of soccer; students learn rules, terminology, and basic offensive and defensive strategies; fundamental skills of dribbling, passing, trapping, and shooting; individual practice, partner, and small group drills; small and large field games; course format consists of instruction, practice, and playing time.
HPAS:1560 Ultimate Frisbee
1 s.h.
Introduction to the game, rules, and skills involved in ultimate frisbee; course will meet outside, weather permitting.
HPAS:1610 Self Defense
1 s.h.
Introduction to the practice of self-defense through upper and lower body strikes, joint manipulation, and other personal protection measures; this is a noncontact course.

## Health Studies, BA

## Learning Outcomes

Students will be able to:

- gain a broad education in the health sciences;
- employ their fundamental knowledge of human physiology and health sciences;
- use and understand scientific methods to solve problems at the level needed in their chosen professional and/or graduate career fields;
- instill an understanding and appreciation of the relevance of healthy behaviors to a fulfilling and productive life; and
- engage in and encourage life-long learning in the rapidly evolving fields of physiology and the health sciences.

## Requirements

The Bachelor of Arts with a major in health studies requires a minimum of 120 s.h., including at least $37-41$ s.h. of work for the major. A minimum of 16 s.h. in the major must be earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
The BA in health studies is designed for students who want a more flexible health science curriculum. The major interconnects the systems, technologies, and policies driving the U.S. wellness and health care industries. It provides flexible opportunities to work with faculty in developing the knowledge and skills needed to understand health determinants and anticipate continuing changes in preventive and clinical health delivery.
Students who earn the major in health studies may not earn a major in exercise science or health promotion.
Students who earn the major in health studies may not earn a minor in lifestyle medicine, but can earn a minor in human physiology.
The BA with a major in health studies requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Quantitative Reasoning Course | $3-4$ |
| Health Studies Foundation Courses | $10-13$ |
| Health Studies Core Courses | 12 |
| Electives | 12 |

## Quantitative Reasoning Course

Students must complete 3-4 s.h. from one of the following courses.

| Course \# <br> One of these: | Title | Hours |
| :--- | :--- | ---: |
| BIOL:1141 | Human Biology: Health <br> Professions | 4 |
| MATH:1440 | Mathematics for the Biological <br> Sciences | 4 |
| PSQF:4143/ | Introduction to Statistical |  |
| STAT:4143 | Methods |  |
| STAT:1020/ | Elementary Statistics and | 3 |
| PSQF:1020 | Inference | 3 |
| STAT:1030 | Statistics for Business |  |
| STAT:3510/ | Biostatistics | 4 |
| IGPI:3510 |  | 3 |

## Health Studies Foundation Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| $10-13$ s.h. from these: |  | 1 |
| HHP:1050 | Exploring Health and Human <br> Physiology |  |
| HHP:1100 \& | Human Anatomy - |  |
| HHP:1300 | Fundamentals of Human <br>  <br> or HHP:1400 | Physiology |
| HHP:2200 | Physical Activity and Health |  |
| HHP:2310 | Nutrition and Health | 3 |

## Health Studies Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| HHP:3030 | Lifestyle Medicine | 3 |
| HHP:4030 | Social Determinants of Health | 3 |
| HHP:4040 | Health Services | 3 |
| HHP:4390 | Understanding Human Disease | 3 |

## Electives

Course \# Title $\quad$ Hours
At least 12 s.h. from these:
Health and human physiology courses numbered
HHP:2000 or above. See the department's website for a
curated list of electives to consider.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall gradepoint average (GPA) of at least 3.33 in work for their major and a cumulative University of Iowa GPA of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4800 Research Methods and Ethics and HHP:4900 Honors Research; write an honors thesis that is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the health and human physiology major.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's

Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: one foundation course and at least six more courses in the major.
Before the seventh semester begins: at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: at least two more courses in the major (total of 15).

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

g Students must complete at least 12 s.h. selected from HHP courses numbered 2000 or above.
h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Exercise Science, BS

## Learning Outcomes

Students will be able to:

- undertake focused study in physical fitness, physical activity, sport nutrition, and sport conditioning as they pertain to health and performance outcomes;
- use and understand scientific methods to approach and solve problems in exercise science;
- effectively communicate physical wellness issues to key stakeholders; and
- encourage life-long learning in the rapidly evolving fields of exercise science.

## Requirements

The Bachelor of Science with a major in exercise science requires a minimum of $120 \mathrm{~s} . \mathrm{h}$., including at least $48-50 \mathrm{~s} . \mathrm{h}$. of work for the major. A minimum of 16 s.h. in the major must be earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
The BS in exercise science is intended for students seeking careers as professionals in fitness and in strength and conditioning. The major provides focused study in physical fitness, physical activity, sport nutrition, and sport conditioning as they pertain to health and performance outcomes. The curriculum has been approved by the American College of Sports Medicine (ACSM) as meeting the academic preparation for certification as an ACSM-certified exercise physiologist and ACSM-certified personal trainer. It also prepares students for certification by the National Strength and Conditioning Association as a certified strength and conditioning specialist and certified special population specialist. The strong physiological science-based curriculum can serve as preparation for professional or graduate study in rehabilitation sciences, performance sciences, or medical fields.

Students who earn the major in exercise science may not earn a major in human physiology, health promotion, or health studies.
Students who earn the major in exercise science may not earn a minor in lifestyle medicine, but can earn a minor in human physiology.
The BS with a major in exercise science requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Science and Math Foundation Courses | $10-12$ |
| Exercise Science Foundation Courses | 12 |
| Exercise Science Core Courses | 20 |
| Electives | 6 |

## Science and Math Foundation Courses

Students complete three foundation courses (minimum of 10 s.h.), one each in chemistry, biology, and mathematics or statistics. Note that courses may have required prerequisites.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Chemistry |  |  |
| One of these: |  | 3 |
| CHEM:1080 | General Chemistry II | 4 |
| CHEM:1120 | Principles of Chemistry II |  |
| Biology |  |  |

One of these:

| BIOL:1140 | Human Biology: Nonmajors | 4 |
| :--- | :--- | :--- |
| BIOL:1141 | Human Biology: Health <br> Professions | 4 |
| BIOL:1411 | Foundations of Biology | 4 |

Mathematics or Statistics

| One of these: |  | 4 |

## Combined Programs

## BS/MS in Athletic Training

The Department of Health and Human Physiology and the Department of Orthopedics and Rehabilitation (Carver College of Medicine) offer a combined Bachelor of Science/Master of Science in athletic training. The combined degree program allows students to count a limited amount of credit toward both degrees, enabling them to begin the study of athletic training before they complete their bachelor's degree. Coursework taken during the first three years on campus constitutes the required prerequisites for application to the master's degree program.

## Admission

Students apply to the MS program in their third year of undergraduate study. Admission to the MS program in athletic training is for summer entry. Students should consult their advisor about the appropriate sequence of courses and other requirements.
For more information, see the MS in athletic training [p. 1819] in the Carver College of Medicine section of the catalog.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall gradepoint average (GPA) of at least 3.33 in work for their major and a cumulative University of Iowa GPA of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4800 Research Methods and Ethics and HHP:4900 Honors Research; write an honors thesis that is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the exercise science major.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.
Before the fifth semester begins: one foundation course and at least six more courses in the major.

Before the seventh semester begins: at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses in the major (total of 15).
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Course not required before CHEM: 1080 if student has completed high school chemistry.
c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d Fulfills a major requirement and may fulfill a GE requirement.
e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
g Students must complete at least 6 s.h. selected from HHP courses numbered 2000 or above.
h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Health Promotion, BS

## Learning Outcomes

Students will be able to:

- undertake focused study in physical fitness, physical activity, sport nutrition, and sport conditioning as they pertain to health and performance outcomes;
- use and understand scientific methods to solve problems in health promotion;
- instill an understanding and appreciation of the relevance of healthy behaviors to a fulfilling and productive life; and
- encourage life-long learning in the rapidly evolving fields of health promotion.

## Requirements

The Bachelor of Science with a major in health promotion requires a minimum of $120 \mathrm{~s} . \mathrm{h}$., including at least 47-49 s.h. of work for the major. A minimum of $16 \mathrm{~s} . \mathrm{h}$. in the major must be earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
The health promotion track is intended for students seeking careers that promote wellness in the community and the workplace. The major prepares students to directly work with individuals and communities to improve health and quality of life. Students learn how to assess, plan, implement, evaluate, and oversee programs designed to improve health behaviors, create environments supportive of healthy lifestyles, and effectively communicate health issues to key stakeholders. The major prepares students to take the certification exam from the National Commission for Health Education Credentialing. The mix of natural and social sciences in this major also provides a foundation for professional or graduate study in allied health, health management, or public health.
Students who earn the major in health promotion may not earn a major in exercise science, human physiology, or health studies.

Students who earn the major in health promotion may not earn a minor in lifestyle medicine, but can earn a minor in human physiology.

The BS with a major in health promotion requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Science and Math Foundation Courses | $10-12$ |
| Health Promotion Foundation Courses | 12 |
| Health Promotion Core Courses | 16 |
| Experiential Learning | 3 |
| Electives | 6 |

## Science and Math Foundation Courses

Students complete three foundation courses (minimum of 10 s.h.), one each in chemistry, biology, and mathematics or statistics. Note that courses may have required prerequisites.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Chemistry |  |  |
| One of these: |  | 3 |
| CHEM:1080 | General Chemistry II | 4 |

| One of these: |  |  |
| :--- | :--- | ---: |
| BIOL:1140 | Human Biology: Nonmajors | 4 |
| BIOL:1141 | Human Biology: Health <br> Professions | 4 |
| BIOL:1411 | Foundations of Biology |  |
| Mathematics or Statistics |  |  |
| One of these: | Elementary Functions | 4 |
| MATH:1020 | Quantitative Reasoning for <br> Business | 4 |
| MATH:1350 | Calculus and Matrix Algebra for <br> Business | 4 |
| MATH:1380 | Mathematics for the Biological <br> Sciences | 4 |
| MATH:1440 | Calculus for the Biological <br> Sciences | 4 |
| MATH:1460 | Calculus I | 4 |
| MATH:1850 | Introduction to Statistical <br> PSQF:4143/ | Methods |
| STAT:4143 Elementary Statistics and <br> STAT:1020/ Inference | 4 |  |
| PSQF:1020 | Statistics for Business | 3 |
| STAT:1030 | Biostatistics | 3 |
| STAT:3510/ | IGPI:3510 |  |

## Health Promotion Foundation Courses

Students must complete the four-course departmental core (12 s.h.).

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| HHP:1100 | Human Anatomy | 3 |
| HHP:1300 | Fundamentals of Human | 3 |
|  | Physiology | 3 |
| HHP:2200 | Physical Activity and Health | 3 |

Health Promotion Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Health Behavior and Health <br> Promotion | 3 |
| HHP:3200 | Health Management and <br> Administration | 3 |
| HHP:4010 | Behavioral and Clinical Health <br> Assessment Laboratory | 4 |
| HHP:4020 | Health Coaching |  |
| HHP:4420 | Planning and Evaluating Health <br> Interventions | 3 |

## Experiential Learning

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| 3 s.h. from these: |  |  |
| HHP:3820 | Community Wellness Guided <br> Practicum | 3 |
| HHP:3930 | Practicum in Health and Human <br> Physiology | $1-3$ |
| HHP:4365 | Internship in Health Coaching | 3 |
| HHP:4490 | International Medicine: <br>  Experiential Learning | 3 |

| HHP:4500 | Undergraduate Independent <br> Study | arr. |
| :--- | :--- | ---: |
| HHP:4900 | Honors Research | 3 |
| HHP:4930 | Health and Human Physiology | $4-9,12$ |
|  | Internship |  |
| ABRD:3366 | Comparative Health Systems | arr. |

## Electives

Course \# Title Hours

At least 6 s.h. from these:
Health and human physiology courses numbered
HHP:2000 or above

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall gradepoint average (GPA) of at least 3.33 in work for their major and a cumulative University of Iowa GPA of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4800 Research Methods and Ethics and HHP:4900 Honors Research; write an honors thesis that is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the health promotion major.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: one foundation course and at least six more courses in the major.

Before the seventh semester begins: at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses in the major (total of 15).

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Human Physiology, BS

## Learning Outcomes

The BS degree in human physiology:

- provides a broad understanding of the form (anatomy) and function (physiology) of the human body through evaluation of organ system function and integrative function across systems in health and disease;
- prepares students to employ their fundamental knowledge of human physiology together with the scientific method, disciplinary research, and evidence-based reasoning to solve problems in their chosen professional and/or graduate career fields;
- develops skills and interpersonal competencies relevant for a diverse range of career pathways; and
- instills an understanding and appreciation of the relevance of healthy behaviors to a fulfilling and productive life, and the importance of lifelong learning in the rapidly evolving fields of human physiology and the health sciences.

## Requirements

The Bachelor of Science with a major in human physiology requires a minimum of 120 s.h., including 63 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19]. Transfer students must complete a minimum of $16 \mathrm{~s} . \mathrm{h}$. in human physiology coursework at the University of Iowa, including HHP:3550 Human Physiology with Laboratory.
The major in human physiology is designed primarily for individuals who intend to continue their education beyond the BS in the health professions, including medicine, physician assistant, physical therapy, dentistry, occupational therapy, chiropractic, and optometry, and for those who intend to pursue graduate degrees in basic life sciences.
Students may complete the BS with a major in human physiology without an emphasis area or with one of three optional emphasis areas: clinical physiology, neuromuscular physiology and metabolism, or research.

Students may earn a BS in human physiology or a BS in health promotion or exercise science, but not more than one of these.

Students who earn a BS in human physiology may not earn the minor in human physiology.

The BS with a major in human physiology requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Core Courses | 14 |
| Elective Courses | 18 |
| Cognate Area Courses | 31 |

## Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Exploring Health and Human <br> Physiology | 1 |
| HHP:1050 | Anatomy for Human Physiology <br> with Lab | 5 |
| HHP:3550 | Human Physiology with <br> Laboratory | 5 |

| One of these: |  | 3 |
| :--- | :--- | :--- |
| HHP:2200 | Physical Activity and Health | 3 |
| HHP:2280 | Cultural Competency and |  |
|  | Health | 3 |

## Elective Courses

At least 18 s.h. from these with at least 12 s.h. in health and human physiology courses (prefix HHP).

| Course \# | Title | Hours |
| :--- | :--- | :---: |
| At least 6 s.h. from these (organ system-based courses): |  |  |
| HHP:3450 | Immunology in Health and <br>  <br>  <br> HHP:4isease | 3 |
| HHP:4130 | Advanced Human Anatomy <br> HHP:4260 | 4 |
| HHP:4300 | Skeletal Muscle Physiology | 4 |
| HHP:4460 | Respiratory Pathophysiology | 3 |
|  | Sensorimotor Neurophysiology | 3 |
| At | Cardiovascular Physiology | 3 |

At least 3 s.h. from these (integrative physiology courses):

| HHP:4150 | Clinical Exercise Physiology | 3 |
| :--- | :--- | :--- |
| HHP:4250 | Human Pathophysiology | 3 |
| HHP:4410 | Integrative Physiology of | 3 |
|  | Exercise | 3 |
| HHP:4470/ASP:4470 | Physiology of Aging | 3 |
| HHP:4510 | Energetics in Health and |  |

May include up to 9 s.h. from these:
HHP:3230/PSY:3230 Psychopharmacology 3

| HHP:3300 | Human Growth and Motor <br> Development | 3 |
| :--- | :--- | :--- |

| HHP:3700 | Health Care Communications | 1 |
| :--- | :--- | :--- |
| HHP:3900 | Writing for Health and Human | 3 |

HHP:3994 Undergraduate Research (may 1-3
be taken twice for up to 3 s.h. each)

| HHP:4200 | Metabolic Exercise Testing and <br> Prescription | 4 |
| :--- | :--- | ---: |
| HHP:4210 | Musculoskeletal Exercise <br> Testing and Prescription | 4 |
| HHP:4440 | Physiology of Nutrition | 3 |
| HHP:4450 | Human Genetics and Disease | $3-4$ |
| HHP:4465 | Environmental Exercise | 3 |
| HHP:4490 | Physiology | 3 |
| HHP:4500 | International Medicine: | Experiential Learning |

Study (may be repeated; only 3
s.h. may be applied toward the degree)

| HHP:4700 | Health and Human Physiology <br> Teaching Internship | $2-3$ |
| :--- | :--- | ---: |
| HHP:4800 | Research Methods and Ethics | 3 |
| HHP:4900 | Honors Research | 3 |
| HHP:4930 | Health and Human Physiology | arr. |

Internship (may be repeated; up to 3 s.h. may be applied toward the degree)

| BIOL:2254 | Endocrinology | 3 |
| :--- | :--- | :--- |
| BIOL:2723 | Cell Biology | 3 |
| BMB:3110 | Biochemistry | 3 |
| MICR:2157 | General Microbiology | 3 |
| MICR:2158 | General Microbiology | 2 |
|  | Laboratory | 3 |
| PCOL:4130 | Drug Mechanisms and Actions |  |
| May include one of these: | 3 |  |
| PSY:2130 | Advanced Psychology for Pre- | 3 |
| PSY:2930 | Medical Track |  |
|  | Abnormal Psychology: Health <br> Professions | 3 |
| SOC:3510 | Medical Sociology | 3 |

## Cognate Area Courses

Students must earn a minimum of 31 s.h. in cognate areas-subjects outside of human physiology-by completing courses from the following lists.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Biology |  |  |
| This sequence: |  |  |
| BIOL:1411- <br> BIOL:1412 | Foundations of Biology - <br> Diversity of Form and Function | 8 |
| Chemistry |  |  |
| This sequence: |  |  |
|  <br> CHEM:1120 | Principles of Chemistry I-II | 8 |
| Mathematics |  |  |
| One of these: |  |  |
| MATH:1460 | Calculus for the Biological Sciences | 4 |
| MATH:1550 | Engineering Mathematics I: Single Variable Calculus | 4 |
| MATH:1850 | Calculus I | 4 |
| Physics |  |  |
| This sequence: |  |  |
| PHYS:1511- PHYS:1512 | College Physics I-II | 8 |
| Statistics |  |  |
| One of these: |  |  |
| STAT:2010 | Statistical Methods and Computing | 3 |
| $\begin{aligned} & \text { STAT:3510/ } \\ & \text { IGPI:3510 } \end{aligned}$ | Biostatistics | 3 |
| STAT:4143/ PSQF:4143 | Introduction to Statistical Methods | 3 |

## Areas of Emphasis

Students majoring in human physiology may declare an emphasis area but are not required to do so to satisfy major requirements. Declaring an emphasis area does not require completion of elective coursework beyond that already required for the major. Major elective requirements can be met through emphasis area courses.

## Clinical Physiology Area

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Four of these: |  |  |
| HHP:3450 | Immunology in Health and | 3 |

| HHP:3700 | Health Care Communications | 1 |
| :--- | :--- | :--- |
| HHP:4150 | Clinical Exercise Physiology | 3 |
| HHP:4200 | Metabolic Exercise Testing and <br> Prescription | 4 |
| HHP:4250 | Human Pathophysiology | 3 |
| HHP:4260 | Respiratory Pathophysiology | 3 |
| HHP:4490 | International Medicine: <br> Experiential Learning | 3 |

## Neuromuscular Physiology and Metabolism Area

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Four of these: |  |  |
| HHP:4110 | Advanced Human Anatomy Laboratory | 4 |
| HHP:4130 | Skeletal Muscle Physiology | 3 |
| HHP:4300 | Sensorimotor Neurophysiology | 3 |
| HHP:4410 | Integrative Physiology of Exercise | 3 |
| HHP:4440 | Physiology of Nutrition | 3 |
| HHP:4510 | Energetics in Health and Disease | 3 |

## Research Area

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| All of these: |  |  |
| HHP:3994 | Undergraduate Research | 3 |
| HHP:4800 | Research Methods and Ethics | 3 |
| HHP:4900 | Honors Research | 3 |

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall gradepoint average (GPA) of at least 3.33 in work for their major and a cumulative University of Iowa GPA of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4800 Research Methods and Ethics and HHP:4900 Honors Research; write an honors thesis that is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the human physiology major.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: calculus and at least six more courses in the major.

Before the seventh semester begins: at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses in the major (total of 15).
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Enrollment in math courses requires completion of a placement exam.
c Fulfills a major requirement and may fulfill a GE requirement.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Enrollment in chemistry courses requires completion of a placement exam.
f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
g Students opting to take HHP:2310 must complete other courses to satisfy the following GE requirements: Diversity and Inclusion; and Values and Culture.
h Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
i This course must be completed at the University of Iowa.
j Students may declare an emphasis area in clinical physiology; neuromuscular physiology and metabolism; or research. Major elective requirements can be met by completing emphasis area courses. See the General Catalog for approved emphasis area course lists.
k Students complete at least 18 s.h. of major electives, of which 12 s.h. must be in HHP coursework; at least 6 s.h. will be taken from designated organ system-based courses and 3 s.h. from courses emphasizing integrative physiology. See the General Catalog for a list of approved elective courses.
1 Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Sport and Recreation <br> Management, BS

## Learning Outcomes

Graduates will be able to:

- demonstrate knowledge of foundational sport and recreation management principles;
- apply and analyze financial, human resource, and facility management principles; marketing, communications, and sales strategies; and legal concepts to the sport and recreation industries;
- evaluate and explore career paths in the sport and recreation industries to identify where individual student strengths and interests will thrive;
- acquire knowledge in a concentration area within sport or recreation unique to individual student career objectives;
- express ideas clearly, logically, and persuasively in both oral and written formats; and
- demonstrate critical thinking; effective research methods; and teamwork, project management, and presentation principles to unique sport and recreation organization business challenges.

## Requirements

The Bachelor of Science with a major in sport and recreation management requires a minimum of $120 \mathrm{~s} . \mathrm{h}$., including $48 \mathrm{~s} . \mathrm{h}$. of work for the major ( $27 \mathrm{~s} . \mathrm{h}$. in sport and recreation management, 12 s.h. in a concentration area, and 9 s.h. in field experience). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

The Bachelor of Science in sport and recreation management prepares students to make meaningful contributions to the sport and recreation industry at all levels and broaden their understanding and appreciation of the sport and recreation industry.
The curriculum challenges students to think critically and creatively while developing analytical, rhetorical, and research abilities that are required for leadership positions in the sport and recreation industry. Moreover, the program emphasizes and provides experiential learning opportunities for a student's application of concepts and skills in professional settings to enhance learning and development.
Students who earn a BS in sport and recreation management may not earn the minor in sport and recreation management.

## Online Degree Option

The Department of Health and Human Physiology offers an online BS degree in sport and recreation management. The online program enables students to complete their BS degree from anywhere in the world. For more information, see Online in Sport and Recreation Management on the Department of Health and Human Physiology website, or contact the Department of Health and Human Physiology directly.

## Degree Requirements

The BS with a major in sport and recreation management requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | 27 |
| Field Experience | 9 |
| Concentration Area Courses | 12 |

## Foundation Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Contemporary Issues in Sports | 3 |
| SRM:1060 | Managerial Operations in Sport <br> and Recreation | 3 |
| SRM:3157 | Sales in Sport | 3 |
| SRM:3175 | Communications and Public <br> RRM:3178 | 3 |

Students must have completed 30 s.h. before they enroll in the following:

| SRM:3151 | Liability in Sport and <br> Recreation | 3 |
| :--- | :--- | :---: |
| SRM:3152 | Design and Management of <br> Sport and Recreation Facilities | 3 |
| SRM:3153 | Sport Business Practices | 3 |
| SRM:3158 | Sport and Recreation Promotion | 3 |
| SRM:3172 | Finance in Sport and Recreation | 3 |

## Field Experience

Students are required to complete a total of 9 s.h. of field experience (guided and/or independent) and must obtain prior approval from the director of field experience before performing any independent field experience for academic credit. See Independent Field Experience on the Department of Health and Human Physiology website, or contact the Department of Health and Human Physiology directly.
Field experience includes both guided and independent options. Guided experience sections are led by faculty who set learning objectives and outcomes with partner organizations. Courses have regular meeting times and faculty oversee and evaluate student engagement, participation, and completion.
Independent experience is student-initiated with an approved sport or recreation-affiliated organization, such as an internship. In consultation with the faculty and organization, a student sets the learning objectives for the duration of the experience. Faculty communicates with each student and site supervisor to evaluate student engagement, participation, and completion of learning objectives.
Both guided and independent field experience credit is based on 45 hours of field experience for each semester hour earned.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| SRM:4196 | Interscholastic Athletic <br> Administration Field <br> Experience | $1-9$ |
| SRM:4197 | Sport and Recreation Field <br> Experience | 3 |
| SRM:4199 | Independent Sport and <br> Recreation Field Experience | $1-9$ |

## Concentration Areas

Students must complete $12 \mathrm{~s} . \mathrm{h}$. in one of the following concentration areas: business studies, coaching and sport instruction, communications and public relations/journalism, entrepreneurship, event management, interscholastic athletic/activities administration, sport and diversity, or the student-designed concentration that allows students to map out their own concentration with the approval of their
advisor and faculty. Some of these courses below have prerequisites; students must complete all of a course's prerequisites before they may register for the course. Prerequisite courses do not count toward the concentration unless also listed as a concentration course.
Topics in Sport and Recreation Management (SRM:3200) can be used for certain concentration areas depending on the topic being taught. Students may request a waiver to allow a course that is not listed to count toward a concentration. All students should consult with sport and recreation management's academic advisor for details and approval prior to enrolling in SRM:3200 or any unlisted course for concentration credit.

- Business Studies [p. 607]
- Coaching and Sport Instruction [p. 607]
- Communications and Public Relations/Journalism [p. 608]
- Entrepreneurship [p. 609]
- Event Management [p. 609]
- Interscholastic Athletic/Activities Administration [p. 608]
- Recreation Management [p. 610]
- Sport and Diversity [p. 610]
- Student-Designed [p. 611]

## Business Studies Concentration

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Business studies concentration students select 12 s.h. from these: |  |  |
| SRM:1085 | Introduction to Travel and Tourism | 3 |
| SRM:2065 | The Experience Economy | 3 |
| SRM:3148 | Interscholastic Activities and Athletics Administration | 3 |

## Coaching Certification Process

University of Iowa students can become authorized to coach K12 school-sponsored athletics in the state of Iowa by taking the following two courses. These courses prepare students for the statewide coaching authorization application only; students must take these courses and can opt to apply for certification as part of their coursework.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| SRM:3149 | Coaching Theory, Body <br> Structure, and Human <br> Development | 3 |
| SRM:3155 | Prevention and Care of Athletic <br> Injuries for Coaches | 3 |

## Interscholastic Athletic/Activities Administration Concentration

In addition to the 12 s.h. concentration area requirement, students also may choose to complete the Certificate in Interscholastic Athletic/ Activities Administration [p. 622], a 21 s.h. program.

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| All of these (9 s.h.): |  | 3 |
| SRM:3148 | Interscholastic Activities and <br> Athletics Administration | 3 |
| SRM:3800 | Sport Law for Interscholastic <br> Athletic Directors | 3 |
| EPLS:4200 | Diversity and Inclusion in <br> Athletics | 3 |
| At least one of these (3 s.h.): |  |  |
| SRM:2065 | The Experience Economy <br> SRM:3146 | Sports Officiating: Rules, <br> Theories, and Issues |
| SRM:3147 | Sport Event Management <br> Coaching Theory, Body | 3 |
| SRM:3149 | Structure, and Human <br> Development (this course and <br> SRM:3155 together allow <br> students to apply for state of <br> Iowa coaching authorization) | 3 |
| SRM:3150 | Recreation Administration <br> SRM:3155 | Prevention and Care of Athletic <br> Injuries for Coaches (this course <br> and SRM:3149 together allow <br> students to apply for state of <br> Iowa coaching authorization) |

| SRM:3176 | Sports Analytics for Coaches, Managers, and Other Decision Makers | 3 |

## Event Management Concentration

Students who aspire to work in the field of event management may earn one or both of the following credentials: the event management concentration (12 s.h.) and/or the Certificate in Event Management [p. 470] (21 s.h.). It is strongly recommended that students consult the sport and recreation management undergraduate academic advisor and a member of the Certificate in Event Management committee to discuss which credential is appropriate.
Students who wish to earn the Certificate in Event Management must take SRM:3154 Foundations of Event Management and cannot substitute EVNT:3154 Foundations of Event Management. They also must take SRM:3147 Sport Event Management and cannot substitute EVNT:3260 Event Management Workshop.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Both of these: |  |  |
| SRM:3147 | Sport Event Management | 3 |

## Student-Designed Concentration

If a student wishes to develop a concentration area focused on a specialized area that is not covered by an existing concentration area outlined above, the student must consult with an advisor in the sport and recreation management program. After consultation, the student must submit a written proposal to the sport and recreation management program director for approval. The proposal should provide a rationale for, and description of, the student-designed concentration, including proposed courses. The proposal must be approved before the start of the semester in which the student wishes to use the concentration for graduation.

The concentration requires at least 12 s.h. of coursework. Selfdesigned concentrations may not include coursework that was used to complete GE CLAS Core or field experience requirements.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33, a major GPA of at least 3.50, and earn a grade of at least a B-plus in SRM:4195 Honors Problems. During SRM:4195 Honors Problems, the student works on a project under the supervision of a program faculty member. For additional information, visit BS Curriculum on the Department of Health and Human Physiology website or contact the sport and recreation management program director.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the sport and recreation management major.

## Career Advancement

Sport and recreation management majors find employment in municipal or campus recreation; interscholastic, high school, or college athletic administration; intramural departments; community private clubs or community parks and recreation departments; nonprofit organizations; armed forces recreation; professional or Olympic sports organizations; commercial fitness businesses; and in firms specializing in sport marketing or sport sponsorship. The sport and recreation management faculty provides individual mentoring to students and offers several opportunities for students to connect with industry professionals throughout the year to learn about internships and jobs.
The Office of Field Experience in the sport and recreation management program in the Department of Health and Human Physiology assists students in finding their specific connection to the industry. The Pomerantz Career Center also offers multiple resources to help students find internships and jobs.

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: four foundation courses, at least 3 s.h. in the concentration area, and 3 s.h. in a field experience course.

Before the seventh semester begins: two more foundation courses (total of six), an additional 6 s.h. in the concentration area, and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: two more foundation courses (total of eight), an additional 3 s.h. in a field experience course, and one remaining concentration area course (3 s.h.).
During the eighth semester: enrollment in the final 3 s.h. in a field experience course, all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Sport and Recreation Management, BS

| Elective course ${ }^{\text {c }}$ |  | 3 |

Degree Application: apply on MyUI before deadline
(typically in February for spring, September for fall) ${ }^{\text {e }}$

| Hours | $\mathbf{1 5}$ |
| :--- | :--- | ---: |
| Total Hours | $\mathbf{1 2 4 - 1 3 0}$ |

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
e Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Therapeutic Recreation, BS

Therapeutic recreation is a professional field that involves providing recreation programs designed to improve or maintain the physical, emotional, mental, and social functioning of patients and consumers. Therapeutic practice involves a continuum of services that use recreational activities to improve functional abilities; leisure education to help individuals acquire skills, knowledge, and attitudes that facilitate an independent lifestyle; and other programs to enhance health, growth, development, and independence through intrinsically rewarding leisure activities. Additionally, inclusive recreation provides opportunities for people with all abilities and disabilities to participate together in meaningful and purposeful therapeutic recreation programs based on choice and common interests.

## Learning Outcomes

The BS degree in therapeutic recreation:

- instills an understanding and appreciation of leisure, recreation, and play in diverse and inclusive settings;
- prepares students for professional fields and/or graduate study through the integration of research and critical thinking;
- provides service and experiential learning to enhance students' leadership strengths and their ability to build therapeutic relationships;
- teaches critical skills necessary in inclusive practice to assess, plan goals, design appropriate interventions, and evaluate effectiveness;
- instructs students in the practice of inclusion for persons of diverse abilities, backgrounds, and cultures; and
- teaches students how to facilitate inclusive and therapeutic recreation programs.

## Requirements

The Bachelor of Science with a major in therapeutic recreation requires a minimum of 120 s.h., including $57-66$ s.h. of work for the major, which varies by track. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

The therapeutic recreation program prepares students for professional work with persons in various underserved populations and as advocates for social inclusion. The major emphasizes the use of a systematic process of assessment, planning, implementation, and evaluation to provide equitable opportunity for recreation, leisure, and play by diverse populations.

The curriculum consists of two tracks designed to allow students to acquire in-depth knowledge in their chosen area of interest. The courses in each track provide an opportunity for students to tailor the degree to best fit their career goals and academic interests. The inclusive recreation track (57-60 s.h.) allows students to gain knowledge in a variety of domains related to adaptive and inclusive recreation. Students may choose to focus on a certain population or diversify their experience through their curriculum design. The National Council on Therapeutic Recreation Certification (NCTRC) track (63-66 s.h.) focuses on developing therapeutic recreation competencies necessary to sit for the National Council on Therapeutic Recreation Certification examination and successfully pursue a career in clinical or community therapeutic recreation.
The BS with a major in therapeutic recreation requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Core Courses | $33-36$ |
| Track Requirements (varies by track) | $24-30$ |

Students in both tracks are required to complete the following core courses, as well as additional courses required specifically for their track.

## Core Courses

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| This course: |  |  |
| PSY:1001 | Elementary Psychology | 3 |
| One of these: |  |  |
| HHP:2130 | Human Development Through the Life Span | 3 |
| NURS:1030 | Human Development and Behavior | 3 |
| One of these: |  |  |
| PSY:2501 | Introduction to Social Psychology | 3 |
| SOC:1010 | Introduction to Sociology | 3 |
| One of these: |  |  |
| $\begin{aligned} & \text { HHP: } 1100 \text { \& } \\ & \text { HHP:1300 } \end{aligned}$ | Human Anatomy - <br> Fundamentals of Human Physiology | 6 |
| HHP:1400 | Human Anatomy and Physiology | 3 |
| All of these: |  |  |
| TR:1070 | Perspectives on Leisure and Play | 3 |
| TR:1800/ASP:1800/ <br> CSD:1800/ <br> NURS:1800/ <br> SSW:1800 | Aging Matters: Introduction to Gerontology | 3 |
| TR:2061 | Recreation Leadership and Programming | 3 |
| TR:2077 | Introduction to Child Life | 3 |
| TR:2160 | Introduction to Therapeutic Recreation | 3 |
| TR:3162 | Therapeutic Recreation: Clientele | 3 |
| TR:3261 | Inclusive Recreation | 3 |

## Tracks

Students select one of the following tracks and complete the requirements.

## Inclusive Recreation Track

## Requirements-Inclusive Recreation Track

Inclusive recreation in community-based settings is the fastest growing area of practice in therapeutic recreation and the most diverse. Community-based inclusive recreation specialists may be affiliated with community recreation departments, adaptive sports programs, school systems, independent living support services, special recreation associations, and community mental health agencies. The goals of inclusive recreation in community-based settings are equally diverse, including enhancing quality of life, health protection and health promotion, and integration and inclusion of persons with disabilities in recreation programs.

Students who complete this track are not eligible for the National Council on Therapeutic Recreation Certification exam or for the Certified Therapeutic Recreation Specialist credential.

Students earn a minimum of 24 s.h. in this track. Coursework is selected around several themes relevant for foundational comprehension and practice in the field of inclusion and diversity in recreation.

## Inclusive Recreation Coursework

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Social Justice |  |  |
| One of these: |  |  |
| GWSS:2250/ <br> HIST:2250/ <br> SJUS:2250 | The History of Social Justice Movements | 3 |

| CSI:1420 | Life Design II: A Better World | 2 |

## NCTRC Certification Track

## Requirements

Certified therapeutic recreation specialists (CTRS) work in both clinical and community-based settings with a wide variety of client populations. The most common clientele groups include persons with mental illness, spinal cord and brain injuries, older adults, individuals who experience chemical dependence and substance abuse, at-risk youth, and people with developmental disabilities. Settings often focus on psychiatric or physical rehabilitation where the therapist works with a team of allied health professionals to provide treatment through recreation- and leisure-based interventions. Services also may be provided in long-term care settings where the therapist works with the health care team to provide treatment interventions and recreation opportunities to enhance quality of life for residents in nursing homes, memory care and assisted-living centers, or respite care agencies. Many certified therapeutic recreation specialists also are employed by community and nonprofit agencies that provide services for underrepresented populations.
This is a selective track; students earn 30 s.h. of coursework for the NCTRC certification track. To enter the track they must complete 24 s.h. at the University of Iowa (or 12 s.h. for transfer students) and must have a University of Iowa GPA of at least 2.50 and a cumulative GPA of at least 2.50. Entrance to the track can occur after completion of HHP: 1100 Human Anatomy or HHP: 1400 Human Anatomy and Physiology, TR:1070 Perspectives on Leisure and Play, and TR:2160 Introduction to Therapeutic Recreation. Students who complete this track, including the therapeutic recreation internship, are eligible to sit for the National Council for Therapeutic Recreation Certification exam. Successful completion of the exam confers the Certified Therapeutic Recreation Specialist (CTRS) credential. Students must earn a C-minus or higher in all prerequisite courses prior to admission to the NCTRC track.

## NCTRC Certification Coursework

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these (17 s.h.): |  | 3 |
| TR:3161 | Assessment and Evaluation in <br> Therapeutic Recreation <br> Concepts and Issues in <br> Therapeutic Recreation: <br> Advancement of the Profession | 3 |
| TR:3163 | Therapeutic Recreation: <br> Rehabilitation | 3 |
| TR:3262 | Therapeutic Recreation <br> Administration | 3 |
| PLSA:3750 | Medical and Technical <br> Terminology <br> Abnormal Psychology: Health <br> Professions | 2 |

## Field Experience

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Both of these (13 s.h.): |  |  |
| TR:4190 | Preinternship Seminar | 1 |
| TR:4191 | Therapeutic Recreation | 12 |

## Combined Programs

## BS/MS in Health and Human Physiology (Child Life Subprogram)

The combined program allows qualified students to begin work toward a master's degree while they complete their bachelor's degree. It permits students to count certain courses toward both degrees, completing them in less time than they would need to complete each degree separately.

The completion of the two degrees in five years is designed for students who wish to pursue a career providing services to children and their families, primarily in the health care field. Graduates are eligible to be credentialed professionals in child life (certified child life specialist). They fill positions such as child life specialist, activity director, or administrative positions.

Students follow the standard curriculum of their BS degree the first two years and complete all the prerequisite courses for the MS in health and human physiology with a child life subprogram during the third year. Successful students receive a BS at the end of the fourth year and an MS at the end of the fifth year.

Applicants to the combined program must:

- be enrolled as a BS student at the University of Iowa;
- have completed a minimum of 80 s.h. at the time of admission to the combined program, with at least 30 s.h. earned at the University of Iowa;
- have completed all GE CLAS Core requirements and all prerequisites; and
- have a cumulative University of Iowa grade-point average of at least 3.25.

Applicants must submit a letter of application to the program that includes a statement of purpose, a résumé, documentation of at least 100 hours of paid or volunteer experience in a child life and/or pediatric health care setting, and three letters of recommendation.

Each application is reviewed by the program and requires support from the applicant's undergraduate advisor. Recommendations for approval will be sent to the Office of Graduate Admissions. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

For more information about applying to the combined program, contact the child life program in the Department of Health and Human Physiology.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall gradepoint average (GPA) of at least 3.33 in work for their major and a cumulative University of Iowa GPA of at least 3.33 .

In order to graduate with honors, students must successfully complete TR:4194 Honors Readings and TR:4195 Honors Problems, in which they conduct a reading or research project under the supervision of a faculty member in their major and write a paper summarizing the project's results.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University
of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the therapeutic recreation major.

## Career Advancement

Graduates find jobs in a variety of settings. Therapeutic recreation professionals are employed in settings such as skilled nursing facilities, community recreation centers, state and community mental health institutions, general medical hospitals, physical rehabilitation centers, special recreation districts, the Special Olympics, correctional facilities, senior living communities, facilities for persons with intellectual disabilities or mental illness, substance abuse programs, and camp programs as inclusion specialists. The majority of children's hospitals and pediatric units in other health care facilities employ child life specialists to address cognitive, social, and psychological issues associated with child illness and hospitalization. Child life specialists also work in rehabilitation centers, private practice and consulting, school systems, special-purpose camps, and hospice.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: eleven courses.
Before the seventh semester begins: two more major requirement courses, 3 s.h. of supporting coursework, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two more major requirement courses and the remaining supporting coursework.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a The Academic Advising Center advises Therapeutic Recreation Interest students on prerequisite course planning. Students are advised for success, based on academic strength, not necessarily for a four year plan. Prerequisites may take more than two years to complete.
b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
c Fulfills a major requirement and may fulfill a GE requirement.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f Completion of HHP: 1100 or HHP: 1400 is required for admission to the Therapeutic Recreation (NCTRC Certification) BS program.
g Students must complete either HHP:1400 (3 s.h.) or both HHP:1100 and HHP:1300 (6 s.h.).
h Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
i Applicants for admission should use the application form on the Department of Health and Human Physiology website. Completed applications typically must be submitted in October for admission the following spring or in March for admission the following fall. For more information see your advisor.
j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.
k Students who complete the curriculum, including the therapeutic recreation internship, are eligible to sit for the National Council for Therapeutic Recreation Certification exam. Successful completion of the exam confers the Certified Therapeutic Recreation Specialist (CTRS) credential.

## Human Physiology, Minor

## Requirements

The undergraduate minor in human physiology requires a minimum of 15 s.h. in Department of Health and Human Physiology courses. Students must maintain a grade-point average of at least 2.00 in all courses taken for the minor and in all UI courses to earn the minor Coursework in the minor may not be taken pass/nonpass. Transfer credit does not count toward the minor.

Students who earn a BS in human physiology may not earn the minor in human physiology.

The minor is designed to provide in-depth study of human structure and function. Students must complete a human physiology course plus elective coursework as indicated below. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

The minor in human physiology requires the following coursework.

## Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| HHP:3500 | Human Physiology | 3 |
| HHP:3550 | Human Physiology with | 5 |

## Inclusive Recreation, Minor

## Requirements

The undergraduate minor in inclusive recreation requires a minimum of 15 s.h., including at least 12 s.h. taken at the University of Iowa in courses offered by the Department of Health and Human Physiology. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/non-pass.

Students who earn a Bachelor of Science degree with a major in therapeutic recreation, either the inclusive recreation track or National Council on Therapeutic Recreation Certification (NCTRC) track, may not earn the minor in inclusive recreation. No more than 6 s.h. of courses counting toward this minor may also count toward another major, minor, or certificate.
For the minor, students complete required courses that focus on various populations and interventions to promote inclusive recreation and participation in leisure.

The minor in inclusive recreation requires the following coursework.

## Foundational Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Perspectives on Leisure and | 3 |
| TR:1070 | Play | 3 |
| TR:2160 | Introduction to Therapeutic <br> Recreation | 3 |
| TR:3261 | Inclusive Recreation | 3 |

## Electives

Student choose at least two courses (6 s.h.) from the "Diverse Population Electives" and/or "Recreation Electives" that align with their interests.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| At least two of these (6 s.h.): |  |  |
| Diverse Populations Electives |  |  |
| HHP:2130 | Human Development Through the Life Span | 3 |
| DST:1101 | Introduction to Disability Studies | 3 |
| TR:1800/ASP:1800/ <br> CSD:1800/ <br> NURS:1800/ <br> SSW:1800 | Aging Matters: Introduction to Gerontology | 3 |
| TR:2077 | Introduction to Child Life | 3 |
| TR:3162 | Therapeutic Recreation: Clientele | 3 |
| Recreation Electives |  |  |
| TR:2061 | Recreation Leadership and Programming | 3 |
| TR:3262 | Therapeutic Recreation Administration | 3 |
| TR:4197/DST:4198 | Practicum in Therapeutic Recreation | 1-3 |

## Lifestyle Medicine, Minor

The minor in lifestyle medicine focuses on whole-person health by providing students the knowledge, skill, and ability to help individuals improve their health and well-being and prevent the onset and/or progression of chronic diseases. The minor prepares students to incorporate the principles of evidence-based lifestyle medicine in health and wellness-related careers.

## Requirements

The minor in lifestyle medicine requires a minimum of $15 \mathrm{~s} . \mathrm{h}$. in the Department of Health and Human Physiology, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may or may not be taken pass/nonpass.

Students who earn a BA in health studies, a BS in health promotion, or a BS in exercise science may not earn the minor in lifestyle medicine. Students who earn a BS in human physiology may earn the minor in lifestyle medicine.

The minor requires the following coursework.

## Core Courses

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| All of these: |  |  |
| HHP:2200 | Physical Activity and Health | 3 |
| HHP:2310 | Nutrition and Health | 3 |
| HHP:3030 | Lifestyle Medicine | 3 |

## Electives

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| Two of these: |  |  |
| HHP:3045 | Physical Activity Psychology | 3 |
| HHP:3050 | Obesity | 3 |
| HHP:3200 | Health Behavior and Health <br> Promotion | 3 |
| HHP:4010 | Behavioral and Clinical Health <br> Assessment Laboratory | 4 |
| HHP:4020 | Health Coaching | 4 |
| HHP:4365 | Internship in Health Coaching | 3 |

## Sport and Recreation Management, Minor

## Requirements

The undergraduate minor in sport and recreation management requires a minimum of 15 s.h. in Department of Health and Human Physiology courses, including at least 12 s.h. in courses numbered 3000 or above. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. A maximum of $3 \mathrm{~s} . \mathrm{h}$. of transfer credit may be accepted toward the minor with the approval of the sport and recreation management program director.

Students who earn a BS in sport and recreation management may not earn the minor in sport and recreation management.

## Online Option

The minor in sport and recreation management may be earned through coursework that is offered online. For more information, contact the Department of Health and Human Physiology.

## Requirements

The minor in sport and recreation management requires the following coursework.

Students take 15 s.h., with at least 12 s.h. in coursework numbered 3000 or above, from the following. No more than 6 s.h. combined from SRM:4196 Interscholastic Athletic Administration Field Experience, SRM:4197 Sport and Recreation Field Experience, and SRM:4199 Independent Sport and Recreation Field Experience may count toward the minor.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| SRM:1060 | Contemporary Issues in Sports | 3 |
| SRM:1085 | Introduction to Travel and Tourism | 3 |
| SRM:2065 | The Experience Economy | 3 |
| SRM:3020/ <br> INTD:3027 | Nutrition in Health and Performance | 3 |
| SRM:3146 | Sports Officiating: Rules, Theories, and Issues | 3 |
| SRM:3147 | Sport Event Management | 3 |
| SRM:3148 | Interscholastic Activities and Athletics Administration | 3 |
| SRM:3149 | Coaching Theory, Body <br> Structure, and Human <br> Development (this course and SRM:3155 together allow students to apply for state of Iowa coaching authorization) | 3 |
| SRM:3150 | Recreation Administration | 3 |
| SRM:3151 | Liability in Sport and Recreation | 3 |
| SRM:3152 | Design and Management of Sport and Recreation Facilities | 3 |
| SRM:3153 | Sport Business Practices | 3 |
| SRM:3154 | Foundations of Event Management | 3 |

| SRM:3157 | Managerial Operations in Sport and Recreation | 3 |
| :---: | :---: | :---: |
| SRM:3158 | Sport and Recreation Promotion | 3 |
| SRM:3172 | Finance in Sport and Recreation | 3 |
| SRM:3175 | Sales in Sport | 3 |
| SRM:3176 | Sports Analytics for Coaches, Managers, and Other Decision Makers | 3 |
| SRM:3178 | Communications and Public Relations in Sports | 3 |
| SRM:3179 | Podcasting for Sport and Recreation Professionals | 3 |
| SRM:3200 | Topics in Sport and Recreation Management | 3 |
| SRM:3210 | Event Bidding: Processes and Strategies | 3 |
| SRM:3300 | Writing for Sport and Recreation Managers | 3 |
| SRM:3700 | Ethics in Sport | 3 |
| SRM:3800 | Sport Law for Interscholastic Athletic Directors | 3 |
| SRM:4196 | Interscholastic Athletic Administration Field Experience | 1-9 |
| SRM:4197 | Sport and Recreation Field Experience | 3 |
| SRM:4198 | NCAA Rules Compliance and Enforcement | 3 |
| SRM:4199 | Independent Sport and Recreation Field Experience | 1-9 |

## Interscholastic Athletic/ Activities Administration, Certificate

The Certificate in Interscholastic Athletic/Activities Administration provides students an opportunity to focus a segment of their studies on extracurricular activities at the interscholastic level. The program provides experiential learning and networking prospects along with academic coursework.

The world of interscholastic athletics has become increasingly competitive and commercialized. The certificate will aid marketability for students as they enter the job market. Students will be prepared to enter a school district with preparation to succeed in athletic/activities administration roles.

The certificate is an option for educators and other professionals who already have a degree but may wish to pursue career opportunities in interscholastic athletics/activities administration. Students who want to earn the certificate and do not want to pursue a degree may apply as nondegree students.

## Learning Outcomes

Students will be able to:

- summarize the history of the position and the development of interscholastic athletics;
- utilize management techniques to develop and maintain facilities; plan and oversee financially sustainable events; transfer practical experience into improved employment opportunities; and carry out effective and appropriate marketing, communication, and fundraising campaigns;
- recognize and establish liability protections in programming; and
- formulate effective program and coach assessments/evaluations.

## Requirements

The undergraduate Certificate in Interscholastic Athletic/Activities Administration requires a minimum of 21 s.h. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Students may transfer up to 9 s.h. of credit toward certificate completion. Contact the Department of Health and Human Physiology for guidance on submitting courses from other institutions that may be approved for certificate credit. Field experience taken elsewhere is not eligible for use toward the certificate.
Some courses below have prerequisites; students must complete all of a course's prerequisites before they may register for the course.
The Certificate in Interscholastic Athletic/Activities Administration requires the following coursework.

## Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| SRM:3148 | Interscholastic Activities and | 3 |
| SRM:3700 | Athletics Administration | 3 |

Sport Law for Interscholastic Athletic Directors
Diversity and Inclusion in Athletics

## Field Experience

Field experience is essential to the completion of the National Interscholastic Athletic Administrators Association (NIAAA) requirements for first-level certification as a registered athletic administrator (RAA). Students must complete a minimum of 3 s.h. in the following course with an approved partner and oversight from the Office of Field Experience (sport and recreation management) in the Department of Health and Human Physiology.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| SRM:4196 | Interscholastic Athletic | $1-9$ |
|  | Administration Field |  |
|  | Experience |  |

## Electives

Students select a minimum of 6 s.h. from the following.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| HHP:2148 | Personal Training | 3 |
| HHP:3045 | Physical Activity Psychology | 3 |
| HHP:3820 | Community Wellness Guided Practicum | arr. |
| SRM:2065 | The Experience Economy | 3 |
| SRM:3020/ INTD:3027 | Nutrition in Health and Performance | 3 |
| SRM:3146 | Sports Officiating: Rules, Theories, and Issues | 3 |
| SRM:3147 | Sport Event Management | 3 |
| SRM:3149 | Coaching Theory, Body <br> Structure, and Human <br> Development (this course and SRM:3155 together allow students to apply for state of Iowa coaching authorization) | 3 |
| SRM:3150 | Recreation Administration | 3 |
| SRM:3155 | Prevention and Care of Athletic Injuries for Coaches (this course and SRM:3149 together allow students to apply for state of Iowa coaching authorization) | 3 |
| SRM:3176 | Sports Analytics for Coaches, Managers, and Other Decision Makers | 3 |
| SRM:3200 | Topics in Sport and Recreation Management (when topic is the politics of sports) | 3 |
| SRM:3210 | Event Bidding: Processes and Strategies | 3 |
| ARTS:1070 | Elements of Graphic Design | 3 |
| COMM:1819 | Organizational Leadership | 3 |
| EDTL:3114 | Parent-Child Relationships | 3 |
| EDTL:4940 | Characteristics of Disabilities | 3 |
| EPLS:4180 | Human Relations for the Classroom Teacher | 3 |
| EPLS:6201 | Foundations of School Administration | 3 |
| JMC:1300 | Introduction to Journalism and Strategic Communication | 3 |

| PSQF:1075 | Educational Psychology and <br> Measurement | 3 |
| :--- | :--- | ---: |
| PSQF:4134/ | Parent-Teacher Communication | $1-3$ |
| EDTL:4934 | Speaking Skills | 3 |
| RHET:2085 |  |  |

The Iowa Board of Educational Examiners (BoEE) requires applicants for the state activities director authorization to also have a BoEE coaching authorization. Students who do not have the BoEE coaching authorization must complete the following certificate elective courses, which lead to the BoEE coaching authorization: SRM:3149 Coaching Theory, Body Structure, and Human Development and SRM:3155
Prevention and Care of Athletic Injuries for Coaches.

## Sport and Recreation Management, MA

## Learning Outcomes

Graduates will be able to:

- apply and analyze financial and risk management principles and marketing and promotion strategies in the sport and recreation industries;
- demonstrate a comprehensive understanding of leadership principles in the sport and recreation industries;
- demonstrate a comprehensive understanding of the experience economy and its application in the sport and recreation industries;
- demonstrate the ability to perform research for and apply findings to the sport and recreation industries;
- express ideas clearly, logically, and persuasively in both oral and written formats;
- demonstrate critical thinking, teamwork, project management, and presentation principles to unique sport and recreation organization challenges;
- develop a career objective and begin to implement a clear plan for achieving it; and
- demonstrate an understanding of and the ability to apply ethical decision-making to sport and recreation industry challenges.

## Requirements

The Master of Arts program in sport and recreation management requires a minimum of 30 s.h. Required coursework ( 21 s.h.) includes experiential learning in a field experience course and a capstone course that allows students to perform research in an area of interest that has practical application during the final semester before graduation.

The MA with a major in sport and recreation management requires the following coursework.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| All of these: |  |  |
| SRM:4197 | Sport and Recreation Field Experience | 3 |
| or SRM:4199 | Independent Sport and Recreation Field Experience |  |
| SRM:5065 | The Economy of Experience | 3 |
| SRM:6251 | Risk Management | 3 |
| SRM:6252 | Economics and Financing | 3 |
| SRM:6253 | Sport Administration | 3 |
| SRM:6254 | Marketing and Sport Promotion | 3 |
| SRM:6255 | Capstone Project | 3 |
| Electives (advisor approval required for electives; no more than 3 s .h. in elective credit may be taken in SRM:4197 and SRM:4199 combined) |  |  |

Total Hours

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants also must meet sport and recreation management program requirements, which include:

- a U.S. baccalaureate degree from a regionally accredited college or university or an equivalent degree from another country as determined by the Office of Admissions;
- a minimum grade-point average of at least 3.00 or the international equivalent as determined by the Office of Admissions;
- a personal statement;
- three letters of recommendation;
- a résumé; and
- international applicants whose native language is other than English must comply with the Graduate College guidelines for admission, which include submission of an acceptable score on the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET), and any other Office of Admission requirements.

Application deadlines are:

- Fall semester-Feb. 1
- Spring semester-Oct. 1
- Summer session-Feb. 1

Applications submitted after the deadline will be considered only if there is available space.

## Financial Support

The sport and recreation management program offers a limited number of teaching assistantships. Applicants interested in being considered for a position should indicate their interest when they submit their online application.

## Career Advancement

Through academic coursework, practical experience, an individualized capstone project, and a network of industry contacts, the program is designed to help students achieve their unique professional and educational goals. Alumni find employment in such settings as professional team front offices, college and high school athletic departments, campus and community recreation programs, agencies serving sport and recreation clients, league offices, coaching, and in a number of other areas.

The faculty provides individual mentoring to students and offers several opportunities for students to connect with industry professionals throughout the year to learn about internships and jobs.
The Office of Field Experience in the sport and recreation management program in the Department of Health and Human Physiology assists students in finding their specific connection to the industry. The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
b No more than 3 s.h. of elective credit may be taken in SRM:4197 and SRM:4199 combined; work with faculty advisor to determine appropriate graduate coursework and sequence.
c Includes oral and written components.

## Health and Human Physiology, MS

## Learning Outcomes

## Child Life Subprogram

Graduates will:

- demonstrate an understanding of developmental and psychosocial needs of children and families in health care settings and the assessment, planning, implementation, and documentation of developmentally appropriate child life interventions;
- demonstrate an understanding of stressful life experiences and coping techniques for children and families from a family systems perspective;
- demonstrate the ability to maintain relationships with children, families, peers, and an approach to teamwork and collaboration skills;
- demonstrate an understanding of therapeutic play and creating a therapeutic environment with opportunities in health care and community settings;
- demonstrate effective oral and written communication and strong critical thinking skills;
- learn to analyze and present research and evidenced-based practice related to children and families;
- prepare for the role of a certified child life specialist in hospitals and community-based facilities; and
- successfully complete a child life practicum, a child life internship, and meet all requirements and pass the certification exam.

## Clinical Exercise Physiology Subprogram

## Graduates will

- demonstrate a comprehensive understanding of normal and abnormal cardiovascular, respiratory, and exercise physiology;
- demonstrate a comprehensive understanding of pharmacokinetics, mechanisms of action, indication, contraindication, and names of common cardiac, vascular, metabolic, pulmonary, hematological, and neurological drugs;
- demonstrate a comprehensive understanding of physical activity assessment, the major determinants of physical activity behaviors and the application of physical activity behavior change strategies;
- demonstrate a comprehensive understanding of metabolic exercise testing and exercise prescription for healthy adults;
- demonstrate understanding of beginning and intermediate electrocardiography (ECG), exercise testing, and exercise prescription for adults with cardiovascular, pulmonary, or metabolic disease;
- demonstrate competency in clinical skills, including taking health screening, heart rate pulse, blood pressure, and pulse oximetry at rest and during exercise;
- understand basic research methods, study design, and statistical analysis; and
- read, interpret, and critique scientific papers in clinical exercise physiology.

## MS in Health and Human Physiology Without Subprogram

- demonstrate understanding and critical evaluation of the scholarly literature in the area of specialization within human physiology and/or health promotion;
- formulate testable research questions and hypotheses resulting in proper experimental study design and analysis plan;
- conduct quantitative or qualitative research including data collection, analysis, and interpretation of results in the context of current scientific knowledge; and
- present scientific results to the department, university, or regional/ national scientific community.

## Requirements

The Master of Science program in health and human physiology requires $30-36$ s.h. of graduate credit. Required credit varies by subprogram: the child life subprogram requires a minimum of 36 s.h. and is offered without a thesis; the clinical exercise physiology subprogram requires a minimum of 33 s.h. and is offered without a thesis; the MS program in health and human physiology requires a minimum of 30 s.h. and is offered with a thesis.

Students interested in pursuing a PhD after earning a master's degree should choose the MS in health and physiology program with a thesis.

## Child Life Subprogram

The child life subprogram provides expertise in child development through services to support families and to promote children's mastery of life experiences, particularly children's health care events. Professionals in this area enhance effective coping skills through play, education, communication, and family-centered care. The program prepares students to meet credentialing requirements. For more information about the profession, visit the Association of Child Life Professionals.

In order to be admitted to the subprogram, students must:

- hold a BS or BA degree with a grade-point average (GPA) of at least 3.00;
- have completed one course each in human anatomy, medical terminology, and two courses in child development that focus on children and adolescents;
- have verification of 100 hours of paid or volunteer experience in child life or in a pediatric setting; and
- three letters of recommendation (e.g., from a certified child life specialist, professor, advisor, and/or someone who has observed the student working with children and families in health care or non-health care settings)

Students who have not completed an introductory course in child life must enroll in TR:2077 Introduction to Child Life during their first semester.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET).

Students who pursue the child life subprogram must successfully pass comprehensive exams in the last semester prior to their child life internship. The comprehensive exam committee works with each student to develop exam questions.

The MS in health and human physiology with the child life subprogram requires the following coursework (minimum of 36 s.h.).

## Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| PSQF:4143/ | Introduction to Statistical | 3 |
| STAT:4143 | Methods |  |
| TR:5165 | Child Life: Child Development <br> and Healthcare Interventions | 3 |
| TR:5166 | Child Life: Seminar | 3 |
| TR:5167 | Child Life Practicum | 3 |
| TR:5211 | Professional Ethics and Practice <br> in Pediatrics | 3 |
| TR:5260 | Play and Childhood | 3 |
| TR:5261 | Family Systems | 3 |
| One of these: | Loss, Death, and Bereavement | 3 |
| CSED:4131 | Death/Dying: Issues Across the <br> SSW:3786/ASP:3786 Span | $3-4$ |
| One of these: | Advanced Research Methods | 3 |
| HHP:6020 | and Ethics | Research Methods and Play <br> Behavior |
| TR:5205 | Life | $1-3$ |

## Internship

The supervised internship requires 600 contact hours with a certified child life specialist.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  |  |
| TR:5270 | Child Life Internship | 9 |

## Clinical Exercise Physiology Subprogram

The clinical exercise physiology subprogram provides advanced scientific and clinical education. It prepares students to be allied health professionals who work in the application of physical activity and behavioral interventions for clinical diseases and health conditions including cardiovascular, pulmonary, metabolic, orthopedic, neuromuscular, immunologic, and hematologic diseases.

In order to be admitted to the subprogram, students must:

- hold a BS or BA degree with a GPA of at least 3.00; and
- have completed anatomy and physiology with laboratories (8 s.h.).

The Master of Science with the clinical exercise physiology subprogram requires the following coursework (minimum of 33 s.h.).

Core

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Physical Activity and Dietary <br> Behavior Change | 3 |
| HHP:6030 | Advanced Clinical Exercise <br> Physiology (consult advisor for <br> semester hours required) | 1,3 |
| HHP:6150 | Advanced Metabolic Exercise <br> Testing and Prescription <br> HHP:6200 | Advanced Respiratory <br> Pathophysiology (consult <br> advisor for semester hours <br> required) |

HHP:6410

HHP:6460

## PCOL:3101

## Statistics

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| One of these introductory courses (or equivalent): |  |  |
| BIOS:4120 | Introduction to Biostatistics | 3 |
| PSQF:6242 | Selected Applications of Statistics | 3 |

| Two enrollments (1 s.h. each) chosen from these: |  |  |
| HHP:6300 | Motor Control Seminar | 1 |
| HHP:6400 | Integrative Physiology Seminar | 1 |
| HHP:6500 | Seminar in Health Promotion | 1 |

## General Elective Courses

Students choose elective courses that broaden their knowledge in health and human physiology and related disciplines, and enhance their knowledge in their specific areas of interest, with guidance from their advisor/mentor; electives may include the following.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| HHP:3050 | Obesity | 3 |
| HHP:3450 | Immunology in Health and Disease | 3 |
| HHP:4020 | Health Coaching | 3 |
| HHP:4320 | Nutrition Interventions | 3 |
| HHP:4350 | Health and Human Physiology Practicum | 1-3 |
| HHP:4365 | Internship in Health Coaching | 3 |
| HHP:4390 | Understanding Human Disease | 3 |
| HHP:4420 | Planning and Evaluating Health Interventions | 3 |
| HHP:4450 | Human Genetics and Disease | 3-4 |
| HHP:5200 | Physical Activity Epidemiology | 3 |
| HHP:6000 | Research | arr. |
| HHP:6030 | Physical Activity and Dietary Behavior Change | 3 |
| HHP:6130 | Advanced Skeletal Muscle Physiology | 1,3 |
| HHP:6150 | Advanced Clinical Exercise Physiology | 1,3 |
| HHP:6200 | Advanced Metabolic Exercise Testing and Prescription | 1,4 |
| HHP:6260 | Advanced Respiratory Pathophysiology | 1,3 |
| HHP:6410 | Advanced Integrative Physiology of Exercise | 1,3 |
| HHP:6460 | Advanced Cardiovascular Physiology | 1,3 |
| HHP:6470 | Advanced Physiology of Aging | 1,3 |
| HHP:6510 | Advanced Energetics in Health and Disease | 1,3 |
| ННР:7300 | Advanced Sensorimotor Neurophysiology | 1,3 |
| ACB:5203 | Gross Human Anatomy for Graduate Students | 5-6 |
| BMB:3110 | Biochemistry | 3 |
| EPID:4400 | Epidemiology I: Principles | 3 |
| EPID:6350 | Nutritional Epidemiology | 2 |
| EPID:6400 | Epidemiology II: Advanced Methods | 4 |
| EPID:6600 | Epidemiology of Chronic Diseases | 3 |
| MPB:5153 | Graduate Physiology | 4 |
| PTRS:7812 | Biomedical Instrumentation and Measurement | 3 |
| PTRS:7875 | Analysis of Activity-Based Neural and Musculoskeletal Plasticity | 3 |

## Thesis

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  |  |
| HHP:7500 | Thesis: MS | 4 |

## Admission

Admission to the department's graduate programs is based on gradepoint average, and score on the Graduate Record Examination (GRE) General Test or the International English Language Testing System (IELTS). International students also can submit acceptable scores on the Test of English as a Foreign Language (TOEFL) or the Duolingo English Test (DET).

Applicants to the MS program must have an undergraduate gradepoint average of at least 3.00 . They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application deadline is Feb. 1 for admission the following fall.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Health and Human Physiology, MS

- Child Life Subprogram [p. 629]
- Clinical Exercise Physiology Subprogram [p. 629]
- Health and Human Physiology with Thesis [p. 630]

e Choose from HHP:6300, HHP:6400, HHP:6500; enroll two times for $1 \mathrm{~s} . \mathrm{h}$. each.

## Health and Human Physiology, PhD

## Learning Outcomes

Graduates will:

- demonstrate understanding and critical evaluation of the scholarly literature in the area of specialization within human physiology and/or health promotion;
- formulate testable research questions and hypotheses resulting in proper experimental study design and analysis plans;
- conduct quantitative or qualitative research including data collection, analysis, and interpretation of results in the context of current scientific knowledge;
- present research results in oral, poster, and/or written format to the scientific community;
- prepare a research grant or fellowship for an extramural federal, state, or private funding agency; and
- prepare original research manuscript(s) as the first author for submission to a peer-reviewed scientific journal.

## Requirements

The Doctor of Philosophy program in health and human physiology requires a minimum of $72 \mathrm{~s} . \mathrm{h}$. of graduate credit.

Doctoral students should have a strong background in the natural sciences and/or health promotion, and a working knowledge of statistics and research methodology. Students may acquire additional knowledge of statistics and research methodology after entering the program.

All PhD students complete a common core of courses, elective courses, 10 s.h. of independent research in HHP:6000 Research, and a 12 s.h. dissertation requirement in HHP:7900 Thesis: PhD They must complete a dissertation in their specialization area.

Some courses in the program are offered by other departments. Faculty members from those departments frequently serve on comprehensive examination committees and on dissertation committees for the initial presentation of a candidate's prospectus. They also participate in the final examination.

The PhD with a major in health and human physiology requires the following coursework.

## Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Research | arr. |
| HHP:6000 | Advanced Research Methods <br> and Ethics | 3 |
| HHP:6020 | Practicum in College Teaching <br> (only for students without a <br> teaching assistantship) | arr. |
| HHP:7900 | Thesis: PhD | arr. |

## Introductory Statistics Course

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| BIOS:4120 | Introduction to Biostatistics | 3 |
| PSQF:6242 | Selected Applications of | 3 |

| STAT:3510/ | Biostatistics | 3 |
| :--- | :--- | :---: |
| IGPI:3510 |  |  |
| STAT:4143/ | Introduction to Statistical | 3 |
| PSQF:4143 | Methods |  |

## Advanced Statistics Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Two advanced statistics courses, such as the following <br> (consult advisor): |  |  |
| BIOS:5120/ Regression Modeling and <br> IGPI:5120/ ANOVA in the Health Sciences | 3 |  |
| STAT:5610 | Intermediate Statistical Methods | 3 |
| STAT:6513/  |  |  |

## Seminar Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Four enrollments (1 s.h. each) from the following: |  |  |
| HHP:6300 | Motor Control Seminar | 1 |
| HHP:6400 | Integrative Physiology Seminar | 1 |
| HHP:6500 | Seminar in Health Promotion | 1 |

## General Electives

Students are expected to obtain broad-based knowledge in their specialization area. This normally entails approximately 30 s.h. of coursework. Students choose specialization electives with guidance from their advisor/mentor. Electives may include any of the following.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| ННР:4020 | Health Coaching | 3 |
| HHP:4320 | Nutrition Interventions | 3 |
| ННР:4365 | Internship in Health Coaching | 3 |
| HHP:4420 | Planning and Evaluating Health Interventions | 3 |
| HHP:5200 | Physical Activity Epidemiology | 3 |
| HHP:6030 | Physical Activity and Dietary Behavior Change | 3 |
| ННР:6130 | Advanced Skeletal Muscle Physiology | 1,3 |
| ННР:6150 | Advanced Clinical Exercise Physiology | 1,3 |
| ННР:6200 | Advanced Metabolic Exercise Testing and Prescription | 1,4 |
| ННР:6260 | Advanced Respiratory Pathophysiology | 1,3 |
| ННР:6310 | Advanced Sport and Exercise Nutrition | 3 |
| HHP:6410 | Advanced Integrative Physiology of Exercise | 1,3 |
| HHP:6460 | Advanced Cardiovascular Physiology | 1,3 |
| HHP:6470 | Advanced Physiology of Aging | 1,3 |
| HНP:6510 | Advanced Energetics in Health and Disease | 1,3 |
| HHP:7300 | Advanced Sensorimotor Neurophysiology | 1,3 |
| ACB:5203 | Gross Human Anatomy for Graduate Students | 5-6 |
| BMB:3110 | Biochemistry | 3 |
| BMB:3120 | Biochemistry and Molecular Biology I | 3 |

| BMB:3130 | Biochemistry and Molecular <br> Biology II | 3 |
| :--- | :--- | ---: |
| EPID:4400 | Epidemiology I: Principles | 3 |
| EPID:5241 | Statistical Methods in <br> Epidemiology | 4 |
| EPID:6100 | Writing a Grant Proposal | 3 |
| EPID:6350 | Nutritional Epidemiology <br> Epidemiology II: Advanced <br> Methods | 2 |
| EPID:6600 | Epidemiology of Chronic <br> Diseases <br> Redox Biology and Medicine | 4 |
| FRRB:7000 | Pathogenesis of Metabolic and <br> Cardiovascular Disorders | 3 |
| MMED:6230 | Graduate Physiology | 4 |
| MPB:5153 | Neurobiology of Disease |  |
| NSCI:7235/ | Occupational Ergonomics: <br> PE Principles | 4 |
| OEH:4310 | Pharmacology I: A Drug's <br> Fantastic Journey | 3 |
| PCOL:3101 | Pharmacology II: Mechanisms <br> of Drug Action | 3 |
| PCOL:3102 | Drug Mechanisms and Actions <br> Kinesiology and <br> Pathomechanics | 3 |
| PCOL:4130 | Activity-Based Neural and <br> Musculoskeletal Plasticity in <br> Health Care | 3 |
| PTRS:5210 | Biomedical Instrumentation and <br> Measurement | 4 |
| PTRS:6224 | Analysis of Activity-Based <br> Neural and Musculoskeletal <br> Plasticity | 3 |
| PTRS:7812 | PTRS:7875 | 3 |

## Independent Research

Students must enroll in the independent research course.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  |  |
| HHP:6000 | Research | 10 |

## Dissertation

Students working on a dissertation register for the following course.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| HHP:7900 | Thesis: PhD | 12 |

## Admission

Admission to the graduate program is based on grade-point average, and score on the Graduate Record Examination (GRE) General Test or International English Language Testing System (IELTS). International students also can submit acceptable scores on the Test of English as a Foreign Language (TOEFL) or the Duolingo English Test (DET).

Applicants to the PhD program must have a grade-point average of at least 3.00 on undergraduate work and previous graduate work. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## History

## Chair

- Colin Gordon

## Director, Graduate Program

- Mariola Espinosa

## Director, Undergraduate Program

- Nick Yablon

## Undergraduate major: history (BA)

Undergraduate minor: history
Graduate degrees: MA in history; PhD in history
Faculty: https://clas.uiowa.edu/history/people/
Website: https://clas.uiowa.edu/history/
History is the heart of a liberal arts education. Students of history develop an understanding of change-how it happens and why it happens the way it does-that enables them to engage the world they inhabit and to participate fully in civic life. Department of History courses engage the diversity of American life and bring a global consciousness that helps students navigate the streets (and the news) from Iowa City to Berlin to Dar es Salaam.

Faculty and students in the department participate in many of the university's interdisciplinary departments and programs, including the departments of African American Studies, American Studies, Asian and Slavic Languages and Literatures, Classics, Gender, Women's, and Sexuality Studies, Global Health Studies, International Studies, Latin American Studies, and Latina/o/x Studies; and the Native American and Indigenous Studies program.
In addition to the undergraduate and graduate programs offered by the Department of History, many history courses are approved for the GE CLAS Core. Look for courses with prefix HIST under Diversity and Inclusion, Historical Perspectives, International and Global Issues, and Values and Culture areas in the GE CLAS Core [p. 19] section of the catalog. History courses approved for the GE CLAS Core may not be taken pass/nonpass, even when they are taken as electives.

## Programs

## Undergraduate Programs of Study Major

- Major in History (Bachelor of Arts) [p. 646]

Minor

- Minor in History [p. 650]

Graduate Programs of Study

## Majors

- Doctor of Philosophy in History [p. 653]

## Facilities

The University of Iowa Libraries offer excellent resources for undergraduate study in all fields of history, with distinct strengths in U.S. history. The Main Library houses the Henry A. Wallace papers and related collections, the Iowa Women's Archives, and other unique materials. Special Collections has a vast archive of both printed and
digitized materials, including five decades of papers and work donated by television news correspondent Tom Brokaw. The State Historical Society of Iowa in Iowa City and the Herbert Hoover Presidential Library and Museum in West Branch also hold valuable research materials. The Digital Scholarship and Publishing Studio offers assistance with projects in the digital humanities.

## Courses

## History Courses

History majors should take HIST:2151 Introduction to the History Major during their sophomore year or the first semester after they declare the major. First-year students planning to major in history may be admitted to HIST:2151 with permission from the director of undergraduate studies in the Department of History.

## HIST:1000 First-Year Seminar 1-2 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

## HIST:1010 History Matters <br> 3 s.h.

How do we understand the past on its own terms and what is its relevance to the present? Introduction to historical thinking through a variety of topics. GE: Historical Perspectives.
HIST:1016 The History That Made Our World 3 s.h.
How does history help to explain our interconnected world? Introduction to international and global thinking through a variety of topics. GE: Historical Perspectives; International and Global Issues.

## HIST:1025 Medieval Religion and Culture

3 s.h.
Religion in Europe from classical antiquity to dawn of the Reformation; the religious element in traditions such as art, architecture, literature. GE: Historical Perspectives. Same as RELS: 1225.

## HIST:1030 Introduction to Islamic Civilization 3 s.h

 Survey of texts, ideas, events, institutions, geography, communities, literature, arts, sciences, and cultures in Islamic communities and societies since the 7th century. GE: International and Global Issues; Values and Culture. Same as RELS:1130.HIST:1040 Diversity in History 3 s.h.
How did diversity affect past societies? How does history help us to understand diversity today? Introduction to thinking about diversity and inclusion; topics vary. GE: Diversity and Inclusion.
HIST:1049 Introduction to Native American and Indigenous Studies

3 s.h.
Exploration of past, present, and future of American Indians in the United States and beyond through film, art, music, and comedy. GE: Values and Culture. Same as AMST:1049, NAIS:1049.

## HIST:1050 Modern Religion and Culture 3 sh

European and American religious life from Renaissance to 21st century; focus on specific themes, such as secularism, regionalism, pluralism. GE: Historical Perspectives. Same as RELS:1250.
HIST: 1101 The Modern World 3 s.h.
How did today's globalized world come to be? Which aspects of globalization are new and which are inherited from the past? Taking a long-term perspective, this course traces the development and acceleration of global interdependence since the 14th century; how far-flung parts of the globe have been linked to one another, how long-distance connections affected the societies involved, and how individuals have experienced and contributed to such global networks; students develop an understanding of globalization's long history leading up to the present and of their place in contemporary global networks. GE: Historical Perspectives.

## HIST:1115 The History of Oil <br> 3 s.h.

Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Sustainability. GE: Historical Perspectives. Same as EES:1115, ENVS:1115, GEOG:1115.

## HIST:1166 Rapid Response History <br> 1 s.h.

Bringing historians' expertise to bear on breaking news.
HIST:1216 The American Dream in Historical Context 1-3 s.h. Introduction to the "American Dream" from the perspective of workers in the United States.

## HIST:1261 American History to 1877

America before European colonization; encounters between Native Americans, Europeans, and Africans in North America; the rise and decline of European imperial powers; the independence and expansion of the American republic; economic, political, and social change from the American Revolutionary era through Civil War and Reconstruction. GE: Historical Perspectives.
HIST:1262 American History 1877-Present 3 s.h.
America since Civil War and Reconstruction; politics, society, and culture from the post-Civil War decades through the Progressive Era, the Great Depression, and two world wars; the "Cold War" with Soviet communism abroad and at home, social protest movements and their influence on electoral politics, and the evolving economic and political role of U.S. in the world. GE: Historical Perspectives.

## HIST:1290 Native American Foods and Foodways

Native Americans as original farmers of $46 \%$ of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Diversity and Inclusion. Same as AMST:1290, GHS:1290, NAIS:1290.

## HIST:1401 The West and the World: Ancient

3 s.h.
Many consider Greece and Rome important influences for the modern West, but who influenced the Greeks and Romans? Students look to the ancient Near East, home to civilizations such as Egypt and the Babylonians, and investigate the formation of larger communities, study how peoples of the ancient Mediterranean viewed their world, follow the paths of Greeks and Romans, and end with Christianization of the Roman Empire, to not only understand the history of the period, but also learn how to think, read, and write critically. GE: Historical Perspectives.
HIST:1402 The West and the World: Medieval 3 s.h. How have events of European history shaped modern institutions, politics, and culture worldwide, and how have other regions of the world shaped Europe? Students explore this question by tracing European history in a global context from the late Roman Empire to the 18 th century to not only understand this history, but also learn how to read, write, and think critically about it. GE: Historical Perspectives.

HIST:1403 The West and the World: Modern 3 s.h.
Why are debates about Western Civilization so heated? What is the relationship between the West and other world regions? Exploration of the idea of "the West" as it evolved from interactions between modern Europe, its colonies, and other regions; overview of topics including politics, slavery, global economy, colonialism, migration, and cultural norms over the last 300 years. GE: Historical Perspectives; International and Global Issues.

HIST:1601 Civilizations of Asia: China from Origins to the 17th Century

3 s.h.
Introductory survey of Chinese history and civilization from its origins to 1800; exploration of traditions in politics, social organization, thought, religion, and culture. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1601.

## HIST: 1602 Civilizations of Asia: China from the 17th Century to the Present <br> 3 s.h.

Introductory survey of Chinese history from the 17th century to present; exploration of political, social, economics, and culture. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1602.

HIST: 1604 Civilizations of Asia: Japan
3-4 s.h.
GE: Historical Perspectives; International and Global Issues. Same as ASIA:1604.
HIST:1606 Civilizations of Asia: South Asia 3-4 s.h.
Civilization of a vast region that includes India, Pakistan, Bangladesh, Nepal, and Sri Lanka. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1606, RELS:1606.

## HIST:1607 Civilizations of Asia: Korea 3-4 s.h.

Introduction to Korean history and culture; how meanings of "Korea" and "Koreans" changed from ancient times to present; relevant issues of politics, society, and culture; events that shaped ancient Korean states—Koryo state (918-1392), the Choson dynasty (1392-1910), Japanese colonization (1910-1945), and the two Koreas (1945present); how present perspectives on Korea have influenced understandings of its past. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1607.
HIST:1609 India Now! Surveying the World's Largest Democracy
Introduction to India and its place in global economics, politics, religion, science, and culture since independence in 1947; India's contributions and adaptations to contemporary world, gender roles, changing sexual standards, and new ways India enters American lives-from globalized Bollywood films and music to new foods, fashions, and lifestyles; students examine the quiet revolution of affirmative action that has brought self-respect to millions, and market liberalization that has heightened economic inequality; consideration of ongoing challenges to world's largest democracy and contemporary efforts, both peaceful and violent, to address them. GE: Values and Culture. Same as ASIA:1609.

HIST:1610 Introduction to Asian Religions 3 s.h Religious beliefs, practices in India, China, Japan. GE: Values and Culture. Same as ASIA:1040, RELS:1404.

HIST: 1612 Introduction to Buddhism
3 s.h.
Development of Buddhism in India, its spread across Asia, and arrival in the West; exploration of diverse Buddhist philosophies, practices, and cultures; readings from India, Tibet, China, Japan, Korea, and Southeast Asia. GE: Values and Culture. Same as ASIA:1060, RELS: 1506.

HIST: 1708 Civilizations of Africa
Introduction to the study of Africa; brief survey of African history; aspects of modern African life, including political and social issues, economic and health problems (including HIV/AIDS); classroom discussion of selected African films and assigned African novels. GE: Values and Culture.

HIST:2120 World History: Stone Age to Feudal Age 3 s.h. World history from human origins, through classical antiquity, to the 16th century; political, economic, and environmental forces contributing to social transformations. Same as IS:2120.

HIST:2122 World History: Feudal Age to Nuclear Age 3 s.h. World history from the late 1400 s to 1945 ; colonialism, imperialism, capitalism, and industrialization as forces of global social and cultural transformation. Same as IS:2122.

## HIST:2148 The Invention of Writing: From Cuneiform to Computers

Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

HIST:2150 Jews, Judaism, and Social Justice 3 s.h. Jewish frameworks for grappling with justice and ethics from ancient world to present day; emphasis on internal diversity of Jewish experience as well as interactions with dominant and other minority cultures. Same as GWSS:2050, RELS:2250, SJUS:2050.

## HIST:2151 Introduction to the History Major <br> 3 s.h.

Topics vary; development of skills needed to succeed as a history major and post-graduation; exploration of diverse sources historians use (textual, visual, oral history, digital, material culture); examination of primary sources created by the people studied; analysis of how historians comb evidence to offer varying interpretations of controversies; how to frame historical questions, find and interpret relevant sources, integrate them into clear arguments; the ways history is used in public life (public service, education, policy making, political debate, information management, culture industry); students complete at least one graded paper to be included in history portfolio (HIST:3193). Requirements: history major.
HIST:2190 The Book in Global History
3 s.h.
Introduction to history of the book and book arts in diverse global contexts; histories of visual and verbal media, cross-cultural exchange, and the book's impact across time and space; hands-on work with historical books and book arts including papermaking, woodblock and letterpress printing, and binding. GE: Historical Perspectives. Same as ENGL:2901, UICB:2190.

