Tuition Assessment Policy for Pursuit of Concurrent Post-Baccalaureate Degree Programs (Charge Type 10000)

When graduate and professional students are admitted to a second program of study, the program with the higher tuition rate is designated as the primary program college. After curricular review, which may include an articulation of cross-counted credit between programs (the plan of study for both degrees), by the Associate Provost for Graduate and Professional Education, the primary program college is responsible for obtaining approval of the tuition assessment plan from the Office of the Provost and reporting on program activity. Each program will provide tuition assessment information to their respective student populations.

All students admitted to a second program of study will be assessed tuition and fees at the primary program rate over the duration of their enrollment in the primary program.

Students enrolled in an undergraduate-to-graduate (U2G) combined degree program will be assessed tuition and fees at the undergraduate rate until the undergraduate degree is conferred. No tuition override will be applied in the second semester of the senior year (to assess grad-level tuition and fees) and students will not be eligible for graduate assistantships.

Exceptions to the rule of charging the primary program rate are possible if the following circumstances apply:

- Students will pay at least the full cost of the higher-priced primary program over the duration of their enrollment; and,
- Students enroll predominantly in courses offered by the secondary program in a given session.

Exception Override Protocol

Session-based exceptions are processed via an assessment override.

- An override reason code will be established by the Registrar's Office in MAUI billing to track the tuition assessment overrides.
- The primary program college submits an override request to the Registrar's Office which includes the applicable session, student name(s), id(s), and primary/secondary program information. The request is to be submitted at least two weeks prior to the generation of the first Ubill (Fall August 1st Ubill = mid-July; Spring January 1st Ubill = mid-December; Summer June 1st Ubill = mid-May).
- During the override session, the student maintains their primary degree enrollment classification, but their tuition group is lowered to the secondary program rate.