## HIST:2195 Digital History Workshop 3-4 s.h.

Introduction to use of new media in historical research and writing; web-based publishing and blogging; photo, text, and video editing; digital mapping; curation of digital resources; projects may include short documentary videos, web development, mapping projects, or collaborative curation (identifying, digitizing, annotating artifacts or documents from university collections) in collaboration with UI Libraries Digital Research and Publishing.

## HIST:2230 Fame and Celebrity in U.S. History

Cultural history of the meanings and implications of fame and celebrity in America; conception of fame in the 18th century as something earned through great deeds and conferred by future generations; rise of a culture of celebrity in 19th- and 20th-century America; focus on theater, sports, movie, and musical stars; use of celebrities to sell products; implications for presidential campaigns; instant and ephemeral celebrity generated by television and the internet. Same as AMST:2230.
HIST:2250 The History of Social Justice Movements 3 s.h. History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as GWSS:2250, SJUS:2250.

HIST:2266 Civil War and Emancipation
3 s.h.
160 years later, what can we learn about American history from studying a war that both killed and liberated an unprecedented number of people? Why did it take a war to end slavery? How did emancipation occur and how did enslaved people accelerate the destruction of U.S. slavery during the war? Same as AFAM:2266.

## HIST:2267 African American History to 1877: From Slave Cabin to Senate Floor 3 s.h.

Experiences of African and African American people in the American colonies and the states of the new nation; history of Africans and African Americans as early settlers, enslaved and free, in places such as Detroit, Chicago, New York, and New Orleans; interactions with Indigenous people; role in the war for American independence; long history of resistance to slavery and racial discrimination; exploration of the rich history of community building, creation of significant Black social and cultural institutions, and formation of Black political thought and political activism. GE: Diversity and Inclusion. Same as AFAM:2267.
HIST:2268 African American History Since the Civil War 3 s.h. Exploration of racial oppression of African Americans and multiracial struggles against that oppression since the Civil War era; students examine the history of racism at individualized and systematic levels; historical efforts made by individuals and collective movements in service of the long Black freedom struggle; and the ways these twinned histories have shaped modern America. GE: Diversity and Inclusion. Same as AFAM:2268.

## HIST:2280 Introduction to Latina/o/x Studies 3 s.h.

 Introduction to field of Latina/o/x studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o/x populations (i.e., Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (i.e., Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Taught in English. GE: Diversity and Inclusion. Same as LATS:2280.HIST:2288 Latina/o/x History from Conquest to the Present 3 s.h. Beginning with 16 th century and stretching to the present, students map varied terrains of Latina/o/x history, exploring Mexican American, Puerto Rican, Cuban American, Dominican American, and Central American experiences in the United States; major themes include details of conquest and resistance, immigration, work, and creation of racial, gendered, and sexual differences within and between Latino/a/x communities; focus on shared Latina/o/x identity and changing images of Latina/o/x peoples within American popular culture; effects of current political issues on Latina/o/x community today.
HIST:2292 Native American Law and Policy: A History 3 s.h.
Native Americans are citizens of governments that predate the U.S.; what it means to be a citizen of a federally recognized tribe within the U.S.; exploration of the peculiar status of Native nations and their citizens since 1789. Same as AMST:2292, NAIS:2292.

HIST:2294 Indigenous Art Activism and Social Justice 3 s.h.
Examination of the Native and political aspects of Native arts in the 19th and 20th centuries, from drawings and material culture produced for tourists and collectors to works that explicitly address Native oppression through federal policies, popular cultural appropriations, and colonial representations of Indigenous peoples; emphasis on Indigenous interpretations of colonial and settler history and culture through various media and representations of Indigenous identity and politics. Same as NAIS:2294, SJUS:2294.

HIST:2420 Germany in the World 3-4 s.h.
The Federal Republic of Germany's increasing prominence in postCold War international affairs against backdrop of 20th-century history; Germany's role in the European Union and the changing relationship between Europe and the United States. Taught in English. GE: International and Global Issues. Same as GRMN:2720.

HIST:2431 Roman Law, Order, and Crime 3 s.h.
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Same as CLSA:2151.

## HIST:2444 Engineering and Technology in the Ancient

 WorldTechnologies developed and used in the ancient world-primarily in Greece and Rome, also in Egypt and the Ancient Near East; agriculture and food preparation; construction and architecture; technologies related to warfare. Same as CLSA:2144.

## HIST:2461 Middle East and Mediterranean: Alexander to

 SuleimanGE: Historical Perspectives. Same as CLSA:2461, RELS:2361.
HIST:2465 Europe Since 19453 s.h.
Europe since World War II: recovery, cold war, social and economic change, global perspectives.

## HIST:2483 History of Britain: Fall of Rome to the Norman

 Conquest3 s.h.
History of Britain from fall of Rome (after 410) and through AngloSaxon era, until Norman Conquest of 1066; Anglo-Saxon kings and kingdoms, church and society; poetry, historical writings, archaeology.

HIST:2684 Korean War: Local and Global History 3 s.h.
Examination of the Korean War as a local, regional, and global event; major topics of the war including its origins, methods of warfare, refugee question, war crimes, POWs, propaganda, memory, and commemoration from the perspective of multiple nations; discussion and analysis of scholarly works, textbooks, diplomatic documents, memoirs, fiction, visual sources, and film. Same as ASIA:2684.

## HIST:2687 Perspectives on Korea

3 s.h.
History of Korea from earliest times to present; changing meanings of Korea and Koreans; relevant issues of politics, society, and culture; events that shaped ancient Korean kingdoms, the Choson dynasty (1392-1910), Japanese occupation, and divided Korean peninsula; how present perspectives on Korea have influenced understandings of its past; placement of Korea within a regional and global context to examine Korea's relationship with the world. Same as ASIA:2887.

## HIST:2802 Gender, Religion, and Social Identities in the Modern Middle East

3 s.h.
Gender, religion, and social identities historically have served to articulate notions of modernity, community, and political ideologies; in the Middle East and North Africa, these categories have been used to assert European colonial and racial supremacy and patriarchal dominance as well as anti-colonial resistance and social revolution; examination of the formulations of gender, religion, and social identities with special emphasis on reformulation of individual and communitarian identities in the region after independence from European colonial powers.
HIST:2804 The Middle East Through Graphic Novels and Animated Film
Contemporary history of the Middle East and North Africa with emphasis on visual media-comics, animated films, and political cartoons; art as political manipulation/expression and resistance; students gain knowledge through a variety of personal accounts about the Arab-Israeli conflict, Lebanese Civil War, civil war in Syria, or Islamic revolution in Iran.

HIST:2810 The Modern Middle East
3 s.h.
Fundamental questions that go beyond the boundaries of the Middle East and North Africa (e.g., legacy of colonialism, race/racism, identity, citizenship, violence); roots of present events.
HIST:3101 History Internship
1-6 s.h.
Internship involving historical work. Requirements: consent of director of undergraduate studies and Pomerantz Career Center.

## HIST:3106 History Behind the Headlines

1-3 s.h.
Examination of selected national and international news stories and their historical background; a goal of creating informed world citizens.
HIST:3108 History of Human Rights 3 s.h.
Introduction to history of human rights in the 20th century; disjuncture between human rights in theory and in practice; provides an international approach to the history of human rights by situating U.S. human rights activism and policy in a global context; focus on human rights following World War II, contradictory impact of the Cold War; emergence of human rights politics in 1970s United States, challenges of post-Cold War human rights activism, and human rights rhetoric of the Global War on Terrorism.

## HIST:3126 History of Globalization

3 s.h.
Broad overview of globalization in modern world history; focus on evolution of international business, world economy, interstate system, and cultural interchange in 19th and 20th centuries; longdistance trade and exchange; global economy under British Empire; globalization after 1945 following a 30 -year period of nationalism, war, and depression; global market integration in late 20th century under American supremacy.
HIST:3128 Topics in Global Environmental History 3 s.h.
Examination of changing relationship over time between humans and nonhuman world in global and transregional contexts; environmental history from different angles; how humans have depended on, interacted with, and been shaped by natural world over time; how people have perceived and assigned meaning to natural world around them; how human attitudes and actions have altered or reshaped landscapes and their inhabitants; becoming sensitive to gendered, class, and racial aspects of environmental change; topics, scope, and time periods may vary.
HIST:3131 Unnatural Disasters: A Global History 3 s.h.
What is a natural disaster? How do we assess "naturalness" of these events within political, social, and historical contexts in which they occur? Are disasters specific moments of crisis, or rather, are they slow-unraveling across time and space years before and after the moment their pain is most acutely felt? Examination of these questions at a global scale. Same as GEOG:3131.
HIST:3133 Science, Technology, and Society in the Modern World 3 s.h.
Origins and history of modern science and technology in cultural, social, political, and economic context from 1500s to present, with focus on Europe and the United States.
HIST:3137 Politics of the Archaeological Past 3 s.h.
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, Indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as ANTH:3237, MUSM:3237.
HIST:3143 International Politics: The History of the
Present
3-4 s.h.
Historical approach to international relations; comprehensive overview of key developments and concepts in history of international politics.

## HIST:3145 Europe and the United States in the Twentieth Century

Traveling in time and across the Atlantic, through movies and documentaries, propaganda and art, government documents and private letters, students explore the history of Europe and the United States in the 20th century and watch major events unfold: impact of the Great War and rise of fascism, World War Two and the Holocaust, origins of the European Union and NATO, major crises and resolution of the Cold War, transatlantic conflict and cooperation.

## HIST: 3147 The Cold War

3 s.h.
Examine the contours of Cold War history from its roots prior to 1945 through the collapse of the Soviet Union in 1991; study a variety of perspectives in order to further elucidate the complexities of this period and the "new Cold War."
HIST:3150 Feminist Readings of History 3 s.h.
Feminist analysis has revolutionized the writing of history-not only on gender and sexuality, but also on topics as diverse as politics, economics, international relations, and social hierarchies (e.g., race, class, ability, religion); students examine feminist transformations of history with specific topics chosen by instructor. Same as GWSS:3150.

## HIST:3155 The World Since 19453 s.h.

HIST:3157 Gender, Sexuality, and Human Rights 3 s.h.
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as GWSS:3157.
HIST:3160 Malcolm X, King, and Human Rights 3 s.h.
Religion and politics of Malcolm X and Martin Luther King, Jr. in the context of U.S. civil rights and international human rights in West Africa and the Muslim world; emphasis on civil rights connections to Gandhi, the Nobel Peace prize, and other international experiences that have impacted Pan Africanists, such as Stokely Carmichael, who worked on human rights. Recommendations: international studies major or undergraduate standing. Same as AFAM:3500, RELS:3808.
HIST:3162 History of Global Health
3 s.h.
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as GHS:3162.

HIST:3171 Slavery in World History 3 s.h. Introduction to study of slavery through the lens of world history; exposure to a range of societies where slavery was prevalent; identification of similarities and differences over different time periods and geographical distances; exploration of Roman slavery, slavery in non-Islamic Africa, trans-Atlantic slave trade in the United States and the Caribbean, and Native American slaveries, among others.
HIST:3190 Medieval to Modern: The Birth of Protestantism 3 s.h. Same as RELS:3190.
$\begin{array}{lr}\text { HIST:3191 Individual Study: Undergraduate } & \text { arr. } \\ \text { HIST:3193 Undergraduate History Portfolio } & 0 \text { s.h. }\end{array}$
Submission of required history portfolio. Requirements: history major and senior standing.

HIST:3205 American Cultural History 3 s.h.
Nineteenth- and twentieth-century U.S. history from a cultural perspective; culture defined broadly to encompass paintings, sculpture, theater, novels, and newer forms of entertainment made available by lithography, photography, cinema, the phonograph, radio, and television; rather than assume Americans were passive consumers of commercial culture, students examine how Americans expressed themselves through foodways, home decor, clothing fashions, or slang; how Americans drew on these cultural forms in social/political struggles over race, gender, class, and sexuality. Same as AMST:3205.

## HIST:3217 Latina/o/x Immigration

3 s.h.
Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration-social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latina/o/x identity in the United States. Same as LAS:3217, LATS:3217.
HIST:3220 Pandemic Politics: The COVID-19 Crisis in Historical Perspective

3 s.h.
How the COVID-19 crisis marks an unprecedented public health and public policy moment in American history; challenges to public polices and governing institutions that have important parallels in earlier historical moments-particularly the Great Depression and the mobilization for World War II—and also mark important departures; examination of historical, political, and public policy implications of the COVID-19 crisis in the United States; placement of current moment in historical perspective; history of key public policies including public health, health insurance, employment security, and social assistance across the last century.

HIST:3230 American Environmental History 3 s.h. Introduction to environmental change in American history; humannature interactions from colonial period to recent past; food and agriculture, industrial technologies and transportation, energy production and consumption, urbanization and sprawl, public lands and public works, environmental politics and law, toxic pollution and health, natural disasters, climate change.

HIST:3232 History of American Inequality 3 s.h. Survey of causes and consequences of inequality in modern American history.

## HIST:3234 Hard Times, Hard Luck: Social Policy in the United States

Students examine the history of the American "safety net"; policies
that provide state assistance to individuals and families; history of public role in addressing poverty, unemployment, health, and retirement security; how policies and policy makers determine who is deserving or undeserving of public assistance; historical background of current social policy debates.

HIST:3240 U.S. Energy Policy in Global Context 3 s.h
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GEOG:3780, GHS:3780, POLI:3431.

HIST:3242 The United States in World Affairs 3-4 s.h. America's emergence as leader in world affairs; imperialism, international collaboration, participation in world wars, the Cold War.
HIST:3247 American Disasters
3 s.h.
Fault lines of American society and culture as exposed during catastrophe; history of American disaster investigated through methods from cultural history, visual theory, sociology, and media studies; varied disasters, 1800 to present, including those involving cities (Chicago fire, San Francisco earthquake, Chicago heat wave), transportation (Titanic, Challenger, Columbia), and environment (Union Carbide and Bhopal, Exxon Valdez); causes of catastrophes; how Americans react and are drawn to catastrophe (disaster films, jokes); related topics including technology, urbanism, race, class, apocalyptic religion, journalism, and popular culture.

## HIST:3249 Midwestern History

People of Iowa and surrounding Midwestern states-a land where people work hard, are practical, down to earth, and honest; the idea of a place in the heartland as real or simply a myth; history of Midwestern states from Native American occupation to present; how reality, ideas, and images are portrayed. Same as AMST:3249.

HIST:3250 American Stuff: Discovering History in Things 3 s.h. Introduction to the historical study of material artifacts; how people have used objects to construct their memories, identities (e.g., class, race, sexuality, gender, nation), relationships, and status/power; how objects have inadvertently shaped us; finding artifacts in local collections; analyzing artifacts as historical sources; researching how objects were produced and sold and how they were used or misused; curating one's own exhibition; objects range from utilitarian (e.g., guns, farming tools, office gadgets, automobiles) to decorations, toys, souvenirs, and more.

## HIST:3251 The Office: Business Life in America <br> 3 s.h.

History of business life in America from birth of Wall Street to rise of Silicon Valley; modes of managing and regulating office workers; changing designs of office buildings, furniture, gadgets; corporate response to rise of class inequalities and growing gender and racial diversity in workforce; portrayal of businessperson in novels, movies, television, art, photography. Same as AMST:3251.

## HIST:3253 The Civil Rights Movement 3 s.h.

History of the American civil rights movement. Same as AFAM:3053, AMST:3053.

HIST:3256 The Great Migration(s) in the Midwest 3 s.h.
Investigation of African American migration to and within the Midwest; first and second Great Migrations (1910-1940, 1940-1970); focus on reaction to and social, cultural, political, and economic impact of newcomers arrival; class time devoted to actual practice of historical research; students work on a collaborative project focused on the history of racial discrimination, housing segregation, and resistance to that oppression in Iowa's six metropolitan areas. Same as AFAM:3256.

## HIST:3257 Civil Rights and Racial Justice: A Tour Through the South 1-3 s.h.

Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or AFAM:2268 or HIST:2268 or AFAM:3053 or AMST:3053 or HIST:3253 or HIST:3232 or HIST:4260 or AFAM:3100 or HIST:3160 or HIST:3260 or AFAM:3260 or HIST:3282 or GWSS:3282 or HIST:4130 or HIST:4260. Same as AFAM:3257, GWSS:3257, SJUS:3257.

## HIST:3259 Making Change, Making History: Iowa's Black Activists and Digital History

From the 1830s through the end of the 19th century, African Americans formed local, state, and national meetings called "Colored Conventions," where they strategized about how to achieve social justice; students explore Iowa's connections to this history of political activism. Same as GWSS:3459, SJUS:3459.

## HIST:3260 Violence in Black America

3 s.h.
Examination of violence-physical, structural, gendered, and psychological—and its impact of shaping Black American experience through resistance, cultural production, and community development. Same as AFAM:3260.

## HIST:3262 The Black Midwest: History, Literature, and

 CultureExploration of history, culture, and art of the Black Midwest using literature and scholarly readings, poems, music, and film; modern issues impacting Black Midwesterners; cultural, social, and political contributions of Black Midwesterners to the region and nation. Same as AFAM:3262.

HIST:3263 American Ruins
3 s.h.
Emergence and development of American fascination with ruins, from Indigenous to urban-industrial remains; actual ruins and depiction of imagined ruins in art, literature, cinema.

HIST: 3264 Technology in American Culture and Society 3 s.h.
Social and cultural history of technology in the United States from cotton gin to smartphone; how technologies have shaped and been shaped by American culture, society, and politics-encompassing technologies of production, communication, transportation, entertainment, warfare, voting, surveillance, and more; economic forces spurring technological innovation and ways in which ordinary users re-appropriate technologies; cultural responses to new technologies (e.g., writers, artists, filmmakers, critics) ranging from fear to celebration; utopian and dystopian imaginings of future technologies. Same as AMST:3264.

HIST:3265 American Monuments
3 s.h.
History of public monuments in America from the inception of first major monuments in the 1820s to the latest incarnations (e.g., counter-monuments such as the $9 / 11$ Memorial, spontaneous and temporary monuments, online memorials); how monuments have depicted Indians, Blacks, Southern confederates, women, and other groups; how monuments have commemorated wars, Indian massacres, lynchings, and political movements (e.g., civil rights, women's suffrage), how monuments have been reinterpreted through popular protests and depositing of artifacts; why monuments have attracted so much controversy, culminating in recent events at Charlottesville. Same as AMST:3265.

## HIST:3267 Apocalyptic Visions and Movements in U.S. History <br> 3 s.h.

The end of the world as imagined, feared, and in some cases, desired by Americans from 1700s to present; status of apocalypse in various religious communities and in American culture more generally (i.e., literature, art, popular culture); focus on political and social implications of apocalyptic visions; how they shaped historical events and periods (i.e., American Revolution, Civil War, Cold War); how they contributed to nationalism, racism, and imperialism as well as pacificism, anti-Americanism, utopian communities, and opposition to industry and technology; what role apocalypticism plays in the United States today.
HIST:3270 Colonial North America, ca. 1600-1775 3 s.h. Introduction to major themes in colonial American history prior to the American Revolution; Native American history; colonialism and Native resistance; slavery; material culture; religion and spirituality; immigration; gender and sexuality in cross-cultural perspective. Same as NAIS:3270.

HIST:3271 American Revolutionary Period 3 s.h. Political and military history of colonies 1754-1776; imperial upheaval; building a new nation; creation of federal system.
HIST:3272 Native Americans in the Age of Empires, ca.
1500-1815
Overview of major issues in Native American history during the period of European Imperialism; colonialism, diplomacy and alliance building, warfare, captivity, religious and spiritual exchanges, revolution, and the disintegration of Native-European alliances in the early 19th century. Same as NAIS:3272.

## HIST:3273 War and Violence in Early American Societies and

## Culture

3 s.h.
Introduction to role of warfare and violence in shaping early American society.
HIST:3275 History of Slavery in the U.S.A. 3-4 s.h.
Beginning, expansion, and ending of American slavery; how our national memory of slavery in popular culture (in high school history, in historical landmarks and museums) helps or hinders our understanding of history of slavery in the U.S. Same as AFAM:3275.

## HIST:3282 Women and Power in U.S. History Since the Civil

 WarMajor events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct but interconnected histories of different groups of women; changing ideals of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as GWSS:3282.

## HIST:3289 The Atlantic World c. 1450-1850 3 s.h.

Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as NAIS:3289.
HIST:3401 Ancient Egypt and the Ancient Near East 3 s.h. Survey of political, economic, religious, and social change in ancient Egypt from ca. 3000 B.C.E. until its conquest by Persia, and of the ancient Near East from ca. 3000 B.C.E. until Alexander the Great's conquests. Same as CLSA:3401.

HIST: 3403 City of Athens: Bronze Age to Roman World 3 s.h. Athens from Bronze Age to end of Roman period; topics include the city's role in development of political democracy and religion, as well as the art and archaeology of the city. Same as ANTH:3821, CLSA:3821.

## HIST:3404 The World of Ancient Greece

3 s.h.
Survey of Greece history from ca. 2000 B.C. to 300 B.C.; Minoan, Mycenaean, and Greek society and culture; contact between Greek mainland and eastern Mediterranean cultures; development of the polis; political developments throughout the period; readings include a variety of sources in translation as well as modern interpretations; methodological problems in studying ancient Greece including interpretation of ancient historiography and using evidence from art, archaeology, and literature; knowledge of ancient Greek not required. Same as CLSA:3404.

## HIST:3409 Medieval Civilization I

3 s.h.
Europe from the decline of Roman empire to the eleventh century; cultural, political, economic, artistic and architectural foundations of Western civilization. Same as MDVL:3409.

## HIST:3410 Medieval Civilization II

3 s.h.
Europe from the eleventh century to the Italian Renaissance; cultural, political, economic, artistic, and architectural foundations of Western civilization. Same as MDVL:3410.
HIST:3412 Medieval Philosophy 3 s.h.
Introduction to St. Thomas Aquinas, William of Ockham, and Duns Scotus, three of the most brilliant philosophers of the high middle ages (11th through 13th centuries); their writing as Christians in (fascinated) reaction to philosophical systems of their pagan predecessors; how medieval philosophers wrestled with problems concerning possibility of free will and responsibility in face of divine omniscience and foreknowledge; existence of abstract universals in a world that is nonabstract and particular; nature and existence of God; skepticism and limits of human knowledge; nature of good and evil. Same as PHIL:3112.

## HIST:3413 Early Modern Britain: The Tudor and Stuart

## Era

3 s.h.
History of Britain during the reigns of the Tudor and Stuart monarchs (1509-1714); focus on political institutions, economic development, civil conflict, religious change, origins of the British Empire, and everyday life.

## HIST:3415 Britain and Its Empire: Eighteenth and Nineteenth

 Centuries 3 s.h.Britain and its empire from the Revolution of 1688 to the outbreak of World War I; topics include the growth of the British Empire; transAtlantic slave trade and its abolition; Industrial Revolution; political union and ongoing conflict between England, Scotland, and Ireland; political reform, expansion of franchise, and rise of labor and feminist movements; science, art, and culture; religion in British life.

## HIST:3416 Modern Britain: War and Empire in the Twentieth Century 3 s.h.

Great Britain from the First World War to Tony Blair's political triumph; World War I and the postwar settlement, expansion of the British Empire in the Middle East, rise of the Labour Party, the Depression, appeasement, World War II, Labour Party's triumph after the war, decolonization and emergence of postcolonial independent states around the world, 1960s cultural changes, Margaret Thatcher's political ascendancy, transformation of the Labour Party under Blair, and emergence of a new, multicultural and multiracial Britain.

## HIST: 3420 Health and Healing in Early Modern Europe 3 s.h.

Health, healing, and medicine (1200-1700); transmission of medical knowledge from medieval Islam and ancient Greece; healers including physicians, midwives, surgeons, apothecaries, and ordinary people; epidemic disease; diet and the body; sex and reproduction; health in the colonial Atlantic world; healing and religion including prayer, magic, and witchcraft. Same as GHS:3420.
HIST:3423 Ireland in the Early Middle Ages 3 s.h.
Ireland and the northern British islands 400-1000 C.E., a region of small kingdoms and thin population, lacking natural resources, far from Rome and ancient centers of Mediterranean culture; development of civilization, including monastic, legal, theological, and scholarly traditions that had a major impact on continental Europe; early medieval Irish history; introduction to the world of historical scholarship. Same as MDVL:3423.

## HIST:3427 Family, Gender, and Society in Early Modern Europe <br> 3 s.h.

Social and gender ideologies as inscribed in patterns of authority (household, church, state); ranges of human endeavor (intellectual, psychological, biological); community organization (social, economic, legal, sexual); their influence on concept of community. Same as GWSS:3427.

HIST:3436 Food in Ancient Mediterranean Society 3 s.h. Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as ANTH:3204, CLSA:3836.

HIST:3448 Barbarians and the Fall of Rome
3 s.h.
Did barbarian hordes cause the decline and fall of the Roman Empire? In the span of just a few hundred years, the Roman Empire of the Mediterranean world was transformed in terms of culture, religion, and the peoples that inhabited it, but we can't place all the blame for the so-called fall of Rome on the Huns, Visigoths, Vandals, and other migrating peoples; students explore textual, visual, and archaeological evidence for the spread of these "barbarian" cultures, the sacking of Rome, and the late antique transition to the Middle Ages from 200-800 C.E. Same as CLSA:3148.

HIST:3470 France from 1815 to Present
3 s.h.
History of France in the 19th century to present; major topics include the French Revolution, France and the European balance of power, Napoleon, the Bourbon Restoration, the Revolutions of 1830 and 1848, Napoleon III and the Second Empire, creation and survival of the Third French Republic, relations between the French state and the Catholic Church, the Dreyfus Affair, French colonial expansion, France and the origins of the First World War, France's role in World War I, and France and the origins of the Second World War.

## HIST:3473 German History 1648-1914

3 s.h.
Introduction to history of German-speaking lands from the devastation of the Thirty-Years War through the trauma of World War I, cutting across the French Revolution, the Revolutions of 1848, and German unification (1871); role of the German nation-state in European politics, not centered on the rise of that state and those politics, instead, an exploration of the vast diversity of German communities that emerged and persisted across this period; students are challenged to think about ways in which German history was part of a global history that extended into Iowa as well as many other places in the world.

## HIST:3475 Germany's Twentieth Century 3-4 s.h.

How did Germany come to play such a great role in 20th century history, and how does that legacy shape the 21st century? Students pick up the story with Germany as an upstart new nation-state in the late 19th century and explore cases and consequences of World War I; the promise and crises of the Weimar Republic; Nazism, the Holocaust, and World War II; divided Germany in the Cold War; reunification; what the larger power structures, economic developments, and geopolitics were that shaped this history; how ordinary people experienced and contributed to it, and what Germany's impact is on the larger world.

## HIST:3485 Early Modern Catholicism

Same as RELS:3385.
HIST:3492 Russian Literature in Translation 1860-1917 3 s.h.
Survey of major works, figures, and trends of 19th- and early 20thcentury Russian literature; age of the Russian novel; works of Turgenev (Fathers and Sons), Tolstoy (Confession), Dostoevsky (The Idiot, The Brothers Karamazov), and Chekhov (plays). Taught in English. Same as RUSS:3202, TRNS:3203, WLLC:3202.
HIST: 3494 The Russian Revolutions and Their Legacies $\mathbf{3}$ s.h. The Russian Revolutions of 1905 and 1917 unquestionably changed the fabric of Russian political and social life, transforming Russia from an autocratic imperial power to the first self-proclaimed socialist federation in Europe; students explore sources, nature, and consequences of the revolutions by intensively analyzing politics, society, and culture in late imperial and Bolshevik Russia; students review events and revolutionary movements of late 19th century, changes in political practices extending from late tsarist period, and development of Leninist and Stalinist ideology after the revolutions. Same as RUSS:3494.

## HIST:3501 Rebel Island: A History of Cuba <br> 3 s.h.

Cuban society and revolutionary movements since the late colonial period, including the years since 1959. Same as LAS:3501.

## HIST:3502 History of Mexico

3 s.h.
Mexican history since the eve of the Spanish invasion, with focus on the national period; indigenous groups, conquest and demographic disaster, Native survival, labor and migration, social protest and rebellions, nationhood, revolution, regional differences, religions, popular culture, economic growth and distribution, state building, environmental change, international relations; survey. Same as LAS:3502, NAIS:3502.

HIST:3508 Disease and Health in Latin American History
3 s.h.
Survey of major topics in Latin American history in relation to development of medicine and public health. Same as GHS:3508, LAS:3508.
HIST:3515 Introduction to Modern Latin America 3 s.h. Introduction to modern history of Latin America from independence movements of the early 19th century to present; topics include race and ethnicity, slave emancipation, gender, labor relations, and foreign interventions; exploration of relationship between economic, social, and political structures over time to explain difference and commonality between Latin American people and societies; focus on topics pertaining to histories of Mexico, Central America, the Caribbean, and South America. Same as LAS:3515.
HIST:3522 Rural Unrest and Indigenous Women in Latin America

3 s.h.
Trace the major and everyday forms of contestation between Indigenous peoples and the groups that have tried to assimilate, subjugate, or dominate them in Latin America, concentrating on Mesoamerica, the Amazonia, and the Andes; explore questions of power, identity, and resistance through the lens of gender. Same as LATS:3522.

## HIST:3539 History of Environmental (In)Justice in Latin

 AmericaIntroduction to history of environmental change in Latin America; examination of pre-Hispanic cultures and spaces; reshaping of landscapes due to colonialism; commodification of nature in early republics; consolidation of 19th-century agro-economies; land-tenure changes and integration of regional markets due to neoliberalism in 20th century; relationship between environmental problems (e.g., biotic invasions, soil exhaustion, biodiversity loss, pesticide contamination) and imperial domination; scientific racism, state formation, and income inequality. Same as GEOG:3539.

## HIST:3650 Chinese History from 1600 to 19113 s.h.

Chinese history from the 17 th to early 20th century, history of the Qing dynasty (1644-1911); Qing's role in shaping aspects of today's politics in China and the mentality of Chinese people; foundation of Manchu state in early 17th century, Ming-Qing transition in 1644 , politics and society during the high Qing era, decline of the empire under foreign invasion and inner rebellions in the 19th century, collapse of the dynasty in 1911. Same as ASIA:3650.

HIST:3652 Twentieth-Century China
3 s.h.
Communist revolution from 1920s to founding of People's Republic of China in 1949; Mao Zedong's radical policies, Cultural Revolution; Deng Xiaoping's economic reforms; China today. Same as ASIA:3652.

HIST:3655 Zen Buddhism
3 s.h.
Same as ASIA:3655, RELS:3655.
HIST:3685 Modern Korean History
3 s.h.
Transformation of Choson Korea to North and South Koreas; local, regional, and global transformations in Korea from the late 19th century to present; severing of historic ties with China; encounters with the West and Japan; new ideas of civilization and political community; erasure of Choson as a country in 1910; colonial experience; civil war; industrialization; creation of North Korea; democratic movement in South Korea and spread of diasporic communities abroad; Korean peninsula as a laboratory for analyzing compressed communist and capitalist modernities of the 20th century. Same as ASIA:3685.
HIST:3755 Understanding Health and Disease in Africa 3 s.h. Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as GHS:3555, IS:3555.

## HIST:3758 The Ancient African Past

3 s.h.
Africa to 1880; oral tradition and other sources; political development, ecological change, slavery and slave trade. Same as AFAM:3758.

## HIST:3760 The Making of Modern Africa

Africa in colonial and postcolonial period; economics, political structures of colonialism; social change, political life in the 20th century. Same as AFAM:3760.

## HIST:3808 Art, Power, and Resistance in the Modern Middle East and North Africa <br> 3 s.h.

Contemporary history of the Middle East and North Africa through (auto)biographies (e.g., comics, films, literature); use of art and comics as sites of political power and resistance; sources delve into Middle Eastern experiences of conflict and political violence-how ordinary people survived during the Lebanese Civil War in the 1970s to 1980 s; what has been the Palestinian Diasporic experience after 1948; how Israelis remember the 1982 military campaign in Lebanon; what comics bring to our knowledge of the Islamic Republic of Iran; how political institutions use visual arts as means of persuasion; and how sites of power then become sites of resistance.

HIST:3810 History of the Modern Middle East
Survey of major political, socioeconomic, and cultural changes in the Middle East and North Africa after 1900.
HIST:3995 History Honors Research Seminar 0-3 s.h.
Research and method seminar; developing and writing an honors
thesis in history. Corequisites: HIST:3996. Requirements: GPA of 3.33.

## HIST:3996 Honors Thesis <br> 3 s.h.

Individual research and writing under supervision of faculty member; occasional group sessions with other students in the course.

HIST:4130 Museum Literacy and Historical Memory 3 s.h.
Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as MUSM:4130.

HIST:4201 History of the American Deaf Community 3-4 s.h. Students discuss the roots of American Deaf community, exploring the development of a distinct language known today as ASL and the culture of Deaf people in America during 19th and 20th centuries. Taught in American Sign Language. Prerequisites: ASL:2002 with a minimum grade of C. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information. Same as ASL:4201.

## HIST:4203 Disability in American History

## HIST:4216 Mexican American History

 3 s.h.Survey of Chicana/o (Mexican American) history from 18th century to present; Mexican American society's diverse nature, explored through class, ethnic, gender, and regional divisions. Same as LAS:4216.

## HIST:4260 The Sixties in America

3 s.h.
The 1960s as a moment in American politics and culture, pivotal and romanticized.

HIST:4264 The American Home Front During World War II3 s.h. Examination of the significance and impact of World War II on the American home front; topics include labor relations, private lives, citizenship and civil rights, popular culture, and propaganda.
HIST:4334 Topics in American Borderlands History 3 s.h. Broad historical overview of the American Borderlands, a region that has been the site of conflict, cultural exchange, and economic interdependence.

HIST:4400 The Roman Empire
History of Roman Empire from assassination of Julius Caesar through 5th century A.D.; political, economic, cultural, and social developments from the transition to imperial power to the shift of power from west to east. Same as CLSA:4400.
HIST:4403 Alexander the Great
3 s.h.
History of Alexander the Great and the generals who succeeded him in ruling the lands he conquered; military, political, and social history. Same as CLSA:4403.
HIST:4406 Warfare in Ancient Mediterranean Society 3 s.h. Same as CLSA:4106.

HIST:4407 The Hellenistic World and Rome 3 s.h.
Social, economic, political, intellectual history of Graeco-Roman world, from fourth century B.C.E. to Justinian's reign.
HIST:4412 History of the Medieval Church 3 s.h.
Development of Christianity to end of great schism; rise of Roman primacy, development of monasticism, orthodox and heterodox groups. Same as MDVL:4412.

## HIST:4422 The Book in the Middle Ages

Relation of text, decoration, function, creators, and audience in different genres of medieval manuscript books 400-1500 A.D. Same as SLIS:4910, UICB:4910.
HIST:4428 Nineteenth-Century Europe
3 s.h.
Political, social, economic, and cultural factors.
HIST:4429 The Book in Early Modern Europe
3 s.h.
History of the book and communication in Europe 1400-1800; production, distribution, and use of texts in cultural context. Same as SLIS:4920, UICB:4920.
HIST:4430 Topics in Material Analysis
3 s.h.
Analysis and description of physical book artifacts and their component parts (parchment, paper, bookbinding) and allied specialties (the lettering arts, printing and illustration techniques); reading, writing, presentations. Same as UICB:4930.
HIST:4433 France Under Nazi Occupation, 1940-1944 3-4 s.h.
Political, economic, social, and cultural conditions that prevailed following the Nazi conquest of France in 1940; examination of this period of upheaval through work of prominent historians of France; representations of occupied France in literary works, documentary, and fictional films produced during the war and in the politically fraught culture of collective memorialization that formed in aftermath of this national trauma. Taught in English. Requirements: for 4 s.h. option-prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4433.

HIST:4455 Religious Conflict: Early Modern Period 3 s.h. Religious conflict among European Christians (Catholics, Lutherans, Calvinists, and Radicals), as well as between Christians and non-
Christians from the Late Middle Ages through the Reformation of the 16th century and beyond. Same as RELS: 4155.
HIST:4478 Holocaust in History and Memory 3 s.h.
Origins and implementation of Holocaust; perpetrators, victims, and bystanders; impact of Holocaust on post-World War II world.

HIST:4504 Latin American Studies Seminar 3-4 s.h. Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as ANTH:4700, LAS:4700, PORT:4700, SPAN:4900.

HIST:4505 Topics in Latin American History 3 s.h.
HIST:4666 Topics in Asian History
3 s.h.
Same as ASIA:4166.

HIST:5431 Roman Law, Order, and Crime
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Recommendations: some background in Roman history. Same as CLSA:5151.

HIST:6002 Introduction to Graduate Studies in History: Historiography and Methods

3 s.h.
Students gain a better understanding of the principal intellectual strengths of the history department, degree requirements (e.g., MA essay and comprehensive exams), various methodological approaches and audiences, fundamental analytical skills (e.g., how to write a historiographical essay, how to use databases, how to edit their own work), and professional issues (e.g., participation in conferences and academic associations); for students getting started on their MA essays or PhD dissertations. Requirements: first-year history graduate standing.

## HIST:6003 History Theory and Interpretation <br> 3 s.h.

Introduction to basic theoretical approaches to historical research.

## HIST:6004 Comprehensive Exams Seminar I

Comprehensive exams seminar; for history graduate students in semester prior to comprehensive exams. Requirements: history graduate standing in third semester.

## HIST:6005 Comprehensive Exams Seminar II 3 s.h.

Comprehensive exams seminar; for history graduate students during the semester in which they take their comprehensive examinations. Requirements: history graduate standing.

## HIST:6135 Crossing Borders Seminar

2-3 s.h.
Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, FREN:6142, GEOG:6635, GRMN:6635, IWP:6635, POLI:6635, SPAN:6904.

HIST:6140 Engaged Scholarship in the Humanities 0,3 s.h.
Survey of literature on community-engaged scholarship (CES) in the humanities; exploration of the pioneering work of engaged scholars in Native American, Latino, and African American studies; students write a research prospectus that is consistent with CES methodologies. Same as AMST:6140

## HIST:6158 Approaches to Teaching Global History

Approaching history from a global or international perspective; introduction to issues; preparation for teaching courses at college level; historiographies and methodologies, problems of periodization and area divisions, syllabi on world and global history.

## HIST:6250 American Religious Histories

Focused examination of the variety and vagaries of religious experiences in the Americas, 16th to 21st centuries. Same as RELS:6150.

HIST:6475 Seminar: Reformation Culture
arr.
Culture and thought of 16th-century Europe. Same as RELS:6475.

## HIST:7101 Research Seminar

Research for students in all areas of history.
HIST:7122 Readings: History of Gender and Sexuality
Topics in international and transnational history of gender and sexuality. Same as GWSS:7122.
HIST:7126 Readings on the History of Human Rights arr.
Survey of recent literature on history of human rights; development of bibliographies; readings from individual areas of interest (e.g., transitional justice, migration, gender and sexuality, labor).

## 3 s.h. HIST:7137 Readings in Global Environmental History 3 s.h.

Environmental history is a rapidly growing interdisciplinary area of study that draws from a variety of social science, humanist, and natural science fields; examination of development in the field of global environmental history with focus on histories of the Global South; assessment of salient debates within the field, past and present; various methodological strategies employed by environmental historians; relationship of the field with area studies and "global turn"; students gain a functional fluency and understanding of how the field's growth has shaped the discipline of history more broadly.
HIST:7140 Climate Change in World History
3 s.h.
Readings on climate change and its impacts on planetary life across time.

## HIST:7146 Temporality in History: United States and

 Beyond1,3 s.h.
Introduction to growing field of temporal history; how time has been measured, regulated, experienced, and imagined in the West and non-West from antiquity to present with emphasis on 19th-and 20thcentury United States; topics include time discipline (e.g., factory, slave plantation, corporate office), standard time, and deep time; focus on changing technologies of time (e.g., clocks, calendars) and to temporal impact of other technologies (e.g., cinema); application of temporal perspective to political revolution, warfare, nation building, class formation, gender relations, slavery, and urbanization. Same as AMST:7146
HIST:7160 Global History of Race, Science, and Medicine 3 s.h. Examination of the history of social construction of race in scientific and medical thought; use of science and medicine to conceptualize race, as well as how race was used by scientists and physicians in their practice; primary focus is on the Atlantic World-Europe, Africa, and the Americas-and touches briefly on the construction of race in other parts of the world. Same as GHS:7160.
HIST:7165 Global History of Incarceration
History of incarceration across world regions from antiquity to present; particular emphasis on the Atlantic and trans-America between 16th and early 21st centuries; relevant historical literature on Middle East, Asia, Russia, and Australia; analytical focus on how epistemologies, structures, processes, and more recent debates (e.g., racial slavery, policing, science and medicine, war and revolution, migration, prison abolition, etc.) have shaped and transformed logics and practices associated with incarceration over time.

## HIST:7175 Theories of World History

arr.
Macrohistorical theories of world history; can a prominent theory or combination of theories explain the social evolution of humankind over hundreds of thousands of years; how to periodize world history; does history have a direction, and if so, what direction; the future of humankind.

## HIST:7190 Individual Study: Graduate <br> arr. <br> HIST:7193 Thesis <br> arr.

HIST:7202 Readings: 20th-Century Native American History arr. Examination of the Indigenous 20th century through a series arr. of themes including settler colonialism, sovereignty and selfdetermination, federal Indian policy, and Indigenous feminism; readings focus primarily on secondary sources, but attention is given to key primary sources; students are required to carry out specified research tasks. Same as NAIS:7202.

HIST:7205 New Histories: U.S. Slavery
Our approach to study of slavery and discipline of history have been upended by recent works by and about women; exploration of that scholarship and consideration of where it takes us in grappling with systems and subjectivity of slavery. Same as AFAM:7205, GWSS:7205.

## HIST:7210 The Long Civil Rights Movement

Exploration of the history and historiography of the modern Black freedom struggle in the United States, with particular attention to how historians in recent years have reconsidered traditional framings of that struggle's chronology, geography, gender politics, political aspirations, and achievements. Same as AFAM:7210.
HIST:7212 Seminar: Research in Race and Ethnicity
HIST:7214 Readings: African American Women's History

## Same as AFAM:7214, GWSS:7214.

HIST:7217 Social Movements in the United States from 1965 to Present
Exploration of social movements in the United States and how they have shaped the country and its people since 1965; students study a range of historic movements that were diverse in their ideology and goals-from the fight for welfare rights to conservative tax revolts, LGBTQ+ rights to the White Power Movement-and examine more contemporary movements (e.g., Standing Rock and Black Lives Matter) and situate them historically in their respective protest lineages; interrogation of what constitutes a social movement and how and why they emerge, operate, and ultimately end; opportunity to work on a research project relevant to student's own interests.

HIST:7220 Readings: History of Sexuality in the United States arr. History of sexuality within the family, its move into the marketplace; social customs and taboos, methods of birth control and abortion, religion, medical and psychological writings, state policies. Same as GWSS:7220.
HIST:7227 Readings in American Environmental History arr. Introduction to historiography-classic texts and recent work-in American environmental history; topics from colonial period to recent past.
HIST:7236 Readings in Borderlands History arr.
Comparative borderlands; articles on diverse topics from borderland regions worldwide (main focus on U.S.-Mexico borderlands, with inclusion of European, Asian, African, and Latin American borderlands); analysis of each article for its thesis, research questions, methodology, primary sources, and weaknesses; seminar.

## HIST:7241 Readings in U.S. Social Policy

History and historiography of social welfare policy, chiefly in the United States; proceeds chronologically with analysis of private and public efforts to address problems including poverty, unemployment, sickness, homelessness, and family violence.

## HIST:7246 United States in the World

arr.
Historiographies that situate modern U.S. history in a global context; how historians study the American past beyond traditional, nationcentered frames; transnational histories of migration, nativism and exclusion; social movements; colonial empire-building; commercial and cultural Americanization; transfer of policy ideas; military occupations; decolonization; Cold War's impact on social reform; post-9/11 moment.

## HIST:7261 Readings: Early American History

HIST:7263 Readings: Contemporary United States
New work in American social, political, and economic history; readings tailored for students seeking background for research or preparing for comprehensive exams.
HIST:7271 Transnational U.S. History: Theory and Practice arr. Benefits of transnational U.S. history and comparative analysis; exploration of connections between theory and practice in the field of history.

[^3]
$\square$
i
p public memory; how and why controversies emerge in public history
settings; relationship between academic history and public history.
HIST:7414 Slavery and Social Death: 1200 B.C.E. to 1865 C.E. 3 s.h. Exploration of various slave systems in antiquity, the middle ages, and modernity in terms of their motivations, utilization, and broader social, economic, and political implications; use of literary sources and archaeological remains to investigate slave cultures in ancient Near East and Egypt, Jewish exploitation of enslaved persons, and use of chattel slavery in Greek, Roman, early Christian, and Islamic societies; antebellum U.S. slavery. Same as ANTH:7414, CLSA:7114.
HIST:7435 Readings: Women, Men, and Gender in Modern Europe arr. Same as GWSS:7435.

## HIST:7440 Readings in Modern German History arr.

Major problems in modern German history; historiographic debates organized thematically and proceeds chronologically from the French Revolution to the present; oral presentations and comparative essays.
HIST:7445 Readings: Imperialism and Colonialism 3-4 s.h.
Engagement of Europeans in an immense outward expansion of people, goods, ideas, and more than a few germs since 1492 ; exploration of some of the implications of this expansion by focusing on a selection of different colonial encounters and some legacies of European empires.

## HIST:7456 Readings: Modern European History arr.

HIST:7505 Readings: Latin American History arr. Introduction to historiography in the field of Latin American history; students deepen their understanding of the region's history and become acquainted with trends in topical concerns, sources, and methods that are shaping historical research on Latin America's past. Taught in English. Same as SPAN:7505.
HIST:7535 Readings in Latina/o/x History arr.
Introduction to major works and recent scholarship in Latina/o/x history.
HIST: 7551 Readings: Globalizing Latin American Science and
Medicine arr
Recent trends in Latin American history of science and medicine.
HIST:7559 Race, Science, and Nature in Latin America arr. Analysis of the history of United States and Latin America relations in the 20th century through the lens of scientific and agricultural change; how plant breeding, agrochemicals, heavy machinery, and irrigation systems set in motion trends that made the 20th century exceptional; possibility of feeding an unprecedented growing global population and transition of human species from being primarily rural to primarily urban in less than a hundred years; analysis of how a network of scientists, businesses, and governments made proliferation of agribusinesses possible to emphasize Indigenous and Mestizo peasants' role in that process. Same as AMST:7559, GEOG:7559.

## HIST:7606 Readings in Chinese History

arr.
Same as ASIA:7606.
HIST:7691 Topics in East Asian History
arr.
Introduction to major works and recent scholarship on bordercrossing topics in East Asian history, including transnational/regional exchange, empire, frontiers/borderlands, migration, ethnicity, and historiography.

HIST:7710 Seminar: Interpreting Oral Histories arr.
Interpretations and methods applied by historians in various world regions to different forms of oral history, from old oral traditions to contemporary autobiographical testimony. Same as AFAM:7710.

## HIST:7805 Readings in Middle East History

 arr.Global perspective on major topics in modern history of the Middle East and North Africa including gender, sexuality, race, and empire.
Same as GWSS:7805.

## History, BA

## Learning Outcomes

Historical knowledge gives insight into the depth and range of human experience and perspective on the increasingly interconnected world in which we live. Students of history learn how to locate, verify, and interpret many kinds of evidence in order to understand the causes and effects of changes over time. History courses strengthen skills in analyzing and explaining the major ideas and complex problems of the past and the present. The history major provides students with the tools and perspective for active citizenship in a democratic, pluralistic society, as well as for success in graduate studies and a wide range of careers.

The undergraduate program is organized around the intertwined skills of research and communication-whether digital, written, or oral. Students learn about significant events, places, and people of the past, but just as importantly, they learn how to engage in factual research about the past, how to understand the context of human actions, and how to identify the factors that brought about the world of the past and the world we know today.

- Students of history acquire a broad knowledge of history and historical change across multiple regions of the globe and a range of historical periods.
- Students gain an awareness of their own place in today's world and of the connections between past and present. This prepares the way for better understanding between individuals and across cultural boundaries.
- Students learn to value the role of evidence in their understanding of the world, and how to assess and verify different types of data, whether written, visual, oral, statistical, or cultural.
- Students learn how to distinguish between primary and secondary sources, and how each kind of source is used. They develop an understanding of the possible impact of authorial bias, social background, or ideology. Students learn to employ differing methods of analysis, and they explore diverse ways of thinking about the past and human society.
- Students develop skills in research, critical thinking, reading, and writing. History writing assignments sharpen students' skills in original research and analysis, while reading assignments develop their abilities to synthesize information and grapple with varying points of view.

## Requirements

The Bachelor of Arts with a major in history requires a minimum of 120 s.h., including 36 s.h. of work for the major. Of the 36 s.h., at least 24 s.h. must be numbered 2000 or above. No more than 3 s.h. in history courses (prefix HIST) numbered 1002-1099 may count toward the major. Courses that count toward the major may not be taken on a pass/nonpass basis. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
College Level Equivalency Program (CLEP) and Advanced Placement Program (APP) credit does not count toward the history major.
Transfer work that is equivalent to University of Iowa coursework may be accepted toward the major, but at least $18 \mathrm{~s} . \mathrm{h}$. of work for the major, including HIST:2151 Introduction to the History Major, must be taken at the University of Iowa.

Major requirements include an introductory course and a history portfolio in addition to a range of coursework in history.

Undergraduate courses in history are divided into four areas: American history, European history, non-Western history, and courses that have no specific area designation. Students must earn at least 6 s.h. in each of the designated areas (American, European, nonWestern), with at least 3 s.h. in each of those areas taken in courses numbered 3000 or above. Courses numbered 1100-1199, 2100-2199 (including HIST:2151 Introduction to the History Major), 3100-3199, 3995-3996, or 4100-4199 do not fulfill a specific geographical area or the pre-1700 requirement.

Students may count a maximum of 18 s.h. earned in American history courses (numbered 1200-1299, 2200-2299, 3200-3299, and 42004299) toward the major.

History majors are encouraged to take courses in other fields that illuminate and expand the meaning of history courses and that introduce information and a variety of approaches to understanding how societies and cultures work.

Students majoring in history are encouraged to complete the College of Liberal Arts and Sciences GE CLAS Core World Languages requirement by choosing a language that fits their interests in history. The department also encourages study abroad programs that complement students' language area interests.

The BA with a major in history requires the following coursework.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Introductory Course |  | 3 |
| HIST:2151 | Introduction to the History |  |
|  | Major |  |

## American History Courses

Two American history courses (numbered 1200-1299,
2200-2299, 3200-3299, or 4200-4299), including at
least one numbered 3000 or above

## European History Courses

Two European history courses (numbered 1400-1499, 2400-2499, 3400-3499, or 4400-4499), including at least one numbered 3000 or above
Non-Western History Courses
Two non-Western history courses (numbered
1500-1999, 2500-2899, 3500-3899, 4500-4999),
including at least one numbered 3000 or above
Pre-1700 History Course
One pre-1700 history course (select from the list below) 3
History Electives
Additional history courses selected by the student 12

| Portfolio Course |  | 0 |
| :--- | ---: | ---: |
| HIST:3193 | Undergraduate History Portfolio | $\mathbf{3 6}$ |

## Introductory Course

Students enroll in HIST:2151 Introduction to the History Major as soon as possible after declaring the major in history. Topics vary, but all sections of HIST:2151 instruct students in the skills they need to succeed in upper-level history courses. Students explore the diverse kinds of sources historians use, including both primary (original) sources and secondary (scholarly) sources. They learn how to frame a historical question, find and interpret relevant sources (in libraries, online, and in archives), and then integrate them into a historical argument, expressed clearly and in accordance with appropriate scholarly conventions. By the end of the semester, students have produced a substantial research paper or project and have a clearer understanding of the historian's craft. Students must include at least one graded paper or project from the course HIST:2151 in their history portfolio (see "Portfolio" below). Introduction to the History

Major (HIST:2151) does not count toward the area (American, European, non-Western) or pre-1700 era requirements.

## Pre-1700 History Courses

A course taken to fulfill the pre-1700 history course requirement also may be counted toward the requirement in American, European, or non-Western history. These courses fulfill the pre-1700 history requirement.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| HIST:1401 | The West and the World: Ancient | 3 |
| HIST:1402 | The West and the World: Medieval | 3 |
| HIST:1601 | Civilizations of Asia: China from Origins to the 17th Century | 3 |
| HIST:1602 | Civilizations of Asia: China from the 17th Century to the Present | 3 |
| HIST:1604 | Civilizations of Asia: Japan | 3 |
| HIST:1606 | Civilizations of Asia: South Asia | 3 |
| HIST:2444 | Engineering and Technology in the Ancient World | 3 |
| HIST:2461 | Middle East and Mediterranean: Alexander to Suleiman | 3 |
| HIST:2483 | History of Britain: Fall of Rome to the Norman Conquest | 3 |
| HIST:3270 | Colonial North America, ca. 1600-1775 | 3 |
| HIST:3289 | The Atlantic World c. 1450-1850 | 3 |
| HIST:3401 | Ancient Egypt and the Ancient Near East | 3 |
| HIST:3404 | The World of Ancient Greece | 3 |
| HIST:3409 | Medieval Civilization I | 3 |
| HIST:3410 | Medieval Civilization II | 3 |
| HIST:3413 | Early Modern Britain: The Tudor and Stuart Era | 3 |
| HIST:3423 | Ireland in the Early Middle Ages | 3 |
| HIST:3427 | Family, Gender, and Society in Early Modern Europe | 3 |
| HIST:3448 | Barbarians and the Fall of Rome | 3 |
| HIST:3758 | The Ancient African Past | 3 |
| HIST:4400 | The Roman Empire | 3 |
| HIST:4406 | Warfare in Ancient Mediterranean Society | 3 |
| HIST:4407 | The Hellenistic World and Rome | 3 |
| HIST:4412 | History of the Medieval Church | 3 |

## Portfolio

All history majors must complete a portfolio, enrolling in the portfolio course during the semester in which they plan to graduate. The portfolio includes three papers or projects completed in history courses and submitted electronically (preferably a student submits graded papers/projects, and one paper/project should be from HIST:2151 Introduction to the History Major. A history honors thesis may replace the other two papers/projects. The portfolio does not affect a student's grade-point average; timely submission
fulfills the requirement on a nongraded basis with an assignment of $S$ (satisfactory).
Students should submit their portfolios on the University of Iowa ICON website for HIST:3193 Undergraduate History Portfolio early during the semester in which they plan to graduate.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  |  |
| HIST:3193 | Undergraduate History Portfolio | 0 |

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.
To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Honors

## Honors in the Major

Honors in the major gives students the opportunity to conduct independent research on a topic of their choosing, and write an original piece of scholarship based on that research. The product is a 30-35 page thesis written under the supervision of a faculty member who specializes in the field. To graduate with honors in history, students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 , as required by the College of Liberal Arts and Sciences, and a 3.33 GPA in the major as set by the Department of History. Students register for 3 s.h. in HIST:3995 History Honors Research Seminar, usually during the spring of their junior year, and HIST:3996 Honors Thesis, usually during the fall of their senior year. The 6 s.h. of credit counts toward the semester hours required for the history major.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the history major.

## Career Advancement

Students of history develop an understanding of change that enables them to function as active, well-informed citizens. Because of the geographical breadth required for the degree, history students develop a global consciousness that helps them to understand developments worldwide.

The University of Iowa's history graduates earn admission to the best graduate and professional schools in the country. Employers value history students' ability to analyze human and social behavior, research pressing problems, and express themselves clearly. Graduates of the department occupy prominent positions in government, business, journalism, law, entertainment, education, the nonprofit sector, library science, social work, and philanthropy, among others. A recent study showed that history graduates with a BA earn more than graduates in any other humanities field.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: three courses in the major, including HIST:2151 Introduction to the History Major

Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: three more courses in the major.
During the eighth semester: submission of the portfolio of written work (three history papers/projects, preferably graded) to the director of undergraduate studies through the HIST:3193 Undergraduate History Portfolio ICON website (a student must be enrolled in HIST:3193 in order to submit the portfolio), enrollment in all remaining coursework in the major (two courses), all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Students may count a maximum of $3 \mathrm{~s} . \mathrm{h}$. numbered HIST:1002-1099 toward the major.
c Students must complete 24 s.h. from courses in prefix HIST numbered 2000 or above.
d Students complete at least 12 s.h. in history electives.
e Consider choosing a course that also fulfills the GE CLAS Core: International and Global Issues requirement.
f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
h Fulfills a major requirement and may fulfill a GE requirement.
i Students may count a maximum of 18 s.h. earned in American history courses toward the major.
j Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## History, Minor

Students majoring in another discipline-whether in a STEM field, social sciences, or the humanities-may want to round out their studies and sharpen their skills by adding an undergraduate minor in history. For the current semester's offerings, view Department of History courses (prefix HIST) on MyUI.

## Requirements

To earn the undergraduate minor in history, students must maintain a grade-point average of at least 2.00 in all courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The following coursework is required:

- a minimum of 15 s.h. in history courses (prefix HIST), including 12 s.h. earned in courses numbered 2000 or above; and
- at least 12 s.h. earned in courses taken at the University of Iowa.

## History, MA

The Department of History offers a master's degree program in history. Individuals may pursue the degree for a variety of reasons, from professional enhancement to personal enrichment. Students interested in graduate work may obtain a copy of the current Guide to Graduate Study in history from the Department of History website. The guide is revised periodically to include detailed regulations on study toward advanced degrees and other information for students

## Learning Outcomes

The MA is for students who wish to acquire a broad knowledge of history and an introduction to the field's theoretical and historical foundations. It is intended to prepare students to continue work for a PhD in history or for careers outside of the academy.

Students are expected to demonstrate:

- basic understanding of the development of historiography and historical methodologies;
- basic understanding of primary source material in one subfield of history; and
- sustained critical thinking, writing, and speaking abilities.

## Requirements

The Master of Arts program in history requires a minimum of 30 s.h. of graduate credit, including at least 24 s.h. in history coursework numbered 3000 or above. Students must maintain a cumulative UI grade-point average of at least 3.33.

The MA is offered with two options: one that stresses breadth of learning through coursework; and with the approval of a faculty advisor, one that emphasizes the development of research capabilities culminating in a research essay designed to prepare students for doctoral studies.

Students are required to take HIST:6002 Introduction to Graduate Studies in History: Historiography and Methods during their first semester in the program. They must take 12 s.h. of coursework (one course numbered 6000 or above) in one major division of history; and 6 s.h. each in two other divisions (with at least one course numbered 6000 or above in one of the two divisions), either in history or a related field. Students work with their primary faculty advisor to determine appropriate coursework.
Students take a written exam in their major division of history and defend to a committee of three faculty members.

Students who choose a research option instead of a written exam must complete and defend a research essay to a committee of three faculty members. The essay must be based on original research and completed under the guidance of a faculty advisor. The finished essay should emulate the character of articles in learned journals, just as the PhD dissertation takes the form of a full-length scholarly monograph.

## Combined Programs

MA/JD
The Department of History and the College of Law offer a combined Master of Arts/Juris Doctor. The combined degree program allows students to count a limited amount of credit toward both degrees.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the JD, see Juris Doctor, JD [p. 1720] (College of Law) in the catalog.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.
Applicants submit their application online. Along with the official application, they submit academic transcripts; examples of original writing, such as a term paper, a seminar paper, or an honors thesis; letters of recommendation from three persons familiar with the student's past academic work; and a one- or two-page personal statement of the applicant's purpose for doing graduate work. See History (MA or PhD) on the University of Iowa Graduate Admissions website for more information.

All application materials are due by Jan. 15 for entry the following August.

## Career Advancement

Graduate study in history prepares students for occupations such as high school or college teaching, publishing, commercial research, foundations and nongovernmental organizations, and government or other public services. With additional specialized training, students may become qualified for careers in historical site preparation and display, and archival, library, or museum work.

Some students choose to pursue the combined Master of Arts/Juris Doctor program, which leads to degrees in both law and history; see Combined Programs [p. 651] in this section of the catalog.
The University of Iowa's history graduates who earn an MA experience remarkable job placement rates, depending on their area of study. Graduate and postdoctoral career services offer multiple resources to assist students in locating opportunities and preparing for jobs upon completion of the program.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
b Required during first semester in the program.
c Students must take $12 \mathrm{~s} . \mathrm{h}$. of coursework (one course numbered 6000 or above) in one major division of history, and 6 s.h. each in two other divisions (with at least one course numbered 6000 or above in one of the two divisions) either in history or a related field.
d Work with faculty advisor to determine appropriate coursework; refer to the General Catalog and department website for courses and specifics.
e Written and oral examination in the student's major division of history.

## History, PhD

The Department of History offers a doctoral program for students interested in earning a PhD in history. Students interested in graduate work may obtain a copy of the current Guide to Graduate Study in history from the Department of History website. The guide is revised periodically to include the latest detailed regulations on study toward advanced degrees and other information for students.

## Learning Outcomes

The PhD program is intended for students who wish to pursue original research in history. The end goal is a first-rate dissertation based on that research. Students should acquire a deep knowledge of two fields of history and understand the field's historical and theoretical foundations. They are prepared to pursue careers in and outside of academia, and they fashion their plans of study together with their advisors.

## Students are expected to demonstrate:

- understanding of the development of the historiography and historical methodologies;
- skill analyzing primary source material;
- skill in contextual analysis and secondary source interpretations;
- an ability to engage in the broad and ever-shifting philosophical, scholarly, and institutional debates animating the practice of history;
- the ability to engage in sustained critical thinking;
- the ability to write clearly and compellingly;
- a deep knowledge of their two research fields;
- reading knowledge of a second language of particular relevance to their field of study;
- the ability to conduct independent research;
- knowledge and skills necessary to be effective teachers;
- public speaking skills necessary to present research in professional academic settings; and
- critical research and writing skills necessary to publish peerreviewed articles.

## Requirements

The Doctor of Philosophy program in history requires at least 72 s.h. of graduate credit. Students must maintain a cumulative University of Iowa grade-point average of at least 3.33 . Those who have earned MA degrees can apply up to 30 s.h. of credit toward the PhD .

Students must complete at least seven graduate-level history or related field courses numbered 6000 or above, earning 3 or 4 s.h. of credit for each course. Courses taken at the MA level may be counted toward this requirement.
Students must complete a required course sequence in their first year: HIST:6002 Introduction to Graduate Studies in History: Historiography and Methods and HIST:6003 History Theory and Interpretation. These courses develop an understanding of the philosophy of history, historiography, and methods of historical research. Students also must complete the comprehensive exam sequence in the second or third year depending on their degree at admission: HIST:6004 Comprehensive Exams Seminar I (the semester before the comprehensive exam) and HIST:6005 Comprehensive Exams Seminar II (the semester of the comprehensive exam).

Students who enter the program without an MA must write two research papers that are the length of a standard journal article (7,000-9,000 words) before taking comprehensive exams. One of these research papers is the qualifying research paper. For students who enter the program with an MA, only the qualifying research
essay must be completed before taking comprehensive exams. The essay must be based on original research and should be of sufficient quality to submit for publication in learned journals, just as the PhD dissertation takes the form of a full-length scholarly monograph. The qualifying essay must be approved by the faculty advisor and a second faculty member in order for a student to continue in the program.

The department has a basic world language requirement for the PhD ; however, the supervising faculty member may require a student to demonstrate reading proficiency in one or more languages and proficiency in the use of other study tools. Students may not complete the comprehensive exam until these requirements have been met.
The comprehensive written and oral exams cover three distinct fields. The primary field is defined thematically and geographically in consultation with the advisor. The secondary field is defined with a field supervisor; it must have a different thematic and/or geographic focus than the primary field. Both of these fields are based on core sets of readings created together with advisors. There are two options for the third field: a teaching option and a non-teaching option. In either case, the parameters are set by the student's advisor, and the required work must be completed prior to the written examinations. The written portion of the comprehensive exams consists of two questions for each field, each answered over two days during the comprehensive exam period. The oral portion of the comprehensive examination focuses on the submitted written examination.
In most cases, the candidate submits a written prospectus for the dissertation to the faculty advisor before the comprehensive exams, and the student defends the prospectus within two weeks of passing the oral portion of the examination. The examination committee considers the prospectus and may approve it, reject it, or require its revision. At this point, all that remains is researching and writing the dissertation, in regular consultation with the faculty advisor. When the dissertation is completed, a dissertation committee composed of at least four faculty members administers the final examination. A formal oral defense of the dissertation typically lasts two hours.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.
Applicants submit their application online. Along with the official application, they submit academic transcripts; examples of original writing, such as a term paper, a seminar paper, or a master's essay; letters of recommendation from three persons familiar with the student's past academic work; and a one- or two-page personal statement of the applicant's purpose for doing graduate work. See History (MA or PhD) on the University of Iowa Graduate Admissions website for more information.
All application materials are due by Jan. 15 for entry the following August.

## Career Advancement

Graduate study in history prepares students for occupations such as secondary or college teaching, publishing, commercial research, foundations and nongovernmental organizations, and government or other public services. With additional specialized training, students may become qualified for careers in historical site preparation and display, or archival, library, or museum work.
The University of Iowa's history graduates who earn a PhD have an excellent history of job placement, depending on their area of study. Graduate and postdoctoral career services offer multiple resources to assist students in preparing for job opportunities upon completion of the program.

## Academic Plans <br> Sample Plan of Study

Sample plans represent one way to complete a program of study Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
b Students must complete HIST:6002 and HIST:6003 during their first year.
c Students must complete at least seven graduate level history (or related field) courses numbered 6000 or above; work with faculty advisor to determine appropriate coursework and sequence.
d Work with faculty advisor to determine appropriate elective coursework and sequence.
e The department has a basic world language requirement for the PhD . However, the faculty advisor may require a student to demonstrate a reading knowledge of one or more languages and proficiency in the use of other study tools. Students may not complete the comprehensive examination until these requirements have been met.
f Must be completed prior to the end of second year fall semester.
g Written and oral examination typically completed during the second year; more information is included in the General Catalog and on department website.
h Typically completed during the second year, written prospectus for the dissertation is submitted to the faculty advisor before the comprehensive exams; the student defends the prospectus within two weeks of passing the oral portion of the comprehensive examination.
i Dissertation defense.

# Interdepartmental Studies 

Director, Division of Interdisciplinary Programs

- Cornelia C. Lang (Physics and Astronomy)

## Director, Interdepartmental Studies

- Cornelia C. Lang

Undergraduate major: interdepartmental studies (BA)
Faculty: https://interdepartmentalstudies.uiowa.edu/people
Website: https://interdepartmentalstudies.uiowa.edu/
The Interdepartmental Studies Program (ISP) gives students the opportunity to choose a preapproved plan of study in applied human services, business studies, or health science, or to design an individualized plan of study. Each track includes coursework from a variety of departments.
Students who plan to seek employment immediately after graduation should familiarize themselves with the educational background and qualifications required by employers and should include appropriate courses in their study programs.
Students preparing for advanced study should become familiar with the admissions requirements of graduate or professional schools that interest them. The earlier students decide to pursue graduate or professional study, the easier it is to complete the necessary prerequisites.
The Interdepartmental Studies Program is one of the academic units in the Division of Interdisciplinary Programs [p. 364].

## INTD:3005 Professional and Creative Business

## Communication

 today's modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semesterlong creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision-making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as CW:3005, WRIT:3005.INTD:3027 Nutrition in Health and Performance 3 s.h.
Effects of exercise and nutrition on health- and sports-related fitness; for professionals in health and physical education. Same as SRM:3020.
INTD:3107 Creative Writing for the Health Professions 3 s.h.
GE: Engineering Be Creative. Same as CW:3107.

INTD:3200 Creative Writing for New Media 3 s.h.
Prepares creative writers for evolving marketplace of electronic text and media; experience writing in varied media (e.g., internet, ebooks, video games, mobile devices, emergent social narratives). GE: Engineering Be Creative. Same as CW:3218.
INTD:3300 Creative Writing and Popular Culture 3 s.h.
Creative writing through the lens of popular culture; topics include television, film writing, adaptations, commercials, advertising, magazines, newspapers, comic books, song lyrics, billboards, and backs of cereal boxes. GE: Engineering Be Creative. Same as CW:3215.
INTD:3510 Introduction to Arts Management
3 s.h.
Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as THTR:3510.
INTD:4098 Independent Study
arr.
Individual study of issues or topics related to a specific interdepartmental focus chosen by the student.

INTD:4099 Interdepartmental Studies Practicum
Opportunity to relate a student's chosen area of study to practical application. Requirements: interdepartmental studies student.
INTD:4510 Arts Leadership Seminar 3 s.h. Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Prerequisites: THTR:3510 or ENTR:2000. Same as ENTR:4510, THTR:4510.

## Interdepartmental Studies, BA

## Learning Outcomes

After completing any of the three tracks-applied human services, business studies, or health science-in the interdepartmental studies major, students will:

- possess the mathematical skills to present and understand data and to create probability models, or to design, analyze, and interpret research using a correlational design;
- understand how social and/or political issues shape economic behavior, or how key anthropological concepts assist in comprehending global or societal problems; and
- synthesize key concepts or techniques related to the track they are pursuing.

## Requirements

The Bachelor of Arts with a major in interdepartmental studies requires a minimum of 120 s.h., including at least 36 s.h. of work for the major (total semester hours required depends on the track). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
Students choose one of four tracks for the major: applied human services, business studies, health science, or an individualized plan of study. The individualized plan of study track is selective; students must apply and be admitted before they may declare it. The other three tracks are open; students may declare them without an application.
Students who choose the individualized plan of study track design their own major. Those who choose the applied human services track, business studies track, or health science track follow a preapproved study plan, which includes foundation courses and a selection of emphasis areas. The applied human services track offers three emphasis areas: aging services, community-based services, and corrections services. The business studies track offers four emphasis areas: organizational practice and perspectives, values and ethics, arts management, and technology and inquiry. The health science track offers four emphasis areas: aging, entrepreneurial, global health, and multidisciplinary science.

Interdepartmental studies students who earn a second major may count a maximum of two courses from the second major toward the interdepartmental studies major. There is no limit on the number of GE CLAS Core courses that can overlap between the two majors. Students who earn the major in interdepartmental studies may earn the major in global health studies as long as they select an emphasis in interdepartmental studies other than the global health emphasis in the health science track.
Students majoring in interdepartmental studies may earn certificates in other programs, departments, or colleges.
Interdepartmental studies students who earn minors in other departments or programs may not count courses from the minors toward the interdepartmental studies major. There is no limit on the number of GE CLAS Core courses that can overlap between the minors and the interdepartmental studies major.
The BA with a major in interdepartmental studies requires the following coursework.

- Applied Human Services Track [p. 657]
- Business Studies Track [p. 660]
- Health Science Track [p. 666]
- Individualized Plan of Study Track [p. 671]

## Applied Human Services Track

Students in the applied human services track may not earn a minor in human relations. Students in this track may count courses that reside in another college outside the College of Liberal Arts and Sciences (CLAS) toward their residence requirement. For example, Department of Counselor Education courses (prefix CSED) offered through the College of Education will be accepted toward the CLAS residence requirement for students in the applied human services track.
The applied human services track requires 37-42 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized psychology background with a choice of three emphasis areas: aging services, community-based services, and corrections services. Students who choose this track also have the option of proposing their own human services-related emphasis area to the faculty advisory committee.
Applied human services track students must complete foundation coursework (24-26 s.h.), one emphasis area (at least 12 s.h.), and a career preparation component (at least 1 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises applied human services track students; contact the center for more information about requirements.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | $24-26$ |
| Emphasis Area | $12-13$ |
| Career Preparation Component | $1-3$ |

## Business Studies Track

Students in the business studies track may not earn a business administration minor.

The business studies track requires $37-50$ s.h. of work for the major. It provides a preapproved plan of study that combines a generalized business background with a choice of four emphasis areas: organizational practice and perspectives, values and ethics, arts management, and technology and inquiry. Students who choose this track also have the option of proposing their own business-related emphasis area to the faculty advisory committee.

Business studies track students must complete foundation coursework (at least 11 s.h.), business electives (at least 10 s.h.), one emphasis area (at least 15 s.h.), and the career preparation component (at least 1 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center
advises business studies track students; contact the center for more information about requirements.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | $11-15$ |
| Business Electives | $10-12$ |
| Emphasis Area | $15-20$ |
| Career Preparation Component | $1-3$ |

## Health Science Track

The health science track requires 38-43 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized health background with a varied choice of emphasis areas: multidisciplinary science, entrepreneurial, aging, and global health. Students who choose this track also have the option of proposing their own health science-related emphasis area to the faculty advisory committee.

Health science track students must complete foundation coursework (at least 22 s.h.), one emphasis area (at least 15 s.h.), and the career preparation component (at least 1 s.h.). They must complete a minimum of $15 \mathrm{~s} . \mathrm{h}$. for the major at the University of Iowa. The Academic Advising Center advises health science track students; contact the center for more information about requirements.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | $22-25$ |
| Emphasis Area | 15 |
| Career Preparation Component | $1-3$ |

## Health Science Track: Foundation Courses

Students must complete at least 22 s.h. of foundation courses from the following.

## Foundational Chemistry

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| CHEM:1070 | General Chemistry I | 3 |
| CHEM:1110 | Principles of Chemistry I | 4 |
| One of these: |  | 3 |

## Individualized Plan of Study Track

The individualized plan of study track requires a minimum of 36 s.h. of work for the major, all taken at the University of Iowa. Students who choose this track build their own study plan, creating a unique major that speaks to interests across departments and that integrates varied approaches to a particular topic (e.g., aging studies, international business, children's studies, environmental issues, health issues).

Students must submit their study plan for approval. The plan must include an essay that provides a clear statement of the area of intellectual focus; the reasons for preferring the Interdepartmental Studies Program (ISP) to any departmental program; a concrete discussion of how the advanced courses relate to each other, to personal interests, and to the central focus of the study plan; a description of academic goals for the bachelor's degree; a list of advanced-level coursework already completed; a list of advancedlevel coursework planned for all remaining semesters; and a letter of support from a faculty mentor.

Each study plan is approved by the director of Interdepartmental Studies. If the director does not grant approval, the study plan may be returned to a student for revisions and resubmitted. In some cases, a student may be referred to an appropriate departmental major.

Once the study plan is approved, a student is required to follow the plan, taking the courses approved for it. A limited number of substitutions may be allowed, but only if they are clearly consistent with the area of intellectual focus in the approved study plan, and only if they are approved in advance by the ISP advisor. Unauthorized substitutions may be designated as elective coursework.

Significant changes in the focus of a student's study plan require the submission and approval of a revised study plan. A student's academic advisor determines whether changes warrant a revised plan.

See the Interdepartmental Studies Program website for up-to-date information on the individualized plan of study track and rules for submission of study plans.

Students who choose the individualized plan of study track are advised by the ISP coordinator; they work closely with the Interdepartmental Studies Program while designing the study plan. Students who intend to submit a study plan should contact the ISP coordinator as early as possible.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major; they usually complete the honors requirements of a particular department or program appropriate to their area of study. Students should initiate inquiries about graduating with honors in the interdepartmental studies major by contacting the Interdepartmental Studies Program (ISP) coordinator; they should inquire early in their junior year to allow time for foundation coursework. Students must submit an honors project approval form to the ISP coordinator

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative grade-point average (GPA) of at least 3.33 and a minimum major GPA of at least 3.33. Additional GPA standards and requirements are set by each department or program.

## 3 University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the interdepartmental studies major.

## Career Advancement

Graduates in the applied human services, business studies, and health science tracks have career options in a variety of settings, including retirement homes, hospitals, health clubs, government agencies, insurance companies, and performing arts companies.

Students who create individualized plans of study stand out when they apply for jobs because their major emphasizes a unique set of strengths and interests. In addition, employers often are impressed by their enthusiasm and self-directed nature.

Many interdepartmental studies majors go on to graduate school
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The Four-Year Graduation Plan is available only to Interdepartmental Studies Program (ISP) students in the individualized plan of study track. Students in the other ISP tracks work with their advisors to develop individual graduation plans.

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major.

Before the seventh semester begins: an approved individualized plan of study, at least six courses in the plan of study, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: a total of at least nine courses in the plan of study.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
d Fulfills a major requirement and may fulfill a GE requirement.
e Students should choose a mathematics or statistics course that will also complete the GE: Quantitative or Formal Reasoning requirement.
f Enrollment in math courses requires completion of a placement exam.
g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
h The required 16 s.h. of emphasis area courses must include 9 s.h. earned in advanced courses. See General Catalog for lists of approved courses.
i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# International Relations 

Chair, Department of Political Science

- Brian H. Lai

Undergraduate major: international relations (BA, BS)
Undergraduate minor: international relations
Faculty: https://clas.uiowa.edu/polisci/people/faculty
Website: https://clas.uiowa.edu/polisci/
The undergraduate programs of study in international relations are administered by the Department of Political Science [p. 900], which offers related BA and BS programs of study in political science. The department also offers the Certificate in Political Risk Analysis [p. 898], and it collaborates with other departments to offer the Certificate in Social Science Analytics [p. 972]. The department additionally provides a number of courses that undergraduate students in all majors may use to fulfill GE CLAS Core [p. 19] requirements.

## Programs

## Undergraduate Programs of Study

## Majors

- Major in International Relations (Bachelor of Arts) [p. 676]
- Major in International Relations (Bachelor of Science) [p. 682]

## Minor

- Minor in International Relations [p. 689]

## International Relations, BA

A major in international relations focuses on economic relations between states, a crucial area of study in today's globalized world. Students are introduced to the politics of foreign countries. They develop an understanding of how countries interact and acquire a deep appreciation for the root causes of problems that transcend national boundaries.

Requirements for the major are the same for BA and BS students, except that the major for the BS requires a set of mathematics/ statistics courses, while the major for the BA does not.

## Learning Outcomes

Graduates will:

- possess a broad understanding of international relations;
- be able to apply a theoretical approach in international relations to understand a specific area of international relations;
- have effective written and oral communication skills; and
- be able to conceptualize problems and apply analytical tools to solve them.

## Requirements

The Bachelor of Arts with a major in international relations requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track.

The BA with a major in international relations requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| International Relations Core | $12-13$ |
| Methods Course | 3 |
| Senior Seminar Courses | 4 |
| Track Courses | $18-19$ |

## International Relations Core

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  | 3 |
| POLI:1500 | Introduction to International <br> Relations <br> POLI:3512 | International Conflict |
| POLI:3516 | The Politics of International <br> Economics | 3 |
| One of these: | The Modern World | 3 |
| HIST:1101 | The West and the World: <br> Hodern 1403 | International Politics: The |
| HIST:3143 | History of the Present | 3 |
| HIST:3155 | The World Since 1945 | 3 |

## Methods Course

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| POLI:2000 | Designing Political Research | 3 |
| POLI:3000 | Analyzing Political Data | 3 |

## Senior Seminar Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: | International Relations Senior | 1 |
| POLI:4802 | Seminar Preparation |  |
| One of these: | Senior Seminar in International <br> Relations | 3 |
| POLI:4800 4801 | Honors Senior Seminar in <br> International Relations | 3 |

## Tracks

International relations students complete one of the following five tracks, each of which requires 18 s.h. of coursework. Students who would like to declare the major in international relations before deciding on a track may declare the open track for advising purposes. They should talk with an advisor and decide on a track as soon as possible.

- Conflict and Foreign Policy Track [p. 676]
- International Business and Economic Relations Track [p. 677]
- Regional Politics and Relationships Track [p. 677]
- Transnational Issues Track [p. 678]
- Self-Defined Track [p. 679]

## Conflict and Foreign Policy Track

The conflict and foreign policy track requires the following coursework (minimum of 18 s.h.).

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  | 3 |
| POLI:1501 | Introduction to American | 3 |

Five of these, including at least 6 s.h. in courses from each of two departments:

| POLI:2417 | Comparative Environmental <br> Policy | 3 |
| :--- | :--- | :--- |
| POLI:3035 | Careers in Political Science and <br> International Relations | 3 |
| POLI:3405 | Authoritarian Politics |  |
| POLI:3410 | Russian Foreign Policy |  |
| POLI:3411 | Democracy: Global Trends and <br> Struggles | 3 |
| POLI:3420 | Southeast Asia: Politics and <br> Development | 3 |
| POLI:3422 | Horn of Africa: Politics and <br> Transnational Issues | 3 |
| POLI:3423 | The Middle East: Policy and <br> Diplomacy | 3 |
| POLI:3425 | South Asia: Politics, Identity, <br> and Conflict | 3 |
| POLI:3428 | Statecraft, Diplomacy, and <br> World Order | 3 |
| POLI:3503 | Politics of Terrorism <br> POLI:3505 | Civil Wars |

| POLI:3506 | Consequences of War | 3 |
| :---: | :---: | :---: |
| POLI:3509 | International Courts: The Intersection of Law and Politics | 3 |
| POLI:3518 | Water Wars: Conflict and Cooperation | 3 |
| POLI:3522 | Ending Wars and Keeping Peace | 3 |
| POLI:3527 | Civil War Research Lab | 3 |
| POLI:3530 | Diplomacy Lab | arr. |
| POLI:3550 | Problems of International Politics | 3 |
| POLI:3603 | War and Film | 3 |
| HIST:2420/ <br> GRMN:2720 | Germany in the World | 3-4 |
| HIST:2465 | Europe Since 1945 | 3 |
| $\begin{aligned} & \text { HIST:2684/ } \\ & \text { ASIA:2684 } \end{aligned}$ | Korean War: Local and Global History | 3 |
| HIST:2804 | The Middle East Through Graphic Novels and Animated Film | 3 |
| HIST:2810 | The Modern Middle East | 3 |
| HIST:3106 | History Behind the Headlines | 3 |
| HIST:3108 | History of Human Rights | 3 |
| HIST:3145 | Europe and the United States in the Twentieth Century | 3 |
| HIST:3155 | The World Since 1945 | 3 |
| HIST:3242 | The United States in World Affairs | 3-4 |
| HIST:3494 | The Russian Revolutions and Their Legacies | 3 |
| HIST:4264 | The American Home Front During World War II | 3 |
| HIST:4478 | Holocaust in History and Memory | 3 |

## International Business and Economic Relations Track

The international business and economic relations track requires the following coursework (minimum of 19 s.h.).

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Two of these: | Principles of Microeconomics | 4 |
| ECON:1100 | Principles of Macroeconomics | 4 |
| ECON:1200 | The Global Economy | 3 |
| GEOG:2910 | Comparative Environmental | 3 |
| Four of these, including courses from at least two |  |  |
| departments: | Policy |  |
| POLI:2417 | Careers in Political Science and | 3 |
| POLI:3035 | International Relations |  |
| POLI:3400 | Political Economy | 3 |
| POLI:3424 | Global Development | 3 |
| POLI:3432 | Agriculture Politics and Policy | 3 |
| POLI:3504 | Globalization | 3 |
| POLI:3524 | Politics and Multinational | 3 |
| ECON:3345 | Enterprises | Global Economics and Business |

| ECON:3625/ <br> URP:3135 | Environmental and Natural Resource Economics | 3 |

## Self-Defined Track

Students may create their own track with permission from the director of undergraduate studies. A self-defined track may not duplicate an existing track or another academic program of study at the University of Iowa. It must consist of at least 18 s.h. of coursework, which must include $3 \mathrm{~s} . \mathrm{h}$. of credit earned in courses from each of three departments.

Before the third semester begins: POLI:1500 Introduction to International Relations.

Before the fifth semester begins: all core courses and the methods course.

Before the seventh semester begins: at least 12 s.h. in the track and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: all track requirements.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study.
Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
e Refer to the General Catalog for list of approved courses.
f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
g STAT:1010 or STAT:1020 recommended.
h Students complete four approved international business and economic relations track elective courses, including courses from at least two different departments.
i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any
questions on appropriate timing, contact your academic advisor or Graduation Services.

## International Relations, BS

A major in international relations focuses on economic relations between states, a crucial area of study in today's globalized world. Students are introduced to the politics of foreign countries. They develop an understanding of how countries interact and acquire a deep appreciation for the root causes of problems that transcend national boundaries.

Requirements for the major are the same for BS and BA students, except that the major for the BS requires a set of mathematics/ statistics courses, while the major for the BA does not.

## Learning Outcomes

Graduates will:

- possess a broad understanding of international relations;
- be able to apply a theoretical approach in international relations to understand a specific area of international relations;
- have effective written and oral communication skills; and
- be able to conceptualize problems and apply analytical tools to solve them.

## Requirements

The Bachelor of Science with a major in international relations requires a minimum of 120 s.h., including at least 47 s.h. of work for the major. At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track.

The BS with a major in international relations requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| International Relations Core | $12-13$ |
| Methods Course | 3 |
| Senior Seminar Courses | 4 |
| Mathematics/Statistics Courses | $10-11$ |
| Track Courses | $18-19$ |

## International Relations Core

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Introduction to International |  |
| POLI:1500 | Relations <br> International Conflict | 3 |
| POLI:3512 | The Politics of International <br> PConomics | 3 |
| One of these: | The Modern World | 3 |
| HIST:1101 | The West and the World: <br> Hodern 1403 | International Politics: The |
| HIST:3143 | History of the Present | 3 |
| HIST:3155 | The World Since 1945 | 3 |

## Methods Course

| Course \# <br> One of these: | Title | Hours |
| :--- | :--- | ---: |
| POLI:2000 | Designing Political Research | 3 |
| POLI:3000 | Analyzing Political Data | 3 |

## Senior Seminar Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: | International Relations Senior | 1 |
| POLI:4802 | Seminar Preparation |  |
| One of these: | Senior Seminar in International <br> Relations | 3 |
| POLI:4800 4801 | Honors Senior Seminar in <br> International Relations | 3 |

## Mathematics/Statistics Courses

Students must complete one of the following approved sets of mathematics/statistics courses (10-11 s.h.) with a GPA of at least 2.00. Substitutions must be approved by the director of undergraduate studies.

## Set 1

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:1380 | Calculus and Matrix Algebra <br> for Business (or equivalent or <br> higher-level calculus course) | 4 |
|  | Introduction to Statistical | 3 |
| STAT:4143/ MSQF:4143 | Methods |  |
| STAT:6513/ <br> PSQF:6243 | Intermediate Statistical Methods | 3 |

Set 2

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:1850 | Calculus I | 4 |
| MATH:1860 | Calculus II | 4 |
| STAT:4143/ | Introduction to Statistical | 3 |
| PSQF:4143 | Methods |  |

## Tracks

International relations students complete one of the following five tracks, each of which requires 18 s.h. of coursework. Students who would like to declare the major in international relations before deciding on a track may declare the open track for advising purposes. They should talk with an advisor and decide on a track as soon as possible.

- Conflict and Foreign Policy Track [p. 682]
- International Business and Economic Relations Track [p. 683]
- Regional Politics and Relationships Track [p. 683]
- Transnational Issues Track [p. 684]
- Self-Defined Track [p. 685]

Conflict and Foreign Policy Track
The conflict and foreign policy track requires the following coursework (minimum of 18 s.h.).

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| This course: |  |  |
| POLI:1501 | Introduction to American Foreign Policy | 3 |
| Five of these, including at least 6 s.h. in courses from each of two departments: |  |  |
| POLI:2417 | Comparative Environmental Policy | 3 |
| POLI:3035 | Careers in Political Science and International Relations | 3 |
| POLI:3405 | Authoritarian Politics | 3 |
| POLI:3410 | Russian Foreign Policy | 3 |
| POLI:3411 | Democracy: Global Trends and Struggles | 3 |
| POLI:3420 | Southeast Asia: Politics and Development | 3 |
| POLI:3422 | Horn of Africa: Politics and Transnational Issues | 3 |
| POLI:3423 | The Middle East: Policy and Diplomacy | 3 |
| POLI:3425 | South Asia: Politics, Identity, and Conflict | 3 |
| POLI:3428 | Statecraft, Diplomacy, and World Order | 3 |
| POLI:3503 | Politics of Terrorism | 3 |
| POLI:3505 | Civil Wars | 3 |
| POLI:3506 | Consequences of War | 3 |
| POLI:3509 | International Courts: The Intersection of Law and Politics | 3 |
| POLI:3518 | Water Wars: Conflict and Cooperation | 3 |
| POLI:3522 | Ending Wars and Keeping Peace | 3 |
| POLI:3527 | Civil War Research Lab | 3 |
| POLI:3530 | Diplomacy Lab | rr. |
| POLI:3550 | Problems of International Politics | 3 |
| HIST:3108 | History of Human Rights | 3 |
| POLI:3603 | War and Film | 3 |
| $\begin{aligned} & \text { HIST:2420/ } \\ & \text { GRMN:2720 } \end{aligned}$ | Germany in the World | 3-4 |
| HIST:2465 | Europe Since 1945 | 3 |
| $\begin{aligned} & \text { HIST:2684/ } \\ & \text { ASIA:2684 } \end{aligned}$ | Korean War: Local and Global History | 3 |
| HIST:2804 | The Middle East Through Graphic Novels and Animated Film | 3 |
| HIST:2810 | The Modern Middle East | 3 |

| HIST:3242 | The United States in World Affairs | 3-4 |
| HIST:3494 | The Russian Revolutions and Their Legacies | 3 |
| HIST:4264 | The American Home Front During World War II | 3 |
| HIST:4478 | Holocaust in History and Memory | 3 |

## International Business and Economic Relations Track

The international business and economic relations track requires the following coursework (minimum of 19 s.h.).

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Two of these: |  |  |
| ECON:1100 | Principles of Microeconomics | 4 |
| ECON:1200 | Principles of Macroeconomics | 4 |
| GEOG:2910 | The Global Economy | 3 |
| Four of these, including departments: | g courses from at least two |  |
| POLI:2417 | Comparative Environmental Policy | 3 |
| POLI:3035 | Careers in Political Science and International Relations | 3 |
| POLI:3400 | Political Economy | 3 |
| POLI:3424 | Global Development | 3 |
| POLI:3432 | Agriculture Politics and Policy | 3 |
| POLI:3504 | Globalization | 3 |
| POLI:3524 | Politics and Multinational Enterprises | 3 |
| ECON:3345 | Global Economics and Business | 3 |
| ECON:3620 | Economic Growth and Development | 3 |
| ECON:3625/ <br> URP:3135 | Environmental and Natural Resource Economics | 3 |
| ECON:3750/ <br> GEOG:3940/ <br> URP:3350 | Transportation Economics | 3 |
| ECON:4110 | International Economics | 3 |
| ENTR:4460 | Entrepreneurship and Global Trade | 3 |
| FIN:4240 | International Finance (prerequisite required) | 3 |
| GEOG:2410 | Environment and Development | 3 |
| $\begin{aligned} & \text { GEOG:3070/ } \\ & \text { GHS:3070 } \end{aligned}$ | Hungry Planet: Global Geographies of Food | 3 |
| GEOG:3800 | Environmental Economics and Policy | 3 |
| HIST:3240/ <br> GEOG:3780/ <br> GHS:3780/POLI:3431 | U.S. Energy Policy in Global Context | 3 |
| IS:3200 | Sustainable Development | 3 |
| MGMT:3450 | International Business Environment | 3 |
| MKTG:4300 | International Marketing (prerequisite required) | 3 |

## Regional Politics and Relationships Track

The regional politics and relationships track requires the following coursework (minimum of 18 s.h.).

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  |  |
| POLI:1400 | Introduction to Comparative | 3 |
| Politics |  |  |
| Five of these, including at least 6 s.h. in courses from |  |  |
| each of two departments: |  |  |
| POLI:1401 | Introduction to Russian Politics | 3 |

| POLI:1445 | Introduction to Asian Politics: | 3 |
| :--- | :--- | ---: |
|  | China |  |$\quad 3$

| HIST:3515/LAS:3515 | Introduction to Modern Latin America | 3 |
| :---: | :---: | :---: |
| HIST:3652/ <br> ASIA:3652 | Twentieth-Century China | 3 |
| HIST:3685/ | Modern Korean History | 3 |
| HIST:3760/ <br> AFAM:3760 | The Making of Modern Africa | 3 |
| HIST:3810 | History of the Modern Middle East | 3 |
| HIST:4433/ <br> FREN:4433 | France Under Nazi Occupation, 1940-1944 | 3-4 |
| $\begin{aligned} & \text { HIST:4666/ } \\ & \text { ASIA:4166 } \end{aligned}$ | Topics in Asian History | 3 |

## Transnational Issues Track

The transnational issues track requires the following coursework (minimum of 18 s.h.).

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Six of these, including at least 3 s.h. in courses from each of three departments: |  |  |
| POLI:2417 | Comparative Environmental Policy | 3 |
| POLI:2500 | Politics of Natural Disasters | 3 |
| POLI:3035 | Careers in Political Science and International Relations | 3 |
| POLI:3411 | Democracy: Global Trends and Struggles | 3 |
| POLI:3422 | Horn of Africa: Politics and Transnational Issues | 3 |
| POLI:3424 | Global Development | 3 |
| POLI:3428 | Statecraft, Diplomacy, and World Order | 3 |

## Self-Defined Track

Students may create their own track with permission from the director of undergraduate studies. A self-defined track may not duplicate an existing track or another academic program of study at the University of Iowa. It must consist of at least 18 s.h. of coursework, which must include 3 s.h. of credit earned in courses from each of three departments.

## Honors

## Honors in the Major

Students majoring in international relations have the opportunity to graduate with honors in the major. Students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33, as required by the College of Liberal Arts and Sciences, and a major GPA of at least 3.50. Students also must complete POLI:4000 Honors Seminar on the Study of Politics in addition to the minimum major requirements. Honors students complete an honors thesis through their enrollment in POLI:4801 Honors Senior Seminar in International Relations.

## National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have a cumulative GPA of at least 3.30, have attained junior standing, and have completed $15 \mathrm{~s} . \mathrm{h}$. of coursework in political science are considered for membership. Contact the Department of Political Science honors advisor for more information.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the international relations major.

## Career Advancement

Because international relations and the international community are so important, a major in international relations is an excellent choice for any student considering a career in either the public or private sector, including the diplomatic service, intelligence organizations, multinational corporations, nongovernmental organizations, international organizations, think tanks, public health agencies, the media, and numerous other professions. The international relations
major also prepares students to pursue postbaccalaureate degrees such as a JD, MA, or PhD.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: POLI:1500 Introduction to International Relations.

Before the fifth semester begins: all core courses and the methods course.

Before the seventh semester begins: at least two of the mathematics/ statistics courses, at least 12 s.h. in the track, and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: all core courses, the methods course, the remaining mathematics/statistics course, and all track requirements.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
e Refer to the General Catalog for list of approved courses.
f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
g The conflict and foreign policy track requires POLI:1501 and at least five additional approved courses (18 s.h. total). This must include at least 6 s.h. in courses from each of two departments.
h Students must complete one of the approved sets of mathematics/ statistics courses (10-11 s.h.).
i Enrollment in math courses requires completion of a placement exam.
j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## International Relations, Minor

## Requirements

The undergraduate minor in international relations requires a minimum of 15 s.h. in coursework approved for the international relations major, including at least 9 s.h. in courses numbered 3000 or above and at least 12 s.h. taken at the University of Iowa. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.
Students may count a maximum of 9 s.h. earned in coursework from one department toward the minor. To view the selection of courses available, see the BA in international relations [p. 676] or the BS in international relations [p. 682] in the catalog.

Courses for the minor in international relations must include the following.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: | Introduction to International |  |
| POLI:1500 | Relations | 3 |
| One of these: | International Conflict | 3 |
| POLI:3512 | The Politics of International | 3 |
| POLI:3516 | Economics |  |

# International Studies 

## Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman (Linguistics)

Director, International Studies

- Ari Ariel

Undergraduate major: international studies (BA)
Undergraduate minor: international studies
Faculty: https://internationalstudies.uiowa.edu/people
Website: https://internationalstudies.uiowa.edu/
The International Studies Program offers a multidisciplinary approach to international issues and global connections.

International Studies is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 365].

## Programs

## Undergraduate Programs of Study

## Major

- Major in International Studies (Bachelor of Arts) [p. 693]

## Minor

- Minor in International Studies [p. 705]

## Facilities

The Center for Language and Culture Learning provides a wide variety of facilities and services to the Division of World Languages, Literatures and Cultures (DWLLC), including a 24 -computer Instructional Technology Center (ITC) and five All-In-One Studios/ small group study rooms equipped with video production and editing software, a Computer Assisted Language Learning Lab with 25 computers integrated with Sanako software for language practice, and virtual reality hardware and development space.
The center provides spaces for quiet study as well as for group meetings. Departments, programs, and student organizations are welcome to host conversation hours, film nights, study groups, workshops, and more. Peer education services include peer tutoring programs in many of the languages taught in DWLLC, with both inperson and online availability, as well as the Directed Independent Language Study, through which faculty, staff, or students can be paired with a tutor to learn a language not taught in the DWLLC. Tutors are trained to use the Three Ms for Effective Learning, including developing a growth mindset, using memory strategies to retain knowledge, and reflecting on learning gains.

## Courses

## International Studies Courses

IS:1000 Designing Your International Studies Major 1 s.h. Importance of interdisciplinarity, global perspectives, and world language study for 21st-century liberal education; intentional planning of courses and other out-of-class experiences to prepare students for life and career after college.

IS: 1101 Cultural Anthropology
3 s.h.
Comparative study of culture, social organization. GE: Social Sciences; Values and Culture. Same as ANTH:1101.

IS:2000 Introduction to International Studies $\mathbf{3}$ s.h. Introduction to the interdisciplinary field of international studies; globalization, migration, and inequality. GE: International and Global Issues.

## IS:2009 World Travel: Cross-Cultural Skills for International Business, Education, and Service <br> $$
3 \text { s.h. }
$$

Cross-cultural skills and ethics for international business, education, and service.
IS:2013 Issues in International Studies 1-3 s.h.
Modules focusing on varied topics, taught by international studies faculty members.

## IS:2020 World Events Today!

3 s.h.
Current events that introduce students to political and cultural developments throughout the world. GE: Diversity and Inclusion.

## IS:2042 Intercultural Communication 3 s.h.

Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Same as COMM:2042, SSW:2042.
IS:2115 Introduction to Human Rights
3 s.h.
Analysis and evaluation of the international human rights program; relationship between human rights and international law. Same as HRTS:2115.
IS:2120 World History: Stone Age to Feudal Age 3 s.h.
World history from human origins, through classical antiquity, to the 16th century; political, economic, and environmental forces contributing to social transformations. Same as HIST:2120.
IS:2122 World History: Feudal Age to Nuclear Age 3 s.h. World history from the late 1400s to 1945; colonialism, imperialism, capitalism, and industrialization as forces of global social and cultural transformation. Same as HIST:2122.
IS:2151 Global Migration in the Contemporary World 3 s.h. Examination of social, economic, and cultural dimensions of global migration in the contemporary world from a transnational and anthropological perspective; primary focus is on Asian migration to the United States, but in comparison to other migration trajectories. Recommendations: an introductory course in cultural anthropology is useful, but not required. GE: Diversity and Inclusion. Same as ANTH:2151, GWSS:2151.
IS:2190 Love Rules: Law and the Family Across Cultures $\mathbf{3}$ s.h. Recent debates over legalizing gay marriage remind us that the law is not an abstract concept, it is a social creation that emphasizes certain cultural norms over others, both powerful and changeable; family law outlines what one cultural vision of relationships-those between lovers, parent and child, and between kin-supposedly should look like in a given society, a vision always marked by gendered, racial, and sexual divisions of power; students consider what happens when legal norms intersect with diverse ways that people make families through topics including marriage, divorce, custody, and surrogacy across the world. Same as ANTH:2190, GWSS:2190.

## IS:2248 The Invention of Writing: From Cuneiform to Computers

3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, LING:2248, TRNS:2248, WLLC:2248.

## IS:2500 Working Internationally <br> 1 s.h.

Information on international job sectors; presentations by experts in the field; advice on what is required to work internationally.

## IS:2560 Global Food Migrations 3 s.h.

Understanding how food influences and is influenced by social, political, and cultural factors. GE: International and Global Issues.
IS:2700 Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Taught in English. Same as COMM:2800, LAS:2700, PORT:2700, SPAN:2700.

## IS:2902 The Arts and Human Rights 1-3 s.h.

Examination of emerging human rights issues in the arts from an interdisciplinary and international perspective. Same as HRTS:2902.

## IS:2903 Technology and Human Rights

1-3 s.h.
Examination of emerging human rights issues in technology from an interdisciplinary and international perspective. Same as HRTS:2903.

## IS:2907 Literature and Human Rights

1-3 s.h.
Examination in human rights in literature from an interdisciplinary and international perspective. Same as HRTS:2907.

## IS:2908 Governance and Human Rights <br> 1-3 s.h.

Examination of emerging human rights related to governance issues from an interdisciplinary and international perspective. Same as HRTS:2908.
IS:2909 Human Rights Lab 1-3 s.h.
Discussion-based examination of emerging human rights issues from an interdisciplinary and international perspective. Same as HRTS:2909.

## IS:2955 Human Rights and Islam

Exploration of social forces, legal regimes, and cultural norms that have shaped discourse on human rights in a global context with reliance on a systems thinking framework; examination of intersections of rights, culture, society, and law in the last 2,000 years; consideration of interplay between institutional (formal) and societal (informal) powers that shape human rights norms; origins and evolution of discourse on rights across cultures and throughout history. GE: International and Global Issues. Same as RELS:2955.

## IS:3010 Writing and Research for the World

3 s.h.
How to research and write on international and global topics in various genres; preparation for a local or international project which addresses international issues in a systematic way. Requirements: junior or higher standing.

## IS:3011 Global Research: Strategies and Skills

1 s.h.
Skill development in international research; academic projects; work with research librarian; activity-based introduction to article, statistical, and governmental databases; research and popular materials; information discovery process (tools and search strategies); enhancement of critical thinking skills. Same as GHS:3011, ULIB:3011.

IS:3012 Service Learning in International Studies
Internationally focused service learning in local communities.

IS:3020 Writing Projects in International Studies 0-3 s.h.
Writing project completed with the supervision of an approved faculty mentor.

IS:3116 Media and Global Cultures 3 s.h.
Communication as a vital component for any effort to create social change; necessary communication to reach out to target audiences -people and communities in need-from campaigns persuading communities to change knowledge, attitudes, and practices to aiding other development efforts in areas of health, education, rural development, or sustainable agricultural practices; importance of communication as an integral part to any effort aimed at creating large-scale social change. Same as JMC:3116.
IS:3142 Social Media for Social Change 3 s.h.
Individuals and groups use social media to organize, collaborate, and spread their messages to local and global audiences; students explore the myriad ways that people and organizations use social media as tools for civic engagement, activism, and political participation; drawing on a broad range of international and national cases, students examine unfolding social movements from early internet activism to the present. Same as JMC:3142.
IS:3190 Global Debt
3 s.h.
Economies as cultural systems that emphasize the role of worldviews and "meaning-making" in organizing economies; debt as a key mechanism in creation and maintenance of relationships; focus on how exchange, distribution, and obligation serve to shore up or sever various social institutions and links between debt, inequality, and power; debt in various forms, from a round of drinks to student loans, and from the U.S. mortgage crisis to development aid; diverse array of economies-from gift exchange to ceremonial destruction of wealth, and from Melanesia to Wall Street-to evaluate assumptions that undergird different systems of debt and credit. Requirements: introductory course in anthropology or international studies or gender, women's, and sexuality studies. Same as ANTH:3190, SJUS:3190.
IS:3198 Anthropology and Global Health Policy 3 s.h.
Global health has grown as an area of practice and study, with wellbeing and livelihoods of increasing numbers of people now deeply influenced by these ideas, practices, and policies; students engage with ways that global health programs have influenced experiences of health and illness by those who participate in these programs, critically analyzing how global health interacts with local dynamics of inequality, race, gender, and power. Same as ANTH:3199, GHS:3199.

## IS:3200 Sustainable Development

Overview of development theory and debate; increasing role of China and other new players in development funding and projects; development-oriented projects, career paths.
IS:3350 Transnational Feminism
3 s.h.
Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as ANTH:3125, GWSS:3350.
IS:3550 Special Topics in International Studies 1-3 s.h. Special topics related to international studies.

## IS:3555 Understanding Health and Disease in Africa 3 s.h.

Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as GHS:3555, HIST:3755.

## IS:3565 Global Perspectives on Negotiation, Persuasion, and Communication

Cross-cultural approach to preparation for negotiation; exploration of how culture simultaneously enhances and complicates persuasive interactions at the individual, organizational, and global levels; evaluation and improvement of negotiation and cross-cultural communication skills through experiential in-class exercises.

## IS:3904 Business, Labor, and Human Rights <br> 1-3 s.h.

Examination of emerging human rights issues in labor and business from an interdisciplinary and international perspective. Same as HRTS:3904.

## IS:3905 Topics in Human Rights

1-3 s.h.
Examination of emerging human rights issues from an interdisciplinary and international perspective. Same as HRTS:3905.

## IS:3910 Human Rights Advocacy

3 s.h.
Theoretical foundations and critical issues for international human rights advocacy and international humanitarian movements. Same as HRTS:3910.

## IS:3990 Independent Study in International Studies

arr.
Research on a topic of international significance. Requirements: international studies major.

## IS:4131 Globalization and Culture

 3 s.h.How context for everyday experience has increasingly become globally determined (e.g., ever-increasing transnational migration of people, spread of American culture, growth of international corporations and trade, rise of international conflict and transnational activism); range of theoretical and critical readings on globalization; various phenomena and perspectives regarding topic; themes directly relevant to lives of modern youth; how globalization affects opportunities and risks, identities and relationships. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and ( 2 of the following are required: COMM:1816, COMM:1818, COMM:1819, COMM:2020, COMM:2030, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, COMM:2069, COMM:2070, COMM:2072, COMM:2075, COMM:2076, COMM:2077, COMM:2078, COMM:2079, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, COMM:2248). Same as COMM:4131.

IS:4990 International Studies Senior Project 3 s.h.
Prerequisites: IS:3010. Requirements: international studies major.
IS:4991 Honors Thesis in International Studies
3 s.h.
Prerequisites: IS:3010. Requirements: international studies major.

## International Studies, BA

International studies students learn that the complexity of current world conditions requires a multidisciplinary approach to problem solving. They take core international studies courses to learn key concepts and practical skills, and extend their education by choosing from an array of internationally focused courses from the social sciences, humanities, and the arts.

Students also are encouraged to develop real-world intercultural skills by studying abroad, engaging locally with international communities, service learning, internships, and conducting research. Through academic and cocurricular experiences, students become prepared to positively contribute to the world.
As a second major, international studies can add cross-cultural skills and perspectives to degrees in business, health sciences, journalism, and the arts.

## Learning Outcomes

Students will be able to:

- recognize that the complexity of current world conditions requires a multidisciplinary approach to problem solving;
- analyze and synthesize information about key topics in international studies;
- demonstrate intellectual open-mindedness when addressing global issues; and
- apply cross-cultural skills when engaging respectfully with people from other countries and diverse communities in the United States.

## Requirements

The Bachelor of Arts with a major in international studies requires a minimum of 120 s.h., including at least 43 s.h. of work for the major. Students must complete at least 15 s.h. of work for the major at the University of Iowa. They must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

The international studies major is flexible, combining core international studies coursework with those drawn from across the humanities, social sciences, and the arts. Students work closely with an academic advisor to plan their program of study.
Students are encouraged to study or intern abroad and should work with their academic advisor to determine how credits earned from approved study abroad or international internships can fulfill the global perspectives, world cultures and societies, and/or language requirements for the major.

To benefit from the interdisciplinary nature of international studies, students choose from a wide range of courses. To ensure that students take courses from varied disciplines, they may count a maximum of $12 \mathrm{~s} . \mathrm{h}$. from any department or program toward the global perspectives [p. 693] and the world cultures and societies [p. 697] requirements as well as the language [p. 693] requirement.

Students may apply up to 12 s.h. of coursework from each additional major, minor, or certificate they earn toward the international studies major. Transfer credit approved by the International Studies Program may be applied to the major.
Students have the option to complete a 15 s.h. concentration. They choose global perspectives courses and world cultures and societies courses approved in one of the three concentrations: global business and communication [p. 701], international human rights and
public service [p. 701], or international sustainable development [p. 702].
The BA with a major in international studies requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | 10 |
| Language Requirement | 6 |
| Capstone Course | 3 |
| Global Perspectives Courses | 12 |
| World Cultures and Societies Courses | 12 |

## Foundation Courses

Students learn the core, multidisciplinary intellectual and interpersonal international studies skill set, and its applications for travel, employment, and understanding global issues.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Introduction to International <br> Studies | 3 |
| IS:2000 | World Travel: Cross-Cultural <br> Skills for International <br> Business, Education, and <br> Service | 3 |
| IS:2009 | World Events Today! | 3 |
| One of these: | Designing Your International <br> IS:1000 | Studies Major <br> Working Internationally |
| IS:2500 | Worn | 1 |

## Language Requirement

By fulfilling the language requirement, students gain the language competence needed for work and life in the increasingly globalized world.

Students must complete a minimum of two world language courses beyond that required by the GE CLAS Core program. This additional language requirement may be met either by completing two fifth-semester-level courses in the same language used to fulfill the GE CLAS Core World Languages requirement or by completing two courses (or the equivalent) of a second world language at any level.

In satisfying this requirement, most students are eligible to receive an additional 4 s.h. of ungraded credit under the Furthering Language Incentive Program (FLIP). This credit may be applied to the minimum 120 s.h. required for graduation, but it does not count toward requirements for the international studies major.

## Capstone Course

Students apply their knowledge in internationally focused experiences. They typically complete the capstone course in their third or fourth year.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: | Writing and Research for the <br> IS:3010 | World |
| IS:3012 | Service Learning in <br> International Studies | 3 |

## Global Perspectives Courses

Students learn about global trends, comparisons, and interactions.

| Course \# | Title | Hours | CL:2248/ | The Invention of Writing: From | 3 |
| :---: | :---: | :---: | :---: | :---: | :---: |

## Optional Concentrations

Students have the option to complete a 15 s.h. concentration. This may be done by choosing global perspectives courses and world cultures and societies courses that are approved in one of the three concentrations-global business and communication [p. 701], international human rights and public service [p. 701], and international sustainable development [p. 702].

## Global Business and Communication

This concentration enables students to understand the complex forces that shape global commerce on the macro and micro levels. Students use multidisciplinary perspectives to understand the economic and cultural impacts of globalization processes, including on globalized systems and cultures of business, communication, and media. It offers social scientific and humanistic approaches to global business and communication. This background enables students who earn the concentration to stand out among entry-level business applicants; students develop the knowledge and skills needed for engaging in ethical and effective intercultural communication and action in the global business world, which are valued by multinational corporations and businesses worldwide.

## International Human Rights and Public Service

This concentration is designed to provide a combination of philosophical and practical knowledge related to social justice and human rights. The study of human rights is inherently multidisciplinary, and students have the opportunity to become familiar with international human rights standards, their application, and implications through coursework in a variety of disciplines. Students are expected to understand how to discuss and address human rights concerns from a number of distinct perspectives and to apply critical thinking skills to complex problems. Students also develop an understanding of the ways that cultural and political-economic systems reflect specific place-based contexts as well as complex world histories of colonization, resistance, migration, and globalization. They gain knowledge and skills that are directly applicable to public service careers in government and nongovernmental organizations, in the United States and abroad, as well as graduate programs of study such as law and public policy.

## International Sustainable Development

Students learn about the multiple dimensions of social change and human development in areas of the world categorized as developing societies, including poverty reduction; health; the environment and sustainability; climate change; food security; communication for development; cultures of developing societies; and historical, cultural, and critical perspectives on the idea of modern development. They gain an understanding of development as a cultural and politicaleconomic process that directly influences the environment. Students also study the ways in which direct and indirect policy making by social, economic, and political institutions affect environmental issues. In this way, they develop an appreciation of the complexity of development and environmental problems in the globalized world. This concentration gives students the knowledge and skills needed for jobs or graduate education in international development and sustainability work after graduation.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. International studies honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all coursework for the major and in all coursework that may be applied to the major.

To graduate with honors in the major, students must complete a minimum of 46 s.h. for the major (an additional 3 s.h.).
Honors students must choose IS:3010 Writing and Research for the World for their capstone option, and complete IS:4991 Honors Thesis in International Studies. Students also are encouraged to present their research in a public venue, such as the Spring Undergraduate Research Festival (SURF).

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University
of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the international studies major.

## Career Advancement

The flexible structure of the international studies major allows students to tailor the degree to fit a wide range of academic interests and career goals. International studies is an ideal complement to a variety of academic degree programs and many students combine the international studies major with another major such as in world languages, business, journalism, health sciences, or the arts.
International studies alumni find employment in a range of career sectors such as education, nonprofit/nongovernmental organizations (NGOs), business, government, and translation/interpreting.
Specific examples of organizations where recent graduates have found post-graduation opportunities include Doctors without Borders (New York City, New York), the International Visitor Leadership Program/ U.S. Department of State (Washington, D.C.), Coyote Logistics (Chicago, Illinois), Peace Corps (Cambodia and Uganda), American Councils for International Education (Washington, D.C.), CET Study Abroad Programs (Greece), RefugeeRISE AmeriCorps (Des Moines and Iowa City, Iowa), Japan Exchange and Teaching Program (Japan), The Bold Italic (San Francisco, California), and Texas Rio Grande Legal Aid (Austin, Texas).

International studies graduates also have used their cross-cultural, interdisciplinary education to win prestigious awards such as the Fulbright English Teaching Assistantship (Czech Republic, Taiwan, Brazil, Russia), the Gilman Scholarship, the Stanley Undergraduate Award for International Research, the Princeton in Latin America Fellowship, and the Critical Language Scholarship.
Additionally, the international studies major is excellent preparation for graduate and professional programs in law, international development, medicine, nonprofit management, higher education, public health, and urban and regional planning.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the university's Four-Year Graduation Plan.
Students who intend to study abroad during their junior year should schedule an appointment during their fourth semester to meet with an advisor from International Programs Study Abroad; those who intend to study abroad during their senior year should schedule an appointment during their sixth semester.
Before the fifth semester begins: at least two 3 s.h. foundation courses, and one global perspectives course or world cultures and societies course.

Before the seventh semester begins: at least nine courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least 12 courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major (including capstone course if not already taken), all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.
Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students meet regularly with the International Studies academic advisor for help in identifying experiential learning activities and integrating them into their academic plans.
b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
c Students earn a minimum of 10 s.h. in International Studies Foundation courses.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
g Students earn a minimum of 12 s.h. in International Studies World Cultures and Societies courses including at least 6 s.h. numbered 2000 or above; see the General Catalog for list of approved courses.
h Students have the option to complete a $15 \mathrm{~s} . \mathrm{h}$. concentration. They choose Global Perspectives courses and World Cultures and Societies courses approved in one of the three concentrations: Global Business and Communication, International Human Rights and Public Service, or International Sustainable Development.
i Students earn a minimum of 12 s.h. in International Studies Global Perspectives courses including at least 6 s.h. numbered 2000 or above; see the General Catalog for list of approved courses.
j Students must complete a minimum of two courses of language study beyond that required by the GE CLAS Core. This additional language requirement may be met either by completing two courses of upper-level study in the same language used to fulfill the GE CLAS Core World Languages requirement or by completing two courses, or the equivalent, of a second world language at any level.
k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## International Studies, Minor

## Requirements

The undergraduate minor in international studies requires a minimum of 16 s.h., including 13 s.h. in courses taken at the University of Iowa.

Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students may count a maximum of 6 s.h. from a single department or program, from the Tippie College of Business, or from a major, another minor, or a certificate toward the minor in international studies.

A minor in international studies requires the following work.

## Required Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: | Introduction to International <br> Studies | 3 |
| IS:2000 | World Events Today! | 3 |
| IS:2020 | World Travel: Cross-Cultural <br> Soth of these: <br> IS:2009 | Skills for International <br> Servicess, Education, and |

| Total Hours | 16 |

a Choose by reviewing the international studies course database available on the international studies website.
b The experiential learning activity can be study abroad or servicelearning coursework. Contact UI Study Abroad to find approved study abroad programs.

## Iowa Sciences Academy

## Director

- Lori Adams (Biology)

Faculty: https://isa.uiowa.edu/people
Website: https://isa.uiowa.edu/
The Iowa Sciences Academy (ISA) is home to a range of programs that support the success of undergraduate students interested in research and scientific communication. Through ISA programs, students have access to hands-on research, professional development, and scientific outreach opportunities. The Iowa Sciences Academy strives to build a strong community of students, staff, and faculty that values diversity in the sciences.
The Science Alliance Internship Program supports qualified firstand second-year students interested in exploring research on campus. The program aims to enrich the undergraduate experience through coursework, mentor matching, career guidance, and creating a cohort of students with similar interests in science and research. Competitive wages to carry out research in laboratories and access to a summer program for science alliance interns will be provided.
The Maximizing Access to Research Careers (UI-MARC) is a National Institutes of Health (NIH) funded program that supports the academic and personal success of qualified junior and senior students committed to pursuing a PhD in science. The goal of the UI-MARC research training program is to develop a diverse pool of undergraduates who complete their baccalaureate degree, and transition into and complete biomedical, research-focused higher degree programs (e.g., PhD). A yearly stipend, funding for conference travel, tuition support, and access to external summer research experiences are provided.
The mission of the National Science Foundation (NSF) funded Louis Stokes Alliance for Minority Participation (UI-LSAMP) program is to increase the number of underrepresented minority science, technology, engineering, and mathematics (STEM) graduates, and to build a foundation for greater increases in future years. UILSAMP facilitates professional development and finding laboratory experiences for underrepresented STEM majors transferring from community colleges. Selected students receive stipends for each term.
The Latham Science Engagement Initiative provides the opportunity for sophomore, junior, and senior students to interact with highly talented undergraduate students across science disciplines. The program prepares students to communicate science in the public sphere, work in multidisciplinary settings, and demonstrate the broader impact of scientific research. Students selected for the program complete two courses, design and implement science outreach projects, and participate in an event that highlights their achievements.

## Admission

## Admission Requirements

Students must apply for each program individually to be considered for admission. Requirements for admission vary from program to program. Admission to all programs requires an interview. For more information, including the online application forms, visit the Iowa Sciences Academy website.
In general, applicants should:

- have a strong interest in pursuing a research career;
- have a qualifying academic major;
- be in good academic standing (e.g., a grade-point average of at least 3.00); and
- meet additional requirements as specified by the individual program.

## Courses

## Iowa Sciences Academy Courses

## ISA:1040 Exploring Research

1 s.h.
Academic and professional development; presentations by faculty researchers, admissions representatives, or students in graduate bioscience programs; discussions about succeeding at the University; talks by professional educators on topics such as effective study skills.
ISA:1041 Entering Research
Complement to independent scientific research experience; students meet weekly to share research experiences and feedback on the progress of their research projects; students gain experience searching databases, reading, and summarizing primary scientific papers.
ISA:2040 Professionalism in the Scientific Community 1 s.h.
Development of communication skills and appropriate professional conduct while maintaining ethical standards; main objectives include development of leadership skills in the community, further understanding of ethical issues in student's field, improve communication of student's research to the public, and understanding the significance of professional conduct, networking, and diversity within student's field.
ISA:2041 Career Exploration and Specification 1 s.h
Students define career goals, increase knowledge about the process of obtaining a graduate degree, and create personal plans for future academic and research endeavors; students gain valuable experience in communicating science in written and oral form through the exploration process.
ISA:3040 Critical Analysis of Primary Literature
1 s.h.
Development of critical thinking and research skills through analysis of primary scientific research literature to demystify and humanize research science; how to analyze components of a good empirical article; students present a research paper from literature in their field of interest as preparation to contribute to future empirical manuscripts. Requirements: minimum of 60 s.h. earned and junior or senior standing.
ISA:3041 Pathways to Post-Undergraduate Education
Successful preparation for graduate school application process; students learn how to write their own curriculum vita, personal statements, research statements, Graduate Record Examinations (GRE), and graduate school application action plan; students learn about available resources and further their professional development by giving an oral presentation on their current research. Requirements: minimum of 60 s.h. earned and junior or senior standing.
ISA:3992 Iowa Sciences Academy Undergraduate Research 0 s.h. Registration in a section taught by student's research mentor. Requirements: participation in Iowa Sciences Academy.

ISA:4040 Teaching Your Undergraduate Research 1 s.h. Scientific teaching principles (e.g., backwards design, active learning, formative assessment); students develop a teaching unit based on some aspect of their research and teach it to the class in preparation for future interviews where the ability to explain the background and significance for their research is a highly valued skill. Requirements: minimum of 60 s.h. earned, junior or senior standing, and undergraduate research experience.

## ISA:4041 Senior Capstone Project

1 s.h.
Structure for development, planning, and implementation of a
culminating project for the Iowa Sciences Academy; students dedicate three to five hours per week to the project and are encouraged to connect their projects to community issues or problem; integration of external learning experiences and activities including interviews, scientific observations, or internships.

# Journalism and Mass Communication 

## Director

- Melissa Tully

Undergraduate majors: journalism and mass communication (BA); sport media and culture (BA)
Undergraduate minors: media management; news and media literacy; sport media and culture

Graduate degrees: MA in mass communication; MA in strategic communication; PhD in mass communication

Faculty: https://journalism.uiowa.edu/people
Website: https://journalism.uiowa.edu/
The School of Journalism and Mass Communication offers two undergraduate majors and three minors as well as three graduate degree programs. Undergraduate students in all majors may use approved journalism and mass communication courses to satisfy the Diversity and Inclusion, Historical Perspectives, Social Sciences, and Values and Culture requirements of the College of Liberal Arts and Sciences GE CLAS Core [p. 19], and the school's First-Year Seminar is designed specifically for entering undergraduate students. The School of Journalism and Mass Communication also administers the two undergraduate certificates listed below.

The school is accredited by the Accrediting Council on Education in Journalism and Mass Communications.

## Certificates

The School of Journalism and Mass Communication administers the Certificate in Event Management in collaboration with the departments of Communication Studies, Health and Human Physiology, and Marketing. It also collaborates with the Department of Management and Entrepreneurship to offer the Certificate in Nonprofit Leadership and Philanthropy.

## Event Management

See the Certificate in Event Management [p. 470] in the catalog.

## Nonprofit Leadership and Philanthropy

See the Certificate in Nonprofit Leadership and Philanthropy [p. 2077] in the catalog.

## Professional Enrichment

## Internships

The school encourages journalism and mass communication undergraduate majors to complete at least one internship. The school's internship coordinator helps students find appropriate positions.
Journalism and mass communication undergraduate majors may earn up to a total of 4 s.h. of internship credit, but not more than 3 s.h. from one single internship, registering with appropriate faculty sponsorship for JMC:2100 Journalism Internship. Internships do not fulfill requirements for the journalism and mass communication major, but internship credit counts toward the total journalism and mass communication (JMC) credit that students may apply toward a BA degree (maximum of 52 s.h.). Students may take internships for no credit through CCP:1005 Internship in Liberal Arts and Sciences.

Students also are encouraged to pursue opportunities for experience on campus through student-operated media, including The Daily Iowan, Daily Iowan TV (DITV), and KRUI-FM radio.

## Activities

The school engages in a variety of activities for the enrichment of students, faculty, and the entire campus. Speakers visit campus each year under lectureships funded by the Li Chen Fund and the M. Holly McGranahan Lecture series. In addition, guest speakers are funded through the Hearst Visiting Professionals Program. Campus organizations for students include Kappa Tau Alpha (KTA), a national society honoring scholarship in journalism, the National Association of Black Journalists (NABJ), the Online News Association (ONA), and Ed on Campus (EOC).

## Financial Support

More than \$200,000 in scholarships and awards is disbursed to students in the School of Journalism and Mass Communication each year. Scholarship information and applications are available each fall. Visit Undergraduate Awards and Scholarships on the School of Journalism and Mass Communication website or contact the school.

Additionally, the school has a limited number of annual awards to encourage and support journalism and mass communication majors who seek an international experience or an immersive internship experience.
The school offers research and teaching assistantships for graduate students; preference is given to PhD students. Journalism and mass communication students have been successful in winning competitive fellowships open to all graduate students; applicants must be nominated by the graduate committee.

## Programs

## Undergraduate Programs of Study <br> Majors

- Major in Journalism and Mass Communication (Bachelor of Arts) [p. 715]
- Major in Sport Media and Culture (Bachelor of Arts) [p. 725]

## Minors

- Minor in Media Management [p. 728]
- Minor in News and Media Literacy [p. 730]
- Minor in Sport Media and Culture [p. 731]

## Graduate Programs of Study

Majors

- Master of Arts in Mass Communication [p. 732]
- Master of Arts in Strategic Communication [p. 734]
- Doctor of Philosophy in Mass Communication [p. 736]

## Facilities

The School of Journalism and Mass Communication is housed in the Philip D. Adler Journalism and Mass Communication Building. The 65,000-square-foot building has computer laboratories for audio, video, design, writing, and web publishing; a student center; and the Moeller Media Research Lab. The building also is home to offices of the Iowa High School Press Association; the university's awardwinning student newspaper, The Daily Iowan; Daily Iowan TV (DITV), a student-run newscast; and the Journal of Communication Inquiry.

## Courses

## Journalism and Mass Communication Courses

## JMC:1000 First-Year Seminar

1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

## JMC:1050 Sport and the Media <br> 3 s.h.

Examination of sport and media's intimate relationship; aesthetic, cultural, political, economic, and industrial factors that shape it.

JMC:1100 Introduction to Media Effects
Application of social science methods and media theory to understanding effects of news, advertising, entertainment, and social media. GE: Social Sciences.

JMC:1200 Introduction to Media and Culture 3 s.h.
Historical development of journalism in the United States; cultural, historical content. GE: Historical Perspectives.

## JMC:1300 Introduction to Journalism and Strategic Communication <br> Understanding foundational theories and practices of contemporary journalism and strategic communication; unique public service mission of journalism; cultural, social, organizational roles of public relations; journalism and public relations (PR) industry opportunities, problems, and solutions; structural inequalities in journalism and strategic communication impacting industry diversity and media representation.

## JMC:1500 Introduction to Social Media

Prehistory of social media and identification of ideas, events, and elements in ancient and historical times; earliest days of online posting and interacting; first instances of social engagement on the Web; how social media (journalism, politics, health care, romance and lifestyle, entertainment, war and terrorism, professions and jobs) affects individual areas of life, culture, and society; what's next and how social media changes lives in the future and affects the fate of humanity. GE: Values and Culture.
JMC:1600 Writing Fundamentals
The importance of grammar; recognition of common errors in the student's own writing, with a focus on fixing these problems.

JMC:1800 Twenty-first-Century Science: Environmental Communication in the Digital Age

3 s.h.
How information created by scientists about environmental issues is used by media, public relations practitioners, law makers, regulators, and decision makers in governments, organizations, and corporations, as well as by lay citizens; analysis of strategies to get scientific knowledge to the public arena in ways that inform, educate, and empower the public; examination of how this information can be used to mislead or confuse the public.

## JMC:2010 Reporting and Writing

3 s.h.
Fundamental skills of journalistic reporting and writing. Prerequisites: JMC:1300 with a minimum grade of C- and JMC: 1600 with a minimum grade of C- and (JMC:1100 with a minimum grade of C- or JMC: 1200 with a minimum grade of C- or JMC: 1500 with a minimum grade of C -). Requirements: journalism major.
JMC:2020 Multimedia Storytelling
3 s.h.
Fundamental skills of multimedia storytelling. Prerequisites: JMC: 1300 with a minimum grade of C- and JMC: 1600 with a minimum grade of C - and (JMC:1100 with a minimum grade of C - or JMC: 1200 with a minimum grade of C - or JMC: 1500 with a minimum grade of C -). Requirements: journalism major.

JMC:2030 Visual Communication and Design
3 s.h.
Introduction to visual communication design through lectures and hands-on projects; key professional production skills, including technical aspects of graphics and graphic design software; use of visual communication design skills to create effective layouts and design pieces; topics include elements and principles of design, visual perception theories, typography, color theory, representation, composition, information design, and ethical and inclusive practices of visual communication design; how to become more effective visual communicators and designers; preparation for upper-level journalism and mass communication coursework. Prerequisites: JMC:1300 with a minimum grade of C - and JMC: 1600 with a minimum grade of C and (JMC: 1100 with a minimum grade of C- or JMC:1200 with a minimum grade of C - or JMC: 1500 with a minimum grade of C -). Requirements: journalism and mass communication major.
JMC:2084 Sport and Film
Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as AMST:2084, SPST:2084.

JMC:2100 Journalism Internship
1-3 s.h.
Faculty-supervised professional work experience in journalism and mass communication. Prerequisites: JMC:2020 and JMC:2010.
Requirements: journalism major.
JMC:2150 News and Knowledge: Chinese Culture, History, and Journalism

1 s.h.
Chinese culture, and social and cultural issues as perceived by people inside and outside China from a journalistic view.

JMC:2400 Journalism and Mass Communication Media Experience

1-3 s.h.
Educational opportunities involving small groups of students in unique journalism, strategic communication, and/or media-related experiences; students serve as journalism and/or communication consultants for an organization; in-class preparation complements offcampus work with a designated industry partner; the organization will vary according to faculty expertise, industry partner availability, and location.

## JMC:2500 Community Media <br> 3 s.h.

The boundaries of community can be set in many ways-by geography, age, ability, race, ethnicity, and more-or by intersection of several of these factors; students engage deeply with media representations of different types of communities, discuss basic concepts of identity and community, and explore some of the major fault lines, biases, and privileges in contemporary life; students critique common stereotypes that often show up in media coverage of marginalized communities to better practice storytelling across difference, focusing on how stories from communities that are underrepresented or misrepresented by media can be amplified. GE: Diversity and Inclusion.

## JMC:2600 Freedom of Expression

3 s.h.
Philosophy, history, political science, and legal studies blended into a semester-long meditation on the meaning of freedom of expression, especially in the United States, and specifically on the U.S. Supreme Court; special attention given to the way in which freedom of expression enters into societal debates about benefits and challenges of diversity, and whether and how to rectify structural relationships of inequality; as students learn the history and tradition of how Americans have understood this concept, they reflect on their own perspectives and engage with others who may have different ideas from their own. GE: Diversity and Inclusion.
JMC:2700 Media Ethics and Diversity 3 s.h.
Application of ethical principles in journalistic decision-making; consideration of potentially conflicting values, loyalties, and goals that force professional journalists to make difficult choices.

JMC:3025 Iowa Policy and Opinion Lab
0-3 s.h.
Collaboration and study of policymaking and public opinion in Iowa; examination of policy choices in legislative, executive, and judicial branches; collection of survey data on public opinion among Iowans; students assist with research question development, data collection, data analysis, writing up results, and work with topics in these and other areas (e.g., race and crime, gender and social issues, health and COVID-19, environment); research group led by faculty in the Departments of Political Science and Journalism and Mass Communication.

## JMC:3116 Media and Global Cultures 3 s.h.

Communication as a vital component for any effort to create social change; necessary communication to reach out to target audiences _people and communities in need-from campaigns persuading communities to change knowledge, attitudes, and practices to aiding other development efforts in areas of health, education, rural development, or sustainable agricultural practices; importance of communication as an integral part to any effort aimed at creating large-scale social change. Same as IS:3116.

## JMC:3122 Digital and Gaming Culture

Examination of digital and gaming cultures including immersive media technology, vloggers, online communities, and Twitch celebrities; industry, aesthetics, storytelling, rewards, and risks in video games across mobile, open world, role playing, casual, and serious game genres.
JMC:3123 Advocacy Communication 3 s.h.
Explore how organizations, businesses, nonprofits, and grassroots groups attempt to shape public policy through use of traditional and new media, direct communication, and lobbying.

## JMC:3124 Entertainment Media

3 s.h.
Explore the technological revolution as it has profoundly shaped entertainment media, analyzing the parallels and differences among a variety of digitized media (movies, music, television, books, even video games); everything has changed, from the distribution to consumption to creation.
JMC:3135 Digital Media and the Future of Sport 3 s.h. Emergence and significance of internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as AMST:3198, SPST:3198.
JMC:3142 Social Media for Social Change 3 s.h.
Individuals and groups use social media to organize, collaborate, and spread their messages to local and global audiences; students explore the myriad ways that people and organizations use social media as tools for civic engagement, activism, and political participation; drawing on a broad range of international and national cases, students examine unfolding social movements from early internet activism to the present. Same as IS:3142.

## JMC:3150 Media and Health

Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as $\mathrm{CBH}: 3150$, GHS:3150.

## JMC:3165 African Americans and the Media 3 s.h.

Exploration of the theoretical notion of racialism in various genres of mass communication (i.e., music, print media, television/cable, film, social media); analysis and discussion of contemporary images and messages in media related to African American culture with close attention to impact of stereotypes, historical myths, stigmas, problematic representations, biased framing, and traditional racism. Same as AFAM:3925.

JMC:3175 Gender and Mass Media
3 s.h.
Media images and representations of the body in terms of gender; impact on people, society; media and body image, sexuality, gender roles, gender and power, race, ethnicity, class, age; critical analysis of mediated images.

## JMC:3182 Sport, Scandal, and Strategic Communication in Media Culture <br> 3 s.h.

Use of sport scandal to consider relationship between sport and media in American and global popular culture; broad range of case studies used to consider what constitutes a sport scandal, how this definition shifts in different circumstances; crucial roles media play in creating, communicating, and diffusing these crises; how phenomenon of sports scandal has intensified along with emergence of cable television, internet, and social media. Same as SPST:3182.

## JMC:3183 Sport and the Media 3 s.h.

Examination of sport and media's intimate relationship; aesthetic, cultural, political, economic, and industrial factors that shape it. Same as SPST:3175.

JMC:3184 Narrative Sports Journalism
3 s.h.
Historical review of long-form sports journalism to understand development of subjects, form, and technique of sports coverage and long-form nonfiction writing; students read several long-form articles and books that incorporate reporting about sports, and propose an original long-form work about sports. Same as SPST:3184.
JMC:3185 Topics in Understanding Media 3 s.h.
Focus on particular area, issue, approach, or body of knowledge; may include international media, media criticism, new technologies, history of documentary photography, literary journalism, media management.
JMC:3400 Topics in Writing/Storytelling 3-4 s.h.
Topics may include public affairs, law, science, business, medicine, intercultural affairs, education, computer-assisted reporting. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3401 Beat Reporting and Writing
3 s.h.
Choose and follow an area of interest, known in journalism circles as a "beat." Examples of newsroom beats are education, health, arts and entertainment, sports, crime and safety, business, city government, and state government. Prerequisites: JMC:2010 with a minimum grade of C-.

JMC:3403 Public Affairs Reporting and Writing 3 s.h
Combination of a skills-based course and a seminar-style course. Become familiar with the skills needed to produce excellent reporting on matters of policy and public affairs; learn how to successfully file requests for public records; learn the law and practice of making public records requests at the state and federal levels; create a piece of original enterprise reporting on public affairs that relies on public records. Prerequisites: JMC:2010 with a minimum grade of C-.
JMC:3410 Magazine Reporting and Writing 3-4 s.h. Finding ideas, researching, interviewing; problems of organization and style; identification of audiences and markets; development of writing skills. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
JMC:3411 Newscast Reporting and Writing 3-4 s.h.
Principles of gathering, writing, editing, and reporting the news; techniques and concepts as a foundation for understanding, successfully writing, and delivering broadcast news. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.

## JMC:3412 Strategic Communication Writing <br> 3-4 s.h.

Principles and practices of persuasive writing; focus on public relations; may include editorials, op-ed pieces, magazine essays, reviews. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

## JMC:3413 Sports Writing

3-4 s.h.
Introduction to the history, culture, industry, and practice of sports writing. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-.

## JMC:3414 Basic Elements of Book Writing

3-4 s.h.
Basic elements involved in writing a novel or a nonfiction book; students will research, write, and workshop either a nonfiction book or novel proposal; they will complete a chapter outline and one chapter from their manuscript, and constructively edit and evaluate the work of fellow classmates through individual workshop sessions; course will culminate in an author's pavilion where students will select five minutes from their chapter to read to an audience. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
JMC:3415 Writing Across Cultures 3-4 s.h.
Forms of travel writing and other types of cross-cultural reporting; skills, knowledge, understandings vital to writing well about an increasingly multicultural and diverse world. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

## JMC:3420 Content Marketing

3-4 s.h.
Tools for creating great content, as well as tactics for getting that content in front of the right audiences with the right message at the right time. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism and mass communication major.
JMC:3425 Personal Branding and Building a Niche 3-4 s.h. Creation of original journalistic websites incorporating writing, design, and structure; contemporary online media issues.
Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C -. Requirements: journalism major.

## JMC:3430 Political Public Relations

3-4 s.h.
How strategic communication goals, objectives, strategies, and tactics can influence public debate on policy issues; students apply this knowledge for the benefit of a real-world client, producing a portfolio of work by the end of the semester. Prerequisites: JMC:2010 with a minimum grade of C - and JMC:2020 with a minimum grade of C-. Requirements: journalism and mass communication major.

## JMC:3440 Multimedia Narratives 3-4 s.h.

Builds on skills learned in JMC:2020 to develop compelling multipart digital stories; focus on a range of storytelling techniques and tools to create in-depth stories that incorporate visual, audio, text, and data; students strengthen their digital storytelling skills by producing various multimedia projects, such as podcasts and digital long-form stories; project-based with opportunities to produce individual and collaborative work. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
JMC:3445 Journalistic Writing in Spanish
3 s.h.
Spanish writing skills; introduction to style and practice of journalistic reporting and writing. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as LAS:3020, SPAN:3020.

JMC:3460 Arts and Culture Reporting and Writing 3-4 s.h.
Writing about arts and culture in a range of formats (e.g., news, profiles, features, criticism, essays); emphasis on original reporting that draws on resources, issues, people, and events on campus and in the community, especially in visual and performing arts. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C -. Requirements: journalism major.
JMC:3470 Narrative Journalism 3-4 s.h.
Process of writing the true story; development of skills in researching, interviewing, information gathering, organization, story-telling techniques, writing final story; story publication in magazines, newspapers, journals, online. Prerequisites: JMC:2010 with a minimum grade of C - and JMC:2020 with a minimum grade of CRequirements: journalism major.
JMC:3490 Feature Reporting and Writing 3-4 s.h.
Storytelling techniques for magazine, newspaper, website features; stylistic flair; human elements in stories; research, interviewing, and reporting. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
JMC:3500 Topics in Managing/Planning 3 s.h.
Focus on particular area, issue, approach, or body of knowledge.
JMC:3505 Audiences and Analytics 3 s.h.
Comprehensive understanding of audiences and consumers in the digital era; focus on developing essential analytical skills necessary for strategic communication professionals in the digital age. Students will acquire digital literacy skills to practice strategic communication effectively.

## JMC:3510 Audience Engagement: Marketing Research in the Digital Age

Solutions to problems related to communication channels, content, users, and audiences sought daily by media and communication professionals to understand what the public thinks, feels, and does about ideas, events, and trends; learn about audience needs; ways to improve or change content; systematic and methodical ways to investigate problems and figure out how best to tackle communication problems related to media content, audiences, media practice, and media institutions.
JMC:3520 Business of Media: Profits, People, and Power 3 s.h. How U.S. media is managed; decision-making in a current highly charged, rapidly changing media culture; how major company decision makers seek competitive advantage, and their consequent successes and failures in doing so.
JMC:3530 Social Media Marketing 3 s.h.
Social media marketing as an ever-changing area that seems to only grow in importance for everyone from academic institutions to nonprofits to businesses big and small; each of these entities and more has an online brand and goals that social media can help them meet.
JMC:3540 The Business of Sport Communication
3 s.h.
Critical and practical approach to understanding contemporary sports media and business practices that mark it; focus on sports media industries and institutions; branding, marketing, demographic, public relations, and promotional factors that shape content. Same as SPST:3181.

JMC:3550 Editing 3-4 s.h.
Principles and process of editing content for publication; micro- and macroediting, headline writing, other aspects of editing.
JMC:3600 Topics in Designing/Producing 3-4 s.h.
Analysis and solution of problems with communication strategies and/or media products; public relations, newsletter production, radio, media research, web basics, global media, interviewing, public relations fund raising. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-. Requirements: journalism major.

JMC:3603 Newscast Production
3-4 s.h.
Electronic news gathering; conceptualization, shooting, editing basic news packages. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-. Requirements: journalism major.

## JMC:3610 Graphic Design

3-4 s.h.
Problems of design, layout and production; practical and aesthetic considerations; digital techniques; creative projects. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C -. Requirements: journalism major.

JMC:3611 Interactive Design 3-4 s.h.
Foundational concepts of interactive design, prototyping, and production; projects focus on web-based communication pieces.
Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030
with a minimum grade of C -. Requirements: journalism major.

## JMC:3630 Photography

3-4 s.h.
Techniques; basic craft, location shooting, editing photographs; group critiques of assignments. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-.
JMC:3640 Information and Data Visualization 3-4 s.h. How to find and tell stories using data; hands-on introduction to data visualization, data analysis and data literacy for journalists and communications professionals. Prerequisites: (JMC:2020 with a minimum grade of C - and JMC:2030 with a minimum grade of C -) or CS:2110 or IGPI:5110.

JMC:3650 Video Production
3-4 s.h.
Creation of high-quality videos for social media and mobile platforms; how to use digital single-lens reflex (DSLR) cameras and video editing software to create professional content customized for social media sites (i.e., YouTube, Facebook); how to use smartphone cameras and editing software to make shareable videos for mobile apps (i.e., Instagram, Snapchat); current industry trends and preferred practices for designing, directing, and editing compelling video stories for multiple digital platforms. Prerequisites: JMC:2020 with a minimum grade of C - and JMC:2030 with a minimum grade of CRequirements: journalism major.

## JMC:3660 Audio Production

3-4 s.h.
Techniques; basic craft, audio recording, audio editing; individual and group production; group critiques of assignments. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C -. Requirements: journalism major.

## JMC:3700 Nonprofit Internship

3 s.h.
Faculty-supervised professional work experience with a nonprofit organization with associated academic content.

## JMC:3710 Fundraising Fundamentals <br> 3 s.h.

Nonprofit organization reliance on raised funds to survive and thrive; basic concepts of fundraising for successful nonprofit organization; work with a nonprofit organization to explore basic fundraising techniques that nonprofits typically use including donor research, annual fund campaigns (phone, mail, email), capital campaigns, events, cause-related marketing, grants, planned giving, and donor stewardship; when and how to use different fundraising strategies to meet an organization's goals.

## JMC:3720 Nonprofit Communications

Practical experience planning and writing fundraising materials; how yearly fundraising helps approximately 1.5 million nonprofit organizations receive more than $\$ 3$ billion from individuals, foundations, and corporations to help people in need, advocate for causes, support research/arts/culture, and enhance opportunities for public and/or their members.

JMC:4000 Scientists and Writers 1 s.h.
Science communication and collaborative skills that are highly sought after by employers in STEM firms including pharmaceutical firms, biotech start-ups, and many others; these same skills essential for reporting on, writing about, or translating science in any area; studiostyle format. Same as CHEM:4000, WRIT:4002.

JMC:4100 Advanced Topics in Writing/Storytelling 3-4 s.h. Project journalism; extended magazine pieces, explanatory/ investigative journalism, series for newspapers, or task-force projects by entire class on a major issue, with goal of publication. Prerequisites: JMC:3400 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3425 or JMC:3430 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490. Requirements: journalism major.
JMC:4105 Iowa Community News 3 s.h.
Public affairs reporting; introducing and utilizing community-engaged storytelling techniques. Learn about government reporting and covering underrepresented groups; work with the goal of publishing project stories in an Iowa newspaper. Prerequisites: JMC:3400 or JMC:3401 or JMC:3403 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3425 or JMC:3430 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490.
JMC:4125 Advanced Strategic Storytelling 3-4 s.h.
Advanced tools for creating great content; tactics for getting that content in front of the right audiences with the right message at the right time. Prerequisites: 2 of the following are required: JMC:3412, JMC:3420, JMC:3530. Requirements: journalism major.
JMC:4300 Advanced Photography 3-4 s.h. Builds on photography skills learned in JMC:3630; may include documentary photography, advanced photography methods and techniques. Prerequisites: JMC:3630.
JMC:4310 Advanced Topics in Designing/Producing 3-4 s.h. Journalism and mass communication skills; may include editing, broadcasting, design, multimedia. Prerequisites: JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660. Requirements: journalism major.
JMC:4315 Advanced Strategic Communication 3-4 s.h.
Development and presentation of public relations campaigns for client organizations; communication theory and research techniques applied to analyzing and solving public relations problems through objectivebased strategic planning. Prerequisites: JMC:3412 or JMC:3420. Requirements: journalism and mass communication major.

JMC:4325 Advanced Newscast Writing and Production 3 s.h. Advanced training and experience in producing, writing, and reporting news packages and newscasts. Prerequisites: JMC:3411 or JMC:3603.
JMC:4335 Multimedia Production for Publication $\mathbf{3}$ s.h. Build upon the knowledge base acquired in previous journalism and mass communication courses and focus on creating professional quality, commercially viable content for media. Prerequisites: (JMC:3400 or JMC:3401 or JMC:3403 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3425 or JMC:3430 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490) and (JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660).
JMC:4350 Advanced Graphic Design 3-4 s.h.
Advanced design, layout, and production; practical and aesthetic considerations; digital techniques; creative projects. Prerequisites: JMC:3610. Requirements: journalism major.
JMC:4360 Advanced Interactive Design 3-4 s.h.
Builds on interactive design principles learned in JMC:3611; students plan and prototype an app from user experience, user interface, and visual design perspectives. Prerequisites: JMC:3611. Requirements: journalism major.

## JMC:4400 Capstone

3-4 s.h.
Application and practice of classroom experience to a specific project with guidance from a faculty member. Prerequisites: (JMC:3400 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3425 or JMC:3430 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490) and (JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660). Requirements: journalism major.

JMC:4510 Sport Media and Culture Capstone Research

## Project

3 s.h.
Completion of a research project in the field of sport media or sport culture. Prerequisites: (JMC:1050 or JMC:3183 or SPST:3175) and (SPST:1074 or AMST:1074 or GWSS:1074).
JMC:4520 Sport Media and Culture Capstone Internship 3 s.h. Capstone internship in the field of sport media or sport culture. Prerequisites: (JMC:1050 or JMC:3183 or SPST:3175) and (SPST:1074 or AMST:1074 or GWSS:1074).
JMC:4900 Special Projects in Mass Communication
arr.
Research and readings to fit needs, interests of students.
JMC:4910 Readings in Communication and Mass Communication

1-3 s.h.
Focus on a problem or issue.
JMC:4955 Honors Project 3 s.h.
Independent research or project for honors students. Requirements: honors standing.
JMC:5220 Foundations of Strategic Communication Introduction to the field of strategic communication.
JMC:5225 Digital Strategic Communication
Exploration of information industry growth; creative processes involved in developing a blog and utilizing multimedia tools to enhance strategic messages; focus on characteristics and spread of new communication technologies and their social, economic, and political effects.
JMC:5230 Strategic Communication Writing
Writing workshop for MA strategic communication students.
JMC:5235 Strategic Communication Research
Methodology of social science inquiry, process and instruments of data gathering, evaluation of evidence, and usefulness and appropriateness of various information sources in the service of strategic communication research; blends theory and practice. Prerequisites: JMC:5220.
JMC:5236 Topics in Strategic Communication
Various topics relevant to strategic communication.
JMC:5238 Strategic Communication Campaigns
Practice of strategic communication through traditional and new media for purpose of benefiting nonprofit organizations or bringing about social change; examples and strategies from corporate, nonprofit, and social marketing campaigns; application of knowledge for benefit of real-world clients; principles and strategies applied to professional projects. Prerequisites: JMC:5220 and JMC:5230.

## JMC:5243 Copywriting for Strategic Communication 3 s.h.

 Focusing copy to a targeted audience to move them to action; multiple platforms where copywriting can appear; learn how professional copywriters craft motivational, persuasive messages and continuously refine their skills; build copywriting skills through weekly exercises, peer reviews, and a final portfolio.JMC:5248 Strategic Political Communication
3 s.h.
Study of political communication; topics range from classic issues (agenda setting) to current debates and emerging topics associated with new media; readings address political communication in the United States.

JMC:5250 Strategic Communication for Nonprofits 3 s.h.
Examination of components, objectives, and initiatives of strategic communications for nonprofit organizations; students specifically examine strategies that inspire and persuade diverse audiences and stakeholders through multi-channel communications with emphasis on audience analysis; in addition to assigned texts, students utilize case studies to examine organizational approaches and identify successful -and unsuccessful-strategies; although focus is primarily on nonprofits, the teaching modules are applicable to diverse industries.

## JMC:5255 Strategic Global Communication

 3 s.h.Examination of communications practices around the globe and exploration of different professions and organizations that employ international strategic communications; emphasis on practical application of communications theory, with copious use of reallife case studies and examples from leading expert practitioners; through a combination of projects, discussions, and case studies, students develop a more nuanced understanding of international and intercultural communication strategies while taking into account cultural context, stakeholders, and trends.
JMC:5260 Digital Analytics for Strategic Communication 3 s.h. Introduction to multiple digital analytics platforms and dashboards; how to align business objectives and digital metrics, ensuring the ability to make more strategic content, marketing, and audience targeting decisions; strategies to assist students in communicating insights and analytics to leadership.
JMC:5266 Risk Communication 3 s.h.
3 s.h. Examination of risk as a central concept in communication process; risk as intrinsically an interdisciplinary concept; literature from a wide range of disciplines and perspectives (communication, psychology, sociology, formal risk analysis); case studies drawn from issues and cultural contexts (environmental, technological or health risks, food safety risks; international military crisis or threats of terrorism, natural disasters); emphasis on comparison of European and American contexts.
JMC:5267 Strategic Health Care Communication 3 s.h.
Breaking down health care to basics; writing and communicating about health care in an understandable way so that hospitals, medical groups, and health care businesses can be better understood when doing business with each other as well as the public and consumers at large; health care writing and communication so consumers can understand, avoid injuries and even death from medical errors shown by studies on health literacy; how doctors and insurance companies can convey their messages in easy-to-understand way to lessen public frustration with the system.
JMC:5269 Media Management for Strategic Communicators 3 s.h. Looking at media in a completely new way; focus on economics and management of competitive businesses; how modern-day businesses in the media sector succeed or fail and why; decision-making, competition, and outcomes; emphasis on news media companies that operate in public glare and offer rich opportunities for critical observation.

## JMC:5270 Leadership Communication

3 s.h.
Using communications skills effectively for leadership in the modern workplace; how technological, global, and demographic developments have combined to transform the field of strategic communications; skills necessary to be effective in an environment of collaboration, teamwork, and self-management across a variety of platforms.
JMC:5285 Strategic Communication Externship
3 s.h.
Externship to allow connection between academic program and professional world; enhancement of skill and knowledge.

JMC:5290 Capstone Project in Strategic Communication 1-3 s.h. Workshop of capstone projects required for graduation; for students nearing completion of MA in strategic communication. Prerequisites: JMC:5220 and (JMC:5230 or JMC:5235). Requirements: MA in strategic communication program enrollment.
JMC:5600 Teaching Media Writing, Production, and Design 1 s.h. Preparation to teach media skills courses; core topics include media writing, media production, and media design.

## JMC:5955 Masters Research <br> arr.

Independent research for projects, theses.
JMC:6100 Communication and Media Colloquium
1 s.h.
Forum on theoretical or methodological problems in mass communication.

JMC:6200 Humanistic Approaches to Media
Communication
3 s.h.
Exploration of foundations, assumptions, and applications of critical/cultural theory and methods; how to understand and critique humanistic research; how to develop ideas, evidence, and arguments that lead to compelling and useful research in media communication.

## JMC:6300 Social Scientific Approaches to Media

 Communication 3 s.h.Exploration of foundations, assumptions, and application of social science theory and methods to media communication questions; how to understand and critique social science research; how to develop and test questions that lead to rigorous and useful research in media communication.

JMC:6315 Mixed Methods Research and Design 3 s.h.
Paradigms and theories of mixed methods research; how to use and integrate qualitative and quantitative approaches and data to answer research questions; formulating research questions, collecting and analyzing data, choosing an appropriate mixed methods design, and interpreting results; focus on mixed methods research in journalism, mass communication, and media studies; students develop an original project that is connected to their larger research agenda.
JMC:6325 Global Digital Media 3 s.h.
Exploration of media theory, production, consumption, and audiences in comparative international contexts; focus on digital media and contemporary issues, exploration of traditional media theories and concepts, newer approaches that ground understanding of current issues; topics include international media flows and counter flows, media, development, information and communications technology, social change and activism; identity and representation; global popular culture, and social media; research options include developing and conducting original research, proposing an international research project, or conducting country and region-specific research.
JMC:6330 Reading Group
1-3 s.h.
Analysis and discussion of important texts.
JMC:6333 Seminar in Media Communication 3 s.h. Topics vary.
JMC:6334 Research Methods in Media Communication 3 s.h.
Specialized methods for conducting research in media, communication, and journalism. Topics vary.
JMC:6920 PhD Research arr.
Independent research for projects, theses.
JMC:6999 Dissertation

## Journalism and Mass <br> Communication, BA

Media writing and visual storytelling form the core of the undergraduate major in journalism and mass communication. Students are required to take introduction, foundation, application, and advanced or capstone courses offered by the school; they develop professional skills while studying the historical, legal, cultural, and institutional roles of media in society. They also complete extensive academic work outside the school, consistent with the university's commitment to the liberal arts and sciences.
First-year students completing a major in journalism and mass communication are advised at the Academic Advising Center. Students who have earned 30 s.h. or more and have declared the journalism and mass communication major are advised in the School of Journalism and Mass Communication by one of the journalism and mass communication academic advisors.

## Transfer Students

The School of Journalism and Mass Communication may accept transfer credit earned at other institutions. A maximum of 9 s.h. of approved transfer credit may be applied to the major in journalism and mass communication unless the transfer institution has an approved articulation agreement with the School of Journalism and Mass Communication to count additional coursework. Some journalism coursework taken at other schools may be used to fulfill the GE CLAS Core [p. 19] and/or second area of study requirements.

Students who wish to apply transfer credit toward School of Journalism and Mass Communication requirements must discuss the proposed transfer credit with a journalism advisor and must have approval from the head of undergraduate studies.

## Learning Outcomes

## Law and Ethics

Students will:

- understand and apply the principles and laws of freedom of speech and press in real space and cyberspace; and
- demonstrate an understanding of professional ethical principles and their historical development.

## Media Literacy

## Students will:

- understand the principles of media literacy; and
- develop the skills necessary to access, analyze, evaluate, and create media messages across multiple media domains.

## Writing and Storytelling

Students will:

- understand that clear, concise, and correct writing is at the heart of journalistic expression and that reporting and communicating effectively requires knowledge and achievement of the highest, professionally accepted standards in all work.

## Diversity, Equity, and Inclusion (DEI)

Students will:

- understand and value the diversity of groups (including communities defined by gender, race, ethnicity, age, religion, and sexual orientation) and experiences in a global society;
- recognize structural racism and inequalities that impact and affect marginalized communities and how our work perpetuates or challenges these systems; and
- enhance their ability to effectively serve and communicate with people from different backgrounds and experiences.

## Media Culture and Industries

Students will:

- understand the history of media in the context of industries and identify transformations in audiences, engagement, and business practice over time;
- grasp the significance of advances in mass communication technology for cultural production in domestic and global media markets from the printing press to the latest digital platforms; and
- trace the production of cultural meanings across historical periods as well as connections between business models and news consumption.

## Requirements

The Bachelor of Arts with a major in journalism and mass communication requires a minimum of 120 s.h., including at least 43 s.h. in journalism and mass communication courses, plus a second major, certificate, or minor. See "Second Area of Study" below. Students must maintain a grade-point average of at least 2.00 in the major. All students must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
Students may count a maximum of 52 s.h. earned in School of Journalism and Mass Communication courses (prefix JMC) toward the 120 s.h. required for the degree.

Students may choose to complete the BA with a major in journalism and mass communication without a track or declare one of three optional tracks: multimedia production and design, reporting and writing, or strategic communication. All students must complete the introduction and foundation course requirements. Application and capstone course requirements vary for each optional track.
Each student works with an assigned educational advisor and/ or faculty advisor to develop a study plan that meets the major's requirements. Requirements for the major are consistent with the program's accreditation requirements; the school cannot make exceptions.

The BA with a major in journalism and mass communication requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Introduction Courses | 7 |
| Foundation Courses | 15 |
| Application Courses | 18 |
| Advanced or Capstone Course | 3 |
| Second Area of Study |  |

## Introduction Courses

Students must complete these courses before they enroll in JMC:2010 Reporting and Writing, JMC:2020 Multimedia Storytelling, and JMC:2030 Visual Communication and Design.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these completed with a grade of C-minus or <br> higher: |  |  |
| JMC: 1100 | Introduction to Media Effects | 3 |
| JMC: 1200 | Introduction to Media and | 3 |
|  | Culture |  |
| JMC: 1500 | Introduction to Social Media | 3 |

| Both of these completed with a grade of C-minus or <br> higher: |  |  |
| :--- | :--- | ---: |
| JMC:1300 | Introduction to Journalism and | 3 |
| JMC:1600 | Strategic Communication |  |

## Foundation Courses

Before students enroll in a Writing/Storytelling course, they must complete JMC:2010 and JMC:2020. Before students enroll in a Designing/Producing course, they must complete JMC:2020 and JMC:2030.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All three of these completed with a grade of C-minus or |  |  |
| higher: |  |  |
| JMC:2010 | Reporting and Writing | 3 |
| JMC:2020 | Multimedia Storytelling | 3 |
| JMC:2030 | Visual Communication and <br> Design | 3 |
| And both of these: |  |  |
| JMC:2600 | Freedom of Expression | 3 |
| JMC:2700 | Media Ethics and Diversity | 3 |

## Application Courses

## Managing/Planning

This requirement varies according to optional tracks.

## Managing/Planning—No Optional Track

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| JMC:3500 | Topics in Managing/Planning | 3 |
| JMC:3505 | Audiences and Analytics | 3 |
| JMC:3510 | Audience Engagement: <br> Marketing Research in the <br> Digital Age | 3 |

| JMC:4900 | Special Projects in Mass <br> Communication | arr. |
| JMC:4910 | Readings in Communication | $1-3$ |
| JMC:4955 | and Mass Communication |  |
|  | Honors Project | 3 |

## Second Area of Study

Every student majoring in journalism and mass communication must complete a second area of study. The second area of study enables students to acquire a substantial body of knowledge or expertise in
a relevant area, learn how another discipline views the world, and/ or develop a companion set of skills to those in journalism and mass communication.

## Requirements for the Second Area of Study

Students must complete the requirements for the journalism and mass communication major (at least 43 s.h.) and must satisfy the school's second area of study requirement in one of three ways.

## Option 1

Students complete a second major.

## Option 2

Students complete an undergraduate certificate. Students may not double count courses for their journalism and mass communication major and a certificate being used as their second area of study.

## Option 3

Students complete an undergraduate minor. Students may not double count courses for their journalism and mass communication major and a minor being used as their second area of study. The minor in media management may not be used as the second area of study.

## Honors

## Honors in the Major

Students majoring in journalism and mass communication have the opportunity to graduate with honors in the major. Students in the school's honors program must have a grade-point average (GPA) of at least 3.50 in work for the major and a UI cumulative GPA of at least 3.33. To graduate with honors in the major, they complete JMC:4955 Honors Project, earning 3 s.h. of credit in work guided by a faculty member. The honors project may be a thesis or a professional project and typically is completed during the last semester of the senior year.

## National Honor Society

The school's chapter of Kappa Tau Alpha, the national society honoring scholarship in journalism and mass communication, was founded in 1936 and is named for former director Leslie G. Moeller. Students are considered for membership if their GPA places them in the top $10 \%$ of their class and they have completed at least five semesters of university work, including a minimum of 9 s.h. in journalism and mass communication skills courses. Contact the school's Kappa Tau Alpha advisor for details.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the journalism and mass communication major.

All majors with a UI cumulative GPA of at least 3.33 are encouraged to take any journalism and mass communication course for honors credit and to make use of other honors opportunities in the school. Visit Honors in Journalism on the school's website or contact the school's honors advisor for details.

## Career Advancement

The major prepares students for careers in the field. Graduates find employment in a variety of areas, such as public relations, advertising, marketing, political communication, health communication, philanthropy and fundraising communication, newspapers, magazines,
radio, television, online communications and social media, publication design, photojournalism, and media research.
The school's internship and assessment coordinator helps students seeking career guidance and employment opportunities. The school compiles and publicizes notices of professional jobs open to journalism and mass communication students and graduates. It also cooperates with the university's Pomerantz Career Center in providing career guidance and placement services as well as workshops and programs on seeking jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.
Students must declare the journalism and mass communication major by the first semester of their sophomore year in order to be eligible for the Four-Year Graduation Plan. The checkpoints below include the required work in journalism and mass communication plus a second area of study, but they do not include the requirements of a second major, since the Four-Year Graduation Plan does not apply to second majors.
Before the fifth semester begins: JMC:1100 Introduction to Media Effects or JMC:1200 Introduction to Media and Culture or JMC:1500 Introduction to Social Media, JMC:1300 Introduction to Journalism and Strategic Communication, JMC:1600 Writing Fundamentals, a second area of study chosen, and at least one-quarter of the semester hours required for graduation.

Before the sixth semester begins: JMC: 2600 Freedom of Expression, JMC:2020 Multimedia Storytelling, and JMC:2010 Reporting and Writing or JMC:2030 Visual Communication and Design.
Before the seventh semester begins: JMC:2010 Reporting and Writing or JMC:2030 Visual Communication and Design (if not already taken), JMC:2700 Media Ethics and Diversity, one managing/ planning course or one understanding media course, one writing/ storytelling or one designing/producing course, and at least one-half of the semester hours required for graduation.

During the seventh semester: two additional writing/storytelling or designing/producing courses, one understanding media course or one managing/planning course, and at least three-quarters of the semester hours required for graduation.
During the eighth semester: one writing/storytelling or designing/ producing course, one advanced or capstone course, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Students must complete these courses with a C-minus or higher before taking JMC:2010, JMC:2020, and JMC:2030.
c Fulfills a major requirement and may fulfill a GE requirement.
d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f Students must complete these courses with a C-minus or higher before taking writing/storytelling courses (JMC:34XX).
g Students must complete these courses with a C-minus or higher before taking designing/producing courses (JMC:36XX).
h GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
i Students must complete a second area of study. There are three options: 1) complete a second major; 2) complete an undergraduate certificate; or 3) complete an undergraduate minor (except the Media Management minor). Students may not double count courses for their JMC major and a certificate or minor being used as their second area of study.
j Choose from list of approved courses for this track.
k Depending on which major introduction course is taken, students must still complete two of the following GE requirements: Historical Perspectives, Social Sciences, Values and Culture.
1 Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Sport Media and Culture, BA

The sport media and culture major examines the complex and dynamic relationship between sporting organizations and media companies, and how this relationship shapes the cultures of sports in the U.S. and beyond. Students take courses in the area of sport and media and the area of sport and culture in order to gain an understanding of how cultural meanings are shaped and contested through sport. At the end of the program, students will complete a capstone or internship to direct this knowledge toward their own personal interests and career goals.
Coursework provides students with the critical skills necessary to understand sport media's relationship to economics, politics, and education. A focus on race, class, gender, and sexuality in sports is central to the major.

## Learning Outcomes

Graduates of the BA in sport media and culture learn how to study sports critically and understand their complex relationship cultural meanings. This entails an understanding of:

- contemporary U.S. sports' relationship with media and how this relationship intersects with other institutions and contexts including politics and the economy;
- the diversity of sporting experiences in the U.S., including how opportunities for and the nature of participation are influenced by social class, race, ethnicity, nationality, gender, sexuality, age, and ability/disability; as well as how that diversity is represented in sport media;
- the historical and cultural forces that shape the relationship between U.S. sport and media from the 19 th century to the present;
- U.S. sport media's relationship to global sport media and the historical, political, and social factors that impact it; and
- the theories and research methods that allow students to forge their own well-informed and clearly communicated critical studies of sport media.

## Requirements

The Bachelor of Arts with a major in sport media and culture requires a minimum of 120 s.h., including 33 s.h. in sport media and culture courses, plus a second major, certificate, or minor. See "Second Area of Study" below. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. At least $24 \mathrm{~s} . \mathrm{h}$. of credit for the major must be earned at the University of Iowa. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

Sport media and culture majors who also complete another major, minor, or certificate offered by the School of Journalism and Mass Communication must earn a minimum of 56 s.h. from courses offered outside of the school.

The BA with a major in sport media and culture requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Foundation Courses | 6 |
| Sport and Media Courses | 12 |
| Sport and Culture Courses | 12 |
| Capstone Course | 3 |

## SPST:4999

Honors Project1-3

## Second Area of Study

Every student majoring in sport media and culture must complete a second area of study. The second area of study enables students to acquire a substantial body of knowledge or expertise in a relevant area, learn how another discipline views the world, and/or develop a companion set of skills to those in sport media and culture.

Students must complete the requirements for the sport media and culture major (at least 33 s.h.) and must satisfy the second area of study requirement in one of three ways.

## Option 1

Students complete a second major.

## Option 2

Students complete an undergraduate certificate. Students may not double count courses for the major and a certificate being used as their second area of study.

## Option 3

Students complete an undergraduate minor. Students may not double count courses for the major and a minor being used as their second area of study.

## Honors

## Honors in the Major

Students majoring in sport media and culture have the opportunity to graduate with honors in the major. They must maintain a University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in the major.

The honors project is usually undertaken in a student's final semester. Students should identify a potential project topic and advisor from the sport media and culture faculty the semester before. Work for the honors project is done under the supervision of a faculty member with expertise in the topic the student is exploring. Projects typically take the form of traditional scholarly research. However, they also can be organized around public engagement, the digital humanities, or other formats decided on in consultation with the faculty advisor.
Students should enroll in SPST:4999 Honors Project.
Students who pursue honors projects in two departments may not submit the same project for both unless special permission is obtained from each department. Such an option would require more substance and depth than projects undertaken in one department. Students should check with honors advisors from both departments before they pursue such projects.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. University honors students must maintain a 3.33 GPA, complete 12 s.h. of coursework designated as honors courses, and complete 12 s.h. of an experiential learning project. Visit Honors at Iowa for more details.
Membership in the UI Honors Program is not required to earn honors in the sport media and culture major.

## Career Advancement

Students who major in sport media and culture can pursue a wide variety of exciting career paths within and beyond the growing and diverse field of sport media. These include more established careers in storytelling (writing, public relations, and marketing) as well as emerging professions in social media, podcasting, digital market research, and analytics. The major also provides students with a firm background in the critical and contextual analysis of sport media institutions that can prepare them for careers in law or for socially committed organizations that seek to transform sport by making it more equitable, diverse, and inclusive.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: declaration of the major.
Before the sixth semester begins: second area of study determined.
Before the seventh semester begins: at least six sport media and culture courses and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least eight sport media and culture courses.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Fulfills a major requirement and may fulfill a GE requirement.
c Students should complete these foundation courses as early as possible.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
f See the General Catalog for list of approved courses.
g Note: SPST:2170 also satisfies both the Sustainability and the International and Global Issues GE requirements.
h Students must complete a second area of study. There are three options: 1) complete a second major; 2) complete an undergraduate certificate; or 3) complete an undergraduate minor. Students may not double count courses for their SMC major and a certificate or minor being used as their second area of study.
i Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
j Students who completed SPST:2170 for the major have already satisfied the International and Global Issues GE requirement.
k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Media Management, Minor

## Requirements

The minor in media management requires a minimum of 15 s.h. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Students may apply a maximum of 6 s.h. toward both the minor in media management and any major, minor, or certificate housed in the School of Journalism and Mass Communication or the John Pappajohn Entrepreneurial Center.

The minor prepares students to work in media industries and areas that focus on audiences and business. They also will have a foundation to pursue advanced degrees related to media management.
The minor in media management requires the following coursework.

## Required Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Two of these: | Audience Engagement: <br> Marketing Research in the <br> JMC:3510 | Digital Age |
| JMC:3505 | Audiences and Analytics | 3 |
| JMC:3520 | Business of Media: Profits, <br> People, and Power | 3 |

## Elective Courses

Some of the entrepreneurial management courses (prefix ENTR) have prerequisites; students must complete all of a course's prerequisites before they may register for a course.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| Three of these ( 9 s.h.), with at least one journalism and mass communication course (prefix JMC): |  |  |
| JMC:2700 | Media Ethics and Diversity | 3 |
| JMC:3505 | Audiences and Analytics (if not taken as a required course) | 3 |
| JMC:3510 | Audience Engagement: Marketing Research in the Digital Age (if not taken as a required course) | 3 |
| JMC:3520 | Business of Media: Profits, People, and Power (if not taken as a required course) | 3 |

## Mass Communication, MA

## Learning Outcomes

A candidate for a research master's degree is expected to demonstrate knowledge in the chosen discipline and to synthesize and create new knowledge, making a contribution to the field in an appropriate timeframe.

- Make a contribution to the scholarship of the field: synthesize existing knowledge; identify and access appropriate resources and other sources of relevant information; critically analyze and evaluate one's own findings and those of others; apply existing research methodologies, techniques, and technical skills; and communicate in a style appropriate to the discipline.
- Demonstrate commitment to advancing the values of scholarship: keep abreast of current advances within one's field and related areas; show commitment to personal professional development through engagement in professional societies and other knowledge transfer modes; and show a commitment to creating an environment that supports learning through teaching, collaborative inquiry, mentoring, or demonstration.
- Demonstrate professional skills: adhere to ethical standards in the discipline and listen, give, and receive feedback effectively.

## Requirements

The School of Journalism and Mass Communication offers a Master of Arts in mass communication. The MA program requires 34 s.h. with thesis. Students who plan to continue on to doctoral studies in the school can complete the required coursework for the master's degree, plus one additional course, and successfully pass a qualifying examination; a thesis is not required.

Students in the MA program in mass communication must complete the following coursework. They are required to take at least two courses in the School of Journalism and Mass Communication selected from the methods, theory, or electives areas.

| Course \# | Title | Hours |
| :--- | :--- | :---: |
| All of these: | Communication and Media <br> Colloquium (taken at least four <br> times for 1 s.h. each; should <br> enroll every semester for entire <br> program of study) | 4 |
| JMC:6200 | Humanistic Approaches to <br> Media Communication | 3 |
| JMC:6300 | Social Scientific Approaches to <br> Media Communication | 3 |
| JMC:6999 | Dissertation (must register for at <br> least 3 s.h.) | 3 |
| RHET:5100 | Practicum: College Teaching <br> and Professional Development <br> for Teaching Assistants | 1 |

For a more detailed description of the MA program in mass communication, contact the School of Journalism and Mass Communication.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the program is for fall entry.

## Financial Support

The School of Journalism and Mass Communication offers research and teaching assistantships; preference is given to PhD students. Students have been successful in winning competitive fellowships open to all graduate students; applicants must be nominated by the graduate committee.

## Career Advancement

This is an academically oriented degree that prepares students for doctoral studies or a career in research.
The MA program is designed to meet the needs of:

- journalism and mass communication students who have earned a bachelor's degree and wish to continue their education; MA students can be considered for admission into the doctoral program after completion of all their MA degree requirements; and
- experienced journalists or communicators who wish to prepare themselves for teaching by earning the MA, possibly continuing on to earn their PhD .

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Strategic Communication, MA

## Learning Outcomes

A candidate for a professional master's degree is expected to demonstrate knowledge and skills in the chosen discipline. Graduates will:

- be able to generate innovative and integrative solutions to communication problems that impact organizations and communities;
- evaluate and apply strategic communication and public relations theories broadly conceived to a range of social, cultural, and other contextual and communicative settings;
- learn to interpret and contribute to strategic communication research using qualitative and quantitative methods;
- demonstrate familiarity with relevant subfields of scholarship, synthesize existing knowledge, and identify and access appropriate resources and other sources of relevant information;
- grow their human capital through the attainment of relevant communication knowledge and skills and the ability to be effective team members and leaders in a diverse and complex world; and
- demonstrate professional skills, adhere to ethical standards in the discipline, and listen, give, and receive feedback effectively.

## Requirements

The Master of Arts program in strategic communication requires a minimum of 30 s.h. of graduate credit. Courses for the program are offered online.

The curriculum consists of core courses, electives, and a capstone project in place of a thesis. In most courses, students are encouraged to introduce case studies and projects from their workplace.

The MA with a major in strategic communication requires the following coursework.

## Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Foundations of Strategic <br> Communication | 3 |
| JMC:5220 | Digital Strategic <br> Communication | 3 |
| JMC:5225 | Strategic Communication <br> JMC:5230 | Writing |
| JMC:5235 | Strategic Communication <br> Research <br> Capstone Project in Strategic <br> Communication | 3 |
| JMC:5290 | Comm | 3 |

## Electives

In consultation with their advisors, students earn 15 s.h. in elective coursework chosen from the list below. They also may choose other electives that are appropriate for their individual programs, drawing from courses offered by the School of Journalism and Mass Communication and by other University of Iowa departments and programs.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| JMC:5236 | Topics in Strategic | 3 |
|  | Communication |  |

| JMC:5238 | Strategic Communication <br> Campaigns | 3 |
| :--- | :--- | :---: |
| JMC:5243 | Copywriting for Strategic <br> Communication | 3 |
| JMC:5248 | Strategic Political <br> Communication | 3 |
| JMC:5250 | Strategic Communication for <br> Nonprofits | 3 |
| JMC:5255 | Strategic Global <br> Communication | 3 |
| JMC:5260 | Digital Analytics for Strategic <br> Communication | 3 |
| JMC:5266 | Risk Communication |  |
| JMC:5267 | Strategic Health Care <br> Communication | 3 |
| JMC:5269 | Media Management for <br> Strategic Communicators | 3 |
| JMC:5270 | Leadership Communication | 3 |
| JMC:5285 | Strategic Communication <br> Externship | 3 |
|  | SM | 3 |

For a more detailed description of the MA in strategic communication, contact the School of Journalism and Mass Communication.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applications for admission to the program are accepted all year.

## Career Advancement

The strategic communication program is designed for professionals in a wide variety of areas, such as corporate and organizational communication, public relations, integrated marketing communication, advertising, political and public affairs communication, health communication, event management, risk communication, and professional writing. The program focuses on the skills, knowledge, and experience that working professionals need, including the ability to anticipate and meet the challenges of radical change in the media landscape.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Most students take two courses per semester with some summer courses; program courses are offered online.
b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.
d Students must complete JMC:5220, JMC:5225, JMC:5230, JMC:5235, JMC:5290; work with faculty advisor to determine required core coursework and sequence.
e Students may complete graduate elective coursework based on their specific career goals; electives ( 3000 level or above) may be taken from within the program or across the university. Work with faculty advisor to determine elective coursework and sequence.
f SJMC usually offers a JMC:5236 topics course in summer. Students may also opt to take an elective across the university.

## Mass Communication, PhD

## Learning Outcomes

A candidate for a doctoral degree is expected to demonstrate mastery of knowledge in the field of communication and to synthesize and create new knowledge, making an original and substantial contribution to the discipline in an appropriate time frame.

- Make an original and substantial contribution to the discipline: think originally and independently to develop concepts and methodologies, and identify new research opportunities within the field of communication.
- Demonstrate advanced research skills: synthesize existing knowledge; identify and access appropriate resources and other sources of relevant information; critically analyze and evaluate one's own findings and those of others; master application of existing research methodologies, techniques, and technical skills; and communicate in a style appropriate to the field of communication.
- Demonstrate commitment to advancing the values of scholarship: keep abreast of current advances within one's field and related areas; show commitment to personal professional development through engagement in professional societies and other knowledge transfer modes; and show a commitment to creating an environment that supports learning through teaching, collaborative inquiry, mentoring, or demonstration.
- Demonstrate professional skills: adhere to ethical standards in the discipline and listen, give, and receive feedback effectively.

## Requirements

The Doctor of Philosophy program in mass communication requires 72 s.h. of graduate credit. The program provides training in research methods, communication theory, and teaching skills.
The program emphasizes interdisciplinary studies, with coursework and research tailored to each student's interests under the guidance of faculty members. The school offers several areas of strength to support graduate student research in both traditional and digital media: critical and cultural studies, sport and media, international/ developmental studies, health and science communication, journalism studies, and history of media and media institutions.
Students in the PhD program in mass communication must complete the following curriculum.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| JMC:6100 | Communication and Media <br> Colloquium (taken eight times <br> for 1 s.h. each; should enroll <br> every semester for entire <br> program of study) | 8 |
| JMC:6200 | Humanistic Approaches to <br> Media Communication <br> Social Scientific Approaches to <br> Media Communication | 3 |
| JMC:6300 | PhD Research (for guided <br> reading) | 3 |
| JMC:6920 | Dissertation (must register for at <br> least 4 s.h.) | 4 |
| JMC:6999 | Practicum: College Teaching <br> and Professional Development <br> for Teaching Assistants | 1 |
| RHET:5100 | 3 |  |
| Additional professionalization courses |  |  |
| Methods area courses |  | 2 |

Theory area courses ..... 3
Concentration courses ..... 6
Electives ..... 6
Credit from master's degree and/or additional PhD ..... 30
courses

For a more detailed description of the PhD program, contact the School of Journalism and Mass Communication.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.
Admission to the program is for fall entry.

## Financial Support

The School of Journalism and Mass Communication offers research and teaching assistantships for graduate students; preference is given to PhD students. Students have been successful in winning competitive fellowships open to all graduate students; applicants must be nominated by the graduate committee.

## Career Advancement

Students in this program prepare for careers as teachers and industry researchers.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

e Students are required to take a total of 3 s.h. of professionalization courses including RHET:5100; consult with faculty advisor to determine which courses best align with career goals.
f Registration required every semester.
g Completed at the end of first year to directly assess understanding of content from two approaches courses.
h Prior to comprehensive exam, work with faculty advisor and committee to build the proposals literature review; see the General Catalog and department website for specifics.
i Writing and defending the dissertation proposal satisfies the comprehensive exam requirement. The dissertation proposal must clearly indicate the logical steps necessary for the completion of the project and suggest a plan of action.
j Minimum total of 4 s.h. of thesis credit required.
k Dissertation defense.

# Latham Science Engagement Initiative 

## Chair, Department of Biology

- Jodie M. Plumert

## Program Director, Latham Science Engagement Initiative

- Lori Adams (Biology)

Faculty: https://isa.uiowa.edu/people
Website: https://isa.uiowa.edu/programs/latham
The Latham Science Engagement Initiative provides the opportunity to engage highly talented undergraduate students across science disciplines in community outreach. The program enhances research opportunities for selected undergraduate students with the goal to position students with the scientific and creative abilities for graduate work.

The program prepares students to communicate science in the public sphere, work in interdisciplinary settings, and demonstrate the broader impact of scientific research. Students experience the strength of interdisciplinary interactions through exposure to research in other disciplines and work with students in other science majors on group projects. In addition, they develop fluency in communicating to diverse audiences in the community.

Students selected for the program complete two courses, design and implement an outreach project, and participate in an event that highlights their achievements.

The Latham Science Engagement Initiative is administered by the Department of Biology [p. 167]. For additional information, contact the Latham Science Engagement Initiative Fellowship Program.

## Admission

Students must apply for this program. Requirements include firstyear, sophomore, or junior standing in the College of Liberal Arts and Sciences; a grade-point average of at least 3.00; a minimum of one semester of undergraduate research experience; and an interest in speaking about science in a public forum.

## Courses

## Latham Science Engagement Initiative

 Courses
## LATH:3000 Latham Fellows: Science Communication Skill

## Building

1-2 s.h.
Provide Latham Fellows with various communication skills needed to explain scientific research to varied audiences.
LATH:3001 Latham Fellows: Science Outreach Project 2 s.h. Guidance to Latham Fellows as they implement one individual and one group project proposed the previous fall. Prerequisites: LATH:3000. Requirements: Latham Fellow standing.
LATH:4900 Science Communication and Engagement 0 s.h. Independent science outreach and engagement project through the Latham Science Engagement Initiative. Prerequisites: LATH:3000 and LATH:3001. Requirements: admission to the Latham Science Engagement Fellows Program.

LATH:4990 Science Communication and Engagement 1-3 s.h. Independent science outreach and engagement project through the Latham Science Engagement Initiative. Prerequisites: LATH:3000 and LATH:3001. Requirements: admission to the Latham Science Engagement Fellows Program.

## Latin American Studies

Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman (Linguistics)

Director, Latin American Studies

- Brian Gollnick

Undergraduate minor: Latin American studies
Undergraduate certificate: Latin American studies
Faculty: https://latinamericanstudies.uiowa.edu/people
Website: https://latinamericanstudies.uiowa.edu/
The Latin American Studies Program (LASP) is an interdisciplinary curriculum that introduces students to the cultures, arts, languages, histories, and social practices from Mexico, Central and South America, and the Caribbean, and provides students with frameworks for making sense of the social, political, and economic challenges faced in those regions.
Faculty members from across the College of Liberal Arts and Sciences participate in the Latin American Studies Program as affiliated faculty members. Other University of Iowa faculty members occasionally offer courses and participate in the program's research, study, and interdisciplinary activities.
In addition to its instructional activity, LASP sponsors a wide variety of activities, brings scholars of Latin America to campus, and fosters institutional linkages.

Latin American Studies is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 365].

## Study Abroad

The Latin American Studies Program highly recommends, but does not require, that students have an in-depth Latin American cultural experience, usually through study abroad, before completing their undergraduate requirements.
In cooperation with International Programs Study Abroad, LASP faculty members facilitate student participation in programs in many Latin American countries. University of Iowa students may enroll in programs in Argentina, Brazil, Chile, Colombia, Costa Rica, Cuba, the Dominican Republic, Honduras, Mexico, and Uruguay. Programs range from intensive language study to group programs with a special focus. The University of Iowa cosponsors these programs through various consortiums.

Study abroad courses may be counted toward requirements for the certificate and the minor with prior approval from a LASP director.

## Financial Support

Students are encouraged to apply for a Stanley Undergraduate Award for International Research through University of Iowa International Programs. The awards are given to outstanding University of Iowa undergraduates who, in close consultation with a faculty member, propose well-conceived, small-scale research or fieldwork projects that require travel abroad. Students may conduct projects while participating in a study abroad program and may combine the award with other awards and financial assistance. For information regarding other scholarships, contact LASP advisors, International Programs staff, and the LASP director.

## Activities

In addition to its instructional activity, LASP organizes a range of public programming activities each semester, including film series, photography and art exhibits, conferences, round-table discussions, and lectures.

Recent events include an exhibit of mixed media Colombian contemporary art and public lectures on Brazilian black feminist theory, Afro-Brazilian female authorship, and cosmopolitanism in Mexican cinema as part of the annual Charles A. Hale Lectures in Latin American Studies.

## Programs

## Undergraduate Programs of Study

## Minor

- Minor in Latin American Studies [p. 743]

## Certificate

- Certificate in Latin American Studies [p. 744]

## Facilities

The Center for Language and Culture Learning provides a wide variety of facilities and services to the Division of World Languages, Literatures and Cultures (DWLLC), including a 24-computer Instructional Technology Center (ITC) and five All-In-One Studios/ small group study rooms equipped with video production and editing software, a Computer Assisted Language Learning Lab with 25 computers integrated with Sanako software for language practice, and virtual reality hardware and development space.

The center provides spaces for quiet study as well as for group meetings. Departments, programs, and student organizations are welcome to host conversation hours, film nights, study groups, workshops, and more. Peer education services include peer tutoring programs in many of the languages taught in DWLLC, with both inperson and online availability, as well as the Directed Independent Language Study, through which faculty, staff, or students can be paired with a tutor to learn a language not taught in the DWLLC. Tutors are trained to use the Three Ms for Effective Learning, including developing a growth mindset, using memory strategies to retain knowledge, and reflecting on learning gains.

## Courses

- Associated Courses [p. 739]
- Latin American Studies Courses [p. 740]

## Associated Courses

The following courses are approved for the Latin American studies certificate and minor. Students may petition to include other courses that have significant Latin American content; consult the Latin American Studies Program.

## Latin American Studies Courses

All Latin American Studies Program courses are approved for the certificate and minor.
LAS:1150 Brazilian Culture and Carnival 3 s.h.
Dance, music, historical, and social contents of Brazilian Carnival production, critical theories of performance, religious backgrounds, and theatre making in carnival parades. GE: Engineering Be Creative; Values and Culture. Same as DANC:1150.

LAS:2200 Introduction to Spanish American Cultures 3 s.h. Introduction to study of cultural history of Spanish America; topics range from pre-Colombian times to present; for students who are just starting work on the Spanish major or minor. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2200.

## LAS:2220 The Olmec, Maya, and Aztecs: Archaeology of

 Mesoamerica3 s.h. Archaeological data related to the evolution of civilization in Mesoamerica; sequence from hunter-gatherers to A.D. 1519; emphasis on Central Mexico, Maya area, Oaxaca. Same as ANTH:2220.
LAS:2311 Music of Latin America and the Caribbean 3 s.h. Folk and popular musical traditions and their social contexts in Latin America, the Caribbean; listening skills; video/film screenings. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as MUS:2311.
LAS:2415 Latin American Politics
3 s.h.
Governmental institutions, major interest groups; focus on area as a whole. GE: International and Global Issues; Social Sciences. Same as POLI:2415.

LAS:2500 Readings in Spanish American Literature 3 s.h. Tools for improving reading skills; basic concepts for textual understanding; historical overview of literary works, with focus on Spanish American literature. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2500.
LAS:2700 Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Taught in English. Same as COMM:2800, IS:2700, PORT:2700, SPAN:2700.
LAS:2800 Screening Latin America
3 s.h.
Basic introduction to contemporary Latin American societies and cultures through fiction feature films (i.e., comedies, dramas) and documentaries by major filmmakers; previous knowledge of film analysis not required. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2800.
LAS:2850 Brazilian Narrative in Translation 3 s.h.
Representative readings of modern and contemporary novels, short stories, and other narrative forms; cultural background; focus on major writers. Taught in English. Prerequisites: ENGL:1200. GE: Literary, Visual, and Performing Arts. Same as PORT:2850, SPAN:2850.

## LAS:2900 Music of the Hispanic World

3 s.h.
Introduction to music of Spain and Latin America, including the United States; listening skills, music appreciation, continuing development of Spanish language skills. Taught in Spanish.
Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2900.
LAS:3020 Journalistic Writing in Spanish
3 s.h.
Spanish writing skills; introduction to style and practice of journalistic reporting and writing. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as JMC:3445, SPAN:3020.

LAS:3104 Immigration Politics
United States immigration policy and political consequences of Latina/o/x population growth; contrast of political experiences of Latina/o/x with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as LATS:3104, POLI:3104.

## LAS:3215 Medellin

Medellin, Colombia has been transformed from one of the most violent places on Earth to an award-winning city of innovation in only 20 years; introduction to the city and its people through literature, music, and a digital map project. Taught in Spanish. Requirements: at least one course numbered SPAN:2000 or above. Same as SPAN:3215.

LAS:3217 Latina/o/x Immigration
3 s.h.
Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration-social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latina/o/x identity in the United States. Same as HIST:3217, LATS:3217.
LAS:3225 Latin American Women Writers 3 s.h.
Focus on long tradition of strong female writers in Latin America; materials may include poetry, theater, fiction, and essay from the Spanish-speaking countries of Mexico, Central America, South America, and Brazil. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN: 3225.

LAS:3290 Topics in Cinema and Society 3 s.h.
Film and cultural history of one Latin American nation. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3290.

LAS:3310 Spanish American Short Story
3 s.h.
Works by 19th- and 20th-century Spanish American writers; emphasis on reading strategies and historical, cultural, literary backgrounds. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3310.
LAS:3501 Rebel Island: A History of Cuba 3 s.h Cuban society and revolutionary movements since the late colonial period, including the years since 1959. Same as HIST:3501.

## LAS:3502 History of Mexico <br> 3 s.h.

Mexican history since the eve of the Spanish invasion, with focus on the national period; indigenous groups, conquest and demographic disaster, Native survival, labor and migration, social protest and rebellions, nationhood, revolution, regional differences, religions, popular culture, economic growth and distribution, state building, environmental change, international relations; survey. Same as HIST:3502, NAIS:3502.
LAS:3508 Disease and Health in Latin American History 3 s.h. Survey of major topics in Latin American history in relation to development of medicine and public health. Same as GHS:3508, HIST:3508.

LAS:3515 Introduction to Modern Latin America 3 s.h. Introduction to modern history of Latin America from independence movements of the early 19th century to present; topics include race and ethnicity, slave emancipation, gender, labor relations, and foreign interventions; exploration of relationship between economic, social, and political structures over time to explain difference and commonality between Latin American people and societies; focus on topics pertaining to histories of Mexico, Central America, the Caribbean, and South America. Same as HIST:3515.
LAS:3535 Topics in Literature and Culture of the Americas 3 s.h. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3535.
LAS:4216 Mexican American History 3 s.h.
3 s.h. Survey of Chicana/o (Mexican American) history from 18 th century to present; Mexican American society's diverse nature, explored through class, ethnic, gender, and regional divisions. Same as HIST:4216.
LAS:4390 Topics in Spanish American Literature 3 s.h. Taught in Spanish. Requirements: one literature course in Spanish numbered SPAN:3200 or above. Same as SPAN:4390.

LAS:4700 Latin American Studies Seminar
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as ANTH:4700, HIST:4504, PORT:4700, SPAN:4900.

## LAS:4815 Lost Childhoods: Marginal Children of Latin

 America 3 s.h.Focus on lost childhoods from a cultural studies perspective; analysis of marginal perspectives that emerge from a globalized urban landscape; evolution of literary, artistic (art, photography, comics), and film productions about dispossessed children, the construction of childhood by nongovernmental and nonprofit organizations, and how these cultural productions denounce social violence. Taught in Spanish. Requirements: two courses numbered SPAN:3000 or above. Same as SPAN:4815.
$\begin{array}{ll}\text { LAS:4925 Topics in Film Narrative } & \mathbf{3} \text { s.h. } \\ \text { Exploration of relationship between film narratives and social } & \\ \text { systems. Taught in English. Same as SPAN:4925. }\end{array}$
LAS:4990 Independent Project in Latin American Studies arr. Independent work completed under the supervision of Latin American studies faculty.

## Latin American Studies, Minor

## Requirements

The undergraduate minor in Latin American studies requires a minimum of 15 s.h. in Latin American Studies Program approved courses (see "Associated Courses" and "Latin American Studies Courses" under Courses [p. 739] in this section of the catalog), including at least 12 s.h. of credit earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count a total of 6 s.h. earned for majors, certificates, and other minors toward the Latin American studies minor. Since the minor is interdisciplinary, it may include a maximum of 6 s.h. of credit from any single department or program. However, a student earning the minor in Latin American studies may not earn the Certificate in Latin American Studies.

Students are strongly encouraged to take either or both of these for the minor.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| LAS:2700 | Introduction to Latin American | 3 |
| LAS:4700 | Studies |  |
|  | Latin American Studies Seminar | 3 |

## Career Advancement

The Latin American Studies Program minor prepares students for a range of careers and graduate programs related to Latin America, including bilingual/bicultural education, business, government, and international work.

## Latin American Studies, Certificate

## Requirements

The undergraduate Certificate in Latin American Studies requires a minimum of 18 s.h. The 18 s.h. required for the certificate must be earned in Latin American Studies Program (LASP) approved courses (see "Associated Courses" and "Latin American Studies Courses" under Courses [p. 739] in this section of the catalog), including at least 12 s.h. of credit earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in certificate courses.
The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary. However, a student earning the Certificate in Latin American Studies may not earn the minor in Latin American studies.

All students develop an individual certificate plan of study in close cooperation with a LASP advisor. In some cases, students may be able to count certificate courses toward certain GE CLAS Core [p. 19] requirements.

The Certificate in Latin American Studies requires the following coursework.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| LAS:2700 | Introduction to Latin American | 3 |
|  | Studies |  |
| LAS:4700 | Latin American Studies Seminar | 3 |
| Spanish and Portuguese Courses <br> Additional Courses (excluding Spanish or Portuguese <br> courses) | 6 |  |

Total Hours
Students who complete the required 6 s.h. of Spanish and Portuguese coursework at the University of Iowa must choose courses from the "Associated Courses" list under Courses [p. 739] in this section of the catalog. Students also may use 6 s.h. of Spanish or Portuguese language study at any level if those hours are earned through an approved study abroad program in Latin America. Contact the Latin American Studies Program for prior approval of a study abroad program.
The required 6 s.h. of additional courses also must be chosen from the "Associated Courses" and "Latin American Studies Courses" lists under Courses [p. 739] in this section of the catalog. They may not include Spanish or Portuguese courses (prefix PORT or SPAN).

## Study Abroad

The program highly recommends study abroad in Latin America. Students must have prior approval to apply credit from a study abroad program toward the certificate requirements; contact the Latin American Studies Program.

## Career Advancement

The Latin American Studies Program certificate prepares students for a range of careers and graduate programs related to Latin America, including bilingual/bicultural education, business, government, and international work.

Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Latin American Studies, Certificate

This sample plan is currently being updated and will be added at a later date.

# Latina/o/x Studies 

Director, Division of Interdisciplinary Programs

## Director, Latina/o/x Studies

- Rene R. Rocha

## Undergraduate minor: Latina/o/x studies

Faculty: https://latinxstudies.uiowa.edu/people
Website: https://latinxstudies.uiowa.edu/
Latina/o/x studies offers an interdisciplinary perspective on the history, culture, politics, and experiences of the Latina/o/x population in the United States. This population is now the largest minority group in the United States, and by the year 2060, it is expected that approximately one-third of the U.S. population will be Latina/o/x. Courses in Latina/o/x studies introduce the peoples who have had a long-term presence in the United States and in the Midwest and who are increasingly neighbors, classmates, and coworkers.
The Latina/o/x studies minor helps to prepare undergraduates for careers in medicine, public health, social work, business, education, and the arts, and to respond to the changing demographics of the United States.

Latina/o/x studies is one of the academic units in the Division of Interdisciplinary Programs [p. 364].

## Cocurricular Activities

## Latino Native American Cultural Center

Latina/o/x studies collaborates with the Latino Native American Cultural Center (LNACC). LNACC was founded in 1971 and is the home to important University of Iowa student organizations that sponsor conferences, pow-wows, study groups, and educational programs.

## Unidos Living Learning Community

Latina/o/x studies works with University Housing and Dining to support the Unidos Living Learning Community. Founded in 2020, Unidos welcomes all Latinx-identifying students and those who seek to learn and engage more in the cultural background. Unidos members are required to enroll in a Latina/o/x studies course that introduces them to the minor.

## Community Engagement

In addition to their instructional activity, Latina/o/x studies faculty participate in a range of public programming activities each semester, such as film series, conferences, round table discussions, and lectures. Most recently, Latina/o/x studies faculty have contributed their time and expertise in support of campus and community organizations such as Iowa Public Radio, the League of United Latin American Citizens (LULAC), the Iowa City Foreign Relations Council, the UI Latinx Council, and the Obermann Center for Advanced Studies.

## Programs

Undergraduate Program of Study

## Minor

- Minor in Latina/o/x Studies [p. 747]

Courses

## Latina/o/x Studies Courses

## LATS:1000 First-Year Seminar

 1 s.h.Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, field trips). Requirements: first- or secondsemester standing.

## LATS: 1600 War Stories

3 s.h.
Exploration of the history of U.S. conflicts from Vietnam to the War on Terror through novels, film, and other cultural forms; specific focus on how U.S. social structures influence experiences of war. Same as AMST:1600, SJUS:1600.
LATS: 1700 Latina/o/x Literature in the United States 3 s.h. Introduction to growing cultural production of varied Latina/o/x communities (e.g., Chicano, Puerto Rican American/Nuyorican, Cuban American) that have a strong presence in the United States; recent cultural production from borderland transcultural spaces with physical, cultural, economic, political, and mythical elements; visions of the United States from contemporary Latin American writers who recently have become U.S. residents. Taught in English. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as SPAN: 1700.

LATS:1765 U.S. Latina/o/x Religions 3 s.h.
Beliefs and practices of U.S. Latina/o/x, ways that their beliefs and practices are unique and where they overlap with mainstream U.S. society; beliefs, symbols, and practices among U.S. Latina/o/x on national and local level; field visits to local churches and religious sites; class visitors share insights. Same as RELS:1765.
LATS:1898 Introduction to Latina/o/x Communication and Culture
Introduction to fundamentals of communication by and about Latina/ $\mathrm{o} / \mathrm{x}$ in the U.S.; Latina/o/x as one of the fastest growing demographics; how Latina/o/x history, politics, and culture remain little understood despite a longstanding and growing presence in Iowa and across the nation; historical orientation; Latina/o/x social movement and protest (e.g., Chicana/o/x movements, Young Lords Organization), institutional discourses (e.g., congressional, presidential, legal discourses), and Latina/o/x in popular culture (film, television, music, sports). GE: Diversity and Inclusion. Same as COMM:1898.
LATS:2280 Introduction to Latina/o/x Studies 3 s.h. Introduction to field of Latina/o/x studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o/x populations (i.e., Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (i.e., Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Taught in English. GE: Diversity and Inclusion. Same as HIST:2280.
LATS:2400 Health, Intersectionality, and Diversity 3 s.h. Exploration of intersectionality related to gender and health disparities, particularly as they impact diverse populations in the United States. Same as CPH:2240, GWSS:2400.
LATS:3100 Latinx Community Engagement
3 s.h.
Focus on Latinx engagement in local communities.
LATS:3104 Immigration Politics
3 s.h.
United States immigration policy and political consequences of Latina/o/x population growth; contrast of political experiences of Latina/o/x with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as LAS:3104, POLI:3104.

## LATS:3217 Latina/o/x Immigration 3 s.h.

Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration-social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latina/o/x identity in the United States. Same as HIST:3217, LAS:3217.

## LATS:3410 Undocumented America: Citizenship, Race, and Immigration <br> 3 s.h. <br> Examination of how literature and culture responds to and

 rearticulates culture, history, legal logic, and economic parameters that frame who is "legal" and "illegal" and how undocumented immigrants document and contest their lack of rights; how designations of immigrant's illegal or undocumented status depend on and maintain U.S. discourse about race and ethnicity. Same as AMST:3410.LATS:3415 Latina/o/x Protest, Movement, Resistance 3 s.h. Examination of history, form, and function of protest, social movement, and resistance by Latina/o/x peoples in the United States. Same as AMST:3415, SJUS:3415.
LATS:3420 Latinas/os/x and the Law
3 s.h.
Introduction and survey of Latina/o/x legal history; topics include segregation, educational rights, immigration, voting rights, citizenship, and the criminal justice system. Same as AMST:3420, POLI:3427, SJUS:3420.

## LATS:3430 Queer Latina/o/x Studies

Relationship of Latina/o/x culture with gender, sexuality, and queerness. Same as AMST:3450, SJUS:3430.

## LATS:3435 Intersectional Identities: Writing About the Twenty-first-Century Self <br> 3 s.h.

Analysis of intersections between systems of oppression, domination, and discrimination; focus on how writers of color represent those connections and critical articulation of students' lived experience of them. Same as WRIT:3435.

## LATS:3467 Latina/o/x Literatures and Cultures $\mathbf{3}$ s.h.

Exploration of major themes and research topics in Latina/o/x literatures and cultures. English majors and English and Creative Writing majors may apply this course to the following area and/ or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:3467.
LATS:3520 Latinx Oral Histories of Health Care 3 s.h.
Oral histories capture individual lived experiences in relation to structures of law, language, society, and culture; students learn oral history methods and connect with Latinx members in the local community to conduct interviews that record their lived experiences of access to health care; these interviews may be archived in Special Collections and Archives at the University Libraries. Recommendations: some knowledge of Spanish is useful but not required. Same as GHS:3520.

## LATS:3522 Rural Unrest and Indigenous Women in Latin

## America

3 s.h.
Trace the major and everyday forms of contestation between Indigenous peoples and the groups that have tried to assimilate, subjugate, or dominate them in Latin America, concentrating on Mesoamerica, the Amazonia, and the Andes; explore questions of power, identity, and resistance through the lens of gender. Same as HIST:3522.

LATS:3550 Topics in Latina/o/x Studies: History and Culture 1-3 s.h.
Historical and cultural approaches; topics vary.

LATS:4160 Language, Justice, and the Law
3 s.h.
Focus on language policy, immigrants' linguistic rights, and cultural communication in context of U.S. law; development of Spanish language skills in legal and cultural contexts. Taught in Spanish. Requirements: two courses in Spanish numbered 3000 or above. Same as SPAN:4160.

## LATS:4171 Community Media

3 s.h.
Theory and history of community media as means of cultural expression, political participation, and social change; focus on case studies from Latin America and other global contexts. Prerequisites: ( 4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and ( 2 of the following are required: COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, COMM:2069, COMM:2070, COMM:2072, COMM:2075, COMM:2076, COMM:2077, COMM:2078, COMM:2079, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, COMM:2248). Same as COMM:4171.

## LATS:4800 Latina/o/x Popular Culture <br> 3 s.h.

Role of Latina/o/x popular culture as a site of contemporary social practice and cultural politics in both local and global contexts; specific attention to notions of citizenship, identity, and culture. Taught in English. Same as AMST:4800.
LATS:4805 Chicano Cinema 3 s.h.
History of Chicano independent and industry film and television production since the Chicano political and cultural movement began in the 1960s. Taught in English. Requirements: one Spanish literature or culture course numbered SPAN:3200 or above, or one film studies course numbered above CINE:2100. Same as CINE:4705, SPAN:4805.

## LATS:4990 Independent Project in Latina/0/x Studies arr.

Independent work under the supervision of Latina/o/x studies faculty.

## Latina/o/x Studies, Minor

## Requirements

The undergraduate minor in Latina/o/x studies (Latina/Latino/Latinx studies) requires a minimum of 15 s.h. Additionally, 12 s.h. of coursework must be taken at the University of Iowa, with a maximum of 3 s.h. accepted as transfer credit from another institution. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate may be counted toward the minor.

The minor in Latina/o/x studies requires the following coursework.

| Requirements | Hours |

## Linguistics

## Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman (Linguistics)

Chair, Department of Linguistics

- Sarah Fagan

Undergraduate major: linguistics (BA)
Undergraduate minor: linguistics
Graduate degrees: MA in linguistics; PhD in linguistics
Faculty: https://linguistics.uiowa.edu/people/faculty
Website: https://linguistics.uiowa.edu/
Linguistics is the scientific study of human languages, which are highly complex systems. Areas of study include word structure (morphology), speech sounds (phonetics) and their patterns of combination and contrast (phonology), sentence structure (syntax), and meaning relations (semantics).
Linguists study well-known and familiar languages, such as English, Spanish, Russian, and Chinese. They also study less well-known languages and even those languages about which little has been discovered. While human languages are different from one another in many ways, there are broad similarities among them, supporting the idea that the capacity for language is part of human cognitive functions.
The description of formal patterns of human language has a number of applications. Linguistics is connected to psychology and to speech and hearing, in studying how children learn language, how speakers process and interpret language, and how injuries and disorders affect both production and perception of speech. Linguistics also is linked with anthropology and other social sciences in studying how language use relates to culture, region, class, and gender. Linguists collaborate with computer scientists to construct computational representations of syntax and semantics for processing natural languages.
Linguistics has important ties with instruction in world languages and in English as a second language (ESL). Studies of how languages are learned are based in part on analysis of the languages in question. They also are grounded strongly in theories of second language acquisition, which in turn are related to theories of how linguistic knowledge is represented in the mind.

People with linguistic training teach ESL and help clinicians retrain people with linguistic disabilities. Some help design school programs for underserved groups or intelligence and achievement tests. Linguists also work in occupations related to law, the computer industry, and world languages.

High scores on verbal, analytic, and quantitative aptitude tests are indicators of success in linguistics. Although few aspects of the field deal with numbers, students must be able to reason logically and explicitly and deal with formulas and abstract symbols.

The Department of Linguistics is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 365].

## Related Certificate

## Cognitive Science of Language

The Graduate College offers the graduate Certificate in Cognitive Science of Language. Designed to complement doctoral study, the certificate program ensures that students have training in interdisciplinary approaches to the study of language along with
strong theoretical grounding in their PhD discipline. See the Certificate in Cognitive Science of Language [p. 1631] in the catalog for more information.

## Programs

## Undergraduate Programs of Study

## Major

- Major in Linguistics (Bachelor of Arts) [p. 752]

## Minor

- Minor in Linguistics [p. 756]

## Graduate Programs of Study

## Majors

- Master of Arts in Linguistics [p. 757]
- Doctor of Philosophy in Linguistics [p. 759]

## Facilities

The Center for Language and Culture Learning provides a wide variety of facilities and services to the Division of World Languages, Literatures and Cultures (DWLLC), including a 24 -computer Instructional Technology Center (ITC) and five All-In-One Studios/ small group study rooms equipped with video production and editing software; a Computer Assisted Language Learning Lab with 25 computers integrated with Sanako software for language practice; and virtual reality hardware and development space.
The center provides spaces for quiet study as well as for group meetings. Departments, programs, and student organizations are welcome to host conversation hours, film nights, study groups, workshops, and more. Peer education services include peer tutoring programs in many of the languages taught in DWLLC, with both inperson and online availability, as well as the Directed Independent Language Study, through which faculty, staff, or students can be paired with a tutor to learn a language not taught in the DWLLC. Tutors are trained to use the Three Ms for Effective Learning, which include developing a growth mindset, using memory strategies to retain knowledge, and reflecting on learning gains.

## Courses

## Linguistics Courses

## LING:1000 First-Year Seminar

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
LING:1003 English Grammar
Recognizing nouns, verbs, adverbs, adjectives, and other parts of speech; sentence analysis; subjects, objects; types of sentences; passives, relative clauses; for students with little or no background in English grammar study. Does not count toward the linguistics major. Same as WRIT:1003.

## LING:1010 Language and Society

3 s.h.
Correlations between social and linguistic behavior; methods for discovering and describing socially significant language behavior; educational and political implications of findings. GE: Social Sciences.

LING:1030 English Words 3 s.h.
English word formation, basic units of English vocabulary; vocabulary skill expansion; word structure. Same as WRIT:1030.

## LING:1040 Language Rights

3 s.h.
Language minorities and linguistic human rights in the United States and worldwide; language and identity, culture, power; case studies of language rights deprivation. GE: International and Global Issues. Same as ANTH:1040.

## LING:1050 Language and Formal Reasoning

3 s.h.
Semantics and sentence structure of English; word meanings, meaning connected to truth conditions, reasoning based on logical connectives and quantifiers, evaluation of valid and invalid arguments. GE: Quantitative or Formal Reasoning.
LING:1060 Languages of the World
3 s.h.
Overview of structural similarities and differences in human language; survey of the world's major language families; emphasis on sentence and word structure, sound systems, and modes of classification. GE: Social Sciences.

LING:1070 Language Attitudes: Is How You Sound How You Are Seen?

3 s.h.
Pretend that you are making a phone call to ask about ordering a textbook and the person who answers is a stranger to you; you will immediately start to form opinions about that person (and about any other talkers you interact with) based upon the way they speakwhere they are from, whether they are a native speaker of English, and even how well educated they are-and whether you are aware or not, these opinions and impressions you have will influence your interaction with that person and are based in language ideologies that all people have regarding how others sound; students explore common language ideologies and reflect upon their own. Taught in English. GE: Diversity and Inclusion.

## LING:2010 Research Practicum

Individual participation in faculty research projects.

## LING:2090 Special Project

LING:2248 The Invention of Writing: From Cuneiform to Computers
arr.

Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, TRNS:2248, WLLC:2248.

LING:2900 Language, Gender, and Sexuality 3 s.h.
Gender-related language variation; current research on gender-specific linguistic forms and usage in the United States and other language communities; introduction to relevant principles of linguistic theory and analysis. GE: Values and Culture.

## LING:3001 Introduction to Linguistics

3 s.h.
Introduction to the study of human language: sounds and their contrasts and variation, words and meaningful subunits, sentence structure, historical change.

## LING:3005 Articulatory and Acoustic Phonetics

3 s.h.
Production and transcription of sounds in human languages; physics of sound, computer analysis of speech sounds. Offered fall semesters. Same as SLA:3400.

LING:3010 Syntactic Analysis
3 s.h.
Introduction to sentence structures and basic abstract relations that characterize them, including word category, word order, hierarchical organization; problem sets from English and other languages as basis for discussion, analysis. Offered spring semesters. Prerequisites: LING:3001.

LING:3020 Phonological Analysis 3 s.h.
Introduction to analysis of sound systems; generative phonological theory; practice in phonological analysis using data from a variety of languages. Offered spring semesters. Prerequisites: LING:3001 and LING:3005.
LING:3030 Child Language-Linguistic Perspectives 3 s.h.
Linguistic theory as applied to first-language learning, including acquisition of sounds, syntax and word meaning, acquisition strategies, properties of input, theories of first-language acquisition. Prerequisites: LING:3001.

LING:3040 Topics in Linguistics 3 s.h.
Varied topics in linguistics; for undergraduates. Requirements: LING:3001 or LING:3020 or LING:3080 or LING:5020.
LING:3080 History of the English Language 3 s.h.
Development of phonological and grammatical structure of English, from Old to Modern English; selected issues in the history of England. Same as WRIT:3080.
LING:3101 Introduction to Korean Linguistics 3 s.h.
Introduction to various topics in Korean linguistics including sentence structures, sound patterns, word formation, discourse structures, and historical background of Korean language. Taught in English. Recommendations: two years of Korean language study. Same as KORE:3100.

LING:3105 Linguistic Aspects of the Lusophone World 3-4 s.h. Introduction to Portuguese incorporating formal (theoretical), historical, and sociolinguistic perspectives; linguistic analysis of phonetics/phonology, morphology, and syntax; origins of Portuguese arr. and its expansion to Africa, Asia, and Latin America. Taught in English. Same as PORT:3105, SPAN:3105.
3 s.h. LING:3116 Basic Neuroscience for Speech and Hearing $\mathbf{3}$ s.h. Basic anatomy, physiology of central nervous system; emphasis on neural systems involved in normal and disordered communication. Offered fall semesters. Requirements: biology, zoology, or physiology course. Same as CSD:3116.
LING:3117 Psychology of Language
3 s.h.
Introduction to scientific study of language use; language approached from a multidisciplinary perspective, integrating theories and methods of psycholinguistics, neuropsychology, and communication sciences and disorders. GE: Social Sciences. Same as CSD:3117.
LING:3118 Language Acquisition 1-3 s.h.
Models of children's language acquisition; child language/ communication development from infancy through school age, in context of current developmental research. Requirements: for CSD:3118—LING:3001 and PSY:1001; for LING:3118—LING:3001 or LING:3117. GE: Social Sciences. Same as CSD:3118.
LING:3190 Psycholinguistic Aspects of Bilingualism 3-4 s.h. Interaction of two languages in a bilingual in terms of sound system, words, and grammar; different meanings of bilingualism, how bilingualism and multilingualism can change across lifespan. Taught in English. Requirements: linguistics or language acquisition course.
Same as PSY:3190.
LING:3195 Linguistics Lab I
1-3 s.h.
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.

## LING:3290 Statistical and Experimental Methods in

 LinguisticsIntroduction to basic experimental design; critical analysis of scientific claims; overview of common methods in experimental linguistics; introduction to statistics with emphasis on common data types in linguistics. Prerequisites: (LING:3010 or LING:5010) and (LING:3020 or LING:5020). Requirements: advanced standing in linguistics program and completion of core courses in syntax and phonetics/phonology at undergraduate or graduate level.
LING:3302 Introduction to Chinese Linguistics 3 s.h.
Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as CHIN:3302, SLA:3302.
LING:3410 Exploring TESL for Fulbright Students 1 s.h. Introduction to second language acquisition, structure of English, and methods of teaching English to speakers of other languages; opportunities to observe theory in action; students read and discuss articles, observe a variety of teachers and skills, and reflect on their experiences and how they can prepare for future teaching assignments during the Fulbright experience. Taught in English. Requirements: application to Fulbright program. Recommendations: prior or concurrent enrollment in LING:3001.

## LING:3670 Language Processes

3 s.h.
Psychological processes involved in using languages, including speech perception and production, the meaning of words, understanding and producing sentences, and basics of discourse and pragmatics; developmental and neural bases of language processes. Prerequisites: (PSY:2811 with a minimum grade of C- and PSY:2601 with a minimum grade of C-) or CSD:1015 or LING:3001. Same as PSY:3670.

LING:3860 German Language and Society 3 s.h.
Introduction to sociolinguistics in context of German-speaking countries; major topics include German dialects, regional and social variation in contemporary German, minority and immigrant languages in German-speaking countries, language and national identity, multilingualism, educational policies related to language teaching and learning, linguistic purism, language use in digital contexts, and language change. Taught in German. Requirements: GRMN:2002, GRMN:2020, or a higher-level course in German. Same as GRMN:3860.

## LING:4010 Undergraduate Practicum in Teaching English as a Second Language

Practicum experience for undergraduate linguistics majors with an emphasis in teaching English as a second language (TESL); readings and reflection on academic writing, international student writing, and providing feedback on written work; training in the policies and procedures of the Department of Rhetoric's Writing Center; mentored experience in working with international student writers. Prerequisites: LING:3005 and LING:4040. Corequisites: LING:4050. Requirements: undergraduate major in linguistics with TESL emphasis, and minimum cumulative UI GPA of 3.33 .

## LING:4020 Morphology 3 s.h.

Lexicon and principles of word formation; principal processes of inflection, derivation, and compounding found in the world's languages; relation to phonology, syntax; practice in morphological analysis from a variety of languages. Prerequisites: LING:3001.

## LING:4040 The Structure of English

Descriptive analysis of English, including word and sentence structure; focus on relevance to teaching English as a second language. Offered fall semesters. Prerequisites: LING:3001.

## LING:4050 Methods of Teaching English as a Second

3 s.h. Language 3 s.h.

Observations of ESL and intensive English classes at the UI; design and presentation of short lessons, text evaluation, demonstrations of innovative approaches of the last decade; materials. Offered spring semesters. Prerequisites: LING:3005 and LING:4040. Same as SLA:4401.

LING:4070 Introduction to the Study of Meaning 3 s.h.
Introduction to the study of meanings and language use in context; meaning outside the literal semantic interpretation of words used including presuppositions and goals of speaker, expectation of listener, speech acts, conversational implicatures, deixis, discourse functions, and other relevant topics. Taught in English. Prerequisites: LING:3001. Same as FREN:4070.

LING:4090 Practical Phonetics 3 s.h.
Contemporary articulatory and acoustic research, including secondlanguage acquisition, elicitation and computer analysis of primary linguistic data. Prerequisites: LING:3005.

## LING:4195 Linguistics Lab II <br> 3 s.h.

Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.

## LING:4291 Statistical and Experimental Methods in Linguistics I

Introduction to basic experimental design; critical analysis of scientific claims; overview of common methods in experimental linguistics; research preparation and follow-up. Prerequisites: LING:3010 or LING:3020. Requirements: advanced standing in undergraduate linguistics program or graduate standing in linguistics.

## LING:4292 Statistical and Experimental Methods in Linguistics

 II 3 s.h.Introduction to statistics with emphasis on common data types in linguistics; coding in R. Prerequisites: LING:4291.
LING:4589 Philosophy of Language 3 s.h.
Main issues in contemporary philosophy of language; topics may include theories of meaning, truth, belief, interpretation, translation, speech acts, performatives, rule following, reference, naming, propositional attitudes, metaphor. Same as PHIL:4589.
LING:4900 Honors: Research and Thesis arr.
Guided independent research to earn departmental honors. Prerequisites: LING:3001 and LING:3005. Corequisites: LING:3010 and LING:3020. Requirements: permission from departmental honors advisor.

LING:5000 Proseminar: Morphosyntax 1 s.h.
Basic morphological analysis of languages other than English; morphological markers of syntactic relations (morphosyntax), such as case/agreement, possession, switch reference and other inflectional marking. Corequisites: LING:5010.
LING:5010 Introduction to Syntax
3 s.h.
Methods and argumentation for formal analysis of sentence structure through induction from language data of central concepts and relations; hypothesis testing, empirical bases of theoretical concepts. Corequisites: LING:5000. Same as SLA:5010.
LING:5020 Introduction to Phonology 3 s.h.
Analysis of sound systems, focus on early generative phonological theory; extensive practice in analysis using data from a variety of languages; linguistic argumentation. Prerequisites: LING:3005. Same as SLA:5020.
LING:5030 First Language Acquisition 3 s.h.
Child language from a crosslinguistic perspective. Prerequisites: LING:3005 and (LING:4040 or LING:5010). Same as SLA:5401.

LING:5050 Principles of Language Creation: Introduction to Constructed Languages 3 s.h.
Introduction to language construction (conlanging) with consideration to the task of building a language from a number of different perspectives-structure, evolution, development, typology, and social function; students apply these ideas, with their knowledge of existing languages and historical, social, and grammatical processes they display, to construct their own languages. Requirements: graduate standing or completion of linguistics upper-level undergraduate coursework.

## LING:5070 Practicum in Teaching English as a Second

 Language 2-3 s.h. Introduction to assessment design and practice for English as a second language (ESL) classrooms; practical experience in teaching English as a second language through observation and participation in ESL classes; design and teaching of ESL classes under supervision. Prerequisites: LING:4050.
## LING:5090 Special Projects

Theoretical and applied topics.

## LING:6010 Syntactic Theory

3 s.h.
Current syntactic theory examined through analysis of data sets, readings in recent research; emphasis on argument construction, statement of formal principles. Offered spring semesters. Prerequisites: LING:5010. Same as SLA:6010.
LING:6020 Phonological Theory 3 s.h.
Post-SPE phonological theory, including autosegmental phonology, feature geometry, the syllable, optimality theory. Prerequisites: LING:5020. Same as SLA:6011.
LING:6040 Linguistic Structures 3 s.h.
Grammatical and/or phonological structure of a selected language or language family. Prerequisites: LING:5010 and LING:5020.
LING:6050 Language Universals Linguistic Typology 3 s.h. Proposed universal principles of linguistic structure; approaches to typological classification of languages; patterns in syntactic and morphological structure and constraints on cross-linguistic variation. Prerequisites: LING:5010.
LING:6080 Topics in Second Language Acquisition 3 s.h. Overview of current second-language acquisition research in the generative linguistic framework; focus on characterizing second language learners' linguistic competence and how it is constrained by principles of universal grammar. Offered fall semesters. Prerequisites: (LING:3010 or LING:5010) and (LING:3020 or LING:5020). Same as SLA:6452.
LING:6101 Cognitive Science of Language Proseminar I 3 s.h. Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6101, PSY:6101.
LING:6102 Cognitive Science of Language Proseminar II 3 s.h. Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6102, PSY:6102.

LING:6190 Topics in Comparative Romance Linguistics 3 s.h.
Comparative study of phonology, morphology, or syntax of the main Romance languages as informed by linguistic theory; diachronic or synchronic perspective. Taught in English. Recommendations: additional graduate coursework in linguistics. Same as SLA:6302, SPAN:6190.

LING:6415 Seminar: Language, Gender, and Sexuality 3 s.h.
Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as ANTH:6415, GWSS: 6415 .

LING:6483 Multilingual Education and Applied Linguistics 3 s.h. Introduction to research in language teaching and learning; theories and research in applied linguistics, sociolinguistics, anthropology, and psychology; fundamentals of second language acquisition, educational linguistics, applied linguistics, and methods used in teaching and learning second/foreign languages; consideration of applications and implications of research when reviewing multilingual education policy and practice.

| LING:6900 Master's Thesis | arr. |
| :--- | ---: |
| LING:7000 Seminar: Spanish Linguistics | $\mathbf{3}$ s.h. |
| Taught in Spanish. Same as SPAN:7000. |  |
| LING:7010 Advanced Syntactic Theory <br> Recent developments in syntax; comparison of theories, <br> argumentation, and uses of data. Prerequisites: LING:6010. Same as <br> SLA:7401. |  |

LING:7040 Topics in Linguistic Theory 2-3 s.h. Varied topics in linguistic theory; for graduate students.
LING:7090 Seminar: Problems in Linguistics 2-3 s.h.
Intensive study of theoretical and practical problems. Same as SLA:7404.
LING:7100 Special Projects arr.
LING:7900 PhD Thesis arr.

Linguistics, BA

## Linguistics, BA

Linguistics as a discipline inquires into the fundamental nature of human language. The ability to learn and speak a language is unique to humans. Language is intrinsic to the human mind, as well as integral to human society. The study of linguistics at the undergraduate level teaches students how to analyze languages, which are highly structured in ways in which most people are not consciously aware.

Undergraduate courses in the linguistics major teach a vocabulary of concepts and notation for analyzing language and a process of analytical reasoning for applying the concepts to forms from specific languages. Students who major in linguistics achieve an informed awareness of language that has applications in many other fields, as well as preparation for continuing in linguistics and other fields that focus on language. The curriculum also provides an introduction to the kind of arguments used in scientific reasoning, using data and techniques that are perhaps more easily accessible to undergraduates than the kind used in laboratory sciences.

Depending on their vocational goals, students planning to major in linguistics should consider furthering their studies either through the MA in linguistics with a professional focus or through the PhD , or they should complete a second major. Appropriate companion fields include languages, anthropology, computer science, English, mathematics, philosophy, psychology, sociology, speech pathology, and elementary and secondary education.

## Learning Outcomes

Students will have the ability to:

- identify generalizations in language data;
- apply theoretical concepts to the analysis of language;
- understand and use the scientific method;
- present a valid and sound argument; and
- identify the empirical shortfalls of a linguistic analysis and think creatively about alternative solutions.

## Requirements

The Bachelor of Arts with a major in linguistics requires a minimum of 120 s.h., including 30 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
The major in linguistics prepares students to do basic language analysis in syntax-semantics (sentence patterns and their relation to meanings) and phonology (sound patterns). Elective courses in a variety of subspecialties enable students to tailor the program to their own interests.

The BA with a major in linguistics requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Major Courses | 15 |
| Electives | 15 |

## Major Courses

Students must complete no fewer than 15 s.h. of requirements for the major at the University of Iowa, including LING:3005 Articulatory and Acoustic Phonetics, LING:3010 Syntactic Analysis, and LING:3020 Phonological Analysis.
The course LING: 1003 English Grammar does not count toward the linguistics major.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| LING:3001 | Introduction to Linguistics | 3 |
| LING:3005 | Articulatory and Acoustic <br> Phonetics | 3 |
| LING:3010 | Syntactic Analysis | 3 |
| LING:3020 | Phonological Analysis | 3 |
| One of these: |  | 3 |
| A course in language history, such as LING:3080 | 3 |  |
| A course in an old language (classical Greek, Latin, |  |  |
| Old English) |  |  |

## Electives

Electives are chosen in consultation with a faculty advisor ( 15 s.h.), bringing the total credit in the major to 30 s.h.

## TESL Emphasis

As part of the major in linguistics, students may complete an emphasis in teaching English as a second language (TESL). The TESL emphasis can prepare students to teach English to non-native speakers abroad. It also is excellent preparation for graduate work in second language acquisition. TESL emphasis students complete the requirements for the linguistics major listed above, using the following coursework to partially satisfy the electives requirement.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Both of these: | The Structure of English |  |
| LING:4040 | Methods of Teaching English as <br> a Second Language | 3 |
| LING:4050 | Child Language-Linguistic <br> One of these: | 3 |
| LING:3030 | Language Processes <br> LING:3670 | Undergraduate Practicum in <br> Teaching English as a Second <br> Language |
| LING:4090 | Practical Phonetics 3 | 3 |

## Combined Programs

## BA/MA in Linguistics (TESL Subprogram)

Undergraduate linguistics majors who plan to earn a master's degree in linguistics with a teaching English as a second language (TESL) emphasis have the opportunity to enroll in the Bachelor of Arts/ Master of Arts in linguistics degree program. Students in the BA/ MA program take selected graduate-level courses while they are still undergraduates and may count 12 s.h. of advanced coursework toward both degrees. Once students complete the requirements for the bachelor's degree, they are granted the BA, and they usually complete the MA one year later.

As part of the undergraduate major with TESL subprogram, BA/ MA students take LING:4040 The Structure of English, a course in language history, LING:3001 Introduction to Linguistics, and LING:3005 Articulatory and Acoustic Phonetics.

Students substitute some graduate-level coursework for typical undergraduate requirements. Instead of taking LING:3010 Syntactic Analysis to fulfill the BA syntax requirement, they take LING:5010 Introduction to Syntax, the first course in the mandatory two-course syntax sequence for MA students. Instead of taking LING:3020

Phonological Analysis to fulfill the BA phonology requirement, they take LING:5020 Introduction to Phonology, the first in the graduate two-course phonology sequence.

In addition, LING:4050 Methods of Teaching English as a Second Language and LING:6010 Syntactic Theory count toward both degrees and usually are taken during the final year of coursework for the BA.

To be admitted to the program, students must be working toward an undergraduate major in linguistics, must have completed at least 80 s.h. of undergraduate coursework (typically by the end of their fifth semester), and must have a grade-point average of at least 3.50

## Honors

## Honors in the Major

Students majoring in linguistics have the opportunity to graduate with honors in the major. Departmental honors students must complete the required coursework for the major and must prepare an honors thesis, working in consultation with their academic advisor. Departmental honors students must maintain a University of Iowa grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.50.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the linguistics major.

## Career Advancement

Linguistics majors have found work teaching English as a second language overseas. Unique teaching opportunities worth exploring include those with the Peace Corps and Teach For America.

A number of companies, such as Microsoft, Xerox, Apple, HewlettPackard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.

Some graduates choose to pursue advanced study in linguistics or other disciplines. Graduates with bachelor's degrees in linguistics may be admitted to certain graduate programs without additional academic preparation, such as anthropology, English literature, world language specializations, law, library science, philosophy, psychology, and sociology.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.
Before the fifth semester begins: LING:3001 Introduction to Linguistics and one additional linguistics course.

Before the seventh semester begins: three more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two more courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- Linguistics, BA [p. 753]
- Teaching English as a Second Language Emphasis [p. 754]

## Linguistics, Minor

## Requirements

The undergraduate minor in linguistics requires a minimum of 15 s.h. in linguistics courses, including at least 12 s.h. in University of Iowa courses. The minor must include the courses listed below. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor in linguistics requires the following coursework.

## Required Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| LING:3001 | Introduction to Linguistics | 3 |
| LING:3005 | Articulatory and Acoustic | 3 |
|  | Phonetics | 3 |
| LING:3010 | Syntactic Analysis | 3 |
| LING:3020 | Phonological Analysis | 3 |
| Additional approved course numbered 3000 or above |  |  |

Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Linguistics, MA

Graduate programs in the Department of Linguistics emphasize theory and research. Students interested in non-university careers also may take courses in applied linguistics and other fields as an option in the MA program.

The University of Iowa Department of Linguistics has particular strengths in phonology, syntax, and second language acquisition (SLA).

The phonology curriculum emphasizes current theoretical perspectives, including optimality theory, and the collection, description, and interpretation of novel phonological and phonetic data. Courses feature extensive work in data analysis and problem solving, focusing on construction and evaluation of phonological theories, particularly in light of new empirical data.

The syntax curriculum includes the dual emphases of empirical and theoretical perspectives. It offers a variety of foundational courses that build analytic and argumentation skills, as well as specialized coursework on current issues in syntactic theory. The courses consist of intensive work in problem solving. They combine discovery and description of new linguistic data with exploration of the implications of such facts in testing and constructing syntactic theories.
The curriculum in second language acquisition includes courses that provide an overview and analysis of current SLA research. Work focuses on experimental research investigating the influence of the first language, environmental and contextual factors, and related topics.

## Learning Outcomes

The master's degree in linguistics is intended for two different student groups. The MA with the Teaching English as a Second Language (TESL) focus is intended for students who wish to work as TESL professionals at the college or community college level. The MA degree targets students who want to pursue a PhD in linguistics or are interested in linguistics-related professional areas. Unless otherwise stated, the student learning outcomes are for both the MA degree and the MA degree with a TESL focus.

Students are expected to:

- be familiar with the basics of theoretical linguistic approaches to phonology and syntax, be able to analyze linguistic data using formal theoretical linguistics approaches, and be familiar with the basics of applied phonetics and approaches to multilingual language acquisition research;
- be familiar with the basics of empirical research in linguistics and be able to use appropriate software and methods to understand original research;
- be able to write a formal research paper in syntax and phonology demonstrating a critical evaluation of a particular problem or issue they have investigated;
- be familiar with the basics of multilingual language acquisition from a theoretical and empirical perspective;
- formulate a research project by the end of their third semester if they have articulated the goal of continuing to a PhD program in linguistics;
- possibly explore course options in areas related to their professional development if they are not planning on continuing to a PhD program in linguistics; and
- be able to teach English as a second language (ESL) to adult learners and understand the theory and practice behind ESL teaching and evaluation if they are TESL trained.

## Requirements

The Master of Arts program in linguistics requires a minimum of 37 s.h. of graduate credit. A student's advisor must approve all courses that count toward the degree. Students must maintain a cumulative grade-point average of at least 2.75 .

A student with a linguistics background may waive up to 6 s.h. of coursework if the department determines that the student completed comparable work before enrolling in the program.

## Core Courses

All MA students complete the following set of required core courses in phonetics, phonology, syntax, and language acquisition (total of 22 s.h.).

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| LING:3005 | Articulatory and Acoustic |  |
|  | Phonetics | 3 |
| LING:5000 | Proseminar: Morphosyntax | 1 |
| LING:5010 | Introduction to Syntax | 3 |
| LING:5020 | Introduction to Phonology | 3 |
| LING:6010 | Syntactic Theory | 3 |
| LING:6020 | Phonological Theory | 3 |
| LING:6080 | Topics in Second Language | 3 |
|  | Acquisition |  |
| One of these: | Linguistic Structures | 3 |
| LING:6040 | Language Universals Linguistic | 3 |
| LING:6050 | Typology |  |

## Electives

Students also complete 15 s.h. of Department of Linguistics coursework, which may include a 9 s.h. focus (e.g., teaching English as a second language).

## Admission

Applicants to the MA program in linguistics must submit an application to the Graduate College, including three letters of recommendation. Applications for admission should be submitted as early as possible for the following academic year.
Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Applications should be received by Jan. 15 for the following academic year in order to have priority in consideration for financial aid. Applications received after Jan. 15 are considered for remaining aid. Early submission of an application is strongly encouraged.
Applications for awards are considered only for students whose application for admission is complete.

## Career Advancement

A master's degree with teaching English as a second language (TESL) emphasis qualifies graduates to teach English as a second language in the United States or overseas. Unique teaching opportunities worth exploring include those with the Peace Corps and Teach For America.

A number of companies, such as Microsoft, Xerox, Apple, HewlettPackard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
b Complete 15 s.h. which may include a 9 s.h. focus. Work with faculty advisor to determine coursework and sequence.

## Linguistics, PhD

The Department of Linguistics has particular strengths in multilingual language acquisition, phonology, and syntax. Students are encouraged to take courses in a wide variety of departments and programs across the university.
The phonology curriculum emphasizes current theoretical perspectives, including optimality theory, and the collection, description, and interpretation of novel phonological and phonetic data. Students also may study phonological acquisition and development. Courses feature extensive work in data analysis and problem solving, focusing on construction and evaluation of phonological theories, particularly in light of new empirical data.
The syntax curriculum includes the dual emphases of empirical and theoretical perspectives. It offers a variety of foundational courses that build analytic and argumentation skills, as well as specialized coursework on current issues in syntactic theory. The courses consist of intensive work in problem solving. They combine discovery and description of new linguistic data with exploration of the implications of such facts in testing and constructing syntactic theories.
The acquisition curriculum emphasizes multilingual language syntax and phonological development in simultaneous, sequential, and late learners across a variety of learning contexts. Students have research opportunities that provide an overview and analysis of current language acquisition research.
PhD students may enroll in the Certificate in Cognitive Science of Language [p. 1631] program of study offered through the Graduate College. This certificate provides students with multidisciplinary training in cognitive science-a field that complements linguistics in many diverse ways-and the opportunity to work closely with faculty and graduate students from other departments across campus.

## Learning Outcomes

Students will:

- be familiar with the fundamental concepts of phonology, syntax, and an additional specialization area typically focused on an aspect of language acquisition in multilingual populations;
- conduct original research in the field of linguistics by writing two comprehensive exam papers, of publishable quality, to be presented to the department no later than their third year in the program;
- conduct original research that will culminate in a dissertation, defended by an oral exam;
- gain experience with experimental methods and analysis through participation in faculty-run labs and discussion groups across campus that focus on language acquisition and development;
- expand their understanding of how the fundamental concepts of linguistics relate to those of cognate areas determined with their advisor, such as psychology, education, anthropology, and computer science, providing them with a broad perspective on human language;
- take courses in statistical methods and have a clear understanding of how to carry out and interpret statistical analyses at an intermediate to advanced level;
- be encouraged to submit abstracts to conferences (national and international) to disseminate their research and to work towards publishing their comprehensive papers before graduation; and
- be encouraged to participate in cocurricular activities outside of their regular coursework.

Requirements
The Doctor of Philosophy program in linguistics requires a minimum of 72 s.h. of graduate credit, or 73 s.h. for graduates of the MA nonthesis program. Students must maintain a cumulative gradepoint average of at least 3.00 . The highly selective program provides students with a strong foundation in theoretical linguistics and helps them develop the skills they will need to explore the close relationship between linguistics and related disciplines.

The PhD with a major in linguistics requires the following coursework.

## Core Courses

Course \# Title Hours

All of these (18 s.h.):
One syntax course numbered 5000 or above
One phonology course numbered 5000 or above
Two or more courses numbered 5000 or above, as approved by advisor

## Specialty Area Courses

An approved specialty area (18 s.h.) also is required. In addition, students whose work is focused on a particular language are strongly encouraged to take courses in or on that language (e.g., French, Spanish, Japanese, Chinese, Korean linguistics), in consultation with their advisor.

## Additional Requirements

To pass the comprehensive examination for the PhD , a student must gain approval for two papers of publishable quality. One must be in phonology or syntax. The other should be in an area of the student's choosing and must be distinct from the area of the first paper.
An oral defense of the dissertation and three years in residence at the University of Iowa are required. In addition, all candidates are required to gain supervised experience in teaching and research.

## Admission

Applicants to the graduate program in linguistics must submit an online application to the Graduate College. In addition to three letters of recommendation, the application requires a statement of purpose that outlines the student's goals and planned area of research and identifies the faculty member(s) with whom the student would like to work.

Applicants also must provide written evidence of the ability to do advanced work in linguistics. This may include one or more of the following:

- a short squib-style paper (short notes consisting of 5,000 words maximum) that makes a specific point by calling attention to a theoretically unexpected observation about language without the need for a developed analysis or solution;
- a final course paper; and
- a research project outlining the area of investigation the applicant wishes to pursue.
Applications must be received no later than Jan. 15 for admission the following fall.
Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Applications should be received by Jan. 15 for the following academic year in order to have priority in consideration for financial aid. Applications received after Jan. 15 are considered for remaining aid. Early submission of an application is strongly encouraged.

Applications for awards are considered only for students whose application for admission is complete.

## Career Advancement

Linguistics majors have found work teaching English as a second language overseas. Unique teaching opportunities worth exploring include those with the Peace Corps and Teach For America.

A number of companies, such as Amazon, Microsoft, Xerox, Apple, Hewlett-Packard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

a Beyond the MA degree course requirements, the PhD program in linguistics has few set requirements. Upon acceptance to the program, students work closely with their faculty advisor to determine and select appropriate graduate level coursework that best suits their goals.
b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
c Work with faculty advisor to determine appropriate coursework and sequence.
d 18 s.h. must be in an approved specialty area; if relevant to research, students may complete coursework in an additional language. Work with faculty advisor to determine appropriate elective coursework and sequence.
e Prepare first Comprehensive Exam paper.
f To pass the Comprehensive Exam for the PhD, a student must submit two papers of publishable quality and present each orally as part of the departmental colloquium. One must be in phonology or syntax. The other should be in an area of the student's choosing and must be distinct from the area of the first paper.
g Prepare second Comprehensive Exam paper.
h In the semester following the Comprehensive Exam, but no later than the sixth semester of enrollment in the PhD program, the student presents a Dissertation Prospectus to the Dissertation Committee.
i Begin preparing Dissertation Prospectus in consultation with Dissertation Committee.
j Set-up Dissertation Committee in consultation with faculty advisor
k Prepare Dissertation Prospectus defense.
1 Must be approved by Dissertation Committee.
mOral dissertation defense.

# Magid Center for Writing

## Undergraduate certificate: writing

Faculty: https://magidcenter.uiowa.edu/people
Website: https://magidcenter.uiowa.edu/
The Magid Center for Writing takes seriously its mission to offer all undergraduate and nondegree-seeking students at the University of Iowa (regardless of major or area of study) the unique opportunity to enhance their academic, creative, and professional communication skills by focusing on the written word. In addition to sponsoring the Certificate in Writing [p. 765], the center also publishes the student literary magazines Ink Lit Mag and Earthwords; advises and coordinates the publication of Fools Magazine, Boundless, Snapshots, and Wilder Things; supports the Iowa Writers Living Learning Community (in association with University Housing and Dining); and is home to the Iowa Youth Writing Project (a nonprofit K-12 literacy outreach endeavor), the Iowa Young Writers' Studio (a selective summer camp for aspiring high school writers), and the Iowa Summer Writing Festival (a noncredit, open enrollment creative writing program for adult learners).

The Magid Center for Writing was established in 2011 through a gift from Marilyn Y. Magid and family, in the name of the late Frank Magid, who believed that writing was a key component of a liberal arts and sciences education and a successful career.

The Certificate in Writing is administered by the College of Liberal Arts and Sciences [p. 17].

Learn more about the university's wealth of writing resources by visiting The Writing University website, and read about the university's central role in Iowa City's designation as a UNESCO City of Literature.

## College Program

## Certificate in Writing

The Certificate in Writing [p. 765] (offered on campus and online) enables all undergraduate and nondegree-seeking students the opportunity to benefit from the university's wide-ranging writing programs and resources by pursuing a concentration in writing related to their academic success, career goals, or personal interests.

## Precollege Program

## Iowa Young Writers' Studio

Website: https://iyws.clas.uiowa.edu/
The Iowa Young Writers' Studio is a creative writing program for high school students at the University of Iowa, housed in the Magid Center for Writing. The Summer Residential Program, offered both in-person (on the UI campus) and online, gives promising high school-age creative writers the opportunity to spend two weeks studying fiction, poetry, creative nonfiction, TV writing, or playwriting with teachers
and counselors from the Iowa Writers' Workshop and other renowned UI writing programs.

Students in the Summer Residential Program share their writing with teachers and peers, receive constructive critique, participate in writing exercises and activities, and attend readings and literary events. The Iowa Young Writers' Studio operates under the philosophy that the study of creative writing is essential not only to students who want to pursue writing as a career, but to any student hoping to function effectively in a writing-centric world. The studio encourages students to explore different genres and approaches, and to express themselves freely, without censorship. Students are taught to be generous, respectful critics.
Students who have completed grades 10,11 , or 12 are eligible to attend the Summer Residential Program. Those interested submit an application, a creative writing sample, a statement of purpose, a high school transcript, and a letter of recommendation. Applications are taken online during the first week of February for the following summer.

The Iowa Young Writers' Studio also offers six-week online creative writing courses for high school students. These courses are offered in January-February and in late June-early August. The courses are asynchronous, so students can complete the assignments and participate in the discussions on their own schedules. The courses offer students the chance to study creative writing with graduates of the Iowa Writers' Workshop and other UI writing programs, and to connect with other high school-age writers around the country and the world. Students who complete the course and meet all the requirements will receive a certificate of completion. Applicants must be enrolled in high school and have a grade-point average of 3.00 or higher. Applicants must submit a statement of purpose, a teacher statement of support, a parental permission form, and a transcript. Applications are taken online in the fall (for January-February courses) and in the spring (for June-August courses).

Visit the Iowa Young Writers' Studio website for detailed information about the summer program and online courses.

## K-12 Opportunities

## Iowa Youth Writing Project

Website: https://iywp.org/
The Iowa Youth Writing Project (IYWP) is an arts outreach organization based at the University of Iowa that empowers, inspires, and engages $\mathrm{K}-12$ youth throughout the state using language arts and creative thinking.

For more information or to get involved, contact the Iowa Youth Writing Project.

## Adult Opportunities

## Iowa Summer Writing Festival

Website: https://iowasummerwritingfestival.org
The Iowa Summer Writing Festival is a noncredit creative writing program for adults. The festival brings some 1,200 writers to the University of Iowa campus each summer to participate in weeklong, two-week, and weekend workshops across the genres, as well as online workshops offered throughout the year. Writers at all levels are welcome.

Participants choose from more than 140 workshops in novel writing, short fiction, hybrid forms, poetry, memoirs, essays, playwriting, screenwriting, travel writing, humor, writing for children, and more. Festival classes are conducted as workshops, where the primary texts are participants' own creative work.

Weeklong workshops meet for three hours each day, Monday through Friday, and include individual student/instructor conferences. Weeklong sessions feature a daily lecture series on aspects of literary craft, as well as evening readings and other events. Weekend sessions meet for eight hours over two days. Visit the Iowa Summer Writing Festival website for information about workshops, schedules, and registration. Program information for the coming summer is posted in mid-January.

## Programs

## Undergraduate Program of Study Certificate

- Certificate in Writing [p. 765]

## Courses

## Magid Center for Writing Courses

## WRIT:1003 English Grammar

Recognizing nouns, verbs, adverbs, adjectives, and other parts of speech; sentence analysis; subjects, objects; types of sentences; passives, relative clauses; for students with little or no background in English grammar study. Does not count toward the linguistics major. Same as LING: 1003.

## WRIT:1030 English Words

3 s.h.
English word formation, basic units of English vocabulary; vocabulary skill expansion; word structure. Same as LING:1030.
WRIT: 1500 Writing Commons: A Community of Writers 1-3 s.h. Varied topics focused on building community and enhancing writing skills through generative exercises, long-form essay and hybrid assignments, workshops, sharing work in public, reading and discussing works of published authors.

## WRIT:1600 Fast Fixes: Improving Your Writing in Six Short

 WeeksVaried topics focused on improving common writing problems or specific aspects of craft. Prerequisites: (RHET:1040 and RHET:1060) or RHET:1030.
WRIT:1740 Writing Strategies: Word Origins and Word Choice

3 s.h.
Study of words, their meanings, and their origins combined with writing; words and word histories; role of English language in the world. GE: Literary, Visual, and Performing Arts. Same as CLSA: 1740 .

WRIT:2100 Writing and Community Outreach
3 s.h.
Service-learning course offered in coordination with local community organizations and nonprofits; students critically consider ways in which written content-creative, promotional, and logistical-can help ensure outreach initiatives prioritize inclusivity; assignments include readings and discussions on community outreach and social justice issues, written reflections on relationships between self and community to enhance interdisciplinary perspectives, and volunteering time and energy with a local organization or nonprofit group in meaningful ways. GE: Diversity and Inclusion.

## WRIT:2300 Writing Toward Empathy

3 s.h.
Students practice personal narrative, research writing, and professional communication skills to actively understand relevant social justice issues in Iowa; diversity, equity, and inclusion-based writing course offered in coordination with the Iowa Youth Writing Project.

WRIT:2900 Book Design for Publishing
3 s.h.
Introduction to the major aspects of book design, including typography, layout, standard industry software, discussion of trends in the field. Same as ARTS:2900, ENGL:2900, UICB:2900.
WRIT:2991 Publishing I: Introduction to Literary Publishing

3 s.h.
Introduction to major aspects of book and literary publishing, including evaluating submissions, copy editing, production calendars, and planning marketing campaigns; discussion of industry trends. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Same as CNW:2991.

WRIT:2992 Publishing II: Advanced Literary Publication 3 s.h. Hands-on experience of entire literary publishing process including reading submissions, selecting texts, editing, layout and design, marketing and promotion, and book release. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CNW:2991. Same as CNW:2992.

## WRIT:3000 Publishing Practicum: The Iowa Chapbook

## Prize

3 s.h.
Experiential learning in the field of publishing through the Iowa
Chapbook Prize; students gain knowledge in all aspects of publishing world including assessing submissions, selecting manuscripts, editing and proofreading, layout and design, marketing and promotion, and book release.

## WRIT:3005 Professional and Creative Business

Communication
3 s.h.
Solid foundation for creative and professional communication in today's modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semesterlong creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision-making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as CW:3005, INTD:3005.
WRIT: 3080 History of the English Language
3 s.h.
Development of phonological and grammatical structure of English, from Old to Modern English; selected issues in the history of England. Same as LING:3080.

## WRIT:3325 Iowa Writers' Room

3 s.h.
Experiential learning in television writing field; first-hand experience as part of a traditional television writers' room-selecting material and show topics, pitching ideas, collaboratively breaking story, and writing and workshopping scripts for a limited series television show of student's choosing; includes instruction and class visits by acclaimed industry insiders. Same as THTR:3325.
WRIT:3435 Intersectional Identities: Writing About the Twenty-first-Century Self 3 s.h.
Analysis of intersections between systems of oppression, domination, and discrimination; focus on how writers of color represent those connections and critical articulation of students' lived experience of them. Same as LATS:3435.

WRIT:3526 The Business of Writing
3 s.h.
Students learn how to hone their writing skills and successfully transition into the workforce; objectives include developing the ability to pitch articles, establish personal brands, and navigate the world of freelance writing and editing; students network with professionals and explore writing-centric jobs.

Sentences: how they work, what they do; how sentences can help writing, expand understanding of prose style, stretch options. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative. Same as CNW:3632.

WRIT:3742 Word Power: Building English Vocabulary $\mathbf{3}$ s.h. Analysis of unfamiliar English words through knowledge of the history and meaning of word parts. Same as CLSA:3742.

## WRIT:3900 Writing: Undergraduate Internship <br> 1-3 s.h.

Professional and/or creative experience; students arrange facultyapproved internship. Requirements: undergraduate standing and minimum of 24 s.h. of coursework with at least 12 s.h. in University of Iowa courses.

WRIT:3910 Iowa Youth Writing Project Internship 1 s.h. Internship with the Iowa Youth Writing Project. Requirements: application and acceptance as an Iowa Youth Writing Project intern.

## WRIT:4000 Independent Capstone Project 1-3 s.h.

Capstone requirement for the Certificate in Writing through Program Option B. Requirements: junior or higher standing.
WRIT:4001 Guided Capstone Portfolio 1 s.h.
Capstone requirement for Certificate in Writing through Program Option A. Recommendations: junior or higher standing.
WRIT:4002 Scientists and Writers 1 s.h.
Science communication and collaborative skills that are highly sought after by employers in STEM firms including pharmaceutical firms, biotech start-ups, and many others; these same skills essential for reporting on, writing about, or translating science in any area; studiostyle format. Same as CHEM:4000, JMC:4000.

## WRIT:4100 Iowa Youth Writing Project Mentorship

## Practicum

1-3 s.h.
Mentor new volunteers on a weekly basis at Iowa Youth Writing Project (IYWP) program sites; work one-on-one with volunteers, write and review lesson plans, provide resources and feedback for volunteers, lead workshops for children. Requirements: WRIT:2100 or completion of Iowa Youth Writing Project internship.
WRIT:4745 The Sentence: Strategies for Writing
3 s.h.
Writing dynamic, cogent, and grammatically correct sentences; effectively communicating ideas; writing with clarity and confidence; review of grammar and various types of sentences; building complexity by adding adverbial, subordinate, and connective clauses to simple sentences; how rhythm, syntax, and word order expand the meaning of a sentence; application and appreciation. GE: Engineering Be Creative. Same as CW:4745.

WRIT:4760 The Art of Revision: Rewriting Prose for Clarity and Impact

3 s.h.
Writing and rewriting of short stories and essays; specific choices to help writing reach its full potential; examination of first drafts and making strategic or radical decisions on what needs to happen in subsequent drafts in order for writing to better match original intentions; students gain insight from peers on where first drafts are succeeding or falling short, and write second and third drafts of short stories and personal narratives; structural and aesthetic choices. GE: Engineering Be Creative. Same as CW:4760.

## Writing, Certificate

## Learning Outcomes

Students who complete the Certificate in Writing develop:

- skills in the craft of writing, such as the ability to write clearly and concisely, control of mechanics and style, and the ability to communicate with particular audiences for specific purposes;
- skills in planning and using strategies to begin writing, overcome obstacles, obtain feedback, revise their work, and present their writing in public venues; and
- competence in discussing writing.

## Requirements

The undergraduate Certificate in Writing requires a minimum of 19 s.h. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.
Certificate students explore and develop their own writing skills in a wide range of genres and for varied purposes, including creative writing (fiction, nonfiction, poetry); writing for the professions, such as the arts, business, journalism, or science; writing for organizations; and writing related to personal interests.
The Certificate in Writing also is available online for students unable to attend classes on campus, including professionals, distance education students, nondegree-seeking students, and international students. More information about the online Certificate in Writing is available at the Magid Center for Writing website. Some courses below are available online; more online courses are added frequently.
Coursework for the certificate includes a minimum of 9 s.h. in core courses, a minimum of 9 s.h. in focused electives, and a minimum of 1 s.h. in a capstone course. Students may count a maximum of 6 s.h. earned for a major, a minor, or another certificate toward the certificate in writing. Up to 6 s.h. of transfer credit is allowed. For questions regarding the double counting and transfer credit policies, contact the director.
Certificate students have the opportunity to participate in the Iowa City writing community through activities such as attending readings and lectures; presenting their own work in public; working with professional journals, newspapers, or other publications; and volunteering or interning with the Iowa Youth Writing Project literacy outreach program.

Certificate in Writing students may not earn the BAS degree with the creative writing emphasis.

See "Professional Track" below for information and requirements regarding the literary publishing track for the Certificate in Writing.

The Certificate in Writing requires the following work.

| Requirements | Hours |
| :--- | :--- |
| Core Courses | 9 |
| Focused Electives | 9 |
| Capstone Course | 1 |

## Core Courses

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| This course: |  |  |
| WRIT:1500 | Writing Commons: A Community of Writers (online or on campus) | 3 |
| 6 s.h. from these: |  |  |
| WRIT:1003/ <br> LING:1003 | English Grammar (online or on campus) | 3 |
| WRIT:1600 | Fast Fixes: Improving Your Writing in Six Short Weeks (to count as a core course, must be taken three times for 1 s.h. each with different topics) | 3 |
| WRIT:3080/ <br> LING:3080 | History of the English Language | 3 |
| WRIT:3632/ <br> CNW:3632 | Prose Style | 3 |
| WRIT:4745/CW:4745 | The Sentence: Strategies for Writing (online or on campus) | 3 |
| WRIT:4760/CW:4760 | The Art of Revision: Rewriting Prose for Clarity and Impact (online or on campus) | 3 |
| The 6 s.h. may include one of these: |  |  |
| WRIT:1030/ <br> LING:1030 | English Words | 3 |
| WRIT:1740/ <br> CLSA:1740 | Writing Strategies: Word Origins and Word Choice | 3 |
| WRIT:3742/ CLSA:3742 | Word Power: Building English Vocabulary (online or on campus) | 3 |

## Focused Electives

Students earn a total of at least 9 s.h. in focused electives, which they select from courses in at least two of the following categories (maximum of 6 s.h. from any one category).

- Writing for the Professions [p. 765]
- Writing and the Literary Arts [p. 766]
- Writing and the Media [p. 767]
- Writing in Context [p. 767]
- Student-Designated Writing-Intensive Course [p. 767]

Each focused elective course may be used to fulfill only one certificate requirement, even if the course is listed in more than one category below. Some of these courses have prerequisites and other requirements for registration; students must complete a course's prerequisites and meet its registration requirements before they may register for the course.

## Writing for the Professions

Art

| Course \# | Title | Hours |

## Student-Designated Writing-Intensive Course

Students may petition to count a course not listed above toward their elective requirements. Petitions must be submitted online and receive prior approval from the Certificate in Writing advisor. Students may also complete WRIT:4000 Independent Capstone Project or WRIT:3900 Writing: Undergraduate Internship
Students may also request permission to count a maximum of 3 s.h. earned in a non-writing intensive course numbered 3000 or above as credit toward the focused elective requirement. For this option, students must propose a writing-related project that extends the
writing focus of their chosen course. They must have the approval of the faculty member teaching the course and the writing certificate advisor.

## Capstone Course

Each student must earn 1 s.h. in a capstone course that serves as a culmination of their Certificate in Writing.
Guided Capstone Portfolio (WRIT:4001, 1 s.h.) is an asynchronous, online, portfolio-based class that allows students the chance to direct their own academic, professional, and creative learning experience by asking them to think critically about where they have come from and where they are headed. Students take the guided capstone portfolio course during the semester they plan to complete the writing certificate. In the course, students revise a piece of their writing, generate one new piece of writing, participate in workshops and critiques, and create a digital portfolio of their work (five pieces total). Their final project also includes an essay that reflects on the work created and the skills gained while pursuing the writing certificate.

## Professional Track

## Literary Publishing

Students considering a career in literary publishing can learn the ins and outs of the industry and gain a competitive edge by enrolling in the literary publishing track. This unique educational experience provides a substantial understanding of the editorial, design, and managerial work essential to this profession. Students who enroll in the track complete the certificate's core courses (see "Core Courses" above) and fulfill the focused elective requirement by taking a series of two publishing-specific courses and either WRIT:2900 Book Design for Publishing or WRIT:3000 Publishing Practicum: The Iowa Chapbook Prize (see "Literary Publishing Track Focused Electives" below). Finally, they will take the WRIT:4001 Guided Capstone Portfolio, where they will complete a capstone portfolio drawing from their skills gained while pursuing the literary publishing track.
The literary publishing track, interdisciplinary in scope, is a collaboration between the Magid Center for Writing, the Nonfiction Writing Program in the Department of English, the School of Art and Art History [p. 90], and the University of Iowa Center for the Book [p. 1624]. For more information, contact the Magid Center for Writing.

Students may earn either the Certificate in Writing with the literary publishing track or the Bachelor of Arts in English (publishing track) or the Bachelor of Arts in English and creative writing (publishing track). Students may not earn the publishing track in both the major and in the writing certificate, and credit earned toward the English or English and creative writing publishing track cannot be counted toward the Certificate in Writing literary publishing track. Students may double count a maximum of 6 s.h. earned for another major, minor, or certificate toward the certificate in writing literary publishing track.

## Literary Publishing Track Focused Electives

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Both of these: |  | 3 |
| WRIT:2991/ | Publishing I: Introduction to |  |
| CNW:2991 | Literary Publishing | 3 |

| ENGL:2900/ |  |  |
| UICB:2900 |  |  |

## Career Advancement

Recent Certificate in Writing graduates have gone on to work in various fields that are wide-ranging in scope and background. Graduates have found work as teachers, copywriters, editors and publishers, government administrators, freelance journalists, magazine writers, and more. Additionally, graduates often go on to pursue professional programs of study and advanced degrees in law and writing, among other fields. Finally, many recent graduates have found internships during and after their time in the program with publishing companies and magazines across the country.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

| Total Hours | 22-24 |

a Students must complete 9 s.h. of core courses from the list of approved options. See General Catalog for more information.
b Students earn a total of at least 9 s.h. in focused electives, which they select from courses in at least two of the following categories (maximum of 6 s.h. from any one category): Writing for the Professions, Writing and the Literary Arts, Writing and the Media, Writing in Context, and Student-Designated Writing-Intensive Course.
c Students choose from WRIT:4001, WRIT:4000, WRIT:3900, or petition to count an additional 3 s.h. writing course approved as a core or focused elective course as their capstone.

## Mathematics

## Chair

- Ryan D. Kinser

Undergraduate major: mathematics (BA, BS)
Undergraduate minor: mathematics
Graduate degrees: MS in mathematics; PhD in mathematics
Faculty: https://math.uiowa.edu/people/faculty
Website: https://math.uiowa.edu
Mathematics is a basic tool for understanding modern society as well as a crucial requirement for many careers in science, engineering, business, and the professions. Research in this living, dynamic subject is at the highest level in history.

An undergraduate degree in mathematics prepares students for a variety of careers in government and business, for secondary teaching, for graduate study, and with proper planning, for a variety of professional programs. Graduate study is advisable for some business and governmental positions and for college and university teaching and research. The department also offers a minor.

## Programs

Undergraduate Programs of Study

## Majors

- Major in Mathematics (Bachelor of Arts) [p. 777]
- Major in Mathematics (Bachelor of Science) [p. 783]

## Minor

- Minor in Mathematics [p. 788]

## Graduate Programs of Study

## Majors

- Master of Science in Mathematics [p. 789]
- Doctor of Philosophy in Mathematics [p. 791]

Credit earned in MATH:0100 Basic Algebra I does not count toward graduation.

The sequences MATH:1850 Calculus I and MATH:1860 Calculus II, and MATH: 1550 Engineering Mathematics I: Single Variable Calculus and MATH:1560 Engineering Mathematics II: Multivariable Calculus, are similar, but they cover the material in a different order and with different emphases. Students who have taken the first semester of one sequence must consult with their advisor before taking the second semester of the other sequence.

Students who consider taking MATH:1860 Calculus II after MATH: 1350 Quantitative Reasoning for Business, MATH: 1380 Calculus and Matrix Algebra for Business, or MATH: 1460 Calculus for the Biological Sciences must consult with their advisor; they also must take a math placement test.

Graduate students may not earn graduate credit in courses numbered below 3000 .

Graduate students in mathematics must have departmental approval to earn credit for any of the courses numbered between 3000 and 4999. Analysis and computation graduate students in mathematics may not
earn credit for MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra. Graduate students in other disciplines may earn credit for any course numbered 3000 or above.

## Mathematics Courses

MATH:0100 Basic Algebra I
3 s.h.
Percents, ratio and proportion, algebraic expressions and operations, simple products, linear and quadratic equations, simultaneous equations, exponents and radicals; emphasis on verbal problems.

## MATH:1000 First-Year Seminar

1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
MATH:1005 College Algebra
4 s.h.
Algebraic techniques, equations and inequalities, functions and graphs, exponential and logarithmic functions, systems of equations and inequalities. Prerequisites: MATH:0100 with a minimum grade of C- or ALEKS score of 30 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

## MATH:1010 Trigonometry

3 s.h.
Trigonometric functions, solutions of right and oblique triangles, complex numbers. Prerequisites: MATH:1340 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH: 1005 with a minimum grade of C- or MATH:1380 with a minimum grade of Cor ALEKS score of 55 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

## MATH:1020 Elementary Functions

4 s.h.
Functions, relations, coordinate systems; properties and graphs of algebraic, trigonometric, logarithmic, exponential functions; inverse trigonometric functions; properties of lines, conic sections. Prerequisites: MATH: 1010 with a minimum grade of C - or MATH: 1005 with a minimum grade of C- or MPT Level 3 score of 9 or higher or ALEKS score of 60 or higher or MATH: 1340 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1120 Logic of Arithmetic
4 s.h.
Mathematical and conceptual foundations of the natural numbers used in elementary school arithmetic teaching; multiple algorithmic approaches to arithmetic and its mathematical and contextual relationships, extensions to integers, rational and irrational numbers, multiple representations. Prerequisites: ALEKS score of 30 or higher or MATH: 1460 with a minimum grade of C- or MATH: 1010 with a minimum grade of C- or MATH: 1550 with a minimum grade of C or MATH:1340 with a minimum grade of C- or MATH: 1860 with a minimum grade of C - or MATH: 1005 with a minimum grade of C- or MATH: 1020 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH: 1850 with a minimum grade of C- or MATH: 1380 with a minimum grade of C- or MATH: 1440 with a minimum grade of C- or MATH:0100 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1140 Mathematical Basis of Elementary Geometry Points, lines, planes; measurement, two- and three-dimensional coordinate geometry, transformational geometry and vectors; applications of geometry to solve real-world problems. Prerequisites: MPT Level 3 score of 9 or higher or MATH:1850 with a minimum grade of C- or ALEKS score of 30 or higher or MATH: 1010 with a minimum grade of C- or MATH: 1005 with a minimum grade of Cor MATH:1380 with a minimum grade of C- or MATH:0100 with a minimum grade of C- or MATH: 1440 with a minimum grade of Cor MATH: 1460 with a minimum grade of C- or MATH: 1340 with a minimum grade of C- or MATH: 1860 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or MATH:1550 with a minimum grade of C-. Requirements: elementary teacher certificate candidacy or certification. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

## MATH:1210 Diverse Perspectives in the Mathematical

 SciencesExploration of the wide diversity of cultures and individuals who have contributed to mathematical sciences; experiences and cultural messages that have shaped our own mathematical attitudes; numerous mathematical contributions of women, people of color, and members of other underrepresented groups-their accomplishments, challenges they faced, and factors that led to their success; revisiting and revising our own attitudes toward mathematics in light of what is read to incorporate a larger vision of mathematics and of people who do mathematical work. GE: Diversity and Inclusion.

## MATH:1250 Mathematics for Arts and Humanities 3 s.h.

Introduction to mathematical concepts via their applications in arts and humanities: mathematical patterns in nature; mathematics in ecology, religion, history, and linguistics; cryptology; modeling with mathematics; The Matrix directed by the Wachowskis; and Star Wars directed by George Lucas; students solve basic mathematical problems involving quadratic equation, exponential function, matrices, permutations, and combinatorics; application of mathematical logic to solve various mathematical games; application of mathematical concepts to real life problems (e.g., data interpretations); understanding the mathematics behind games, ciphers, and patterns. GE: Quantitative or Formal Reasoning.
MATH:1260 PokeMath: The Mathematics of Pokemon Go 3 s.h. Use of mathematics to take Pokémon Go play to the next level; exposure to a range of topics central to applied mathematics including set theory, functions, probability and statistics, rates of change, and game theory; requires a mobile device with the game Pokémon Go. Pokémon Go is a registered trademark of the Pokémon Company. GE: Quantitative or Formal Reasoning.

## MATH:1340 Mathematics for Business

4 s.h.
Algebraic techniques, functions and functional models, exponential and logarithmic functions and models, linear programming, informal introduction to calculus; examples and applications from management, economic sciences, related areas. Prerequisites: MATH:1005 with a minimum grade of C- or MPT Level 3 score of 9 or higher or ALEKS score of 45 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1350 Quantitative Reasoning for Business 4 s.h.
Algebraic techniques and modeling; quantitative methods for treating problems that arise in management and economic sciences; topics include algebra techniques, functions and functional models, exponential and logarithmic functions and models, and a thorough introduction to differential calculus; examples and applications from management, economic sciences, and related areas; for students planning to major in business. Prerequisites: MATH:1005 with a minimum grade of C- or MATH: 1340 with a minimum grade of Cor ALEKS score of 55 or higher or MPT Level 3 score of 9 or higher. GE: Quantitative or Formal Reasoning.
MATH:1380 Calculus and Matrix Algebra for Business $\mathbf{4}$ s.h. Quantitative methods for treating problems arising in management, economic sciences, related areas; introduction to differential and integral calculus, systems of linear equations and matrix operations. Prerequisites: MATH: 1340 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1020 with a minimum grade of C- or ALEKS score of 65 or higher or MATH: 1440 with a minimum grade of C- or MATH: 1005 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

## MATH:1440 Mathematics for the Biological Sciences <br> 4 s.h.

Relations, functions, coordinate systems, graphing, polynomials, trigonometric functions, logarithmic and exponential functions; discrete mathematics, probability; examples and applications from biological sciences. Prerequisites: MATH:1005 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or ALEKS score of 55 or higher or MATH: 1010 with a minimum grade of C- or MPT Level 3 score of 9 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.
MATH:1460 Calculus for the Biological Sciences 4 s.h.
One-semester survey of calculus for students in biological or life sciences; nontheoretical treatment of differential and integral calculus; brief introduction to differential equations and probability with calculus, with applications to the life sciences. Prerequisites: MATH:1440 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or (MATH: 1005 with a minimum grade of Cand MATH: 1010 with a minimum grade of C-) or ALEKS score of 70 or higher or (ALEKS score of 55 or higher and MATH:1010 with a minimum grade of C-) or (MATH:1010 with a minimum grade of Cand MATH: 1340 with a minimum grade of C-) or MPT Level 3 score of 9 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

## MATH:1550 Engineering Mathematics I: Single Variable

## Calculus

4 s.h.
Limits, derivatives, max/min, other applications, mean-value theorem, approximating functions, concavity, curve sketching, exponential models; Riemann sums, fundamental theorem; integration techniques, improper integrals, approximations. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH: 1005 with a minimum grade of C-) or MPT Level 3 score of 9 or higher or ALEKS score of 75 or higher or (MATH:1380 with a minimum grade of C- and MATH: 1010 with a minimum grade of C-) or MATH: 1020 with a minimum grade of C- or MATH: 1460 with a minimum grade of Cor (MATH: 1010 with a minimum grade of C- and ALEKS score of 55 or higher) or (MATH: 1340 with a minimum grade of C- and MATH:1010 with a minimum grade of C-). Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

## MATH:1560 Engineering Mathematics II: Multivariable

 Calculus4 s.h.
Vector geometry; functions of several variables; polar coordinates; partial derivatives, gradients, directional derivatives; tangent lines and planes; max/min/parametric curves, curvilinear motion; multiple integrals; vector fields, flows; integration on curves, work; divergence, flux, Green's theorem. Prerequisites: MATH: 1550 with a minimum grade of C- or MATH: 1850 with a minimum grade of C- or MPT Level 3 score of 15 or higher. Requirements: score of 4 or higher on AP Calc (AB) exam, or score of 4 or higher on AP Calc (BC) exam.

## MATH:1850 Calculus I

4 s.h.
Fundamental concepts, limits, methods, and techniques of differential calculus of a single variable; definite and indefinite integrals, substitution rule, fundamental theorem of calculus; applications including graphing, extreme values, areas, and volumes. Prerequisites: (MATH: 1010 with a minimum grade of C- and MATH: 1380 with a minimum grade of C-) or MATH: 1460 with a minimum grade of C- or ALEKS score of 75 or higher or MPT Level 3 score of 9 or higher or (ALEKS score of 55 or higher and MATH: 1010 with a minimum grade of $\mathrm{C}-$ ) or MATH: 1020 with a minimum grade of C or (MATH:1340 with a minimum grade of C- and MATH: 1010 with a minimum grade of $\mathrm{C}-$ ) or (MATH: 1005 with a minimum grade of Cand MATH: 1010 with a minimum grade of $\mathrm{C}-$ ). Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

## MATH:1860 Calculus II

4 s.h.
Techniques of integration including by-parts, trigonometric Integrals, trigonometric substitutions, partial fractions, improper integrals; applications (i.e., arclength), area surfaces of revolutions, application to physics; introduction to differential equations; parametric equations and polar coordinates; infinite sequences and series, convergence tests, power series, Taylor polynomials and series. Prerequisites: MATH: 1550 with a minimum grade of C- or MATH: 1850 with a minimum grade of C- or MPT Level 3 score of 15 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.
MATH:2150 Foundations of Geometry
3 s.h.
Axiomatic development of common foundation for Euclidean, non-Euclidean geometry; constructions of non-Euclidean models, independence of parallel postulate. Prerequisites: MATH:1860 or MATH:1560.

MATH:2550 Engineering Mathematics III: Matrix Algebra 2 s.h. Applications, computers for matrix calculations; matrix, vector arithmetic; linear independence, basis, subspace (in R2, R3); systems of equations, matrix reduction; rank, dimension; determinants, applications; eigenvalues, eigenvectors; diagonalization, principal axis theorem. Prerequisites: MATH: 1850 or MATH: 1550 or MATH: 1860 or MATH: 1560 or MPT Level 3 score of 15 or higher.

## MATH:2560 Engineering Mathematics IV: Differential Equations <br> 3 s.h.

Ordinary differential equations and applications; first-order equations; higher order linear equations; systems of linear equations, Laplace transforms; introduction to nonlinear equations and systems, phase plane, stability. Prerequisites: (MATH:1560 or MATH:1860) and (MATH:2700 or MATH:2550).
MATH:2700 Introduction to Linear Algebra 4 s.h. Vector algebra and geometry of three-dimensional Euclidean space and extensions to $n$-space and vector spaces; lines and planes, matrices, linear transformations, systems of linear equations, reduction to row echelon form, dimension, rank, determinants, eigenvalues and eigenvectors, diagonalization, Principal Axis Theorem. Prerequisites: MATH: 1850 or MATH: 1550 or MATH: 1860 or MATH: 1560 or MPT Level 3 score of 15 or higher.
MATH:2850 Calculus III
4 s.h.
Multivariable calculus; vector functions, total differentials, gradient, implicit functions, coordinate systems, Taylor's expansion, extrema, multiple integrals, vector fields, line integrals, surface integrals, and Green's, Stokes', and divergence theorems. Prerequisites: MATH:1860 with a minimum grade of C- or MATH: 1560 with a minimum grade of C-.
MATH:2995 Introduction to Research Opportunities 1 s.h.
Modern mathematics research areas and activities; seminar.
Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1560 or MATH:1860).
MATH:3550 Engineering Mathematics V: Vector Calculus 3 s.h. Partial derivatives, max-min problems, integrals along curves, surfaces and solids, vector fields and conservation of energy; curl, divergence, Stokes' theorem and the divergence theorem; the classical partial differential equations and qualitative behavior of their solutions. Prerequisites: MATH:1560 and (MATH:2550 or MATH:2700). Corequisites: MATH:2560.

## MATH:3600 Introduction to Ordinary Differential

 Equations2-3 s.h.
First-order ordinary differential equations; second-order linear differential equations; series solutions; higher-order linear and matrix differential equations; existence and uniqueness theorems; may include introduction to basic partial differential equations (PDE) or Laplace Transforms. Prerequisites: (MATH: 1560 or MATH:1860) and (MATH:2550 or MATH:2700). Corequisites: MATH:2850 (if not taken as a prerequisite). Requirements: prior or concurrent enrollment in MATH:2850.
MATH:3700 Introduction to Matrix Theory 3 s.h.
Vector algebra and geometry of three-dimensional Euclidean space and extensions to $n$-space and vector spaces; lines and planes, matrices, linear transformations, systems of linear equations, reduction to row-echelon form, dimension, rank, determinants, eigenvalues and eigenvectors, diagonalization, Principal Axis Theorem. Requirements: graduate standing.
MATH:3720 Introduction to Abstract Algebra I 4 s.h
Basic logic, proof methods, sets, functions, relations, mathematical induction; gradual transition from familiar number systems to abstract structures-division algorithm, unique factorization theorems; groups, subgroups, quotient groups, homomorphisms. Prerequisites:
MATH:2700 or MATH:2550.

## MATH:3750 Classical Analysis

4 s.h.
Multivariable calculus; vector functions, total differentials, gradient, implicit functions, coordinate systems, Taylor's expansion, extrema, multiple integrals, vector fields, line integrals, surface integrals, and Green's, Stokes', and divergence theorems. Requirements: graduate standing and one year of calculus.

## MATH:3770 Fundamental Properties of Spaces and Functions

 I4 s.h.
Elementary topological and analytic properties of real numbers; emphasis on ability to handle definitions, theorems, proofs.
Prerequisites: MATH:1560 or MATH:1860. Corequisites:
MATH:2700. Requirements: second-semester calculus.
MATH:3800 Introduction to Numerical Methods 3 s.h. Computer arithmetic, root finding, polynomial approximation, numerical integration, numerical linear algebra, numerical solution of differential equations; use of a higher-level computer language such as Matlab, Python, or Julia. Prerequisites: (MATH:2550 or MATH:2700) and (MATH:1560 or MATH:1860). Same as CS:3700.
MATH:3900 Introduction to Mathematics Research 3 s.h. Research experience; students study an elementary topic of active research, then work in groups under faculty supervision. Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1860 or MATH:1560).

## MATH:3995 Topics in Mathematics

3 s.h.
Varied topics. Recommendations: junior, senior, or graduate standing in mathematics, classics, or related fields.

## MATH:3996 Individual Study and Honors in Mathematics <br> MATH:3997 Readings in Mathematics

## MATH:4010 Basic Analysis

Elementary topological and analytical properties of real numbers; emphasis on ability to handle definitions, theorems, proofs; same material as MATH:3770 for non-mathematics graduate students. Requirements: graduate standing, one year of calculus, and one semester of linear algebra.

## MATH:4020 Basic Abstract Algebra 3 s.h.

Basic logic, proof methods, sets, functions, relations, mathematical induction; gradual transition from familiar number systems to abstract structures (division algorithm, unique factorization theorems); groups, subgroups, quotient groups, homomorphisms; same material as MATH:3720; for non-mathematics graduate students. Requirements: graduate standing, one year of calculus, and one semester of linear algebra.

## MATH:4040 Matrix Theory

3 s.h.
Vector spaces, linear transformations, matrices, equivalence of matrices, eigenvalues and eigenvectors, canonical forms, similarity, orthogonal transformations, bilinear and quadratic forms. Prerequisites: MATH:2700 or MATH:3700.
MATH:4050 Introduction to Discrete Mathematics 3 s.h.
Basic methods of enumerative combinatorics, inclusion-exclusion and generating functions, applications of group theory (Polya-Burnside theorem). Offered fall semesters. Prerequisites: (MATH:1860 or MATH:1560) and (MATH:2550 or MATH:2700).

## MATH:4060 Discrete Mathematical Models

Basic combinatorics and graph theory, their applications (which may include scheduling, matching, optimization); Eulerian and Hamiltonian paths, spanning trees. Offered spring semesters. Prerequisites: MATH:2700 or MATH:2550.
MATH:4080 Number Theory and Cryptography 3 s.h.
Elementary theory of numbers and its applications in public key cryptography. Prerequisites: MATH:1860 and MATH:2700.

MATH:4090 A Rigorous Introduction to Abstract Algebra 3 s.h. Rigorous review of groups including homomorphisms and quotient groups; group actions; Sylow's theorems; rigorous review of rings; ideals, ring homomorphisms, quotient rings; polynomial rings; vector spaces and linear transformations; basic field theory; serves as a bridge between MATH:3720 and MATH:5000. Prerequisites: MATH:3720. Requirements: MATH:3720 or graduate standing.

## MATH:4095 Rigorous Introduction to Module Theory and Galois

 Theory 4 s.h. Rigorous review of vector spaces and linear transformations; introduction to module theory, including finitely generated modules over principal ideal domains; rigorous introduction to field theory, including existence of algebraic closure and splitting fields; introduction to Galois theory, including solvability by radicals. Prerequisites: MATH:4090 or MATH:5000.MATH:4120 History of Mathematics 3 s.h.
May include numerical systems; Babylonian, Egyptian, and Greek mathematics; mathematics of other cultures; calculus; 19th- and 20thcentury mathematics. Prerequisites: (MATH:2700 or MATH:2550) and (MATH: 1560 or MATH:1860). Requirements: two semesters of calculus and one semester of linear algebra.
MATH:4200 Complex Variables 3 s.h.
Geometry of complex plane, analytic functions; Cauchy-Goursat theorem, applications; Laurent series, residues, elementary conformal mapping. Prerequisites: MATH:2850 or MATH: 1560 or MATH:3750.
MATH:4220 Fourier Analysis and Applications 3 s.h. Study of functions or noisy data by decomposing them into a series of trigonometric functions or sine waves. Prerequisites: (MATH:1560 or MATH:1860) and (MATH:2550 or MATH:2700).
MATH:4250 Introduction to Financial Mathematics $\mathbf{3}$ s.h. Financial mathematics; option pricing and portfolio optimization, stochastic integration, methods due to Ito and Feynman-Kac, MonteCarlo simulation. Prerequisites: MATH:2850 or STAT:3120.
MATH:4500 Introduction to Differential Geometry I 3 s.h.
Space curves, Frenet frames, intrinsic and extrinsic geometry of surfaces, first and second fundamental forms, isometries, Gauss map, Gaussian curvature, Theorema Egregium, geodesics, covariant differentiation; may include global theory of curves and Gaussbonnet theorem. Prerequisites: (MATH:3550 or MATH:2850) and (MATH:2700 or MATH:2550).
MATH:4510 Introduction to Differential Geometry II 3 s.h. Continuation of MATH:4500; geometry of surfaces in Euclidean space, Gauss-Bonnet theorem and its applications, minimal surfaces, abstract surfaces; may include Riemannian manifolds, connections, elementary Lie groups, applications of differential geometry to other disciplines (physics, engineering). Prerequisites: MATH:4500.
MATH:4700 Partial Differential Equations and Applications 3 s.h. Introduction to elliptic, parabolic, and hyperbolic partial differential equations and their applications to problems from science and engineering. Prerequisites: (MATH:1560 or MATH:2850) and (MATH:2560 or MATH:3600).

MATH:4740 Large Data Analysis 3 s.h.
3 s.h. Current areas that deal with problem of big data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: (CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-) and (MATH:3800 or MATH:3800) and (STAT:3200 or STAT:3200 or STAT:3200). Same as CS:4740, IGPI:4740, STAT:4740.

MATH:4750 Introduction to Mathematical Biology
3 s.h.
Use and creation of mathematical models in biology, primarily those using continuous dynamical systems ordinary and partial differential equations; may include additional approaches (e.g., game theory, discrete models); modeling approaches-the model as representation -and canonical models in context of example systems drawn from a range of application areas including, but not limited to, neurobiology, electrophysiology, epidemiology, ecology, evolution, demography, and spatiotemporal pattern formation including morphogenesis. Prerequisites: MATH:3600 or MATH:2560.
MATH:4820 Optimization Techniques 3 s.h.
Basic theory of optimization, use of numerical algorithms in solution of optimization problems; linear and nonlinear programming, sensitivity analysis, convexity, optimal control theory, dynamic programming, calculus of variations. Prerequisites: (MATH:2700 or MATH:2550) and (ME:4111 or MATH:3800 or CS:3700) and (MATH:1560 or MATH:2850). Same as CS:4720.
MATH:4840 Mathematics of Machine Learning 3 s.h.
Mathematical aspects of machine learning; regression methods and related issues of overfitting, generalization error, cross-validation; matrix methods for dimension reduction; optimization for support vector machines and neural networks, including convex duality and "kernel trick" for support vector machines; training of neural networks using backpropagation and gradients; reliability of optimization methods for nonconvex optimization; approximation properties of neural networks; convolutions for handling sound and image data; game theory for adversarial networks. Prerequisites: (MATH:2550 or MATH:2700) and (MATH:1560 or MATH:2850 or MATH:3550).
MATH:4860 High Performance and Parallel Computing $\mathbf{3}$ s.h. Parallel algorithms presented and implemented with different approaches and libraries (e.g., OpenMP, MPI); various platforms including Message Passing Clusters, Multicore and GPUs, MapReduce (Hadoop), and related current topics; scientific computing and large data analysis projects. Prerequisites: (CS:2210 with a minimum grade of C- or MATH:4050) and CS:2230 with a minimum grade of C-. Same as CS:4700.

## MATH:5000 Abstract Algebra I

Groups and homomorphisms, Sylow Theorems, rings, finitely generated modules over a PID, Galois theory, vector spaces, linear transformations and matrices, canonical forms. Prerequisites:
MATH:3720.
MATH:5010 Abstract Algebra II 3 s.h.
Continuation of MATH:5000. Prerequisites: MATH:5000.
MATH:5200 Introduction to Analysis I 3 s.h.
Real numbers, fundamentals of limits and continuity in the context of metric spaces; Lebesque theory of functions of one real variable. Prerequisites: MATH:3770 or MATH:4220. Requirements: MATH:3770 or graduate standing.
MATH:5210 Introduction to Analysis II 3 s.h.
Local theory of analytic functions of one complex variable, power series, classical transcendental functions; spaces of functions. Prerequisites: MATH:5200.
MATH:5400 Fundamental Groups and Covering Spaces 3 s.h. Homotopy, homotopy equivalence, homotopy extension property, fundamental group, Van Kampen's theorem, free products of groups, covering spaces, lifting properties, classification of covering spaces, deck transformations and group actions, cell complexes, applications to cell complexes, graphs and free groups; may include simplicial homology and point-set topology topics. Prerequisites: MATH:3770 or MATH:4220.

MATH:5410 Introduction to Smooth Manifolds
3 s.h.
Calculus on smooth manifolds; smooth functions, mean value theorem, chain rule, smooth manifolds, tangent vectors, tangent spaces, inverse and implicit functions theorems, submersions and immersions, vector fields, flows, multilinear algebra, differential forms, Stokes theorem. Prerequisites: MATH:2700 and MATH:2850 and MATH:5400.
MATH:5600 Nonlinear Dynamics with Numerical Methods 3 s.h. Linear systems of differential equations (fundamental solutions, matrix exponentials, Floquet theory); nonlinear differential equations (theorem for existence and uniqueness, flows, attractors); local nonlinear theory (invariant manifolds, Hartman-Grobman theorem, Poincare maps); global nonlinear theory (Poincare-Bendixson criterion, Lyapunov functions, gradient systems, Hamiltonian systems); bifurcations (saddle-node, pitchfork, transcritical, Hopf); introduction to chaos theory (Lorenz equations); computational methods to solve numerically differential equations and to draw phase planes and trajectories. Prerequisites: MATH:3600 and (MATH:3770 or MATH:4220).
MATH:5700 Introduction to Partial Differential Equations 3 s.h. Diffusion, Laplace, and wave equations; scalar conservation laws; weak solutions and energy methods. Prerequisites: MATH:2850 and MATH:3600 and (MATH:3770 or MATH:4220).
MATH:5750 Mathematical Biology I 3 s.h.
Topics in mathematical biology; canonical mathematical modeling and analysis of problems in the biological sciences; first of a twosemester sequence. Prerequisites: MATH:5600 and MATH:5700.
MATH:5760 Mathematical Biology II
3 s.h.
Topics in mathematical biology; canonical mathematical modeling and analysis of problems in the biological sciences; second of a twosemester sequence. Corequisites: MATH:5600 and MATH:5700, if not taken as prerequisites.
MATH:5800 Numerical Methods I 3 s.h.
Root finding for nonlinear equations; polynomial interpolation; polynomial approximation of functions; numerical integration.
Prerequisites: MATH:2700 and (MATH:2850 or MATH:3550). Requirements: knowledge of computer programming. Same as CS:5710.
MATH:5810 Numerical Methods II 3 s.h.
Numerical methods for initial value problems for ordinary differential equations; direct and iterative methods for linear systems of equations; eigenvalue problems for matrices. Prerequisites: MATH:2700 and MATH:5800 and (MATH:2850 or MATH:3550) and (MATH:3600 or MATH:2560). Requirements: knowledge of computer programming. Same as CS:5720.

MATH:5900 First-Year Graduate Seminar
1 s.h.
Introduction to mathematics graduate program. Requirements: firstyear graduate standing in mathematics.
MATH:5950 Qualifying Exam Preparation Seminars 0 s.h. Exam preparation in pure and applied mathematics.
MATH:6000 Categories and Modules
3 s.h.
Introduction to categories and functors; emphasis on module categories, products and coproducts, hom functors and tensor product functors, exact sequences, projective/injective/flat modules, Noetherian and Artinian rings and modules, composition series and Jordan-Hölder theorem, Jacobson radical, Nakayama's lemma, semisimple rings and modules, and Artin-Wedderburn structure theorem. Prerequisites: MATH:5010.

## MATH:6010 Commutative Algebra and Representation Theory

Fundamental notions in commutative algebra and representation theory; specific topics may include Gröbner bases, associated primes, primary decomposition, valuation rings, affine and projective varieties, group representations, characters, orthogonality relations, and other branches of representation theory. Prerequisites: MATH:5010.

## MATH:6200 Analysis I

3 s.h.
Lebesque measure and integral, fundamental theorem of calculus, abstract measures and integration, Fubini's theorem, Radon-Nikodym theorem, Riesz representation theorem, L-p spaces. Prerequisites: MATH:5210.
MATH:6210 Analysis II
3 s.h.
Hilbert space, Banach space techniques; Hahn-Banach theorem, open mapping theorem, principle of uniform boundedness; reflexivity, H-p spaces, Paley-Wiener theorem, space of functions analytic on the open unit disk. Prerequisites: MATH:6200.
MATH:6400 Algebraic Topology
3 s.h.
Singular homology, relative homology, homotopy invariance, exact sequences and excision, cellular homology, Mayer-Vietoris sequences, homology with coefficients, axioms for homology, Hurewicz theorem, cohomology groups, universal coefficient theorem, cup product, cohomology ring, fundamental class, Poincaré duality. Prerequisites: MATH:5400.

## MATH:6410 Introduction to Differential Topology

3 s.h.
Manifolds, functions: tangent bundle, Morse-Sard theorem, transversality, submanifolds, tubular neighborhoods, normal bundles, vector fields, degree and intersection theory, fixed-point theory, Morse theory. Prerequisites: MATH:5410.

## MATH:6500 Differential Geometry I

3 s.h.
Differentiable manifolds, forms, tensors, Riemannian metrics, isometries, connections, geodesics, curvature, related topics. Prerequisites: MATH:5410.
MATH:6510 Differential Geometry II 3 s.h. Continuation of MATH:6500; varied topics, may include study of existence and uniqueness of solutions to differential equations and systems related to geometry, indefinite metrics, Lie groups, attributes of manifolds with particular curvature properties, global Riemannian geometry, Kahler geometry, applications of differential geometry to other disciplines. Prerequisites: MATH:6500.

## MATH:6600 Ordinary Differential Equations I

3 s.h.
Existence, uniqueness, continuous dependence of solutions to initial value problems, variational calculus, Lagrangian and Hamiltonian systems, differential inequalities, perturbation theory, normal forms, invariant manifolds, KAM theory, bifurcation theory, boundary value problems. Prerequisites: MATH:5210.

MATH:6610 Ordinary Differential Equations II
Continuation of MATH:6600. Prerequisites: MATH:6600.
MATH:6700 Partial Differential Equations I 3 s.h.
Elliptic equations; potential theory, maximum principle, a priori estimate, Dirichlet problem; initial value problem for parabolic equations; hyperbolic equations; Duhamel's principle, Cauchy problem; nonlinear equations, characteristics, canonical form, firstorder systems. Prerequisites: MATH:5210.
MATH:6710 Partial Differential Equations II 3 s.h. Continuation of MATH:6700. Prerequisites: MATH:6700.

MATH:6850 Advanced Numerical Methods I 3 s.h.
Theoretical foundations of numerical analysis, within framework of functional analysis; application areas including approximation theory, numerical methods for partial differential equations, integral equations; introduction to functional analysis. Prerequisites: MATH:5200 and MATH:5210 and MATH:5800 and MATH:5810.

MATH:6860 Advanced Numerical Methods II 3 s.h.
Continuation of MATH:6850. Prerequisites: MATH:6850.
MATH:7000 Homological Algebra 2-3 s.h.
Fundamental notions in homological algebra, including derived functors (Ext and Tor); specific topics may include group cohomology, spectral sequences, and derived categories. Prerequisites: MATH:6000.
MATH:7020 Algebraic Number Theory 3 s.h.
Topics include integral elements, integrally closed rings, algebraic extensions, norms and traces, the discriminant; number fields and some analogues in positive characteristic, global fields; class groups, unit groups; valuations and local fields; adele ring and idele group attached to global fields; L-functions (including the Riemann zeta function) and class number formulas. Prerequisites: MATH:5000 and MATH:5010.
MATH:7030 Topics in Algebra 2-3 s.h.
May include algebraic number theory, groups, representation theory, algebras, ideal theory, lattice theory. Prerequisites: MATH:6010.

MATH:7070 Seminar: Algebra
arr.
MATH:7080 Seminar: Commutative Ring Theory arr.
MATH:7090 Seminar: Representation Theory arr.
MATH:7200 Functional Analysis I $\mathbf{2 - 3}$ s.h.
Locally convex topological vector spaces, duality, tensor products and nuclear spaces; Krein-Millman theorem, Choquet's theory; geometry of Banach spaces, nonlinear functional analysis; operators on Hilbert spaces, spectral theorem, algebras of operators. Prerequisites: MATH:6210.
MATH:7210 Functional Analysis II 2-3 s.h. Continuation of MATH:7200. Prerequisites: MATH:7200.
MATH:7250 Topics in Analysis 2-3 s.h.
Measure theory, integration, general topology.
MATH:7290 Seminar: Operator Theory arr.
MATH:7400 Current Geometry and Topology I 3 s.h.
Introduction to current topics in geometry and topology: Gromov-
Witten theory, moduli spaces, Floer theory, mirror symmetry, geometric analysis, conformal geometry, knots and braids, topological data analysis, contact and symplectic topology, mapping class groups, categorification, Heegaard splittings of 3-manifolds, trisections of 4-manifolds, quantum topology, and Skein theory. Prerequisites: MATH:5400 and MATH:5410.
MATH:7450 Current Geometry and Topology II 2-3 s.h. Introduction to current topics in geometry and topology: GromovWitten theory, moduli spaces, Floer theory, mirror symmetry, geometric analysis, conformal geometry, knots and braids, topological data analysis, contact and symplectic topology, mapping class groups, categorification, Heegaard splittings of 3-manifolds, trisections of 4-manifolds, quantum topology, and Skein theory. Prerequisites: MATH:5400 and MATH:5410.
MATH:7470 Seminar: Topology arr.
MATH:7570 Seminar: Differential Geometry arr.
MATH:7580 Seminar: Mathematical Physics arr.
MATH:7630 Topics in Mathematical Biology 2-3 s.h.
Application of mathematics to biology.
MATH:7660 Seminar: Nonlinear Dynamics and Differential Equations
arr.
MATH:7670 Seminar: Mathematical Biology
arr.
MATH:7730 Topics in Partial Differential Equations 2-3 s.h. Regularity theory, nonlinear analysis in partial differential equations, fluid dynamics, harmonic analysis, conservation laws, other topics.

MATH:7830 Topics in Applied Mathematics Application of mathematics to other disciplines. MATH:7870 Seminar: Numerical Analysis
MATH:7990 Reading Research

3 s.h.
arr.
arr.

## Mathematics, BA

Bachelor of Arts students majoring in mathematics enroll in one of three programs: Program A is for students who plan to work in business or government or pursue graduate study in mathematics; Program B is for students who seek secondary school teaching licensure; and Program $C$ is for those seeking specialization in a mathrelated area, such as actuarial science, biochemistry, biomathematics, biostatistics, chemistry, computer science, data science, economics, engineering (all departments), finance, physics, risk management and insurance, statistics, and so forth. Program C may be especially appropriate for students who plan to seek a math-related job after earning a bachelor's degree, rather than going on to graduate study.

## Learning Outcomes

Math majors will be able to:

- give correct, logical mathematical proofs using mathematical terminology and hypotheses;
- reason logically and quantitatively using algebraic, analytic, and numerical methods;
- incorporate mathematical ideas and reasoning into well-written English; and
- model and analyze problems in pure mathematics and in other disciplines.

## BA with Second Major

Students majoring in mathematics may choose to earn a second major in computer science, statistics, actuarial science, or other disciplines. They must satisfy all requirements of Program A, Program B, or Program C in mathematics as well as all requirements for the second major. For more information, consult an advisor and see Declaring or Changing a Major on the College of Liberal Arts and Sciences website.

## Transfer from Engineering to Mathematics

Certain engineering students who have completed MATH:1550 Engineering Mathematics I: Single Variable Calculus, MATH:1560 Engineering Mathematics II: Multivariable Calculus, MATH:2550
Engineering Mathematics III: Matrix Algebra, MATH:2560
Engineering Mathematics IV: Differential Equations, or MATH:3550
Engineering Mathematics V: Vector Calculus may count these courses toward the major in mathematics. See the Department of Mathematics website.

## Requirements

The Bachelor of Arts with a major in mathematics requires a minimum of 120 s.h., including at least $38-48$ s.h. (11-12 courses) of work for the major. Total credit for the major depends on a student's choice of Program A, B, or C. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

All students complete the post-calculus mathematics requirement, the upper-level mathematics requirement, and the requirements for Program A, B, or C.
For policies concerning transfer credit, correspondence credit, credit by examination, cumulative grade-point average, general rules relating to regression and duplication, and so forth, see For Undergraduate Students on the College of Liberal Arts and Sciences website.

For information about duplication, regression, and use of the second-grade-only option for mathematics courses, contact the Department of Mathematics or visit the Department of Mathematics website. The website also provides details about schedule planning and career options for mathematics students. For more information on admission, financial support, employment opportunities, the faculty, facilities, and other topics, visit the Department of Mathematics or the University of Iowa website.

The BA with a major in mathematics (Program $\mathrm{A}, \mathrm{B}$, or C ) requires the following coursework.

Requirements Hours
Program Requirements (semester hours vary in Program A, 38-48 B, or C selection)

## Post-Calculus Mathematics Requirement

Students majoring in mathematics must earn at least 15 s.h. in post-calculus mathematics courses (prefix MATH) offered by the Department of Mathematics or cross-referenced with a mathematics course at the University of Iowa; students may not count transfer courses or credit by exam toward this requirement.

Post-calculus courses in the Department of Mathematics are numbered 2000 or above, excluding these:

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:3700 | Introduction to Matrix Theory | 3 |
| MATH:3750 | Classical Analysis | 4 |
| MATH:3995 | Topics in Mathematics | 3 |
| MATH:3996 | Individual Study and Honors in | arr. |
|  | Mathematics |  |
| MATH:3997 | Readings in Mathematics | arr. |
| MATH:4010 | Basic Analysis | 3 |
| MATH:4020 | Basic Abstract Algebra | 3 |

## Upper-Level Mathematics Requirement

Majors must take at least one upper-level mathematics course for the BA degree. Upper-level mathematics courses include MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding these:

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:4010 | Basic Analysis | 3 |
| MATH:4020 | Basic Abstract Algebra | 3 |
| MATH:4120 | History of Mathematics | 3 |

No courses from other departments can be counted as upper-level mathematics courses unless they are cross-referenced with an upperlevel mathematics course (prefix MATH).

## Program A

Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.

## Program A: Core Courses

Students must complete a two-semester sequence of MATH:1850 Calculus I and MATH:1860 Calculus II. Advanced placement credit, CLEP credit, and credit granted through the Mathematics Incentive Program are accepted for all or part of the calculus requirement.

Students complete the following core courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:1850 \& | Calculus I-II | 8 |
| MATH:1860 |  |  |

| MATH:2700 | Introduction to Linear Algebra | 4 |
| :--- | :--- | :--- |
| MATH:2850 | Calculus III | 4 |
| MATH:3600 | Introduction to Ordinary | 3 |
|  | Differential Equations |  |
| MATH:3720 | Introduction to Abstract Algebra | 4 |
|  | I | 4 |
| MATH:3770 | Fundamental Properties of | 4 |
|  | Spaces and Functions I |  |

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

## Program A: Electives

Students complete four electives ( $12-16$ s.h.), including at least two courses with a MATH prefix. Of these two courses, at least one course must be an upper-level mathematics course.

## Mathematics

Students may choose from mathematics courses numbered MATH:2150 Foundations of Geometry, MATH:3800 Introduction to Numerical Methods, or courses above MATH:3800, excluding MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra.

## Computer Science

Students may choose computer science courses numbered CS:1210 through CS:4740, excluding CS:3210 Programming Languages and Tools, CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:3990 Honors in Computer Science or Informatics.

## Statistics and Actuarial Science

Students may choose statistics courses numbered STAT:2020 Probability and Statistics for the Engineering and Physical Sciences, STAT:3100 through STAT:4740, STAT:5100 through STAT:5120, excluding STAT:3510 Biostatistics, STAT:4143 Introduction to Statistical Methods, and STAT:4200 Statistical Methods and Computing.
Among the courses listed above, only one of the following three courses can be counted toward the elective requirement: STAT:2020, STAT:3100, or STAT:3120. None of these courses can be counted as credit earned toward graduation if taken after STAT:4100 Mathematical Statistics I owing to regression policies.
Students may choose actuarial science courses numbered ACTS:3080 Mathematics of Finance I and ACTS:4130 through ACTS:4380.

Consult the Department of Mathematics website for a complete list of electives in computer science, and statistics and actuarial science.

## Program B

Program B is intended for students seeking secondary school teaching licensure. Students who wish to earn teaching licensure in addition to earning a Bachelor of Arts with a major in mathematics also must complete the Teacher Education Program (TEP); see "Teacher Licensure" below.

## Program B: Core Courses

Students must complete a two-semester sequence of MATH:1850 Calculus I and MATH: 1860 Calculus II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program are accepted for part or all of the calculus requirement. Students complete the following core courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:1850 \& | Calculus I-II | 8 |
| MATH:1860 |  |  |

| MATH:2150 | Foundations of Geometry | 3 |
| :--- | :--- | ---: |
| MATH:2700 | Introduction to Linear Algebra | 4 |
| MATH:2850 | Calculus III | 4 |
| MATH:3720 | Introduction to Abstract Algebra | 4 |
|  | I | 4 |
| MATH:3770 | Fundamental Properties of |  |
|  | Spaces and Functions I | 3 |
| MATH:4050 | Introduction to Discrete |  |
| or MATH:4060 | Mathematics | Discrete Mathematical Models |
| CS:1210 | Computer Science I: <br> STAT:3120 | Fundamentals |
| Probability and Statistics | 4 |  |
|  |  | 4 |

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

## Program B: Electives

Students in Program B must take at least one additional Department of Mathematics post-calculus course (3-4 s.h.). The post-calculus courses must be chosen avoiding duplication and regression with the core mathematics courses, particularly when engineering mathematics courses are considered. With the department's approval, capable students are encouraged to substitute more advanced courses in the same subject area for any of the electives. The Department of Mathematics website offers advice on course selection.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.
Students who wish to earn teacher licensure should choose Program B; see "Program B" above.

## Program C

The Department of Mathematics encourages students of other majors to take more mathematics courses and attempt a BA or BS secondary major, or a secondary degree if their first major is outside CLAS, in mathematics. Program C offers a curricular path to achieve this goal.

Program C enables students to specialize in a mathematics-related subtrack, such as the mathematics of biochemistry, biomathematics, biostatistics, chemistry, computer science, data science, economics, engineering (all departments), finance, physics, risk management and insurance, and statistics and actuarial science. In consultation with the faculty advisor, students build on the Program C core to prepare a subtrack plan of study tailor-made to their interests and academic or career goals. The proposed plan of study must be approved by the Department of Mathematics.
Students must file their subtrack plan of study before they begin their senior year; they use the Program C Plan of Study form, available at the Department of Mathematics website. The website has templates for choosing electives in several areas; students may use these or propose other plans.

## Program C: Core Courses

Students must complete a two-semester sequence of MATH:1850 Calculus I and MATH:1860 Calculus II. Advanced placement credit,

CLEP credit, and credit earned through the Mathematics Incentive Program are accepted for part or all of the calculus requirement. Students complete the following core mathematics courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:1850 \& | Calculus I-II | 8 |
| MATH:1860 |  | 4 |
| MATH:2700 | Introduction to Linear Algebra | 4 |
| MATH:2850 | Calculus III | 4 |
| One additional "proofs" course such as MATH:3720 or | 4 |  |
| MATH:3770 |  |  |

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

## Program C: Electives

Students choose six or seven electives beyond the core math courses, depending on their subtrack. All electives must be offered for 34 s.h. of credit. At least three of the electives must be mathematics courses (prefix MATH), including MATH:3600 Introduction to Ordinary Differential Equations or higher, but excluding MATH:3700 Introduction to Matrix Theory, MATH:3750 Classical Analysis, MATH:3995 through MATH:3997, MATH:4010 Basic Analysis, MATH:4020 Basic Abstract Algebra, and MATH:4120 History of Mathematics. Independent study, reading, topics, seminar, and project courses are not allowed unless approved by the Department of Mathematics in advance. Of these three math courses, at least one course must be an upper-level mathematics course. See "PostCalculus Mathematics Requirement" and "Upper-Level Mathematics Requirement" above.

## Combined Programs

## BA/MAT (Mathematics Education Subprogram)

The College of Liberal Arts and Sciences and the College of Education offer students the opportunity to earn their Bachelor of Arts/Master of Arts in Teaching degree with a mathematics education subprogram in as little as five years. Students can begin work toward the MAT while completing their bachelor's degree. The combined program allows students to count a limited amount of credit toward both the BA and MAT degree requirements.

Separate application to each program is required. For more information, see Mathematics Education [p. 1417] in the Master of Arts in Teaching, MAT (College of Education) section in the catalog.

## Honors

## Honors in the Major

Students majoring in mathematics have the opportunity to graduate with honors in the major. Students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must complete all requirements for the major and must maintain a cumulative GPA of at least 3.40 in the major, a GPA set by the Department of Mathematics.

To graduate with honors in the major, students also must complete one of the options below.

## Option 1

Students complete five upper-level mathematics courses as defined in "Upper-level Mathematics Requirement" under "Requirements."

Mathematics courses (prefix MATH) numbered 6000 or above must be approved by the mathematics honors advisor in advance.
An honors research project may produce a research report but not a formal thesis. A research report will be counted as one upper-level math course towards option 1 by enrolling in MATH:3996 Individual Study and Honors in Mathematics for 3 s.h. A research report must be approved by the honors research project supervisor.

## Option 2

Students complete three upper-level mathematics courses and write an honors thesis. A student who chooses this option must contact the Department of Mathematics honors advisor and find a faculty member who is willing to supervise their honors thesis project. The Department of Mathematics honors advisor will then appoint a thesis committee of at least two faculty members. The student will need to obtain preapproval at the beginning of their thesis project, midterm approval from the thesis committee, and pass a defense.

The Department of Mathematics encourages students to use their soleauthored or coauthored research papers as honors theses if the papers have been published, accepted, or submitted to a research journal. Satisfactory peer reviews or referee's reports may be accepted in lieu of preapproval and midterm approval.
It is recommended that students who earn honors in mathematics pursue the BS degree.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program. Honors in mathematics is awarded by the Department of Mathematics and is separate from the University of Iowa Honors Program.
Membership in the UI Honors Program is not required to earn honors in the mathematics major. However, honors in mathematics can be applied toward UI Honors Program requirements.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.
Many mathematics courses must be taken in sequence, so students must begin major requirements as early as possible, and individual plans of study must be constructed carefully. The major typically requires 11 or 12 courses. Students must choose Program A, B, or C by the end of the third semester and must remain in their chosen program until they graduate in order to stay on track for the four-year graduation plan.
Before the third semester begins: coursework in the major through second-semester calculus.
Before the fifth semester begins: two or three more courses in the major.

Before the seventh semester begins: three or four more courses in the major and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: two or three more courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

|  | Hours | 15 |
| Total Hours |  | 119-125 |
| a See General Catalog or consult an advisor for more information. <br> b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture. <br> c Enrollment in math courses requires completion of a placement exam. <br> d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. |  |  |

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
g At least two of the four major electives must have a prefix of MATH, including at least one upper-level math course. See General Catalog or consult an advisor for more information about appropriate elective courses.
$h$ Electives may also be used to complete additional hours in the major up to a total of 56 s.h.
i Mathematical electives must include at least one upper-level math course. These include: MATH:3900 and math courses (MATH prefix) numbered 4000 and higher, but not MATH:4010, MATH:4020 and MATH:4120. Each upper-level math course is offered at most once per year; choose when to complete the upperlevel requirement according to spring or fall offerings for desired courses.
j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Any Semester

Program B is intended for students seeking secondary school teaching licensure.
Completion of mathematics (program B) BA, Teacher Education Program, and all general education requirements exceeds the minimum 120 s.h. required for graduation. Students should expect to take higher than average number of semester hours per term, take summer classes, and/or extend graduation time frame beyond four years.
Admission to the Teacher Education Program, College of Education, is by competitive application. For information about application requirements, process, and deadlines, please consult an advisor for the College of Education. GE CLAS Core: Sustainability ${ }^{\text {a }}$

(typically in February for spring, September for fall) ${ }^{\mathrm{k}}$

| Hours | 15 |
| :--- | ---: |
| Total Hours | $\mathbf{1 3 0 - 1 3 7}$ |

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Required for admission into the Teacher Education Program.
c Enrollment in math courses requires completion of a placement exam.
d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
e Complete the College of Education 10-hour pre-admission school field experience verification form available on the Teacher Education Program web page.
f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
g Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.
h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
i Students must complete MATH:4050, a fall-only course, or MATH:4060, a spring-only course.
j Post-calculus courses are numbered 2000 or above, excluding: MATH:3700, MATH:3750, MATH:3995, MATH:3996, MATH:3997, MATH:4010, and MATH:4020.
k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Mathematics, BS

Bachelor of Science students majoring in mathematics enroll in one of three programs: Program A is for students who plan to work in business or government or pursue graduate study in mathematics; Program B is for students who seek secondary school teaching licensure; and Program C is for those seeking specialization in a mathematics-related area, such as actuarial science, biochemistry, biomathematics, biostatistics, chemistry, computer science, data science, economics, engineering (all departments), finance, physics, risk management and insurance, statistics, and so forth. Program C may be especially appropriate for students who plan to seek a mathematics-related job after earning a bachelor's degree, rather than going on to graduate study.

## Learning Outcomes

Math majors will be able to:

- give correct, logical mathematical proofs using mathematical terminology and hypotheses;
- reason logically and quantitatively using algebraic, analytic, and numerical methods;
- incorporate mathematical ideas and reasoning into well-written English; and
- model and analyze problems in pure mathematics and in other disciplines

## BS with Second Major

Students majoring in mathematics may choose to earn a second major in computer science, statistics, actuarial science, or other disciplines.
They must satisfy all requirements of Program A, Program B, or Program $C$ in mathematics as well as all requirements for the second major. For more information, consult an advisor and see Declaring or Changing a Major on the College of Liberal Arts and Sciences website.

## Transfer from Engineering to Mathematics

Certain engineering students who have completed MATH:1550 Engineering Mathematics I: Single Variable Calculus, MATH:1560 Engineering Mathematics II: Multivariable Calculus, MATH:2550 Engineering Mathematics III: Matrix Algebra, MATH:2560 Engineering Mathematics IV: Differential Equations, or MATH:3550 Engineering Mathematics V: Vector Calculus may count these courses toward the major in mathematics. See the Department of Mathematics website.

## Requirements

The Bachelor of Science with a major in mathematics requires a minimum of 120 s.h., including at least 44-56 s.h. (13-14 courses) of work for the major. Total credit for the major depends on a student's choice of Program A, B, or C. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
All students complete the post-calculus mathematics requirement, the upper-level mathematics requirement, and the requirements for Program A, B, or C.

For policies concerning transfer credit, correspondence credit, credit by examination, cumulative grade-point average, general rules relating to regression and duplication, and so forth, see For Undergraduate Students on the College of Liberal Arts and Sciences website.

For information about duplication, regression, and use of the second-grade-only option for mathematics courses, contact the Department of Mathematics or visit the Department of Mathematics website. The website also provides details about schedule planning and career options for mathematics students. For more information on admission, financial support, employment opportunities, the faculty, facilities, and other topics, visit the Department of Mathematics or the University of Iowa website.

The BS with a major in mathematics (Program A, B, or C) requires the following coursework.

Requirements Hours
Program Requirements (semester hours vary in Program A, 44-56 B, or C selection)

## Post-Calculus Mathematics Requirement

Students majoring in mathematics must earn at least 15 s.h. in post-calculus mathematics courses (prefix MATH) offered by the Department of Mathematics or cross-referenced with a mathematics course at the University of Iowa; students may not count transfer courses or credit by exam toward this requirement.

Post-calculus courses in the Department of Mathematics are numbered 2000 or above, excluding these:

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:3700 | Introduction to Matrix Theory | 3 |
| MATH:3750 | Classical Analysis | 4 |
| MATH:3995 | Topics in Mathematics | 3 |
| MATH:3996 | Individual Study and Honors in | arr. |
|  | Mathematics |  |
| MATH:3997 | Readings in Mathematics | arr. |
| MATH:4010 | Basic Analysis | 3 |
| MATH:4020 | Basic Abstract Algebra | 3 |

## Upper-Level Mathematics Requirement

Mathematics majors must take at least two upper-level mathematics courses (three in Program A) for the BS degree. Upper-level mathematics courses include MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding these:

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:4010 | Basic Analysis | 3 |
| MATH:4020 | Basic Abstract Algebra | 3 |
| MATH:4120 | History of Mathematics | 3 |

No courses from other departments can be counted as upper-level mathematics courses, unless they are cross-referenced with an upperlevel mathematics course (prefix MATH).

## Program A

Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.

## Program A: Core Courses

Students must complete a two-semester sequence of MATH:1850 Calculus I and MATH: 1860 Calculus II. Advanced placement credit, CLEP credit, and credit granted through the Mathematics Incentive Program are accepted for all or part of the calculus requirement.

Students complete the following core courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:1850 \& | Calculus I-II | 8 |
| MATH:1860 |  |  |
| MATH:2700 | Introduction to Linear Algebra | 4 |
| MATH:2850 | Calculus III | 4 |
| MATH:3600 | Introduction to Ordinary | 3 |
| MATH:3720 | Differential Equations | 4 |
| MATH:3770 | Introduction to Abstract Algebra | 4 |

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:1850 \& | Calculus I-II | 8 |
| MATH:1860 |  |  |
| MATH:2150 | Foundations of Geometry | 3 |
| MATH:2700 | Introduction to Linear Algebra | 4 |
| MATH:2850 | Calculus III | 4 |
| MATH:3720 | Introduction to Abstract Algebra | 4 |
|  | I | 4 |
| MATH:3770 | Fundamental Properties of | 4 |
| MATH:4050 | Spaces and Functions I |  |
| or MATH:4060 | Introduction to Discrete | 3 |
| CS:1210 | Discrete Mathematical Models | 4 |
| STAT:3120 | Computer Science I: |  |

Students complete six electives (18-24 s.h.), including at least four courses in the Department of Mathematics (prefix MATH). Of these four courses, at least three must be upper-level mathematics courses.

## Mathematics

Students may choose from mathematics courses numbered MATH:2150 Foundations of Geometry, MATH:3800 Introduction to Numerical Methods, or courses above MATH:3800, excluding MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra.

## Computer Science

Students may choose computer science courses numbered CS:1210 through CS:4740, excluding CS:3210 Programming Languages and Tools, CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:3990 Honors in Computer Science or Informatics.

## Statistics and Actuarial Science

Students may choose statistics courses numbered STAT:2020 Probability and Statistics for the Engineering and Physical Sciences, STAT:3100 through STAT:4740, STAT:5100 through STAT:5120, excluding STAT:3510 Biostatistics, STAT:4143 Introduction to Statistical Methods, and STAT:4200 Statistical Methods and Computing.

Among the courses listed above, only one of the following three courses can be counted toward the elective requirement: STAT:2020, STAT:3100, or STAT:3120. None of these courses can be counted as credit earned toward graduation if taken after STAT:4100 Mathematical Statistics I owing to regression policies.
Students may choose actuarial science courses numbered ACTS:3080 Mathematics of Finance I and ACTS:4130 through ACTS:4380.
Consult the Department of Mathematics website for a complete list of electives in computer science, and statistics and actuarial science.

## Program B

Program B is intended for students seeking secondary school teaching licensure. Students who wish to earn teaching licensure in addition to earning a Bachelor of Science with a major in mathematics also must complete the Teacher Education Program (TEP); see "Teacher Licensure" below.

## Program B: Core Courses

Students must complete a two-semester sequence of MATH:1850 Calculus I and MATH: 1860 Calculus II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program are accepted for part or all of the calculus requirement. Students complete the following core courses.

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

## Program B: Electives

Students in Program B must take at least three additional Department of Mathematics post-calculus courses (9-12 s.h.), including two chosen from MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra. The post-calculus courses must be chosen avoiding duplication and regression with the core math courses, particularly when engineering mathematics courses are considered. With the department's approval, capable students are encouraged to substitute more advanced courses in the same subject area for any of the electives. The Department of Mathematics website offers advice on course selection.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Students who wish to earn teacher licensure should choose Program B; see "Program B" above.

## Program C

The Department of Mathematics encourages students of other majors to take more mathematics courses and attempt a BA or BS secondary major, or a secondary degree if their first major is outside CLAS, in mathematics. Program C offers a curricular path to achieve this goal.

Program C enables students to specialize in a mathematics-related subtrack, such as the mathematics of biochemistry, biomathematics, biostatistics, chemistry, computer science, data science, economics, engineering (all departments), finance, physics, risk management and insurance, and statistics and actuarial science. In consultation with the faculty advisor, students build on the Program C core to prepare a subtrack plan of study tailor-made to their interests and academic or career goals. The proposed study plan must be approved by the Department of Mathematics.

Students must file their subtrack plan of study before they begin their senior year; they use the Program C Plan of Study form, available on the Department of Mathematics website. The website has templates
for choosing electives in several areas; students may use these or propose other plans.

## Program C: Core Courses

Students must complete a two-semester sequence of MATH:1850 Calculus I and MATH:1860 Calculus II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program are accepted for part or all of the calculus requirement. Students complete the following core mathematics courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:1850 \& | Calculus I-II | 8 |
| MATH:1860 |  | 4 |
| MATH:2700 | Introduction to Linear Algebra | 4 |
| MATH:2850 | Calculus III | 4 |
| One additional "proofs" course such as MATH:3720 or | 4 |  |
| MATH:3770 |  |  |

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

## Program C: Electives

Students choose at least eight approved electives. All electives must be offered for 3-4 s.h. of credit. At least four of the electives must be mathematics courses (prefix MATH): MATH:3600 Introduction to Ordinary Differential Equations or above, but excluding MATH:3700 Introduction to Matrix Theory, MATH:3750 Classical Analysis, MATH:3995 through MATH:3997, MATH:4010 Basic Analysis, MATH:4020 Basic Abstract Algebra, and MATH:4120 History of Mathematics. Independent study, reading, topics, seminar, and project courses are not allowed unless approved by the Department of Mathematics in advance. Of these four math courses, at least two courses must be upper-level mathematics courses. See "PostCalculus Mathematics Requirement" and "Upper-Level Mathematics Requirement" above.
Some subtracks require additional required courses beyond the five core mathematics courses (see "Program C: Core Courses" above). These additional courses count toward electives; some may be from other departments. For a list of suggested subtracks and restrictions on electives as well as the additional required courses (if any) in each subtrack, consult the Department of Mathematics website.

## Honors

## Honors in the Major

Students majoring in mathematics have the opportunity to graduate with honors in the major. Students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must maintain a cumulative GPA of at least 3.40 in the major, a GPA set by the Department of Mathematics.
To graduate with honors in the major, students also must complete one of the options below.

## Option 1

Students complete five upper-level mathematics courses as defined in "Upper-level Mathematics Requirement" under "Requirements." Mathematics courses (prefix MATH) numbered 6000 or above must be approved by the mathematics honor advisor in advance.

Sometimes an honors research project may only produce a research report but not a formal thesis. A research report will be counted as one upper-level math course towards option 1 by enrolling in MATH:3996 Individual Study and Honors in Mathematics for 3 s.h. A research report must be approved by the honors research project supervisor.

## Option 2

Students complete three upper-level mathematics courses and write an honors thesis. A student who chooses this option must contact the Department of Mathematics honors advisor and find a faculty member who is willing to supervise their honors thesis project. The Department of Mathematics honors advisor will then appoint a thesis committee of at least two faculty members. The student will need to obtain preapproval at the beginning of their thesis project, midterm approval from the thesis committee, and pass a defense.

The Department of Mathematics encourages students to use their soleauthored or coauthored research papers as honors theses if the papers have been published, accepted, or submitted to a research journal. Satisfactory peer reviews or referee's reports may be accepted in lieu of preapproval and midterm approval.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program. Honors in mathematics is awarded by the Department of Mathematics and is separate from the University of Iowa Honors Program.
Membership in the UI Honors Program is not required to earn honors in the mathematics major. However, honors in mathematics can be applied toward UI Honors Program requirements.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Many mathematics courses must be taken in sequence, so students must begin major requirements as early as possible, and individual plans of study must be constructed carefully. The major typically requires 13 or 14 courses. Students must choose Program A, B, or C by the end of the third semester and must remain in their chosen program until they graduate in order to stay on track for the four-year graduation plan.
Before the third semester begins: coursework in the major through second-semester calculus.

Before the fifth semester begins: three or four more courses in the major.
Before the seventh semester begins: three or four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two or three more courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be
discussed with an academic advisor. For additional sample plans, see MyUI.

a See General Catalog or consult an advisor for more information.
b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
c Enrollment in math courses requires completion of a placement exam.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
g At least four of the six major electives must have a prefix of MATH, including at least three upper-level math courses. See General Catalog or consult an advisor for more information about appropriate elective courses.
h Mathematical electives must include at least three upper-level math courses. These include: MATH:3900 and math courses (MATH prefix) numbered 4000 and higher, but not MATH:4010, MATH:4020 and MATH:4120. Each upper-level math course is offered at most once per year; choose when to complete the upperlevel requirement according to spring or fall offerings for desired courses.
i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Program B

This sample plan is currently being updated and will be added at a later date.

## Mathematics, Minor

## Requirements

The undergraduate minor in mathematics requires a minimum of 15 s.h. of credit earned in mathematics courses. At least 12 of the 15 s.h. must be equivalent to post-calculus math courses (prefix MATH) offered by the Department of Mathematics; credit by examination does not count toward the 12 s.h. requirement. The mathematics course MATH:1210 Diverse Perspectives in the Mathematical Sciences does not count toward the minor. At least 9 of the 12 s.h. in post-calculus math courses must be taken at the University of Iowa. No more than one transfer course can be counted toward the postcalculus requirement.
Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Courses numbered 2000 or above are considered post-calculus, excluding these:

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:3700 | Introduction to Matrix Theory | 3 |
| MATH:3750 | Classical Analysis | 4 |
| MATH:3995 | Topics in Mathematics | 3 |
| MATH:3996 | Individual Study and Honors in | arr. |
|  | Mathematics |  |
| MATH:3997 | Readings in Mathematics | arr. |
| MATH:4010 | Basic Analysis | 3 |
| MATH:4020 | Basic Abstract Algebra | 3 |

Post-calculus courses must be chosen to avoid duplication and regression with the core mathematics courses, particularly when the engineering mathematics courses are considered.

## Special Rules for Engineering

Students who have taken the engineering math courses-MATH:1560 Engineering Mathematics II: Multivariable Calculus, MATH:2550 Engineering Mathematics III: Matrix Algebra, MATH:2560 Engineering Mathematics IV: Differential Equations, and MATH:3550 Engineering Mathematics V: Vector Calculus-may satisfy the post-calculus requirement by taking an additional 3 s.h. course from the list below.
Substituting a 3 s.h. post-calculus math course (prefix MATH) for any of these-MATH:1560, MATH:2550, MATH:2560, or MATH:3550-is allowed as long as there is no regression or duplication.
At least four of these courses must be taken at the University of Iowa: MATH:1560, MATH:2550, MATH:2560, MATH:3550, or the additional 3 s.h. post-calculus math course; no more than one transfer course will count.

Students can choose the additional 3 s.h. course from MATH:2150 Foundations of Geometry or from courses numbered MATH:3720 or above, excluding these:

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:3750 | Classical Analysis | 4 |
| MATH:3995 | Topics in Mathematics | 3 |
| MATH:3996 | Individual Study and Honors in | arr. |
|  | Mathematics |  |
| MATH:3997 | Readings in Mathematics | arr. |

| MATH:4010 | Basic Analysis | 3 |
| :--- | :--- | :--- |
| MATH:4020 | Basic Abstract Algebra | 3 |

For more information, see the Department of Mathematics website.

## Mathematics, MS

## Learning Outcomes

## Students:

- have a broad foundational knowledge of mathematics, preparing them to teach a wide variety of mathematics courses at any fouryear college or university in the United States, work in a wide variety of business, industry, and government positions, and hold leadership positions in these organizations;
- can identify and develop new lines of investigation that push forward frontiers of research;
- can bring together problem-solving tools to make new discoveries, including locating and understanding the most current research literature, and working with interdisciplinary collaborators; and
- can communicate mathematics via professional writings and presentations at a level appropriate to the audience, from the general public to technical experts.

## Requirements

The Master of Science program in mathematics requires a minimum of 30 s.h. of graduate credit. Students earn the degree through courses and comprehensive examinations. There is no MS thesis. Requirements (courses and comprehensive examination areas) may be modified with the department's consent.
Four different programs (I, II, III, and IV) lead to the MS in mathematics.

## Program I

Program I prepares students for further study of pure and applied mathematics and for employment in government and business. Students in Program I take several courses and pass two comprehensive examinations. They must earn a grade of B-minus or higher in six of the courses and maintain a grade-point average (GPA) of at least 2.75 in all mathematics courses taken for the degree.

Program I requires the following courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:5000 \& | Abstract Algebra I-II | 6 |
| MATH:5010 |  | 6 |
| MATH:5200 \& | Introduction to Analysis I-II |  |
| MATH:5210 | Fundamental Groups and | 3 |
| MATH:5400 | Covering Spaces |  |
| MATH:5410 | Introduction to Smooth | 3 |
| MATH:5600 | Manifolds |  |
| MATH:5700 | Nonlinear Dynamics with <br> Numerical Methods | 3 |
|  | Introduction to Partial <br> Differential Equations | 3 |

The two comprehensive examinations are chosen from algebra, analysis, differential equations, and topology.

## Program II

Program II is designed for secondary school teachers. Program II requirements are similar to those for Programs I and III, but Program II students complete two mathematics education courses and a minimum of 24 s.h. in Department of Mathematics courses. The following courses may be used to satisfy the program II mathematics course requirements.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MATH:3600 | Introduction to Ordinary | $2-3$ |
|  | Differential Equations |  |

Mathematics courses (prefix MATH) numbered 4000 or above

Students are encouraged to consult with the mathematics education faculty when planning their course of study.

## Program III

Program III focuses on applied mathematics. Students in Program III take several courses and pass two comprehensive examinations. Students must earn a grade of B-minus or higher in six of the courses and maintain a GPA of at least 2.75 in all mathematics courses taken for the degree.

Program III requires the following courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  | 6 |
| MATH:5200 \& | Introduction to Analysis I-II |  |
| MATH:5210 |  |  |
| MATH:5600 | Nonlinear Dynamics with <br> Numerical Methods | 3 |
| MATH:5700 | Introduction to Partial <br> Differential Equations | 3 |
| MATH:5800 | Numerical Methods I | 3 |
| MATH:5810 | Numerical Methods II | 3 |
| Two elective courses from these: | 3 |  |
| MATH:4060 | Discrete Mathematical Models <br> MATH:4700 | Partial Differential Equations <br> and Applications |
| MATH:4820 | Optimization Techniques |  |
| MATH:5400 | Fundamental Groups and <br> Covering Spaces | 3 |
| MATH:5410 | Introduction to Smooth <br> Manifolds | 3 |
| MATH:5750 | Mathematical Biology I 3 <br> MATH:5760 Mathematical Biology II |  |

The two comprehensive examinations are chosen from analysis, differential equations, numerical analysis, and topology.

## Program IV

Program IV is designed for nondepartmental students working toward a PhD in areas of study that require mathematical knowledge. The program has no specific required courses.
Students in Program IV are considered to have passed the comprehensive examination for the master's degree in mathematics if they have maintained a GPA of at least 3.00 in all mathematics courses taken for the MS in mathematics and have successfully completed the PhD comprehensive examination in their area of study.
Students in Program IV are assigned a mathematics advisor, who works with them and their major advisor to plan an appropriate curriculum for the MS in mathematics. A suitable program of study should be approved by a mathematics advisor before the student takes the PhD comprehensive examination, and a member of the mathematics faculty should serve on the PhD comprehensive examination committee.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate

College website. Applicants to the PhD program have preference for admission and funding.

Admission to Programs I, II, and III is competitive and based on a combination of undergraduate coursework and grades, letters of recommendation, and test scores. Numerical standards change every year or so; exceptions may be made to the following guidelines.

Applicants must have completed work in an undergraduate program equivalent to the major in mathematics offered by the University of Iowa Department of Mathematics with an undergraduate gradepoint average of at least 3.20. Relevance and difficulty of courses are considered when evaluating grades; grades of C or lower in mathematics courses must be balanced by grades of A. Individuals whose preparation does not meet this requirement may be admitted conditionally and are asked to take specific courses that cover deficiencies.

All applicants must submit three letters of recommendation.
Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL). English proficiency demonstrated by a score of at least 100 (internet-based) on TOEFL is expected. The International English Language Testing System (IELTS) with an overall score of 7 with no subscore less than 6 or the Duolingo English Test (DET) with a score of 105 or above also are accepted.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Mathematics, PhD

## Learning Outcomes

## Students:

- have a broad foundational knowledge of mathematics, preparing them to teach a wide variety of mathematics courses at any fouryear college or university in the United States, work in a wide variety of business, industry, and government positions, and hold leadership positions in these organizations;
- can identify and develop new lines of investigation that push forward frontiers of research;
- can bring together problem-solving tools to make new discoveries, including locating and understanding the most current research literature, and working with interdisciplinary collaborators; and
- can communicate mathematics via professional writings and presentations at a level appropriate to the audience, from the general public to technical experts.

## Requirements

The Doctor of Philosophy program in mathematics requires a minimum of 72 s.h. of graduate credit. Students must maintain a program grade-point average of at least 3.00. The program places a strong emphasis on preparation for research and teaching. The department maintains no division between pure and applied mathematics. It cooperates in interdisciplinary doctoral programs with the College of Education (see Teaching and Learning [p. 1362] in the catalog) and the Program in Applied Mathematical and Computational Sciences [p. 1600] (Graduate College).

PhD students in mathematics must satisfy the following requirements for coursework (credits and breadth), examinations, foreign language, and the PhD thesis.

Students must spend at least three years in residence at a graduate college, including at least one year at the University of Iowa. They also should enroll in specific courses designated as preparatory for the PhD examinations; consult the Department of Mathematics graduate studies director.

To further encourage mathematical breadth, students must earn at least 27 s.h. of graduate credit in regular courses equivalent to or more advanced than PhD comprehensive examination preparatory courses. For a list of accepted Department of Mathematics courses and rules to ensure proper distribution, contact the department.
The PhD examinations consist of a qualifying exam and a comprehensive exam. Students choose three areas from the department's list of qualifying examination areas: algebra, analysis, differential equations, numerical analysis, and topology. For each qualifying area, there is a two-semester course sequence numbered 5000 or above that is designated as preparatory, although exams may differ from course content. Parts of the qualifying exam are taken over a two-week period. An exam committee gives one grade (pass, fail, conditional pass) on each part of the qualifying examination.
The PhD comprehensive exam tests students on research-related topics. Candidates also take an oral final examination on their dissertation material.

PhD students are required to demonstrate reading proficiency in French, German, or Russian by passing a reading test administered by the Department of Mathematics. Consult the department for details.

The most distinctive aspect of a PhD is the thesis. The department expects the thesis to be an original mathematical work comparable in content and writing quality to that found in standard published research journals. The thesis is written under the supervision of a
mathematics department faculty member and must be approved by the PhD defense committee.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Applicants to the PhD program have preference for admission and funding.

Admission to the PhD program is competitive and based on a combination of undergraduate or graduate coursework and grades, letters of recommendation, and test scores. Required scores on the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), and the Duolingo English Test (DET) are the same as those for admission to the MS program, but applicants to the PhD program must have an undergraduate or graduate grade-point average of at least 3.40.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Medieval Studies

## Chair

- Craig A. Gibson (Classics)

Coordinator, Medieval Studies

- Jonathan Wilcox (English)

Undergraduate certificate: medieval studies
Website: https://classics.uiowa.edu/undergraduate/certificate-medieval-studies

Medieval studies is an interdisciplinary program designed to offer students an introduction to the history and culture of the Middle Ages and to provide them with the tools necessary to pursue a more advanced study in a number of disciplines, including languages and literatures, philosophy, history, and art history. The study of medieval society provides a window to those centuries that span the end of the ancient world and the beginning of the modern era. The Middle Ages saw fascinating global developments in such areas as law, religion, philosophy, language, art, and music.

The Medieval Studies Program offers an undergraduate program of study and a selection of courses open to students in all majors.

## Programs

## Undergraduate Program of Study

## Certificate

- Certificate in Medieval Studies [p. 793]

## Courses

## Medieval Studies Courses

MDVL:3226 Literature and Culture of the Middle Ages 3 s.h. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as ENGL:3226.

## MDVL:3409 Medieval Civilization I

3 s.h.
Europe from the decline of Roman empire to the eleventh century; cultural, political, economic, artistic and architectural foundations of Western civilization. Same as HIST:3409.

MDVL:3410 Medieval Civilization II
3 s.h.
Europe from the eleventh century to the Italian Renaissance; cultural, political, economic, artistic, and architectural foundations of Western civilization. Same as HIST:3410.

MDVL:3423 Ireland in the Early Middle Ages
Ireland and the northern British islands 400-1000 C.E., a region of small kingdoms and thin population, lacking natural resources, far from Rome and ancient centers of Mediterranean culture; development of civilization, including monastic, legal, theological, and scholarly traditions that had a major impact on continental Europe; early medieval Irish history; introduction to the world of historical scholarship. Same as HIST:3423.

MDVL:4412 History of the Medieval Church
Development of Christianity to end of great schism; rise of Roman primacy, development of monasticism, orthodox and heterodox groups. Same as HIST:4412.

## Medieval Studies, Certificate

The Certificate in Medieval Studies enables students to combine study in three or more disciplines into an organized investigation of the Middle Ages, a rich historical period that continues to influence today's culture.
Students may earn the Certificate in Medieval Studies as a distinct interest or combine it with focused study in areas such as art history; classics; gender, women's, and sexuality studies; languages (e.g., French, German, Italian, Portuguese, Spanish); music; philosophy; religion; and theater.

## Requirements

The undergraduate Certificate in Medieval Studies requires at least 18 s.h. in medieval studies coursework. Students must maintain a gradepoint average of at least 2.00 in work for the certificate.
The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Courses used to fulfill GE CLAS Core [p. 19] requirements or the requirements of a major or minor may be counted toward the certificate in most cases. Up to 6 s.h. of transfer credit may be counted toward certificate requirements with the Certificate in Medieval Studies coordinating committee's approval; contact the certificate program's coordinator.
The Certificate in Medieval Studies requires the following coursework.

## Courses

Courses may be chosen from the "Associated Courses" below or from medieval studies courses (prefix MDVL) under Courses [p. 792] in this section of the catalog. Students must include courses from at least three different departments; they may count a maximum of 10 s.h. from a single department or program. Students should consult regularly with a medieval studies advisor while planning and completing their program of study.

## Associated Courses

The following courses are approved for the medieval studies certificate. Other courses may be approved for the satisfaction of certificate requirements; students who wish to have a course approved should make a request to the Certificate in Medieval Studies coordinating committee. The coordinating committee revises the list of approved courses as necessary.

## Arabic Language and Literature

| RELS:1225/ | Medieval Religion and Culture | 3 |
| HIST:1025 | Pagans and Christians: |  |
| RELS:3243/ | The Church from Jesus to <br> Muhammad | 3 |
| CLSA:3443 | Biblical Hebrew I | $3-4$ |
| RELS:4001/ | Biblical Hebrew II |  |
| CLSA:4901 |  | 3 |
| RELS:4002/ |  |  |

## Russian

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| RUSS:1532 | Traces of Ancient Russian | 3 |
|  | Culture (IX-XVII Centuries): |  |
|  | Vikings, Mongols, and Tsars |  |

## Spanish and Portuguese

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| SPAN:4690 | Topics in Spanish Literature <br> (when topic is medieval) | 3 |

## Language Courses

The Medieval Studies Program strongly encourages students to complete coursework in a language relevant to the medieval period. Latin is recommended for anyone intending to pursue graduate study in the field. Many language courses have prerequisites, and some are offered irregularly, so students should complete their language coursework as early as possible. The following language courses are approved for the medieval studies certificate.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| ARAB:2001- | Intermediate Modern Standard | 10 |
| ARAB:2002 | Arabic I-II |  |
| CLSL:2001- | World of Cicero - Golden Age | 6 |
| CLSL:2002 | of Roman Poetry |  |
| CLSA:4901- | Biblical Hebrew I-II (same as | $6-7$ |
| CLSA:4902 | RELS:4001-RELS:4002) |  |

## Academic Plans

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Medieval Studies, Certificate

For students with an interest in graduate-level work.
Course Title Hours

Academic Career

## Any Semester

The undergraduate Certificate in Medieval Studies requires at least 18 s.h. in medieval studies coursework.
This sample plan is a suggestion for students planning graduate work in medieval studies.

| MDVL:3226 | Literature and Culture of the Middle <br> Ages $^{\text {a }}$ | 3 |
| :--- | :--- | ---: |
| MDVL:3410 | Medieval Civilization II $^{\text {a }}$ |  |
| ARTH:2420 | Medieval Art from Constantine to $^{\text {Columbus }}{ }^{\text {a }}$ | 3 |
| CLSL:2001 | World of Cicero $^{\text {a }}$ | 3 |
| CLSL:2002 | Golden Age of Roman Poetry $^{\text {a }}$ | 3 |
| ENGL:3286 | Chaucer $^{\text {a }}$ | 3 |
|  | Hours | 3 |
|  | Total Hours | $\mathbf{1 8}$ |

a Students may substitute this course for another approved medieval studies course (refer to the General Catalog for a list of approved courses). Students must include courses from at least three different departments in their work for the certificate; they may count a maximum of $10 \mathrm{~s} . \mathrm{h}$. from a single department or program.

## Museum Studies

Chair, Department of Anthropology

## Undergraduate certificate: museum studies

Faculty: https://museumstudies.sites.uiowa.edu/contacts
Website: https://museumstudies.sites.uiowa.edu/
Museum studies has a long history at the University of Iowa, with courses offered continuously since 1910.

Museums embrace every aspect of human experience. Iowa's Museum Studies Program reflects this multiplicity, and includes students from many fields, including American studies, anthropology and archaeology, art, biology, business, communication studies, earth and environmental sciences, elementary and secondary education, English, world languages, history, and library and information science.

Instructors for museum studies courses reflect the program's interdisciplinary nature. They include faculty members from anthropology, art and art history, business, history, library and information science, and other related fields.

The Museum Studies Program holds academic memberships with the American Association for State and Local History and the Iowa Museum Association. These connections offer museum studies students opportunities for internships, professional networking, and career development. In addition to offering a wide range of on-campus courses, the certificate also can be earned online with a growing number of online courses.

The Museum Studies Program is administered by the Department of Anthropology.

## Programs

## Undergraduate Program of Study

## Certificate

- Certificate in Museum Studies [p. 797]

## Facilities

Museum studies students have access to a wide variety of museums and related resources, including the following University of Iowa museums: the Museum of Natural History, the Stanley Museum of Art, the Old Capitol Museum, the Medical Museum, and the Karro Athletic Hall of Fame.
The Museum Studies Program also maintains close connections with a number of local, community-based museums and organizations.

## Museum Studies Courses

## MUSM:2850 Museums and Social Justice

Exploration of museums as institutions that frame social justice, promote equity of access through social bridging, and at times, address and challenge social ills directly through exhibits and programs; case studies and dialogue.

## MUSM:3001 Introduction to Museum Studies

3 s.h.
Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Stanley Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as ANTH:3001, EDTL:3001, SIED:3001.

MUSM:3003 Natural History Research Collections 3 s.h.
Techniques, methods, and issues specific to natural history research collections; practice in preparing and cleaning specimens; role of natural history specimens in modern scientific research. Recommendations: basic understanding of the diversity of plants and animals and natural history museum collections, MUSM:3001 or MUSM:3200, and BIOL:1411 or BIOL:1412; or other experience. Same as EES:3003.

MUSM:3004 Exhibition Planning
3 s.h.
Preliminary work for and process of developing museum exhibitions; history of exhibit design, evaluation, budgets, teams and team member roles, working with community and special interest groups, methods of production and display; students research a topic, choose artifacts and images, and create a narrative and exhibit script. Prerequisites: MUSM:3001.

## MUSM:3091 Topics in Museum Studies

1 s.h.
Systematic and analytic methods used for research in physical collections; tutorials in collection building, curation, and preservation designed by UI Collections Coalition.
MUSM:3100 Historic House Management and Preservation 3 s.h. Historic house museums make up more than half of all museums in the United States; focus on management, preservation, and interpretation of historic houses as sites of historic memory and public engagement.
MUSM:3105 Engaging Museum Audiences
3 s.h.
Effective audience engagement requires museums to meet visitors halfway; employing learning theories, knowledge of audience, and innovative examples from the field; students investigate a variety of approaches that are visitor-centered, interdisciplinary, and locally focused. Prerequisites: MUSM:3001.

## MUSM:3115 Museum Education and Interpretation 3 s.h.

Examination of the educational role of museums; educational theory, audience development, teaching strategies, accessibility, and evaluation within museum context; community-engaged project and collaboration with museum to develop curriculum and educational resources. Same as EDTL:3115.

## MUSM:3120 Museum Origins 3 s.h.

History of museums; origin, character, and evolution into content specific institutions; anecdotes and personalities; how museums influenced society and their continuing relevance to a technological world.
MUSM:3125 Museums in a Digital World
3 s.h.
Digital technologies streamline internal museum processes while exponentially increasing the capacity of individuals to engage with museum collections; explores the digitized strategies and systems that democratize access and enhance museum visitor experiences.
MUSM:3131 Museum Evaluation and Visitor Studies 3 s.h.
3 s.h. Students explore evaluation theory, methodologies, and practical application through case studies and hands-on activities from all types of museum experiences (e.g., programs, exhibitions, wayfinding, interpretive technology) from both staff and visitor perspective. Prerequisites: MUSM:3001.
MUSM:3200 Collection Care and Management 3 s.h.
How a museum's management policy relates to its administrative, legal, and ethical obligations to its collections; acquisitions, deaccessions, collection use, data standards, storage environment, health, safety, documentation. Same as EES:3200.

MUSM:3237 Politics of the Archaeological Past
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, Indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as ANTH:3237, HIST:3137.

MUSM:3500 Nonprofit Organizational Effectiveness I $\mathbf{3}$ s.h.
Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as ENTR:3595, MGMT:3500, NURS:3595, RELS:3700, SSW:3500.
MUSM:4045 Art, Law, and Ethics 3 s.h.
How law and ethics apply to individuals and institutions concerned with visual arts. Same as LAW:8164.
MUSM:4081 The Art Museum: Theory and Practice 3 s.h. Introduction to different aspects of art museums; emphasis on roles of art historians, especially curatorial practice; current and historical theories and practices of art exhibitions; varying debates of the politics of display; art museum professions; the many facets of art exhibition preparation; the University of Iowa Stanley Museum of Art collections. Same as ARTH:4081.

## MUSM:4084 Museum Professionalism

1-3 s.h.
Opportunity to apply core concepts learned in other courses through an in-depth service learning experience within a museum; students complete a minimum of 40 hours per credit hour of primarily independent work for a museum or like organization under the supervision of a staff member and faculty advisor; development of a digital portfolio reflecting on project activities. Prerequisites: MUSM:3001.

## MUSM:4130 Museum Literacy and Historical Memory 3 s.h.

Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as HIST:4130.

MUSM:4150 Introduction to Grant Writing 3 s.h.
Comprehensive training in grant proposal writing; basics of project development and management; core principles for writing small and large proposals to public and private funding sources; finer points of grant writing to increase competitiveness of future proposals and applications; for students with limited grant writing experience. Same as EALL:4130.

## MUSM:4200 Museum Object Preservation 3 s.h.

Detailed study of specific types of museum objects, their materials, and care; topics include care, storage, and preservation of paper, books, photographs, works of art, electronic media, textiles, furniture, archaeological artifacts, and natural history specimens; students complete a curatorial project and gain hands-on practice in basic object cleaning and making enclosures and supports; for students planning museum careers or taking care of collections as part of their professional responsibilities. Same as EES:4200.

3 s.h. MUSM:4310 Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South 3-4 s.h. Comparative study of museums, memorials, statues, performances, and artistic works that encapsulate the entangled history and memory of transoceanic slave trades and slavery in the United States, the Caribbean, the Indian Ocean, Sub-Saharan Africa, and Europe (France and the United Kingdom); critical tools to analyze public debates over politically charged monuments; exploration of transnational and political predicaments of the contemporary world; approaches include trauma theories, memory studies, history, postcolonial ecocriticism, cultural anthropology, heritage studies and museology, and Francophone cultural critique. Taught in English. Requirements: for 4 s.h. option-prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4210, WLLC:4210.

## Museum Studies, Certificate

The museum studies program provides a broad foundation of knowledge increasingly valued in the museum field. Museum studies courses introduce students to the spectrum of museum endeavors, from organization and mission planning to institutional histories and current developments in the field. Many courses developed by the program offer hands-on experience in exhibition planning and design, collection management, educational programming, community development, and administration.

## Requirements

The undergraduate Certificate in Museum Studies requires 18 s.h. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.
College of Liberal Arts and Sciences students who are interested in museum studies may earn the certificate, or they may use the individualized plan of study track in the interdepartmental studies major to create a museum studies concentration relevant to their academic and professional interests.
Work for the certificate consists of two introductory courses, a minimum of four courses on specific museum studies topics, and an internship. Students must request permission from the coordinator of the museum studies certificate to use courses that are not included in the program, and the proposed course content and requirements must fit into one of the program's defined areas.

The Certificate in Museum Studies requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Introductory Courses | 4 |
| Museum Studies Topic Areas | 12 |
| Museum Studies Internship | 2 |

## Introductory Courses

Students should begin the certificate with MUSM:3001 Introduction to Museum Studies and MUSM:3091 Topics in Museum Studies, which are prerequisites for some of the program's more advanced courses. These courses provide a historical overview of museum development and function while introducing students to issues such as museum governance and financing, ethics and law, collection management, exhibition and educational programming, interpretation, and audience research.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUSM:3001 | Introduction to Museum Studies | 3 |
| MUSM:3091 | Topics in Museum Studies | 1 |

## Museum Studies Topic Areas

Students complete a minimum of four courses in museum studies topic areas, choosing from the lists below. The areas are collection care and management; exhibition development and public education; history, theory, and culture; and museum administration and management.

Students must select one course each from three of the four topic areas ( 9 s.h. total). They also must complete a fourth course ( 3 s.h.) from any of the four topic areas.

Collection Care and Management

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUSM:3003 | Natural History Research | 3 |
| Collections |  |  |
| MUSM:3200 | Collection Care and <br>  <br> Management | 3 |
| MUSM:4200 | Museum Object Preservation | 3 |

Exhibition Development and Public Education

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUSM:3004 | Exhibition Planning | 3 |
| MUSM:3105 | Engaging Museum Audiences | 3 |
| MUSM:3115 | Museum Education and | 3 |
|  | Interpretation |  |
| MUSM:3125 | Museums in a Digital World | 3 |

History, Theory, and Culture

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUSM:2850 | Museums and Social Justice | 3 |
| MUSM:3120 | Museum Origins | 3 |
| MUSM:3237 | Politics of the Archaeological <br> Past | 3 |
| MUSM:4081 | The Art Museum: Theory and <br> Practice | 3 |
| MUSM:4130 | Museum Literacy and Historical <br> Memory | 3 |
| MUSM:4310 | Slavery Museums, Memorials, <br> and Statues in the United States, | $3-4$ |
|  | Europe, and the Global South |  |

## Museum Administration and Management

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUSM:3100 | Historic House Management <br> and Preservation | 3 |
| MUSM:3131 | Museum Evaluation and Visitor <br> Studies | 3 |
| MUSM:3500 | Nonprofit Organizational <br> Effectiveness I | 3 |
| MUSM:4150 | Introduction to Grant Writing | 3 |

## Museum Studies Internship

After completing at least 12 s.h. of the required coursework above, students must complete one of the following internships, earning a minimum of 2 s.h.
The Certificate in Museum Studies coordinator and Pomerantz Career Center staff work closely with students and affiliated faculty members to ensure that the internship provides students with the instruction and experience they need.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUSM:4084 | Museum Professionalism | 2 |
| CCP:1201 | Academic Internship | 2 |

## Online Option

Those with an interest in furthering their education in museum studies and who live outside of the Iowa City area may be interested in pursuing the certificate online.

Museum studies students have become directors, curators, educators, and exhibit specialists in museums throughout the country.

## Music

Director, School of Music

- Tammie Walker

## Associate Directors

- Alan Huckleberry, David Puderbaugh

Undergraduate major: music (BA, BM)
Undergraduate minor: music
Graduate degrees: MA in music; PhD in music; DMA
Graduate minor: theory pedagogy
Faculty: https://music.uiowa.edu/people
Website: https://music.uiowa.edu/
The University of Iowa School of Music is prominent in a fine arts community of international repute. It has long been recognized as one of the excellent university-based music schools in the United States.
The school's on-campus enrollment of approximately 450 music majors is large enough to sustain strong programs in all areas of specialization, yet small enough to ensure the individual attention essential to each student's development.
The faculty consists of highly trained artist-teachers in each specialization area and scholars of international distinction. Private lessons with faculty members are offered in all band and orchestra instruments, and in jazz studies, organ, piano, and voice.
The school's undergraduate programs offer all qualified students, whether music majors or nonmajors, the opportunity for further study of music. In addition to its comprehensive course offerings for majors, the school provides a substantial selection of courses especially recommended for nonmajors and several approved for the GE CLAS Core [p. 19] (see "Courses for Nonmajors" below).
Graduate programs in music are designed primarily to prepare students for teaching in secondary schools, colleges, and universities and for careers in performance and music therapy.

The School of Music is a charter member of the National Association of Schools of Music. The requirements for entrance and for graduation are in accordance with the association's published standards.
The School of Music participates in offering the Certificate in Public Digital Arts [p. 938].

## Courses for Nonmajors

The School of Music offers a wide range of courses that are appropriate for non-music majors. Courses about jazz, music and culture, music history, music software, and other topics are available as well as individual instruction on a number of instruments and voice; see School of Music Courses [p. 804] in this section of the catalog.
Several School of Music courses are approved for the GE CLAS Core; look for courses with the prefix MUS under "Historical Perspectives," "Literary, Visual, and Performing Arts," and "Values and Culture" in the GE CLAS Core [p. 19] section of the catalog.
For course descriptions, see School of Music Courses in this section of the catalog.
Participation in School of Music ensembles is open to all University of Iowa students with the ensemble director's approval. Major ensembles are as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUS:1176 | Voxman Chorale | 1 |
| MUS:1180 | Campus Symphony Orchestra | 1 |

| MUS:3160 | Symphony Band/Concert Band | 1 |
| :--- | :--- | :--- |
| MUS:3170 | Kantorei | 1 |
| MUS:3172 | Camerata Singers | 1 |
| MUS:3174 | University Choir | 1 |
| MUS:3180 | Orchestra | 1 |

Other courses recommended for music nonmajors include the following.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| MUS:1000 | First-Year Seminar | 1 |
| MUS:1001 | Group Piano I: Non-Music Majors | 1 |
| MUS:1002 | Group Piano II: Non-Music Majors | 1 |
| MUS:1007 | Garage Band: The Basics | 2 |
| MUS:1009 | Jazz Cultures in America and Abroad | 3 |
| MUS:1010 | Recital Attendance for Nonmajors | 1 |
| MUS:1012 | Creativity in Music | 3 |
| MUS:1020 | Performance Instruction for Nonmajors (interested students should consult with the instructor of their instrument) | 1 |
| MUS:1066 | Introduction to Film Music | 3 |
| MUS:1100 | Fundamentals of Music for Non-Music Majors | 3 |
| MUS:1201 | Musicianship and Theory I | 4 |
| MUS:1301 | Concepts and Contexts of Western Music | 3 |
| MUS:1302 | Great Musicians | 3 |
| MUS:1303 | Roots, Rock, and Rap: A History of Popular Music | 3 |
| MUS:1310 | World Music | 3 |
| MUS:1720 | History of Jazz | 3 |
| MUS:1800 | World of the Beatles | 3 |
| MUS:2005 | Issues in Popular Music: <br> Women Who Rock | 3 |
| MUS:2106 | Improvisation for Classical Musicians | 3 |
| MUS:2160 | Drumline Techniques | 1 |
| MUS:2301 | History of Western Music I | 3 |
| MUS:2302 | History of Western Music II | 3 |
| MUS:2311/LAS:2311 | Music of Latin America and the Caribbean | 3 |
| MUS:3851/ <br> DANC:3851 | Introduction to the Alexander Technique | 3 |

## Applied Music

Instruction in applied music consists of individual and/or class lessons, at the instructor's option, for a minimum of one hour per week (students register for 2 s.h.). Music majors are required to attend weekly performance and pedagogy seminars in applied music. Courses are offered on a fee-per-course basis, in addition to tuition, and may be repeated.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUS:2020 | Lower Level Voice | 2 |
| MUS:2021 | Lower Level Piano | 2 |
| MUS:2022 | Lower Level Organ | 2 |
| MUS:2023 | Lower Level Violin | 2 |

| MUS:2024 | Lower Level Viola | 2 |
| :---: | :---: | :---: |
| MUS:2025 | Lower Level Cello | 2 |
| MUS:2026 | Lower Level String Bass | 2 |

## Music Education

The College of Education offers additional music education courses; see Teaching and Learning [p. 1362] in the catalog for listings and descriptions. Some courses are cross-referenced with both departments, one for the School of Music and the other for the College of Education. Students preparing for music teacher licensure should register under the education number.
Also see MUS:3760 Jazz Band Techniques under "Jazz Studies" above.

## Programs

## Undergraduate Programs of Study

## Majors

- Major in Music (Bachelor of Arts) [p. 815]
- Major in Music (Bachelor of Music) [p. 825]

## Minor

- Minor in Music [p. 836]

## Graduate Programs of Study Majors

- Master of Arts in Music [p. 838]
- Doctor of Philosophy in Music [p. 840]
- Doctor of Musical Arts [p. 844]

## Minor

- Minor in Theory Pedagogy [p. 845]

## Facilities <br> The School of Music is housed in the Voxman Music Building, a state-of-the-art facility in the heart of the downtown campus that opened in the fall of 2016. The 190,000 square-foot building includes a 700-seat concert hall; 200-seat recital hall; organ performance hall; opera and chamber music rehearsal spaces; faculty studios; classrooms; practice rooms; specialized facilities for music therapy, electronic music, and percussion; and light-filled public and social

spaces. The building features the latest instructional and recording technology, and superior acoustic ambience and isolation.

## Center for New Music

The Center for New Music is a vital component of the School of Music's composition program. Since its founding in 1966, the center has been both laboratory and showcase for late 20th- and 21st-century music. It presents at least four concerts of contemporary works each academic season. It also provides a forum for visiting composers and other creative artists, bringing new music to a variety of outreach venues. Audition, rehearsal, and programming information is available on the Center for New Music website.

## Rita Benton Music Library

The Rita Benton Music Library is located on the first floor of the Voxman Music Building. The music library holds more than 90,000 scores, including chamber music sets; 54,000 books; 125 active periodical subscriptions; and 46,000 media items in all formats. The Arthur and Miriam Canter Rare Book Room holds around 3,000 rare books and scores and has particular strengths in 18th- and 19thcentury music theory treatises and instrumental methods, and an outstanding collection of keyboard and chamber music of Ignaz Pleyel. Additional music collections of note are housed in Special Collections and Archives, including the Goldman Band Records; the University of Iowa's Center for New Music papers; and papers of composers Philip Greeley Clapp, William Hibbard, and Donald Martin Jenni. The music library holds the School of Music Recordings Archive, including faculty recital and ensemble concert program, audio recordings, and video recordings.
The music library's online subscriptions include research tools such as Grove Music Online, RILM, RIPM, RIPM Jazz, Music Index, Music Periodicals Database, and the Oxford Music Bibliographies. Streaming media resources include Naxos Music Library, Berlin Philharmonic Digital Concert Hall, Met Opera on Demand: Student Access, and Music Online.

Materials circulate to University of Iowa faculty and students and to institutions that have reciprocal agreements for interlibrary loan services with the university, including UBorrow within the Big Ten Academic Alliance.

## Courses

Several School of Music courses are especially appropriate for nonmusic majors. Some are approved for the GE CLAS Core; look for them (prefix MUS) under "Historical Perspectives," "Literary, Visual, and Performing Arts," and "Values and Culture" in the GE CLAS Core [p. 19] section of the catalog.

Applied music instruction consists of individual and/or class lessons, at the instructor's option, for a minimum of one hour per week (students register for 2 s.h.), or one half-hour per week (students register for 1 s.h.). Music majors are required to attend weekly performance and pedagogy seminars in applied music. Courses are offered on a fee-per-course basis, in addition to tuition, and may be repeated.

## Music Courses

MUS:1000 First-Year Seminar
1 s.h.
An aspect of performance, creativity, musical literature, or scholarship; seminar format with classroom participation, papers, projects, other assignments; may require attendance at lectures, rehearsals, or performances. Requirements: first- or second-semester standing.

MUS: 1001 Group Piano I: Non-Music Majors
1 s.h.
Reading, technical study, chording, playing by ear, improvisation; for beginners. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.
MUS:1002 Group Piano II: Non-Music Majors 1 s.h Continuation of MUS:1001. Requirements: non-music major.
MUS:1007 Garage Band: The Basics
2 s.h.
Application of GarageBand software (Mac platform) using midi keyboards; composition and music theory for projects using drag-anddrop looping, multitrack recording, sound effects, mixing, importing music for composition. GE: Engineering Be Creative.
MUS:1009 Jazz Cultures in America and Abroad 3 s.h.
How to listen to jazz and recognize a variety of processes that are taking place in performances and recordings; historical, social, and political issues, including race and gender; the unique blend of jazz of a particular region; attendance at live performances, meet and interview musicians, critics, and educators. GE: Literary, Visual, and Performing Arts; Values and Culture.

MUS:1010 Recital Attendance for Nonmajors 1 s.h. Musical experience through student, faculty recitals.
MUS:1012 Creativity in Music 3 s.h.
Where does music come from? When, why, and how did people first start making music? How do music creators turn raw inspiration into finished pieces? How do improvisers create music on the spot? Can anyone create music or is that something only for composers? Development of music creation from long ago to present day; presentations by guest composers and performers who will demonstrate how they compose or improvise their music. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

## MUS:1020 Performance Instruction for Nonmajors 1 s.h.

One thirty-minute weekly lesson in one of the following areas: bassoon, cello, clarinet, composition, euphonium, flute, harp, horn, jazz studies instruments, oboe, organ, percussion, piano, saxophone, string bass, trombone, trumpet, tuba, viola, violin, or voice. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.

## MUS:1066 Introduction to Film Music

 3 s.h.Major styles and composers of film music from early 20th century to the present; focus on case studies to understand different roles music can play in cinema; opportunities to employ critical thinking and listening skills to analyze particular films or key scenes. GE: Literary, Visual, and Performing Arts.
MUS:1100 Fundamentals of Music for Non-Music Majors 3 s.h. Notation of pitch and rhythm, intervals, scales, key signatures, triads, and seventh chords. Requirements: non-music major.
MUS:1120 Secondary Performance - Voice 1 s.h.
Requirements: music major.
MUS:1121 Secondary Performance - Piano
1 s.h.
Requirements: music major.
MUS:1122 Secondary Performance - Organ 1 s.h.
Seminar and lessons arranged. Requirements: music major.
MUS:1123 Secondary Performance - Violin 1 s.h.
MUS:1124 Secondary Performance - Viola 1 s.h.
MUS:1125 Secondary Performance - Cello 1 s.h.
MUS:1126 Secondary Performance - String Bass 1 s.h.
MUS:1127 Secondary Performance - Flute 1 s.h.
MUS:1128 Secondary Performance - Oboe 1 s.h.
MUS:1129 Secondary Performance - Clarinet 1 s.h.
MUS:1130 Secondary Performance - Bassoon 1 s.h.
MUS:1131 Secondary Performance - Saxophone 1 s.h.

MUS:1132 Secondary Performance - Horn<br>MUS:1133 Secondary Performance - Trumpet<br>MUS:1134 Secondary Performance - Trombone<br>MUS:1135 Secondary Performance - Euphonium<br>MUS:1136 Secondary Performance - Tuba<br>MUS:1137 Secondary Performance - Percussion<br>MUS:1138 Secondary Performance - Jazz

Seminar and lessons arranged. Requirements: music major.
MUS:1139 Secondary Performance - Composition
Individual lessons for non-composition majors that help to prepare a portfolio for entrance into the composition area. Corequisites: MUS:1201 and MUS:1202 and MUS:2203 and MUS:2204.

## MUS:1160 University Band

Participation in University Band.
MUS:1165 Hawkeye Marching Band
1 s.h.

Offered fall semesters.
MUS:1166 Large Pep Band
Performing ensemble for basketball games and wrestling meets. Requirements: membership by audition.
MUS:1176 Voxman Chorale
Auditioned choral ensemble; for students who sing in soprano or alto range.
MUS:1180 Campus Symphony Orchestra 0-1 s.h.
Repertoire, rehearsal pacing, and performance expectation geared to general students. Open to all UI students with no audition.
MUS:1200 Fundamentals of Music for Majors 0 s.h.
Rudiments of music-notation of pitch and rhythm, meter, scales, keys, intervals, triads. Corequisites: MUS:1201. Requirements: successful completion of placement exam A or concurrent enrollment in MUS:1201.
MUS:1201 Musicianship and Theory I
4 s.h.
Principles of harmony; emphasis on aural skills, theoretical concepts, notation. Offered fall semesters. Requirements: successful completion of placement exam A, an AP score of 3, or concurrent enrollment in MUS:1200.
MUS:1202 Musicianship and Theory II 4 s.h. Continuation of MUS:1201. Offered spring semesters. Prerequisites: MUS:1201. Requirements: MUS:1212 or successful completion of piano proficiency exam.

## MUS:1210 Recital Attendance

1 s.h.
Requirements: music major.
MUS:1211 Group Instruction in Piano I
1 s.h.
Beginning instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; skill development in sight reading, technique, harmonization, transposition, improvisation, simple literature. Corequisites: MUS:1201.
Requirements: music major.
MUS:1212 Group Instruction in Piano II
Elementary to early intermediate instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; continued skill development begun in MUS:1211; introduction of easy solo and ensemble literature. Corequisites: MUS:1202. Requirements: MUS:1211 or successful completion of proficiency examination.
MUS:1301 Concepts and Contexts of Western Music 3 s.h. Ideas, social and historical contexts, emergence of genres and styles, diverse performing traditions in music making of Europe and North America. Recommendations: non-music major. GE: Literary, Visual, and Performing Arts. 1 s.h. 1 s.h. 1 s.h.

1 s.h.

1 s.h. MUS: 1302 Great Musicians 3 s.h.
1 s.h. Lives and works of important composers, performers. Recommendations: non-music major. GE: Literary, Visual, and Performing Arts.
1 s.h. MUS: 1303 Roots, Rock, and Rap: A History of Popular

Italian and German pronunciation for singing; basics of international phonetic alphabet; no previous background required.
MUS:1687 Orientation to Music Therapy 2 s.h.
Theory, practice; typical clients and places of employment in music therapy.
MUS:1711 Jazz Rhythms and Interpretation I
1 s.h.
Methods for sight-reading and interpreting jazz notation.

## Requirements: music major or audition.

MUS:1712 Jazz Rhythms and Interpretation II 1 s.h.
Connection of rhythm-body principle-where movement and motion connects directly with rhythmic motifs and patterns; advanced rhythmic concepts (e.g., odd meters, borrowed note-groupings, unconventional notation); Latin, West African, and non-Western concepts of rhythm; for BM jazz majors and music majors wanting more in-depth, advanced interaction with jazz rhythms and phrasing; second in a two-course sequence. Requirements: music major.

## MUS: 1720 History of Jazz

3 s.h.
Major 20th-century styles, artists, seminal works, and recordings; developments between 1917 and 1972. GE: Literary, Visual, and Performing Arts; Values and Culture.
MUS:1740 The Art of Listening to Jazz 3 s.h.
What is jazz and its importance; guided introduction to jazz music, anatomy of jazz music, cultural context; development of skills to become an informed listener; process of performing jazz music, its connection with Black culture; focused listening/analysis of prominent jazz artists' work from past and present, including intersection between jazz and hip hop; formal music experience or training not required. GE: Literary, Visual, and Performing Arts. Same as AFAM:1240.
MUS:1741 The Soundtrack of Black America 3 s.h. Linkage of African American culture and music; Black musical innovations that shaped mainstream American musical tastes over the last century; exploration of relationship between Black music and culture; examples of blues, jazz, gospel, hip hop; artists including Bessie Smith (blues), Mahalia Jackson (gospel), Miles Davis (jazz), Nas and Talib Kweli (hip hop). GE: Diversity and Inclusion. Same as AFAM:1241.
MUS:1800 World of the Beatles 3 s.h.
How the Beatles' music was influenced by American pop music, the drug culture, and the avant-garde, nonwestern instruments and philosophy, anti-war sentiments, world politics, and so forth; Beatlemania's impact on British and American cultures and its role in opening Eastern Europe to the West. GE: Literary, Visual, and Performing Arts.

MUS:2005 Issues in Popular Music: Women Who Rock History of popular female musicians and the influence of their $\mathbf{3}$ music, and performances on American and British cultures; how women's musical careers have been influenced by civil rights, the British invasion (Beatles, Rolling Stones), second-wave feminism, postfeminism, Vietnam, counterculture, social injustice, music education, rock festivals, charity concerts. GE: Literary, Visual, and Performing Arts.

## MUS:2020 Lower Level Voice <br> 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:2021 Lower Level Piano 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: piano major or approval of the area following a successful audition.

## MUS:2022 Lower Level Organ 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:2023 Lower Level Violin 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:2024 Lower Level Viola 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2025 Lower Level Cello 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:2026 Lower Level String Bass 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:2027 Lower Level Flute 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:2028 Lower Level Oboe 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2029 Lower Level Clarinet
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2030 Lower Level Bassoon 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:2031 Lower Level Saxophone 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:2032 Lower Level Horn

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly
performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:2033 Lower Level Trumpet 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly
performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2034 Lower Level Trombone 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2035 Lower Level Euphonium 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly
performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:2036 Lower Level Tuba 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly
performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:2037 Lower Level Percussion 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly
performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2038 Lower Level Jazz 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: jazz studies major or audition.

MUS:2106 Improvisation for Classical Musicians 3 s.h.
Theory and practice in beginning nonjazz improvisation; development of aural and rhythmic skills, creation of rhythms and melodies, use of timbres and extended techniques in expression, development of instrumental technique for improvisation, practical understanding of harmony and form, experience in solo and accompaniment roles, creation of short pieces as vehicles for improvisation. Requirements: one year of music theory.

## MUS:2160 Drumline Techniques

1 s.h.
Training and experience in contemporary marching percussion and rudimental drumming techniques.
MUS:2203 Musicianship and Theory III 4 s.h.
Continuation of MUS:1201 and MUS:1202; focus on commonpractice repertory. Offered fall semesters. Prerequisites: MUS:1202.
MUS:2204 Musicianship and Theory IV 4 s.h. Continuation of MUS:1201, MUS:1202, and MUS:2203; focus on late 19th- and early 20th-century repertories. Offered spring semesters. Prerequisites: MUS:2203.

## MUS:2206 Form and Analysis

3 s.h.
Analysis of musical forms and procedures, including 18th- and 19thcentury tonal repertoires. Prerequisites: MUS:2204. Requirements: undergraduate standing.

## MUS:2207 Introduction to Popular Music <br> 3 s.h.

Analysis of major styles of popular music including rock, country, hip-hop, dance, and rhythm and blues ( $\mathrm{R} \& B$ ); conventional notational methods and rudimentary use of digital audio workstations (e.g., Ableton, Logic); students read and compose in a variety of endemic to American popular music from the last century. Prerequisites: MUS:2204.

## MUS:2213 Group Instruction in Piano III

1 s.h.
Varies by semester: skills for the music therapy profession, sightreading, harmonization, transposition, reading from a fake book, and improvisation (fall); skills for the music education profession, sight-reading, harmonization, transposition, score, and hymn reading (spring). Requirements: music therapy, music education, or piano major.

## MUS:2220 Composition

1-2 s.h.
Individual lessons with a composition faculty member. Corequisites: MUS:3230. Requirements: admission to BM composition concentration.

## MUS:2301 History of Western Music I

3 s.h.
Recommendations: MUS:1201 and MUS:1202 for music majors. GE: Historical Perspectives; Literary, Visual, and Performing Arts.
MUS:2302 History of Western Music II 3 s.h.
Recommendations: MUS:1201 and MUS:1202 for music majors. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

## MUS:2311 Music of Latin America and the Caribbean

3 s.h.
Folk and popular musical traditions and their social contexts in Latin America, the Caribbean; listening skills; video/film screenings. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as LAS:2311.

## MUS:2450 India Beat: The Aesthetics and Politics of India

 TodayWays in which music forms a crucial part of Indian public sphere, reflecting and shaping culture, society, and economy; wide range of genres commonly performed and heard across India and South Asia today (i.e., film music, several folk forms, classical, semiclassical, Indipop, rock) and locating each of them in their respective historical, cultural, and socioeconomic contexts; exploration of themes and questions (i.e., emergence and impact of technologies of mass production, distribution of music in colonial and post-independence India). GE: Values and Culture. Same as ASIA:2450.

MUS:2510 Diction for Singers II
2 s.h.
French and English pronunciation for singing. Prerequisites: MUS:1510.

MUS:2630 Introduction to the Psychology of Music 3 s.h. Processes by which people perceive, respond to, create, and use music in their daily lives; basic physics of musical stimuli, psychoacoustics of musical perception, principles of musical cognition, neurological and physiological responses to music, theories of musical learning and development, and social psychology of musical activity; previous musical performing experience helpful but not required. GE: Social Sciences. Same as EDTL:2630.

MUS:2671 Music Foundations in Therapy I
Skill development on social instruments such as guitar, autoharp, piano; percussion, song-leading skills, and repertoire development for use in clinical music therapy sessions. Prerequisites: MUS:1687. Requirements: music therapy major.
MUS:2672 Music Foundations in Therapy II 2 s.h.
Advanced skill development on guitar for use in clinical music therapy sessions; percussion techniques, and related skills used in therapeutic settings. Prerequisites: MUS:2671. Requirements: music therapy major.

## MUS:2800 Digital Arts: An Introduction

3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, DANC:2800, DIGA:2800, THTR:2800.
MUS:2820 Electronic Music Production
3 s.h.
Improvement of listening skills through critical study of recorded music in a variety of styles; hands-on, weekly creative challenges in electronic music studio to gain skills working with Musical Instrument Digital Interface (MIDI) instruments, samples, and student's own recorded audio; transformation of sounds creatively using editing, effects, and more; generation of musical ideas using a variety of approaches; introduction to elements of mixing (balance, frequency range, space); demonstration of techniques using Reaper, Ableton, or Logic; for students with some experience using computers to make music. Requirements: presentation of one production, any style, with a minimum duration of one minute.
MUS:3001 Introduction to Jazz Improvisation 3 s.h.
Introduction to the practice of improvisation through performance of repertoire and the development of practicing strategies; exercises in melody, harmony, rhythm and transcription that together form an integrated approach to developing improvisations. Corequisites: MUS:1201. Requirements: audition.

## MUS:3020 Upper Level Voice

2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3021 Upper Level Piano 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: piano major or approval following a successful audition.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:3023 Upper Level Violin 2 s.h
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:3024 Upper Level Viola 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:3033 Upper Level Trumpet 2 s.h
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:3025 Upper Level Cello

2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:3026 Upper Level String Bass 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:3027 Upper Level Flute 2 s.h
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:3028 Upper Level Oboe 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:3029 Upper Level Clarinet 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

## MUS:3030 Upper Level Bassoon <br> 2 s.h.

Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:3031 Upper Level Saxophone 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3034 Upper Level Trombone 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:3035 Upper Level Euphonium 2 s.h. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:3036 Upper Level Tuba 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:3037 Upper Level Percussion 2 s.h
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3038 Upper Level Jazz
2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: jazz studies major or approval following a successful audition.
MUS:3055 Interdisciplinary Science of Sound and Hearing 3 s.h. Introduction to physics of sound, biology/psychology of hearing, and audio technology; theories and experimental methods; music, speech, and environmental sounds. Same as CSD:3119, PSY:3055.

MUS:3140 Audition Repertoire
Practicum on passages frequently requested at professional auditions.
MUS:3150 Percussion Ensemble
1 s.h.
Range of styles and idioms, primarily written during the 20th and 21st centuries; historical or cultural aspects such as ancient rudimental drumming styles, ragtime, jazz, popular music, and music from Africa, the Caribbean, Brazil, Cuba, China.
MUS:3151 Percussion Chamber Ensemble
1 s.h.
Advanced percussion ensemble experience to complement work in larger format percussion ensemble; preparation and performance of most important repertoire for percussion ensemble; new works brought to light in a small chamber group setting. Requirements: upper-level undergraduate or graduate percussion major.

MUS:3162 All University Steel Band 1-3 s.h.
Musical and cultural introduction to steel band music of Trinidad and other Caribbean musical styles, including calypso, soca, ska, and reggae.
MUS:3163 Iowa Steel Band
1 s.h.
Small group steel band experience for more advanced players with experience playing steel pans.
MUS:3170 Kantorei
MUS:3172 Camerata Singers
1 s.h.
1 s.h.
1 s.h.
MUS:3174 University Choir
MUS:3180 Orchestra
1 s.h.
MUS:3182 Chamber Orchestra
Requirements: upper-level undergraduate standing.
MUS:3190 Center for New Music Ensemble 1 s.h.
Participation in the Center for New Music; focus on contemporary composition and performance, 20th- and 21st-century repertoire and styles.
MUS:3230 Composition Seminar
Corequisites: MUS:2220 and MUS:5220.
MUS:3280 Spectral Nature of Sound: Acoustics, Analysis, and Resynthesis

3 s.h.
Fourier, fast Fourier transform (FFT), and inverse FFT, including spectral analysis and processing in Max; for composers, performers, and music theorists interested in the nature of sounds and their manipulation.

## MUS:3285 New Musical Instruments: From Design to <br> Performance

3 s.h.
Acoustic principles of selected traditional instruments (e.g., winds, strings, percussion) as well as principles of electroacoustic sound production (e.g., analog synthesizers, microphones, transducers); students work in teams to build, test, and improve their own musical instrument and experiment with its playing modes; projects may include inharmonic variations upon classical instruments, musical bots, guitar or voice-processing pedals, transducer-driven DIY Gamelans, and more; for composers, performers, engineers, and sound enthusiasts who want to design, build, and/or perform with new musical instruments. GE: Engineering Be Creative. Same as DIGA:3285.
MUS:3400 Methods of Teaching Piano 2 s.h.
Methods, materials, and teaching techniques for preschool students, precollege students, and adult learners. Requirements: keyboard major.
MUS:3410 Fundamentals of Piano Technology 1 s.h.
Offered spring semesters. Requirements: music major.
MUS:3480 Piano Accompaniment
Collaborative arts techniques, methods, and history.
1 s.h.
1 s.h.
MUS:3481 Piano Chamber Music 1-2 s.h.
Requirements: music major.
MUS:3482 String Chamber Music
MUS:3483 Baroque Seminar for Strings
Introduction to Baroque performance practices and techniques on period string instruments; ensembles. Requirements: enrollment in upper-level or graduate-level applied studies.

## MUS:3485 Wind Chamber Music 1-2 s.h.

Preparation, performance of representative literature; sections for woodwinds, brass, flute, clarinet, horn, saxophone, double reed, trumpet, trombone, brass choir, tuba/euphonium ensemble.

MUS:3489 Chamber Music Residency Program
Focused exploration of chamber music literature through small ensemble experiences; students are assigned a group to work with and groups rehearse independently a minimum of two hours per week; weekly one-hour coaching with a faculty member; attendance at weekly seminars; opportunity to explore the national chamber music scene and learn about various aspects of pursuing a chamber music career through interactions with faculty, guest lecturers, and master classes provided by visiting performers of the UI String Quartet Residency Program.
MUS:3500 Opera Workshop 2 s.h.
Opera performing techniques, including acting, aria interpretation, scene work. Requirements: vocal major or audition.
MUS:3501 Opera Theater Chorus 1 s.h. Requirements: audition.
MUS:3502 Opera Production 2-4 s.h.
Preparation and rehearsals leading up to performance of full production; may include one-act opera, chamber opera, musical
theater production, or full-length opera. Corequisites: MUS:3503.
1 s.h. Requirements: audition.
MUS:3503 Vocal/Operatic Coaching 1 s.h.
Professional-level vocal coaching in preparation for opera productions, opera workshop, degree recitals. Corequisites:
MUS:3502.
MUS:3510 Discovering Art Song 1 s.h.
Schubert, Schumann, Brahms, Wolf, Strauss, Mahler; appropriate diction, style. Prerequisites: MUS:1510 and MUS:2510.
MUS:3511 Discovering Opera 1 s.h.
Art songs in English, French, Italian, Spanish; appropriate diction, style. Prerequisites: MUS:1510 and MUS:2510.
MUS:3530 Musical Theatre Workshop 2 s.h.
Development of musical theatre performance skills through participation; students learn how to project intentions, attitudes, and personality traits of characters they portray; fundamentals of stagecraft, acting, movement, relaxation, and concentration; accurate musical coaching, including clear diction and solidly built dramatic musical interpretation. Same as THTR:3530.

MUS:3600 Undergraduate Music Education Workshop 1 s.h. Topics vary; for inservice music teachers.
s.h. MUS:3601 Undergraduate Music Education Workshop II 1 s.h. Topics vary; for inservice music teachers.
MUS:3605 Instrumental Techniques 2 s.h.
Same as EDTL:3605.
MUS:3625 Techniques of Conducting 2 s.h.
Basic elements, score analysis. Prerequisites: MUS:1201 and
MUS:1202.
MUS:3635 Instrumental Conducting 3 s.h.
1-2 s.h. Advanced skills for instrumental conducting, score analysis, rehearsal techniques, literature selection. Prerequisites: MUS:3625. Same as
1-2 s.h. EDTL:3635.
1 s.h. MUS:3640 Choral Methods 3 s.h.
Organization, implementation of effective choral music programs for all ages. Prerequisites: EDTL:3610. Same as EDTL:3640.
MUS:3645 Choral Conducting and Literature 3 s.h.
Advanced skills appropriate to choral conducting, analysis, literature selection studied and implemented to develop a secure approach to choral art; students preparing to teach in the elementary or secondary schools must register under EDTL:3645. Prerequisites: MUS:3625. Same as EDTL:3645.

MUS:3650 Instrumental Methods and Materials
Elementary and secondary instrumental music methods course required for K - 12 music teacher certification. Prerequisites: EDTL:3610. Same as EDTL:3650.

## MUS:3659 Class Strings

1 s.h.
String playing and basic principles of string pedagogy; for band and string students. Offered fall semesters for band; offered fall and spring semesters for string. Requirements: teacher education student in music.

MUS:3664 Introduction to Wind and Percussion Instruments2 s.h. Survey of wind and percussion instruments; for music education string majors.
MUS:3665 Arranging for Band 2-3 s.h.
Scoring and arranging techniques for concert, marching bands.
MUS:3666 Marching Band Techniques 1 s.h.
Administration, show design. Offered fall semesters.
MUS:3675 Music Therapy Practicum 1-2 s.h.
Supervised clinical training with adult clients and children in variety of health care and educational settings. Prerequisites: MUS:1687. Requirements: music therapy major.

## MUS:3676 Percussion Experience for Teachers and Therapists

1 s.h.
Hands-on learning experiences in percussion techniques used by music teachers, special education teachers, music therapists, or social workers; basics of hand drumming centering on West African djembe and Trinidadian steel band; skills necessary for interacting with students and clients in educational and clinical settings.
MUS:3680 Music in Special Education 3 s.h.
Music methods and materials appropriate for students with disabilities in special educational settings; overview of individualized educational planning for students with disabilities. Requirements: music therapy or music education major.

## MUS:3690 Music Therapy with Adults 3 s.h.

Techniques, procedures for work with adult clients with disabilities. Prerequisites: MUS:1687. Requirements: music therapy major.
MUS:3710 Intermediate Jazz Improvisation 2 s.h.
Improvisation in the jazz repertoire of standards, bebop, and major composers such as Thelonious Monk, Wayne Shorter; memorization and use of melodies, knowledge of chords to the thirteenth, chromatic harmony, development of rhythmic motifs/alteration, strategies for multiple chorus improvisations; separate section for drummers. Prerequisites: MUS:3001. Requirements: audition.

## MUS:3730 Jazz Band

Jazz performance ensembles, rehearsals, and concerts on and off campus.

## MUS:3740 Small Jazz Ensembles <br> 1 s.h.

Development of repertoire from standard jazz literature, arrangements and compositions by ensemble members; rehearsals (three hours per week) and performances on and off campus. Requirements: audition.

## MUS:3760 Jazz Band Techniques

1 s.h.
Development of skills for sight-reading and interpreting notated jazz. Prerequisites: MUS:1711.
MUS:3780 Audio Recording I 3 s.h.
Introduction to audio fundamentals, including basic acoustics and audio systems; survey of important equipment and practices, use of microphones and mixers; introduction to AVID's Pro Tools digital audio workstation; students with no background in audio production brought up to an operational proficiency level with basic recording systems; related technical topics develop an understanding of common equipment and conventional application in modern recording studio setting; recording techniques used in MUS:3781.

3 s.h. MUS:3781 Audio Recording II 3 s.h.
Survey of Pro Tools; fundamental digital audio concepts applied to hands-on music recording and postproduction projects on digital audio workstations; Pro Tools 101 content with supplementary readings and recording sessions; operational knowledge of Pro Tools software and hardware configurations; basic processes of software-based digital audio recording through recording sessions and sample projects; development of functional understanding of postproduction concepts. Prerequisites: MUS:3780.
MUS:3800 Reed Class
1 s.h.
Development of reed-making skills; focus on steps to complete reeds from tube cane to a finished reed; different ways of reed making; practical, pedagogical, and historical approaches; producing various reed styles. Requirements: music major.
MUS:3830 Wind Instrument Maintenance and Repair 1 s.h.
Principles of maintenance, repair, and adjustment of wind instruments; hands-on experience including mechanical instruction on all brass and woodwind instruments; how to perform minor and emergency repairs on wind instruments, demonstration of tools and supplies needed to perform repairs and musical instrument maintenance.
MUS:3851 Introduction to the Alexander Technique 3 s.h.
The Alexander Technique and "self-use"-how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DANC:3851.
MUS:3990 Special Studies 0-4 s.h.

MUS:4080 Contemporary Improvisation and Production for Classical Performers

2 s.h.
Introduction and development of skills related to improvisation
and production (i.e., arranging, composition, project creation)
applicable to the ever-evolving world of the 21st-century performer; topics include practical ear training/theory necessary for success in improvisation, arranging skills, relevant technologies, and introduction to various nonclassical styles.
MUS:4200 Counterpoint Before 1600
3 s.h.
Two- and three-part counterpoint; Renaissance polyphony. Requirements: MUS:2203 for undergraduates; MUS:5200 for graduate students or exemption by Graduate Advisory Exam.
MUS:4201 Counterpoint After $1600 \quad 3$ s.h.
Survey of contrapuntal and textural techniques from 1600 to the present. Requirements: MUS:2204 for undergraduates; MUS:5200 or exemption on Graduate Advisory Exam for graduate students.
MUS:4210 Keyboard Harmony 1-2 s.h.
Melody harmonization and figured-bass realization at the keyboard.
Requirements: MUS:2204 for undergraduates; MUS:5200 or exemption by Graduate Advisory Exam for graduate students; and keyboard proficiency for all students.
MUS:4220 Orchestration
3 s.h.
Instrumental capabilities and combinations in solo, chamber, and large ensemble literature; application in composition.

MUS:4250 Composition: Electronic Media I
3 s.h.
Composition using analog, digital technology. Offered fall semesters.
MUS:4251 Composition: Electronic Media II 3 s.h
Advanced interactive techniques in composition in association with analog, digital technologies. Offered spring semesters.
MUS:4290 Music Theory Colloquium 1 s.h.
MUS:4320 Music and Gender 3 s.h.
Roles that gender has played in shaping the history of musical performance and composition.

| MUS:4325 Medieval and Renaissance Music | $\mathbf{3}$ s.h. |
| :--- | :--- |
| MUS:4330 Baroque Music | $\mathbf{3}$ s.h. |
| MUS:4335 Eighteenth-Century Music | $\mathbf{3}$ s.h. |
| MUS:4340 Nineteenth-Century Music | $\mathbf{3}$ s.h. |
| MUS:4345 Twentieth-Century Music | $\mathbf{3}$ s.h. |
| MUS:4350 Advanced Jazz History | $\mathbf{3}$ s.h. |
| Survey and examination of the history of jazz from early 20th century <br> to present; placement of musical conventions, influential performers, <br> and aesthetic shifts that have shaped the history of jazz music in <br> social, cultural, and technological context; prior musical background <br> not required. |  |

## MUS:4355 American Music

3 s.h.
Who defines American music? In what ways do musicians, audiences, conductors, critics, and historians in the United States work to shape (and reshape) the country's musical identity? Students examine a variety of performers, works, and events in the history of American music that help ask and answer these questions in different ways; special attention given to analytical skills required to think critically about the different voices empowered to shape public understanding(s) of our musical past.
MUS:4360 Jazz Matters 3 s.h.
Students cover a variety of historic jazz scenes (e.g., New Orleans, New York, Chicago) and investigate the reciprocal relationship between music and place as it pertains to the history of jazz; through listening, analysis, and primary source research, students work to understand select case studies as influential musical environments, charting the ways American cities have historically supported jazz and jazz musicians; examination of a broad range of musical media (e.g., film soundtracks, musicals, cartoon depictions) to uncover the ways prominent "jazz cities" have been imagined, shaped, and reshaped by adjacent ideas about race, gender, and nationhood.

## MUS:4390 Musicology Colloquium 1 s.h.

MUS:4450 Organ Literature Survey
2 s.h.
Fifteenth century to present. Requirements: advanced undergraduate or graduate standing.
MUS:4452 Liturgics 2 s.h.
History of liturgies and survey of liturgical music from Judaism to present.

## MUS:4454 Service Playing and Improvisation

Hymn playing, accompanying, basic improvisation techniques. Requirements: organ major.

MUS:4610 Studies in Film and Music 3 s.h.
Critical approaches to historical and contemporary interrelationships between film and music; soundtracks and film scores; popular song and cinema. Prerequisites: CINE: 1601 with a minimum grade of C . Same as CINE:4610.
MUS:4630 Psychology of Music 2-3 s.h.
Cognition of music, affective response, aesthetic response, musical ability. Same as EDTL:4630.

MUS:4670 Internship in Music Therapy 2,12 s.h.
Clinical training under direction of board certified music therapist. Requirements: core music therapy requirements.
MUS:4675 Senior Project in Music Therapy
1 s.h.

## MUS:4685 Music Therapy with Children

Techniques, procedures for use in clinical, educational settings.
Prerequisites: MUS:1687. Requirements: music therapy major.

MUS:4730 Jazz Theory
3 s.h.
Development of skills needed for interpreting jazz melodies, chord symbols, comprehension of jazz song forms, and analysis of jazz-specific harmony in mainstream jazz music; practical application of jazz scales and reharmonization techniques; contains a practical application component on student's instrument of specialty. Requirements: MUS:1201.
MUS:4750 Transcription 2 s.h.
Individual projects to transcribe improvisations, small ensemble arrangements, large ensemble arrangements, or nonwestern techniques; use of computer notation programs and midi-realizations. Prerequisites: MUS:3710 and MUS:4730.
MUS:4760 Jazz Composition and Arranging 2 s.h.
Experience writing and arranging original jazz material for small and large ensembles, and presenting scores in computer notation; individual lessons. Prerequisites: MUS:4730.
MUS:4761 Advanced Jazz Composition and Arranging 2 s.h.
Continuation of MUS:4760; opportunity for further study and work in the practical application of composition and arranging skills; one-on-one lessons focus on areas of composition that best suit student's desired type, style, and/or instrumentation of creative output; areas may include writing for big band, strings, styles beyond typical jazz, or composing original repertoire. Prerequisites: MUS:4760.
MUS:4800 Special Topics in Music 1-2 s.h. Topics vary.
MUS:4900 Senior Recital 1 s.h.
MUS:4910 Bachelor's Thesis 0-1 s.h.
MUS:4995 Honors in Music 1-4 s.h.
Requirements: honors standing.
MUS:5101 Advanced Woodwind Pedagogy and Literature I 2 s.h.
Saxophone and clarinet solo and study literature; integration of pedagogical topics.
MUS:5102 Advanced Woodwind Pedagogy and Literature II 3 s.h. Oboe, bassoon, and flute solo and study literature; integration of pedagogical topics.
s.h. MUS:5111 Advanced Brass Pedagogy and Literature I 2 s.h. Tuba, euphonium, and trombone literature; pedagogical topics.
MUS:5112 Advanced Brass Pedagogy and Literature II 2 s.h.
2 s.h. Trumpet and horn literature; pedagogical topics.
MUS:5115 Advanced Brass Ensemble Literature 2 s.h.
Brass chamber music literature, including mixed and like-instrument ensembles.

MUS:5121 Advanced String Methods and Literature I 2 s.h.
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.
MUS:5122 Advanced String Methods and Literature II 2 s.h.
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.
MUS:5130 Advanced Percussion Pedagogy and Literature 2 s.h.
Percussion literature, styles, notation, performance techniques, composition; survey.
MUS:5200 Review of Undergraduate Theory 3 s.h.
Theories and strategies of analysis applied to tonal and post-tonal music.

MUS:5220 Advanced Composition 1-2 s.h.
Corequisites: MUS:3230.
MUS:5235 Tonal Analysis
3 s.h.
Requirements: MUS:5200 or exemption on Graduate Advisory Exam.

MUS:5236 Non-Tonal Analysis
Requirements: MUS:5200 or exemption on Graduate Advisory Examination.

MUS:5237 Analysis of Popular Music 3 s.h.
Survey; analysis of popular music. Prerequisites: MUS:5200.
MUS:5240 Special Topics in Theory and Analysis 3 s.h. Requirements: MUS:5200 or exemption on Graduate Advisory Exam for graduate students.
MUS:5300 Introduction to Graduate Study in Music 2 s.h. Music library; reference materials; bibliography; research problems, methods; writing research papers. Offered fall and spring semesters.

## MUS:5400 Piano Pedagogy I

2 s.h.
In-depth study of techniques and materials needed to teach intermediate and advanced piano students; judging competitions; conducting master classes; writing curriculum vitaes and cover letters in preparation for academic job searches.

## MUS:5401 Piano Pedagogy II

2 s.h.
History of the piano and its technique and pedagogy; national schools of piano playing; relationship of technological changes in piano construction to piano technique, pedagogy, and composition; major methods and treatises, historical recordings and video clips; research leading to understanding of students' individual piano lineage.
MUS:5410 Piano Literature I 2 s.h.
Baroque era to Mozart or Chopin through 1900.
MUS:5411 Piano Literature II
Beethoven through Schumann or 20th century.
MUS:5450 History of Organ Building and Design
Development of organ design from Middle Ages to present; basic concepts of construction, maintenance.

## MUS:5452 Organ Pedagogy

2 s.h.
History, theory, practice from Renaissance to present; methods, literature appropriate for various levels.

## MUS:5475 Organ Literature Special Topics 2 s.h.

Specialized study in selected areas of organ literature.

## MUS:5480 Introduction to Chamber Music

## Entrepreneurship

2 s.h.
Exploration of ways to create, coordinate, sustain, and cultivate chamber music; discussions, readings, guest presentations, individual reflections, and maintenance of regular creative practice; students are encouraged to register as a chamber ensemble; performance and collaboration skills; communication and promotion strategies; teaching artistry; community and social engagement; grant writing; nonprofit funding; programming; commissioning; best practices for partnering with external organization; examination of a range of models; individual or group project.

## MUS:5510 Graduate Diction

2 s.h.
Advanced pronunciation of singing languages. Requirements: grade of B or higher in undergraduate diction in French, German, and Italian.

## MUS:5555 Voice Habilitation <br> 2 s.h.

Application of methods of intervention in development, training, rehabilitation of vocal behavior; motor learning, efficacy of treatment strategies, factors affecting compliance with recommended therapy. Offered fall semesters. Prerequisites: CSD:3112 and CSD:4114. Same as CSD:5213.

MUS:5600 Graduate Music Education Workshop 1 s.h. For inservice music teachers; topics vary. Same as EDTL:5600.
MUS:5601 Graduate Music Education Workshop II 1 s.h.
Varied topics; for inservice music teachers. Same as EDTL:5601.

3 s.h. MUS:5800 Interactive Music
3 s.h.
Integration of art and music with technology, providing a foundation of skills and concepts through hands-on experimentation and creation; lectures and demonstrations; introduction to key concepts and ideas about the history of digital arts; programming audio and visual interactive art; students work on a creative final project and public presentation.
MUS:5820 Electronic Music Production
3 s.h.
Improvement of listening skills through regular critical study of recorded music in a variety of styles; weekly creative challenges to gain new skills working with MIDI instruments, samples, and student's own recorded audio; introduction to elements of mixing (e.g., balance, frequency range, space); creation and public presentation of a final personal project; hands-on course; for students with some experience using computers to make music. Requirements: previously created production with minimum duration of one minute, in any style.
MUS:5990 Graduate Special Studies 0-4 s.h
Graduate study with a specific School of Music faculty member on a topic that is not currently offered or to expand knowledge beyond what is in an offered course.
MUS:6020 Major Voice 2 s.h.
MUS:6021 Major Piano 2 s.h.
MUS:6022 Major Organ 2 s.h.
MUS:6023 Major Violin 2 s.h.
MUS:6024 Major Viola 2 s.h.
2-3 s.h. MUS:6025 Major Cello 2 s.h.
MUS:6026 Major String Bass 2 s.h.
MUS:6027 Major Flute 2 s.h.
MUS:6028 Major Oboe 2 s.h.
MUS:6029 Major Clarinet 2 s.h.
MUS:6030 Major Bassoon 2 s.h.
MUS:6031 Major Saxophone 2 s.h.
MUS:6032 Major Horn 2 s.h.
MUS:6033 Major Trumpet 2 s.h.
MUS:6034 Major Trombone 2 s.h.
MUS:6035 Major Euphonium 2 s.h.
MUS:6036 Major Tuba 2 s.h.
MUS:6037 Major Percussion 2 s.h.
MUS:6038 Major Jazz 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:6120 Graduate Secondary Performance - Voice 1 s.h.
MUS:6121 Graduate Secondary Performance - Piano 1 s.h. Required seminar and lessons to be arranged. Requirements: music major.
MUS:6122 Graduate Secondary Performance - Organ 1 s.h.
Required seminar and lessons to be arranged. Requirements: music major.
MUS:6123 Graduate Secondary Performance - Violin 1 s.h.
MUS:6124 Graduate Secondary Performance - Viola 1 s.h.
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6125 Graduate Secondary Performance - Cello 1 s.h
Required seminar and lessons to be arranged. Requirements: music major.
MUS:6126 Graduate Secondary Performance - String Bass 1 s.h. Required seminar and lessons to be arranged. Requirements: music major.
MUS:6127 Graduate Secondary Performance - Flute 1 s.h. Required seminar and lessons to be arranged. Requirements: music major.
MUS:6128 Graduate Secondary Performance - Oboe 1 s.h.
Required seminar and lessons to be arranged. Requirements: music major.
MUS:6129 Graduate Secondary Performance - Clarinet 1 s.h. Required seminar and lessons to be arranged. Requirements: music major.
MUS:6130 Graduate Secondary Performance - Bassoon 1 s.h.
Required seminar and lessons to be arranged. Requirements: music major.
MUS:6131 Graduate Secondary Performance - Saxophone 1 s.h. Required seminar and lessons to be arranged. Requirements: music major.
MUS:6132 Graduate Secondary Performance - Horn 1 s.h.
Required seminar and lessons to be arranged. Requirements: music major.
MUS:6133 Graduate Secondary Performance - Trumpet 1 s.h. Required seminar and lessons to be arranged. Requirements: music major.
MUS:6134 Graduate Secondary Performance - Trombone 1 s.h.
Required seminar and lessons to be arranged. Requirements: music major.
MUS:6135 Graduate Secondary Performance - Euphonium 1 s.h. Required seminar and lessons to be arranged. Requirements: music major.
MUS:6136 Graduate Secondary Performance - Tuba 1 s.h.
Required seminar and lessons to be arranged. Requirements: music major.
MUS:6137 Graduate Secondary Performance - Percussion 1 s.h. Required seminar and lessons to be arranged. Requirements: music major.
MUS:6138 Graduate Secondary Performance - Jazz 1 s.h. Required seminar and lessons to be arranged. Requirements: music major.
MUS:6139 Graduate Secondary Performance - Composition 1 s.h. Individual lessons; for non-composition music majors. Requirements: music major.

## MUS:6210 History of Ideas of Music

3 s.h.
Topical survey; historical theories of music with regard to harmony, rhythm, affect, and more. Requirements: MUS:5200 or exemption by Graduate Advisory Exam.
MUS:6211 Theoretical Approaches to Music
Survey of theoretical approaches to music; development of an exomusicological conception of music (i.e., music throughout intergalactic space); students contextualize and critique current theoretical approaches in terms of this framework, and engage with these approaches through independent scholarship or creative work to deepen connection with certain forms of music or musicians and become more confident, capable, and savvy in musical explorations. Requirements: MUS:5200 or exemption by Graduate Advisory Exam.

MUS:6215 Music Theory Pedagogy
Methods and techniques of teaching college-level music theory,
including harmony, sight singing, ear training. Requirements:
3 s.h. MUS:5200 or exemption by Graduate Advisory Exam.
MUS:6250 Advanced Tonal Theory and Analysis 3 s.h. Prerequisites: MUS:5235.
MUS:6251 Advanced Non-Tonal Theory and Analysis
3 s.h. Prerequisites: MUS:5236.
MUS:6252 Advanced Theory and Analysis of Popular Music 3 s.h. Intensive study of theories and advanced analysis of popular music. Prerequisites: MUS:5237.
MUS:6305 Teaching Music History and Culture 3 s.h.
Preparation for teaching music history and culture including course design, syllabi preparation, classroom strategies, and current pedagogical issues.
MUS:6310 Topics in Musicology 3 s.h.
One or more selected areas of music history.
MUS:6312 Historical Approaches to Music 3 s.h.
Research techniques, methodologies, and contemporary issues of historical musicology.
MUS:6314 Topics in Ethnomusicology 3 s.h.
Perspectives on analysis and representation of selected musical cultures from around the world.
MUS:6315 Foundations of Ethnomusicology 3 s.h.
Ethnomusicology in relation to domains of musical, humanistic, social science scholarship on expressive culture and artistic processes. Requirements: senior standing.
MUS:6326 Renaissance Music Notations 3 s.h.
Renaissance white notation, keyboard tablatures, musical paleography; transcription of early vocal, instrumental notations; editorial problems. Requirements: exemption by Graduate Advisory Exam.
MUS:6375 Music Editing
3 s.h.
Principles and methods of music editing; use of primary source materials, establishment of music text, preparation of critical apparatus; project to prepare a critical edition of music for publication.
MUS:6520 Vocal Pedagogy 3 s.h.
History of voice pedagogy, various pedagogical techniques of voice training, vocal anatomy, voice classification, critical listening, postural alignment, managing breath, tonal production, connecting registers, articulation, interpretation, vocal health, pharmacological effects on the voice, vocal gadgets, requirements for a professional career, teaching in the 21st century, and teaching practicum; diagnosis and correction of vocal faults. Same as CSD:6202.
MUS:6530 Topics in Vocal Performance 2 s.h.
Selected areas of vocal performance.
MUS:6535 Opera Theater Directing Seminar 3 s.h.
Exploration, discussion, and experience using techniques unique to directing opera. Score and libretto analysis, fundamentals of stagecraft, casting and management skills.
3 s.h. MUS:6540 Survey of Operatic Literature 3 s.h.
Important operatic scores examined from standpoint of performers, directors; production problems.
MUS:6541 Survey of Song Literature I 3 s.h.
German language lieder from 18th century to present; French mélodie from Meyerbeer to present. Offered fall semesters of odd years.
MUS:6542 Survey of Song Literature II 3 s.h.
British, American, Italian, Spanish, Latin American, Scandinavian, and Russian art song from 18th century to present. Offered fall semesters of even years.

## Music, BA

The Bachelor of Arts with a major in music is intended for undergraduates who have a strong background in music, and who wish to major in music as part of a broad liberal arts education irrespective of specific career aspirations. The curriculum includes musicianship, performance, and electives.

The program is designed for students who have solid abilities and interest in music but are not necessarily planning on careers as musicians, or for those who wish to pursue a double major or earn more than one bachelor's degree. Students must audition and be accepted into a performance area. They develop musicianship, performance skills, and select from a wide variety of music electives.
Students in many areas, from engineering and physics to history, art, and English, find that a BA in music is a good addition to their studies. Other students pursue the degree to complement coursework in business (especially the minor in business administration), a world language and literature, or interdisciplinary fields such as American studies. Some students combine their BA with undergraduate preparation to study law or medicine.

## Learning Outcomes

Graduates of the BA program in music will be able to:

- demonstrate the ability to hear, identify, and work conceptually with the rhythmic, melodic, harmonic, and structural elements of music;
- identify compositional processes, aesthetic properties of style, and artistic and cultural forces in music;
- demonstrate a broad acquaintance with music literature, musical genres, and cultural sources;
- demonstrate the ability to read and write critically about music; and
- demonstrate the ability to sight read, prepare for performance, interpret, and perform both solo and ensemble music in a variety of musical styles.

## Requirements

The Bachelor of Arts with a major in music requires a minimum of 120 s.h., including $42-54$ s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. BA students majoring in music may count a maximum of 56 s.h. earned in music courses toward their degree and they must earn at least 64 s.h. in coursework outside of the School of Music in order to graduate. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19]. Students must satisfy all requirements for graduation; contact the School of Music and the Academic Advising Center to learn more.
All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into a performance area through an audition. All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses.

Transfer students admitted to the School of Music must complete a minimum of one year of applied music (lower or upper level) and one year of major ensemble at the University of Iowa in order to earn a degree in music. Transfer students who have not completed the equivalent of the four-semester sequence of Musicianship and Theory I-IV (MUS:1201, MUS:1202, MUS:2203, and MUS:2204) must complete an advisory theory diagnostic exam to determine recommendations for appropriate placement in the musicianship
and theory sequence. Transfer students who have not completed the equivalent of two semesters of class piano or a piano proficiency exam must meet piano proficiency requirements at the University of Iowa.

All music majors with School of Music scholarships must participate in a major ensemble and studio lessons each semester.

Students who take a music course in one area may not use it to satisfy a music requirement in another area.

Students may choose to complete the BA with no track or choose from the following tracks: chamber music-piano, chamber music-strings/ winds, jazz, music theory, musicology, and piano pedagogy.

- Major in Music Without Track [p. 815]
- Chamber Music-Piano Track [p. 816]
- Chamber Music-Strings/Winds Track [p. 817]
- Jazz Track [p. 818]
- Music Theory Track [p. 819]
- Musicology Track [p. 820]
- Piano Pedagogy Track [p. 821]

## Major in Music Without Track

The Bachelor of Arts with a major in music without a track requires a minimum of 120 s.h., including at least 42-44 s.h. of work for the major.

The BA with a major in music without a track requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Musicianship Courses | $16-18$ |
| Musicianship Electives | 6 |
| Performance (Applied Music/Ensembles) | 14 |
| Electives | 6 |

## Musicianship Courses

Students take a piano placement exam and may be exempt from one or both of these courses: MUS:1211 or MUS:1212.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| All of these: |  |  |
| MUS:1200 | Fundamentals of Music for Majors (or successful completion of MUS: 1201 online theory diagnostic examination) | 0 |
| MUS:1201 | Musicianship and Theory I | 4 |
| MUS:1202 | Musicianship and Theory II | 4 |
| MUS:1210 | Recital Attendance (taken two semesters for 1 s.h. each) | 2 |
| MUS:1211 | Group Instruction in Piano I | 1 |
| MUS:1212 | Group Instruction in Piano II | 1 |
| Two of these: |  |  |
| MUS:2301 | History of Western Music I (also can be used to satisfy a GE CLAS Core requirement) | 3 |
| MUS:2302 | History of Western Music II (also can be used to satisfy a GE CLAS Core requirement) | 3 |
| MUS:4350 | Advanced Jazz History | 3 |

To register for MUS:1201 Musicianship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I, have already completed that course, or have been exempted from it by proficiency exam. To register for MUS:1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II or already have completed that course or
have been exempted from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempted by proficiency exam.

## Musicianship Electives

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| 6 s.h. from these: |  |  |
| MUS:1310 | World Music | 3 |
| MUS:2203 | Musicianship and Theory III | 4 |
| MUS:2204 | Musicianship and Theory IV | 4 |
| MUS:2301 | History of Western Music I | 3 |

## Tracks

## Chamber Music-Piano Track

The Bachelor of Arts with a major in music with the chamber musicpiano track requires a minimum of 120 s.h., including at least 54 s.h. of work for the major.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music
must be accepted into an applied piano studio through audition either in person or by recording before they register.

All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses. Entering students who do not have Advanced Placement (AP) or transfer credit should enroll in MUS:1201, section 2, and take Placement Exam A, administered online in the summer before the fall semester to determine readiness for the sequence. For further information, see Musicianship and Theory Placement on the School of Music website.

The BA with a major in music with the chamber music-piano track requires the following coursework.

| Requirements | Hours |

## Musicology Track

The Bachelor of Arts with a major in music with the musicology track requires a minimum of 120 s.h., including at least 43-45 s.h. of work for the major.

The BA with a major in music with the musicology track requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Musicianship Courses | $16-18$ |
| Performance (Applied Music/Ensembles) | 8 |
| Musicology Requirements | 3 |
| Musicology Electives | 6 |
| Electives | 10 |

## Musicology Track Musicianship Courses

Students take a piano placement exam which may exempt them from one or both of these courses: MUS:1211 or MUS:1212.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Fundamentals of Music <br> for Majors (or successful <br> completion of MUS:1201 online <br> theory diagnostic examination) | 0 |
| MUS:1200 | Musicianship and Theory I | 4 |
| MUS:1202 | Musicianship and Theory II | 4 |
| MUS:1210 | Recital Attendance (taken two <br> semesters for 1 s.h. each) | 2 |
| MUS:1211 | Group Instruction in Piano I | 1 |
| MUS:1212 | Group Instruction in Piano II | 1 |

| MUS:2301 | History of Western Music I <br> (also can be used to satisfy a GE <br> CLAS Core requirement) | 3 |
| :--- | :--- | :--- |
| MUS:2302 | History of Western Music II <br> (also can be used to satisfy a GE | 3 |
| MUS:4350 | CLAS Core requirement) |  |
|  | Advanced Jazz History | 3 |

To register for MUS:1201 Musicianship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I, already have completed that course, or have been exempted from it by proficiency exam. To register for MUS: 1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II, already have completed that course, or have been exempted from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempted by proficiency exam.

## Musicology Track Performance (Applied Music/ Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

| Course \# Title | Hours |
| :--- | ---: |
| All of these: | 4 |
| Lower-level applied music lessons | 4 |
| Major ensemble (minimum of four semesters) | 4 |

## Musicology Requirements

| Course \# <br> Both of these: | Title | Hours |
| :--- | :--- | ---: |
| MUS:4390 | Musicology Colloquium (taken <br> two semesters for 1 s.h. each) | 2 |
| MUS:4900 | Senior Recital (musicology <br> capstone project) | 1 |

## Musicology Electives

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| Two of these: | Music and Gender |  |
| MUS:4320 | Medieval and Renaissance <br> Music | 3 |
| MUS:4325 | Baroque Music | 3 |
| MUS:4330 | Eighteenth-Century Music | 3 |
| MUS:4335 | Nineteenth-Century Music | 3 |
| MUS:4340 | Twentieth-Century Music | 3 |
| MUS:4345 | Advanced Jazz History | 3 |
| MUS:4350 | American Music | 3 |
| MUS:4355 | Jazz Matters | 3 |
| MUS:4360 | Studies in Film and Music | 3 |
| MUS:4610/ |  | 3 |
| CINE:4610 |  |  |

## Piano Pedagogy Track

The Bachelor of Arts with a major in music with the piano pedagogy track requires a minimum of 120 s.h., including at least 49 s.h. of work for the major.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into an applied piano studio through audition either in person or by recording before they register.

All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses. Entering students who do not have Advanced Placement (AP) or transfer credit should enroll in MUS:1201, section 2, and take Placement Exam A, administered online in the summer before the start of the fall semester, to determine readiness for the sequence. For further information, see Musicianship and Theory Placement on the School of Music website.

The BA with a major in music with the piano pedagogy track requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Musicianship Courses | 16 |
| Musicianship Electives | 6 |
| Performance (Applied Music/Ensembles) | 14 |
| Piano Pedagogy Requirements | 7 |
| Electives | 6 |

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. They must have a grade-point average (GPA) of at least 3.80 in music coursework and a cumulative University of Iowa GPA of at least 3.33.
To graduate with honors, students must complete at least 6 s.h. of honors work in music, normally in their junior and senior years. They must earn a minimum of 3 s.h. of the required honors work in MUS:4995 Honors in Music by completing one or more honors projects, such as solo or ensemble recitals; compositions, transcriptions, orchestrations, or arrangements; and essays, research papers, editions, or translations. Honors projects must be in addition to the projects normally required for graduation with a major in music.

Students also may earn honors credit in other honors courses (normally upper-level undergraduate courses) or in approved graduate courses (music history and music theory are particularly recommended).

For complete details about requirements for graduation with honors in the music major, visit Honors in Music on the School of Music website and consult the school's honors advisor.

## National Honor Society

The School of Music sponsors a chapter of Pi Kappa Lambda, the national music honor society. Students of exceptional ability are recommended for membership by faculty members. For more information, consult the School of Music honors advisor.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the music major.

## Financial Support

A number of music performance-based merit scholarships are available to qualified undergraduate music majors. The audition for admission to the School of Music is the audition for music scholarships. All music majors with School of Music scholarships must enroll as full-time students and enroll in their instrumental major ensemble and studio lessons each semester. For information, contact the School of Music.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

In addition to the requirements listed under the checkpoints, all students must complete 2 s.h. in applied music and 1 s.h. in a major ensemble each semester.

The Bachelor of Arts in music requires at least 44 s.h. in School of Music courses.

Before the third semester begins: 15-18 s.h. of coursework in the major, including MUS:1201 Musicianship and Theory I, MUS:1202 Musicianship and Theory II, and if required, MUS:1211 Group Instruction in Piano I and MUS: 1212 Group Instruction in Piano II.

Before the fifth semester begins: at least 23-32 s.h. of coursework in the major.

Before the seventh semester begins: at least 33-41 s.h. of coursework in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least 40-46 s.h. of coursework in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
This course is required for students enrolled in MUS:1201 who do pass Placement Examination A
c Students must complete two semesters of MUS:1210.
d Students must complete at least 4 s.h. in lower-level applied lessons.
Students must complete a minimum of four semesters of major ensemble.
sh. or certificates.
g GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
h Choose two courses from MUS:2301, MUS:2302, MUS:4350. Note: two GE CLAS Core requirements may be fulfilled by complete an additional GE CLAS Core course that satisfies either Arts requirement.
i Fulfills a major requirement and may fulfill a GE requirement.
j Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
k If not completed with a MUS course. MUS:1009, MUS:1720, MUS:2311 fulfill the GE CLAS Core Values and Culture requirement.
1 Students must complete at least $6 \mathrm{~s} . \mathrm{h}$. in performance electives. mPlease see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Music, BM

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into a performance area through an audition. All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses.

Transfer students admitted to the School of Music must complete a minimum of one year of applied music (lower or upper level) and one year of major ensemble at the University of Iowa in order to earn a degree in music. Transfer students who have not completed the equivalent of the four-semester sequence of Musicianship and Theory I-IV (MUS:1201, MUS:1202, MUS:2203, and MUS:2204) must complete a theory diagnostic exam to determine appropriate placement in the musicianship and theory sequence. Transfer students who have not completed the equivalent of two semesters of class piano or a piano proficiency exam must meet piano proficiency requirements at the University of Iowa.

## Learning Outcomes

## Bachelor of Music Graduates

The Bachelor of Music degree is the primary professional degree in music, and it emphasizes the development of the skills, concepts, and sensitivities essential to the professional life of the musician. Bachelor of Music students in performance programs develop comprehensive capabilities in the major-performing medium and the ability to integrate musical knowledge and performance skills in preparation for entering the profession or advanced study in graduate school.

All graduates of the Bachelor of Music program in music will be able to demonstrate the following.

- Performance: Students will acquire the ability to sight read, reach technical proficiency, apply historically and stylistically informed performance practices, gain a broad knowledge of the repertoire of their performance area, perform a cross-section of that repertoire, and gain collaborative skills through ensemble experiences.
- Keyboard Competency: Students will acquire the functional ability to play piano, including the ability to perform major and minor scales, arpeggios, and chord progressions in all keys; and to harmonize melodies, transpose, and improvise.
- Conducting, Leadership, and Collaboration: Students will acquire the ability to work as leaders and in collaboration on matters of musical preparation, rehearsal techniques, and interpretation. Students will demonstrate competent conducting technique.
- Musical Repertoire and Style: Students will acquire a basic knowledge of music history and repertoire through the present; an acquaintance with repertories beyond the area of specialization; the ability to place music in historical, cultural, and stylistic contexts; and the ability to write and speak about music history and style in a coherent manner.
- Music Theory, Analysis, and Compositional Processes: Students will acquire aural skills sufficient to hear melodic, rhythmic, harmonic, and formal elements of music; analytical skills sufficient to understand the melodic, rhythmic, harmonic, and formal elements of music; knowledge of basic compositional techniques; and the ability to write and speak about musical processes in a coherent manner.

## Teacher Education Program Graduates

All graduates of the Teacher Education Program will be able to:

- demonstrate competent conducting, and musical leadership of performing groups and in general classroom situations;
- apply knowledge of analytical and historical knowledge to curriculum development, lesson planning, and daily classroom and performance activities;
- demonstrate the ability to arrange and adapt music from a variety of sources to meet the needs and ability levels of individuals and groups;
- demonstrate functional performance abilities in keyboard, voice, and instruments appropriate to the teaching specialization;
- demonstrate pedagogical skills appropriate to the area of specialization sufficient to teach students individually and in groups; and
- demonstrate knowledge and skills in student learning, diverse learning, planning instruction, instructional strategies, the learning environment, communication, assessment and evaluation, collaboration, ethics, and relationships.

## Bachelor of Music in Composition Graduates

In addition to the learning outcomes listed above, all graduates of the Bachelor of Music in composition will:

- demonstrate the ability to compose solo, chamber, vocal, and electronic music;
- acquire a basic knowledge of acoustics; and
- demonstrate the ability to use technologies applicable to musical composition, such as sound synthesis, recording and processing, and computer notation.

## Bachelor of Music in Music Therapy Graduates

The undergraduate music therapy program provides the required academic and clinical coursework necessary to become professionally certified as a music therapist. The program, which is approved by the American Music Therapy Association, prepares students to pass the Certification Board for Music Therapists national exam, which is required for entry-level music therapy positions.
In addition to the learning outcomes listed above, all graduates of the Bachelor of Music in music therapy will display the following.

- Functional musical and arranging skills in voice, keyboard, guitar, and percussion to accompany self and group singing, with a basic repertory of traditional, folk, and popular songs in several keys, with and without written music.
- Knowledge of basic principles of human development, exceptionality, psychopathology, principles of therapy, and the therapeutic relationship.
- Knowledge of basic principles of music therapy including history and philosophy; the psychological, physiological, and sociological bases for the use of music as therapy; music therapy techniques and materials and their application with various client populations.
- Knowledge of various client populations, the therapeutic process (client assessment, treatment planning, therapeutic implementation, evaluation, and documentation of progress); knowledge of research methods, and ability to interpret research findings.
- Knowledge of professional issues (standards, ethics, interdisciplinary collaboration, supervision, and administration).
- Clinical skills with a variety of client populations to enable students to function as entry-level music therapists. Students will acquire knowledge of the technological developments applicable to the field of music therapy.

## Requirements

The Bachelor of Music requires a minimum of 120 s.h. of credit. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

The program offers concentrations in composition, music therapy, and performance. Students seeking licensure/certification in music education or music therapy should enroll in the BM program.
Many students earn more than 120 s.h. in fulfilling the requirements for their majors-for instance, those who choose the music therapy concentration or seek teacher certification. The College of Liberal Arts and Sciences maximum hours rule does not apply to the Bachelor of Music, so BM students may count more than 56 s.h. of coursework in music toward the degree.

To register for MUS: 1201 Musicianship and Theory I, students also must register for MUS: 1211 Group Instruction in Piano I or already have completed that course or have been exempted from it by proficiency exam. To register for MUS: 1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II or already have completed that course or are exempt from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempt by proficiency exam.

Six semesters of MUS:1210 Recital Attendance are required for all BM students, except music therapy students, who are required to take four semesters. Transfer students should plan to enroll in this course each of their remaining semesters, or until the requirement is met.

To complete the senior recital, students must have achieved upperlevel applied status or be enrolled in upper-level applied music courses (see "Applied Music" below). Music therapy students may complete a senior recital or a senior research project. Composition students substitute MUS:4910 Bachelor's Thesis for the senior recital. The senior recital, research project, or thesis must be completed at the University of Iowa.

## Applied Music

Students must complete four years of applied music. Instruction is provided on two levels, lower and upper. Students must achieve upper-level status before they may present their senior recital. Readiness for upper-level applied music is determined by a jury examination in the area. The eighth semester of applied music may be waived for students who have successfully completed a senior recital, are enrolled in the Teacher Education Program (TEP), and are student teaching. Students are allowed a maximum of six semesters (not including summer) in lower-level applied instruction. Those who want to continue lessons beyond the maximum allowable lower-level registration must do so under the nonmajor category.

Composition students are required to take 6 s.h. of lower-level applied music and 2 s.h. of secondary piano.

Music therapy students who complete a senior research project rather than a senior recital are required to take three years of lower-level applied music.

## Ensemble Participation

Students must complete eight semesters of major ensemble participation. They enroll in a major ensemble during consecutive semesters, beginning early in their degree work, to ensure timely completion of the requirement. Ensemble assignments are made at the discretion of the major teacher and ensemble director. String students participate in Orchestra. Wind and percussion students participate in Symphony Band and Concert Band. Voice students participate in

Camerata Singers, University Choir, Kantorei, and Voxman Chorale. Keyboard students may substitute accompaniment for major ensemble participation for two semesters during their junior and/or senior years, with their major applied-music teacher's consent. Composition students may, with their advisor's consent, substitute two semesters of other ensembles during their junior and/or senior year.

Music therapy students who complete a senior research project rather than a senior recital are required to complete 6 s.h. of major ensemble participation.
Any student who wants to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the associate director for undergraduate studies.

Major ensembles are as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUS:1176 | Voxman Chorale | 1 |
| MUS:3160 | Symphony Band/Concert Band | 1 |
| MUS:3170 | Kantorei | 1 |
| MUS:3172 | Camerata Singers | 1 |
| MUS:3174 | University Choir | 1 |
| MUS:3180 | Orchestra | 1 |

## Electives

Students may take advanced electives in performance (including chamber music and piano accompaniment), theory, composition, music education, music therapy, music history, diverse music cultures, music literature, conducting, and orchestration.

## Concentration Areas

- Composition Concentration [p. 826]
- Music Therapy Concentration [p. 827]
- Performance-Brass/Woodwind Concentration [p. 828]
- Performance-Jazz Concentration [p. 829]
- Performance-Organ Concentration [p. 830]
- Performance-Percussion Concentration [p. 830]
- Performance-Piano Concentration [p. 831]
- Performance-String Concentration [p. 832]
- Performance-Voice Concentration [p. 833]

## Composition Concentration

Applicants to the composition concentration must submit a portfolio of creative work to the composition faculty for evaluation and acceptance into the program. Students who wish to prepare a portfolio may register for MUS:1139 Secondary Performance - Composition.

The composition concentration requires the following coursework.

## Musicianship, Composition Concentration

The composition concentration is open to students who have been admitted to a performance area in the School of Music.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Musicianship and Theory I | 4 |
| MUS:1201 | Musicianship and Theory II | 4 |
| MUS:1202 | Musicianship and Theory III | 4 |
| MUS:2203 | Musicianship and Theory IV | 4 |
| MUS:2204 | Recital Attendance (taken six <br> semesters for 1 s.h. each) | 6 |
| Then these: |  |  |

| MUS:1211 | Group Instruction in Piano I (or <br> piano placement exam) | 1 |
| :--- | :--- | :--- |
| MUS:1212 | Group Instruction in Piano II (or <br> piano placement exam) | 1 |
| MUS:2301 | History of Western Music I | 3 |
| MUS:2302 | History of Western Music II | 3 |
| MUS:3625 | Techniques of Conducting | 2 |

## Diverse Musical Cultures, Composition Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  | 3 |
| MUS:1009 | Jazz Cultures in America and |  |
| MUS:1310 | Abroad | 3 |
| MUS:1720 | World Music | 3 |
| MUS:2311/LAS:2311 | History of Jazz | Music of Latin America and the <br>  <br>  <br> Caribbean |

## Performance (Applied Music/Ensembles), Composition Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Secondary Performance - Piano <br> (taken two semesters for 1 s.h. <br> MUS:1121 | 2 |
| Leach) <br> Lower-level applied lessons (prefix MUS) numbered <br> no more than 12 s.h. total) | 6 |  |

Major ensemble music courses (prefix MUS)

## Composition Requirements

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Composition (taken for at least | 8 |
| MUS:2220 | four semesters for 2 s.h. each) | 1 |
| MUS:3230 | Composition Seminar | 3 |
| MUS:4250 | Composition: Electronic Media | I |
| MUS:4910 | Bachelor's Thesis | 1 |

The course MUS:4910 Bachelor's Thesis consists of one or more compositions, approved by a committee of three faculty members, and performed in regularly scheduled School of Music recitals.

## Required Supportive Courses, Composition Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  | 3 |
| MUS:4200 | Counterpoint Before 1600 | 3 |
| MUS:4201 | Counterpoint After 1600 |  |
| This course: |  | 3 |
| MUS:5236 | Non-Tonal Analysis |  |

## Electives, Composition Concentration

Students complete 6 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors. If students took either MUS:4200 Counterpoint Before 1600 or MUS:4201 Counterpoint After 1600 as a required supportive course above, they cannot use it as an elective.
completion (grade of C-plus or higher) in MUS:1687 Orientation to Music Therapy. Students must earn a B-minus or higher in all remaining music therapy core courses. In addition to the core courses in music therapy listed below, specific courses are required in anatomy, biology, music, and psychology.

A six-month, full time internship in an American Music Therapy Association (AMTA) approved off-campus clinical facility is required for completion of the degree. There are a limited number of approved music therapy internships in the Iowa City area, and many internship placements require relocation to a different city. Students are eligible to begin applying for their internship one year prior to the start of the internship. Securing an internship typically involves completing application materials, interviewing on site or via electronic platform, and demonstrating musical competencies. Students are not automatically placed in internships, but must work with the clinical advisor to select and apply for appropriate programs. Following successful completion of the internship, students are eligible to take the board certification examination in music therapy. This exam is offered through the Certification Board for Music Therapists and leads to national board certification as a music therapist, with the credential music therapist-board certified (MT-BC).
Since music therapists work with vulnerable populations, the School of Music is required to run a criminal background check on all students when they begin their clinical experiences. Criminal convictions could negatively impact a student's ability to continue in the music therapy program and/or gain placement at an internship site. For more information, contact the director of the music therapy program.
The music therapy concentration requires the following coursework.

## Musicianship, Music Therapy Concentration

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| All of these: |  |  |
| MUS:1201 | Musicianship and Theory I | 4 |
| MUS:1202 | Musicianship and Theory II | 4 |
| MUS:2203 | Musicianship and Theory III | 4 |
| MUS:2204 | Musicianship and Theory IV | 4 |
| Then these: |  |  |
| MUS:1210 | Recital Attendance (taken four semesters for 1 s.h. each) | 4 |
| MUS:1211 | Group Instruction in Piano I (or piano placement exam) | 1 |
| MUS:1212 | Group Instruction in Piano II (or piano placement exam) | 1 |
| MUS:2213 | Group Instruction in Piano III | 1 |
| MUS:2301 | History of Western Music I | 3 |
| MUS:2302 | History of Western Music II | 3 |
| Performance (Applied Music/Ensembles), |  |  |

| Course $\#$ | Title | Hours |
| :--- | :--- | ---: |
| All of these are required for clinical option students: |  |  |
| MUS:1120 | Secondary Performance - Voice | 1 |
| MUS:4675 | Senior Project in Music Therapy | 1 |

Lower-level applied lessons (prefix MUS) numbered 2000-2999
Major ensemble music courses (prefix MUS) taken six 6 times for 1 s.h. each

| Additional music performance electives such as steel <br> band, secondary percussion lessons, secondary piano, <br> additional secondary voice |  |
| :--- | :--- |
| All of these required for performance option students: |  |
| MUS:1120 | Secondary Performance - Voice <br> (not required for performance- |
| MUS:1510 | voice students) |
| Diction for Singers I (required <br> for performance-voice <br> students) | 2 |
| MUS:2510 | Diction for Singers II (required <br> for performance-voice <br> students) |
| MUS:4900 | Senior Recital |

Lower-level applied music lessons (prefix MUS) 8 numbered 2000-2999
Upper-level applied music lessons (prefix MUS) numbered 3000-3999
Major ensemble music courses (prefix MUS) taken eight times for 1 s.h. each

Music Therapy Requirements

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| All of these: |  |  |
| MUS:1687 | Orientation to Music Therapy | 2 |
| MUS:3675 | Music Therapy Practicum (section 1 taken once for 1 s.h.; section 2 taken twice for 2 s.h.) | 5 |
| MUS:3680 | Music in Special Education | 3 |
| MUS:3690 | Music Therapy with Adults | 3 |
| MUS:4670 | Internship in Music Therapy (minimum of 2 s.h.) | 2,12 |
| MUS:4685 | Music Therapy with Children | 3 |
| EDTL:4630/ <br> MUS:4630 | Psychology of Music | 2 |
| EDTL:4640 | Introduction to Music Research | 2 |
| 4 s.h. from these: |  |  |
| MUS:2671 | Music Foundations in Therapy I | 2 |
| MUS:2672 | Music Foundations in Therapy II | 2 |
| MUS:3676 | Percussion Experience for Teachers and Therapists | 1 |

## Required Supportive Courses, Music Therapy Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: | Abnormal Psychology: Health | 3 |
| PSY:2930 | Professions |  |
| PSY:3320 | Psychopathology | 3 |
| One of these: Secondary Performance - Piano | 1 |  |
| MUS:1121 | Introduction to Jazz |  |
| MUS:3001 | Improvisation | 3 |
| One of these: | Garage Band: The Basics |  |
| MUS:1007 |  | 2 |

| MUS:3665 | Arranging for Band | 2-3 |
| :---: | :---: | :---: |
| One of these: |  |  |
| PSQF:4106 | Child Development |  |
| PSY:2401 | Introduction to Developmental Science | 3 |
| One of these: |  |  |
| CSD:1015 | Introduction to Speech and Hearing Processes and Disorders | 2 |
| CSED:4178 | Microcounseling |  |
| CSED:4199 | Counseling for Related Professions | 3 |
| PSQF:1075 | Educational Psychology and Measurement | 3 |
| PSY:2301 | Introduction to Clinical Psychology | 3 |
| PSY:2601 | Introduction to Cognitive Psychology |  |
| PSY:2701 | Introduction to Behavioral Neuroscience | 4 |
| SSW:1800/ <br> ASP:1800/C <br> NURS:1800 | Aging Matters: Introduction to Gerontology |  |
| Clinical option students take 4 s.h. from these: |  |  |
| MUS:1120 | Secondary Performance - Voice |  |
| MUS:1121 | Secondary Performance - Piano |  |
| MUS:1137 | Secondary Performance Percussion |  |
| MUS:3163 | Iowa Steel Band |  |
| Other courses approved by advisor |  |  |
| Music therapy students who elect the senior recital/performance option must take four years of applied music and attain upper-level status; they also must take 8 s .h. of major ensemble participation. Vocal majors choosing this option also must take MUS:1510 Diction for Singers I and MUS:2510 Diction for Singers II. |  |  |
| Music therapy students who elect the senior project/clinical option must take three years of applied music and 6 s.h. of major ensemble. They also must take an additional 4 s.h. of music performance courses in areas such as MUS:1120 Secondary Performance Voice, MUS:1121 Secondary Performance - Piano, MUS:1137 Secondary Performance - Percussion, MUS:3163 Iowa Steel Band, or other courses approved by the advisor. |  |  |
| In order to satisfy national certification requirements, all music therapy students must fulfill certain GE CLAS Core requirements with specific courses. Students should consult their music therapy advisor before selecting GE CLAS Core courses. |  |  |
| Performance-Brass/Woodwind Concentration |  |  |
| The performance-brass/woodwind concentration requires the following coursework. |  |  |
| Musicianship, Brass/Woodwind Concentration |  |  |
| Course \# | Title | Hours |
| All of these: |  |  |
| MUS:1201 | Musicianship and Theory I | 4 |
| MUS:1202 | Musicianship and Theory II |  |
| MUS:2203 | Musicianship and Theory III |  |
| MUS:2204 | Musicianship and Theory IV |  |
| Then |  |  |

| MUS:1210 | Recital Attendance (taken six semesters for 1 s.h. each) | 6 |
| :---: | :---: | :---: |
| MUS:1211 | Group Instruction in Piano I (or piano placement exam) | 1 |
| MUS:1212 | Group Instruction in Piano II (or piano placement exam) | 1 |
| MUS:2301 | History of Western Music I | 3 |
| MUS:2302 | History of Western Music II | 3 |
| MUS:3625 | Techniques of Conducting | 2 |
| Diverse Musical Cultures, Brass/Woodwind Concentration |  |  |
| Course \# | Title | Hours |
| One of these: |  |  |
| MUS:1009 | Jazz Cultures in America and Abroad | 3 |
| MUS:1310 | World Music | 3 |
| MUS:1720 | History of Jazz | 3 |
| MUS:2311/LAS:2311 | Music of Latin America and the Caribbean | 3 |

## Performance (Applied Music/ Ensembles), Brass/Woodwind Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Symphony Band/Concert Band <br> (taken eight semesters for 1 s.h. <br> MUS:3160 | 8 |
| MUS:4900 | Senior Recital | 1 |

## Brass/Woodwind Area Requirement

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: |  | 1 |
| MUS:3485 | Wind Chamber Music | 1 |

## Electives, Brass/Woodwind Concentration

Students complete 17 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for wind majors.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUS:3140 | Audition Repertoire | 1 |
| MUS:3180 | Orchestra | 1 |
| MUS:3485 | Wind Chamber Music | $1-2$ |
| These music education courses may be taken as music electives by |  |  |
| brass/woodwind concentration students pursuing teacher licensure. |  |  |
| Course \# | Title | Hours |
| MUS:3635/ | Instrumental Conducting | 3 |
| EDTL:3635 |  |  |
| EDTL:3605/ | Instrumental Techniques | 2 |
| MUS:3605 |  |  |
| EDTL:3620 | Methods and Materials: General | 3 |
|  | Music |  |

## Performance-Jazz Concentration

The performance-jazz concentration requires the following coursework.

## Musicianship, Jazz Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Both of these: | Musicianship and Theory I | 4 |
| MUS:1201 | Musicianship and Theory II | 4 |
| MUS:1202 | Recital Attendance (taken six |  |
| Then these: | semesters for 1 s.h. each) <br> MUS:1210 | Group Instruction in Piano I (or <br> piano placement exam) |
| MUS:1211 | Group Instruction in Piano II (or <br> piano placement exam) | 6 |
| MUS:1212 | Jazz Rhythms and Interpretation | 1 |
| MUS:1711 | I | 1 |
| MUS:1712 | Jazz Rhythms and Interpretation |  |
| MUS:3001 | II | 1 |
| MUS: | Introduction to Jazz | 1 |
| MUS:3760 | Improvisation | 3 |
| MUS:4730 | Intermediate Jazz Improvisation | 2 |

## Diverse Musical Cultures, Jazz Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| MUS:1310 | World Music | 3 |
| MUS:2301 | History of Western Music I | 3 |
| MUS:2302 | History of Western Music II | 3 |
| MUS:2311/LAS:2311 | Music of Latin America and the <br> Caribbean | 3 |

## Performance (Applied Music/Ensembles), Jazz Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Lower Level Jazz (may take for <br> maximum of six semesters) | 8 |
| MUS:2038 | Upper Level Jazz (taken four <br> semesters for 2 s.h. each) | 8 |
| MUS:3038 |  |  |

| MUS:3730 | Jazz Band (taken six semesters for 1 s.h. each) | 6 |
| :---: | :---: | :---: |
| MUS:3740 | Small Jazz Ensembles (taken six semesters for 1 s.h. each) | 6 |
| MUS:4900 | Senior Recital | 1 |
| Jazz Area Requirements |  |  |
| Course \# | Title | Hours |
| All of these: |  |  |
| MUS:3780 | Audio Recording I | 3 |
| MUS:4760 | Jazz Composition and Arranging | 2 |
| AFAM:1020/ <br> AMST:1030 | Introduction to African American Culture | 3 |
| ENTR:2000 | Entrepreneurship and Innovation | 3 |
| Electives, Jazz Concentration |  |  |
| Students complete 9 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors. |  |  |
| These courses are recommended for jazz majors. |  |  |
| Course \# | Title | Hours |
| MUS:1007 | Garage Band: The Basics | 2 |
| MUS:3140 | Audition Repertoire | 1 |
| MUS:3990 | Special Studies | 1-4 |

Performance-Organ Concentration
The performance-organ concentration requires the following coursework.

| Musicianship, Organ Concentration |  |  |
| :---: | :---: | :---: |
| Course \# | Title | Hours |
| All of these: |  |  |
| MUS:1201 | Musicianship and Theory I | 4 |
| MUS:1202 | Musicianship and Theory II | 4 |
| MUS:2203 | Musicianship and Theory III | 4 |
| MUS:2204 | Musicianship and Theory IV | 4 |
| Then these: |  |  |
| MUS:1210 | Recital Attendance (taken six semesters for 1 s.h. each) | 6 |
| MUS:2301 | History of Western Music I | 3 |
| MUS:2302 | History of Western Music II | 3 |
| MUS:3625 | Techniques of Conducting | 2 |

## Diverse Musical Cultures, Organ Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  | 3 |
| MUS:1009 | Jazz Cultures in America and |  |
| MUS:1310 | Abroad | 3 |
| MUS:1720 | World Music | 3 |
| MUS:2311/LAS:2311 | Mistory of Jazz | Music of Latin America and the <br>  <br>  <br>  <br> Caribbean |

## Performance (Applied Music/ Ensembles), Organ Concentration

| Course \# | Title | Hours |
| :--- | :--- | :---: |
| All of these: | Lower Level Organ (may take <br> for maximum of six semesters) | 8 |
| MUS:2022 | Upper Level Organ (taken four <br> semesters for 2 s.h. each) | 8 |
| MUS:49022 | Senior Recital | 1 |
| Major ensemble music courses (prefix MUS; taken <br> eight times for 1 s.h. each) | 8 |  |

## Theory-Based Courses, Organ Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| 3 s.h. from these: |  |  |
| MUS:2206 | Form and Analysis | 3 |
| MUS:3001 | Introduction to Jazz | 3 |
|  | Improvisation | $2-3$ |
| MUS:3665 | Arranging for Band | 2 |
| MUS:3710 | Intermediate Jazz Improvisation | 3 |
| MUS:4200 | Counterpoint Before 1600 | 3 |
| MUS:4201 | Counterpoint After 1600 | $1-2$ |
| MUS:4210 | Keyboard Harmony | 3 |
| MUS:4730 | Jazz Theory (when topic is at |  |
| MUS:4750 | Transcription | 2 |

Organ Area Requirements

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Organ Literature Survey (taken | 4 |
| MUS:4450 | two semesters for 2 s.h. each) | 2 |
| MUS:4452 | Liturgics | 2 |
| MUS:4454 | Service Playing and |  |
|  | Improvisation |  |

## Electives, Organ Concentration

Students complete 10 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for organ majors.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUS:5450 | History of Organ Building and | $2-3$ |
|  | Design | 2 |
| MUS:5452 | Organ Pedagogy | 2 |
| MUS:5475 | Organ Literature Special Topics | 2 |

## Performance-Percussion Concentration

The performance-percussion concentration requires the following coursework.

Musicianship, Percussion Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| MUS:1201 | Musicianship and Theory I | 4 |
| MUS:1202 | Musicianship and Theory II | 4 |
| MUS:2203 | Musicianship and Theory III | 4 |
| MUS:2204 | Musicianship and Theory IV | 4 |
| Then these: |  |  |

| MUS:1210 | Recital Attendance (taken six <br> semesters for 1 s.h. each) | 6 |
| :--- | :--- | :--- |
| MUS:1211 | Group Instruction in Piano I (or <br> piano placement exam) | 1 |
| MUS:1212 | Group Instruction in Piano II (or <br> piano placement exam) | 1 |
| MUS:2301 | History of Western Music I | 3 |
| MUS:2302 | History of Western Music II | 3 |
| MUS:3625 | Techniques of Conducting | 2 |

## Diverse Musical Cultures, Percussion

 Concentration| Course \# | Title | Hours |

| EDTL:3620 | Methods and Materials: General <br> Music |  |

## Teacher Licensure

To qualify for licensure to teach in elementary and/or secondary schools (K-12) students must be accepted into the School of Music seeking a Bachelor of Music degree in one of the following performance subprograms: brass/woodwind, jazz, organ, percussion, piano, piano with teacher education, string, or voice. Students must then apply to the Teacher Education Program to concurrently earn a Bachelor of Arts degree in music education. First-year students with at least a high school GPA of at least 3.00 are eligible to apply to the direct admission program in their first semester. All other students may apply after they have completed 30 s.h. at the University of Iowa. For more information, see Music Education on the College of Education website.

## Honors

## Honors in the Major

Students have the opportunity to graduate with honors in the major. They must have a grade-point average (GPA) of at least 3.80 in music coursework and a cumulative University of Iowa GPA of at least 3.33.

Students must complete at least 6 s.h. of honors work in music, normally in their junior and senior years. They must earn a minimum of 3 s.h. of the required honors work in MUS:4995 Honors in Music by completing one or more honors projects, such as solo or ensemble recitals; compositions, transcriptions, orchestrations, or arrangements; and essays, research papers, editions, or translations. Honors projects must be in addition to the projects normally required for graduation with a major in music.
Students also may earn honors credit in other honors courses (normally upper-level undergraduate courses) or in approved graduate courses (music history and music theory are particularly recommended).

For complete details about requirements for graduation with honors in the music major, visit Honors in Music on the School of Music website and consult the school's honors advisor.

## National Honor Society

The School of Music sponsors a chapter of Pi Kappa Lambda, the national music honor society. Students of exceptional ability are recommended for membership by faculty members. For more information, consult the School of Music honors advisor.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the music major.

## Financial Support

A number of music performance-based merit scholarships are available to qualified undergraduate music majors. Students are considered for merit scholarships based on their auditions for admission. All music majors with School of Music scholarships must enroll as full-time students and enroll in their instrumental major ensemble and studio lessons each semester. For information, contact the School of Music.

Career Advancement
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

In addition to the requirements listed under the checkpoints, all students must complete 2 s.h. in applied music and 1 s.h. in a major ensemble each semester.
The Four-Year Graduation Plan is not available for music therapy and music education students.

Students may apply more than 56 s.h. earned in School of Music courses toward the minimum 120 s.h. required for the BM degree.
Before the third semester begins: 18 s.h. of coursework in the major, including MUS:1201 Musicianship and Theory I, MUS:1202 Musicianship and Theory II, MUS:1211 Group Instruction in Piano I, and MUS:1212 Group Instruction in Piano II.

Before the fifth semester begins: at least 34 s.h. of coursework in the major, including MUS:2203 Musicianship and Theory III and MUS:2204 Musicianship and Theory IV.
Before the seventh semester begins: at least 50 s.h. of coursework in the major and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: at least 56 s.h. of coursework in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyU.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b This course is required for students enrolled in MUS:1201 who do not pass Placement Examination A.
c Students must take MUS:1210 for four semesters.
d Unless excused by exam.
e A maximum of six semesters (12 s.h.) in lower-level applied instruction is allowed.
f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
h MUS:1009, MUS:2311, and MUS:1720 fulfill GE CLAS Core requirements for Literary, Visual, \& Performing Arts and Values and Culture. MUS:1310 fulfills the GE CLAS Core Literary, Visual, \& Performing Arts requirement.
i Fulfills a major requirement and may fulfill a GE requirement.
j Readiness for upper-level applied music is determined by a jury examination in the area.
k If not completed with a MUS course. MUS:1009, MUS:1720, MUS:2311 fulfill the GE CLAS Core Values and Culture requirement.
1 Students must achieve upper-level status before they may present their senior recital.
mPlease see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Music, Minor

## Requirements

The undergraduate minor in music requires 15 s.h. of coursework taken in the School of Music (prefix MUS), including at least 8 s.h. taken at the University of Iowa. Students must maintain a gradepoint average of at least 2.00 in all courses for the minor. Courses used to satisfy minor requirements may not be taken pass/nonpass. Up to 7 s.h. of transfer credit in music history, music theory, and elective courses may be accepted toward the minor, with approval of the School of Music. Music performance courses must be taken at the University of Iowa.

Work for the minor includes courses in three areas: music history, music performance, and music theory. The remaining 5 s.h. in elective coursework must be chosen from School of Music courses.

Some School of Music courses have prerequisites; students must complete the course's prerequisites before they may register for a course. Courses approved for the minor are listed below. Students who take a music course in one area may not use it to satisfy a music requirement in another area.

The minor in music requires the following work.

## Music History

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| One of these: |  |  |
| MUS:1310 | World Music | 3 |

| MUS:2311/LAS:2311 | Music of Latin America and the Caribbean | 3 |
| Lower-level applied in numbered MUS:2020- | struction courses for majors MUS:2038 |  |

For additional information, contact the School of Music.

## Music, MA

The MA concentrations in performance, conducting, jazz studies, composition, music theory, musicology, music therapy, and music education require a recital, capstone project, or thesis. Performance majors present a public recital in place of a written thesis. Music therapy majors complete a capstone research project. Jazz studies majors present a public recital and a separate performance project. The Master of Arts in music education is offered with thesis and nonthesis options.

## Learning Outcomes

- Acquisition of knowledge and skills that will prepare students for careers in performance or academia.
- Knowledge and skills in one or more fields of music outside the student's area of study, such as theory, musicology, performance, composition, etc.
- Preparation for doctoral study in music.

## Requirements

The Master of Arts program in music requires a minimum of 30-39 s.h. of graduate credit. Students must maintain a cumulative gradepoint average of at least 3.00 to earn the degree.

## Advisory Examinations

Entering Master of Arts students must take two School of Music advisory examinations prior to registering for music history and music theory classes. These examinations are given on the Friday and Saturday preceding the opening of classes in the fall semester. MA students in music therapy are not required to take the advisory examinations.

All MA programs-except music therapy and music educationrequire the following coursework.

| Introductory Course |  |  |
| :--- | :--- | ---: |
| Course \# | Title | Hours |
| This course: | Introduction to Graduate Study | 2 |
| MUS:5300 | in Music |  |

## Music Theory

Students earn 6 s.h. from the following.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| This course: |  |  |
| MUS:5200 | Review of Undergraduate Theory (unless exempt by advisory exam) | 3 |
| Students exempted from MUS:5200 through the advisory examination in music theory must substitute an additional theory elective chosen from these: |  |  |
| MUS:4200 | Counterpoint Before 1600 | 3 |
| MUS:4201 | Counterpoint After 1600 | 3 |
| MUS:5235 | Tonal Analysis | 3 |
| MUS:5236 | Non-Tonal Analysis | 3 |
| MUS:5240 | Special Topics in Theory and Analysis | 3 |
| Students also must choose one elective from these: |  |  |
| MUS:4200 | Counterpoint Before 1600 | 3 |
| MUS:4201 | Counterpoint After 1600 | 3 |

| MUS:5235 | Tonal Analysis | 3 |
| :--- | :--- | :--- |
| MUS:5236 | Non-Tonal Analysis | 3 |
| MUS:5237 | Analysis of Popular Music | 3 |
| MUS:5240 | Special Topics in Theory and <br> Analysis | 3 |
| MUS:6210 | History of Ideas of Music |  |
| MUS:6211 | Theoretical Approaches to <br> Music | 3 |

| MUS:6315 | Topics in Ethnomusicology | 3 |
| MUS:6326 | Foundations of | 3 |
| MUS:6375 | Ethnomusicology | 3 |

## Ensemble Participation

Graduate students in the performance and pedagogy tracks of all graduate programs are required to complete four semesters of major ensemble participation. Students enroll in major ensemble participation during consecutive semesters beginning early in their degree work, to ensure completion of the major ensemble requirements in a timely manner. Ensemble assignments are made at the discretion of the major teacher and ensemble director.

Major ensembles are as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUS:3160 | Symphony Band/Concert Band | 1 |
| MUS:3170 | Kantorei | 1 |
| MUS:3172 | Camerata Singers | 1 |
| MUS:3174 | University Choir | 1 |
| MUS:3180 | Orchestra | 1 |

For more information, visit the School of Music website.

## Admission

Individuals applying to graduate programs in music must audition and/ or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area is available on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations on the Graduate College website.

## Preliminary Procedures for Music Therapy Graduate Students

Since music therapists work with vulnerable populations, the School of Music is required to run a criminal background check on all students when they begin their clinical experiences. Criminal convictions could negatively impact a student's ability to continue in the music therapy program and/or gain placement at an internship site. For more information, contact the director of the music therapy program.

## Financial Support

Applicants that complete the application/audition process are reviewed for potential awards (teaching or research assistantships, fellowships, or scholarships). Qualified graduate students are nominated by the area faculty for a potential award. Inquiries should be directed to the head faculty member in the applicant's area of interest.

## Career Advancement

The Grad Success Center within the Graduate College offers multiple resources to help students explore their potential career options.

## Music, PhD

## Learning Outcomes

- Acquisition of the highest level of knowledge and skills that will prepare students for careers in or beyond academia.
- Development of advanced critical thinking and skills in music research, writing, and public presentation of original scholarship.
- Demonstration of a core body of knowledge concerning the student's area of study.
- Learning effective approaches to pedagogy in the student's area of study.
- Knowledge and skills in one or more fields of music outside the student's area of study, such as theory, musicology, performance, composition, and more.

## Requirements

The Doctor of Philosophy program in music requires a minimum of 72 s.h. of graduate credit. Students must maintain a cumulative gradepoint average of at least 3.00 to earn the degree. PhD concentration areas include composition, musicology, music education, and music theory. Information about specific curricular requirements for each area is available on the School of Music website.

## Advisory Examinations

Entering Doctor of Philosophy students must take two School of Music advisory examinations prior to registering for music history and music theory classes. These examinations are given on the Friday and Saturday preceding the opening of classes in the fall semester.
PhD students in composition, musicology, and music theory must complete the courses required for the MA (see the MA in music [p. 838] in the catalog). They also must complete the following coursework. In addition, proficiency in one or more world languages is required.
Course \# Title Hours

One or more additional music history course(s) listed in the MA requirements
One or more additional music theory course(s) listed in the MA requirements
And one of these:

| MUS:7950 | PhD Thesis | $1-4$ |
| :--- | :--- | :--- |
| MUS:7960 | Composition PhD Thesis | $1-4$ |

## Admission

Applicants must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission for each area is available on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Applicants that complete the application/audition process are reviewed for potential awards (teaching or research assistantships, fellowships, or scholarships). Qualified graduate students are nominated by the area faculty for a potential award. Inquiries should be directed to the head faculty member in the applicant's area of interest.

Career Advancement

The Grad Success Center within the Graduate College offers multiple resources to help students explore their potential career options.

## Academic Plans

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Music, PhD

- Composition Concentration [p. 840]
- Musicology Concentration [p. 841]

## Doctor of Musical Arts, DMA

## Learning Outcomes

- Acquisition of the highest level of knowledge and skills in performance that will prepare students for careers in performance or academia.
- Advanced competencies in repertoire, historical understanding, performance practice, and overall musicianship.
- Acquisition of knowledge and skills at the highest professional level in all facets and modes of performance within the student's area of study.
- Learning of effective approaches to pedagogy in the student's area of study.
- Knowledge and skills in one or more fields of music outside the student's area of study, such as theory, musicology, performance, composition, etc.

## Requirements

The Doctor of Musical Arts requires a minimum of 72 s.h. of graduate credit. Students must maintain a cumulative grade-point average of at least 3.00 to earn the degree. The DMA is offered with two concentrations: conducting and performance.

## Advisory Examinations

Entering Doctor of Musical Arts students must take two School of Music advisory examinations prior to registering for music history and music theory courses. These examinations are given on the Friday and Saturday preceding the opening of classes in the fall semester.
DMA students complete the courses under the MA degree (see the MA in music [p. 838] in the catalog) and the following courses. In addition, students have either a world language or a secondary area requirement.

| Course \# | Title | Hours |
| :--- | :--- | ---: |

| MUS:7970 | DMA Essay and Thesis <br> (minimum 2 s.h. required; | 2 |
|  | maximum 6 s.h.) |  |

## Ensemble Participation

Students in the performance and pedagogy tracks of all graduate programs are required to complete four semesters of major ensemble participation. Students enroll in major ensemble participation during consecutive semesters beginning early in their degree work, to ensure completion of the major ensemble requirements in a timely manner. Ensemble assignments are made at the discretion of the major teacher and ensemble director.

Major ensembles are as follows.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| MUS:3160 | Symphony Band/Concert Band | 1 |
| MUS:3170 | Kantorei | 1 |
| MUS:3172 | Camerata Singers | 1 |

| MUS:3174 | University Choir | 1 |
| :--- | :--- | :--- |
| MUS:3180 | Orchestra | 1 |

For more information, visit the School of Music website.

## Admission

Applicants must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area is available on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Applicants that complete the application/audition process are reviewed for potential awards (teaching or research assistantships, fellowships, or scholarships). Qualified graduate students are nominated by the area faculty for a potential award. Inquiries should be directed to the head faculty member in the applicant's area of interest.

## Career Advancement

The Grad Success Center within the Graduate College offers multiple resources to help students explore their potential career options.

## Theory Pedagogy, Graduate Minor

## Requirements

The graduate minor in theory pedagogy requires 20 s.h. of credit. The program is open to students who have been admitted to a graduate degree program in the School of Music.

The minor in theory pedagogy requires the following coursework.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| One of these: |  |  |
| MUS:4200 | Counterpoint Before 1600 | 3 |
| MUS:4201 | Counterpoint After 1600 | 3 |
| Both of these: |  |  |
| MUS:4290 | Music Theory Colloquium (taken twice) | 2 |
| MUS:6215 | Music Theory Pedagogy | 3 |
| One of these: |  |  |
| MUS:5235 | Tonal Analysis | 3 |
| MUS:6250 | Advanced Tonal Theory and Analysis | 3 |
| One of these: |  |  |
| MUS:5236 | Non-Tonal Analysis | 3 |
| MUS:6251 | Advanced Non-Tonal Theory and Analysis | 3 |

| MUS:5240 | Special Topics in Theory and Analysis | 3 |
| MUS:6210 | History of Ideas of Music | 3 |
| MUS:6211 | Theoretical Approaches to Music | 3 |
| MUS:6250 | Advanced Tonal Theory and Analysis | 3 |
| MUS:6251 | Advanced Non-Tonal Theory and Analysis | 3 |

# Native American and Indigenous Studies 

Interim Director

- Thomas P. Oates

Undergraduate minor: Native American and Indigenous studies
Undergraduate certificate: Native American and Indigenous studies
Graduate certificate: Native American and Indigenous studies
Faculty: https://nativeamericanstudies.uiowa.edu/people
Website: https://nativeamericanstudies.uiowa.edu/
Native American and Indigenous studies (NAIS) is an interdisciplinary program that focuses on the histories, cultures, literatures, and contemporary legal and political issues of Native North Americans and the Indigenous peoples of the world.
Students taking NAIS courses begin to understand the historical and contemporary social issues facing Indigenous peoples within the international and global context of settler colonialism. Courses provide students with a better understanding of ethnic, social, and political diversity. The curriculum provides students with teaching methods that cross conventional disciplinary boundaries that involve visiting and learning more about regional Native American communities. Through engagement with Native peoples from Iowa and the Midwest, students will learn how to communicate knowledge to audiences both within and beyond the classroom. Students thereby gain expertise for employment in advocacy, social services, health care, education, and other areas that require cross-cultural understanding and communication with diverse public audiences. Students also gain a background for more specialized or advanced study in a variety of disciplines, including anthropology; economics; education; ethnic studies; gender, women's, and sexuality studies; geography; history; political science; psychology; religious studies; and social justice.

A certificate or minor in NAIS also complements preprofessional and professional training in areas such as health care, business, social work, and law.

The Native American and Indigenous Studies Program is administered by the Department of American Studies [p. 51].

Courses

## Native American and Indigenous Studies Courses

NAIS:1049 Introduction to Native American and Indigenous Studies<br>3 s.h.

Exploration of past, present, and future of American Indians in the United States and beyond through film, art, music, and comedy. GE: Values and Culture. Same as AMST:1049, HIST:1049.
NAIS:1095 Native American Art
3 s.h.
Survey of the visual arts of Indigenous peoples in North America with emphasis on regions that have become the United States; exploration of painting, sculpture, ceramics, fiber arts, performance, and architecture as expressions of identity, creativity, resistance, and resilience from ancestral traditions through transformations prompted by non-Native contact to today's vibrant art scene. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as ARTH:1095.
NAIS: 1290 Native American Foods and Foodways 3 s.h. Native Americans as original farmers of $46 \%$ of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Diversity and Inclusion. Same as AMST:1290, GHS:1290, HIST:1290.

NAIS:1500 Topics in Native American and Indigenous Studies

3 s.h.
Native American and Indigenous peoples; concepts, problems, and issues.

NAIS:2165 Native Peoples of North America 3 s.h.
History, culture of American Indian peoples; emphasis on North America. GE: Diversity and Inclusion. Same as AMST:2165, ANTH:2165.
NAIS:2292 Native American Law and Policy: A History 3 s.h.
Native Americans are citizens of governments that predate the U.S.; what it means to be a citizen of a federally recognized tribe within the U.S.; exploration of the peculiar status of Native nations and their citizens since 1789. Same as AMST:2292, HIST:2292.

NAIS:2294 Indigenous Art Activism and Social Justice 3 s.h. Examination of the Native and political aspects of Native arts in the 19th and 20th centuries, from drawings and material culture produced for tourists and collectors to works that explicitly address Native oppression through federal policies, popular cultural appropriations, and colonial representations of Indigenous peoples; emphasis on Indigenous interpretations of colonial and settler history and culture through various media and representations of Indigenous identity and politics. Same as HIST:2294, SJUS:2294.

NAIS:2300 Native Americans in Film
3 s.h.
Representations of Native Americans in film from the western to science fiction and animation. Same as AMST:2300.
NAIS:2500 Indigenous Art, Land, and Social Justice 3 s.h. Examples, readings, discussions, and special projects to examine contemporary visual, performance, and multimedia art by Native North American and other Indigenous artists as a component of broader indigenous activism for social justice and defense of land.

NAIS:3110 Colonialism and Indigenous Health Equity 3 s.h. Health problems and services for Indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101 or ANTH:2165 or GHS:2000 or HIST:1049. Same as ANTH:3110, GHS:3110.

## NAIS:3240 Cultural Resources Management Archaeology:

 Practice and PracticalitiesCultural Resources Management (CRM) archaeology is the largest sector of archaeological research in the United States in terms of employment, funding, field- and lab-related activity; students investigate the past and navigate complexities of compliance requirements from federal, state, and local regulations concerning historic preservation; introduction to legal, procedural, and practical foundations of CRM archaeology; preparation for employment by acquisition of skills from project planning through dissemination of results. Recommendations: completion of other anthropology, geography, history, or Native American studies courses. Same as ANTH:3240.
NAIS:3243 Archaeology of the American Midcontinent 3 s.h. Survey of the archaeology of the American midcontinent for students interested in the past beyond what historical documents reveal; exploration of Late Pleistocene and Archaic hunter-gatherer adaptations, Woodland and Late Prehistoric horticulturalists, Middle and Upper Mississippian emergent chiefdoms, and historic period first contact, fur trade, and fort sites; how archaeologists utilize regional archaeological data in addressing culture change issues to develop the essential grounding for understanding how people lived in different times and places in the past, and how prehistoric peoples relate to their modern descendants across the midcontinent. Recommendations: ANTH:1201. Same as ANTH:3243.
NAIS:3257 North American Archaeology
3 s.h.
Prehistoric cultural development north of Mexico from initial occupation to European contact and conquest; emphasis on dynamics of culture change. Same as ANTH:3257.
NAIS:3258 Southwestern Archaeology
3 s.h.
Anthropological overview of prehistoric cultures of the American Southwest; emphasis on understanding archaeological arguments concerning major processes in the past. Same as ANTH:3258.
NAIS:3270 Colonial North America, ca. 1600-1775 3 s.h. Introduction to major themes in colonial American history prior to the American Revolution; Native American history; colonialism and Native resistance; slavery; material culture; religion and spirituality; immigration; gender and sexuality in cross-cultural perspective. Same as HIST:3270.

## NAIS:3272 Native Americans in the Age of Empires, ca. 1500-1815

3 s.h.
Overview of major issues in Native American history during the period of European Imperialism; colonialism, diplomacy and alliance building, warfare, captivity, religious and spiritual exchanges, revolution, and the disintegration of Native-European alliances in the early 19th century. Same as HIST:3272.
NAIS:3289 The Atlantic World c. 1450-1850
Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as HIST:3289.

NAIS:3430 Environmental Politics and Indigeneity 3 s.h. Examination of contemporary environmental challenges through the lens of indigeneity; exploration of the concepts of environment and indigeneity, and development of a guiding framework for analyzing environmental challenges; application of this framework to analyze themes including climate change, biodiversity, food production, management of genetic resources, extractivism, and sustainable development; environmental/indigenous scholars and activists share their work and insights. Same as POLI:3430.
NAIS:3432 Agriculture Politics and Policy
3 s.h.
Examination of local, national, and international politics and policies around agriculture including genetically modified organisms (GMOs), subsidies, trade, genetic seed banks, sustainability, and indigeneity. Same as POLI:3432.
NAIS:3441 Native American Literature
3 s.h.
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century
Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:3441.
NAIS:3502 History of Mexico 3 s.h.
Mexican history since the eve of the Spanish invasion, with focus on the national period; indigenous groups, conquest and demographic disaster, Native survival, labor and migration, social protest and rebellions, nationhood, revolution, regional differences, religions, popular culture, economic growth and distribution, state building, environmental change, international relations; survey. Same as HIST:3502, LAS:3502.
NAIS:4500 Special Topics in Native American and Indigenous Studies 1-3 s.
Native American and Indigenous peoples; concepts, problems, and issues.

## NAIS:4990 Independent Study

arr.
NAIS:5099 American Indian and Native Studies Proseminar 1 s.h. Intensive reading on designated topics with multidisciplinary relevance in Native American and Indigenous studies; may include screenings, field trips, guest speakers, special events.
NAIS:6050 Seminar: Topics in Native American and Indigenous Studies
Native American and Indigenous peoples; concepts, problems, and issues.

NAIS:6099 Independent Study Project
Completion of a significant scholarly project that addresses the scope, goals, and ongoing development of Native American and Indigenous studies as an academic field; findings presented on campus (e.g., NAIS steering committee or in association with an NAISsponsored event) or at an academic conference.
NAIS:6620 Readings in Native American Literatures
3 s.h.
Same as ENGL:6620.
NAIS:7202 Readings: 20th-Century Native American History arr. Examination of the Indigenous 20th century through a series of themes including settler colonialism, sovereignty and selfdetermination, federal Indian policy, and Indigenous feminism; readings focus primarily on secondary sources, but attention is given to key primary sources; students are required to carry out specified research tasks. Same as HIST:7202.

## Native American and Indigenous Studies, Minor

## Requirements

The minor in Native American and Indigenous studies (NAIS) requires a minimum of 15 s.h., including at least 12 s.h. in courses completed at the University of Iowa. Students must earn a grade-point average of at least 2.00 in all coursework completed for the minor.
Students complete one introductory course and 12 s.h. in elective coursework as indicated below. Elective courses reflect the program's emphasis on Indigenous histories in the Americas, Indigenous cultures and literatures, and Indigenous peoples in global perspectives. Elective courses from several departments ensure that students are exposed to different themes. Students may consult with the NAIS coordinator.
The minor in Native American and Indigenous studies requires the following coursework.

## Introductory Courses

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| One of these: |  |  |
| AMST:1049/ | Introduction to Native American <br> and Indigenous Studies | 3 |
| HIST:1049/ Native Peoples of North <br> NAIS:1049 America |  |  |
| ANTH:2165/ Native American Law and |  |  |
| AMST:2165/ Policy: A History | 3 |  |
| HIST:2292/ |  | 3 |
| AMST:2292/ |  |  |
| NAIS:2292 |  |  |

## Elective Courses

Students must choose 12 s.h. in elective coursework. They may petition for minor credit for courses not listed below that contain significant Indigenous content.

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| NAIS:1500 | Topics in Native American and Indigenous Studies | 3 |
| NAIS:2300/ AMST:2300 | Native Americans in Film | 3 |

## Native American and

## Indigenous Studies, Certificate

## Requirements

The undergraduate Certificate in Native American and Indigenous Studies (NAIS) requires a minimum of 18 s.h., including at least 12 s.h. in courses completed at the University of Iowa. Students must earn a grade-point average of at least 2.00 in all certificate coursework.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

All students develop an individual certificate plan of study in consultation with the NAIS coordinator. In some cases, students may be able to count certificate courses toward certain GE CLAS Core [p. 19] requirements. Students complete one introductory course and 15 s.h. in elective coursework as indicated below. Elective courses reflect the certificate program's emphasis on Indigenous histories in the Americas, Indigenous cultures and literatures, and Indigenous peoples in global perspectives. Elective courses from several departments ensure that students are exposed to different themes.

The Certificate in Native American and Indigenous Studies requires the following coursework.

## Introductory Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |

## Native American and <br> Indigenous Studies, Graduate Certificate

## Requirements

The graduate Certificate in Native American and Indigenous Studies (NAIS) requires a minimum of 15 s.h. in courses numbered 3000 and above. Students must maintain a grade-point average of at least 3.00 in coursework toward the certificate.

Students must contact the NAIS coordinator in order to apply to the certificate program, and they work with the NAIS coordinator to develop a plan of study.

Students who earned an undergraduate certificate in the program may not receive a graduate certificate.

Native American and Indigenous studies aims to expose students to the interdisciplinary nature of the field. NAIS emphasizes Indigenous histories in the Americas, Indigenous cultures and literatures, and Indigenous peoples in global perspectives.

Students may petition for certificate credit for courses that are not on the list. The petition must show that the course contains significant Indigenous content. Before enrolling in any courses listed below, students should contact the NAIS coordinator.

| Course \# | Title | Hours |
| :---: | :---: | :---: |

## Neuroscience

## Chair, Department of Biology

- Jodie M. Plumert

Undergraduate major: neuroscience (BS)
Faculty: https://clas.uiowa.edu/neuro\#faculty
Website: https://clas.uiowa.edu/neuro
The departments of Biology and Psychological and Brain Sciences collaborate to offer the Bachelor of Science degree in neuroscience. The neuroscience program also is closely aligned with the Iowa Neuroscience Institute (INI). The program is administered by the Department of Biology [p. 167].

## Programs

## Undergraduate Program of Study

## Major

- Major in Neuroscience (Bachelor of Science) [p. 852]

## Neuroscience, BS

## Learning Outcomes

Students will:

- learn how molecules and cells generate brain circuits that build human behavior and cognition;
- design effective experiments;
- think critically about scientific data;
- communicate effectively about neuroscience; and
- be prepared for graduate education in neuroscience or related lifescience fields; for medical school or other health-related programs such as public health or nursing; or for a first step in a career, including work in biomedical industries, academic laboratories, and science education.

## Requirements

The Bachelor of Science with a major in neuroscience requires a minimum of 120 s.h., including at least $64 \mathrm{~s} . \mathrm{h}$. of work for the major. Coursework includes neuroscience, chemistry, biochemistry, mathematics, and physics courses. Students must maintain a gradepoint average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

Students who major in neuroscience may not earn a major in biology or psychology, but may earn a minor in biology or psychology as long as no more than 3 s.h. are double counted.

The BS with a major in neuroscience requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Cognate Requirements | $23-26$ |
| Introductory Courses | 8 |
| Core Courses | 17 |
| Laboratory Course | 4 |
| Neuroscience Electives | 12 |

## Cognate Requirements

| BIOL:3245 | Animal Behavior Laboratory | 4 |
| BIOL:3655 | Neurogenetics Laboratory | 4 |
| BIOL:3656 | Neurobiology Laboratory | 4 |
| PSY:4025 | Laboratory in Cognitive | 4 |
| PSY:4035 | Neuroscience |  |
|  | Laboratory in Computational | 4 |
|  | Neuroscience |  |

## Neuroscience Electives

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| A minimum of four courses (12 s.h.) from these: |  |  |
| BIOL:1412 | Diversity of Form and Function | 4 |
| BIOL:2254 | Endocrinology | 3 |
| BIOL:2512 | Fundamental Genetics | 4 |
| BIOL:2723 | Cell Biology | 3 |
| BIOL:3244 | Animal Behavior | 3 |
| BIOL:3343 | Animal Physiology | 3 |
| BIOL:4333 | Genes and Development | 3 |
| PCOL:3101 | Pharmacology I: A Drug's Fantastic Journey | 3 |
| PHIL:3510 | Neuroethics | 3 |
| PSY:3035 | Science of Emotion | 3 |
| PSY:3040 | Psychology of Learning | 3 |
| PSY:3055 | Interdisciplinary Science of Sound and Hearing | 3 |
| PSY:3060 | Sensation and Perception | 3 |
| PSY:3075 | The Damaged Brain | 3 |
| PSY:3250 | Neuroscience of Learning and Memory | 3 |
| PSY:3265 | Cognitive and Clinical Neuroscience of Executive Functions | 3 |
| PSY:3270 | Neurobiology of Stress | 3 |
| PSY:3275 | The Science of Sleep | 3 |
| PSY:3360 | The Psychosis Spectrum | 3 |
| PSY:3575 | Social Cognition in Autism | 3 |

May include one of these:

| PCOL:3102 | Pharmacology II: Mechanisms <br> of Drug Action | 3 |
| :--- | :--- | :--- |
| PSY:3230 | Psychopharmacology | 3 |

## Honors

## Honors in the Major

Students majoring in neuroscience have the opportunity to graduate with honors in the major. Departmental honor students must maintain a major grade-point average (GPA) and a UI GPA of at least 3.33.

In order to earn honors in the neuroscience major, students must complete the following.

- A minimum of 6 s.h. over two or more semesters of an independent laboratory research project undertaken in the laboratory of an Iowa Neuroscience Institute (INI) faculty member chosen from a list of approved mentors. Students enroll in BIOL:4995/PSY:4995 Honors Research in Neuroscience.
- A brief initial research proposal summarizing the background and goals of the planned honors investigations research, submitted to the honors coordinator, typically at the end of the semester immediately prior to the final semester of honors research.
- An acceptable honors thesis describing the research submitted to the honors coordinator near the end of the final semester of enrollment in BIOL:4995/PSY:4995 Honors Research in Neuroscience.
- An oral presentation of the honors research findings during the student's final semester.

Honors students also are encouraged to participate in the Office of Undergraduate Research (OUR) and to apply for research scholarships, including the Iowa Neuroscience Institute (INI) Summer Scholars Fellowships.

Neuroscience majors interested in graduating with honors in the major should contact the honors coordinator as early as possible, preferably during their sophomore or junior year.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Students who satisfy the requirements for honors in the neuroscience major also satisfy the Experiential Learning requirement of the university honors curriculum.
Membership in the UI Honors Program is not required to earn honors in the neuroscience major.

## Career Advancement

The major provides students with a rigorous and broad background in neuroscience, from the cellular and molecular levels to the behavioral and cognitive levels. Students earning a degree in neuroscience will be well prepared to pursue graduate work in neuroscience or related life sciences, to attend medical school, or to enter other healthrelated programs such as a physician's assistant program, public health, or nursing. Graduates also will be prepared to directly enter the workforce in biotechnology industries, academic life science laboratories, or in science education, and science writing.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: BIOL:1411 Foundations of Biology, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, MATH:1460 Calculus for the Biological Sciences or MATH:1550 Engineering Mathematics I: Single Variable Calculus or MATH:1850 Calculus I, and PSY:2701 Introduction to Behavioral Neuroscience.
Before the fifth semester begins: PHYS: 1511 College Physics I or PHYS:1611 Introductory Physics I, PSY:2811 Research Methods and Data Analysis in Psychology I, PSY:2812 Research Methods and Data Analysis in Psychology II, and PSY:2975 Introduction to Cognitive Neuroscience.

Before the seventh semester begins: BMB:3110 Biochemistry, or BMB:3120 Biochemistry and Molecular Biology I and BMB:3130 Biochemistry and Molecular Biology II; BIOL:3253 Neurobiology I; one of the four approved laboratory courses; and PHYS:1512 College Physics II or PHYS:1612 Introductory Physics II.

Before the eighth semester begins: two required neuroscience electives.

During the eighth semester: one required neuroscience elective, enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Neuroscience, BS

| Course | Title | Hours |
| :---: | :---: | :---: |
| Academic Career |  |  |
| Any Semester |  |  |
| GE CLAS Core: Sustainability ${ }^{\text {a }}$ |  |  |
|  | Hours | 0 |
| First Year |  |  |
| Fall |  |  |
| PSY:1001 | Elementary Psychology ${ }^{\text {b }}$ | 3 |
| PSY:2701 | Introduction to Behavioral Neuroscience | 4 |
| CHEM:1110 | Principles of Chemistry I ${ }^{\text {c }}$ | 4 |
| RHET:1030 or ENGL:1200 | Rhetoric or The Interpretation of Literature | 3-4 |
| CSI:1600 | Success at Iowa | 2 |
|  | Hours | 16-17 |

| Spring |  |  |
| Major: neuroscien | ce lab course or neuroscience elective IV | 3-4 |
| GE CLAS Core: | Historical Perspectives ${ }^{\text {g }}$ | 3 |
| GE CLAS Core: L | iterary, Visual, and Performing Arts ${ }^{\text {g }}$ | 3 |
| Elective course ${ }^{\text {h }}$ |  | 3 |
| Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) ${ }^{\text {i }}$ |  |  |
|  | Hours | 12-13 |
|  | Total Hours | 1-123 |

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b It is strongly recommended that neuroscience majors take this course as their GE CLAS Core: Social Science requirement and that they do so in their first semester.
c Enrollment in chemistry courses requires completion of a placement exam.
d Enrollment in math courses requires completion of a placement exam.
e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
f If BMB:3120 is taken, students will also have to complete BMB:3130 to meet this requirement.
g GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Philosophy

## Chair

- Ali M. Hasan

## Undergraduate major: philosophy (BA)

Undergraduate minor: philosophy
Graduate degrees: MA in philosophy; PhD in philosophy
Faculty: https://clas.uiowa.edu/philosophy/people/faculty
Website: https://clas.uiowa.edu/philosophy/
The Department of Philosophy offers programs of study for undergraduate and graduate students. A major in philosophy develops abilities useful for careers in many fields and for any situation requiring clear, systematic thinking.

The department also administers the interdisciplinary undergraduate major in ethics and public policy, which it offers jointly with the Department of Economics and the Department of Sociology and Criminology; see Ethics and Public Policy [p. 464] in the catalog.

## Programs

Undergraduate Programs of Study

## Major

- Major in Philosophy (Bachelor of Arts) [p. 859]

## Minor

- Minor in Philosophy [p. 863]

## Graduate Programs of Study

## Majors

- Master of Arts in Philosophy [p. 864]
- Doctor of Philosophy in Philosophy [p. 866]

For more detailed descriptions of undergraduate and graduate courses offered during a given semester or summer session, visit the university's MyUI website before early registration. Graduate-level courses are numbered from 4000 to 7900.

## Philosophy Courses

## PHIL:1010 First-Year Seminar

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).
PHIL: 1033 The Meaning of Life
3 s.h.
Philosophical investigation of the nature of human life and of what makes human life valuable and/or meaningful. GE: Historical Perspectives.

PHIL: 1034 Liberty and the Pursuit of Happiness
3 s.h.
Examination of conflict between state power and individual liberty; philosophical and historical examination of theories from Plato through today. GE: Historical Perspectives.
PHIL:1401 Matters of Life and Death 3 s.h.
Contemporary ethical controversies with life and death implications; topics may include famine, brain death, animal ethics, abortion, torture, terrorism, capital punishment. GE: Values and Culture.

PHIL:1636 Principles of Reasoning: Argument and Debate $\mathbf{3}$ s.h. Critical thinking and its application to arguments and debates. GE: Quantitative or Formal Reasoning.

PHIL:1861 Introduction to Philosophy 3 s.h.
Varied topics; may include personal identity, existence of God, philosophical skepticism, nature of mind and reality, time travel, and the good life; readings, films. GE: Values and Culture.

PHIL:1902 Philosophy Lab: The Meaning of Life 1 s.h. Further exploration of PHIL:1033 course material with the professor in a smaller group.
PHIL:1950 Philosophy Club
1-3 s.h.
Relevant philosophical debates as they are exhibited in current events, text, and film; participation through discussions and film screenings.

PHIL:2111 Ancient Philosophy
3 s.h.
Ancient Greek philosophy from Thales to Aristotle; pre-Socratic cosmologists, Socrates, ancient medicine and religion, rivalry between sophists and philosophers; primary focus on reaction of Plato and Aristotle to this intellectual inheritance culminating in their greatest achievement, the invention of systematic philosophy.
PHIL:2214 Seventeenth-Century Philosophy
3 s.h.
Varied topics; may include free will, the mind-body problem, existence of God, relationship between God and creatures, science and religion, stoicism, early feminism; Francis Bacon, Rene Descartes, Margaret Cavendish, Baruch Spinoza, Anne Conway, G.W. Leibniz, Mary Astell, John Locke.
PHIL:2215 Modern Philosophy
3 s.h.
Varied topics; may include free will, the mind-body problem, existence of God, creation versus evolution, subjectivity of perception, limits of cognition, the good life; Rene Descartes, Margaret Cavendish, Baruch Spinoza, Anne Conway, G.W. Leibniz, Mary Astell, John Locke, George Berkeley, David Hume, Immanuel Kant.

PHIL:2216 Eighteenth-Century Philosophy 3 s.h.
Varied topics; may include appearance versus reality, empiricism and science, the mind-body problem, existence of God, creation versus evolution, subjectivity of perception, limits of cognition, the good life, and early feminism; Mary Astell, John Locke, George Berkeley, David Hume, Immanuel Kant, and Thomas Reid.

PHIL:2343 Philosophy East and West 3 s.h.
Conception of human good in the East and in the West.
PHIL:2352 Chinese Philosophy
3 s.h.
Introduction to Chinese philosophy; Confucius and Mencius; human flourishing in accordance with nature; Daoism; Laozi and Zhuangzi; virtues and lives in ancient China and Greece; human nature and good and evil; moral sentiment and desire for profit.
PHIL:2402 Introduction to Ethics
3 s.h.
Analytical and historical introduction to ethical theories; issues such as the nature of the goodness, distinction between right and wrong. GE: Values and Culture.
PHIL:2415 Bioethics
3 s.h.
Recent developments in biotechnology and medicine; designer babies and cloning, genetic screening for disease, distributive justice in health care, animal experimentation, physician-assisted suicide, and euthanasia. Same as GHS:2415.

PHIL:2422 Feminist Ethics
3 s.h.
Philosophical evaluation of gender as a pervasive and persistent structuring principle for social inequality. Same as GWSS:2422.
PHIL:2425 Sex, Marriage, Friendship, and the Law 3 s.h. Examination and evaluation of ways in which society and law have privileged or discouraged certain forms of sexual activity and certain forms of adult intimate relationships. GE: Diversity and Inclusion.

PHIL:2429 War, Terrorism, and Torture
Examination of some of the most compelling ethical and legal questions surrounding the topic of war: Can a war ever be just? If so, under which conditions is one justified in waging war? Are there limitations on permissible ways to fight a war? How are acts of terrorism different from acts of war? Is torture ever justified?

## PHIL:2432 Introduction to Political Philosophy

3 s.h.
Survey of central problems in political philosophy; focus on liberty, equality, justice, and purpose of the state; core philosophers may include John Locke, Jean\#Jacques Rousseau, Thomas Hobbes, John Stuart Mill, and John Rawls.

## PHIL:2435 Philosophy of Law

3 s.h.
Examination of jurisprudential theories and their answers to the question, "What is law?"; intersection between law and morality, legal punishment, political obligation, constitutional interpretation.
PHIL:2436 The Nature of Evil
3 s.h.
The nature of evil explored through philosophical texts, videos and films, case studies of individuals.

## PHIL:2437 Introduction to Metaphysics

3 s.h.
Questions about the ultimate nature of reality and our place in it: What is the nature of space and time? Is time travel possible? What is the self and how does it persist through time and change? What is the nature of causation? Do we have free will?
PHIL:2442 Knowledge and the Threat of Skepticism 3 s.h. Skeptical doubt and distinction between appearance and reality; nature of knowledge and what, if anything, can we know.

PHIL:2480 Language and Its Social Roles 3 s.h.
Introduction to basic concepts in philosophy of language and speech act theory; social and political uses of language including nature of speech, silencing, oppressive and hate speech, propaganda and dehumanizing language, lying and misleading with language.

## PHIL:2534 Philosophy of Religion

3 s.h.
Historical to contemporary treatments of central issues; nature of faith, existence and nature of God, science and religion, ethics and religion, miracles, religious experience, interpretation of religious texts. Requirements: sophomore or higher standing. Same as RELS:2834.

## PHIL:2538 Minds and Machines

3 s.h.
Questions concerning artificial intelligence: What is a mind? What is the relationship between minds and machines? What distinguishes real minds from artificial minds? Could computers or robots think or have feelings? If we create something whose intelligence surpasses that of humans, do we have a right to control it? Are your smart electronic devices parts of your mind? How has the internet changed our lives? Do we survive, perhaps immortally, if we upload contents of our minds to the internet or cloud?

## PHIL:2542 Minds and Brains

3 s.h.
Nature of mind in the age of the brain; exploration of questions (How is the mind related to the brain? What do brain scans show? How does the brain process information? What is conscious experience? Is free will threatened by neuroscience? How are intuitive conceptions of memory, emotion, and other mental capacities changing?).

## PHIL:2603 Introduction to Symbolic Logic

3 s.h.
Main ideas and techniques of modern natural deduction with quantifiers (all, some, most, exactly one); relations and identity; topics in philosophy of logic including nature of logic, nature of functions, logical necessity, identity as a relation, and how we know logic.

## PHIL:3002 Stoics and Epicureans, or How to Live Like a Roman

 Sage3 s.h.
Introduction to ethics, epistemology, and metaphysics of Stoicism and Epicureanism, two rival schools of philosophy that profoundly influenced popular and intellectual culture of the Roman Empire.

PHIL:3112 Medieval Philosophy
3 s.h.
Introduction to St. Thomas Aquinas, William of Ockham, and Duns Scotus, three of the most brilliant philosophers of the high middle ages (11th through 13th centuries); their writing as Christians in (fascinated) reaction to philosophical systems of their pagan predecessors; how medieval philosophers wrestled with problems concerning possibility of free will and responsibility in face of divine omniscience and foreknowledge; existence of abstract universals in a world that is nonabstract and particular; nature and existence of God; skepticism and limits of human knowledge; nature of good and evil. Same as HIST:3412.

## PHIL:3143 Existentialism

3 s.h.
Main ideas of existentialism, including free will, authenticity, power, nihilism; emphasis on Jean Paul Sartre, Simone de Beauvoir, Friedrich Nietzsche, Martin Heidegger, Soren Kierkegaard, Albert Camus.
PHIL:3318 Twentieth-Century Philosophy 3 s.h.
Exploration of fundamental issues that shaped philosophy in the past century; impact of the theory of evolution on philosophy; whether philosophy is a science; nature of truth and meaning; nature of necessity; nature of space, time, and being; John Dewey, Bertrand Russell, Gottlob Frege, Ludwig Wittgenstein, W.V.O. Quine, Saul Kripke, David Lewis.

## PHIL:3342 Multiculturalism and Toleration

3 s.h.
Evaluation of multiculturalism as a political policy and as a personal attitude of respect; individual and collective identity, gender justice, autonomy, toleration, multiculturalism and education; contested practices.
PHIL:3430 Philosophy of Human Rights 3 s.h.
Examination of the concept of human rights; sources of human rights; how we justify calling some, while not other rights, "human rights"; applied issues in women's, children's, and anti-poverty rights.

## PHIL:3431 Aesthetics

3 s.h.
Issues regarding art, aesthetic judgment, and role of art in society; investigation of questions: What is art and what is good art? What is conceptual art? Are aesthetic judgments just a matter of taste, or are some opinions about art better than others? What features of artworks matter for making such judgments, and which don't?; issues pertaining to various arts including painting and sculpture, music, fiction and poetry, performance arts; introduction to artworks and artists.

## PHIL:3510 Neuroethics

3 s.h.
Issues that arise from advances in knowledge of brain-mind relations: cognitive neuroenhancement, neuroimaging-based lie detection and privacy, changing standards of moral and legal responsibility, justification of punishment, admissibility of neuroimaging in legal contexts.

## PHIL:3604 Introduction to Philosophy of Science

Examination of basic questions regarding nature of science and scientific knowledge: When is a field of inquiry a science? What counts as evidence in a science, and why? In what sense, if any, is science objective? What are scientific laws, theories, and explanations? If scientific theories are never proven with certainty, are we justified in believing them to be true? Recommendations: background in science (psychology, biology, chemistry, physics).

## PHIL:3845 Buddhist Philosophy

3 s.h.
Theories and arguments concerning the Buddhist path to enlightenment. Same as RELS:3645.

PHIL:3847 Philosophical Issues
3-4 s.h.
A philosophical topic or controversy.
PHIL:3902 Workshop: Analytical Skills for the LSAT 3 s.h.
Guided preparation for pre-law students who plan to take the Law School Admission Test (LSAT); exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.

PHIL: 3904 Workshop: Analytical Skills for the GMAT 3 s.h.
Guided preparation for undergraduate students who plan to enroll in a graduate business program and take the Graduate Management Admission Test (GMAT); exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.
PHIL:3906 Workshop: Analytical Skills for the MCAT 3 s.h. Guided preparation for students who plan to take the Medical College Admission Test (MCAT); exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.
PHIL:3908 Workshop: Analytical Skills for the GRE 3 s.h. Guided preparation for students who plan to take the Graduate Record Examination (GRE) and attend graduate school; exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.

## PHIL: 3920 Philosophy in Public

1-3 s.h.
Engagement and service-learning; philosophical concepts are applied to and extracted from internship work in the community and beyond.
PHIL:3950 Readings in Philosophy
arr.
Independent study. Requirements: sophomore or higher standing.
PHIL:4050 Topics in Buddhist Philosophy 3 s.h.
Buddhist theories and arguments concerning nature and existence of the self.

## PHIL:4152 Plato

3 s.h.
Introduction to metaphysics, epistemology, and moral theory of Plato; topics may include the philosophy of Socrates, Plato's theory of Forms, the tripartite soul, nature of virtue and moral education; Plato's cosmology and assimilation of human nature to the divine; close reading and interpretation of specific texts.

## PHIL:4153 Aristotle

3 s.h.
Introduction to metaphysics, epistemology, and moral theory of Aristotle; topics may include Aristotle's theories of matter and form, causation, motion, change, space, void, time; Aristotle's philosophy of biology and theory of the soul; unity of virtue, nature of action and choice; the syllogism; combines survey with close reading and interpretation of specific texts.

## PHIL:4258 Descartes

3 s.h.
Descartes' systematic philosophy and impact on current debates; topics may include skepticism, the confusion of everyday experience, the mind-body problem, innate ideas and empiricism, free will, nature and existence of God, science and religion, problem of evil, stoicism.

## PHIL:4260 Spinoza and Leibniz

3 s.h.
Comparative and critical examination of metaphysical and epistemological views of 17th\#century rationalists, Baruch Spinoza and G.W. Leibniz; topics may include monism, panpsychism, space and time, free will and necessity, the confusion of everyday experience, incomplete versus complete ideas, nature and existence of God, stoicism, passions and emotions as objects of detached scientific investigation.

## PHIL:4266 Kant

3 s.h.
Main ideas and major texts of Kant's metaphysics and epistemology; particular attention given to Critique of Pure Reason.

## PHIL:4346 Frege and Russell

3 s.h.
Major issues concerning Frege's revolution in logic, Cantor's taming of the infinite, and Russellian synthesis of these revolutions to form Logicist thesis that all of pure mathematics (including geometry) is a branch of the science of logic; central issues in the philosophy of language and analysis of logical form; Russell's theory of definite descriptions and his logicism as a paradigm for a philosophical solution to mysteries of existence, number, infinite, motion, and Zeno paradoxes.

PHIL: 4373 Heidegger
3 s.h.
Main ideas and major texts of Martin Heidegger; early and later periods; particular attention given to Being and Time; focus on Heidegger's analyses of Being and being\#in\#the\#world.
PHIL:4375 Rawls's Political Philosophy
3 s.h.
Major works by John Rawls, selected secondary readings; contractarianism, concept of justice, justice as fairness as an alternative to utilitarianism, Kantian foundations, comprehensive and political liberalism.
PHIL:4377 Wittgenstein
3 s.h.
Main ideas and major texts of Ludwig Wittgenstein; early and later periods; particular attention given to Tractatus, Philosophical Investigations, and development of Wittgenstein's thought.
PHIL:4379 Quine
3 s.h.
Evaluation of Quine's attempt to restructure philosophy so that ontological questions are questions of "what there is" and methods for answering such questions are methods of natural (empirical) sciences; central issues pertaining to Quine's thesis that this naturalization program also applies to physics, mathematics, logic; comparison of Dewey's pragmatist and evolutionary reconstruction in philosophy to that of Quine and others (e.g., Carnap, Russell, Wittgenstein); major themes involving Quine on set theory, modal logic, the a priori; and the thesis that meaning is translation and translation is indeterminate.

## PHIL:4480 Analytic Ethics

Exploration of central meta-ethical questions: Are there objective values, and if there are, can we gain knowledge of what has such value? Should we always act so as to bring about the best consequences? If not, why not? Can we derive moral conclusions from scientifically established facts about the world? If not, does this undermine the idea that we can offer sensible arguments for ethical conclusions?

PHIL:4481 Issues in Philosophy of Law
3 s.h.
Nature of law and legal interpretation; natural law theory and positivism; critical legal theories.

PHIL:4482 Early Modern Ethics
3 s.h.
Thomas Hobbes' 1651 publication, Leviathan, set British moral philosophy on a new course, rejecting most of the presuppositions of theistic natural law theory, shocked and outraged many of his contemporaries, and set in motion a debate about the nature of morality that continues today in philosophical ethics; focus on debate between sentimentalists (Francis Hutcheson, David Hume, Adam Smith) who regarded morality as a matter of human attitudes and emotions, and rationalists (Samuel Clarke, Ralph Cudworth, Richard Price) who regarded morality as analogous to mathematics.
PHIL:4485 Political Philosophy 3 s.h.
Political philosophy topics; may include obligation to obey the law, secession, nature of rights, limits of state power, just distribution of property, feminist criticisms.
PHIL:4586 Topics in Metaphysics
3 s.h.
In-depth exploration of metaphysical problems: material constitution, persistence of objects and persons through time, problem of universals, mind-body problem, free will and determinism.
PHIL:4587 Epistemology
3 s.h.
Theories of nature, structure, and extent of knowledge and rational belief; investigation of questions: Do we really know as much as we are inclined to think we do? Can we rule out the possibility that we are dreaming or being systematically deceived right now? And if we can't, what reason do we have for thinking that things are as they seem to us to be?
PHIL:4588 Philosophy of Mind 3 s.h.

Foundational questions about the mind: What is the mind, and how is it related to the brain? What makes minds so special? How do we know if other animals, or even other people, have minds? Can things without brains, such as aliens or computers, think? What is consciousness? Are we mere machines, lacking free will, if neuroscientists can explain the mind?; recent research in related sciences including neuroscience, psychology, cognitive ethology (animal cognition).

## PHIL:4589 Philosophy of Language <br> 3 s.h.

Main issues in contemporary philosophy of language; topics may include theories of meaning, truth, belief, interpretation, translation, speech acts, performatives, rule following, reference, naming, propositional attitudes, metaphor. Same as LING:4589.

## PHIL:4590 Foundations of Cognitive Science <br> 3 s.h.

Cognitive science defined as the study of individual agency; its nature, mechanisms, and patterns; development of cognitive science from historical roots in psychology, computer science, neuroscience, philosophy, linguistics; key issues; motivations for and varieties of cognitive explanations; models of cognitive architecture; nature of information processing; relation between cognitive processes and experimental tasks; relation between cognitive and neural theories, models, explanations.

## PHIL:4691 Mathematical Logic

3 s.h.
Presentation of logic as the science that studies kinds of structure; different axiom systems, decidability, model theoretic semantics, Gödel's incompleteness theorems; topics include nature of logic, mathematics, type-theories, set-theoretical paradoxes.

## PHIL:4692 Modal Logic

Presentation of systems of logic designed to capture concepts of necessity and possibility; different axiom systems, semantics, nonexistent objects; topics include nonclassical systems, nature of possible worlds, relevant entailment, transworld identity, and counterparts inhabiting parallel worlds.

## PHIL:4694 Philosophy of Science 3 s.h.

Issues in the nature of science and scientific knowledge considered in greater depth; nature of causation, kinds of relations that might hold between sciences and scientific theories, and varieties of explanation. Requirements: prior coursework in philosophy.

## PHIL:4798 Topics in Philosophy

A single philosopher or philosophical problem.
PHIL:4920 Research Practicum
3 s.h.

2-3 s.h.
Collaborative research between student and faculty member.
PHIL:5153 Aristotle: Seminar Discussion
1 s.h.
Introduction to metaphysics, epistemology, and moral theory of Aristotle; topics may include Aristotle's theories of matter and form, causation, motion, change, space, void, time; Aristotle's philosophy of biology and theory of the soul; unity of virtue, nature of action and choice; the syllogism; combines survey with close reading and interpretation of specific texts; seminar discussion for graduate students. Corequisites: PHIL:4153.
PHIL:5266 Kant: Seminar Discussion 1 s.h.
Main ideas and major texts of Kant's metaphysics and epistemology; particular attention given to Critique of Pure Reason; seminar discussion for graduate students. Corequisites: PHIL:4266.
PHIL:5373 Heidegger: Seminar Discussion 1 s.h.
Seminar discussion; for graduate students enrolled in PHIL:4373.
Corequisites: PHIL:4373.

PHIL:5377 Wittgenstein: Seminar Discussion
1 s.h.
Main ideas and major texts of Ludwig Wittgenstein; early and later periods; particular attention given to Tractatus Logico-Philosophicus, Philosophical Investigations, and development of Wittgenstein's thought; seminar discussion for graduate students. Corequisites: PHIL:4377.
PHIL:5480 Analytic Ethics: Seminar Discussion 1 s.h Exploration of central meta-ethical questions: Are there objective values, and if there are, can we gain knowledge of what has such value? Should we always act so as to bring about the best consequences? If not, why not? Can we derive moral conclusions from scientifically established facts about the world? If not, does this undermine the idea that we can offer sensible arguments for ethical conclusions? Seminar discussion for graduate students. Corequisites: PHIL:4480.
PHIL:5588 Philosophy of Mind: Seminar Discussion 1 s.h. Foundational questions about the mind: What is the mind, and how is it related to the brain? What makes minds so special? How do we know if other animals, or even other people, have minds? Can things without brains, such as aliens or computers, think? What is consciousness? Are we mere machines, lacking free will, if neuroscientists can explain the mind?; recent research in related sciences including neuroscience, psychology, and cognitive ethology (animal cognition); seminar discussion for graduate students. Corequisites: PHIL:4588.

| PHIL:6100 Seminar: Ancient Philosophy | $\mathbf{3}$ s.h. |
| :--- | ---: |
| PHIL:6200 Seminar: Modern Philosophy | $\mathbf{3}$ s.h. |
| PHIL:6300 Seminar: Philosophical Analysis | $\mathbf{3}$ s.h. |
| PHIL:6400 Seminar: Ethics | $\mathbf{3}$ s.h. |
| PHIL:6510 Seminar: Metaphysics | $\mathbf{3}$ s.h. |
| PHIL:6520 Seminar: Epistemology | $\mathbf{3}$ s.h. |

## Philosophy, BA

Undergraduate courses in philosophy are designed to impart knowledge of fundamental issues and main developments in philosophy while strengthening logical and analytic skills.

The department sponsors an active Philosophy Club that hosts informal discussion meetings, movie nights, outreach events, departmental public lectures and colloquia, and other activities. The department also offers a service-learning course, PHIL:3920 Philosophy in Public.

## Learning Outcomes

The goals of philosophical training are:

- to think critically and make well-grounded arguments, both orally and in written work;
- to understand key philosophical problems and major traditions;
- to learn variegated approaches to solving problems;
- to detect problems and puzzles that are not readily apparent;
- to develop critical listening;
- to learn a step-by-step approach to the mastery of public speaking; and
- to read and interpret all forms of text-news reports, books, film, television, etc.

## Department of Philosophy Initiatives

- Applying philosophical concepts to everyday affairs.
- Creating community through movie nights, the philosophy club, public lectures, optional one-hour lab sections for students to work more closely with research faculty, an undergraduate colloquium series, and the undergraduate journal, Labyrinth.
- Outreach and engagement; for example, through the servicelearning course, PHIL:3920 Philosophy in Public, the K-12 Iowa Lyceum Summer Philosophy Institute, and outreach with the Johnson County Senior Center.
- The philosophy undergraduate internship program.
- Prompt and helpful advising.
- An annual newsletter that connects students with successful alumni.

## Requirements

The Bachelor of Arts with a major in philosophy requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. A minimum of $15 \mathrm{~s} . \mathrm{h}$. for the major must be earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

Students should discuss the requirements for the major with an advisor as soon as possible. The advisor can suggest the most effective order for taking courses, based on each student's interests and on the relation of the course topics to each other. See Courses [p. 855] in this section of the catalog for a complete listing of philosophy courses.

Students can only count one of these courses toward the major.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| PHIL:3902 | Workshop: Analytical Skills for <br> the LSAT | 3 |
| PHIL:3904 | Workshop: Analytical Skills for <br> the GMAT | 3 |

| PHIL:3906 | Workshop: Analytical Skills for <br> the MCAT | 3 |
| :--- | :--- | :--- |
| PHIL:3908 | Workshop: Analytical Skills for <br> the GRE | 3 |

Of the 30 s.h. of philosophy coursework (prefix PHIL) required for the major, at least two courses must be numbered 4000 or above. Only 3 s.h. of PHIL:4920 Research Practicum may be counted toward the major and toward the 4000-level course and area requirement.

The BA with a major in philosophy requires the following coursework.

| Requirements | Hours |
| :--- | :--- |
| Value Theory Courses | 6 |
| Metaphysics/Epistemology Courses | 6 |
| Ancient Philosophy Course | 3 |
| Modern Philosophy Course | 3 |
| Introductory Logic Course | 3 |
| Philosophy Electives | 9 |

Only 6 s.h. of the total hours required for the major can be taken in coursework numbered 1000-1999 (see the list below for options).

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| May take two courses from these: |  |  |
| PHIL:1033 | The Meaning of Life | 3 |
| PHIL:1034 | Liberty and the Pursuit of | 3 |
| PHIL:1401 | Happiness | 3 |
| PHIL:1636 | Matters of Life and Death | 3 |
|  | Principles of Reasoning: | 3 |
| PHIL:1861 | Argument and Debate | 3 |

## Value Theory

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| At least two of these: |  | 3 |
| PHIL:2402 | Introduction to Ethics | 3 |
| PHIL:2415 | Bioethics | 3 |
| PHIL:2422 | Feminist Ethics | 3 |
| PHIL:2425 | Sex, Marriage, Friendship, and |  |
|  | the Law |  |
| PHIL:2429 | War, Terrorism, and Torture | 3 |
| PHIL:2432 | Introduction to Political | 3 |
|  | Philosophy | 3 |
| PHIL:2435 | Philosophy of Law | 3 |
| PHIL:2436 | The Nature of Evil | 3 |
| PHIL:3342 | Multiculturalism and Toleration | 3 |
| PHIL:3430 | Philosophy of Human Rights | 3 |
| PHIL:3431 | Aesthetics | 3 |
| PHIL:3510 | Neuroethics | 3 |
| PHIL:3845 | Buddhist Philosophy | 3 |
| PHIL:4375 | Rawls's Political Philosophy | 3 |
| PHIL:4480 | Analytic Ethics | 3 |
| PHIL:4481 | Issues in Philosophy of Law | 3 |
| PHIL:4482 | Early Modern Ethics | 3 |
| PHIL:4485 | Political Philosophy | 3 |
| May be taken with permission of the instructor if | 3 |  |
| content is applicable: | Chinese Philosophy | 3 |
| PHIL:2352 | Philosophical Issues | 3 |
| PHIL:4152 | Plato | 387 |

## Metaphysics/Epistemology

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| At least two of these: |  |  |
| PHIL:2343 | Philosophy East and West | 3 |
| PHIL:2437 | Introduction to Metaphysics | 3 |
| PHIL:2442 | Knowledge and the Threat of | 3 |
|  | Skepticism |  |
| PHIL:2480 | Language and Its Social Roles | 3 |
| PHIL:2534 | Philosophy of Religion | 3 |
| PHIL:2538 | Minds and Machines | 3 |
| PHIL:2542 | Minds and Brains | 3 |
| PHIL:3002 | Stoics and Epicureans, or How | 3 |
| PHIL:3112 | to Live Like a Roman Sage | 3 |
| PHIL:3143 | Medieval Philosophy | 3 |
| PHIL:3318 | Existentialism | 3 |
| PHIL:3604 | Twentieth-Century Philosophy | 3 |
|  | Introduction to Philosophy of | 3 |
| PHIL:4050 | Science | 3 |
| PHIL:4258 | Topics in Buddhist Philosophy | 3 |
| PHIL:4260 | Descartes | 3 |
| PHIL:4266 | Spinoza and Leibniz | 3 |
| PHIL:4346 | Kant | 3 |
| PHIL:4373 | Frege and Russell | 3 |
| PHIL:4377 | Heidegger | 3 |
| PHIL:4379 | Wittgenstein | 3 |
| PHIL:4586 | Quine | 3 |
| PHIL:4587 | Topics in Metaphysics | 3 |
| PHIL:4588 | Epistemology | 3 |
| PHIL:4589 | Philosophy of Mind | 3 |
| PHIL:4590 | Philosophy of Language | 3 |
|  | Foundations of Cognitive | 3 |
| Pcience | 3 |  |
| Philosophy of Science | 3 |  |
|  |  | 3 |

May be taken with permission of the instructor if content is applicable:

| PHIL:2352 | Chinese Philosophy | 3 |
| :--- | :--- | :--- |
| PHIL:3847 | Philosophical Issues | 3 |
| PHIL:4152 | Plato | 3 |
| PHIL:4153 | Aristotle | 3 |
| PHIL:4798 | Topics in Philosophy | 3 |
| PHIL:4920 | Research Practicum | 3 |
| PHIL:6100 | Seminar: Ancient Philosophy | 3 |
| PHIL:6200 | Seminar: Modern Philosophy | 3 |
| PHIL:6300 | Seminar: Philosophical Analysis | 3 |
| PHIL:6510 | Seminar: Metaphysics | 3 |
| PHIL:6520 | Seminar: Epistemology | 3 |
| PHIL:6620 | Seminar: Philosophy of Science | 3 |

## Ancient Philosophy

| This course: | Introduction to Symbolic Logic | 3 |
| PHIL:2603 |  |  |

## Combined Programs

## BA/JD

The Department of Philosophy participates in the $3+3$ program with the College of Law which allows students the opportunity to apply for admission during their junior year to the College of Law, and if accepted, to begin work on the Juris Doctor degree during their fourth year of study in the BA degree program.

For more information, see the 3+3 Program for Undergraduates on the College of Law website and the Juris Doctor, JD [p. 1720] (College of Law) in the catalog.

## Honors

## Honors in the Major

Students majoring in philosophy have the opportunity to graduate with honors in the major. In order to be admitted to the departmental honors program, a student must have taken and passed three courses required for the philosophy major. To graduate with honors in the major, students must complete the requirements for the major with a grade-point average (GPA) of at least 3.40 in philosophy coursework and a University of Iowa cumulative GPA of at least 3.33. In addition, they must write an acceptable honors thesis on a significant topic in philosophy of interest to them; students must enroll in PHIL:4920 Research Practicum while working on their honors thesis. Contact the department's director of undergraduate studies for more information.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the philosophy major.

## Career Advancement

Philosophy graduates have a variety of career options. Many continue their education by studying law or pursuing graduate work in philosophy or other disciplines. Philosophy graduates also enter into
such fields as business, medicine, scientific research, government, consulting, journalism, and K-12 education, among others.
Undergraduates are encouraged to enroll in PHIL:3920 Philosophy in Public at least one time before graduating in order to get a head start on their career trajectory. Students who intend to teach philosophy in a college setting must earn a graduate degree.

Philosophy majors earn among the very highest scores on the Law School Admission Test (LSAT), the Graduate Management Admission Test (GMAT), the Medical College Admission Test (MCAT), and the Graduate College Record Exam (GRE) General Test.

The Pomerantz Career Center offers multiple resources to help students with résumé writing, career exploration, interview skills, finding internships and jobs, and preparing for the University of Iowa job and internship fair.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least one course in the major.
Before the seventh semester begins: at least five courses in the major and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: at least six courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b PHIL: 1861 fulfills a GE requirement. This course may also count as credit toward the major.
c Students may include no more than 6 s.h. of 1000-level PHIL courses toward the major.
d Students may choose from PHIL:1033, PHIL:1034, PHIL:1401, PHIL:1636, or PHIL:1861. A student is not required to take any 1000-level courses for the major, but a 1000-level course often serves as an important introduction to help a student determine which particular topics they might want to pursue at a more advanced level.
e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
f PHIL:1636 is recommended for the GE CLAS Core Quantitative or Formal Reasoning requirement. It is not a major requirement.
g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
h Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
i Only 3 s.h. of PHIL:4920 Research Practicum may be counted toward the major and toward the 4000-level course and area requirement.
j Students complete 30 s.h. of philosophy courses (prefix PHIL), of which at least two courses must be numbered 4000 or above.
k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Philosophy, Minor

## Requirements

The undergraduate minor in philosophy requires a minimum of 15 s.h. in philosophy courses, including at least 9 s.h. in courses numbered 2000 or above. At least 12 s.h. for the minor must be taken at the University of Iowa. Students must maintain a cumulative gradepoint average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.
See Courses [p. 855] in this section of the catalog for a complete listing of philosophy courses.
Students may count only one of these courses toward the minor.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| PHIL:3902 | Workshop: Analytical Skills for <br> the LSAT | 3 |
| PHIL:3904 | Workshop: Analytical Skills for <br> the GMAT | 3 |
| PHIL:3906 | Workshop: Analytical Skills for <br> the MCAT | 3 |
| PHIL:3908 | Workshop: Analytical Skills for <br> the GRE | 3 |

Contact the director of undergraduate studies for more information.

## Philosophy, MA

## Learning Outcomes

- Breadth of knowledge: demonstrate knowledge of a wide range of areas in philosophy-metaphysics and epistemology; value theory; history of philosophy; and logic, philosophy of mathematics, and philosophy of science.
- Depth of knowledge: demonstrate advanced knowledge in at least one major subarea of philosophy.
- Scholarship and research skills: develop the skills required to conduct rigorous philosophical research, including philosophical writing and communication skills; and the ability to engage others' work.
- Professionalization and career preparation: understand the disciplinary norms and standards of research, and of professional and collegial engagement with others; and develop a portfolio and skills contributing to one's career prospects, guided by one's career goals and interests, and informed by knowledge of different possible career opportunities and trajectories.

## Requirements

The Master of Arts program in philosophy requires a minimum of 30 s.h. of graduate credit and is offered without thesis. Students must earn a program grade-point average of at least 3.00 . The MA is not offered as a terminal degree; it is awarded to students as they work successfully toward the PhD .

The MA with a major in philosophy requires the following coursework.

## Metaphysics and Epistemology

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| Two of these (with earned grades of B or higher): |  |  |
| PHIL:4379 | Quine | 3 |
| PHIL:4586 | Topics in Metaphysics | 3 |
| PHIL:4587 | Epistemology | 3 |
| PHIL:4588 | Philosophy of Mind | 3 |
| PHIL:4589 | Philosophy of Language | 3 |
| PHIL:4590 | Foundations of Cognitive | 3 |
|  | Science |  |
| PHIL:6300 | Seminar: Philosophical Analysis | 3 |
| PHIL:6510 | Seminar: Metaphysics | 3 |
| PHIL:6520 | Seminar: Epistemology | 3 |

## Ancient and Medieval Philosophy and Modern Philosophy

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Two of these (with earned grades of B or higher): |  |  |
| Ancient and Medieval Philosophy |  |  |
| PHIL:4152 | Plato | 3 |
| PHIL:4153 | Aristotle | 3 |
| PHIL:6100 | Seminar: Ancient Philosophy | 3 |
| Modern Philosophy |  | 3 |
| PHIL:4260 | Spinoza and Leibniz | 3 |
| PHIL:4266 | Kant | 3 |
| PHIL:4377 | Wittgenstein | 3 |
| PHIL:6200 | Seminar: Modern Philosophy | 3 |

## Logic, Philosophy of Science, and Philosophy of Mathematics

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these (with an earned grade of B or higher): |  |  |
| PHIL:4346 | Frege and Russell | 3 |
| PHIL:4691 | Mathematical Logic | 3 |
| PHIL:4692 | Modal Logic | 3 |
| PHIL:4694 | Philosophy of Science | 3 |
| PHIL:6620 | Seminar: Philosophy of Science | 3 |

## Value Theory

| Course \# | Title | Hours |
| :--- | :--- | :--- |
| One of these (with an earned grade of B or higher): |  |  |
| PHIL:4375 | Rawls's Political Philosophy | 3 |
| PHIL:4480 | Analytic Ethics | 3 |
| PHIL:4481 | Issues in Philosophy of Law | 3 |
| PHIL:4482 | Early Modern Ethics | 3 |
| PHIL:4485 | Political Philosophy | 3 |
| PHIL:6400 | Seminar: Ethics | 3 |

Students may be able to apply PHIL:4798 Topics in Philosophy or a research course toward one of the requirement areas. Contact the graduate studies director for more information.

## Electives

All students must complete 12 s.h. in coursework numbered 4000 or above. They should consult the graduate studies director for approval of elective coursework.

## Final Examination

Students must pass an oral final examination that will not exceed three hours in length. They are informed of at least one of the exam questions no later than one week before their exam. Students who fail may petition the MA Examination Committee for a second opportunity to pass the exam. The second exam must be scheduled not sooner than three months, nor later than one year, after the date of the examination.

## Combined Programs

## MA/JD

The Department of Philosophy and the College of Law offer a combined Master of Arts/Juris Doctor program. MA/JD students may count 12 s.h. earned in the combined program toward both degrees. They must earn 18 of the 30 s.h. required for the MA in graduate-level philosophy courses (the usual requirement is 24 s.h.). They also must earn a minimum of $36 \mathrm{~s} . \mathrm{h}$. in undergraduate and graduate philosophy courses, combined (the usual requirement is 42 s.h.).

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

For more information about the JD, see Juris Doctor, JD [p. 1720] (College of Law) in the catalog.

## Admission

[^4]
## Career Advancement

The graduate program is designed to train teachers and scholars in philosophy. The Department of Philosophy also is invested in helping students to use their philosophical training careers outside of academia.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Philosophy, PhD

The main areas of concentration in the graduate curriculum are metaphysics, epistemology, history of philosophy, philosophy of science, social and political philosophy, logic, and value theory.

## Learning Outcomes

- Breadth of knowledge: demonstrate knowledge of a wide range of areas in philosophy - metaphysics and epistemology; value theory; history of philosophy; and logic, philosophy of mathematics, and philosophy of science.
- Depth of knowledge: demonstrate advanced knowledge in a primary area of specialization and substantial knowledge in a distinct, secondary area, to support teaching and potentially research in that area.
- Scholarship and research skills: develop specific research projects, including the central project of the dissertation; and develop the skills required to conduct research at a professional level, including philosophical writing and communication skills, the ability to engage others' work, and the ability to make substantial contributions in the field.
- Teaching skills and pedagogy: demonstrate effective teaching skills that are in line with pedagogical standards in the discipline, acquire teaching competence in a wide range of areas, and develop pedagogical tools for effective engagement with their students.
- Professionalization and career preparation: understand the disciplinary norms and standards of research, professional and collegial engagement with others, and responsibilities related to teaching; and develop a portfolio and skills contributing to one's career prospects, guided by one's career goals and interests, and informed by knowledge of different possible career opportunities and trajectories.

## Requirements

The Doctor of Philosophy program in philosophy requires a minimum of 72 s.h. of graduate credit. Graduate students must take Department of Philosophy courses (prefix PHIL) that are numbered 4000 and above. Students must earn a program grade-point average of at least 3.00. Candidacy for the doctoral program is determined by a formal vote of the entire Department of Philosophy faculty, usually after a student has completed three semesters of graduate study in residence.

Requirements include courses in metaphysics, epistemology, history of philosophy, logic, philosophy of science, and value theory. See Courses [p. 855] in this section of the catalog for a complete listing of philosophy courses.
Students are required to take a comprehensive examination that includes both a written dissertation prospectus and an oral defense. Upon successfully completing the exam, they begin work on their dissertation. There is no world language requirement. Contact the graduate studies director for more information.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Career Advancement

The graduate program is designed to train teachers and scholars in philosophy. The Department of Philosophy also is invested in
helping students to use their philosophical training careers outside of academia.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

|  | Hours | 3 |
|  | Total Hours | 72 |

a Students must take Department of Philosophy courses (prefix PHIL) that are numbered 4000 and above; graduate transfer credits of up to 9 s.h. (maximum of 3 s.h. for any distribution area) allowed upon approval.
b Four main areas: 1) Metaphysics and Epistemology (metaphysics, epistemology, philosophy of mind, philosophy of language, philosophy of religion); 2) History (ancient philosophy, medieval philosophy, early modern philosophy, 19th century philosophy, 20th century philosophy; 3) Logic/Philosophy of Science/Philosophy of Mathematics (logic, philosophy of science, philosophy of mathematics); 4) Value Theory (ethics, aesthetics, political philosophy, philosophy of law).
c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
d Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.
e 9 s.h. total coursework required with grades of B or better, 3 s.h. of which should be in ancient philosophy and 3 s.h. in modern philosophy.
f 9 s.h. total coursework required with grades of B or better, 3 s.h. of which should be a seminar.
g 9 s.h. total coursework required with grades of B or better.
h Course on varied topics in the profession: pedagogy, writing, publication, career preparation, etc.
i 6 s.h. total coursework required with grades of B or better.
$j$ Must take two additional courses in one of the four main areas of distribution; must be different from the student's area of specialization. Requested exceptions to this rule possible with approval.
k Can overlap with other requirements. Note: 9 s.h. of specialization coursework required. Must pass three courses in a specific area (e.g., metaphysics, epistemology, ancient, logic).

1 Should have completed all distribution and secondary area requirements.
mIncludes professionalization courses, research and thesis credit; must be numbered 4000 or above. May include coursework from other units relevant to one's philosophical research with approval.
n Written and oral exam, consisting of a written dissertation prospectus and oral defense of the prospectus.
o Work with advisor on research relevant to comprehensive exam (dissertation prospectus).
p Dissertation defense.

# Physics and Astronomy 

## Chair

- Mary Hall Reno

Director, Undergraduate Studies

- Jane M. Nachtman

## Director, Graduate Studies

- Vincent Rodgers

## Director, Research Operations

- John P. Prineas

Undergraduate majors: physics (BA, BS); applied physics (BS); astronomy (BA, BS)
Undergraduate minors: physics; astronomy
Graduate degrees: MS in physics; MS in astronomy; PhD in physics
Faculty: https://physics.uiowa.edu/people
Website: https://physics.uiowa.edu/
The Department of Physics and Astronomy provides comprehensive and rigorous instruction in all basic aspects of its subjects. It also provides research facilities and guidance in selected specialties for advanced individual scholarly work.

In addition to its undergraduate and graduate programs of study, the department offers several courses that undergraduate students in all majors may use to satisfy the GE CLAS Core Natural Sciences requirement. Look for courses with prefixes ASTR and PHYS under "Natural Sciences" in the GE CLAS Core [p. 19] section of the catalog. The department often offers First-Year Seminars designed for entering undergraduates.

The applied physics degree offers flexibility in the choice of concentration corresponding to career goals, and can also be customized beyond the existing areas of concentration.

Students may pair a BA in physics or astronomy or a BS in applied physics with a Master of Arts in Teaching (MAT), data science, or another postgraduate degree. More information can be found on the Department of Physics and Astronomy website.

The department also participates in an interdisciplinary doctoral program, the Program in Applied Mathematical and Computational Sciences [p. 1600] (Graduate College).

All of the department's courses and advanced laboratories are taught by faculty members. Faculty members also supervise associated laboratories taught by graduate students. Enrollment in courses beyond the elementary level is typically 15 to 20 students; there is ample opportunity for individual work. Special introductory courses are offered for students majoring in physics and astronomy and for others with a special interest in these subjects.

## Programs

## Undergraduate Programs of Study

## Majors

- Major in Physics (Bachelor of Arts) [p. 873]
- Major in Astronomy (Bachelor of Arts) [p. 876]
- Major in Physics (Bachelor of Science) [p. 879]
- Major in Applied Physics (Bachelor of Science) [p. 882]
- Major in Astronomy (Bachelor of Science) [p. 886]

## Minors

- Minor in Physics [p. 889]
- Minor in Astronomy [p. 890]

# Graduate Programs of Study 

Majors

- Master of Science in Physics [p. 891]
- Master of Science in Astronomy [p. 893]
- Doctor of Philosophy in Physics [p. 895]

## Facilities

The department has a number of well-equipped laboratories and observatories. Faculty, students, and staff access national supercomputers via the internet, and have access to high performance computing clusters on campus. The central machine shop is fully equipped and staffed by skilled instrument makers and machinists, and there are electronics and machine shops for use by advanced students and research staff.

Experimental research is conducted in astronomy (optical, radio, and X-ray), atomic and molecular physics, condensed matter physics, elementary particle physics, laser physics, medical physics, plasma physics, and space physics. Extensive facilities are available for the construction of specialized research equipment and for data processing and analysis.

State-of-the-art semiconductor materials and devices are grown in two molecular beam epitaxy machines. Ultrafast laser techniques are developed and used to probe electron transport, energy relaxation, recombination, and spin dynamics in the novel nanostructures grown in these machines. Experiments also are conducted on laser-induced coherent phenomena and coherent control of charge carriers in semiconductor nanostructures. The experimental condensed matter program is closely coordinated with the condensed matter theory group.
Plasma physics is an active area of experimental and theoretical research. Laboratory experiments studying plasma processes of importance in various space and astrophysical plasmas are performed in a Q machine, including experiments on waves and instabilities in dusty plasmas. Additional laboratory and microgravity experiments with dusty plasmas include studies of Coulomb crystals, shocks, and complex fluids. Glow discharges for plasma processing applications are studied using laser diagnostics and numerical simulations. Wave propagation and plasma particle dynamics also are studied in collisionless plasmas through laboratory experiments. Laser techniques are developed for measuring plasma flow and following particle orbits. Plasma theory efforts include analytical and numerical investigations of magnetic reconnection and turbulence in space and astrophysical plasmas; collaboration with laboratory and space plasma experimental groups in strongly coupled dusty plasmas, waves, and instabilities; and free electron lasers and hydrodynamic turbulence.
State-of-the-art laser systems are available for high-resolution spectroscopic measurement and ultrafast studies of molecular structure, for collisional relaxation and nonlinear optical effects in atomic and molecular systems, and for plasma diagnostics.
Experimental research in elementary particle physics is carried out at Fermi National Accelerator Laboratory, Stanford Linear Accelerator Center, CERN in Switzerland, and other international laboratories. The present generation of high-energy experiments has been designed to probe both the strong nuclear force and the weak interactions.
The department is well-equipped for research and instruction in observational astronomy. The primary optical instrument is a fully automated 15 -inch telescope at a dark-sky site in Arizona. The
telescope is equipped with CCD cameras and a variety of filters. There are 3-meter and 4.5-meter radio telescopes on the roof of Van Allen Hall, which are used for instruction and student research projects.
Research programs in galactic and extragalactic radio astronomy are carried out using the facilities of the National Radio Astronomy Observatory, including the Very Large Array and the Very Long Baseline Array, one element of which is 10 miles north of campus. Current long-term research activities include studies of the center of the Milky Way galaxy; investigations of extragalactic radio sources; the formation of powerful winds in young, luminous stars; radio-wave scattering in the interstellar and interplanetary media; and interacting binary stars. There is a research program in X-ray astronomy and a laboratory for instrument development. Research topics in X-ray astronomy concentrate on observations of X-ray emission from black holes and supernova remnants, using existing spacecraft.
Active theoretical research is carried on in astrophysics; atomic, molecular, and optical physics; condensed matter physics; elementary particle physics; laser physics; mathematical physics; nuclear physics; plasma physics; and space physics. An active mathematical physics seminar fosters the exchange of ideas between mathematics and physics.
The primary emphasis of Iowa's program in experimental and theoretical space physics is on studies of cosmic and heliospheric physics, magnetospheric physics, and magnetosphere-ionosphere interactions. Facilities are available for designing and constructing spaceflight instruments. Investigators in the department have flown instruments for studying plasmas, energetic charged particles, auroral images, plasma waves, and radio emissions on a wide variety of terrestrial and planetary spacecraft, including Pioneer 10 and 11, Dynamics Explorer, Voyager 1 and 2, Galileo, Polar, Cassini, and Mars Express.

- Physics Courses [p. 869]
- Astronomy Courses [p. 871]

## Physics Courses

## PHYS:1000 First-Year Seminar

1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

## PHYS: 1200 Physics of Everyday Experience

Principles of physics; basic motion, behavior of fluids, waves, temperature and heat, gravity and planetary motion, electricity and magnetism, optics, nuclear energy, radioactivity, and medical imaging technology; examples from everyday experience; for non-science majors. GE: Natural Sciences without Lab.

## PHYS:1400 Basic Physics 3-4 s.h.

Quantitative treatment of mechanics, electricity, heat, liquids, gases, and atomic, nuclear, and elementary particle physics. Requirements: must have completed high school trigonometry or achieved a minimum ALEKS score of $75 \%$. GE: Natural Sciences with Lab; Natural Sciences without Lab.

## PHYS: 1409 Basic Physics Lab

1 s.h.
Laboratory for PHYS:1400. Corequisites: PHYS:1400 (if not taken as a prerequisite). GE: Natural Sciences Lab only.

## PHYS:1410 Physics of Sound

3-4 s.h.
Acoustical foundations of music; production of sound by vibrating objects, properties of sound waves, vocal acoustics, hearing, room acoustics, principles of electroacoustics. GE: Natural Sciences with Lab; Natural Sciences without Lab.

PHYS: 1511 College Physics I
4 s.h.
Algebra-based treatment of mechanics, waves, thermodynamics, and special relativity. Requirements: must have completed high school trigonometry or achieved a minimum ALEKS score of 75\%. GE: Natural Sciences with Lab.
PHYS: 1512 College Physics II
4 s.h.
Continuation of PHYS:1511; algebra-based treatment of electricity, magnetism, light, and modern physics. Prerequisites: PHYS:1611 or PHYS:1511. GE: Natural Sciences with Lab.
PHYS:1611 Introductory Physics I 4 s.h.
Calculus-based treatment of mechanics, waves, and thermodynamics. Corequisites: MATH:1550 or MATH:1850. GE: Natural Sciences with Lab.
PHYS: 1612 Introductory Physics II 4 s.h.
Continuation of PHYS:1611; calculus-based treatment of electricity, magnetism, and light. Prerequisites: PHYS:1611. Corequisites: MATH:1560 or MATH:1860. GE: Natural Sciences with Lab.
PHYS:1619 Introductory Physics II Lab 1 s.h.
Laboratory for PHYS:1612. Requirements: 3 s.h. in PHYS:1612. GE: Natural Sciences Lab only.

## PHYS:1701 Physics I

4 s.h.
Introduction to physics; calculus-based treatment of Newtonian mechanics for point particles and rigid bodies; conservation laws. Offered fall semesters. Corequisites: MATH:1850. Requirements: physics or astronomy major. GE: Natural Sciences with Lab.
PHYS:1702 Physics II
4 s.h.
Continuation of PHYS:1701; introduction to fluid mechanics, electricity, magnetism (Maxwell's equations). Offered spring semesters. Prerequisites: PHYS:1701. Corequisites: MATH:1860.
Requirements: physics or astronomy major. GE: Natural Sciences with Lab.
PHYS:1999 Undergraduate Seminar arr.
Selected topics in physics and astronomy; discussion, presentations.
PHYS:2703 Physics III
4 s.h.
Continuation of PHYS:1702; introduction to physics; calculus-based treatment of electromagnetic waves and optics; mechanical and sound waves; thermal physics. Offered fall semesters. Prerequisites: PHYS:1702.
PHYS:2704 Physics IV 3-4 s.h.
Introduction to quantum mechanics and other topics in modern physics, including special relativity, atomic and solid state physics. Offered spring semesters. Prerequisites: (PHYS:1612 or PHYS:2703) and (MATH:1860 or MATH:1550). Requirements: for 3 s.h. optionnonmajor.
PHYS:2905 Programming for Physics 2 s.h.
Introduction to scientific programming for applications in physics.
PHYS:2990 Reading in Physics
arr.
Selected topics in physics.
PHYS:3500 Undergraduate Practicum
arr.
Experiences that provide special opportunities for students to gain practical and hands-on training related to topics in physics; practicums typically arranged by individual faculty members. Requirements: application and acceptance into practicum.

## PHYS:3710 Intermediate Mechanics

3 s.h.
Introduction to Newtonian mechanics; noninertial reference systems; central forces, celestial mechanics; rigid body motion; Lagrangian and Hamiltonian equations of motion; small oscillations. Prerequisites: (PHYS:1611 or PHYS:1511 or PHYS:1701) and (MATH:1860 or MATH:1560).

## PHYS:3730 Statistical Physics

Integrated introduction to subjects of thermodynamics, statistical mechanics, classical and quantum statistics of interacting particles; kinetic theory; emphasis on applications. Prerequisites: PHYS:2704.

## PHYS:3741 Introduction to Quantum Mechanics I

 3 s.h.Superposition principle, Stern-Gerlach experiment, linear operators, measurement theory, time evolution, angular momentum, wave mechanics in one dimension, one-dimensional harmonic oscillator, two-body problems with central forces, and the hydrogen atom. Prerequisites: MATH:2850 and PHYS:2704 and MATH:2700.

## PHYS:3742 Introduction to Quantum Mechanics II 3 s.h.

Continuation of PHYS:3741; Perturbation theory, variational methods, WKB approximation, scattering, Helium atom, periodic table, atomic spectroscopy, transition rates, and other selected applications. Prerequisites: PHYS:3741.

## PHYS:3756 Intermediate Laboratory

3 s.h.
Introduction to instruments and techniques of experimental physics and basic skills needed for carrying out experimental physics research; hands-on use of a variety of instruments and equipment. Prerequisites: PHYS:2704. Corequisites: PHYS:3811.
PHYS:3811 Electricity and Magnetism I
3 s.h.
Introduction to electricity and magnetism; topics include electrostatics, magnetostatics, potential theory, and electric and magnetic fields in matter. Prerequisites: (MATH:3550 or MATH:2850) and (PHYS:1612 or PHYS:1702 or PHYS:1512).
PHYS:3812 Electricity and Magnetism II 3 s.h.
Continuation of PHYS:3811; introduction to electricity and magnetism; topics include Maxwell's equations, electrodynamics, electromagnetic waves, radiation, and special relativity. Prerequisites: PHYS:3811.

## PHYS:3850 Electronics

4 s.h.
Design and construction of small circuits; use of measurement instruments-oscilloscope, multimeter, function generator; circuits, including transistors, operational amplifiers, digital, analog-to-digital conversion. Prerequisites: PHYS:1512 or PHYS:1612 or PHYS:1702. Requirements: physics or astronomy major.

## PHYS:4720 Introductory Optics <br> 3 s.h.

Wave motion and superposition, electromagnetic theory, photons, propagation of light, geometrical and physical optics, interference, diffraction, polarization, and Fourier optics; optical components, devices, and systems. Prerequisites: (PHYS:1512 or PHYS:2703 or PHYS:1612) and (MATH:1560 or MATH:1860). Same as ECE:4720.

## PHYS:4726 Electro Optics

Wave equation solutions; optical birefringence; finite beam propagation in free space, dielectric waveguides and fibers; optical resonators; nonlinear phenomena; electro-optic, acousto-optic modulation; optical detection, noise; application to communication systems. Requirements: for ECE:5790—ECE:3700; for PHYS:4726— PHYS:3812. Same as ECE:5790.

## PHYS:4728 Introductory Solid State Physics

Phenomena associated with solid state; classification of solids and crystal structures, electronic and vibrational properties in solids; thermal, optical, magnetic, dielectric properties of solids. Prerequisites: PHYS:3741. Same as ECE:4728.
PHYS:4731 Plasma Physics I
3 s.h.
Physics of ionized gases, including orbit theory, guiding center motion, adiabatic invariants, ionization balance description of plasmas by fluid variables and distribution functions; linearized wave motions, instabilities; magnetohydrodynamics. Prerequisites: PHYS:3812.

PHYS:4740 Elementary Particles and Nuclear Physics 3 s.h. Accelerators, particle detectors, passage of radiation through matter; nuclear structure, nuclear reactions; quark model of hadrons; strong, electromagnetic, weak interactions of elementary particles; gauge theories, intermediate vector bosons; unification of electromagnetic and weak interactions. Prerequisites: PHYS:3741.
PHYS:4750 Advanced Laboratory $\quad 3$ s.h.
Advanced experimental work and development of new experiments. Prerequisites: PHYS:3756.
PHYS:4761 Mathematical Methods of Physics I 3 s.h.
Functions of complex variables, integration methods, linear vector spaces, tensors, matrix algebra. Prerequisites: MATH:2850.

## PHYS:4762 Mathematical Methods of Physics II 3 s.h.

Continuation of PHYS:4761; Hilbert space, special functions, Fourier transform and expansions in orthogonal polynomials, differential equations, Green's functions. Prerequisites: PHYS:4761.
PHYS:4820 Optical Signal Processing
Linear systems description of optical propagation; diffraction and angular plane wave spectrum; lenses as Fourier transformers, lens configurations as generalized optical processors; lasers, coherence, spatial frequency analysis; holography; convolvers, correlators, matched filters; synthetic aperture radar; optical computing. Requirements: for ECE:5780—ECE:3700; for PHYS:4820— PHYS:3812. Same as ECE:5780.
PHYS:4860 Computational Physics 3 s.h.
Introduction to contemporary use of computers by physicists; topics such as numerical solutions of ordinary differential equations in classical mechanics, boundary value problems in electricity and magnetism, eigenvalue problems in quantum mechanics, Monte Carlo simulations in statistical mechanics, methods of data analysis. Prerequisites: PHYS:3741 and PHYS:3811 and PHYS:3710.
PHYS:4905 Special Topics in Physics arr. Introduction to scientific programming using the Python language and linear algebra for applications in physics.
PHYS:4990 Reading in Physics
arr.
Selected topics in physics.
PHYS:4999 Undergraduate Research
arr.
Supervised research leading to written report or oral presentation.
PHYS:5000 Workshops and Special Training in Physics arr. Workshops and special training opportunities for postbaccalaureate students; may include collaborations with other departments, institutions, or externally funded research organizations.
PHYS:5710 Classical Mechanics 3 s.h.
Dynamics of mass points; Lagrange multipliers, small oscillations, Hamilton's equations; canonical transformations, Hamilton-Jacobi theory; chaos. Prerequisites: PHYS:3710.
PHYS:5730 Statistical Mechanics I
Probability concepts; kinetic equations; classical and quantum equilibrium statistical mechanics with applications, including ideal and imperfect gases and phase transitions, irreversible processes, fluctuation-dissipation theorems. Prerequisites: PHYS:3730 and PHYS:3741.
PHYS:5741 Quantum Mechanics I
Nonrelativistic quantum mechanics, Schrödinger wave mechanics, Hilbert space methods, perturbation theory, scattering, spin and angular momentum, identical particles, selected applications, introduction to relativistic theory. Prerequisites: PHYS:3741 and PHYS:3742.

PHYS:5742 Quantum Mechanics II
3 s.h.
Continuation of PHYS:5741. Prerequisites: PHYS:5741.
PHYS:5805 Advanced Programming for Physics 2 s.h.
Introduction to scientific programming for applications in physics.

PHYS:5811 Classical Electrodynamics I 3 s.h.
Advanced electromagnetostatics, boundary value problems, Green's functions, Maxwell's equations, radiation theory, physical optics, multipole expansion of radiation field.
PHYS:5812 Classical Electrodynamics II
3 s.h.
Special relativity, motion of charges in fields, theories of radiation reaction, special topics. Prerequisites: PHYS:5811.
PHYS: 5905 Special Topics in Physics
Selected topics in physics.
PHYS:6723 Quantum Optics and Nanophotonics
3 s.h.
Classical theory of emission and absorption of light, classical dispersion, semiclassical approach, thermal and laser sources, photons, photon statistics, quantization of electromagnetic fields, quantum coherence, noise, Jaynes-Cummings model, squeezed light, metamaterials, plasmonics, and polaritons. Prerequisites: PHYS:3741 and PHYS:3812.
PHYS:6725 Microfabrication and Thin Film Materials
Microfabrication and nanofabrication techniques and thin film materials growth used to create micro-, nano-, and optoelectronic devices that underlie modern technology; introduction to microfabrication techniques, physics, and chemistry; growth and properties of thin film materials upon which fabrication is performed; review of materials science; introduction to vacuum science and technology; survey of micro- and nano-devices; examination of thin film growth and deposition science, plasma etching and sputtering, micro- and nano-patterning and characterization, and film nucleation, growth, structure, and properties. Prerequisites: PHYS:2704 or CHEM:4430 or ME:3040. Recommendations: background in thermal and statistical physics, introductory quantum mechanics, and introductory chemistry. Same as ME:6725.

PHYS:7270 Ethics in Physics for Graduate Students
arr.
Responsible conduct and ethics training.
PHYS:7604 Ethics in Physics for Postdocs
0 s.h.
Responsible conduct and ethics training.
3 s.h.

PHYS:7720 Semiconductor Physics
Electronic, optical, and materials properties of semiconductors. Prerequisites: PHYS:4728 and PHYS:5742. Same as ECE:7720.
PHYS:7722 Advanced Condensed Matter 3 s.h.
Elementary excitations, plasmonics, exchange/magnetism, hyperfine interactions, resonance, superconductivity, topological materials. Prerequisites: PHYS:7720.
PHYS:7729 Plasma Physics II 3 s.h.
Continuation of PHYS:4731; cold plasma waves, MHD stability, kinetic theory of plasmas, including Landau damping and velocity space instabilities; nonlinear evolution. Prerequisites: PHYS:4731.

## PHYS:7730 Advanced Plasma Physics I

3 s.h.
Microscopic plasma behavior: statistical mechanics of plasmas; Liouville equation; BBGKY hierarchy; Fokker-Planck equation and relaxation processes; Balescu-Lenard equation; Vlasov equation and linearized wave motion; shocks, nonlinear plasma motions, and instabilities; fluctuations and radiation processes; topics from recent literature.
PHYS:7740 Introduction to Quantum Field Theory 3 s.h.
Quantization of relativistic and nonrelativistic field theories,
covariant perturbation theory, theory of renormalization, dimensional regularization, renormalization group theory, introduction to gauge theories and anomalies. Prerequisites: PHYS:5742.

## PHYS: 7746 Particle Physics

3 s.h.

PHYS:7760 General Relativity
2-3 s.h.
Einstein's theory of gravitation; principles of general relativity.
PHYS:7761 Cosmology 3 s.h.
Einstein's theory of general relativity radically changed the way we understand the cosmos by providing a mathematical description of space-time itself-this is cosmology; the last three decades have shown remarkable evidence that cosmology is an experimentally testable theory; students explore mathematical underpinnings of cosmology by studying the early universe, the cosmic microwave background, inflation, big bang nucelosynthesis, neutrino physics, quantum field theory effects on space-time, and other issues. Prerequisites: PHYS:7760.
PHYS:7840 Quantum Gauge Theories 3 s.h. Gauge invariance, introductory group theory, Yang-Mills theories, electroweak theory, quantum chromodynamics, running coupling constants, operator product expansions, Ward identities, spontaneous symmetry breaking, chiral anomalies, instantons, monopoles, effective Lagrangians, supersymmetry, quantum gravity, introduction to string theory. Prerequisites: PHYS:7740.

## PHYS:7905 Special Topics in Physics arr.

PHYS:7920 Seminar: Condensed Matter Physics arr. Current research.
PHYS:7930 Seminar: Plasma Physics arr.
Current research. Same as ECE:7930.
PHYS:7936 Seminar: Space Physics arr.

## Current research.

## PHYS:7945 Seminar: Math/Physics <br> arr.

Current research.
PHYS:7946 Seminar: Nuclear and Particle Physics arr.
Current research.
PHYS:7990 Research: Physics
arr.
PHYS:7992 Individual Critical Study arr.
Essay on topic chosen in consultation with faculty member.
3 s.h. Requirements: candidacy for MS with critical essay.

## Astronomy Courses

ASTR:1000 First-Year Seminar
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).
ASTR:1060 Big Ideas: Origins of the Universe, Earth, and Life

3 s.h.
Origin of the universe, the biochemistry of life, and the origin of life
on Earth; for non-science majors. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as BIOL:1060, EES:1060.
ASTR:1070 Stars, Galaxies, and the Universe 3-4 s.h.
Students survey topics including the Sun; life cycles of stars including black holes and pulsars; diversity of galaxies including the Milky Way and distant quasars; cosmology-the history, structure, and fate of the universe; current results from recent astronomical observations; for non-science majors. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences with Lab; Natural Sciences without Lab.
ASTR:1079 Introductory Astronomy Laboratory
1 s.h.
Laboratory for ASTR:1070. GE: Natural Sciences Lab only.

Elementary particle properties and phenomenology, quark-parton models, quantum chromodynamics, unified theory of weak and electromagnetic interactions.

ASTR:1080 Exploration of the Solar System
4 s.h. ASTR:6790 Stellar Astrophysics
3 s.h.
Survey of the solar system; topics include physical properties of the planets, comets, and asteroids; origin of the solar system; search for extrasolar planetary systems; search for life in the universe; current results of recent planetary space missions; night sky observation; for non-science majors. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences with Lab.

## ASTR:1085 Citizen Astronomy 3 s.h.

Survey of topics in astronomy and astrophysics; topics include the Solar System and exoplanets, nearby stars in the Galaxy, distant galaxies and unseen black holes; focus on citizen science projects that allow students to examine real data; for non-science majors. GE: Natural Sciences without Lab.

## ASTR:1771 Fundamental Astronomy I: The Solar System and Exoplanets <br> 4 s.h.

Quantitative introduction to physical principles needed to understand astronomical phenomena (e.g., laws of motion, gravitation, radiation), astronomical instrumentation, properties structure, and evolution of solar system bodies, exoplanets, and the search for life. Requirements: four years of high school math. GE: Natural Sciences with Lab.

## ASTR:1772 Fundamental Astronomy II: Evolution of Stars, Galaxies, and the Universe

 4 s.h. Continuation of ASTR:1771; quantitative introduction to stellar, Galactic, and extragalactic astronomy; topics include the Sun, stellar evolution, stellar corpses such as neutron stars and black holes, the Milky Way galaxy, the interstellar medium, galaxies, cosmology, and fate of the universe. Prerequisites: ASTR:1771. Requirements: four years of high school math. GE: Natural Sciences with Lab.
## ASTR:2991 Reading in Astronomy arr.

Selected topics in astronomy.

## ASTR:3500 Undergraduate Practicum

arr.
Undergraduate practicum experiences that provide special opportunities for students to gain practical and hands-on training related to topics in astronomy; practicums typically arranged by individual faculty members. Requirements: application and acceptance into practicum.

## ASTR:3771 Introduction to Astrophysics I 3 s.h.

Topics include celestial mechanics, radiative transfer, stellar structure and evolution, and star formation; first in a two-semester sequence. Prerequisites: PHYS:2704 and ASTR:1772 and ASTR:1771 and (MATH:2850 or MATH:3550) and (MATH:2700 or MATH:2550). Recommendations: computer programming experience.
ASTR:3772 Introduction to Astrophysics II $\mathbf{3}$ s.h. Continuation of ASTR:3771; topics include post-main-sequence stellar evolution, stellar remnants, close binary stars, the Milky Way and other galaxies, active galactic nuclei, galaxy evolution, and cosmology; second in a two-semester sequence. Prerequisites: ASTR:3771.

ASTR:4850 Observational Techniques in Astronomy 3 s.h. Introduction to instruments of optical (and sometimes multiwavelength) astronomy and basic skills needed for carrying out observational astronomical research; hands-on use of observing equipment; nighttime observing sessions. Prerequisites: PHYS:2704 and ASTR:1772 and ASTR:1771.

## ASTR:4996 Reading in Astronomy arr.

ASTR:6782 Extragalactic Astronomy 3 s.h.
Normal and active galaxies, large scale structure, the early Universe, cosmology.

## ASTR:6785 The Interstellar Medium

 3 s.h.The interstellar medium; optical properties of small interstellar grains, radiative processes in interstellar gas, structure of HII regions, interstellar shock waves, supernova remnants, modification of interstellar medium by luminous stars, molecular clouds.

Stellar interiors, nuclear astrophysics; advanced topics.
ASTR:6870 Radiative Processes in Astrophysics 3 s.h.
Physics of stars including interiors, spectra, nuclear processes, plasma hydrodynamics, and the extreme physics of condensed final states.

## ASTR:6880 High Energy Astrophysics

3 s.h.
Detection of X-rays and gamma-rays, black holes and neutron stars, accretion onto compact objects, pulsars, supernova remnants, cosmic rays, and gamma-ray bursts.

ASTR:7775 Special Topics in Astrophysics 1-3 s.h. Advanced lectures.

## ASTR:7830 Space and Astrophysical Plasma Physics 3 s.h.

 Dynamics and evolution of space and astrophysical plasmas; heliosphere, planetary magnetospheres, accretion disks; plasma waves, shock waves, turbulence.ASTR:7970 Seminar: Astrophysics and Space Physics arr. Current research.
ASTR:7991 Research: Astronomy
arr.
Original research in observational, theoretical astronomy.

## Physics, BA

## Learning Outcomes

Physics majors will be able to:

- demonstrate competency in applying the basic laws of physics in classical and quantum mechanics, electromagnetism, thermodynamics, and statistical physics;
- solve complex, real-world problems using the principles of physics; and
- demonstrate competency in using basic instrumentation and in analyzing the data obtained.

## Requirements

The Bachelor of Arts with a major in physics requires a minimum of 120 s.h., including at least 44 s.h. of work for the major (minimum of 24 s.h. in physics plus 20 s.h. in supporting coursework). The BA program requires fewer physics courses than the BS program does, giving students a wider choice of electives. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

The major is designed for students who wish to build a foundation of knowledge in physics but do not plan a research-oriented career in the discipline. The BA program also is good preparation for students interested in secondary school science teaching; see "Teacher Licensure" below. Bachelor of Arts students majoring in physics who are interested in science teaching and in earning a graduate degree may enroll in a combined degree program offered by the College of Liberal Arts and Sciences and the College of Education; see "BA/ MAT (Science Education Subprogram)" under Combined Programs [p. 874] in this section of the catalog.

Students who earn a BA in physics may not earn a BS in applied physics or a BS in physics.

The BA with a major in physics requires the following courses or their equivalents. Substitutions may be allowed by exception through the department.

| Requirements | Hours |
| :--- | :--- |
| Mathematics Courses | 8 |
| Physics Courses | $15-19$ |
| Elective Physics Courses | $9-10$ |
| Supporting Coursework | 12 |

## Mathematics Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Both of these: |  |  |
| MATH:1850 | Calculus I | 4 |
| MATH:1860 | Calculus II | 4 |
| Or both of these: |  | 4 |
| MATH:1550 | Engineering Mathematics I: <br> Single Variable Calculus | 4 |
| MATH:1560 | Engineering Mathematics II: <br> Multivariable Calculus | 4 |

## Physics Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| These three courses: |  | 4 |
| PHYS:1701 | Physics I | 4 |
| PHYS:1702 | Physics II | 4 |

PHYS:2703
Physics III
4
Or these two courses:
PHYS:1611 Introductory Physics I
PHYS:1612 Introductory Physics II 4
Both of these:
PHYS:2704 Physics IV 4
PHYS:3756 Intermediate Laboratory

## Elective Physics Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Three of these: |  |  |
| PHYS:3710 | Intermediate Mechanics | 3 |
| PHYS:3741 | Introduction to Quantum | 3 |
|  | Mechanics I | 3 |
| PHYS:3811 | Electricity and Magnetism I | 4 |
| PHYS:3850 | Electronics | 3 |
| PHYS:4720 | Introductory Optics | 3 |
| PHYS:4728 | Introductory Solid State Physics | 3 |
| PHYS:4740 | Elementary Particles and | arr. |
|  | Nuclear Physics |  |

## Supporting Coursework

Students should work with their academic advisor to select courses that fit with their plan of study.

| Course \# $\quad$ Title | Hours |
| :--- | ---: |
| Coursework from one these STEM subject areas or | 12 |
| from coursework required for teacher licensure |  |
| actuarial science (prefix ACTS) |  |
| biochemistry and molecular biology (prefix BMB) |  |
| biology (prefix BIOL) |  |
| chemistry (prefix CHEM) |  |
| computer science (prefix CS) |  |
| earth and environmental sciences (prefix EES) |  |
| engineering (subject to departmental approval) |  |
| geography (prefix GEOG) |  |
| mathematics (prefix MATH), except MATH:1210 |  |
| physics (prefix PHYS) |  |
| psychology (prefix PSY) |  |
| statistics (prefix STAT) |  |

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BA may apply a maximum of $56 \mathrm{~s} . \mathrm{h}$. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the

College of Education and about TEP choices of majors leading to licensure.

## Double Major in Physics and Astronomy

Students working toward a Bachelor of Arts with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

## Combined Programs

## BA/MAT (Science Education Subprogram)

Bachelor of Arts students in physics who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, geoscience, or physics, the combined program enables students to earn a BA and MAT in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 19 s.h. of qualifying credit toward both degrees. For more information, see Science Education BA/MAT [p. 1418] in the Master of Arts in Teaching, MAT (College of Education) section of the catalog. Interested students should consult an advisor.

## Undergraduate to Graduate (U2G) Programs

Bachelor of Arts students in physics may pair their degree with an Undergraduate to Graduate (U2G) program, which allows earning a bachelor's and master's degree in five years of study. See the Undergraduate to Graduate (U2G) website for available programs.

## Honors

## Honors in the Major

Students majoring in physics have the opportunity to graduate with honors in their major. They must maintain a University of Iowa gradepoint average (GPA) of at least 3.33. During their junior and senior years, students must conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the physics major.

## Career Advancement

Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research,
engineering, software development, teaching, finance, biomedical research, or consulting.
The degree leads to careers in medicine, law, science-related administration, business, or technical writing. It also is good preparation for students interested in secondary school science teaching.

About $70 \%$ of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.
Before the third semester begins: MATH: 1860 Calculus II and PHYS: 1702 Physics II.
Before the fifth semester begins: PHYS:2703 Physics III, PHYS:2704 Physics IV, and up to four more courses in the major.
Before the seventh semester begins: two to four more courses in the major and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: two or three more courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social

Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Enrollment in math courses requires completion of a placement exam.
c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d While this course is not a major requirement, it is strongly recommended and a prerequisite for many physics and astronomy courses in the department.
e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
f See General Catalog for a list of approved courses.
g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Astronomy, BA

## Learning Outcomes

Astronomy majors will be able to:

- demonstrate understanding of the fundamental concepts in astrophysics such as gravity, the nature of light, the physical characteristics of matter, and the motions of astronomical objects in the night sky;
- demonstrate proficiency in each of the major areas of astronomy -cosmology, galaxies, accretion and compact objects, the life cycle, and properties of stars and solar system science;
- show a working knowledge of a broad array of astrophysical phenomena that are based upon fundamental concepts; and
- gain familiarity with astronomical observations, instrumentation, computational methods, and software.

## Requirements

The Bachelor of Arts with a major in astronomy requires a minimum of 120 s.h., including at least 49 s.h. of work for the major. The BA program requires fewer physics and mathematics courses than the BS program does, giving students a wider choice of electives. Students take calculus in addition to physics and astronomy courses, which include laboratories. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
The program is designed for students who wish to build considerable knowledge in astronomy but do not plan a research-oriented career in the field. It is appropriate for students planning careers in secondary school science teaching or science-related administration.

The BA with a major in astronomy requires the following courses or their equivalents. Substitutions may be allowed by exception through the department.

| Requirements | Hours |
| :--- | :--- |
| Mathematics Courses | 8 |
| Physics Courses | $24-29$ |
| Astronomy Courses | 17 |

## Mathematics Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Both of these: |  | 4 |
| MATH:1850 | Calculus I | 4 |
| MATH:1860 | Calculus II | 4 |
| Or both of these: |  | 4 |
| MATH:1550 | Engineering Mathematics I: <br> Single Variable Calculus | 4 |
| MATH:1560 | Engineering Mathematics II: <br> Multivariable Calculus |  |

## Physics Courses

If students select PHYS:3811 Electricity and Magnetism I, they must complete the prerequisite before they register for that course.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| These three courses: |  |  |
| PHYS:1701 | Physics I | 4 |
| PHYS:1702 | Physics II | 4 |
| PHYS:2703 | Physics III | 4 |
| Or these two courses: |  |  |
| PHYS:1611 | Introductory Physics I | 4 |

| PHYS:1612 | Introductory Physics II | 4 |
| :--- | :--- | :--- |
| All of these: |  | 4 |
| PHYS:2704 | Physics IV | 3 |
| PHYS:3710 | Intermediate Mechanics | 3 |
| PHYS:3756 | Intermediate Laboratory |  |
| One of these: |  | 3 |
| PHYS:3730 | Statistical Physics | 3 |
| PHYS:4720 | Introductory Optics |  |
| One of these: |  | 3 |
| PHYS:3811 | Electricity and Magnetism I | 4 |
| PHYS:3850 | Electronics |  |

## Astronomy Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Fundamental Astronomy I: The <br> Solar System and Exoplanets | 4 |
| ASTR:1771 | Fundamental Astronomy II: <br> Evolution of Stars, Galaxies, <br> and the Universe | 4 |
| ASTR:1772 | Introduction to Astrophysics I | 3 |
| ASTR:3771 | Introduction to Astrophysics II | 3 |
| ASTR:3772 | Observational Techniques in <br> ASTR:4850 | Astronomy |

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed above, including further work in mathematics. In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BA may apply a maximum of $56 \mathrm{~s} . \mathrm{h}$. earned in one department to the minimum $120 \mathrm{~s} . \mathrm{h}$. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

## Double Major in Physics and Astronomy

Students working toward a Bachelor of Arts with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of $56 \mathrm{~s} . \mathrm{h}$. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

## Honors

## Honors in the Major

Students majoring in astronomy have the opportunity to graduate with honors in their major. They must maintain a University of Iowa gradepoint average (GPA) of at least 3.33. During their junior and senior years, students must conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the astronomy major.

## Career Advancement

Astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting. Some graduates plan for careers in secondary school science teaching or science-related administration or plan to earn professional degrees.

About 70\% of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.
Before the third semester begins: math through MATH:1850 Calculus I and MATH: 1860 Calculus II; and PHYS:1701 Physics I and PHYS: 1702 Physics II.

Before the fifth semester begins: PHYS:2703 Physics
III, PHYS:2704 Physics IV, and at least one more course in the major.
Before the seventh semester begins: three more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: five more courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Astronomy, BA

Course Title
Hours

## Academic Career

## Any Semester

Research: students are strongly encouraged to be active participants in research within the department.
Students can pursue a double major in astronomy and physics and earn more than 56 s.h. from the department toward these degrees but must also complete at least 56 s.h. outside of the Department of Physics \& Astronomy.

h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Physics, BS

## Learning Outcomes

Physics majors will be able to:

- demonstrate competency in applying the basic laws of physics in classical and quantum mechanics, electromagnetism, thermodynamics, and statistical physics;
- solve complex, real-world problems using the principles of physics; and
- demonstrate competency in using basic instrumentation and in analyzing the data obtained.

## Requirements

The Bachelor of Science with a major in physics requires a minimum of 120 s.h., including at least 55 s.h. of work for the major (minimum of 42 s.h. in physics plus 16 s.h. in supporting coursework). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

Students must complete several required mathematics courses in addition to their required physics core. The department offers a wide range of upper-level electives and students are encouraged to explore different research areas. All students are strongly encouraged to get involved with research.

Students who earn a BS in physics may not earn a BS in applied physics or a BA in physics.

The BS with a major in physics requires the following courses or their equivalents. Substitutions may be allowed by exception through the department.

| Requirements | Hours |
| :--- | :--- |
| Mathematics Courses | $13-16$ |
| Introductory Physics Courses | $8-12$ |
| Physics Core Courses | 25 |
| Upper-Level Elective Courses | $9-11$ |

## Mathematics Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  | 4 |
| MATH:1850 | Calculus I | 4 |
| MATH:1860 | Calculus II | 4 |
| MATH:2700 | Introduction to Linear Algebra | 4 |
| MATH:2850 | Calculus III | 4 |
| Or all of these: |  | 4 |
| MATH:1550 | Engineering Mathematics I: | 4 |
| MATH:1560 | Single Variable Calculus |  |
|  | Engineering Mathematics II: | 4 |
| MATH:2550 | Multivariable Calculus |  |
|  | Engineering Mathematics III: | 2 |
| MATH:3550 | Matrix Algebra |  |
|  | Engineering Mathematics V: | 3 |
|  | Vector Calculus |  |

## Introductory Physics Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| These three courses: |  |  |
| PHYS:1701 | Physics I | 4 |
| PHYS:1702 | Physics II | 4 |

PHYS:2703
Physics III
Or these two courses:
PHYS:1611 Introductory Physics I
4
PHYS:1612 Introductory Physics II 4

## Physics Core Courses

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  | 4 |
| PHYS:2704 | Physics IV | 3 |
| PHYS:3710 | Intermediate Mechanics | 3 |
| PHYS:3730 | Statistical Physics | 3 |
| PHYS:3741 | Introduction to Quantum | 3 |
|  | Mechanics I |  |
| PHYS:3742 | Introduction to Quantum | 3 |
|  | Mechanics II | 3 |
| PHYS:3756 | Intermediate Laboratory | 3 |
| PHYS:3811 | Electricity and Magnetism I |  |
| PHYS:3812 | Electricity and Magnetism II |  |

## Upper-Level Elective Courses

Students can only take these courses once: PHYS:3850 Electronics, PHYS:4750 Advanced Laboratory, or ASTR:4850 Observational Techniques in Astronomy.

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed below, including further work in mathematics.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| PHYS:3850 | Electronics | 4 |
| PHYS:4750 | Advanced Laboratory | 3 |
| ASTR:4850 | Observational Techniques in | 3 |
|  | Astronomy |  |
| Two of these: | Electronics | 4 |
| PHYS:3850 | Introductory Optics | 3 |
| PHYS:4720 | Electro Optics | 3 |
| PHYS:4726 | Introductory Solid State Physics | 3 |
| PHYS:4728 | Plasma Physics I | 3 |
| PHYS:4731 | Elementary Particles and | 3 |
| PHYS:4740 | Nuclear Physics | 3 |
| PHYS:4750 | Advanced Laboratory | 3 |
| PHYS:4761 | Mathematical Methods of |  |
|  | Physics I | 3 |
| PHYS:4762 | Mathematical Methods of | 3 |
| PHYS:4820 | Physics II | 3 |
| PHYS:4860 | Optical Signal Processing | 3 |
| PHYS:4905 | Computational Physics | 3 |
| PHYS:5905 | Special Topics in Physics | 3 |
| ASTR:3771 | Special Topics in Physics | 3 |
| ASTR:3772 | Introduction to Astrophysics I | 3 |
| ASTR:4850 | Introduction to Astrophysics II | 3 |
|  | Observational Techniques in | 3 |
| Astronomy | 3 |  |

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BS may apply a maximum of $56 \mathrm{~s} . \mathrm{h}$. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who
earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their gradepoint average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.
To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Double Major in Physics and Astronomy

Students working toward a Bachelor of Science with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

## Honors

## Honors in the Major

Students majoring in physics have the opportunity to graduate with honors in their major. They must maintain a University of Iowa gradepoint average (GPA) of at least 3.33. During their junior and senior years, students must conduct an investigation under the guidance of a faculty member. Students must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the physics major.

## Career Advancement

Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

The degree provides preparation for careers in industry, employment in research laboratories, and graduate study in physics and related sciences.
About $70 \%$ of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1860 Calculus II and PHYS: 1702 Physics II.

Before the fifth semester begins: PHYS:2703 Physics III,
PHYS:2704 Physics IV, MATH:2700 Introduction to Linear Algebra, MATH:2850 Calculus III, and up to two more courses in the major.
Before the seventh semester begins: two to four more courses in the major and at least 90 s.h. earned toward the degree.
Before the eighth semester begins: two or three more courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Enrollment in math courses requires completion of a placement exam.
c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
f Students who choose PHYS:3850 as one of their two required laboratory courses are advised to take it before they take PHYS:3756 Intermediate Laboratory.
g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Applied Physics, BS

## Learning Outcomes

Applied physics majors will be able to:

- demonstrate competency in applying the basic laws of physics in a focused area of physics and a related applied field;
- solve complex, real-world problems using the principles of physics; and
- demonstrate competency in using theoretical tools, basic instrumentation, and in analyzing the data obtained.

## Requirements

The Bachelor of Science with a major in applied physics requires a minimum of 120 s.h., including at least 56-87 s.h. of work for the major. Total credit required for the major depends on a student's choice of concentration. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].

The major in applied physics is intended primarily for students interested in a broad program of study in physics combined with a significant concentration of courses in a field that has immediate application to high-technology industry. The degree provides a foundation for a wide range of employment opportunities in hightechnology industries, including research and development, product design and testing, sales, and quality control. It also is designed to include exposure to physics sufficient to allow students to continue with graduate studies in either physics or astronomy.
An essential component of each concentration is the successful completion of a related one-semester internship or practicum experience in a research laboratory (an applied physics research report is required for the latter option). Well-prepared students will be able to complete the degree in four years. Students should work closely with their advisors on a graduation plan.

All applied physics students complete a common set of courses that includes calculus, linear algebra, physics, and an experiential learning course. They also complete the courses required for their chosen concentration. The department encourages students to take additional coursework; advisors can suggest electives that will enrich programs and help students prepare for graduate work. Flexibility to customize an area of concentration or to develop a unique concentration is available in consultation with the applied physics coordinator.
Students who want to earn a double major in applied physics and astronomy must choose their coursework carefully; see "Double Major in Applied Physics and Astronomy" below.

Students who earn a BS in applied physics may not earn a BA or BS in physics.

The BS with a major in applied physics requires the following courses. Many upper-level physics courses have prerequisites; students should consult their advisors when choosing courses numbered 3000 or above.

| Requirements | Hours |
| :--- | :--- |
| Common Requirements | $34-41$ |
| Concentration Area Courses | $22-46$ |

## Common Requirements

Students in all concentrations must successfully complete the following courses or their equivalents.

## Mathematics

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: | Calculus I-II | 8 |
|  <br> MATH:1860 | Introduction to Linear Algebra | 4 |
| MATH:2700 | Calculus III | 4 |
| MATH:2850 | Engineering Mathematics I: | 4 |
| Or all of these: | Single Variable Calculus |  |
| MATH:1550 | Engineering Mathematics II: <br> Multivariable Calculus | 4 |
| MATH:1560 | Engineering Mathematics III: <br> Matrix Algebra | 2 |
| MATH:3550 | Engineering Mathematics V: <br> Vector Calculus | 3 |

## Physics

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these sequences: |  |  |
| PHYS:1611- | Introductory Physics I-II | 8 |
| PHYS:1612 |  | 12 |
| PHYS:1701 \& | Physics I-II - Physics III |  |
| PHYS:1702 \& | (strongly preferred) |  |
| PHYS:2703 |  | 4 |
| All of these: | Physics IV | 4 |
| PHYS:2704 | Intermediate Mechanics | 3 |
| PHYS:3710 | Introduction to Quantum | 3 |
| PHYS:3741 | Mechanics I | 3 |
| PHYS:3811 | Electricity and Magnetism I |  |

## Experiential Learning

Course \# Title
One of these:
A one-semester industrial internship (requires a
research report)
A one-semester practicum in a research laboratory
(requires a research report)

## Concentrations

Students select one of the four concentration areas below.

## Computer Science Concentration

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| All of these: |  |  |
| PHYS:3730 | Statistical Physics | 3 |
| PHYS:3756 | Intermediate Laboratory | 3 |

| PHYS:3742 | Introduction to Quantum Mechanics II | 3 |
| PHYS:3812 | Electricity and Magnetism II | 3 |
| PHYS:4750 | Advanced Laboratory | 3 |

## PHYS:4905 Special Topics in Physics (when topic is physics of the body) <br> Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed above, including further work in mathematics. In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BS may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation. <br> Double Major in Applied Physics and Astronomy

Students working toward a Bachelor of Science with a double major in applied physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

## Honors

## Honors in the Major

Students majoring in applied physics have the opportunity to graduate with honors in their major. Departmental honors students must maintain a University of Iowa grade-point average (GPA) of at least 3.33. To graduate with honors in the major, students must conduct an investigation under the guidance of a faculty member during their junior and senior years. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

## University of Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the applied physics major.

## Career Advancement

Applied physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.
About $70 \%$ of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1860 Calculus II and PHYS:1702 Physics II.

Before the fifth semester begins: PHYS:2703 Physics III, PHYS:2704 Physics IV, MATH:2700 Introduction to Linear Algebra, MATH:2850 Calculus III, one more course in the major, and up to four courses in another science or engineering department.

Before the seventh semester begins: two to four more courses in the major, up to three other science or engineering courses, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two or three more courses in the major or other science or engineering courses and all or part of an academic year research experience or a summer research experience or internship as approved by the applied physics coordinator.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Astronomy, BS

## Learning Outcomes

Astronomy majors will be able to:

- demonstrate understanding of the fundamental concepts in astrophysics such as gravity, the nature of light, the physical characteristics of matter, and the motions of astronomical objects in the night sky;
- demonstrate proficiency in each of the major areas of astronomy -cosmology, galaxies, accretion and compact objects, the life cycle, and properties of stars and solar system science;
- show a working knowledge of a broad array of astrophysical phenomena that are based upon fundamental concepts; and
- gain familiarity with astronomical observations, instrumentation, computational methods, and software.

## Requirements

The Bachelor of Science with a major in astronomy requires a minimum of 120 s.h., including at least 60 s.h. of work for the major. The program provides balanced and integrated coursework in astronomy, mathematics, and physics that prepares students for graduate studies in astronomy, astrophysics, or related science disciplines. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 19].
Students must complete several required mathematics courses in addition to the required physics and astronomy core. The department offers a wide range of upper-level electives and students are encouraged to explore different research areas. All students are strongly encouraged to get involved with research.
The BS with a major in astronomy requires the following courses or their equivalents. Substitutions may be allowed by exception through the department.

| Requirements | Hours |
| :--- | :--- |
| Mathematics Courses | $13-16$ |
| Physics Core Courses | $24-28$ |
| Astronomy Core Courses | 17 |
| Upper-Level Physics Courses | $6-7$ |
| Optional Upper-Level Elective Courses |  |

## Mathematics Courses

| Course \# | Title | Hours |

| PHYS:4740 | Elementary Particles and |  |
|  | Nuclear Physics | 3 |
| PHYS:4761 | Mathematical Methods of |  |

| PHYS:4762 | Mathematical Methods of <br> Physics II | 3 |
| :--- | :--- | ---: |
| PHYS:4905 | Special Topics in Physics | arr. |

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BS may apply a maximum of $56 \mathrm{~s} . \mathrm{h}$. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their gradepoint average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

## Double Major in Physics and Astronomy

Students working toward a Bachelor of Science with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

## Honors

## Honors in the Major

Students majoring in astronomy have the opportunity to graduate with honors in their major. They must maintain a University of Iowa gradepoint average (GPA) of at least 3.33. During their junior and senior years, students must conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.
Membership in the UI Honors Program is not required to earn honors in the astronomy major.

## Career Advancement

Astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

About $70 \%$ of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's

Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1850 Calculus I, MATH: 1860 Calculus II, and PHYS: 1702 Physics II.

Before the fifth semester begins: all of the remaining required math courses, PHYS:2703 Physics III, PHYS:2704 Physics IV, and two other courses in the major.

Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: three more courses in the major.
During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Astronomy, BS

Hours

## Academic Career

## Any Semester

Research: students are strongly encouraged to be active participants in research within the department.
Students can pursue a double major in astronomy and physics and earn more than 56 s.h. from the department toward these degrees but must also complete at least 56 s.h. outside of the Department of Physics \& Astronomy.

| Hours | 15 |
| :--- | :--- | ---: |
| Total Hours | $\mathbf{1 1 8 - 1 2 7}$ |

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative and Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Culture.
b Enrollment in math courses requires completion of a placement exam.
c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
e Typically this course is offered every other year. Check MyUI for course availability since offerings are subject to change.
f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
g Students who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements. See General Catalog for a list of appropriate courses.
h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Physics, Minor

## Requirements

The undergraduate minor in physics requires a minimum of 15 s.h. in physics coursework, including 12 s.h. taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.
The 12 s.h. taken at the University of Iowa must be chosen from these:

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| PHYS:1612 | Introductory Physics II | 4 |
| or PHYS:2703 | Physics III |  |
| PHYS:2704 | Physics IV | $3-4$ |

Physics courses numbered 3000 or above
Both PHYS:2703 Physics III and PHYS:2704 Physics IV have prerequisites, as do most physics courses numbered 3000 or above.
Students must complete a course's prerequisites before they may enroll in the course.

## Astronomy, Minor

## Requirements

The undergraduate minor in astronomy requires a minimum of 15 s.h. in astronomy and physics courses, including 12 s.h. of coursework numbered 3000 or above and 12 s.h. taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Coursework numbered 3000 or above must include 6 s.h. chosen from these:

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| ASTR:3771 | Introduction to Astrophysics I | 3 |
| ASTR:3772 | Introduction to Astrophysics II | 3 |
| ASTR:4850 | Observational Techniques in | 3 |
|  | Astronomy |  |

Remaining work may be chosen from any astronomy or physics courses numbered 3000 or above.

Most University of Iowa courses for the minor have prerequisites; students must complete a course's prerequisites before they may enroll in the course.

## Physics, MS

Graduate study in physics and astronomy is highly individualized. Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress.

## Learning Outcomes

Graduates will:

- understand the foundational principles that transcend many distinct areas, and learn the technical language, problem-solving skills, and training in technical listening and discussion;
- learn and practice advanced discourse in mathematical aspects that translate to physics;
- become familiar with the state-of-the-art experimental tools and equipment in the field;
- promote aspects of creativity and originality in the field and prepare for adaptability to new discoveries;
- learn and practice advanced discourse in experimental and observational aspects, including data and information mining, translating experimental observations to physical principles and vice versa; and
- learn analysis of data and computational skills as well as become familiar with state-of-the-art techniques for data processing.

## Requirements

The Master of Science program in physics requires a minimum of 30 s.h. of graduate credit. All students must earn the required 30 s.h. of graduate credit in courses numbered 4000 or above, with at least 15 s.h. in courses numbered 5000 or above. At least 24 s.h. must be completed under the auspices of the University of Iowa after admission to the Department of Physics and Astronomy. Students must maintain a program grade-point average of at least 2.75 .

Each student's plan of study should provide for as much advanced work as aptitude and previous preparation permit. Up to one-third of the program of study may be taken in related scientific fields other than physics (e.g., mathematics, chemistry, astronomy, geology, engineering).

The degree is offered with thesis or critical essay. Students who choose the thesis option must write a thesis based on an original experimental or theoretical investigation that they have conducted. Students may earn a maximum of 6 s.h. in PHYS:7990 Research: Physics or PHYS:7992 Individual Critical Study.

Students who choose the critical essay option must conduct an independent study of the literature on a particular area of physics and write a critical essay on that topic. Students may earn a maximum of 4 s.h. in PHYS:7990 Research: Physics or PHYS:7992 Individual Critical Study.

The MS may be a terminal degree or a step toward a PhD. In either case, the final examination is oral, conducted by a committee of three faculty members.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Students qualified for graduate study are encouraged to apply for fellowships and assistantships. Contact the Department of Physics and Astronomy chair.

## Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Sample Plan of Study

- learn and practice advanced discourse in experimental and observational aspects, including data and information mining, translating experimental observations to physical principles and vice versa; and
- learn analysis of data and computational skills as well as become familiar with state-of-the-art techniques for data processing.

## Requirements

The Master of Science program in astronomy requires a minimum of 30 s.h. of graduate credit. Students must complete a minimum of 30 s.h. of graduate work, including at least 12 s.h. from the courses listed below, at least 3 s.h. numbered 5000 or above, and the remainder in courses numbered at least 4000 or above. At least 24 s.h. must be completed under the auspices of the University of Iowa after admission to the Department of Physics and Astronomy. Seminars do not count toward the minimum of 30 s.h. required for the degree. All students must maintain a grade-point average of at least 2.75 .

Up to one-third of the program of study may be taken in related scientific fields (e.g., meteorology, geology, electrical engineering); selection of such courses is encouraged.

The degree is offered either with or without thesis. The MS may be a terminal degree or a step toward a PhD in physics with a subprogram and a dissertation in astronomy or astrophysics. In either case, the final examination is oral, conducted by a committee of three faculty members.

Students must select at least 12 s.h. from these.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| ASTR:6782 | Extragalactic Astronomy | 3 |
| ASTR:6785 | The Interstellar Medium | 3 |
| ASTR:6790 | Stellar Astrophysics | 3 |
| ASTR:6870 | Radiative Processes in | 3 |
|  | Astrophysics |  |

f No more than 4 s.h. may be taken from ASTR:7991 and PHYS:7992.
g Oral examination.

## Physics, PhD

Graduate study in physics and astronomy is highly individualized. The department does not offer a PhD in astronomy, but students may pursue a PhD in physics with an astronomy subprogram and a dissertation in astronomy.
Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress.

## Learning Outcomes

Graduates will

- understand the foundational principles that transcend many distinct areas, and learn the technical language, problem-solving skills, and training in technical listening and discussion;
- learn, practice, and discover advanced discourse in mathematical aspects that translate to physics;
- become familiar with the state-of-the-art experimental tools and equipment in the field;
- develop skills for creativity and originality in the field and promote communication of new discoveries;
- learn and practice advanced discourse in experimental and observational aspects, including data and information mining, translating experimental observations to physical principles and vice versa; and
- learn analysis of data and computational skills as well as become familiar with state-of-the-art techniques for data processing.

## Requirements

The Doctor of Philosophy program in physics requires a minimum of 72 s.h. of graduate credit. At least 39 s.h. must be earned at the University of Iowa to complete the residency requirement. For students interested in doing doctoral work in astronomy, the department offers an astronomy subprogram, including a dissertation, within the PhD program in physics. All students must maintain a program grade-point average of at least 3.00.

All students must earn at least 24 s.h. in departmental courses numbered 5000 or above. They may not count credit earned in PHYS:7990 Research: Physics, PHYS:7992 Individual Critical Study, ASTR:7991 Research: Astronomy, or seminars.

All students must take comprehensive examinations; participate in advanced seminars; do original research in experimental physics, theoretical physics, or astrophysics; and prepare and defend a written dissertation based on this work.

PhD students in physics without the astronomy subprogram must complete the following courses.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| PHYS:4761- | Mathematical Methods of | 6 |
| PHYS:4762 | Physics I-II (students who <br> pass a written examination are <br> exempt from this requirement) |  |
| PHYS:5710 | Classical Mechanics | 3 |
| PHYS:5730 | Statistical Mechanics I | 3 |
| PHYS:5741- | Quantum Mechanics I-II | 6 |
| PHYS:5742 | Classical Electrodynamics I-II | 6 |
| PHYS:5811- |  | 6 |
| PHYS:5812 |  |  |

These courses freely use advanced mathematics (e.g., complex variables, tensor analysis). An introduction is provided in PHYS:4761 Mathematical Methods of Physics I and PHYS:4762 Mathematical

Methods of Physics II. The selection of less advanced coursework depends on the adequacy of a student's preparation for graduate work; students' choice of more advanced and specialized courses depends on the direction in which their interests develop.

PhD students in physics with the astronomy subprogram must complete a total of six courses from the following.

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| Four of these: |  |  |
| ASTR:6782 | Extragalactic Astronomy | 3 |
| ASTR:6785 | The Interstellar Medium | 3 |
| ASTR:6790 | Stellar Astrophysics | 3 |
| ASTR:6870 | Radiative Processes in | 3 |
|  | Astrophysics |  |
| ASTR:6880 | High Energy Astrophysics | 3 |
| ASTR:7775 | Special Topics in Astrophysics | 3 |
| ASTR:7830 | Space and Astrophysical Plasma | 3 |
|  | Physics | 3 |
| PHYS:7760 | General Relativity | 3 |
| PHYS:7761 | Cosmology | 3 |
| Two of these: | Classical Mechanics | 3 |
| PHYS:5710 | Statistical Mechanics I | 3 |
| PHYS:5730 | Quantum Mechanics I | 3 |
| PHYS:5741 | Quantum Mechanics II | 3 |
| PHYS:5742 | Classical Electrodynamics I | 3 |
| PHYS:5811 | Classical Electrodynamics II | 3 |
| PHYS:5812 |  |  |

After a student has chosen a research specialty, the student must submit a formal thesis proposal and defend the proposal in an oral comprehensive exam. The appropriate thesis advisor then becomes the candidate's general advisor and the chair of the comprehensive and final examination committee. The comprehensive exam must be taken before the beginning of the fourth year of graduate study.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Students qualified for graduate study are considered for assistantships and encouraged to apply for fellowships and assistantships.

## Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be
discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must earn at least 24 s.h. in departmental courses numbered 5000 or above, and may not include credit earned in PHYS:7990, PHYS:7992, ASTR:7991, or seminars.
b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.
d Students who pass a written examination are exempt from this requirement.
e Work with faculty advisor to determine appropriate coursework and sequence.

## Political Risk Analysis

## Chair, Department of Political Science

- Brian H. Lai

Undergraduate certificate: political risk analysis
Faculty: https://clas.uiowa.edu/polisci/people/faculty
Website: https://clas.uiowa.edu/polisci/
The Certificate in Political Risk Analysis prepares students to work in a growing area of focus for many corporations and international organizations-political risk analysis or risk intelligence. Risk analysis focuses on the effect that country characteristics and events have on sovereign risk (the ability of a country to repay its debts), company security, supply chains, and the safety of individuals working or traveling in a country. Understanding this risk provides assistance to companies and organizations so that they can better manage their investments, assets, and activities in countries around the world based on threats they might face.
Career workshops, internships, and job opportunities also are provided.
The Certificate in Political Risk Analysis is administered by the Department of Political Science [p. 900].

## Programs

## Undergraduate Program of Study

## Certificate

- Certificate in Political Risk Analysis [p. 898]

## Political Risk Analysis, Certificate

The Certificate in Political Risk Analysis prepares students to work in this highly interdisciplinary area, which requires a keen understanding of business practices and the political situation facing countries. Political risk analysis focuses on the effect that country characteristics and events have on sovereign risk (ability of a country to repay its debts), company security, supply chains, and the safety of individuals working or traveling in a country. Understanding this risk is part of helping companies better manage their investments, assets, and activities in foreign countries based on threats that a company might face.

The certificate demonstrates to companies that students have the requisite training to work in this area. The political risk analysis certificate was developed in conjunction with individuals working in this area and the Association of International Risk Intelligence Professionals. Feedback about the curriculum has been received from individuals working in the industry so that it provides the training that students need to be competitive in this area. Alumni are active in assisting students with advice on internships and careers.

## Learning Outcomes

Students will be able to:

- demonstrate knowledge of relevant economic and risk principles for an organization;
- demonstrate knowledge of country and international system factors that influence an organization; and
- analyze these system factors to show how they impact the risk for an organization.

## Requirements

The undergraduate Certificate in Political Risk Analysis requires a minimum of 18 s.h. of credit. Students must maintain a grade-point average of at least 2.00 in work for the certificate. Certificate courses cannot be taken pass/nonpass. A maximum of 6 s.h. of transfer credit may be accepted toward certificate requirements, with the approval of the political risk analysis advisor.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.
The Certificate in Political Risk Analysis requires the following coursework.

## Core Courses

## Financial Risk Principles

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| This course: | Principles of Risk Management <br> and Insurance | 3 |
| FIN:3400 |  |  |

## Quantitative Analysis

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| One of these: |  |  |
| POLI:3000 | Analyzing Political Data | 3 |
| STAT:1020 | Elementary Statistics and | 3 |

| STAT:1030 | Statistics for Business | 4 |
| :--- | :--- | :--- |
| STAT:2020 | Probability and Statistics for <br> the Engineering and Physical | 3 |
| STAT:3510 | Sciences |  |

## Politics Foundation

| Course \# <br> One of these: | Title | Hours |
| :--- | :--- | :---: |
| POLI:1400 | Introduction to Comparative <br> Politics | 3 |
| POLI:1500 | Introduction to International <br> Relations | 3 |

## Elective Courses

Students select three courses from the following.

## Country and International Risk

| Course \# | Title | Hours |
| :---: | :---: | :---: |
| POLI:2415 | Latin American Politics | 3 |
| POLI:3405 | Authoritarian Politics | 3 |
| POLI:3408 | Chinese Politics and Society | 3 |
| POLI:3410 | Russian Foreign Policy | 3 |
| POLI:3411 | Democracy: Global Trends and Struggles | 3 |
| POLI:3420 | Southeast Asia: Politics and Development | 3 |
| POLI:3422 | Horn of Africa: Politics and Transnational Issues | 3 |
| POLI:3423 | The Middle East: Policy and Diplomacy | 3 |
| POLI:3426 | Outliers: Comparing Odd Countries | 3 |
| POLI:3428 | Statecraft, Diplomacy, and World Order | 3 |
| POLI:3450 | Problems in Comparative Politics | 3 |
| POLI:3503 | Politics of Terrorism | 3 |
| POLI:3504 | Globalization | 3 |
| POLI:3505 | Civil Wars | 3 |
| POLI:3506 | Consequences of War | 3 |
| POLI:3509 | International Courts: The Intersection of Law and Politics | 3 |
| POLI:3512 | International Conflict | 3 |
| POLI:3516 | The Politics of International Economics | 3 |
| POLI:3518 | Water Wars: Conflict and Cooperation | 3 |
| POLI:3522 | Ending Wars and Keeping Peace | 3 |
| POLI:3550 | Problems of International Politics | 3 |

## Experiential Learning Requirement

All students select one of the following after consultation with the political risk analysis advisor.

## Study Abroad

| Course \# Title | Hours |
| :--- | :---: | :---: |
| Students register for study abroad credit (prefix ABRD) |  |

## Research

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| POLI:3001 | Hawkeye Poll | 3 |
| POLI:3127 | Legislative Policy Seminar | arr. |
| POLI:3530 | Diplomacy Lab | arr. |
| POLI:4701 | Undergraduate Research <br> Tutorial | 3 |
| URES:3992 | Undergraduate Research and <br> Creative Projects | 0 |
| URES:3993 | Undergraduate Research and <br> Creative Projects | $1-4$ |
| URES:3994 | Undergraduate Research and <br> Creative Projects | $1-4$ |
| URES:3995 | Undergraduate Research Fellow | 0 |

## Internship

| Course \# | Title | Hours |
| :--- | :--- | ---: |
| POLI:4900 | Government and Politics | $1-3$ |
|  | Internship |  |

Another approved internship course

## Political Science

## Chair

- Brian H. Lai

Undergraduate major: political science (BA, BS)
Undergraduate minor: political science
Graduate degrees: MA in political science; PhD in political science
Faculty: https://politicalscience.uiowa.edu/people-0/faculty
Website: https://politicalscience.uiowa.edu
The Department of Political Science offers undergraduate majors and minors as well as graduate degree programs. In addition to the programs of study in political science, it offers the BA, BS, and minor in international relations, and the undergraduate Certificate in Political Risk Analysis [p. 898]. It collaborates with other departments to offer the Certificate in Social Science Analytics [p. 972]. The department also offers several courses that undergraduate students in all majors may use to fulfill GE CLAS Core [p. 19] requirements and a FirstYear Seminar designed for entering undergraduate students.

## Related Certificates

## Political Risk Analysis

The Certificate in Political Risk Analysis prepares students to work in this highly interdisciplinary area, which requires a keen understanding of business practices and the political situation facing countries. Political risk analysis focuses on the effect that country characteristics and events have on sovereign risk (ability of a country to repay its debts), company security, supply chains, and the safety of individuals working or traveling in a country. Understanding this risk is part of helping companies better manage their investments, assets, and activities in foreign countries based on threats that a company might face. The Department of Political Science collaborates with the College of Business to offer the undergraduate program in political risk analysis; see Political Risk Analysis [p. 897] in the catalog. The Department of Political Science administers the certificate.

## Social Science Analytics

The growth of big data and informatics calls for a new set of skills for social science students and an increased understanding of the logic of data collection and analysis. The certificate focuses on the application side of data analysis and allows focus to be on the specific research methods and quantitative skills using data-driven methods effective for more understanding in an increasingly complicated social-political world. The certificate offers an opportunity for interdisciplinary training on how data can be used to address important questions in the social sciences. The Department of Political Science collaborates with the departments of Geographical and Sustainability Sciences, Sociology and Criminology, and Statistics and Actuarial Science to offer the undergraduate program in social science analytics; see Social Science Analytics [p. 971] in the catalog. The Department of Political Science administers the certificate.
